Interested parties may file written exceptions to this decision with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by the 20th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreements and to the orders as amended, were formulated, was conducted at Concord, N.H., Framingham, Mass., Greenfield, Mass., and Hartford, Conn., on June 20–July 1, 1966, pursuant to a notice thereof which was issued May 19, 1966 (31 F.R. 7520) and a supplemental notice which was issued June 9, 1966 (31 F.R. 8242).

With respect to the Massachusetts–Rhode Island order the hearing was reopened on February 15–16, 1967 in conjunction with a joint emergency hearing involving the Massachusetts–Rhode Island, Connecticut and New York–New Jersey markets for consideration of the elimination of seasonal pricing and adoption of a "take-out-pay-back (Louisville)" plan for payment of producers. The hearing was again reopened on April 14–15, 1967, in conjunction with regional hearings on Federal orders generally to consider emergency Class I price increases. Decisions have been issued on the matters involved at each of these hearings and the amending orders became effective April 1 and May 1, 1967, respectively. A further reopening of the hearing is scheduled for June 19, 1967, as a part of a joint hearing for the six northeastern markets at which the appropriate level of surplus milk pricing will be considered.

The material issues on the record of the hearing relate to:

1. Extension of the Massachusetts–Rhode Island marketing area.
2. Modification of the pooling provisions in one or both orders with respect to:
   (a) Exempt distributing plants.
   (b) Supply plants.
   (c) Diversions.
   (d) Certified milk.
   (e) Exempt government agency.
   (f) Dairy farmer for other markets.
   (g) Pool milk definition.
3. Cooperative as a handler on farm bulk tank milk.
4. Definition and treatment of producer handlers.
5. Classification and assignment provisions.
6. Modification of pricing provisions with respect to:
   (a) Class I.
   (b) Class II.
7. Zoning and zone differentials.
8. Farm location differentials.
9. Payment provisions.
10. Miscellaneous and administrative provisions.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Extension of the Massachusetts–Rhode Island marketing area.* The Massachusetts–Rhode Island marketing area should be expanded by adding the New Hampshire counties of Belknap, Hillsboro, Merrimack, Rockingham, and Strafford, the towns of Ashland, Bridgewater, Bristol, Holderness and Plymouth in Grafton County, the towns of Dublin, Jaffery, Harrisville, Nelson, Marlboro, Roxbury, Sullivan, and Keene City in Cheshire County; and in addition, that portion of Essex County, Mass., not included in the present marketing area. Such expanded marketing area should be designated the Massachusetts–Rhode Island–New Hampshire marketing area.

The maximum area of extension as set forth in the proposals contained in the hearing notice included, in addition to the area herein proposed, the remainder of Cheshire County, Sullivan County, the towns of Enfield, Lebanon, Canaan, Hanover, Lyme, and Oxford in Grafton County, all in New Hampshire, the counties of Windham and Windsor and the towns of Thetford, Fairlee, and Bradford in Orange County, all in Vermont and all of the remaining nonfederally regulated area of Massachusetts except Berkshire and Nantucket Counties.

The area of extension as herein proposed is a relatively densely populated area. The principal cities and towns include Concord, Manchester, Nashua, Portsmouth, Dover, Rochester, Laconia, and Keene, New Hampshire; Amesbury, Newburyport, Gloucester, Ipswich, and Danvers, Massachusetts. The population of the New Hampshire portion of this territory is about 460,000 or 75 percent of the total population within the State. The population of the Essex County, Mass., portion of this territory is about 135,000. The total population in this additional area to be included in the marketing area equals about 11 percent of the population within the present marketing area.

This area of extension as herein recommended is served almost exclusively by presently regulated handlers and/or by handlers who would be fully regulated by virtue of their sales in the expanded marketing area. It insures a minimum involvement of outside unregulated handlers based on their existing sales patterns and at the same time encompasses the preponderance of the normal sales area of all handlers who would be regulated under the expanded order.

Regulation of fluid milk handlers who distribute within the area of extension herein proposed is necessary to assure orderly marketing conditions and effectuate the declared policy of the Act. There is presently a wide variation in prices paid by handlers for fluid milk which is distributed within this area.

Interstate milk procurement practices are common among handlers selling fluid milk in the area.

State regulatory agencies for many years have administered classified pricing programs applicable to handlers within the area. In recent years, however, such programs have been applicable to less than one-half of the milk distributed there due to the interstate procurement and sales practices which handlers are employing and over which such agencies have no pricing authority. Several of the larger handlers in the area now procure milk supplies almost exclusively from Vermont and Maine at prices substantially below the prices which they are required to pay for milk procured from producers within the States (New Hampshire and Massachusetts) in which their plants are located. Such out-of-State procurements have substantially displaced milk supplies from local producers. These displaced supplies have attached themselves to the Massachusetts–Rhode Island order pool.

During 1962 one handler, who also operates regulated plants under the Massachusetts–Rhode Island and Connecticut orders, constructed a fluid milk bottling plant at Portsmouth, N.H. The milk supply for this plant is obtained from Vermont sources at a price which is about the level of the Federal order blend price. The milk bottled in this plant is distributed through a chain of dairy stores which the handler opened in New Hampshire and the nonfederally regulated areas of Massachusetts. Some of such stores are located in Rockingham, Hillsboro, Merrimack, Strafford, and Belknap Counties of New Hampshire as well as Essex County, Mass.

Another of the larger handlers in the area proposed for expansion, who also operates a number of regulated plants under the Massachusetts–Rhode Island and Connecticut orders, receives about 3 million pounds of milk each month from out-of-State sources at his Manchester, N.H., plant from which milk is distributed in the New Hampshire counties of Hillsboro, Merrimack, Rockingham, Strafford, and in Essex County, Mass. Most of the milk supply for this plant is procured in the State of Maine at a cost significantly below the Federal order blend price. This low cost supply of milk is made possible by procuring the milk in conjunction with a supply of fluid milk for local distributing plants in the State of Maine.

The Maine Milk Control Commission establishes minimum classified milk prices for milk distributors in the State. The Class I price is the same as the Federal order city plant Class I price while the Class II (surplus) price is set 26 cents below the Federal order city plant Class II price. Under the Maine milk control law, milk sold in bulk outside of the State is classified and priced as Class II milk irrespective of its ultimate use. Thus the milk shipped to the Manchester plant is accounted for as Class II milk while the milk distributed as fluid milk in the local Maine markets is accounted for as Class I milk.

As a practical matter, to maintain a supply of milk the handler must return to his Maine producers an average price which is competitive with the Federal order blend price. However, this arrangement enables him to procure a substantial portion of his supply for fluid use at his New Hampshire plant at a cost even below the Federal order blend price.

This Manchester handler also procures some supplies in the State of Vermont for sale in New Hampshire and in Essex County, Mass. This milk is obtained at a price slightly above the blend price under the order. Prior to obtaining milk from these out-of-State sources this handler received milk from some 66 local New Hampshire producers who have subsequently been shifted to the Federal order market.

Another handler located in Portsmouth, N.H., dropped the last of his New Hampshire producers in 1964 and is now receiving his entire supply from some 25 producers located in southern Maine at a price slighity over the Federal order blend price applicable in that area. This milk is in turn distributed in Essex County, Mass., and the New Hampshire counties of Rockingham and Strafford.

Several other handlers operating bottling plants in the proposed additional area purchase bulk supplies of milk from Vermont sources at prices slightly over the order blend price. Such plants are located at Ipswich, Mass.; and Laconia, Milford, Manchester, West Franklin, Plymouth, and Nashua, N.H.

Handlers who purchase out-of-State milk supplies at prices approximating the Federal order blend price handle about one-half of all the milk distributed in the proposed area of extension in New Hampshire. About 10 percent is distributed by handlers presently regulated under the Massachusetts–Rhode Island order and the remainder is distributed by relatively small local dealers and producer handlers.

The procurement practices of the larger handlers in this proposed area of extension have resulted in a very unstable market. Local producers have no assurance of a continuing market for their milk with local handlers. To the extent that such a market exists, producers whose milk has been priced under State regulation, and who have historically received a price equivalent to the Federal order Class I price for milk disposed of for Class I use, now receive a substantially lesser price. To the extent that regulated handlers sell regulated milk in the area they are at a substantial disadvantage in competition with unregulated handlers whose procurement cost is as much as $1 a hundredweight less. It is apparent that it is this situation which has motivated regulated handlers to purchase or construct plants to serve the area herein proposed to be added to the marketing area.

There are very few local Massachusetts producers (approximately 15) delivering to local handlers who would be brought under regulation with the addition of the remainder of Essex County to the marketing area.

Essex County is a heavily populated area. The population of the county not now included but herein proposed for inclusion in the marketing area is approximately 135,000. Because of this heavy concentration of population milk handlers have found it a highly desirable area in which to sell milk and competition for milk sales is strong. Largely as a result of this strong competition handlers have sought milk supplies from out-of-State unpriced sources. Such milk is purchased at essentially the same prices at which presently unregulated New Hampshire dealers pay for out-of-State milk. As a result of the competitive situation only about 13 percent of the milk distribution in this area is by local State regulated handlers purchasing local supplies while almost 50 percent of the distribution is by unregulated handlers purchasing milk supplies from out-of-State unpriced sources. Of the remainder, 30 percent is by presently federally regulated handlers and 7 percent by producer-handlers.

Procurement practices performed primarily by the larger unregulated handlers have resulted in a very unstable market in this proposed area of extension. Producers under the order have experienced an ever increasing loss of Class I sales to unregulated milk in Essex County. While the regulated market carries the necessary balancing supplies it no longer substantially shares in the Class I sales. The few remaining local producers, although they opposed Federal regulation of this area, in fact have no assurance of a continuing market for their milk with local handlers. To the extent that such a market still exists, these producers whose milk is priced under State regulation receive a price equivalent to the Federal order Class I price for milk disposed of for Class I use. This represents a substantially better price than the blended price received by producers delivering to handlers regulated by the Federal order.

However, it must be recognized that one of the primary reasons that these local producers can consider opposing regulation in the face of continuing possible loss of their local market is the existence of the stable marketing conditions in the adjacent federally regulated marketing area. These producers and the local handlers are generally able to dispose of any surplus milk through regulated plants and to rely on the regulated milk supplies for balancing needs. In addition, these producers have reasonable assurance of an outlet for their milk in the framework of the Federal order upon loss of their local markets.

Handlers who would be brought under regulation generally took no position at the hearing. However, one handler, who operates a plant in Manchester and who has attempted to pay his producers on the basis of the established New Hampshire Milk Board prices, stated that he was in an untenable position in competing with handlers using out-of-State milk. He had lost subetantial sales which resulted in lower returns to his producers. He urged that action be taken which would insure that no handlers distributing milk in his local market (Hillsboro County) could obtain a milk supply at less than the established price.

The need for expansion of the marketing area into New Hampshire has been accentuated by the decision of the New Hampshire Milk Control Board to terminate its price control on both the retail and producer levels. This circumstance provides an even greater threat to the already unstable market conditions. Local New Hampshire producers who sell milk directly to New Hampshire handlers are faced with a substantial reduction in their returns in the absence of regulation.

Federal regulation of this additional territory will assure uniform minimum prices to all handlers doing business in the area. This will assist local producers in maintaining their traditional markets and insure producer returns sufficient to maintain a continuing adequate supply of milk for the market. In addition, it will assist handlers by removing pressures for making uneconomic shortrun procurement and operating decisions in an effort to maintain their market position.

Extension of the Massachusetts–Rhode Island marketing area to include the aforementioned territory is the most appropriate means of effectuating the policy of the Act therein. In the context of existing operations in the proposed area of extension such area might be distinguishable as a separate marketing area. However, this situation in large measure reflects the adjustments many handlers have made to avail themselves of the opportunity to serve such area with unpriced milk.

As has been previously indicated a number of regulated handlers have built or purchased unregulated plants to serve this area. In fact, however, the location of this proposed area of extension with respect to the current regulated area, the location of regulated plants, the interrelationship of producers and the volume of Class I sales demonstrates the

need for a single regulation. It appears likely that with the extension of regulation there will be a number of plant consolidations and a reorganization of routes to the end that, in fact, the entire area will be a single integrated market. The principal proponent for a single regulation represents the majority of dairy farmers delivering milk to dealers in the area of extension and in addition is one of the major cooperatives representing producers serving the present marketing area. With such close interrelationship of plant ownership, distribution patterns, milk supply, and producer representation orderly marketing in the area will best be served by adding such territory to the present marketing area.

The additional territory in New Hampshire consisting of Belknap, Hillsboro, Merrimack, Rockingham, and Strafford Counties plus parts of Cheshire and Grafton Counties represents about 40 percent of the area of the State. About 75 percent of the population of the State is within this area. The addition of New Hampshire to the name of the marketing area will provide a more descriptive characterization of the area under regulation. Accordingly, the marketing area should be designated the Massachusetts-Rhode Island-New Hampshire marketing area.

Although certain adjacent New Hampshire and Vermont counties and towns bordering the Connecticut River and the remaining nonfederally regulated area in Massachusetts, except Berkshire and Nantucket Counties were proposed for inclusion in the marketing area, it cannot be concluded on the basis of this record that such territory appropriately should be included.

Proponents' informing their proposals attempted, insofar as possible, to cover all of the territory in which New Hampshire handlers who would be brought under regulation do any business. With this objective it was necessary to propose the inclusion of all of Cheshire and Sullivan Counties and the Grafton County towns of Lebanon and Hanover, all in New Hampshire. Recognizing that Vermont dealers had substantial distribution in this particular area they extended their proposal to include certain adjacent counties and towns in Vermont which might be expected to be the primary sales area of such Vermont based dealers.

While the record is not sufficiently detailed to determine a precise quantitative breakdown of distribution patterns of Vermont and New Hampshire dealers in the New Hampshire area here excluded, it is clear that by far the preponderance of such distribution is by Vermont handlers and/or local New Hampshire dealers who would not be regulated if this territory were excluded from the marketing area.

There are no milk processing plants located in either Cheshire or Sullivan Counties. The area is sparsely populated and by location is more accessible to Vermont dealers than to New Hampshire dealers who will become fully regulated.

The western boundary of the area of extension herein adopted was proposed and supported by Vermont handlers. Recognizing their competition with New Hampshire dealers in distribution in the city of Keene and adjacent towns to the east in Cheshire County they conceded the need for including such area in the marketing area. They pointed out that this area involved only a small part of their business and this was insufficient to bring them under full regulation. They further contended that, with the marketing area boundary as herein proposed, sales by regulated handlers in the unregulated New Hampshire area in Sullivan and Cheshire Counties would not exceed 5 percent of any such handler's total sales. They estimated that Vermont dealers, on the other hand, did 85 percent of the total business in this area. Their estimates in this regard were uncontested.

There is no showing of any market disorder in the Vermont area of proposed extension. Milk purchased in Vermont by local Vermont dealers is regulated by the Vermont Milk Control Board. The price established by the Board applies to all milk purchased without regard to use. This price ranges from 40 cents over the Federal order blend price in the 201–210-mile zone in northern Vermont to 85 cents over such price in the southern part of the State. Hence, while local dealers obtain milk for Class I use at a price below the Federal order price this need be a matter of concern only to the extent that it contributes to disorderly marketing conditions in areas of competition with regulated handlers. There was no such showing on the record.

Excepting Essex County, hereinbefore discussed, no additional territory in Massachusetts should be added to the marketing area on the basis of this record. The presently unregulated area in Massachusetts (other than Essex County) included in proponent's proposed area of extension is served almost exclusively by local dealers or by presently regulated handlers. The local dealers serving this territory purchase their milk almost exclusively from Massachusetts dairy farmers. Such milk is purchased at prices established by the Massachusetts Milk Control Commission virtually identical with the Federal order prices. In total only about 2.5 percent of the total milk distributed in this large area is derived from unpriced sources. While the record is not specific with respect to the source of this milk it appears that a significant proportion of such milk will become regulated under the area extension herein adopted.

Proponents contended that failure to include the additional Massachusetts territory will encourage handlers presently dealing in unpriced milk to make arrangements by which they could circumvent the effect of State Milk Control pricing in essentially the same manner in which this was accomplished in southern New Hampshire and in Essex County.

While this is, of course, a possibility it is significant that such action has not been taken. In general the nonfederally regulated handlers serving the area are small and their distribution is local in character. In total their milk supply originates from approximately 75 scattered dairy farmers. Under present circumstances there appears to be an insufficient concentration of population to encourage local dealers to jeopardize the stability of their local markets with the use of unpriced milk.

The marketing area proposed herein is the basic sales area of the handlers to be regulated and handlers presently regulated under the order. In addition, as hereinbefore indicated all milk to be regulated in the proposed marketing area is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce in milk and its products.

All producer milk received at regulated plants must be made subject to classified pricing under the order regardless of whether it is disposed of within or outside the marketing area. Otherwise, the effect of the order would be nullified and the orderly marketing process would be jeopardized.

If only a pool handler's "in-area" sales were subject to classification, pricing and pooling, a regulated handler with Class I sales both inside and outside the marketing area could assign any value he chose to his outside sales. He thereby could reduce the average cost of all his Class I milk below that of other regulated handlers having all, or substantially all, of their Class I sales within the marketing area. Unless all milk of such a handler were fully regulated under the order, he would not be subject to effective price regulation. The absence of effective classification, pricing and pooling of such milk would disrupt orderly marketing conditions within the regulated marketing area and could lead to a complete breakdown of the order. If a pool handler was free to value a portion of his milk at any price he chooses, it would be impossible to enforce uniform prices to all fully regulated handlers or a uniform basis of payment to the producers who supply the market.

It is essential, therefore, that the order price all the milk received at a pool plant regardless of the point of disposition. Further, the level of price should be identical on Class I sales inside and outside the marketing area.

2. Modification of the pooling provisions.

(a) *Exempt distributing plants.* The "exempt distributing plant" definition in the New England orders should not be amended to increase the exemption level on route disposition in the marketing area. Currently the orders exempt from regulation a plant which meets all of the requirements for status as a pool distributing plant except that its route disposition in the marketing area during the month does not exceed 700 quarts on any day or a daily average of 300 quarts.

A cooperative association which operates no distributing plants proposed that the 300-quart daily average exemption be raised to 500 quarts and that the 700-quart maximum volume on any day as an exemption measurement be removed under each of the respective orders. The spokesman for the proponent cooperative indicated, however, that the proposal was intended only with respect to the Massachusetts-Rhode Island order. He contended that because of the numerous small New Hampshire towns being considered for inclusion in the marketing area it was likely that a number of small distributors could be involved and that it might be well to allow them to be left unregulated. He further contended that the present 300-quart exemption limit is too small for the operation of even one efficient route.

The existing exemption has generally accommodated the small handlers in both the Connecticut and Massachusetts-Rhode Island markets. No one other than the proponent supported the proposal or testified as to any present or prospective hardship as a result of the present exemption figure. Proponent had no specific knowledge of the situation in the proposed area of extension nor did he substantiate that it was in fact any different from that in the present marketing area. In addition, there was no showing of the possible impact of the adoption of a higher exemption on presently regulated handlers. Accordingly the proposal is denied.

(b) *Supply plants.* Both the Massachusetts-Rhode Island and Connecticut orders should be amended to increase the shipping requirements for the pooling of supply plants during the months of July through November from 15 percent to 25 percent. In addition, pooling status for any plant (supply or distributing) under the Massachusetts-Rhode Island order should be conditioned on the plant's handling no milk subject to a commitment limiting its availability for use as Class I milk. No change should be made in the supply plant definition which would result in a bulk reload point, which otherwise met the supply plant definition, not qualifying as a plant if facilities are there maintained and used for washing and sanitizing cans or tank trucks. Also no further exemption should be provided to remove the possibility of "exempt distributing plants" and "distributing plants for unregulated markets" being pooled as supply plants.

The present plant definition under the Massachusetts-Rhode Island order specifically excepts a bulk reload point at which facilities for washing and sanitizing cans or tank trucks are not maintained and used. This provision was adopted under the Greater Boston, Merrimack Valley, Springfield, and Worcester, Mass., orders in 1959 to retain insofar as possible, as points of pricing, the then existing plant locations. This amendment was intended to make clear that a reload facility to qualify as a point of pricing must consist of land and buildings with facilities and equipment for handling or processing milk, operated by an individual or individuals engaged in receiving milk for resale or manufacture into milk products and that the washing and sanitizing of trucks must be done on the premises.

Proponents argued on the one hand that their milk is in reality associated with city plants and that a reload point should not be a pricing point simply because tank trucks were washed and sanitized there. On the other hand, they argued that it was very easy to accommodate to the requirements of the order and hence each handler essentially was in a position to determine the point of pricing on his bulk farm tank milk. It was proposed that a handler be allowed to designate whether his reload point should be considered a plant or in the alternative, that a stationary holding tank or some other substantial facility be required for plant status.

While there can be no question but that the present requirement for washing and sanitizing of trucks in large measure places the handler in a position of himself determining the point of pricing on his farm bulk tank milk, it is equally apparent that the alternatives proposed would have the same result. There is no indication on the record that the present provisions have in any substantial way impeded the normal operations of regulated handlers or resulted in inappropriate pricing of producer milk. It is not clear why a handler would desire that his milk be priced at city plants rather than at transfer points, particularly in view of later findings that the differential between the 201–210 zone (basic price) and the nearby zone has been 7 cents more than the cost of transporting the milk plus the additional cost of receiving milk through a country plant. Under any circumstances the evidence on this record does not provide an adequate basis for changing the plant definition.

Under the existing provisions of the Massachusetts-Rhode Island and Connecticut orders a supply plant is required to ship 15 percent of its total receipts of producer milk to pool distributing plants under these orders and is pooled under the order under which the greater quantity of such shipments is made. Provision is further made for system pooling of supply plants, under which individual plants in a system need meet the 15 percent shipping requirements in only one month of July through November to qualify for pooling in each month of that period. A plant which was pooled under one of the New England orders in at least 2 of the months of July through November and which would have been pooled in the remaining months except that it was a pool plant under the New York-New Jersey order has automatic pooling status in the months of December through June under that New England order to which it made the greater qualifying shipments in the July–November period.

Various proposals were made which ranged from increasing the shipping requirements for pool supply plants in the months of July through November only to increasing the requirements to as much as 40 percent in all months. Another proposal, abandoned at the hearing, would have provided more flexible pooling requirements in the months of July through November for a supply plant which otherwise would not be a pool plant under any Federal order but which held automatic pooling status under one of the New England orders in the immediately preceding months of December through June.

Essentially all of the milk in the milkshed is pooled under one or the other of the New England orders except that which has a preferential Class I market in a local unregulated market. The present pooling provisions were constructed to bring about this result.

To supply the fluid market it is essential that supply plants as a whole ship far in excess of the minimum requirements for pooling. During the period May 1965 through April 1966 the total Class I usage of the Massachusetts-Rhode Island market varied from a low of 50.7 percent (May) to 70 percent (November). Only a very limited quantity of country plant milk is disposed of for Class I use upcountry. For all practical purposes it must be moved to city distributing plants if it is to be disposed of for Class I use. During the May 1965–April 1966 period Class I usage of country plant milk under the Massachusetts-Rhode Island order varied from a low of 38.1 percent (April) to a high of 61.8 percent (November). During this period the total Class I usage of the Connecticut market varied from a low of 71.1 percent (May) to 88.1 percent (November). Hence there can be no question but that supply plants generally would have no difficulty in meeting more substantial shipping requirements.

The basic problem is that the operators of some supply plants under the Massachusetts-Rhode Island order which are primarily manufacturing plants have been reluctant to ship more milk than that necessary to insure pooling status, with the result that in some months of short supply city plant handlers have had considerable difficulty in obtaining necessary milk supplies for fluid use.

While it is desirable that milk not needed for fluid use be processed into manufactured products at country plants, it is essential that such milk be shipped to the city when needed for fluid use. To better insure this result it is concluded that the required shipping percentages during the months of July through November should be increased from 15 percent to 25 percent under both orders. While proponents suggested even higher shipping requirements (as much as 40 percent) it must be recognized that the need for country plant milk varies from month to month and from year to year. Too high a requirement might well result in uneconomic milk shipments solely for the purpose of maintaining pooling status. On the other hand, it must be recognized, in view of the past market utilization and the necessarily flexible pooling provisions which have been provided, that an increase in the shipping requirements from 15 to 25 percent during the months of July through November may not fully implement the desired result. This is particularly true in recognition of the fact that during the May 1965–April 1966 period a minimum of 38.1 percent of the country plant milk was used in Class I.

To fully accomplish the end sought by proponents; i.e., insure the availability of milk when needed, more forceful provisions are needed under the Massachusetts-Rhode Island order. "Call" provisions could be provided which would permit the market administrator to increase the required shipping percentages to conform with the current needs of the market. However, the industry generally opposed the adoption of such provisions. It was argued that the application of a "call" provision would place cooperatives in an unfavorable bargaining position in the sale of their milk, and additionally, that the intended result likely would not be accomplished since any required shipments could be made to one or two of the larger handlers, leaving smaller handlers still inadequately supplied.

A proposal considered at the hearing would preclude the pooling of any plant unless all milk there received was available as needed for Class I use. It is concluded that the problem can best be met by including a provision in the Massachusetts-Rhode Island order providing that should the market administrator determine that the operator of any plant has entered into an unconditional contract which provides for the delivery of any specified quantity or proportion of such plant's receipts from dairy farmers and of pool milk from other sources for Class II use, the plant shall not be pooled during the month of such ascertainment nor for any subsequent month in which the contract is in force for any part of the month. It is the intent of the order to insure an adequate supply of milk for the fluid market. To assure an adequate supply a reserve, over and above actual Class I disposition, is needed and should appropriately share in the pool even though it may be used as Class II. However, it would be inequitable to pool milk which, in fact, is not available for Class I use and is thereby not a part of the reserve supply. Such a provision can readily be complied with by conditioning contracts for other than Class I disposition on the milk not being needed for Class I use. Clearly, handlers who acquire pool status for their plants should reasonably expect to supply milk for Class I use as the need arises up to the total amount of producer receipts at such plants.

Some cooperatives contended that an increase in the supply plant shipping requirements would weaken their ability to bargain with handlers for handling charges over the minimum order prices. It is not clear why this should result, particularly since the increase in shipping requirements herein provided is well below the percentage of total country plant milk which has in the past been shipped for Class I use. It is recognized that to the extent any cooperative has attempted to maintain a premium structure above the competitive market price in bargaining with handlers for a fluid outlet for its supply plant milk the increase in the shipping requirements may exert some pressure for lower handling charges. However, cooperatives operating manufacturing facilities and who have chosen to associate such facilities with the pool for the purpose of drawing the uniform price must make their milk supply available to the fluid market. They should not presume the right to recover from fluid sales the further profit which they might otherwise gain from the use of the milk in their own manufacturing operation.

Under another proposal an "exempt distributing plant" or a "distributing plant for unregulated markets" would not be pooled as a supply plant under the Massachusetts-Rhode Island order even though it made sufficient qualifying shipments to pool plants. Proponents argued that it was inconceivable that the operator of such a plant would intentionally conduct his business to qualify as a supply plant and hence such a plant should not be jeopardized by the possibility of acquiring pool status in the disposition of its surplus.

Exemption from regulation as a distributing plant is not a basis for exemption as a supply plant. The exemption as a distributing plant is predicated on the fact that the plant either has insufficient distribution in the marketing area to be a competitive factor; i.e., less than 300 quarts per day or that it does not meet the basic pooling requirements of having at least 40 percent of its total receipts of fluid milk products in Class I and at least 10 percent of such total receipts in route disposition within the marketing area. However, when an otherwise unregulated distributing plant makes sufficient shipments to pool distributing plants to qualify as a pool supply plant it may not appropriately be distinguished from any other pool supply plant. Obviously, the intent of the proposal was to provide greater flexibility in the operation of nonpool distributing plants. These plants compete with fully regulated plants both with respect to route sales and in procurement. While exemption from regulation is provided on the basis of the nature of their route distribution such exemption cannot appropriately be construed as a basis for immunity under all circumstances.

The order provides a reasonable basis whereby certain distributing plants can maintain nonpool status. If such status is desired the plants must be operated in conformity with the existing rules. While greater flexibility of operation might better accommodate the interest of certain nonpool handlers it cannot be concluded that it would tend to further promote and maintain orderly marketing. Accordingly, the request for further exemption is denied.

(c) *Diversions.* The diversion provisions of the Massachusetts-Rhode Island order should be modified to allow a handler who closes a pool plant and begins to receive the milk of producers associated with that plant at another of his pool plants to retain the diversion rights associated with such milk. In addition, milk diverted from a pool plant located in zones 1–14 to a plant located beyond zone 14 should be priced at the zone location of the plant of physical receipt.

Currently the order provides, with minor variations, that a handler can only divert milk if he caused milk from the dairy farmer's farm to be moved to the diverting pool plant on the majority of delivery days on which he caused milk to be moved from the farm as producer milk during the 12 months ending with the current month. The order also provides that diverted milk is priced at the zone location of the plant from which it is diverted.

Multiple plant handler proposed that diversion rights associated with producers be transferred along with the producers when one plant operation is discontinued and the producers are moved to another of the handler's pool plants. The sole concern of proponent was to allow a handler to shift producers to another of his pool plants after closing the pool plant to which they normally delivered without having to wait 6 months before any diversion rights could be reacquired on such milk.

The existing provisions, requiring delivery to the diverting plant on majority of delivery days during the most recent 12-month period, were formulated to assure a bona fide association of milk with the market and yet permit a handler necessary flexibility to insure efficient handling of the market's reserve supply. For a handler who consolidates the operations of several plants, the present provisions do not accomplish their intended purposes. In many cases they may well impede the efficient handling of milk even though the producers whose milk is involved have already established their association with the market.

The change to allow transfer of diversion rights would be applicable only when a plant operation is discontinued and the producers are transferred to another pool plant of the same handler. Therefore, such a change will in no way circumvent the intent of the present diversion provision and at the same time will remove an unnecessary deterrent to greater operating efficiency. It is concluded therefore that it should be adopted.

Proponent of the proposal to price milk, diverted from a plant in the nearby zone to a plant in a distant zone, at the zone location of the plant of actual receipt contended that such a change was needed to prevent the possibility of a transportation subsidy being paid by the pool and to eliminate any possible gains to handlers operating their own hauling systems. At the hearing proponent's representative modified his proposal so that milk produced on farms within 200 miles of Boston and back-hauled more than 50 miles would be priced at the zone location of the plant from which the milk was diverted. This modification was intended to accommodate situations where milk might be diverted substantial distances to manufacturing facilities.

Under the present order provisions milk produced in distant zones and normally delivered to a city plant may be diverted to local country plants in the area of production and still be priced as if it had been transported to the city plant.

The Class I and blend price zone differentials applicable at any plant location are identical, but the Class II differential is much lower. As a result, the nearer the diverting plant is to Boston

the greater is the difference between the applicable blend and Class II differentials. Therefore, when milk is diverted for Class II use, which is normally the case, the pricing of such milk at the diverting plant rather than the more distant plant of physical receipt causes the handler's cost of milk under the order to be increased only slightly. On the other hand, the handler's pool credit and the blend price payable to the producers involved are substantially greater than would be the case if the milk were in fact priced at the plant of physical receipt. Hence the pool absorbs transportation costs which in many circumstances are actually not incurred when producer milk is diverted to a plant more distant from the market but nearer to the producers' farms.

Milk that is diverted will, in most cases, be transported much shorter distances than would otherwise be the case if it were moved to the diverting pool plant. Therefore, it is possible that producers save in transportation costs and yet are paid as if the milk had moved the full distance to the diverting plant. However, in many cases the savings in transportation costs accrue directly to the hauler instead of the producer since he may continue to collect the full hauling charge that was applicable to the longer movement of the milk. Further, if the handler is the hauler he may be the sole beneficiary of the cost savings.

Several examples of handlers being the ultimate recipient of the cost savings were cited by the proponent's representative. In one case the handler diverted milk from his plant located in the nearby plant zone to a plant located in the 21st zone and near the farms of the producers involved. Since the handler continued to deduct the same hauling charge he apparently was able to retain the transportation savings on that diverted milk hauled in his tank trucks.

Although proponent wanted to correct a situation where producers or handlers were profiting at the expense of the pool on savings in hauling costs he did not want to make any change where diverted milk from farms within 200 miles of Boston had to be back-hauled more than 50 miles. He contended that in such cases there may be little or no savings in transportation and that the producers involved should not have to accept the lower blend price without the compensating reduction in costs. The record does not establish the need for milk to be back-hauled great distances. If it is merely to accommodate an existing arrangement of manufacturing facilities operated by the diverting handler or the producer group, as seems likely, it would be no more fair to the other producers to subsidize such operations from the pool than in other situations to which proponents objected. This modification is therefore denied.

When there is more milk available in the market than is needed for fluid use the total costs associated with handling the excess milk would be lowered substantially by retaining the most distant milk upcountry for manufacturing. That is, the cost of transporting the milk great distances to the city for manufacturing would be avoided. The diversion provisions were designed to encourage this more efficient handling of milk as well as to allow the handler as much flexibility as possible in adjusting producer receipts at his plant to meet his needs. This flexibility permits handlers to divert milk for extended periods of time as long as such diversions do not exceed the majority of days limitation previously referred to. In certain cases the handler could continuously divert milk from the same producers for almost 6 months without exceeding the limitation.

In circumstances where diversions are on a more or less regular basis there is little reason to believe that the hauling rate would not be adjusted downward to reflect the shorter haul or that handlers with their own transportation systems would not realize a savings in hauling costs even though they may not be passed on to producers. However, any gain to individual producers or handlers is financed by all producers if the milk continues to be priced as though received at city plants. It is desirable therefore to deter individual gains at the expense of the pool on diversion operations.

Pricing at the plant of physical receipt of milk diverted from within the 14th zone to more distant plants will tend to implement the efficient handling of reserve milk without undue cost to the pool. Essentially all of the plants located beyond the 14th zone to which diversions likely would be made are manufacturing plants. Hence essentially all of such diversions will be for Class II use and this revision in point of pricing of diverted milk will eliminate much of the transportation subsidy which the pool has borne when milk associated with city plants is diverted to country plants.

It is not necessary to change the point of pricing with respect to milk normally received at country plants or at city plants and which is diverted to plants within the 14th zone. Milk associated with country plants is priced below the price of milk received at nearby plants by the amount of the transportation and extra plant handling required to move such milk to nearby plants. Hence a handler normally experiences no out-of-pocket transportation costs if he elects to divert country plant milk to nearby plants for Class I use. Milk which is associated with nearby plants and which is diverted to other nearby plants is normally utilized for Class I purposes. Since the Class I and blend price differentials are identical there is no element of cost to the pool when milk normally received at nearby plants is diverted to other nearby plants for Class I use, even though the plant of physical receipt may be more distant from the central market than the diverting plant.

(d) *Certified milk.* The special exemption for certified milk should be removed from the Massachusetts-Rhode Island order.

Presently the order exempts from pooling any milk produced and processed in accordance with the standards established by the American Association of Medical Milk Commissions and disposed of as packaged certified milk or packaged certified skimmed milk.

A group of cooperatives in the market proposed that the special exemption for certified milk be removed from the Massachusetts-Rhode Island order. A spokesman for the group stated that there should be no exemption for Class I milk differing only as to special quality or characteristics since market demand for such a differentiated product should compensate handlers for the added expense of it. He further pointed out that there were no longer any certified milk operations in the market.

In the past certified milk and certified skimmed milk have been exempted on the basis of being noncompetitive with other milk, both on the basis of cost and sales conditions. The exemption was restricted to these two products which were, at the time the exemption was adopted, the only products eligible to carry a certified label and which were permitted to be packaged and marketed without pasteurization.

For reasons not shown on the record the restrictions on the processing and sale of certified milk have been relaxed on certain points since the exemption was granted. The current publication "Methods and Standards for the Production of Certified Milk" contains the regulations pertaining to "certified milk" and was introduced as an exhibit in the hearing record.

Under these regulations there is a wide range of products which may carry the certified label. These included the basic product "certified milk," "certified milk-pasteurized," "certified cream," "certified half and half," "certified fat-free milk," and "special certified milks" among others.

In addition, current standards permit the utilization of new processing technology by allowing milk from certified farms to be processed and/or bottled at another certified farm or at a processing plant that is not a "certified farm." Of course, the specifications for transporting the milk, labeling, and control by the supervising milk commission must be met in these cases. However, from an economic standpoint the ability to make such arrangements greatly reduces any difference between certified milk and producer milk which is aggregated, processed, and distributed in a conventional manner.

The proposal to remove the exemption with respect to certified milk was opposed by a Vermont based handler producing certified milk who argued that he was exploring the possibility of extending his distribution into the marketing area. In this regard, he recognized that the traditional method of distribution could not accommodate his situation and contemplated testing the potential of direct distribution of his line of certified products through supermarkets in the marketing area.

There can be no question but that such distribution of certified products would be in direct competition with the distribution of similar noncertified products by regulated handlers. While

opponent contended that he would necessarily sell his products at a premium of 3 cents per quart over competing milk, this can no longer be presumed nor can it be considered as a prime deterrent against a loss of Class I sales when the product is mass-distributed.

In reality the distribution of certified milk in this market such as opponent contemplates is essentially no different than that of the distribution of a "special" breed milk under a trademark controlled by a producer organization. The possibilities of such schemes to evade pooling under the order are almost unlimited. In many markets there are producer associations which distribute milk under their own brand name, which brand names are registered and are controlled by producer associations. The fact that such milk may be claimed to have superior qualities entailing higher production costs which entitle producers to higher prices is not a compelling argument. The required pooling of such milk cannot be construed as a penalty to the producers thereof. If, in fact, the milk has superior qualities in the eyes of the consumer it can command a premium over competing milk which would tend to offset, to the extent that they exist, higher production or processing costs.

The marketwide pooling arrangement provided under the order contemplates the equitable sharing by all producers of the total proceeds from the sale of their milk computed at the established order prices. The situation which prompted the exemption with respect to certified milk is no longer present in this market. The exemption therefore should be removed to deter its exploitation at some future time.

(e) *Exempt government agency.* The Connecticut order should be amended to exempt from regulation the plants of government agencies distributing fluid milk products in the marketing area. Fluid milk products received by such a plant from a pool plant or a cooperative association in its capacity as a handler should be classified as Class I except for specified cases with respect to Class II uses by the University of Connecticut. Fluid milk products received at a pool plant from such a plant should be Class II.

Limited exemption for State-owned and operated institutions is presently contained in the "exempt milk" provisions of the order. Such exemption applies only with respect to milk which is processed and packaged at a plant operated by a similar institution to the extent that such milk is used only to serve residents of either institution on the premises thereof. In addition the University of Connecticut, as well as certain other State-owned institutions have been exempted from regulation by virtue of the fact that they have operated in conformity with the producer-handler definition.

The University has from time to time purchased pool milk for use in experimental production of manufactured dairy products. Such milk, however, under the terms of the order was classified and priced as Class I milk.

To provide greater flexibility in the operation of its farm and plant in the research and teaching field the University proposed an "exempt government agency provision" under which it and other State-owned and operated institutions would be exempted from regulation. Under their proposal any sale by such an agency to a pool plant would be considered a Class II receipt at such plant and any purchase from a pool plant or cooperative association would be a purchase of Class I milk, except that with respect to the University purchase could be as Class II if both the purchaser and seller so reported to the market administrator.

The University spokesman pointed out that in both classroom and research work they needed milk for manufacture into ice cream, cottage cheese, and Cheddar cheese and for flavor and other research and that it greatly added to the cost of education and research to be required to pay the Class I price for such milk. He further indicated that they would have great difficulty as a pool plant in meeting pool payments under the rules and regulations of the State with respect to fiscal matters; i.e., all checks are issued by the Comptroller.

Information with respect to the specific operations of the University and of other State-owned institutions was not presented on the hearing record. However, it is apparent that the operation of the University's farm and plant are for the purpose of advancing the recognized functions of the State in the public interest. These operations are not in the nature of the operations of proprietary handlers whose regulation is necessary to effectuate the intent of the Act. Accordingly, the requested exemption is appropriate, not only with respect to the University but also for other State-owned and operated institutions and for the same reasons.

If these government agencies should develop a production in excess of their requirements it would normally be a temporary situation or one that was a by-product of other functions. To the extent that such surplus might develop it could not be depended upon by handlers in the market as either a regular supply of milk or a supplemental supply during periods when the market might be in short supply. It would clearly be surplus to the government agency and hence if disposed of to a pool plant appropriately should be allocated first to Class II. Under the terms of the order on any such milk allocated to Class I the pool plant operator would be obligated to the pool for the difference between the Class I and Class II price.

If any such exempt agency receives milk from pool sources (except as specified below) it should be classified as a Class I since such milk will be needed and used for Class I purposes. Special exception, however, is desirable in this regard with respect to pool purchases by the University in recognition of the Class II milk requirements for teaching and research. It is provided therefore, that the University may purchase milk from pool plants or from a cooperative association in its capacity as a handler and have such milk classified as Class II on the basis of a claim by the selling handler, supported by a certification signed by an authorized agent of the University that such milk was used to produce milk products other than fluid milk products or cream.

Under this revised treatment of State-owned and operated institutions there is no longer any need for the limited exemption now contained in the "exempt milk" definition and it is therefore deleted.

(f) *Dairy farmer for other markets.* The Massachusetts-Rhode Island order should be amended to provide that receipts from a "dairy farmer for other markets" shall be considered as a receipt from the plant to which his milk was delivered on the majority of the delivery days in the most recent month.

Under the present order provisions the plant of original receipt of such milk is considered to be the plant to which the milk was delivered on the majority of delivery days in the most recent 12 months. Under normal circumstances a handler causes a dairy farmer to assume producer or nonproducer status by the manner in which such dairy farmer's milk is handled. Handlers operating both pool and nonpool plants often find that when they have excess milk associated with their nonpool operation the excess milk can be most efficiently disposed of by moving it directly from the farm to their pool plant. Milk so received comes within the definition of "dairy farmer for other markets" and under the prescribed allocation procedure is allocated first to Class II. On any of such milk allocated to Class I the handler accounts to the pool at the Class I price and is credited at the Class II price, at the zone prices applicable at the plant of normal receipt.

The plant of majority of days of delivery in the most recent 12 months is designated as the plant of original receipt to insure insofar as possible that any pool obligation on the part of the pool handler would be computed at the location of the nonpool plant. This procedure has entailed considerable administrative work on the part of the market administrator, particularly in situations where the milk has been received at several nonpool plants. In addition, situations have arisen where a handler has discontinued receiving milk of certain dairy farmers as producer milk and begun receiving it as unregulated milk at a nonpool plant. Under the present order provisions it is possible, in the event that any of such milk is received at a pool plant and allocated to Class I, that the pricing point for determining the handler's pool obligation would in fact be the pool plant. Appropriately, however, the obligation should be determined at the location of his nonpool plant. This can best be accommodated by providing that the milk will be considered as a receipt from the unregulated plant at which the greatest quantity of such milk was received in the most recent month.

Another proposal considered would further amend the "dairy farmer for other markets" definition to include a dairy farmer when more than half of the milk marketed from his farm during the month is not producer milk under any Federal order. This amendment was proposed to deny producer status to dairy farmers whose regular markets are with handlers in unregulated markets but who deliver any milk in excess of their handlers' needs to pool plants of other handlers as producer milk. During the period April 1964–March 1965 an average of 52 producers shipping the majority of their milk to unregulated markets delivered 15,886,000 pounds of milk to pool plants as producer milk.

Under Federal orders generally milk which is received at a pool plant directly from a dairy farmer's farm is accorded producer milk status. Exceptions are made in certain circumstances to deter handlers from pooling the necessary reserve of their unregulated operations. For this reason "dairy farmer for other markets" status is conditioned on the fact that the handler caused milk to be nonpool milk. Continuation of pooling status for the milk which proponent seeks to exclude gives essentially no different result than the effect of pooling milk now excluded under the present definition; i.e., pooling of the reserve supply of an unregulated fluid milk operation. However, in this instance neither the unregulated handler nor the producer is subject to regulation and it is not the unregulated handler who causes the milk to be pooled. Neither can it be presumed that the regulated handler receiving the milk has specific knowledge that he is receiving only a part of a producer's total milk supply. There would be great administrative difficulty under the circumstances in administering a provision which would deny pooling status for such milk since the market administrator could not have the necessary specific knowledge with respect to every producer on the market to insure equitable administration of the provision. Accordingly, the proposal is denied.

(g) *Pool milk definition.* The "pool milk" provision of the Massachusetts-Rhode Island order should be amended to include as "pool milk" any route distribution in the marketing area from a plant regulated under another Federal order to the extent that such milk is not classified and priced under the other order and is in excess of the present exemption for unregulated distributing plants of 700 quarts on any day or a daily average of 300 quarts, whichever is greater.

The "pool milk" definition designates that milk for which a blended price credit is applied in the computation of each handler's pool obligation. This includes, in certain circumstances, receipts at a pool plant from regulated plants under other Federal orders which are not classified and priced under such other orders. The definition, however, does not include milk distributed directly on routes in the marketing area from a regulated plant under an other Federal order which is not classified and priced under such other order. It is possible therefore under the present order for such milk to be distributed in the market without being subject to pricing under any Federal order.

Under the terms of the New York-New Jersey order (Order 2) it is possible for a regulated plant to receive unregulated milk and dispose of such milk as route disposition outside the Order 2 marketing area (in the Massachusetts-Rhode Island marketing area for example) with no monetary obligation to the pool, regardless of the price at which such milk might have been procured. There is presently no route disposition of this nature in the marketing area; nevertheless, its location with respect to New York-New Jersey regulated distributing plants does not preclude such possibility. In such event the milk should appropriately be treated in the identical manner as similar receipts at a pool plant and for the identical reasons set forth by the Assistant Secretary in his decision of October 31, 1963 (28 F.R. 12006) on this matter, official notice of which is taken. Accordingly, the "pool milk" definition is revised to insure this result when the amount of such distribution exceeds the allowable volume of an exempt distributing plant; i.e., 700 quarts in any day or a daily average of 300 quarts, whichever is greater.

3. *Cooperative as a handler on farm bulk tank milk.* The handler definition under the Massachusetts-Rhode Island order should be broadened to include a cooperative association with respect to its operations in delivering the farm bulk tank milk of its producer members directly from the farm to a pool plant or in diverting such milk to a nonpool plant for the account of the association.

The impact of regulation under an order is on handlers. The handler definition identifies those persons from whom the market administrator must receive reports, or who have financial responsibility for payment for milk in accordance with its classified use value. The handler who receives milk from producers is held responsible under the terms of the order for reporting receipts and utilization of such milk and for proper payment to producers and to the pool.

Essentially all of the milk produced for this market is handled through farm bulk tanks and moved to the market in tank trucks. After the milk has been pumped from the farm tank into the tank truck and commingled with the milk of other producers there is no opportunity to measure, sample, or reject the milk of an individual producer. Thus, the amount of milk delivered by producers using farm bulk tanks and the butterfat content thereof, can be determined only by measurement at the farm and from milk samples taken at the farm.

In the past in this market hauling has generally been done by the plant operator either in his own trucks or through contract haulers or by independent haulers under contracts negotiated by individual producers. Accordingly, the operator of the pool plant where the milk was initially received directly from the farm, or deemed to have been so received in the case of a diversion, has appropriately been held the responsible handler for accounting purposes and for payments to producers.

Recently one of the larger cooperatives on the market has taken over the hauling of its members' milk. When the pickup is performed by a cooperative association or by a person under contract to or control of such association it is the association which controls the operation with respect to individual producer weights and tests. Accordingly, the association must be the responsible handler unless through agreement between the association and the operator of the pool plant at which the milk is received, filed with the market administrator, the plant operator assumes the role of responsible handler and agrees to purchase the milk on the basis of farm weights and tests. When the cooperative association is the responsible handler the milk is treated as a receipt of producer milk by the cooperative association at a pool plant in the same location as the pool plant at which the milk was physically received. The milk is then treated as a transfer by the cooperative association to the plant operator.

The order should specify, however, that handlers shall pay a cooperative association which is a handler pursuant to § 1001.9(d) at the blended price for the milk received directly from producers' farms. It will simplify order accounting if such milk is paid for by the plant operator at the blended price. This method of payment will facilitate any adjustments required when audit by the market administrator discloses an error such as an error in classification.

Payments into and out of the producer settlement fund will be made directly between the regulated handler and the market administrator. This will establish directly the responsibility for accounting for milk and for its payment on the part of the handler. When settlement is made through a cooperative association; i.e., when a handler settles with the cooperative at class prices and the cooperative pays into or out of the producer settlement fund, an unnecessary third party is intruded into the transaction. By eliminating the cooperative as an intermediary between the regulated handler and the market administrator, with respect to transactions with the producer settlement fund, problems of financial responsibility, enforcement, and subsequent audit adjustments will be greatly reduced.

The cooperative, of course, must be held accountable to the pool for the volume of milk which it picks up, or causes to be picked up at the farm and which it diverts to nonpool plants or which it does not deliver to any plant during the month; i.e., overage, shrinkage and accidental loss, and inventory of milk en route to plants at the end of the month. To simplify accounting procedure insofar as practical such milk should be priced at the zone location of the plant, or plants within the same zone,

to which the greatest aggregate quantity of such milk of the cooperative association was moved during the month.

The order currently provides a Class II classification for shrinkage not in excess of 2 percent of the respective quantities of butterfat and skim milk contained in receipts of fluid milk products and cream, exclusive of diverted milk and inventory at the beginning of the month. Hence pool plant operators have had a maximum shrinkage allowance of 2 percent for receiving and processing farm bulk tank milk. The fact that a cooperative association becomes the responsible handler with respect to farm bulk tank milk which it picks up or causes to be picked up at the farm and delivered to a pool plant provides no basis for changing the maximum shrinkage allowed in Class II on such milk. Appropriately, therefore some means must be provided for a division of the shrinkage allowance when hauling is performed by or on behalf of a cooperative association. The principal proponent supporting handler status for a cooperative association in such capacity proposed a one-half of 1 percent allowance to the cooperative and a one and one-half percent allowance to the pool plant operator. Such a division of shrinkage reflects the experience under Federal orders generally that in a reasonably efficient receiving operation shrinkage should not exceed one-half of 1 percent and in a reasonably efficient processing operation shrinkage experienced should not exceed 1½ percent. Accordingly, the proposal is adopted.

Previously in this market milk has been associated with specific plants and the plant operator controlled the movement of the milk. Diversion privileges were given only the plant operator as a pool handler and were generally conditioned on the receipt of the milk at the diverting plant on the majority of delivery days, during the 12 months ending with the current month, or in the period in which such handler caused milk to be moved from the farms as producer milk. This procedure was adopted to deter the arbitrary shifting of producers between plants of a multiple plant handler for financial gains at the expense of producers.

When a cooperative association controls the pickup of producer milk and acts as the responsible handler on such milk it is necessary for maintaining pooling status on that milk in excess of a proprietary handler's requirements or which he chooses not to receive that the cooperative be given diversion privileges so it may maintain the pool status of the milk when it is moved into manufacturing uses. Under the terms of the current order all milk which has established a bona fide association with the local market is included in the equalization pool. To insure appropriate implementation of this principle under the revised order the handler definition should be sufficiently broad so as to include a cooperative association with respect to producer milk diverted to a nonpool plant for the account of such association. Milk not needed by local handlers can generally be most economically handled by movement directly from the farm to its ultimate destination. Unless the cooperative is permitted to be the handler and divert such milk it is likely that cooperative members would bear the primary burden of carrying the market's reserve supplies, since handlers could accept only that volume of milk needed to meet their immediate requirements and cooperatives would be forced to handle the remaining milk as other than pool milk.

Providing handler status to a cooperative association with respect to milk which it diverts will not only better insure orderly marketing but also will promote efficient utilization of producer milk in the highest available use class since this arrangement will permit a cooperative to divert milk for Class I use to a nonpool plant which milk might otherwise be used or disposed of by proprietary handlers in Class II.

In consideration of the equitable treatment of all producers the limitation on cooperative diversions should, insofar as possible, parallel those accorded proprietary handlers; i.e., the milk must have been delivered to pool plants on the majority of delivery days during the past 12 months during which the cooperative was the responsible handler. To implement orderly administration, milk which a cooperative diverts is considered a receipt in the zone of the pool plant or plants to which the greatest aggregate quantity of the milk of the producers involved was moved during the month. However, when diversion is made from a plant in zones 1–14 to nonpool plants in the 15th zone and beyond, the milk for pricing purpose is, as heretofore discussed, considered a receipt at the plant where physically delivered.

The Connecticut order currently contains provisions intended to implement the administration of the regulation when a cooperative association is performing or directing the pickup and delivery of farm bulk tank milk to pool plants. However, the cooperative may avoid handler responsibility on such milk by simply not electing handler status. Because there is always the probability that farm weights and the tests of farm drawn samples will not agree with the weights and tests of milk delivered to plants there is always the threat of an administrative problem in the application of regulation if the plant operator refuses to accept the farm weights and tests.

As previously stated, when the pickup is conducted by a cooperative association or by a person under contract to or control of such association it is the association which controls the operation with respect to individual producer weights and tests. Accordingly, the association appropriately must be held as the responsible handler unless the plant operator assumes the role of responsible handler and purchases the milk on the basis of farm weights and tests.

The provisions hereinbefore concluded to be appropriate for the Massachusetts-Rhode Island market ostensibly are equally appropriate for the Connecticut order. However, while both producers and most handlers recognized the existing accounting problems under the present order they were equally insistent that proprietary handlers continue to be the responsible handler for farm bulk tank milk in essentially the same manner as in the past since the cooperatives have not generally elected handler status. To minimize the change in order application they argued that the order should specify that the plant operator be held the responsible handler unless he notifies in writing both the market administrator and the cooperative association that he is not accepting that responsibility, in which case the cooperative would necessarily be the responsible handler.

It is not clear why the requested application of the provision could influence handlers' decisions with respect to becoming the responsible handler on farm bulk tank milk picked up and delivered by the cooperative association. Nevertheless, such application does, in fact, provide a clear line of responsibility and will remove the existing problems encountered under the current order in the accountability for milk because the cooperative association has not elected handler status on milk which it causes to be picked up and delivered to pool plants. Accordingly, it is adopted.

Local cooperative interests objected to any change in the handler status of cooperatives with respect to member bulk tank milk hauled in tank trucks owned or controlled by the cooperative. They contended that affixing the final responsibility on the cooperative for such milk if the receiving plant did not accept the responsibility would force them to bargain with the receiving handler to obtain a charge above minimum prices for services performed with regard to this milk. They further contended that if the final responsibility were fixed upon the cooperative, the order should specify a sufficiently higher price for this milk to assure the cooperative of being reimbursed for services performed, such as milk sampling and testing, and quality control.

In the presence of Federal regulation producers are guaranteed the minimum order prices for their milk. Therefore, it must be presumed that a cooperative's decision to haul its members' milk is made in the interest of operating efficiency, to retain effective control of the milk in the interest of maintaining or improving the cooperative's bargaining position with its buying handlers and/or to provide the flexibility of operation necessary to insure disposition of the milk in the highest available use. Prior to the advent of farm bulk tank handling each producer was generally associated with a specific handler or plant and normally his milk moved to that outlet regardless of the use (either fluid or manufacturing) by such handler. Farm bulk tank handling greatly increased the flexibility of marketing. For this reason many cooperatives have considered it essential that they control the hauling of their members' milk. As previously stated, under such circumstance it is the cooperative which controls the operation with respect to individual producer weights and tests. Accordingly, the cooperative must assume the role of responsible handler unless the operator of the receiving plant accepts responsibility of accounting for the milk on the basis of farm weights and butterfat tests of farm drawn samples.

When the cooperative acts as the responsible handler it is probable that it also performs some related services which otherwise the handler would necessarily perform at some cost over and above the order class price. Under usual circumstances it is to be expected that a cooperative controlling its milk supply would be able to bargain effectively with handlers for the cost of such services. Its ability in this regard is obviously dependent on the competitive market situation.

Because milk can move freely between regulated markets it is to be expected that as among the northeastern Federal order markets, producers, either individually or through their cooperative associations, will actively seek an outlet for their milk in that market where returns are greatest. Proprietary handlers, on the other hand, can be expected to seek out the most economical sources of milk supply. Hence any attempt to structure the cost of services rendered by local cooperatives into the pricing scheme of the Connecticut order could seriously hamper such cooperatives in the sale of their members' milk. When handlers purchase milk from each other they must reach a common understanding on the sale price if such sale is consummated. There is no apparent reason why cooperatives cannot be equally effective in their dealings with handlers. Notwithstanding the position of cooperatives in this matter, it is concluded that the best interest of producers will be served by continuation of the present pricing structure. Accordingly, the request to establish a premium over the Class I price to be paid by handlers on farm bulk tank milk for which a cooperative is the handler is denied.

4. *Definition and treatment of producer-handlers.* The definition and treatment of producer-handlers under the Massachusetts-Rhode Island order should not be modified on the basis of this record. The provisions of the Connecticut order should be modified only to the extent of permitting a producer-handler to purchase from outside sources, either pool or nonpool, nonfat dry milk solids for use in fortification of fluid milk products.

The Massachusetts-Rhode Island order provides, among other conditions, that a producer-handler may receive no fluid milk products except from his own production and pool plants under any New England Federal order. If his receipts from own production and total route sales each exceed 2,150 pounds per day during the month his receipts from New England order pool plants may not exceed 2 percent of his receipts from own production.

While the Connecticut order, with certain exceptions with respect to State-owned and operated institutions, limits a producer-handler's sources of milk supply to own production and fluid milk products transferred from pool plants, such a person is not limited with respect to the extent of his receipts from pool plants.

A number of proposals were made to change the producer-handler provisions in one or both of the orders. Certain of the proposals would provide that there be no separate treatment under the orders of producer-handlers in their capacity as handlers, but would provide instead an exemption from pooling of a handler's own farm production within prescribed volume limitations. Another proposal would permit producer-handlers to buy unlimited quantities of milk during the months of September through November.

Other proposals would amend the Massachusetts-Rhode Island order to (1) fully regulate producer-handlers above a specified size, (2) permit producer-distributors below a specified size to buy and sell milk to each other, and (3) exempt own farm production and permit unrestricted purchases from regulated sources. Still other proposals would amend the Connecticut order to (1) set a volume limitation of 75,000 pounds in any month which a producer-handler could buy from pool sources and retain his status, and (2) permit a producer-handler to purchase nonfat dry milk and cream for fortification and standardization purposes.

The status and treatment of producer-handlers under the Massachusetts Federal orders have been a consideration at numerous past hearings. The producer-handler provisions of the existing order, adopted on the basis of the record of the merger hearing held in January and February 1963, are substantially those previously contained in the separate Boston, Southeastern New England, Springfield and Worcester orders. The exemption of producer-handlers from the pooling and pricing provisions of the order is predicated on the self-sufficiency of the combined production, processing and distribution operation of such person. When such an individual ceases to be self-sufficient and relies on sources other than own production for any significant portion of his Class I needs his operation is, in fact, indistinguishable from that of handlers whose operations are fully regulated under the order. Appropriately, his treatment as a producer and as a handler then should be no different than that of other producers and of other regulated handlers.

When producer-handlers produce, process, and distribute their own farm production other producers do not share in their Class I sales. To the extent that producer-handlers acquire pool milk to supplement their own production producers under the order bear the full burden of carrying the necessary reserve supplies associated with such milk. To permit a producer-handler to purchase substantial, or unlimited quantities of supplemental milk would substantially eliminate the normal risks which are associated with a combined own production-distribution business. A producer-handler could aggressively seek additional Class I outlets without risking production expansion until the new outlets were assured. Under such an arrangement a producer-handler would be a continuing threat to orderly marketing and regular producers could experience a continuing loss of their Class I market to such individuals.

Certain producer-handlers complained of production costs and labor difficulties which they argued should be recognized through liberalization of the present order provisions to permit greater purchases of supplemental milk. They presented billings to substantiate their contention that supplemental pool purchases cost approximately $1 per hundredweight over the established order prices. It was their position that cost alone was an effective deterrent on purchases of such supplemental milk. They argued that the need for any significant purchases results from unusual and costly production problems, and that such a situation in conjunction with the cost of the supplemental milk would insure that a producer-handler would have no competitive advantage over pool handlers. They further argued that producer-handlers are severely penalized if they exceed allowable purchases by being required to pool their own production.

The production problems of producer-handlers are no different from those of producers who are equally beset with higher costs and labor problems. As previously stated producer-handler status is conditioned on the concept of self-sufficiency. It is not unusual that small lot, spot purchases command a substantial premium. However, there is no reason to conclude that purchases of significant quantities of milk on a regular basis would be any more costly to a producer-handler than to any other handler. Under any circumstance, premiums paid by a producer-handler for pool purchases do not accrue to producers as a whole, and hence such producers receive no compensation to offset the costs of carrying the necessary reserves associated with such milk.

Loss of producer-handler status in any particular month, or months, cannot be viewed as unreasonable since the individual's separate treatment as a producer and as a handler is identical to that of other producers and of other handlers. Further, status as a producer-handler is reestablished in the first month in which the operation returns to self-sufficiency.

The removal of the present basis for producer-handler exemption and the substitution therefor of a pool exemption of a limited quantity of a handler's own farm production was proposed as the most appropriate means by which regulatory treatment should be applied to operations of producer-handlers. However, there was no evidence that producer-handlers in the Massachusetts-Rhode Island market are adversely affecting the competitive position of either pool handlers or producers under

the existing regulation or that the proposed exemption of specific quantities of own farm production would in any way implement administration of the order, enhance overall producer returns or insure more orderly marketing.

The definition and treatment of producer-handlers under the Connecticut order differs from that under the Massachusetts-Rhode Island order in that the concept of self-sufficiency is not employed. Connecticut producer-handlers have had the opportunity to purchase unlimited quantities of fluid milk products from pool plants. However, they are restricted in that supplemental purchases for fluid use must be in the form of fluid milk products.

The basic difference in treatment of producer-handlers under the Connecticut order as compared to Massachusetts-Rhode Island primarily reflects the unique position which such individuals have historically held in the Connecticut market and the fact that they have not engaged in practices which would undermine or disrupt the local market.

The general tranquility which has existed in the market between producer-handlers, handlers and producers has been disturbed with the recent change in status of a very substantial handler from that of a pool handler buying all of his milk from producers and other pool handlers to that of a producer-handler. Connecticut producer interests made several attempts during the hearing to frame a proposal which would deny producer-handler status to this individual without affecting the status of any other producer-handler presently in the market. Their final suggestion in this regard was a proposed 75,000-pound limitation on the volume of fluid milk products which a producer-handler could purchase from pool plants during the month.

The record reveals no market instability or threat of market instability resulting from the change in status of this handler. While the precise size of his operation was not revealed it is apparent that he is one of the larger handlers in the market. It is also apparent that his own farm production is a relatively minor portion of his total fluid requirements. Based on information contained in the record it is estimated that his total Class I sales exceed 4 million pounds monthly and own farm production is about 700,000 pounds.

Since all pool purchases by a producer-handler are mandatorily classified as Class I under the terms of the order, own farm production must absorb any necessary reserve and Class II usage in his plant. Under the existing situation it is unlikely that the handler realizes any significantly greater return on his own farm production as a producer-handler than would be returned to him as a producer under the order since the average utilization of producer milk approximates 79 percent. There is, therefore, no apparent need at this time for the type of action proposed.

If such handler should in the future change his operation through substantial expansion of his production facilities while using pool purchases for the purpose of removing risks which otherwise would be involved in expanding production and distribution or for the purpose of balancing day-to-day and seasonal variations in supplies and sales, amendment of the producer-handler definition to embrace a self-sufficiency concept such as contained in the Massachusetts-Rhode Island order might appropriately be considered.

The University of Connecticut proposed that the order be amended to permit producer-handlers to purchase nonfat milk solids for use in fortification of fluid milk products and to purchase cream for use in standardization of fluid milk products. This proposal was based upon their own special need as a research and teaching institution as well as upon the need of producer-handlers in general.

The special need of the University is dealt with through special exemption elsewhere in this decision, and therefore, is not discussed further in this section.

At the present time a producer-handler's milk supply is restricted to own farm production and purchases of fluid milk products from pool plants. Hence, any fortification or standardization of fluid milk products on the part of producer-handlers must be done with products produced in their own plants.

The University spokesman pointed out that fortification of several of the fluid milk products is necessary from a competitive standpoint and that it is too costly for a producer-handler to maintain drying or condensing equipment for this purpose. However, he did not identify like problems with cream for standardization nor did he show any need in the market for allowing such a change.

It is concluded on the basis of this record that there is no need for any change in the order to allow for the purchase of cream for use in standardization of fluid milk products. On the other hand, it is recognized that fortification of certain of the fluid milk products may be essential for competitive survival and that current restrictions on the purchase of nonfat dry milk for fortification by producer-handlers may be unnecessarily burdensome. It is unreasonable to expect that a producer-handler could maintain drying equipment solely for the purpose of processing nonfat dry milk for fortification.

Since fortification, in fact, adds only slightly to the volume of product there can be no significant loss to the pool in permitting producer-handlers to purchase powder for this purpose. It would, of course, be inappropriate to permit producer-handlers to purchase powder for reconstitution purposes. Should such situation occur it is intended that loss of producer-handler status should result. As a pool handler such individual would then be required to pool his own farm production and make appropriate equalization payment on the volume of reconstituted fluid milk products.

5. *Classification and assignment provisions.* The proposal to change the fluid milk products definition in the Massachusetts-Rhode Island order to exclude any mixture of milk or skimmed milk and cream containing at least 10 percent but less than 16 percent butterfat from the definition should be denied.

Currently, the order provides that 50 percent of the quantity of any mixture of milk or skimmed milk and cream containing at least 10 percent but less than 16 percent butterfat is classified as Class II milk while the remaining 50 percent is treated as a fluid milk product classified as Class I. Under the proposal the 50 percent of any such mixture now classified as Class I milk would be placed in the Class II category.

A representative of New England Milk Dealers, Inc., testified that such a change was necessary to lower the cost of the product to handlers who would then be able to lower the selling price and thereby make the mixture more competitive with similar products using vegetable fats.

No specific evidence was presented at the hearing concerning the encroachment of competing products on the sales of the mixtures nor was any evidence presented concerning the competitive nature of the products other than a pricing advantage. In this regard, the representative testified that the raw product cost of the vegetable fat product was about 12 cents per quart while the raw product cost of a 12 percent butterfat product was about 25 cents per quart. He also stated that a change in the classification of the 50 percent quantity of the mixture remaining in Class I to Class II would reduce the raw product cost by about three cents.

Producers opposed any change in the classification of half and half on the grounds that a Class II classification is not compatible with the concept of the classified pricing scheme in that "half and half" is required by the appropriate health authorities to be made from milk and milk products received from approved sources of supply and that the product is sold in direct competition with other fluid milk products in Class I.

Market competition from a vegetable base (or any nondairy substitute) product is not an appropriate basis for determining the classification of a fluid milk product. Under the classification scheme employed under Federal orders the fluid milk products classified as Class I are those which are required by the appropriate health authorities in the marketing area to be made of milk products from approved sources. The extra cost incurred by producers in producing quality milk and in delivering it to market in the condition and in the quantity needed by the market necessitates a price for milk used for fluid uses somewhat above the price of milk used for manufacturing products. The higher price must be at a level which will provide sufficient incentive to producers through the uniform price to encourage the production of those quantities of milk needed for Class I plus the necessary reserve to cover daily fluctuations in market demand.

The existing split classification of half and half was adopted in recognition of the fact that consumers and commercial

customers (restaurants, etc.) could readily purchase fluid skim milk (Class I) and cream (Class II) and combine them to make half and half if there was an economic incentive to do so. The present pricing structure therefore was adopted in recognition of this competitive market situation. This record provides no basis for any change in the classification of "half and half" and the request to do so is denied.

The proposal to amend the Massachusetts-Rhode Island and Connecticut orders to include consumer packaged milk shake mixes as a fluid milk product should be denied.

Several producer associations proposed to substitute for the wording in the fluid milk products definition which excludes "ice cream mix, ice milk mix, and milk shake base mix" the words "frozen dairy product mixes." As brought out at the hearing the intended effect of such a word substitution was to include as a fluid milk product any milk shake mix that was packaged in a consumer container for consumption without any additional additives being used.

At the present time there are products on the market sold in consumer type packages the ingredients of which are essentially the same as milk shake base mixes sold to dairy stores, soda fountains and similar establishments and for which the orders specify a Class II classification. These products are considered the same as a milk shake base mix and therefore have not been considered a fluid milk product under the terms of the respective orders.

Although proponents contended that such products were in direct competition with chocolate milk, chocolate drink, and conventional milk shakes the record evidence does not indicate that this is the case. Rather, the empirical evidence cited by a handler's representative would indicate that there is little, if any, problem in this area. In addition, there was no evidence presented to show what the volume of sales of this product are nor how fast the sales are increasing.

Milk shake mix is a product that is quite comparable to ice cream mix. Apparently, because of this similarity the local health authorities in both Massachusetts and Connecticut have placed it in the same health category as ice cream. Since there is no requirement that the product be made from approved milk supplies it could be made in plants anywhere in the country and sold in the marketing area either directly on routes, through jobbers or grocery chains or through presently regulated handlers. Under such circumstances there would be insurmountable problems in order administration if such products were included within the fluid milk definition and classified as Class I milk. Accordingly, the request for the inclusion of such products in the fluid milk definition is denied.

The Massachusetts-Rhode Island order should be amended to clarify the assignment provisions as they apply to milk unfit for human consumption which is received from dairy farmers for salvage purposes only.

The assignment provisions provide that skim milk and butterfat in milk products other than fluid milk products received from dairy farmers shall be assigned to Class II. This wording was adopted to permit handlers to accept for manufacturing uses milk unfit for human consumption without including such milk in the pool.

It is recognized that a dairy farmer necessarily is confronted with a disposal problem when for some quality reason the handler cannot accept his milk in his normal operations. However, in Federal orders generally, milk which a handler receives directly from the farm at a pool plant is considered a receipt of producer milk. This presumes that if the applicable health department permits the milk to be received in the regular plant operation it does, in fact, have the necessary health approval. Nevertheless, it is possible that handlers operating separate manufacturing facilities which facilities may carry health approval to supply milk to the fluid market, can under certain circumstances utilize milk in such facilities which cannot be disposed of for fluid use. Under such circumstances there is no reason why a handler and a dairy farmer in the unfortunate circumstance of having milk unfit for human consumption should not be permitted to cooperate in the disposition of such milk for salvage purposes. However, appropriate safeguards must be provided both for the producer and the pool so that a handler cannot arbitrarily initially refuse to accept a producer's milk solely for the purpose of acquiring such milk outside the framework of the order for Class II use.

This can be appropriately accomplished by requiring that the milk must have been rejected at the farm in the course of normal pickup operations, segregated therefrom, and accepted by the handler only as salvage product rather than as milk. Further, the producer definition should be modified to specifically exclude a dairy farmer with respect to such salvage milk. These clarifications reflect no change from the present treatment of such milk under the existing order. Nevertheless, it is desirable that the provisions with respect to the treatment of salvage milk be stated in more explicit language to prevent any misunderstanding as to their application.

The Massachusetts-Rhode Island and Connecticut orders should be amended to provide a new basis of assignment with respect to receipts of bulk milk at pool distributing plants from plants fully regulated under another Federal order. To the extent that such receipts from other Federal order plants are not offset by similar shipments to such other Federal order plants or are not assigned to Class II by agreement, the orders should provide that such milk shall be assigned pro rata to classes of use. Such pro rata assignment should be made according to the lower of either the market average utilization as estimated by the market administrator or the utilization of the milk remaining in each class at all of the handler's pool plants but in no case should the quantities of butterfat and skim milk assigned to Class II milk exceed the respective quantities remaining in Class II at all of his plants.

The orders presently provide only for assigning such receipts in proportion to the respective remaining pounds in each class at all of the handler's pool plants. As pointed out by the cooperative proponents this procedure under certain circumstances allows producers associated with other Federal markets to share in the New England order Class I sales to a greater extent than do local producers. That is, local producers must bear an unduly large portion of the reserve supply burden because they share in the market sales at the market average utilization while other Federal order producers can share at a higher rate of Class I sales and thus bear a lower share of the reserves, depending upon the receiving handler's utilization.

The only situations that this amendment will affect are those in which a handler who operates a distributing plant has both Class I and Class II sales and receives part of his milk from producers under the order and part in bulk from other Federal orders. For these plants the reserve supply is included, in part, in the receiving market and in part in the shipping market. The present order provisions do not fully recognize this sharing of the reserve between local producers and other order producers since these provisions provide only for prorating bulk milk shipments from other Federal orders over the classes of utilization of the receiving handler. By assigning such Federal order receipts on the basis of either the marketwide or the handler's utilization, whichever results in the greater Class II assignment, the local producers will not be required to bear a disproportionate share of the reserve.

If the milk imported by a multiple plant handler is assigned only to the receiving plant's utilization, such assignment could reduce the handler's percentage of producer milk in Class I in his system to a greater extent than if assignment were applied over the whole system. Therefore, to prevent a multiple plant handler from discriminating against local producers by importing milk into his high utilization plant, assignments of interorder bulk milk should continue to be made over all utilization of milk at all the handler's regulated plants in the receiving market.

By limiting the quantity assigned to Class II to the actual quantity utilized as Class II by the receiving handler the order will not assess an additional cost on milk assigned to Class II in excess of a handler's own utilization in that class. It assures also that producers in the shipping market will have their milk classified as Class II in no greater quantity than that actually used by the handler to whom the milk was transferred.

In any month in which bulk milk is received in the market from another order market (without Class II agreement on the part of the handlers involved in the transfer) it will be necessary that the administrator in the shipping market know the classification of such milk on or about the date when handler reports

are due under that order. Because the reporting dates under orders are very similar, the administrator of the receiving market will generally not have complete information to compute his exact marketwide utilization of producer milk by the time the classification of a transfer is needed by the administrator in the shipping market. In fact, classification of the receiving market's producer milk will be dependent on the assignment of the other order milk. Since the administrator of the receiving market will have adequate information to assure an estimate very close to the actual marketwide utilization, it is provided that such estimate will be made, when necessary, and publicly announced to the nearest whole percentage and, for this purpose will be final.

In a situation where the local receiving plant and the other order shipping plant have moved bulk milk back and forth during the same month only transfers of milk between the two handlers which are not offset by an equal quantity of milk moved from the local handler to the other order handler need be considered. Such a provision is now provided in the order and should continue to apply.

6. *Class prices*—(a) *Class I price.* No change should be made with respect to the basic point of pricing under the respective orders; i.e., 201–210-mile zone under the Massachusetts-Rhode Island order and nearby zone under the Connecticut order. The factor 0.04041 used in the calculation of the New England dairy ration index component of the pricing formula should be revised to conform with revisions in the dairy ration price series for New England as reported by the Department of Agriculture. The contraseasonal pricing provisions should be removed from the orders and the scheme of adjusting the Class I price level in increments of 22 cents should be abandoned. The snubbing provision in the Class I pricing formula which holds the New England economic index price within a 5-cent range of the New York-New Jersey (Order 2) Class I price (before supply-demand adjustment) should be modified to permit a 13-cent variance between such prices, and the economic index should be floored at 115.89 through April 1968. Finally, the additional supplies and sales of the plants associated with the proposed area of extension should be excluded from the computation of the supply-demand adjustment factor and the supply-demand adjustment factor should be fixed at 0.99 through December 1967.

Various proposals which would revise the Class I pricing provisions under one or both orders were considered at the June 20–July 1, 1966, hearing. Such proposals would: (1) Provide for f.o.b. market pricing under the Massachusetts-Rhode Island market; (2) continue the present 21st zone pricing but raise the basic (21st zone) price by 7 cents; (3) provide for farm pricing of farm bulk tank milk with no plant hauling allowance; (4) provide a transition provision in the supply-demand adjustment mechanism to eliminate possible skew because of additional receipts and sales associated with the marketing area extension; and (5) adjust the base period factor used in the computation of the dairy ration index to conform with the Department's revision of the dairy ration price series.

Four regional hearings were held during the week of April 10, 1967, to consider Class I price levels under all but three Federal orders. The regional hearing held at Washington, D.C., during April 14–15, 1967, covered, among others, both the Connecticut and Massachusetts-Rhode Island markets. For the Massachusetts-Rhode Island market this was a limited reopening of the June 20–July 1, 1966, hearing.

On April 25, 1967, a decision based on the April hearing, set the prices in Massachusetts-Rhode Island and Connecticut at $6.35 and $6.82, respectively. In establishing such prices the Assistant Secretary recognized that several of the issues considered at the June–July 1966 hearing involved modifications of the Class I pricing formula and that a decision on these matters was still pending.

Proposals to amend the Massachusetts-Rhode Island order to provide for (1) f.o.b. market pricing and (2) continuation of the 21st zone as the basic point of pricing with a 7-cent upward adjustment in the basic price level were both directed to the same end; i.e., integration into the pricing scheme of a 7-cent reduction in differential pricing between the 21st zone and the nearby zone without affecting the price in the nearby zone. Proponents for nearby zone pricing contended that a substantial and continuously increasing proportion of producer milk was moving directly from the farm to city plants and hence prices appropriately should be announced f.o.b. market to reflect this situation and to facilitate price comparisons with prices under the Connecticut order.

Traditionally, the 21st zone has been the basic point of pricing in the Massachusetts-Rhode Island market and both producers and handlers customarily use the announced prices for the 21st zone in making price comparisons with the adjacent New York-New Jersey market. Also, about half the producer milk is still being received at country plants. Since the actions herein recommended will provide the identical pricing at each zone which would prevail under nearby zone pricing it is concluded that no change need be made in the basic point of pricing on the basis of this record. Nevertheless, to facilitate price comparisons between Federal orders generally, consideration should be given to the possible announcement of prices f.o.b. market under both the Massachusetts-Rhode Island and New York-New Jersey orders at any hearing called to review interorder price alignment as between these markets.

Proposals to price milk at the farm or milk house, to zone such milk house according to individual or town location based upon Boston or other suitable central points, and to provide that no deduction from the producer price be permitted for hauling or other related services by the handler were supported by a number of producers and by a cooperative primarily associated with the New York market. Little evidence was introduced relative to a need for such changes in the Massachusetts-Rhode Island or Connecticut markets.

The individual producers supported the proposals generally on the basis that such amendments would provide free hauling from farm to plant and, thus, would relieve to some extent the effects of rising production costs. This in itself is not a valid consideration for a change in the point of pricing. The prices established under the order are those concluded to be necessary to insure an adequate milk supply for the market. Should it develop at any time that a higher return to producers is required to achieve this end the matter of appropriate price level should be promptly considered at a public hearing. In this regard, on the basis of the reopened hearing held in Washington, D.C., on April 14–15, 1967, in conjunction with emergency hearings called to consider the Class I price level under Federal orders generally, the Class I price level was increased 20 cents effective May 1, 1967, and extending through April 1968.

The proponent cooperative contended that the proposal should be adopted on the more general grounds that it would solve many of the problems being considered at the hearing. The contentions, however, were based primarily on experience in the New York market with little consideration given to the actual effects of such provisions. On cross examination a representative of the cooperative admitted that they had not surveyed the markets involved to determine the need or the effects of adoption of their proposal on the local market. The request for such pricing is therefore denied.

One of the components of the economic index used in the computation of the Class I price under the New England orders is a New England dairy ration index. This is computed by dividing the monthly average price reported by the Department of Agriculture to have been paid by farmers in the New England region for 100 pounds of mixed dairy feed containing less than 29 percent protein by the factor 0.04041, which factor reflects the average price for such feed as reported by the Department of Agriculture during the years 1957–59.

The Statistical Reporting Service of the Department of Agriculture has now determined that the prices reported in recent years have not appropriately reflected the actual price paid by farmers purchasing bulk (unbagged) feed in quantity lots which is now the customary practice. They have, effective June 29, 1966, revised the basis for reporting such price and in addition revised the prices previously reported for the period January 1954 through May 1966.

Under the revised price series the average price per hundredweight during the period 1957–59 was $3.884 as compared to a price of $4.041 previously reported. It is necessary that the order be amended to reflect this adjustment to provide comparability between the base period price and the price as currently reported. Unless this is done the New England dairy ration index would have an unwarranted depressing influence on the Class I price level. In this regard, official notice is taken of the action of the Assistant Secretary effective July 22, 1966. (Determination of Equivalent Factor To Be Used in Computation of Price for Class I Milk.) (31 F.R. 10414.)

Official notice is taken of the amendments effective April 1, 1967, for the Massachusetts-Rhode Island, Connecticut, and New York-New Jersey orders which removed the seasonal Class I pricing provisions and provided in lieu thereof a take-out-pay-back (Louisville) plan for paying producers. Previously in these markets the seasonal price adjustments contained in the Class I pricing formulas provided the highest level of price for the months of October, November, and December, normally the shortest months of supply. To insure that the intent of the seasonal price adjustments could not be negated during these months by a downward movement in any of the Class I pricing components the New England orders contained a contraseasonal price provision which provided that the Class I price in November and December, respectively, could not be lower than the price in the preceding month.

Since the orders no longer provide for seasonality of Class I pricing and because, as hereinafter recommended, the bracketing scheme providing for Class I price adjustments in 22-cent increments is being removed from the orders, month-to-month Class I price adjustments in response to changes in the economic index factors or the supply-demand adjustment will not be substantial. Accordingly, the contraseasonal provisions of the orders will no longer serve any substantial purpose and appropriately should be removed to permit free action of the pricing formula.

Price alignment between the New England orders and the New York-New Jersey order must be given careful consideration in any modification of the New England Class I price formulas.

At the present time the New England Class I price formula employs a snubbing provision to keep the economic index price (price prior to supply-demand adjustments and bracketing) aligned with the New York-New Jersey price prior to supply-demand adjustments. This snubber allows a maximum 5-cent variation in the prices at that point. However, the final prices can vary by considerably more than 5 cents. For example, the average 1966 Class I price (21st zone) for the New England orders exceeded the similar price for New York-New Jersey by 31 cents. As these price differences increase there is increasing incentive for milk to move from the lower priced New York-New Jersey market to the higher priced New England markets.

Official notice is taken of the monthly statistical reports of the market administrators for the two markets for the months of June 1966 through February 1967. During the 12 months ending with February 1967, over 31.5 million pounds of New York-New Jersey pool milk were disposed to pool plants associated with the Massachusetts-Rhode Island marketing area. The monthly amounts have followed a general upward trend during this period, starting at 1.2 million pounds in March 1966 and ranging up to 4.5 million pounds in February 1967. It is apparent that this continuing upward trend in receipts of New York-New Jersey pool milk in the New England Federal order markets is the direct result of the pricing advantage New England handlers gain through the use of such milk.

Part of the problem of price alignment stems from the use of the bracketing system in the New England orders. Under this system if prices are in close alignment prior to bracketing they can, after bracketing, be out of alignment by as much as 11 cents, depending upon where the unbracketed price falls within the bracket system. In addition, a small movement of the unbracketed price can cause a movement of 22 cents in the final price.

Removal of the bracketing system would reduce the sharp increases or decreases in the final price and reduce the tendency for price misalignment. Therefore, the bracket system should be removed from the orders.

To implement the 7-cent adjustment in differential pricing hereinafter concluded to be necessary, appropriate adjustments must be made in the pricing formula. If no adjustment is made in the basic price, the Class I price level at city plants and returns to producers delivering to such plants would be decreased 7 cents. On the other hand, if no change is to be made in returns to producers delivering to city plants, the basic price level and returns to producers delivering to country plants would necessarily have to be increased by 7 cents.

In light of the Assistant Secretary's recent decision increasing the Class I price level by 20 cents on the basis of evidence presented at the reopened hearing there can be no further basis on the record for any change which would significantly affect total producer returns. Ideally, the 7-cent adjustment in differential pricing should therefore be integrated into the pricing scheme in a manner which would not change total producer returns. Currently, almost 50 percent of producer milk in the Massachusetts-Rhode Island order is priced at city plants. Accordingly, a 4-cent upward adjustment in the basic price level in combination with the 7-cent adjustment in differential pricing will result in a 3-cent reduction in the nearby zone Class I price. Total producer returns for the market, however, will remain virtually unchanged. This is concluded to be the most appropriate means of integrating the 7-cent adjustment in differential pricing into the pricing structure.

It is recognized that this procedure will necessarily effect a 3-cent reduction in the Class I price applicable at city plants under the Connecticut order and that 90 percent of the producer milk under that order is priced at city plants. However, because of the close interrelationship of the Connecticut and Massachusetts-Rhode Island markets it is not possible to maintain a higher city plant price under the Connecticut order than is applicable at Massachusetts-Rhode Island city plants. The Connecticut market is only 40 percent the size of the Massachusetts-Rhode Island market and milk from the latter market is equally available to the Connecticut market. Accordingly, there simply is no practical means by which this slight reduction in price can be prevented.

It is a coincidence that except for action of the present snubbing provision and the effect of bracketing, the Class I pricing formula would have provided an April Class I price of $6.35 which is the identical Class I price level established by the May 1, 1967 amendment. The New England economic index price, however, was 9 cents above the New York-New Jersey Class I price (prior to application of the supply-demand adjustor) established by such amendments.

To insure a Class I price of $6.39 it is necessary that the New England economic index be floored at 115.89 or 0.71 points above its April level. In addition, the snubber must be extended from the present 5 cents to 13 cents. This will insure an economic index price of not less than $6.455 which after supply-demand adjustment will provide a Class I price of not less than $6.39. The 115.89 floor on the economic index should run through April 1968. At that time the floor in the U.S. Wholesale Price Index in the New York-New Jersey Class I pricing formula as well as the price adjustment effected in June 1967, will expire and the pricing formulas of the respective orders could continue to operate. At this time it is not possible to appraise the interorder price relationship which would result. However, in this connection the principal cooperatives in the New England and New York-New Jersey markets have indicated their intent to review their respective pricing formulas with the expectation of an amendment hearing to provide a more integrated pricing scheme among these markets.

The supply-demand adjustment mechanism which is a component of the pricing formulas reflects the combined producer receipts and Class I sales of the two markets. Briefly, the experience for each of the second, third, and fourth preceding months, is compared with a base Class I percentage reflecting a 37-month market experience (determined annually at the beginning of each calendar year) adjusted by the weighted average utilization in the base year 1958. The result is expressed as a "percentage of base supply" and the economic index price is adjusted one percent for each 1.5 points deviation of the percentage of base supply from 100.

Without some adjustment in the supply-demand provision the current supply and sales data for plants being brought under regulation as a result of the decision could, unless the pattern is identical to the existing market, affect

the supply-demand factor of the formula and further adjust the Class I price. Since information with respect to such plants will not be available for any month prior to the effective date of the amending order; it is not possible at this time to reconstruct the supply-demand mechanism to accommodate the extended market.

It would be possible to specifically provide that supply-sales experience of plants being brought under regulation by this amendment be excluded from the computation of the supply-demand adjustment. However, it is recognized that the area extension may well prompt regulated handlers, who have also operated unregulated plants to serve the previously unregulated area, to change their operations by closing plants and consolidating routes.

The spokesman for the principal cooperative proponent for the area extension proposed that the effect of the supply-sales relationship change be minimized by compensation in the supply-demand adjustment mechanism. Under his proposal this would be accomplished by providing for statistical reporting for plants serving the area of extension 1 month prior to effective date of the full order. The supply-sales data for the two markets and the area of extension then would be used to calculate a current percentage of base supply identical with that resulting from the existing orders for such month by adjusting the "norm" (which reflects the average Class I utilization in the base year) to the extent necessary to accomplish this end. The "norm" thus computed would be used in all subsequent months in the computation of supply-demand adjustment.

The major problem with this suggestion is that the data for the trial month will not be available until after the month for statistical reporting is over and the Class I price for the next month is announced and in use. In addition, the compensating adjustment would have to be based on 1 month's experience which may or may not be representative. For example, if the seasonality of the production and/or sales differ from the seasonality used in adjusting the base percentages, the new "norm" would not be representative. Or, if the handlers make changes in their operations to include or exclude sales and/or production from the area after the expansion has taken place, the new "norm" would not be representative.

On the basis of this record there is no way to predict the adjustments that handlers may make in their operations after the area extension. Thus, the possible effect of the additional supplies and Class I sales associated with the area of extension on the supply-demand adjustor cannot be predicted. It is concluded therefore, that pending consideration of the matter at a subsequent hearing, when more adequate data are available, the supply-sales data of the plants brought under regulation as a result of the area expansion should not be reflected in the supply-demand adjustment. To insure against possible inappropriate action of the adjustor as a result of plant closings and/or route changes as a direct result of the area expansion the factor should be held at its present level (0.99) through December 1967. During this period data will be accumulated and can be used to properly appraise the possible impact of the overall effect of the area extension on supplies and sales. To this end the market administrator should separately announce the receipt and sales experience of plants presently regulated and, in addition, that for the expanded market as a whole.

(b) *Class II prices.* No change should be made with respect to the Class II price level under the respective orders on the basis of this record.

All of the northeastern Federal orders price surplus (reserve) milk on the basis of the average price for milk for manufacturing purposes, f.o.b. plants United States as reported by the U.S. Department of Agriculture adjusted to a 3.5 percent butterfat content basis. The resulting price is then adjusted seasonally in specified amounts under each of the respective orders. These seasonal adjustments increase the Class II price level in the New England markets on an average annual basis by 5.4 cents.

Proposals were made to increase the Class II price level, (1) by 5 cents during July through November, (2) by 4.2 cents in each month but only in the nearby plant zones, and (3) on an increasing scale from zero in the 21st zone to 9.2 cents in the nearby zone.

In support of their proposals proponents contended that a higher Class II price level was needed to provide price alignment with the Class III price under the New York-New Jersey market as it applies with respect to farm bulk tank milk. In addition, proponents for a higher Class II price in the nearby zones contended that a higher price in these zones would tend to deter handlers from the continuing practice of associating Class II milk with plants in the nearby zone. They pointed out that this practice is fostered under the present orders since much of the transportation associated with such movement of milk is subsidized from pool proceeds. Finally, proponents for a higher Class II price in the July–November period only, also argued that such price increases would moderately increase the blend price during such period and hence encourage more even seasonal production without affecting the marketability of the milk.

The appropriate level of pricing for reserve milk and the need for interorder price alignment under the northeastern Federal orders was considered at a hearing held in New York City during the period June 19–30 and July 10–August 2, 1961. The present Class II pricing provisions of the New England orders were promulgated on the basis of testimony presented at that hearing. In this regard, official notice is taken of the findings and conclusions of the Under Secretary as set forth in his decision of April 25, 1962 (27 F.R. 4115).

The conclusions of the Under Secretary in this 1962 decision with respect to price alignment were not contested in the hearing now under consideration except to the extent that it was argued that the desired price alignment was not, in fact, achieved between the New England markets and the bulk tank milk priced as Class III under the New York-New Jersey order.

A similar argument was advanced in the exceptions to the 1962 recommended decision and was answered by the Under Secretary in the final decision in which he stated "* * * a similar situation exists within the terms of New York-New Jersey order. Some handlers currently purchase their milk for Class III use f.o.b. the plant, while others purchase such milk in bulk tanks and pay the haul from the farm. The level of Class III prices adopted herein is related to Class II prices in the other northeastern markets for location of plants since this is the customary basis for pricing milk in all the markets, and even in the New York-New Jersey market the major portion of supplies are so priced. Any cost adjustment which may be appropriate in the New York-New Jersey market relative to bulk tank milk received at the farm may be considered in terms of proposed changes to the bulk tank provisions of the order."

The situation in this regard is unchanged and the conclusions of the Under Secretary in denying exceptions are equally appropriate to the current situation. Hence the request for recognition in Class II pricing under the New England orders of the costs to handlers under the New York-New Jersey order of bulk farm tank milk for Class III use, is denied.

A primary concern of proponents of a higher Class II price level is the volume of producer milk received at plants in the nearby zones which is disposed of for Class II use, and on which the transportation from farm to plant is substantially subsidized from pool funds. This subsidization results from the fact that the location differential on Class II milk received directly at nearby plants is +5.8 cents whereas the blend price differential is +4.7 cents.

Under usual circumstances there is no reason why milk should be transported substantial distances for Class II use. Milk not needed for Class I use can most economically be disposed of to manufacturing plants in the production area. If handlers demand producer milk for Class II uses at city plants they appropriately should pay the transportation cost involved to move such milk from the production area to their plants.

The situation in the New England markets is somewhat unusual, however, in that cooperative associations operate several manufacturing plants in the nearby zones. These plants were initially constructed to act as balancing plants for local markets when separate Federal regulation was provided in the Boston, Merrimack Valley, Springfield, and Worcester, Mass., markets. Under the combined order these plants continue to serve the combined market in essentially the same manner as under separate regulation. That is, milk which cannot be disposed of for Class I uses by the handlers who usually receive such milk is moved to these plants and principally is processed into nonfat dry milk and cream, the value of which is appropriately reflected in the present Class II price level.

It is not apparent from the record that cooperatives operating nearby manufacturing plants are seeking or have sought milk for manufacturing. Rather, such plants have functioned to promote orderly marketing by contributing to the orderly disposition of reserve milk in the market. A higher Class II price would probably place on the cooperatives operating such plants the additional burden of handling the reserve milk supply now manufactured by proprietary handlers since there is no evidence that milk disposed of for nonfat dry milk and cream could yield a higher return than the existing Class II price.

Under any circumstances, the proposed price adjustments considered at the hearing would do little to ameliorate the situation which proponents seek to correct. If proprietary handlers with city plants are demanding producer milk for specialized Class II uses, consideration might more appropriately be given to establishing a higher price for milk disposed of in such specified uses. The record of this hearing, however, provides no basis for such action. To the extent that handlers have associated milk with nearby plants and are diverting to country manufacturing plants, milk not needed for Class I use, the amendments adopted elsewhere in this decision which would price such milk at the plant of physical receipt, will eliminate any advantage which handlers have enjoyed through transportation savings on such milk.

7. *Zoning and zone differentials.* The Massachusetts-Rhode Island and Connecticut orders should be amended to provide that the Class I and blended prices applicable at nearby (city) plants shall be 40 cents per hundredweight above comparable prices for the 21st (201–210 miles) zone. The nearby plant zone under the Massachusetts-Rhode Island order (at which the plus 40-cent zone differential would apply) should encompass only the area within the States of Connecticut and Rhode Island and that part of Massachusetts which is within the farm location differential areas.

The zone differential schedule set forth in § 1001.62(d) should be revised to conform with the revision in the nearby plant zone and incorporate the receiving station allowance and fixed transportation costs into the rate schedule at the 15th (141–150 miles) zone.

Under the existing Massachusetts-Rhode Island order the nearby plant zone takes in the entire marketing area. It also includes the farm location differential areas which extend to a number of Vermont, New Hampshire, and Maine towns. Class I and blended prices within the nearby plant zone are at the city plant price; i.e., 47 cents above the announced 21st zone price. The receiving station allowance and fixed transportation costs are incorporated in the rate schedule at the nearby zone and the zone differentials from that point through the 21st zone vary at the rate of 1.2 cents per zone. Beyond the 21st zone the increment is at the rate of 1.0 cent per zone.

Prices under the Connecticut order are announced f.o.b. market and the nearby zone to which such prices are applicable extends to within 50 miles of Hartford. The receiving station allowance and fixed transportation charges are incorporated into the zone differential schedule at the 6th zone and the price for more distant zones is adjusted at the rate of 1.4 cents per zone.

Proposals were made to reduce the differential between zone 21 and the nearby plant zone from 47 cents to 40 cents in both orders. Also proposals, or modifications thereof, were made for the Massachusetts-Rhode Island order to establish more than one basing point for the purpose of applying location differentials; also to change the existing differentials between zones, the nearby plant zone definition, the point at which supply plant allowances are effective, and the point at which the variable transportation rate becomes effective. One proposal to modify the nearby plant zone definition in the Massachusetts-Rhode Island order to include all plants located within the 46-cent farm location differential area was conditioned upon the addition of Cheshire and Sullivan Counties to the marketing area. Since the inclusion of these counties is not being recommended, this proposal is not here considered.

The present zone differentials under the Massachusetts-Rhode Island order have been effective since October 1, 1964. The differential of 47 cents between the 21st zone and nearby zone price reflects a fixed transportation cost of 13 cents regardless of distance plus variable transportation costs of 1.2 cents per 10 miles distance; and plus additional costs of handling milk through country plants, as compared to direct receipt at the city, of 10 cents.

At the hearing both producer and handler interests concurred that the differential between city plant and country plant pricing was excessive in terms of present transportation and country plant operating costs. Since the application of zone differentials is intended to achieve a high degree of uniformity in prices to all handlers f.o.b. the market, it is necessary that such differentials reflect insofar as possible only the additional costs incurred in receiving milk first at country plants and moving it to the central market.

Handler and cooperative representatives both testified that with the essentially complete transition from can to farm bulk tank handling, the additional cost of receiving milk through country plants has been significantly reduced. The principal handler spokesman, whose company operates a number of country plants, testified that their actual costs in operating country plants were about 4.5 cents per hundredweight of milk as compared to the current allowance of 10 cents included in the present differentials. A reduction in the cost of operating country plants was further attested to by a representative of a cooperative association who stated that the average additional cost of operating eight of their receiving stations was 6 cents per hundredweight.

Information was placed on the record on actual transportation charges by independent haulers for over 186 million pounds of milk moved from 29 country plants to plants within 40 miles of Boston during the period July through November 1965. The weighted average cost varied from 24.53 cents for milk originating at plants in the 15th zone to 35.53 cents for milk originating at plants in the 25th zone. While there are some unusual variations in hauling costs as between zones of origin (for example, the charge from the 25th zone only slightly exceeded that from the 21st zone) the data generally substantiate a transportation cost of 34 cents from the 21st zone with an average 1.2-cent increment in cost from one zone to the next. Thus it must be concluded that the present 47-cent differential between the 21st zone and the central market appropriately should be reduced to 40 cents.

The 7-cent reduction reflects a 4-cent reduction in country plant costs from 10 cents to 6 cents and a 3-cent reduction in transportation costs. Since the evidence on hauling rates substantiates retention of the current variable rate of 1.2 cents per 10-mile zone, the 3-cent reduction in transportation costs must be associated with the fixed costs of transportation.

Under the present order the country plant charges and fixed transportation costs are added at the nearby zone. This scheme of applying location differentials has accommodated the past market structure since essentially all of the regulated distributing plants were located south of the Massachusetts-New Hampshire line, while the supply plants were generally located beyond the 14th zone. However, the extension of regulation into southern New Hampshire requires reappraisal of the point at which fixed transportation and country plant charges should be introduced into the schedule of differentials.

Various proposals were made relative to the construction of a location differential schedule reflecting a seven-cent reduction in differential pricing between the 21st zone and the central market. Proponents generally recognized that extension of regulation to southern New Hampshire presented a delicate pricing problem. If the presently defined nearby zone was left unchanged and the present scheme of applying location differentials was retained, essentially all of the New Hampshire handlers being brought under regulation would be required to account to the pool for their milk and pay their producers at the identical prices required of Boston based handlers. Because their plants are much closer to the primary milk supply of the market, however, there would be opportunity for these New Hampshire handlers to undercut the order prices by charging exces-

sive transportation in moving milk directly from farms to plants.

Handlers would be under considerable pressure to cut order prices in this manner since their alternative supply source would be upcountry supply plants and to the extent that the established differentials might exceed transportation and plant costs associated with procurement of country plant milk, the incentive would exist to drop producers in favor of supply plant milk. Producers, on the other hand, would be under strong pressure to accept excessive hauling charges in order to hold their local market as long as they received net returns at least equivalent to that which they would get if their milk were delivered to Boston. As a result, New Hampshire handlers would be able to obtain their milk at prices below the established order prices.

To insure appropriate pricing as between pool distributing plants located south of the Massachusetts-New Hampshire line and distributing plants north of this line which will become regulated as a result of the area extension hereinbefore proposed, the nearby plant zone should be reduced to encompass only the States of Connecticut and Rhode Island and the territory within the farm location differential areas within the State of Massachusetts.

This adjustment alone, however, will not fully accommodate the market structure under the expanded area. If the country plant and fixed transportation cost are incorporated into the zone differential schedule at the nearby zone, as at present, local New Hampshire handlers would be forced to rely on country plants for a milk supply since southern New Hampshire producers would receive higher returns shipping to plants in the nearby zone than they could obtain shipping to local New Hampshire dealers.

To avoid such a result the country plant and fixed transportation cost appropriately should be incorporated in the zone differential schedule at some point outside the area of local pool distributing plants but where they will be applicable for all country supply plants. This may be accomplished by adding such costs into the differential schedule so as to be applicable to plants located in the 15th zone and beyond.

Under this procedure all plants located south of the Massachusetts-New Hampshire line and within the farm location differential zones will have identical pricing. Plants located outside of this area but within 31 to 40 miles (4th zone) of Boston will have a location differential of 3.6 cents. For each successive 10-mile zone through the 14th zone the differential will increase 1.2 cents. At the 15th zone the revised country plant and fixed transportation costs of 6 cents and 10 cents, respectively, should be added making the total differential between the 14th and 15th zones 17.2 cents. The zone increments beyond the 15th zone should remain as at present; i.e., 1.2 cents through the 21st zone and 1 cent beyond. The total Class I price and blended price differential between the 21st and nearby zone would be 40 cents rather than 47 cents as at present.

This revision in the zone differential schedule will achieve a high degree of uniformity in prices to all handlers and appropriately reflect the costs of moving milk through supply plants to distributing plants throughout the market. Accordingly, producers and handlers, respectively, will be free to choose their market and source of supply without substantial influence from the variations in zone prices under the order.

Producers under the Connecticut order opposed any change in the zone differential structure. They argued that the continuing increase in the proportion of milk which is received directly at city plants under the Massachusetts-Rhode Island order supports an increase in the location differential, rather than a decrease. It was their position that excessive location differentials would cause handlers to make economic decisions to retain country plant operations. Since the opposite of this has resulted they contended that the present differentials must be considered inadequate.

These arguments fail to recognize that producers generally have a choice of markets. To the extent that city markets are available and provide greater net returns, producers can be expected to seek out such markets. Country plant operators, therefore, have a problem in holding producers unless they pay prices which result in equivalent returns to producers. With the flexibility in milk handling which resulted from the transition to farm bulk tanks, producer milk can be readily moved directly to the market when the producers receive a price advantage. For this reason there has been a continuing trend toward direct receipt at city plants.

In order to retain the interorder price alignment which has been found necessary in the past, the zone differential schedule in the Connecticut order must also be revised to reflect a 7-cent reduction in differential pricing as between the city and the 21st zone. This can be accomplished by reducing the differential for each zone beyond the nearby plant zone by 7 cents. This will result in a 19-cent differential for the 6th zone with an additional 1.4 cents being added for each successive zone beyond.

In order to accommodate to the change in the nearby plant zone in the Massachusetts-Rhode Island order which now will encompass zones 1 through 3 rather than 1 through 8, it is desirable that the Class II zone differential table be extended to include a variable rate for zones 4 through 8. No specific evidence was introduced in this regard but there was general testimony stating that the increment in zone differentials should reflect the variation in transportation costs.

Official notice is taken of the zone differential schedule set forth in § 904.7(c) of the Greater Boston order effective May 1, 1949, and of all subsequent amendments thereto. The nearby zone at that time included the area within 40 miles of Boston as compared to the area herein recommended of within 30 miles. The differentials for zones 9 through 40 were identical to those contained in the current order and it is therefore concluded that the differentials therein set forth for zones 5 through 8 may be adopted as appropriate differentials in the revised zone differential schedule. This leaves only the problem of an appropriate differential for zone 4. In this regard it is noted for zones 5 through 10 the differentials vary alternately by two-tenths and three-tenths of a cent. It is concluded therefore, continuing this sequence, that the differential for the 5th zone should exceed that of the 4th zone by three-tenths of a cent. This results in a 4.5-cent differential for the 4th zone.

8. *Farm location differentials.* The farm location differential provisions under the Massachusetts-Rhode Island order should be continued.

A proposal by an individual producer, supported by a number of other individual producers all of whose farms are located outside either of the specified farm location differential areas, would eliminate the farm location differentials under the Massachusetts-Rhode Island order. Proponent argued that he saw no reason why nearby producers should continue to receive "preferential" price adjustments under the order. A representative of a number of cooperatives having membership primarily, if not exclusively, among producers outside the farm location differential areas, indicated support of the proposal but offered no evidence to substantiate his position. He merely reaffirmed a position taken at previous hearings and indicated it would be repetitious to burden the record with the rationale of his position.

Farm location differentials represent plus adjustments of 46 cents and 23 cents per hundredweight to producers whose farms are located in specified "nearby" and "intermediate" areas, respectively. These adjustments which the nearby producers receive in their blend price are derived by making certain deductions from pool funds in the course of computing the announced "uniform" or "blend" price.[1] The additional returns to the nearby producers who are eligible for these differentials, thus, are monies which, in the absence of such differentials, would accrue through the blend price computation to all producers including more distant producers.

These relatively higher returns for milk customarily had been received by producers in the nearby areas prior to

[1] The basic blended price as announced by the market administrator is applicable for milk of 3.5 percent butterfat content received at plants in the 201–210-mile zone under the Massachusetts-Rhode Island order and in the nearby plant zone under the Connecticut order. It is subject to adjustments for variation in butterfat content of milk received, location of plant of receipt and farm location differentials. Because of these various adjustments the basic announced blended price is not in fact received by most producers under the order terms, but is instead, the starting point from which the blended price payable to each individual producer is computed.

the advent of Federal regulation. They were preserved in the original Boston license issued in 1933 and in the first marketing order issued in 1936 for the area by means of a form of preferential base plan which insured the retention of the relatively higher returns to producers in the nearby area which they customarily had received. The original license accompanied and was issued simultaneously with the marketing agreement voluntarily entered into between the Secretary and handlers under the original Agricultural Adjustment Act of 1933. The present structure of the farm location differential provisions, accomplishing the same purpose as the earlier base plan; i.e., to preserve these marketing differentials which had customarily been applied by the handlers in paying nearby producers, was adopted in the Boston order in 1937.

The farm location differential provisions were adopted to retain for nearby producers in the pricing structure of a marketwide pool under the order a relative position vis-a-vis upcountry producers comparable to that which they had held in the Boston market prior to the advent of Federal regulation and which had been continued under the base plan. Official notice is taken of the promulgation record and findings leading to the provisions adopted in the amendment to the Boston order effective August 1, 1937. The record showed that historically, "without any Government regulation producers on farms located within these distances (0–40- and 41–80-mile zones) over a period of years have been able to receive much more for their milk (than distant producers). This is due to the fact that their production is relatively even, and their milk is accessible to small dealers." It also showed that "if we should take away from these producers a differential that they have been able to get without Government regulation, they would have a legitimate objection that we are placing them at a comparative disadvantage as compared with producers more distant from the market."

At that time, the cost of operating an upcountry receiving and cooling station was 20 cents per hundredweight as compared with a cost of 5 cents for receiving milk from producers directly at a city plant, and the cost of furnishing cans for shipment of milk from country plants to the city was 3 cents per hundredweight. The cost of rail transportation from a plant in the 191–200-mile zone to Boston was 36 cents. Based on these transportation and country receiving station costs the Class I price charged under the order to a handler receiving milk directly at a plant in Boston was fixed at 54 cents per hundredweight more than the Class I price charged to a handler receiving milk at a plant in the 191–200-mile zone.

Based solely on these transportation and receiving station cost advantages, nearby producers presumably would have received a price of only about 54 cents more prior to regulation than the price received by upcountry producers in the 191–200-mile zone. In fact, however, the differential customarily and actually received by the nearby producers from handlers prior to regulation exceeded this 54 cents by at least 46 cents. For example, for the years 1927–30, nearby producers marketing milk to Deerfoot Farms of Southboro, Mass., received an average price $1.16 per hundredweight above that received by producers in the 191–200-mile zone. For the years 1923–32, local producers marketing their milk to the J. B. Prescott Co., of Bedford, Mass., received an average price $1.04 above that received by producers in the 191–200-mile zone. For the years 1920–30, nearby producers marketing their milk to H. P. Hood, Salem, Mass., received an average price $1.20–$1.30 above the price received by producers in the 191–200-mile zone.

Producers in the intermediate zone (41–80 miles) marketing their milk to Manchester Dairies, Manchester, N.H., in the intermediate zone during the 8-year period of 1929–36 received an average price of $2.482, 59 cents above that received by producers in the 191–200-mile zone. With similar receiving station costs and can charges in the intermediate and distant zones, only 24 cents of this differential can be accounted for in transportation savings.

Clearly, in the context of section 608c (5)(B)(ii)(a) of the Marketing Agreement Act of 1937, these greater returns for their milk, over and above just the transportation and receiving station costs, which nearby producers delivering to the Boston market had historically received prior to Federal regulation were, in the language of the statute, "market differentials customarily applied by the handlers." As a method of providing for them in the order they were translated into a 46-cent differential applicable to milk produced on farms located in the 0–40-mile zone and a 23-cent differential applicable to milk produced on farms in the 41–80-mile zone. Inasmuch as these greater returns for milk were directly related to geographical source, it was considered that these differentials were also adjustments based on "location" and within the meaning and context of section 608c(5)(B)(ii)(c) of the Act.

For whatever reasons the nearby producers historically had received preferential price treatment in the Boston market, it was found necessary to preserve for nearby producers a relative position comparable to that they had historically held in the market so as to provide "a fair and reasonable method of distributing to producers the proceeds of sales of milk to handlers,"[2] promote orderly marketing of milk in the Boston area, and prevent disruption in the normal supplies of milk for the Boston area and thus tend to effectuate the declared purposes and policy of the Act.

When each of the secondary New England markets and the Connecticut market were subsequently brought under Federal regulation these same customary higher returns for milk produced near the centers of concentrated population were found to exist and were preserved for nearby producers in these orders also in a manner identical with the Boston order provisions. In this connection, official notice is taken of decisions of the Secretary with respect to the promulgation of the Connecticut order (24 F.R. 1049) the former Springfield, Mass., and Worcester, Mass., orders (14 F.R. 7085 and 7097), and the Southeastern New England order (23 F.R. 8225). Upon the merger of these three New England orders, and the Boston order, into the Massachusetts-Rhode Island order in 1964, the historic differentials which had been provided in each of the individual orders were continued, insofar as possible, in the consolidated order.

The farm location differentials in the Massachusetts-Rhode Island order thus represent the additional returns for milk which were customarily received by nearby producers prior to regulation. These order provisions preserve, insofar as possible, the long-established status quo in relative returns of nearby producers, vis-a-vis upcountry producers. They are "adjustments" in the uniform pricing provisions. Clearly, the business decisions of nearby producers have been influenced over the years by the higher returns provided by the application of these nearby differential provisions.

The proponents' contention that the farm location differentials should be removed from the Massachusetts-Rhode Island order was not supported by facts showing that these provisions contributed to, or resulted in, disorderly marketing conditions, that they impeded or impaired the supply of milk in the marketing area or were otherwise not in the public interest. In this connection, it should perhaps be noted that the adjustments in transportation rates, hereinbefore recommended, would in fact reduce somewhat the relative returns to the nearby producers. Also it should be noted that over the years the relative importance, or impact, of the nearby differentials has been diminished in that absolute price levels have increased substantially, whereas these differentials have remained unchanged.

In view of these considerations, the present record does not provide an adequate justification or substantial basis for deletion of the farm location differential provisions from the order. Therefore, this proposal is denied.

Official notice is taken of the fact that, subsequent to the closing of the record of this hearing, several Vermont producers on December 27, 1966, filed an action in the U.S. District Court for the District of Columbia, on behalf of themselves and allegedly all other producers similarly situated, challenging the legality of the farm location differential provisions (Section 1001.72) of the order. This action styled as Russell Allen, et al. v. Orville Freeman (Civil Action No. 3379–66) sought to enjoin the enforcement of these provisions, together with a declaratory judgment holding such provisions to be illegal and not within

[2] Finding No. 2, order dated July 27, 1937, approved by the President July 27, 1937 (2 F.R. 1566).

the authority of the Agricultural Marketing Agreement Act of 1937, as amended.

Plaintiffs in this action are producers who are not eligible by virtue of the location of their farms to receive the differentials. Following a hearing, the Court issued a preliminary injunction on January 16, 1967, enjoining the payment of farm location differentials in accordance with the provisions of the order and requiring that the amounts of such differentials be held in a special escrow fund pending final resolution of the case on the merits.

Thereafter, upon motion by the Government, consented to by plaintiffs, the Court modified the terms of the preliminary injunction on March 17, 1967, to allow payment to the "nearby" producers of that portion of the differentials which was and would be attributable to the marketing of their milk regardless of the final disposition of the case. The remainder of the amounts of the differentials, together with monthly accruals, are being held in escrow.

On May 24, 1967, after a hearing, the Court granted plaintiffs' motion for summary judgment on the authority of Blair, et al. v. Freeman, 370 F. 2d 229 (CCA. DC., 1966). A final order was entered in the action on June 15, and the time for taking an appeal has not been exhausted. In its memorandum of May 24, 1967, the Court stated simply that the Blair decision was authority for the ruling on the plaintiffs' motion.

In the Blair case, several Pennsylvania producers who did not receive the differentials successfully challenged provisions of the New York-New Jersey Milk Marketing Order which provided for location differential payments on milk produced at specified locations near the markets.

Plaintiffs in the Allen case relied primarily upon the decision in the Blair case to support their allegations. The Government's position presented to the district court was, inter alia, that the Blair decision was confined in its application to the provisions of the New York-New Jersey order and was not applicable to the Massachusetts-Rhode Island Marketing Order. Additionally, the Government argued that the prior decision in Green Valley Creamery, Inc., v. United States, et al. (108 F. 2d 342), decided by the Court of Appeals for the First Circuit on December 15, 1939, was dispositive of the issues presented.

In the Green Valley case the Court of Appeals for the First Circuit upheld the legality and propriety of identical farm location differential provisions in the then Boston order. It was subsequent to, and substantially in reliance upon, this decision that farm location differential provisions were considered to be legal and proper for inclusion in other New England orders. Three of these orders containing identical provisions were merged with the Boston order on August 1, 1964, to become the Massachusetts-Rhode Island order.

As previously stated herein, farm location differential payments have been effective in New England milk orders for over 30 years. They have been and are an integral part of the pricing and market relationships in these areas. Further, and as hereinbefore stated, upon consideration of the facts presented in this and previous hearings no substantial justification for deleting these provisions from the Massachusetts-Rhode Island order has been demonstrated. It is our considered judgment that the facts presented to the Court in the Blair case as they related to the New York-New Jersey Marketing Order are distinguishable from the facts in issue in the Allen case as they related to the Massachusetts-Rhode Island Marketing Order, and further, that the legal issues presented by the two actions are equally distinguishable.

In this connection, we continue to hold the view that the validity of the farm location differential provisions of the expanded Boston order was affirmatively adjudicated in the Green Valley decision supra. It is our interpretation of the decision of the Court of Appeals for the District of Columbia Circuit in the Blair case that it was limited to the validity of the provisions of the New York-New Jersey order. This interpretation is confirmed by reasons stated in the Court's decision itself.

We do not, of course, by our present findings in the matter intend to ignore or circumvent in any way the recent decision of the District Court in the Allen case. In the present circumstances and pending final disposition of the Allen case in such appellate proceedings as may be taken, in furtherance of our authority and responsibility under the Act we are constrained to state our full views in this matter.

It was proposed and generally supported that the town of Arundel, Maine, be included in the 23-cent farm location differential area under the Massachusetts-Rhode Island order since it had been inadvertently omitted at the time that these differential areas were defined in the order.

In conjunction with the consolidation of the Boston order with three other New England orders to form the Massachusetts-Rhode Island order the method for determining boundaries for the nearby farm location differential areas was changed to facilitate administration of the order. Prior to consolidation the nearby differential areas were defined by the use of "40-mile" and "80-mile" airline arcs measured from specified locations. Upon consolidation it was concluded that the use of long-established, well-known, and readily ascertainable political boundaries would provide a less burdensome procedure for determining a producer's eligibility to receive farm location differentials than would the use of airline arcs.

In determining the cities and towns to be included in the two areas, the "40-mile" and "80-mile" airline arcs previously defined were used as a starting point. All of the cities and towns falling wholly within either of the arcs were included in the proper zone. In addition, certain cities and towns which were intersected by the arcs were included in their respective zones. However, cities and towns intersected by the "80-mile" arc were included only if the arc encompassed one or more farms that had recently delivered milk to the Boston market.

In determining the additional towns and cities to be included in the 23-cent differential area the town of Arundel, Maine, was inadvertently overlooked although it would have qualified for inclusion. The name of the town of North Kennebunkport had been changed to Arundel at some time prior to the determination but this change was not reflected on the maps used by the determining authorities. As a result, North Kennebunkport was shown as one of the intersected towns rather than Arundel. At the time of this determination there appeared to be no Boston market producers located in North Kennebunkport but this was only because the producer locations in the town were listed as being in Arundel.

There was at least one producer in the town of Arundel who was located within the prescribed "80-mile" arc and who was associated with the Boston market at the time of the consolidation. Since this would have qualified the entire town of Arundel at that time this oversight should now be corrected and Arundel should be added to the list of towns and cities included in the 23-cent farm location differential area.

The 46-cent farm location differential area defined in the Connecticut order should not be extended to include that portion of Columbia County, N.Y., now included in the 23-cent defferential area.

The present 46-cent nearby location differential area includes all the territory in the States of Connecticut and Rhode Island, that portion of New York State lying east of the Hudson River and south of the Berkshire section of the New York State Thruway, and that portion of Massachusetts lying south of the Massachusetts Turnpike. The 23-cent nearby location differential area includes that portion of New York State east of the Hudson River, north of the Berkshire extension of the New York State Thruway and south of the northern boundaries of North Greenbush, Sand Lake, and Stephantown townships in Rensselaer County, and that portion of Berkshire County, Mass., north of the Massachusetts Turnpike.

The proposal to extend the 46-cent farm location differential to include the remaining portion of Columbia County, N.Y., was made by a group of producers whose farms are located in that area. Of the 21 farmers located in this area, 19 are producers, for the Connecticut market and supported this proposal.

The farm differential areas in Connecticut are delineated by a use of both political boundaries and natural topographical features. The boundaries were drawn in a manner thought to best integrate the pricing of milk in this market with that of adjacent Federal order markets; i.e., to minimize incentives for shifting of supplies among markets except in response to differences in market demand as reflected in the respective basic blended prices.

The northeast corner of Columbia County, N.Y., was excluded from the 46-cent differential area on the understanding that the New York Thruway was a natural boundary which deterred ready access to the Connecticut market. When such natural boundaries are used producers whose farms are adjacent but are located on different sides of the line receive different returns, even though mileages are identical from the central market.

On the basis of the record it is clear that milk in this small area is produced almost exclusively for the Connecticut market. Further, several of the producers' farms are traversed by the thruway so that part of a farm is in the nearby 46-cent farm location differential area and part in the intermediate 23-cent area. In addition, the milk of all of these producers is picked up at the same time and in the same loads as other producers south of the thruway. This is accomplished by numerous crossings of the thruway during the course of loading a truck, to the end that the milk of producers north of the thruway is regularly delivered to the same handlers in the market, at the same time, and in the same trucks as producers located in the present 46-cent zone.

There are 19 producers for the Connecticut market whose farms are located in Columbia County north of the thruway. One of these producers began shipping milk to the Connecticut market in June of 1957 and another in May of 1959. (The order became effective Apr. 1, 1959.) The record does not indicate when the remaining 17 first became associated with the Connecticut market. While the record of this hearing clearly establishes that the thruway does not impede the delivery of milk from this area of Columbia County to the Connecticut market, it cannot be concluded that the thruway is an inappropriate boundary between the 46-cent and 23-cent farm location differential areas.

The purpose of these differentials was to maintain returns to nearby producers in the same relative position with respect to returns of more distant producers which had historically prevailed prior to Federal regulation. There was no showing that the existing boundaries have not accomplished the objective.

9. *Payments to producers and cooperative associations.* The Massachusetts-Rhode Island order should be amended to provide that handlers shall pay a cooperative, in its capacity as a handler pursuant to § 1001.9(d) or as the operator of a pool plant, at the same time and at the same rate as such handlers are required to pay producers. The proposal to increase the rate of advance partial payment to producers to 50 cents below the administrator's announced estimated blend price should be denied.

The Connecticut order should be amended to provide that producer-handlers shall pay for milk received from a cooperative association, in its capacity as the operator of a pool plant, at the same time and at the same rate as other handlers are required to pay such an association for milk so received.

Proposals were made by the New England Milk Dealers Association, Inc., and by a cooperative association that would require handlers under the Massachusetts-Rhode Island order to pay cooperative associations in the same manner as they are required to pay individual producers. The cooperative association also proposed that the advance partial payment to producers or cooperative associations for milk received from them during the first 15 days of the month be at a rate not less than 50 cents below the market administrator's announced estimated blend price.

When cooperative associations act as handlers and assume the responsibility for the producer's milk at the farm as is recommended under specified circumstances elsewhere in this decision they also assume a unique role under the order. That is, they are responsible for payments to producers for milk received from them during the month even though they do not operate a plant. The producers, of course, expect to receive payment within the dates specified in the order, but presently the associations have no means other than bargaining power to collect the money owed for this milk by those dates from the handler who actually used it. As a result, when circumstances prevail that weaken its bargaining position the cooperative association can be put in the position of involuntarily financing a handler's purchases through its producer-members. In such a situation the very purpose of the order of assuring proper and timely payments to producers is defeated and disorderly marketing could result.

It is possible that certain arrangements may be made between the handler and the cooperative which might circumvent the provision proposed to be adopted, and yet be legal. However, such a provision would still be an aid to effective administration in that any arrangement made between the cooperative and the handler for payment at less than the appropriate order prices or in some unusual manner or at dates later than those specified in the order would have to be in the open, and have been agreed to by both parties. Under the present arrangement there need be no formal agreement but only the unilateral action by the handler in failing to make proper payment on time. It is concluded that adoption of the proposal requiring timely payment by handlers at not less than order prices will promote orderly marketing and will provide for more effective order administration.

At the present time handlers are required to pay each producer on or before the 5th day after the end of each month for the approximate value of milk received from him during the first 15 days of the month. This payment may not be at less than the applicable zone Class II price for the month.

A producer receiving only the Class II price as a partial payment is in fact extending to the handler a certain amount of credit until the final payment is made by the handler, which is not required until the 20th day of the month following the month in which the milk is delivered. The amount of credit in such cases is equal to the difference between the advance payment and the applicable blend price. Under normal circumstances the amount of credit extended is relatively small and probably unavoidable since the actual blend prices are not available by the fifth of the month following delivery.

The record evidence does not reveal any substantial problems resulting from the current level of partial payments. Moreover, the lack of widespread support by producer representatives of this proposal indicates that there is no great need for specifying higher required rates of partial payments at this time. Therefore, the proposal is denied.

A proposal was made by local Connecticut cooperatives which would require producer-handlers to pay for milk received from a cooperative association, in its capacity as the operator of a pool plant, at the same time and rate as is required of other handlers. At the hearing a representative of the Connecticut Milk Producer Dealers Association testified that his association was agreeable to such a proposal.

Presently handlers and buyer-handlers under the Connecticut order are required to make payments for milk received from a cooperative association, in its capacity as the operator of a pool plant, by specified dates and at the applicable class prices adjusted by the zone price and butterfat differentials while producer-handlers are exempt from such requirements. In the interest of assuring orderly marketing through the equitable treatment of handlers and assurance of payments for producers' milk supplies from a cooperative's pool plant, producer-handlers should be required to make the same payments and by the same dates as other handlers are required to pay in similar circumstances.

10. *Miscellaneous and administrative provisions—Reclassification of ending inventory.* The Massachusetts-Rhode Island order should be amended to provide that the reclassification charge on fluid milk products included in a plant's ending inventories which were classified and priced as Class II milk in the previous month but which are reclassified as Class I in the current month shall be computed at the zone prices for the same zone location as would have been used had such milk been originally classified and priced as Class I.

When ending inventory is classified as Class II and subsequently reclassified as Class I a charge at the difference between the previous month's Class II price and the current month's Class I price is made on the amount of opening inventory which is assigned to Class I in the current month. This procedure is designed to assure equal product cost among handlers for milk disposed of in Class I.

At the present time the order provides that the prices used in computing the pool payment on beginning inventory that has been reclassified as Class I shall be the prices for the zone location of the

plant for which the value is being computed. Under this provision when milk received at a nearby plant from a country plant is held in inventory as Class II and is reclassified as Class I milk in the current month, the value attached to such reclassified milk is higher than would have been attached to it had the plant involved claimed all the preceding month's ending inventory as Class I, or if only one plant were involved.

Under the order the operator of the shipping plant is held responsible for the milk at the price applicable at its zone location. While the operator of the receiving plant has no pool obligation on the milk, he must, of necessity, incur the cost of moving the milk to his plant. However, when part of this milk so shipped is included as ending inventory at the transferee plant and classified as Class II, but is subsequently assigned to Class I milk in the current month, the order requires a reclassification charge which provides the same total Class I obligation on such milk as though it had been initially received from producers directly at the transferee plant. In other words, the milk is normally priced at the location of the shipping plant when originally classified as Class I or Class II, but, when it is reclassified as Class I milk as part of the current month's beginning inventory it is priced at the location of the receiving plant. Therefore, the receiving handler is responsible to the pool for such reclassified milk at the same rate as would have been applicable had the milk been delivered directly by producers to his plant. In such case the handler incurs an added cost for which he receives no return. The result of this is to create unequal costs to handlers for this volume of reclassified inventory milk, depending upon the manner in which different handlers treat their ending inventories.

In order to avoid any unequal pricing to handlers on inventory milk that is reclassified and priced as Class I and to provide that the producers, through the pool, do not receive additional money through inequitable pricing of such milk, the point of pricing for opening inventory milk reclassified as Class I should be changed to the point at which such milk would have been priced as Class I milk in the preceding month.

Statements to producers. The Massachusetts-Rhode Island order should be amended to make clear that the butterfat differential value is part of the required information to be shown by handlers on their statements to producers.

In making required payments to producers, handlers currently are required to furnish each producer with a supporting statement which must show, among other things, the minimum rate or rates at which payment to the producer is required by the order. It is desirable that the producer have this information readily available to him in order that he be able to check his payment for accuracy as well as to make valid price comparisons with other potential outlets for his milk. The butterfat differential by which the rate of payment is adjusted to the butterfat content of the producer's milk is a necessary part of these computations and should be shown on his supporting statement.

Monthly reports of receipts and utilization. The Massachusetts-Rhode Island order should be amended to provide that the handlers' monthly reports of receipts and utilization be filed on or before the 8th day after the end of the month or not later than the 10th day if the report is delivered in person to the office of the market administrator. In conjunction with this change the order should also be amended to allow the market administrator until the 13th day of each month to announce the zone blended prices.

Currently the order provides that all such reports must be filed on or before the 8th day after the end of the month, without any special provision for reports delivered in person. It also provides that the market administrator shall announce the zone blended prices by the 12th day of each month.

Proponent of the proposal to allow personal delivery of the report by the 10th contended that its adoption was necessary to allow handlers with large operations sufficient time to prepare these reports when weekends and holidays intervened. He also proposed that the market administrator be allowed until the 14th day of each month to announce the zone blended prices. This was to allow for the later date of receipt of some reports as a result of the change to the 10th day for personally delivered reports.

For handlers with substantial operations the deadline of the eighth as now set does require extensive extra work when holidays or weekends fall toward the end of this 8-day period. It is possible to decrease this burden without adversely affecting the interest of producers or handlers generally by extension of the deadline for hand delivered reports to the 10th day.

Major opposition to the change came from one handler who contended that such a change resulting in a blend price announcement on the 14th, would not allow him sufficient time to prepare his producer payroll and make producer payments by the required date. In this regard, the market administrator stated that since mailed reports were many times not received before the ninth, setting the final date as the 10th for personally delivered reports would require only 1 additional day for him to make the necessary pool computations. Therefore, allowing him until the 13th to announce the zone blended prices would provide adequate time.

It is concluded that provision should be made for personal delivery of the handler's report on or before the 10th day after the end of the month and for announcement of zone blended prices by the market administrator by the 13th day of each month.

Reports of dumping. The Connecticut order should be amended to allow the exclusion of Sundays and legal holidays applicable at the location of the reporting plant from the time limit for the filing of reports pertaining to dumping not witnessed by the market administrator. Also, the 48-hour limit now in the order should be changed to the more general term of 2 days.

The Connecticut Milk Dealers Association asked that the exclusion of Sundays and legal holidays be allowed on the grounds that getting the report prepared and signed on these normally nonworking days was nearly impossible within the 48-hour limit and it therefore created a hardship on affected handlers. In discussion of this proposal it was also determined that making the exclusion of legal holidays applicable at the plant location would avoid any confusion on what holidays were excluded since the plants could be located in different States. It was also determined that changing the 48-hour limit to the more general term of 2 days would be a more reasonable time limit to meet.

No opposition was voiced with respect to these proposals and since they would reduce the problems encountered by affected parties without reducing the effectiveness of the order they should be adopted.

Marketing service. No change should be made in the marketing service provision of the Connecticut order.

Currently, the order requires that the market administrator provide certain marketing services for producers, such as verifying the weights and tests of producer milk and dissemination of market information. The cost of these services is borne by the producers. Where a cooperative association is determined by the Secretary to be performing these services for its member producers, such producers are not subject to the marketing service deduction.

A proposal was made to exempt from the marketing service deduction a producer who is not a member of a cooperative association but who during the past 12-month period had total milk production in excess of 5 million pounds, is currently producing at that rate, and delivers all of his production to one handler. It was proponent's contention that a producer meeting these standards normally provides such services on his own and that the marketing service program is merely a duplication of the producer's own services.

A marketing service program cannot be efficiently operated and maintained if the scope of the service is made subject to the consent or withdrawal on the direction of each nonmember producer involved. Nor would such a condition contribute to the fulfillment of the statutory requirement of uniformity in price to regulated handlers if the important functions of accurate butterfat testing and verification of weights were, in effect, left to the choice, by negotiation or otherwise, of either the producer or the handler. Such a provision, when included in an order, must be such as will accomplish the full range of objectives both as to producers (members and nonmembers alike) and as to the maintenance of uniform minimum prices among handlers. Therefore, the proposal is denied.

Miscellaneous and conforming changes. Proposals to delete the obsolete transition language currently contained in the Massachusetts-Rhode Island order should be adopted.

At the time of the merger of the four New England markets in 1964 certain language was contained in the resulting Massachusetts-Rhode Island order to provide an orderly transition from the individual orders to the single order. Such language has now served its purpose and is no longer affecting any of the order operations, therefore, it should be removed.

Other changes in the orders which are not specifically discussed are conforming changes necessary to implement the conclusions previously set forth herein.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreements and the orders, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing areas, and the minimum prices specified in the proposed marketing agreements and the orders, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreements and the orders, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, marketing agreements upon which a hearing has been held.

Recommended marketing agreements and orders amending the orders. The following order amending the orders as amended regulating the handling of milk in the Massachusetts-Rhode Island and Connecticut marketing areas is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreements are not included in this decision because the regulatory provisions thereof would be the same as those contained in the orders, as hereby proposed to be amended:

Amendments to Massachusetts-Rhode Island order provisions.

GENERAL DEFINITIONS

Sec.
1001.1 Act.
1001.2 Massachusetts-Rhode Island-New Hampshire marketing area.
1001.3 Route disposition.

DEFINITIONS OF PERSONS

1001.5 Person.
1001.6 Secretary.

1001.32 Duties.

POOL PLANT REQUIREMENTS

1001.35 Distributing plants.
1001.36 Cooperative association plants located in the marketing area.
1001.37 Supply plants.

REPORTS, RECORDS, AND FACILITIES

1001.40 Monthly reports of receipts and utilization.
1001.41 Other reports of receipts and utilization.
1001.42 Reports regarding individual producers and dairy farmers.
1001.43 Notices to producers.
1001.44 Records and facilities.
1001.45 Retention of records.

CLASSIFICATION

1001.47 Classification of milk and milk products—in general.
1001.48 Class I milk.
1001.49 Class II milk.
1001.50 Classification of fluid milk products moved to plants.
1001.51 Classification of inventories.

ASSIGNMENT OF RECEIPTS

Sec.
1001.53 Assignment of receipts to classes—in general.
1001.54 Initial assignments to Class I milk.
1001.55 Initial assignments to Class II milk.
1001.56 Special assignments to classes.
1001.57 Additional assignments to Class I milk.
1001.58 Additional assignment to Class II milk.

MINIMUM PRICES

1001.60 Class I price.
1001.61 Class II price.
1001.62 Zone differentials.
1001.63 Determination of applicable zone locations for pricing purposes.
1001.64 Computation of value of fluid milk products at class prices.
1001.65 Basic blended price.
1001.66 Factors used in formulas.

PAYMENTS—GENERAL

1001.70 Payments to producers.
1001.72 Butterfat differential.
1001.72 Farm location differentials.
1001.73 Statements to producers.
1001.74 Adjustment of payments to producers.
1001.75 Marketing service deductions.
1001.76 Payments to cooperative associations.

PAYMENTS—PRODUCER SETTLEMENT FUND

1001.80 Producer settlement fund.
1001.81 Handlers' producer settlement fund debits and credits.
1001.82 Payments to and from the producer settlement fund.
1001.82 Adjustment of errors in producer settlement fund payments.
1001.84 Adjustment of overdue producer settlement fund accounts.

ADMINISTRATION EXPENSE

1001.87 Payment of administration expense.

MISCELLANEOUS PROVISIONS

1001.90 Effective time.
1001.91 Suspension or termination.
1001.92 Continuing obligations.
1001.93 Liquidation.
1001.94 Termination of obligations.
1001.95 Agents.
1001.96 Separability of provisions.

GENERAL DEFINITIONS

§ 1001.1 Act.

"Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

§ 1001.2 Massachusetts-Rhode Island-New Hampshire marketing area.

"Massachusetts-Rhode Island-New Hampshire marketing area," referred to in this part as the "marketing area," means all territory within the places listed below, all waterfront facilities connected therewith and craft moored thereat, and all territory therein occupied by any governmental installation, institution, or other establishment:

MASSACHUSETTS

RHODE ISLAND

All cities and towns except New Shoreham (Block Island).

§ 1001.3 Route disposition.

"Route disposition" means distribution of Class I milk by a handler to retail or wholesale outlets, which include vending machines but do not include plants or distribution points. The route disposition of a handler shall be attributed to the processing and packaging plant from which the Class I milk is moved to retail or wholesale outlets without intermediate movement to another processing and packaging plant.

DEFINITIONS OF PERSONS

§ 1001.5 Person.

"Person" means any individual, partnership, corporation, association, or any other business unit.

§ 1001.6 Secretary.

"Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 1001.7 Producer.

"Producer" means a dairy farmer who produces milk which is moved, other than in packaged form, from his farm to a pool plant, or to any other plant as diverted milk. The term shall not include:

(a) A producer-handler under any Federal order;

(b) A dairy farmer with respect to milk which is considered as a receipt from a producer under the provisions of another Federal order;

(c) A dairy farmer for other markets;

(d) A dairy farmer who is a local or state government and has nonproducer status for the month under § 1001.26(c); or

(e) A dairy farmer with respect to salvage product assigned under § 1001.55(e).

§ 1001.8 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, known as the "Capper-Volstead Act";

(b) To have full authority in the sale of milk of its members; and

(c) To be engaged in making collective sales of, or marketing, milk or its products for its members.

§ 1001.9 Handler.

"Handler" means:

(a) Any person who operates a pool plant;

(b) Any person who operates any other plant, or a pool bulk tank unit as defined under another Federal order, from which fluid milk products are disposed of, directly or indirectly, in the marketing area;

(c) Any person who does not operate a plant but who engages in the business of receiving fluid milk products for resale and distributes to retail or wholesale outlets packaged fluid milk products received from any plant described in paragraph (a) or (b) of this section; or

(d) Any cooperative association with respect to the milk which is moved from farms of its members in tank trucks operated by or under contract to the association, and which is moved to pool plants, or as diverted milk to nonpool plants other than producer-handlers' plants, for the account of and at the direction of the association. The association shall be considered as the handler who received the milk from the dairy farmers. However, the cooperative association shall not be the handler with respect to the milk moved from any farm if the association and the operator of the pool plant to which milk from such farm is moved both submit a request in writing, on or before the due date for filing the monthly reports of receipts and utilization, that the operator of the pool plant be considered as the handler who received the milk from the dairy farmer, and the pool plant operator's request states that he is purchasing the milk from such farm on the basis of the farm bulk tank measurement readings and of the butterfat tests of samples of the milk taken from the farm bulk tank.

§ 1001.10 Producer-handler.

"Producer-handler" means any person who, during the month, is both a dairy farmer and a handler and who meets the conditions specified in each of the paragraphs of this section.

(a) He provides as his own enterprise and at his own risk the maintenance, care, and management of the dairy herd and other resources and facilities which he uses to produce milk, to process and package such milk at his own plant, and to distribute it as route disposition.

(b) His own route disposition constitutes the majority of the route disposition from his plant.

(c) The quantity of route disposition in the marketing area from his plant is greater than in any other Federal marketing area.

(d) He receives no fluid milk products except from his own production and pool plants under any New England Federal order. If his receipts from own production and the total route disposition from his plant each exceed 2,150 pounds per day for the month, his receipts from New England Federal order pool plants are not in excess of 2 percent of his receipts from own production. For the purposes of this paragraph, his receipts of fluid milk products shall include receipts from plants of other persons at all retail and wholesale outlets which are located in New England Federal marketing areas and which are operated by him, an affiliate, or any person who controls or is controlled by him.

§ 1001.11 Dairy farmer for other markets.

"Dairy farmer for other markets" means any dairy farmer described in this section. For the purposes of this section, the acts of any person who is an affiliate of, or who controls or is controlled by, a handler or dealer shall be considered as having been performed by the handler or dealer. Receipts from a "dairy farmer for other markets" shall be considered as receipts from the unregulated plant at which the greatest quantity of his milk was received in the most recent month.

(a) The term includes a dairy farmer with respect to milk which is purchased from him during the month by a dealer who operates a plant but does not operate a pool plant, if the milk is moved to a pool plant directly from the dairy farmer's farm. The term shall not apply to the dairy farmer, however, if all the nonpool milk purchased from him during the month by the same dealer is a receipt of producer milk under the provisions of another Federal order or will be such if the dairy farmer is a producer under this part.

(b) The term includes a dairy farmer with respect to milk which is purchased from him by a handler and moved to a pool plant or which is purchased from him by a cooperative association it its capacity as a handler under § 1001.9(d), if that handler caused milk from the same farm to be moved as nonpool milk to any plant during the same month. The term shall not apply to the dairy farmer, however, if all the nonpool milk is a receipt of producer milk under the provisions of another Federal order or will be such if the dairy farmer is a producer under this part.

(c) The term includes a dairy farmer with respect to milk which is received from him by a handler at a pool plant or which is purchased from him by a cooperative association in its capacity as a handler under § 1001.9(d) during any of the months of December through June, if the handler caused nonpool milk from the same farm to be received during any of the preceding months of July through November at a plant which is not a pool plant under any Federal order in the current month. The term shall not apply to the dairy farmer, however, if all the nonpool milk was a receipt of producer milk under the provisions of another Federal order or represented receipts from own production by a producer-handler under any Federal order.

DEFINITIONS OF PLANTS

§ 1001.15 Plant.

"Plant" means the land and buildings, together with their surroundings, facilities, and equipment, constituting a single operating unit or establishment which is operated exclusively by one or more persons engaged in the business of handling fluid milk products for resale or manufacture into milk products, and which is used for the handling or processing of milk or milk products. The term "plant" does not include:

(a) Distribution points (separate premises used primarily for the transfer to vehicles of packaged fluid milk products moved there from processing and packaging plants); or

(b) Bulk reload points (separate premises used for the transfer of milk en route from dairy farmers' farms to a plant, at which premises facilities for washing and sanitizing cans or tank trucks are not maintained and used).

§ 1001.16 Pool plant.

"Pool plant" means any plant which meets the applicable conditions for pool plant status as a pool distributing plant, under § 1001.35; a cooperative association plant located in the marketing area, under § 1001.36; or a pool supply plant, under § 1001.37. However, if the market administrator determines that a specified proportion or quantity of the receipts from dairy farmers and of pool milk from other sources handled at a plant is not available for Class I use because there is in force an unconditional contract for the plant to supply fluid milk products for Class II use, the plant shall not be a pool plant for the month in which the market administrator notifies the handler of the determination and for any subsequent month in which the contract is in force for any part of the month.

§ 1001.17 Exempt distributing plant.

"Exempt distributing plant" means a plant, other than a pool supply plant or a regulated plant under another Federal order, which meets all the requirements for status as a pool distributing plant except that its route disposition in the marketing area in the month does not exceed 700 quarts on any day or a daily average of 300 quarts.

§ 1001.18 Distributing plant for unregulated markets.

"Distributing plant for unregulated markets" means a processing and packaging plant from which the route disposition outside any Federal marketing area amounts to more than 50 percent of its total receipts of fluid milk products during the month. The term shall not apply to a pool plant, an exempt distributing plant under any New England Federal order, a producer-handler's plant under any Federal order, or a regulated plant under another Federal order.

§ 1001.19 Regulated plant under another Federal order.

"Regulated plant under another Federal order" means a pool plant or any other plant at which all fluid milk products handled become subject to the classification and pricing provisions of another Federal order. The term shall also include a pool bulk tank unit as defined under another Federal order.

DEFINITIONS OF MILK AND MILK PRODUCTS

§ 1001.22 Fluid milk products.

"Fluid milk products" means milk, skimmed milk, flavored milk or skimmed milk, cultured skimmed milk, buttermilk, concentrated milk, any mixture of milk or skimmed milk and cream containing less than 10 percent butterfat, and 50 percent of the quantity by weight of any mixture of milk or skimmed milk and cream containing at least 10 percent but less than 16 percent butterfat. The term includes these products in fluid, frozen, fortified, or reconstituted form but does not include sterilized products in hermetically sealed containers and such products as eggnog, yogurt, whey, ice cream mix, ice milk mix, milk shake base mix, and evaporated or condensed milk or skimmed milk, in either plain or sweetened form. Fluid milk products which have been placed in containers for disposition to retail or wholesale outlets are referred to in this part as packaged fluid milk products.

§ 1001.23 Cream.

"Cream" means that portion of milk, containing not less than 18 percent butterfat, which rises to the surface of milk on standing, or is separated from it by centrifugal force. The term also includes soured cream, frozen cream, fortified cream, reconstituted cream, any mixture of milk or skimmed milk and cream containing 16 percent or more of butterfat, and 50 percent of the quantity by weight of any mixture of milk or skimmed milk and cream containing at least 10 percent but less than 16 percent butterfat.

§ 1001.24 Producer milk.

"Producer milk" means milk which the handler has received from producers. The quantity of milk received by a handler from producers shall include any milk of a producer which was not received at any plant but which the handler or an agent of the handler has accepted, measured, sampled, and transferred from the producer's farm tank into a tank truck during the month. Such milk shall be considered as having been received at the pool plant at which other milk from the same farm of that producer is received by the handler during the month, except that in the case of a cooperative association in its capacity as a handler under § 1001.9(d), the milk shall be considered as having been received at a plant in the zone location of the pool plant, or pool plants within the same zone, to which the greatest aggregate quantity of the milk of the cooperative association in such capacity was moved during the current month or the most recent month.

§ 1001.25 Pool milk.

"Pool milk" means fluid milk products (other than exempt milk) received or disposed of as specified in this section:

(a) Receipts of producer milk;

(b) The following receipts of fluid milk products at pool plants (exclusive of receipts from other pool plants, producer-handlers under any Federal order, exempt distributing plants under any New England Federal order, and receipts from regulated plants under other Federal orders which are classified and priced under the other orders):

(1) Receipts at pool distributing plants from plants located outside the New England States and beyond zone 40;

(2) Receipts at pool plants, other than pool distributing plants, to the extent assigned to Class I milk under § 1001.55(g), from plants located outside the New England States and beyond zone 40; and

(3) Receipts at pool plants, to the extent assigned to Class I milk under § 1001.55(h), from plants located within one of the New England States or in zone 40 or a nearer zone, exclusive of bulk fluid milk products from distributing plants for unregulated markets;

(c) Receipts of bulk fluid milk products at pool distributing plants, to the extent assigned to classes under § 1001.56(b), from regulated plants under other Federal orders with individual-handler pools;

(d) Receipts of bulk fluid milk products at pool plants, other than pool distributing plants, to the extent assigned to Class I milk under § 1001.57(g), from regulated plants under other Federal orders with individual-handler pools;

(e) Route disposition in the marketing area from any processing and packaging plant (except a pool plant, a producer-handler's plant under any Federal order, an exempt distributing plant under any New England Federal order, or a regulated plant under another Federal order) to the extent of all such disposition in the month which is in excess of a daily average of 300 quarts or of 700 quarts on any day, whichever is greater. In determining the quantity of pool milk under this paragraph, the total quantity of route disposition in the marketing area from the plant first shall be reduced by the quantity of fluid milk products received at the plant during the month which is classified and priced as Class I milk or the equivalent thereof under any marketwide pool Federal order and which is not used to offset route disposition in any other Federal marketing area. The reduction shall be made first in any route disposition which is in excess of 700 quarts on any day; and

(f) Route disposition in the marketing area from a regulated plant under another Federal order of fluid milk products which are not both classified and priced under the other order, to the extent of all such disposition in the month which is in excess of 700 quarts on any day or of a daily average of 300 quarts, whichever is greater.

§ 1001.26 Exempt milk.

"Exempt milk" means:

(a) Milk received at a pool plant in bulk from a nonpool plant to be processed and packaged, for which an equivalent quantity of packaged fluid milk products is returned to the operator of the nonpool plant during the same month, if the receipts of bulk milk and return of packaged fluid milk products occur during an interval in which the facilities of the nonpool plant at which the milk is usually processed and packaged are temporarily unusable because of fire, flood, storm, or similar extraordinary circumstances completely beyond the dealer's control;

(b) Packaged fluid milk products received at a pool plant from a nonpool plant in return for an equivalent quantity of bulk milk moved from a pool plant for processing and packaging during the same month, if the movement of bulk milk and receipt of packaged fluid milk products occur during an interval in which the facilities of the pool plant at which the milk is usually processed and packaged are temporarily unusable because of fire, flood, storm, or similar extraordinary circumstances completely beyond the handler's control; and

(c) Milk received at a pool plant in bulk from the dairy farmer who produced it, to the extent of the quantity of any packaged fluid milk products returned to the dairy farmer, if:

(1) The dairy farmer is a State or local government which is not engaged in the route disposition of any of the returned products; and

(2) The dairy farmer has, by written notice to the market administrator and the receiving handler, elected nonproducer status for a period of not less than 12 months beginning with the month in which the election was made and continuing for each subsequent month until canceled in writing, and the election is in effect for the current month.

§ 1001.27 Diverted milk.

"Diverted milk" means:

(a) Milk which a handler in his capacity as the operator of a pool plant reports as having been moved from a dairy farmer's farm to the pool plant, but which he caused to be moved from the farm to another plant, if the handler specifically reports such movement to the other plant as a movement of diverted milk, and the conditions of subparagraph (1) or (2) of this paragraph have been met. Milk which is diverted milk under this paragraph shall be considered to have been received at the pool plant from which it was diverted, but for pricing purposes the differentials for the zone location specified in § 1001.63 shall be used.

(1) The handler caused milk from the farm to be moved to such pool plant, or to another of his pool plants which is no longer operated as a plant, on a majority of the delivery days, during the 12 months ending with the current month, on which the handler either caused milk to be moved from the farm as producer milk, or caused milk to be moved as producer milk from the farm in a tank truck.

(2) The handler caused the milk to be moved from the farm in a tank truck in which it was intermingled with milk from other farms, the milk from a majority of which farms was diverted from the same pool plant during the month in accordance with the preceding provisions of this paragraph.

(b) Milk which a cooperative association in its capacity as a handler under § 1001.9(d) caused to be moved from a farm to a nonpool plant, if the cooperative association specifically reports the movement to such plant as a movement of diverted milk, and the conditions of subparagraph (1) or (2) of this paragraph have been met.

(1) The cooperative association caused milk from the farm to be moved to pool plants on a majority of the delivery days, during the 12 months ending with the current month, on which the cooperative association caused milk to be moved from the farm as producer milk.

(2) The cooperative association caused the milk to be moved from the farm in a tank truck in which it was intermingled with milk from other farms, the milk from a majority of which farms was diverted by the cooperative association during the month in accordance with the preceding provisions of this paragraph.

Market Administrator

§ 1001.30 Designation.

The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1001.31 Powers.

The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations; and

(d) To recommend amendments to the Secretary.

§ 1001.32 Duties.

The market administrator shall perform all duties necessary to administer the terms and provisions of this part. His duties shall include but not be limited to those specified in this section.

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, he shall execute and deliver to the Secretary a bond effective as of the date on which he enters upon his duties. The bond shall be conditioned upon the faithful performance of those duties and shall be in an amount and with surety thereon satisfactory to the Secretary.

(b) He shall employ and fix the compensation of any persons necessary to enable him to administer the terms and provisions of this part.

(c) He shall obtain a bond in a reasonable amount, and with reasonable surety thereon, covering each employee who handles funds entrusted to the market administrator.

(d) He shall pay from the funds provided by § 1001.87 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties except those expenses incurred under § 1001.75.

(e) He shall keep books and records to reflect clearly the transactions provided for in this part and, upon request by the Secretary, surrender them to any other person the Secretary may designate.

(f) He shall submit his books and records to examination by the Secretary and furnish any information and reports requested by the Secretary.

(g) He shall prepare and make available for the benefit of producers, handlers, and consumers, statistics and information concerning the operation of this part.

(h) He shall verify handlers' reports and payments to the extent necessary, by any appropriate means including audit of the handlers' records and, if made available, of the records of any other persons upon whose utilization the classification of butterfat and skim milk depends. If verification discloses that the original classification was incorrect, the market administrator shall make appropriate reclassification of the butterfat and skim milk.

(i) At his discretion and unless otherwise directed by the Secretary, he shall publicly announce (by posting in a conspicuous place in his office and by such other means as he deems appropriate) the name of any handler the value of whose fluid milk products is not included in the computation of the basic blended price because of failure to file reports under § 1001.40 or make payments under § 1001.82.

(j) He shall publicly announce (by posting in a conspicuous place in his office and by such other means as he deems appropriate):

(1) By the 25th day of the month, the Class I price for the following month, as computed under § 1001.60;

(2) By the 5th day of the month, the Class II price and the butterfat differential for the preceding month, as computed under §§ 1001.61 and 1001.71(b), respectively.

(3) By the 13th day of each month, the zone blended prices resulting from the adjustment of the basic blended price for the preceding month, as computed under § 1001.65, by the zone differentials contained in § 1001.62(d);

(4) Whenever required for purpose of assigning receipts from other Federal order plants under § 1001.56(b), his estimate of the utilization (to the nearest whole percentage) in each class during the month of butterfat and skim milk, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose; and

(5) By the 25th day of each January, the monthly base Class I percentage factors computed under § 1001.66(a).

(k) He shall place the sums deducted under § 1001.65(c) and retained under § 1001.80 in an interest-bearing bank account or accounts in a bank or banks duly approved as a Federal depository for such sums, or invest them in short-term U.S. Government securities.

Pool Plant Requirements

§ 1001.35 Distributing plants.

Each processing and packaging plant (other than a producer-handler's plant under any Federal order or a regulated plant under another Federal order) shall be a pool distributing plant in any month in which it meets the conditions specified in this section.

(a) Its total Class I disposition in the month, or in either of the 2 preceding months, is not less than 40 percent of its total receipts of fluid milk products in the corresponding month.

(b) Its route disposition in the marketing area in the month:

(1) Is not less than 10 percent of its total receipts of fluid milk products;

(2) Exceeds its route disposition in any other Federal marketing area; and

(3) Exceeds 700 quarts on any day or a daily average of 300 quarts.

§ 1001.36 Cooperative association plants located in the marketing area.

Each plant which is located in the marketing area and which is operated by a cooperative association shall be a pool plant in any month in which its route disposition does not exceed 2 percent of its total receipts of fluid milk products.

§ 1001.37 Supply plants.

Each plant (other than a plant described in paragraph (e) of this section) shall be a pool supply plant in any month in which it meets the conditions specified in paragraph (a), and in paragraph (b), (c), or (d), of this section. For the purposes of this section, milk received at a plant from a cooperative association in its capacity as a handler under § 1001.9(d) shall be considered as received at that plant from dairy farmers' farms.

(a) It is a plant at which facilities are maintained and used for washing and sanitizing cans or tank trucks and to which milk is moved from dairy farmers' farms in cans and is there accepted, weighed or measured, sampled, and cooled, or to which milk is moved from dairy farmers' farms in tank trucks and is there transferred to stationary equipment or to other vehicles.

(b) For any month of July through November, it is a plant from which at least 25 percent of its total receipts of milk from dairy farmers' farms is shipped as fluid milk products, other than as diverted milk:

(1) To pool distributing plants; or

(2) To plants to which qualifying shipments may be made under any New England Federal order and a greater quantity of fluid milk products is shipped to pool distributing plants under this order than to the other plants.

(c) For any month of July through November, it is one of a group of plants which meets the conditions specified in this paragraph.

(1) The handler's written request for continuation of pool supply plant status, which the plant held under his operation in the preceding month, is received by the market administrator on or before the 16th day of the month.

(2) The plant does not qualify for pool plant status under another New England Federal order on the basis of shipments of fluid milk products which exceed those made to pool distributing plants under this order, and the group of plants, considered as a unit, meets the shipping requirements specified in paragraph (b) of this section.

(3) To qualify as a pool supply plant under this paragraph in November of any year, the plant, considered individually, shall have met the shipping requirements specified in paragraph (b) of this section in one of the months of July through October of that year.

(d) For any month of December through June, it is a plant from which at least 15 percent of its total receipts of milk from dairy farmers' farms is shipped as fluid milk products, other than as diverted milk, to plants in accordance with paragraph (b) (1) or (2) of this section, or it is a plant which meets the requirements for automatic pool plant status specified in this paragraph. The automatic pool plant status of a plant shall be revoked for any month for which the market administrator has received the handler's written request for revocation on or before the 16th day of that month. In that event the plant shall not have automatic pool plant status in any subsequent month of the current December through June period.

(1) The plant was a pool supply plant in each of the preceding months of July through November; or

(2) The plant was a pool supply plant under one or another of the New England Federal orders in at least two of the preceding months of July through November and would have been such a plant in all other months in that period had it not been a pool plant under the New York-New Jersey Federal order, and a greater quantity of its receipts from dairy farmers' farms during the July through November period was pooled under this order than under any other New England Federal order.

(e) No plant shall be a pool supply plant in any month in which it is operated as:

(1) A pool distributing plant;

(2) The plant of a producer-handler under any Federal order;

(3) A regulated plant under another Federal order with a marketwide pool, including any plant which meets the requirements for pool supply plant status specified in § 1015.16(b) (3) or (5) of the Connecticut order;

(4) A plant qualifying for pooling under a Federal order with individual-handler pools on the basis of its route disposition or on the basis of shipments of fluid milk products which exceed the shipments of fluid milk products qualifying the plant for pooling under this order.

Reports, Records, and Facilities

§ 1001.40 Monthly reports of receipts and utilization.

On or before the 8th day after the end of the month, or not later than the 10th day if the report is delivered in person to the office of the market administrator, each handler who operates a pool plant or any other plant from which there is route disposition in the marketing area, and each cooperative association in its capacity as a handler under § 1001.9(d), shall file a report for the month with the market administrator. The report for each such plant and for each such cooperative association in its capacity as a handler under § 1001.9(d) shall be in the detail and on forms prescribed by the market administrator and shall show the quantities of butterfat and of skim milk contained in:

(a) Receipts of milk and milk products in the form of:

(1) Producer milk (including the specific quantities of diverted milk and of receipts from the handler's own production);

(2) Pool milk other than producer milk;

(3) Fluid milk products and cream from all other plants; and

(4) Fluid milk products and cream from all other sources (including the quantities of fluid milk products or cream reconstituted from other milk products and the quantities of other milk products used to fortify fluid milk products or cream);

(b) Inventories of fluid milk products and cream at the beginning and at the end of the month; and

(c) The respective quantities of fluid milk products and cream sold, distributed, used, or otherwise disposed of, classified in accordance with the provisions of §§ 1001.47 through 1001.51.

§ 1001.41 Other reports of receipts and utilization.

(a) Within 5 days after the first receipt at his pool plant of fluid milk products during the month from each plant which is neither a pool plant nor a producer-handler's plant under any New England Federal order, each handler shall file with the market administrator a report showing the identity of the operator of the shipping plant, the plant location, the quantities of bulk and packaged fluid milk products received, and such other information respecting the receipt as the market administrator may prescribe.

(b) For any month in which it is claimed that the farm of any dairy farmer from whom he received milk is located in a farm location differential area described in § 1001.72, each handler from whose plant pool milk other than producer milk is moved to a pool plant and each handler with route disposition of pool milk in the marketing area from a nonpool plant shall file with the market administrator a report showing the name, post office address, and farm location of each dairy farmer from whom he received milk at the plant during the month, and the total pounds of milk received from each farm. The report shall be submitted within 10 days after the market administrator's request, made not earlier than the 20th day after the end of the month.

(c) Each handler who is not required to file monthly reports of receipts and utilization under § 1001.40 shall file with the market administrator reports relating to his receipts and utilization of milk and milk products at the time and in the manner prescribed by the market administrator.

§ 1001.42 Reports regarding individual producers and dairy farmers.

(a) Within 20 days after a handler begins or resumes receiving milk at his pool plant from a producer's farm or begins receiving milk by tank truck at his pool plant from a producer's farm, or a cooperative association in its capacity as a handler under § 1001.9(d) begins receiving milk from a producer's farm, the handler shall file with the market administrator a report showing the applicable date and the producer's name, post office address, and farm location. The report shall indicate, if known, the plant at which, or the cooperative association in its capacity as a handler under § 1001.9 (d) by which, the producer's milk was being received prior to the beginning or resumption of receipts from the farm by the handler.

(b) Within 15 days after the 5th consecutive day on which a handler fails to receive milk at his pool plant from a producer's farm or a cooperative association in its capacity as a handler under § 1001.9(d) fails to receive milk from a producer's farm, the handler shall file with the market administrator a report showing the last date on which he received milk from the farm and the producer's name, post office address, and farm location. The report shall indicate, if known, the reason why the handler is no longer receiving milk from the farm.

(c) With respect to a producer who moves from one farm to another the handler shall file reports as required under paragraphs (a) and (b) of this section, respectively, relative to the farm to which the producer moves and the farm from which he moves.

(d) Each handler who is not a cooperative association, upon request from any such association, shall furnish it with information with respect to each of its producer members from whose farm the handler begins, resumes, or stops receiving milk at his pool plant. Such information shall include the applicable date, the producer member's post office address and farm location, and, if known, the plant at which his milk was previously received, or the reason for the handler's failure to continue receiving milk from his farm. In lieu of providing the information directly to the association, the handler may authorize the market administrator to furnish the association with such information, derived from the handler's reports and records.

§ 1001.43 Notices to producers.

Each handler shall furnish each producer from whom he receives milk with information regarding the daily weight and composite butterfat test of the producer's milk, as follows:

(a) Within 3 days after each day on which he received milk from the producer, the handler shall give the producer written notice of the daily quantity so received; and

(b) Within 7 days after the end of any sampling period for which the composite butterfat test of the producer's milk was determined, the handler shall give the producer written notice of such composite test.

§ 1001.44 Records and facilities.

(a) Each handler shall maintain detailed and summary records showing the quantities of butterfat and of skim milk and the total thereof contained in all receipts, movements, and disposition of milk and milk products during each month, and inventories of milk and milk products at the beginning and end of the month.

(b) For the purpose of ascertaining the correctness of any report made to the market administrator as required by this part, or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business to:

(1) Verify the information contained in the reports submitted in accordance with this part;

(2) Verify the payments to producers, including any deductions, and the disbursement of money so deducted;

(3) Weigh, sample, and test milk and milk products; and

(4) Make whatever examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this section.

(c) Each handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer payroll for the month, which shall show for each producer:

(1) The daily and total pounds of milk delivered and its average butterfat test; and

(2) The net amount of the handler's payments to the producer, with the prices, deductions, and charges involved.

§ 1001.45 Retention of records.

All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of 3 years to begin at the end of the month to which the books and records pertain. If, within the 3-year period, the market administrator notifies the handler in writing that the retention of the books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c(15)(A) of the Act or a court action specified in such notice, the handler shall retain the books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1001.47 Classification of milk and milk products—in general.

All butterfat and skim milk in milk and milk products required to be reported under § 1001.40 shall be classified as Class I milk or Class II milk under §§ 1001.48 through 1001.51.

§ 1001.48 Class I milk.

Subject to the provisions of §§ 1001.50 and 1001.51, Class I milk shall be all butterfat and skim milk (including that used to produce concentrated milk):

(a) Disposed of in the form of fluid milk products other than as specified in § 1001.49; or

(b) Not established as Class II milk under § 1001.49.

§ 1001.49 Class II milk.

Subject to the provisions of §§ 1001.50 and 1001.51, Class II milk shall be all butterfat and skim milk for which the handler who first receives the butterfat and skim milk proves that the butterfat and skim milk were:

(a) Disposed of, or in inventory at the end of the month, in the form of cream;

(b) Used to produce milk products other than fluid milk products or cream;

(c) Disposed of in fluid milk products for livestock feed, or disposed of in bulk fluid milk products to manufacturing establishments such as bakeries, candy factories, soup factories, and similar establishments at which the fluid milk products were used in the manufacture of food products other than milk products;

(d) Contained in fluid milk products in inventory at the end of the month to the extent not classified as Class I milk under § 1001.51;

(e) Contained in fluid milk products dumped or discarded;

(f) Contained in fluid milk products destroyed or lost under extraordinary circumstances; and

(g) In shrinkage not in excess of 2 percent of the respective quantities of butterfat and of skim milk contained in receipts of fluid milk products and cream, exclusive of diverted milk and inventory at the beginning of the month. The shrinkage on the milk of a cooperative association in its capacity as a handler under § 1001.9(d) which is received at a pool plant shall be classified as Class II milk up to the entire 2 percent maximum rate if the operator of the pool plant notifies the market administrator in writing, on or before the date on which its receipt is required to be reported under § 1001.40, that he has agreed to purchase the milk on the basis of farm bulk tank measurement readings and of the butterfat tests of samples of the milk taken from the farm bulk tank; otherwise the shrinkage on such receipts at a pool plant shall be classified as Class II milk only up to 1½ percent thereof and shrinkage of up to one-half of 1 percent on the milk so moved shall be classified as Class II milk to the cooperative association in its capacity as a handler under § 1001.9(d).

§ 1001.50 Classification of fluid milk products moved to plants.

Butterfat and skim milk in fluid milk products moved from a pool plant to any other plant, or by a cooperative association in its capacity as a handler under § 1001.9(d) to any plant, shall be classified as follows:

(a) As Class I milk if moved as packaged fluid milk products to any other plant;

(b) As Class I milk if moved from a pool plant to the plant of a producer-handler under any Federal order;

(c) In the class to which assigned under § 1001.57 if moved as bulk fluid milk products to any pool plant;

(d) In the class to which assigned under the other order if moved as bulk fluid milk products to a regulated plant under another Federal order;

(e) As Class I milk, to the extent of the total quantity of the same form of fluid milk products so moved which is utilized as Class I milk at the plant to which transferred, if moved as bulk fluid milk products to any plant other than a plant to which movements of bulk fluid milk products are subject to classification under the preceding paragraphs of this section, and as Class II milk to the extent of any remainder; and

(f) As Class I milk if moved as bulk fluid milk products to any plant other than a pool plant or a regulated plant under another Federal order and thence to another plant, not regulated under a Federal order, located outside the New England States and New York State.

§ 1001.51 Classification of inventories.

All butterfat and skim milk contained in inventories of fluid milk products at the end of each month shall be classified as Class I milk pending final disposition of the fluid milk products, if the handler requests such classification and either receives no milk from producers or does not claim classification as Class II milk of any fluid milk products.

ASSIGNMENT OF RECEIPTS

§ 1001.53 Assignment of receipts to classes—in general.

(a) The total quantities of butterfat and of skim milk received during the month at each pool plant and by each cooperative association in its capacity as a handler under § 1001.9(d) (including those quantities in inventory at the beginning of the month) shall be assigned separately, in the manner and sequence provided in §§ 1001.54 through 1001.58, to the respective quantities of butterfat and of skim milk classified as Class I milk and Class II milk under §§ 1001.47 through 1001.51.

(b) Except as provided in § 1001.56, whenever receipts have been assigned under §§ 1001.54 through 1001.58 to the remaining pounds in a class, all remaining receipts shall be assigned to the other class.

(c) If receipts from more than one plant are to be assigned under a paragraph in § 1001.55 or § 1001.57, or under § 1001.58, the receipts shall be assigned in sequence according to the zone locations of the plants, beginning with the plant in the nearest zone to Boston for assignments to Class I milk and beginning with the plant in the most distant zone from Boston for assignments to Class II milk.

§ 1001.54 Initial assignments to Class I milk.

(a) Assign to Class I milk the quantities received in exempt milk.

(b) Assign to Class I milk the quantities in packaged fluid milk products received from regulated plants under other Federal orders, if the fluid milk products received are classified and priced under the other orders as Class I milk or the equivalent thereof or in accordance with their assignment under this part.

(c) Assign to Class I milk the quantities in packaged fluid milk products received from other pool plants.

(d) Assign to Class I milk the quantities in fluid milk products in inventory at the beginning of the month which were classified as Class I milk in the preceding month.

§ 1001.55 Initial assignments to Class II milk.

(a) Assign to Class II milk the quantities in fluid milk products or cream reconstituted from other milk products, and the quantities in other milk products used to fortify fluid milk products or cream. If the quantity of any reconstituted product is not known, the quantities assigned shall be the quantity of butterfat used in the reconstitution and the quantity of skim milk required to produce the milk products so used. Any unaccounted-for plain condensed milk or skimmed milk, dry whole milk, or nonfat dry milk shall be considered to have been used in the reconstitution of fluid milk products.

(b) Assign to Class II milk the quantities in cream in inventory at the beginning of the month and received during the month.

(c) Assign to Class II milk the quantities in fluid milk products (other than exempt milk) received from a local or State government which has elected nonproducer status for the month under § 1001.26(c).

(d) Assign to Class II milk the quantities in fluid milk products in inventory at the beginning of the month not assigned under § 1001.54(d).

(e) Assign to Class II milk the quantities in fluid milk products received from producer-handlers under any Federal order and from exempt distributing plants under any New England Federal order; and in receipts from dairy farmers which are rejected and segregated in the handler's normal operation for receiving milk, and are accepted and disposed of by the handler as salvage product rather than as milk.

(f) Assign to Class II milk the quantities in bulk fluid milk products received from distributing plants for unregulated markets located within one of the New England States or in zone 40 or a nearer zone.

(g) At pool plants other than pool distributing plants, assign to Class II milk the quantities in fluid milk products received from plants located outside the New England States and beyond zone 40, if the fluid milk products received are not classified and priced under any Federal order.

(h) Assign to Class II milk the quantities in fluid milk products received from plants located within one of the New England States or in zone 40 or a nearer zone, except receipts assigned under paragraph (f) of this section and receipts which are classified and priced under any Federal order.

§ 1001.56 Special assignments to classes.

(a) At pool distributing plants, assign to Class II milk, to the extent of the respective remaining pounds in that class, the quantities in bulk fluid milk products received from each regulated plant under another Federal order, if the operators of the shipping plant and of the receiving plant have both requested such Class II classification and assignment.

(b) At pool distributing plants, assign in the manner provided in subparagraphs (1) and (2) of this paragraph any remaining receipts of bulk fluid milk products from each regulated plant under another Federal order, if such receipts are classified and priced under the other order as Class I milk or the

equivalent thereof or in accordance with their assignment under this part.

(1) Assign the quantities in such receipts to Class I milk and Class II milk in proportion to the estimated percentages of butterfat and skim milk, respectively, in each class in producer milk of all handlers for the month as announced under § 1001.32(j)(4), or in proportion to the respective remaining pounds in each class at all of the handler's pool plants, whichever procedure results in the greater combined quantity of butterfat and of skim milk in such receipts being assigned to Class II milk.

(2) The quantities assigned to Class II milk under this paragraph shall not exceed the respective quantities of butterfat and of skim milk in Class II milk remaining at all of the handler's pool plants. Any remaining receipts shall be assigned to Class I milk.

(c) If the quantity to be assigned to a class under paragraph (b) of this section exceeds the respective quantity remaining in that class at the pool distributing plant, the remaining quantity shall be increased to the quantity to be assigned to that class and the respective remaining quantity in that class at the handler's other pool plants shall be decreased to the same extent, in sequence beginning with the plant in the zone nearest to Boston. The respective quantity remaining in the other class thereupon shall be decreased correspondingly at the pool distributing plant and shall be increased correspondingly at those other pool plants involved in the adjustment.

(d) The quantities assigned under this section shall be limited to the excess of the receipts from a plant over the respective quantities in bulk fluid milk products moved to that plant from the pool distributing plant.

§ 1001.57 Additional assignments to Class I milk.

(a) At pool distributing plants, assign to Class I milk the quantities in bulk fluid milk products received from the handler's pool plants located in the nearby plant zone.

(b) Assign to Class I milk the quantities received from other handlers' pool plants in bulk fluid milk products for which classification as Class II milk has not been requested by both handlers.

(c) Assign to Class I milk the quantities received in milk from producers and from cooperative associations in their capacity as handlers under § 1001.9(d).

(d) Assign to Class I milk the quantities received from the handler's pool plants in bulk fluid milk products not assigned under paragraph (a) of this section.

(e) At pool distributing plants, assign to Class I milk the quantities received from plants located outside the New England States and beyond zone 40 in pool milk other than producer milk, if the fluid milk products received are not classified and priced under any Federal order.

(f) Assign to Class I milk the quantities received from other handlers' pool plants in bulk fluid milk products for which classification as Class II milk has been requested by both handlers.

(g) At pool plants other than pool distributing plants, assign to Class I milk the quantities in bulk fluid milk products received from regulated plants under other Federal orders, if such receipts are classified and priced under the other order as Class I milk or the equivalent thereof or in accordance with their assignment under this part.

§ 1001.58 Additional assignment to Class II milk.

Assign to Class II milk the quantities received from regulated plants under other Federal orders in fluid milk products not previously assigned to classes under §§ 1001.54 through 1001.57.

MINIMUM PRICES

§ 1001.60 Class I price.

The Class I price per hundredweight of milk containing 3.5 percent butterfat, at plants located in zone 21, shall be computed for each month as specified in this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday the latest figures available on the next succeeding workday shall be used.

(a) Compute an economic index, with the year 1958 as the base period, as follows:

(1) Calculate a U.S. wholesale commodity price index by dividing the monthly wholesale price index for all commodities (as reported by the Bureau of Labor Statistics, U.S. Department of Labor, with the years 1957–59 as the base period) by 1.0025.

(2) Calculate a New England consumer income index by multiplying the current annual rate of per capita disposable personal income in the United States (based upon the quarterly figure released by the U.S. Department of Commerce or the Council of Economic Advisers to the President) by the New England adjustment percentage and dividing the result by 20.50. The New England adjustment percentage shall be the current percentage relationship of per capita personal income in the United States (using data on per capita personal income by States and regions as published by the U.S. Department of Commerce).

(3) Calculate a New England dairy ration index by dividing the monthly average price paid by farmers in the New England region for 100 pounds of mixed dairy feed containing less than 29 percent protein (as reported by the U.S. Department of Agriculture) by 0.03884.

(4) Calculate a New England farm wage rate index by dividing the weighted average farm wage rate for the New England region by 1.9833. The weighted average farm wage rate for the New England region shall be the average of the farm wage rates for the New England region (as reported by the U.S. Department of Agriculture) weighted by the factors indicated in the following table.

	Weighting factor
Per month with board and room	1.00
Per month with house	1.00
Per week with board and room	4.33
Per week without board or room	4.33
Per day without board or room	26.00

(5) Calculate a New England grain-labor cost index by multiplying the New England dairy ration index by 0.6 and the New England farm wage rate index by 0.4, and combining the two results.

(6) The economic index shall be the result of dividing by seven the sum of three times the U.S. wholesale commodity price index, the New England consumer income index, and three times the New England grain-labor cost index, except that for the purpose of computing the Class I price for each of the months through April 1968 such economic index shall not be less than 115.89.

(b) Compute an economic index price as follows:

(1) Multiply the economic index by $0.0557, expressing the result to the nearest mill.

(2) Divide the Class I–A price for the month computed under the New York-New Jersey Federal order, applicable to milk containing 3.5 percent butterfat received at plants located in the 201–210-mile freight zone, by the utilization adjustment percentage which entered into the computation of that price, expressing the result to the nearest mill.

(3) The economic index price shall be the price computed in subparagraph (1) of this paragraph, except that its deviation from the result obtained in subparagraph (2) of this paragraph shall be limited to $0.13.

(c) Compute a supply-demand adjustment factor (using quantities announced in the statistical reports of the respective market administrators for the New England Federal orders for the second, third, and fourth months preceding the month for which the price is being computed but excluding receipts and sales of plants which become regulated on the basis of their sales in the area of extension) as follows:

(1) For each of the 3 months, determine the total Class I producer milk and the total producer milk for the New England Federal order markets by combining the respective totals for the individual markets.

(2) For each of the 3 months, divide the total Class I producer milk for the New England Federal order markets by the base Class I percentage factor for the same month as determined under § 1001.65(a). The result shall be the New England base supply for that month.

(3) For each of the 3 months, express the total producer milk for the New England Federal order markets as a percentage of the New England base supply for the same month. The simple average of the three resulting percentages shall be the percentage of base supply.

(4) The supply-demand adjustment factor shall be the figure in the following table opposite the bracket within which the percentage of base supply falls, except that for the purposes of computing Class I prices through December 1967 such factor shall be 0.99. When the percentage of base supply falls in an interval between brackets, the supply-demand adjustment shall be the figure shown for the next higher bracket if the factor for the previous month was based on a bracket higher than such interval, and shall be the figure for the next lower bracket if the factor for the previous month was based on a bracket lower than such interval.

Percentage of base supply:[1]	*Supply-demand adjustment factor*
90.5–91.5	1.06
92.0–93.0	1.05
93.5–94.5	1.04
95.0–96.0	1.03
96.5–97.5	1.02
98.0–99.0	1.01
99.5–100.5	1.00
101.0–102.0	.99
102.5–103.5	.98
104.0–105.0	.97
105.5–106.5	.96
107.0–108.0	.95
108.5–109.5	.94

[1] If the percentage of base supply calculated according to subparagraph (3) of this paragraph falls outside the extremes shown in this column, the supply-demand adjustment factor shall be determined by extending the table at the indicated rate of extension.

(d) The Class I price shall be the result, rounded to the nearest full cent, of the economic index price determined under paragraph (b) of this section, multiplied by the supply-demand adjustment factor determined under paragraph (c) of this section.

§ 1001.61 Class II price.

The Class II price per hundredweight of milk containing 3.5 percent butterfat, at plants located in zone 21, shall be computed for each month as specified in this section.

(a) Adjust the average price for milk for manufacturing purposes, f.o.b. plants United States, as reported by the U.S. Department of Agriculture on a preliminary basis for the month, by subtracting for each one-tenth of 1 percent of average butterfat content above 3.5 percent, or adding for each one-tenth of 1 percent of average butterfat content below 3.5 percent, an amount per hundredweight which shall be calculated by multiplying by 0.125 the average of the daily prices, using the midpoint of any range as one price, for Grade A (92-score) butter at wholesale in the New York market as reported by the U.S. Department of Agriculture for the period beginning with the 16th day of the preceding month and ending with the 15th day of the current month.

(b) Adjust the result obtained in paragraph (a) of this section by the amount shown below for the applicable month:

Month:	*Amount*
January	+$0.06
February	+.07
March	.00
April	−.04
May	−.07
June	−.06
July	+.08
August	+.15
September	+.11
October	+.11
November	+.11
December	+.11

§ 1001.62 Zone differentials.

The class prices and blended prices computed under §§ 1001.60, 1001.61, and 1001.65 shall be subject to zone differentials based upon the zone locations of plants. The zone location of any plant and the differentials applicable to each zone location shall be determined as specified in this section.

(a) Each plant which is located in any of the places specified in this paragraph shall be in the "nearby plant" zone.

CONNECTICUT

All of the State of Connecticut.

MASSACHUSETTS

COUNTIES

Barnstable.	Middlesex.
Bristol.	Nantucket.
Dukes.	Norfolk.
Essex.	Plymouth.
Franklin.	Suffolk.
Hampden.	Worcester.
Hampshire.	

TOWNS

Sandisfield.	Becket.
Savoy.	Florida.
Washington.	Hinsdale.
Windsor.	Otis.
Peru.	

RHODE ISLAND

All of the State of Rhode Island.

(b) The zone location of each plant which is outside the "nearby plant" zone shall be based upon its highway mileage distance to Boston, as determined by use of Mileage Guide No. 8, and supplements to an revisions thereof, issued by Household Goods Carriers' Bureau, Agent, Washington, D.C. The mileages used shall be those shown between designated key points in the mileage charts, and between named points on the appropriate State road maps, as published in the mileage guide. In any instance in which the map does not clearly show the mileage between points on a road, the mileage used shall be the mileage as determined by the highway authority for the State in which the road is located.

(c) The distance for each plant shall be the mileage between Boston and the named point nearest to the plant, as shown in the mileage charts. If that named point is not listed in the mileage charts, the distance for the plant shall be the lowest mileage distance between Boston and that named point, computed as follows:

(1) Determine from the charts the mileage between Boston and each of the three key points nearest to the named point which are nearer to Boston than the named point.

(2) For each of these key points, add to the result in subparagraph (1) of this paragraph the mileage between the key point and the named point, measured to the greatest possible extent over roads designated as paved, all-weather roads.

(d) The zone differentials for each plant shall be those applicable to its zone location as shown in the following table.

DIFFERENTIALS FOR DETERMINATION OF ZONE PRICES

Distance to Boston (miles)	Plant location zone	Class I and blended price differentials (cents per hundredweight)	Class II price differentials (cents per hundredweight)
Various	Nearby plant	+$0.6	+$.8
21 to 40	4	+36.4	+4.5
41 to 50	5	+35.2	+4.2
51 to 60	6	+34.0	+4.0
61 to 70	7	+32.8	+3.7
71 to 80	8	+31.6	+3.5
81 to 90	9	+30.4	+3.2
91 to 100	10	+29.2	+3.0
101 to 110	11	+28.0	+2.9
111 to 120	12	+26.8	+2.8
121 to 130	13	+25.6	+2.4
131 to 140	14	+24.4	+2.1
141 to 150	15	+7.2	+1.6
151 to 160	16	+6.0	+1.3
161 to 170	17	+4.8	+1.2
171 to 180	18	+3.6	+.6
181 to 190	19	+2.4	+.4
191 to 200	20	+1.2	+.1
201 to 210	21	0	0
211 to 220	22	−1.0	−.6
221 to 230	23	−2.0	−.7
231 to 240	24	−3.0	−.9
241 to 250	25	−4.0	−.9
251 to 260	26	−5.0	−1.2
261 to 270	27	−6.0	−1.5
271 to 280	28	−7.0	−1.5
281 to 290	29	−8.0	−1.6
291 to 300	30	−9.0	−1.8
301 to 310	31	−10.0	−2.3
311 to 320	32	−11.0	−2.4
321 to 330	33	−12.0	−2.5
331 to 340	34	−13.0	−2.8
341 to 350	35	−14.0	−2.8
351 to 360	36	−15.0	−3.0
361 to 370	37	−16.0	−3.1
371 to 380	38	−17.0	−3.3
381 to 390	39	−18.0	−3.4
391 to 400	40	−19.0	−3.5
401 and over	41 and over	(1)	−3.5

[1] Class I and blended price differentials applicable to plants located more than 400 miles from Boston shall be obtained by extending the table at the rate of 1 cent for each additional 10 miles except that in no event shall the Class I or blended price at any zone be less than the Class II price for the month for plants in the same zone

(e) Notwithstanding the provisions of paragraphs (b) and (c) of this section, for any named point located in New England and New York State, determine the highway mileage distance between Boston and the named point by use of the appropriate State maps contained in Mileage Guide No. 7, issued by Household Goods Carriers' Bureau, Agent, Washington, D.C. Such distance shall be the lowest highway mileage between Boston and the named point on the map, over roads designated thereon as paved, all-weather roads. In the event that the named point is not located on a through, paved, all-weather road, such other roads shall be used to reach a through, paved, all-weather road as will result in the lowest highway mileage to Boston, except that such other roads shall not be used for a distance of more than 15 miles if it is otherwise possible to connect with a through, paved, all-weather road. In any instance in which the map does not

clearly show the mileage between points on a road, the mileage used shall be the mileage as determined by the highway authority for the State in which the road is located. The mileage so determined, or the mileage determined under paragraphs (b) and (c) of this section, whichever is less, shall be considered to be the lowest highway mileage distance between Boston and the named point.

§ 1001.63 Determination of applicable zone locations for pricing purposes.

In computing the value of fluid milk products at class prices under § 1001.64, the minimum amounts payable to producers under § 1001.70, the minimum amounts payable to cooperative associations under § 1001.76, and the handlers' producer settlement fund debits and credits under § 1001.81, the differentials specified in § 1001.62 for the zone location of the plant for which the computation is being made shall be used except that for the following items the differentials for the zone locations specified shall be used:

(a) For producer milk diverted by any handler, including a cooperative association in its capacity as a handler under § 1001.9(d), from a pool plant in zone 14 or a nearer zone to a plant located in any zone more distant than zone 14, the zone location of the plant to which the milk was diverted;

(b) For producer milk of a cooperative association in its capacity as a handler under § 1001.9(d) moved to a pool plant, the zone location of the plant to which the milk was moved;

(c) For milk of a cooperative association in its capacity as a handler under § 1001.9(d) in diversions to nonpool plants other than diversions described in paragraph (a) of this section, the zone location of the pool plant, or pool plants within the same zone, to which, during the current month or the most recent month, the association moved the greatest aggregate quantity of milk from the farms of the producers whose milk was diverted;

(d) For milk of a cooperative association in its capacity as a handler under § 1001.9(d) in shrinkage, overage, extraordinary loss, and ending inventory, the zone location of the pool plant, or pool plants within the same zone, to which the greatest aggregate quantity of such milk of the cooperative association was moved during the current month or the most recent month;

(e) For beginning inventory of a cooperative association in its capacity as a handler under § 1001.9(d), the zone location at which the milk was priced as ending inventory during the previous month;

(f) For receipts of pool milk other than producer milk from plants, the zone location of the plant from which it was received;

(g) For receipts assigned to Class I milk under §§ 1001.55 (e) and (f), and 1001.58, the zone location of the plant from which the product was received; and

(h) For any excess of beginning inventory assigned to Class I milk under § 1001.55(d) over the quantities of producer milk and of milk from cooperative associations in their capacity as handlers under § 1001.9(d) assigned to Class II milk in the preceding month, the zone location of the pool plants from which an equivalent quantity of receipts of fluid milk products were assigned to Class II milk in the preceding month in sequence beginning with the plant in the zone nearest to Boston.

§ 1001.64 Computation of value of fluid milk products at class prices.

For each month, the market administrator shall compute, as specified in this section, the value of fluid milk products at class prices, at each plant other than the plant of a producer-handler under any Federal order, and of the fluid milk products of each cooperative association in its capacity as a handler under § 1001.9(d) which were not moved to a pool plant. The prices used shall be those for the applicable zone locations as determined under § 1001.63.

(a) Multiply by the applicable class prices the quantities of:

(1) Producer milk assigned under § 1001.57(c), except that for any cooperative association in its capacity as a handler under § 1001.9(d), the quantity of producer milk shall be reduced by the total quantity of milk moved to pool plants during the month, to the limit of the quantity of producer milk;

(2) Pool milk other than producer milk assigned under §§ 1001.55 (g) and (h), 1001.56, and 1001.57 (e) and (g); and

(3) Milk received at a pool plant from a cooperative association in its capacity as a handler under § 1001.9(d) and assigned under § 1001.57(c).

(b) Multiply by the applicable Class I prices the quantities of:

(1) Product assigned to Class I milk under §§ 1001.54(d) and 1001.55 (a) through (c);

(2) Product assigned to Class I milk under § 1001.55(d), except that for any cooperative association in its capacity as a handler under § 1001.9(d), the quantity shall be reduced by the quantity of any excess of milk moved to pool plants during the month over the quantity of producer milk, to the limit of the quantity assigned to Class I milk under § 1001.55(d); and

(3) Product assigned to Class I milk under §§ 1001.55(e) and (f), and 1001.58.

(c) If the total quantity of butterfat or of skim milk classified as Class I milk or Class II milk under §§ 1001.47 through 1001.51 exceeds the respective total quantity assigned to that class under §§ 1001.53 through 1001.58, multiply the excess (overage) by the applicable class price, adjusted by the butterfat differential.

(d) Multiply by the applicable Class I price the quantity of pool milk distributed as route disposition in the marketing area from the handler's nonpool plant.

(e) Multiply by the applicable Class II prices the quantities of:

(1) Product assigned to Class I milk under § 1001.55 (a) through (c); and

(2) Product assigned to Class I milk under §§ 1001.55 (e) and (f), and 1001.58.

(f) Multiply by the applicable Class I price for the preceding month the product assigned to Class I milk under § 1001.54(d).

(g) Multiply by the applicable Class II price for the preceding month the quantity of product for which a value is determined under subparagraph (b)(2) of this section.

(h) For any cooperative association in its capacity as a handler under § 1001.9(d), multiply by the applicable Class II price for the preceding month the quantity of any excess of milk moved to pool plants during the month over the quantity of producer milk, to the limit of the quantity of milk in its inventory at the beginning of the month.

(i) Add together the amounts obtained under paragraphs (a) through (d) of this section and subtract therefrom the sum of the amounts obtained under paragraphs (e) through (h) of this section.

§ 1001.65 Basic blended price.

The basic blended price per hundredweight of pool milk containing 3.5 percent butterfat, applicable to plants located in zone 21, shall be computed for each month as specified in this section.

(a) Combine into one total the respective values of fluid milk products at class prices computed under § 1001.64 for each handler from whom the market administrator has received at his office, prior to the 11th day after the end of the month, the reports for the month prescribed in § 1001.40 and the payment for the preceding month required under § 1001.82(a).

(b) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable under §§ 1001.62, 1001.63, 1001.72, and 1001.81(a)(3).

(c) Subtract for each of the months of March, April, May, and June an amount computed by multiplying the total hundredweight of pool milk included in these computations by 10 cents in March, 20 cents in April, and 30 cents in May and June. For 1967 only the rate of deduction shall be 22 cents in April and 33 cents in May and June.

(d) Add for the months of August, September, and October, respectively, an amount representing 25 percent, 30 percent, and 30 percent of the aggregate amount subtracted under paragraph (c) of this section for the prior period of March–June, and for November add the remainder of the amount subtracted under paragraph (c) and the interest earned on the aggregate fund.

(e) Add the amount of the unobligated balance of the producer-settlement fund as at the close of business on the 10th day after the end of the month.

(f) Divide the resulting amount by the total hundredweight of pool milk for which a value is included under paragraph (a) of this section.

(g) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in the producer-settlement fund.

§ 1001.66 Factors used in formulas.

(a) The base Class I percentage factors to be used in the computation of the Class I price under § 1001.60 for each of the 12 months beginning with February of each year shall be computed on or before January 25 of that year as specified in this paragraph.

(1) For each month of the 3 preceding years and for December of the fourth preceding year (using the most recent statistical reports of the market administrators for the New England Federal orders) compute the daily average of the total Class I producer milk under all the New England Federal orders and the daily average of the total receipts from producers under all the New England Federal orders.

(2) For each of the two series of daily averages, using the median link-relative method, compute a seasonal index for each month, rounded to two decimal places.

(3) For each month, multiply the seasonal index of Class I producer milk by 0.6812 and divide the product by the seasonal index of receipts from producers for the same month. The result, rounded to one decimal place, shall be the base Class I percentage factor for the month.

(b) If for any reason a price, index, or wage rate specified in this part for use in computing class prices or for other purposes is not reported or published in the manner described in this part, the market administrator shall use one determined by the Secretary to be equivalent to the factor which is specified.

PAYMENTS—GENERAL

§ 1001.70 Payments to producers.

(a) On or before the 5th day after the end of the month, each handler shall pay each producer for the approximate value of milk received from him during the first 15 days of the month. This payment shall be at a rate not less than the applicable zone Class II price for the month.

(b) On or before the 20th day after the end of the month, each handler shall make final payment to each producer for the total value of milk received from him during the month at not less than the basic blended price per hundredweight computed under § 1001.65, adjusted by the zone, butterfat, and farm location differentials applicable under §§ 1001.62, 1001.63, 1001.71, and 1001.72, minus the amount of the payment made to the producer under paragraph (a) of this section.

(c) If the handler's net payment to a producer is for an amount less than the total amount due the producer under this section, the burden shall rest upon the handler to prove to the market administrator that each deduction from the total amount due is properly authorized, and properly chargeable to the producer.

(d) In making payments to producers under paragraph (b) of this section, the handler may use the simple average of the butterfat tests of semimonthly composite samples of the milk unless the difference between the semimonthly tests is more than two points (0.2 percent) or the quantity of milk received from the producer in either semimonthly period is as much as three times as large as the quantity received from him in the other semimonthly period.

§ 1001.71 Butterfat differential.

(a) In making the payments to producers required under § 1001.70 and the payments to cooperative associations required under § 1001.76(d), each handler shall add for each one-tenth of 1 percent of average butterfat content above 3.5 percent, or may deduct for each one-tenth of 1 percent of average butterfat content below 3.5 percent, as a butterfat differential, an amount per hundredweight which shall be computed by the market administrator under paragraph (b) of this section.

(b) Multiply by 1.20 the average of the daily prices, using the midpoint of any range as one price, for Grade A (92-score) butter at wholesale in the New York market as reported by the U.S. Department of Agriculture for the period beginning with the 16th day of the preceding month and ending with the 15th day of the current month, and divide the result by 10.

§ 1001.72 Farm location differentials.

In making the payments to producers required under § 1001.70, each handler shall add any applicable farm location differential specified in this section.

(a) With respect to milk received from a producer whose farm is located within any of the places specified in this paragraph, the differential shall be 46 cents per hundredweight, unless the addition of 46 cents gives a result greater than the Class I price determined under §§ 1001.60, 1001.62, and 1001.63 which is effective at the plant at which the milk is received. In that event there shall be added a rate which will produce that price.

§ 1001.73 Statements to producers.

In making the payments to producers required under § 1001.70, each handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(a) The month and the identity of the handler and of the producers;

(b) The pounds and butterfat test of milk which is received from the producer, or if more than one minimum rate of payment is applicable to the producer's milk under § 1001.70, the respective pounds and test to which each minimum rate of payment applies;

(c) The minimum rate or rates, including the butterfat differential, at which payment to the producer is required under § 1001.70;

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 1001.75 and 1001.76, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

§ 1001.74 Adjustment of payments to producers.

Whenever the market administrator's verification of a handler's payments to producers discloses payment to a producer of an amount less than is required by § 1001.70, the handler shall make payment of the balance due the producer not later than the 20th day after the end of the month in which the handler is notified of the deficiency.

§ 1001.75 Marketing service deductions.

(a) In making the payments required by § 1001.70 to producers, other than himself and any producer who is a member of a cooperative association which the Secretary determines is performing the services specified in this section, each handler shall deduct 3 cents per hundredweight, or such lesser rate as the Secretary shall determine to be sufficient, for marketing services. The handler shall pay the amount deducted to the market administrator on or before the 18th day after the end of the month.

(b) The market administrator shall expend amounts received under paragraph (a) of this section only in providing for market information to such producers and for verification of weights, samples, and tests of milk received from them. The market administrator may contract with a cooperative association for the furnishing of the whole or any part of these services.

§ 1001.76 Payments to cooperative associations.

(a) Each cooperative association may file with a handler who is not a cooperative association a claim either for the payments which the handler is required to make to the association's producer members under § 1001.70 or for authorized deductions from such payments. The claim shall contain a list of the producers to whom the payments are due or to whom the deductions apply, an agreement to indemnify the handler in the making of such payments or deductions, and a certification that the association has, with each producer listed, an unterminated membership contract authorizing the payment or deduction.

(b) The handler shall withhold from the association's producer members the payments or the deductions specified in paragraph (a) of this section in accordance with the association's claim. He shall pay the amounts withheld to the association on or before the dates on which such amounts otherwise would have been due to the producer members under § 1001.70.

(c) For each producer member from whom payment was withheld, the handler shall furnish the association a supporting statement showing the information required to be furnished to the producer under § 1001.73. For each producer member from whom a deduction is made under this section, the handler shall furnish the association a statement showing the pounds of milk received.

(d) Each handler who receives fluid milk products from a cooperative association in its capacity as the operator of a pool plant or in its capacity as a handler under § 1001.9(d) shall make payment to the association for such receipts as follows:

(1) On or before the 5th day after the end of the month, for the approximate value of the fluid milk products received from the association during the first 15 days of the month. This payment shall be at a rate not less than the applicable zone Class II price for the month. The payment made to the association under this subparagraph shall constitute partial payment of the total amount required to be paid under this paragraph.

(2) On or before the 20th day after the end of the month, for not less than the total value of fluid milk products received from the association's pool plants, as determined by multiplying the respective quantities assigned to each class under §§ 1001.54 and 1001.57 by the class prices for the month, adjusted by the zone and butterfat differentials applicable under §§ 1001.62, 1001.63, and 1001.71.

(3) On or before the 20th day after the end of the month, for not less than the total value of milk received from the cooperative association in its capacity as a handler under § 1001.9(d), at the basic blended price per hundredweight for the month computed under § 1001.65, adjusted by the zone and butterfat differentials applicable under §§ 1001.62, 1001.63, and 1001.71.

(4) Whenever the market administrator's verification of a handler's payments under this paragraph discloses an underpayment, the handler shall make payment of the balance due the cooperative association not later than the 20th day after the end of the month in which the handler is notified of the deficiency.

PAYMENTS—PRODUCER SETTLEMENT FUND

§ 1001.80 Producer settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer settlement fund." He shall deposit into the fund all amounts received from handlers under §§ 1001.82, 1001.83, and 1001.84. He shall pay from the fund all amounts due handlers under §§ 1001.82, 1001.83, and 1001.84, subject to his right to offset any amounts due from the handler under these sections. All amounts subtracted under § 1001.66 (c), inclusive of interest earned thereon, shall remain therein as an obligated balance until it is withdrawn for the purpose of effectuating § 1001.65(d).

§ 1001.81 Handlers' producer settlement fund debits and credits.

On or before the 15th day after the end of the month, the market administrator shall render a statement to each handler showing the amount of the handler's producer settlement fund debit or credit, as calculated in this section.

(a) The producer settlement fund debit or credit for each plant and each cooperative association in its capacity as a handler under § 1001.9(d) shall be computed as specified in this paragraph.

(1) Multiply the quantities of pool milk and the quantities of fluid milk products received at the pool plant from cooperative associations in their capacity as handlers under § 1001.9(d) by the basic blended price computed under § 1001.65 adjusted by any zone differential applicable under §§ 1001.62 and 1001.63.

(2) Multiply the quantities of producer milk which are subject to farm location differentials under § 1001.72 (a) and (b) by the respective rates applicable under those paragraphs.

(3) With respect to any nonpool plant from which pool milk other than producer milk was received or distributed, divide the respective quantities of milk received at the plant directly from dairy farmers' farms located in the farm location differential areas described in § 1001.72 (a) and (b) by the total receipts of fluid milk products at the plant, multiply by 100, and apply the resulting percentages to the total quantity of pool milk received or distributed from the plant. Multiply each resulting quantity by the respective farm location differential rate specified in § 1001.72(a) or (b). Until such time as full information relative to all receipts at the plant, including the respective quantities of milk received directly from dairy farmers' farms in each farm location differential area, is submitted to the market administrator, it shall be considered that none of the farms from which milk was received at the plant is located in a farm location differential area.

(4) Combine the values obtained under subparagraphs (1) through (3) of this paragraph.

(5) For any cooperative association in its capacity as a handler under § 1001.9 (d), multiply the quantities of milk moved to each pool plant by the basic blended price computed under § 1001.65 adjusted by any zone differentials applicable under §§ 1001.62 and 1001.63; and to the result add the value determined under § 1001.64.

(6) If the value of fluid milk products, as determined under § 1001.64 for any plant, or as determined under subparagraph (5) of this paragraph for any cooperative association in its capacity as a handler under § 1001.9(d), is greater than the credit as determined under subparagraph (4) of this paragraph, the difference shall be the producer settlement fund debit for the plant or the cooperative association in its capacity as a handler under § 1001.9(d).

(7) If the value of fluid milk products, as determined under § 1001.64 for any plant, or as determined under subparagraph (5) of this paragraph for any cooperative association in its capacity as a handler under § 1001.9(d), is less than the credit as determined under subparagraph (4) of this paragraph, the difference shall be the producer settlement fund credit for the plant or the cooperative association in its capacity as a handler under § 1001.9(d).

(b) The producer settlement fund debit or credit of any handler shall be the net of the producer settlement fund debits and credits as computed for all of its operations under paragraph (a) of this section.

§ 1001.82 Payments to and from the producer settlement fund.

(a) On or before the 18th day after the end of the month, each handler shall make payment to the market administrator of the amount of the handler's producer settlement fund debit for the month as determined under § 1001.81.

(b) On or before the 20th day after the end of the month, the market administrator shall make payment to each handler of the amount of the handler's producer settlement fund credit for the month as determined under § 1001.81.

§ 1001.83 Adjustment of errors in producer settlement fund payments.

Whenever the market administrator's verification of reports or payments of any handler discloses an error in producer settlement fund payments made under § 1001.82, the market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period beginning with the 11th day of the prior month and ending with the 10th day of the current month shall be payable by the handler to the market administrator on or before the 18th day of the current month. Adjustment credits issued during that period shall be payable by the market administrator to the handler on or before the 20th day of the current month.

§ 1001.84 Adjustment of overdue producer settlement fund accounts.

Any producer settlement fund account balance due from or to a handler under §§ 1001.82, 1001.83, or 1001.84, for which remittance has not been received in or paid from the market administrator's office by the close of business on the 20th day of any month, shall be increased one-half of 1 percent effective the following day. Any remittance received by the market administrator after the 20th day of any month in an envelope which is postmarked not later than the 18th day of the month shall be considered to have been received by the 20th day of that month.

ADMINISTRATION EXPENSE

§ 1001.87 Payment of administration expense.

On or before the 18th day after the end of the month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this part. The payment shall be at the rate of 4 cents per hundredweight, or such lesser rate as the Secretary may prescribe. The payment shall apply to:

(a) All of a handler's receipts at pool plants during the month of fluid milk products from all sources, except receipts from pool plants, receipts from regulated plants under other Federal orders if such receipts were subject to an administration expense assessment under the other order, and receipts of exempt milk processed at plants other than pool plants;

(b) All receipts and beginning inventory of a cooperative association in its capacity as a handler under § 1001.9(d) for the month less its disposition to pool plants and ending inventory for the month; and

(c) The quantity of pool milk distributed as route disposition in the marketing area from a handler's nonpool plant.

MISCELLANEOUS PROVISIONS

§ 1001.90 Effective time.

The provisions of this part, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated under § 1001.91.

§ 1001.91 Suspension or termination.

The Secretary may suspend or terminate this part or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the Act. This part, in any event, shall terminate whenever the provisions of the Act authorizing it cease to be in effect.

§ 1001.92 Continuing obligations.

If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 1001.93 Liquidation.

Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, if so directed by the Secretary, shall liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected under the provisions of this part, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 1001.94 Termination of obligations.

The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part, except as provided in paragraphs (b) and (c) of this section, shall terminate 2 years after the last day of the month during which the market administrator received the handler's utilization report on the milk involved in the obligation, unless within the 2-year period the market administrator notifies the handler in writing that the money is due and payable. Service of the notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of the producer or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator, within the 2-year period provided for in paragraph (a) of this section, may notify the handler in writing of the failure or refusal. If the market administrator so notifies a handler, the said 2-year period with respect to the obligation shall not begin to run until the first day of the month following the month during which all the books and records pertaining to the obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud, or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which the handler claims to be due him under the terms of this part shall terminate 2 years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or 2 years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on the payment is claimed, unless the handler, within the applicable period of time, files a petition under section 8c(15)(A) of the Act, claiming the money.

§ 1001.95 Agents.

The Secretary, by designation in writing, may name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 1001.96 Separability of provisions.

If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Amendments to the Connecticut Order Provisions. In § 1015.9, paragraph (c) (4) is revoked and paragraph (d) is revised to read as follows:

§ 1015.9 Handler.

* * * * *

(c) * * *

(4) [Revoked]

(d) Any cooperative association with respect to producer milk transferred from the producer's farm tank to a tank truck owned and operated by or under contract to such association for delivery to a pool plant if prior to delivery the operator of the pool plant gives notice in writing to both the market administrator and the association of its intention to purchase such milk on a basis of weights and butterfat tests other than as determined from farm tank measurements and farm tank samples.

* * * * *

In § 1015.10 the introductory paragraph and paragraph (a) are revised to read as follows:

§ 1015.10 Producer-handler.

"Producer-handler" means any person who is both a dairy farmer and a handler during the month and who meets all the conditions specified in this section. Sections 1015.63, 1015.64, 1015.72, 1015.73, 1015.75, 1015.80, through 1015.82, and 1015.87 through 1015.89 shall not apply to a producer-handler as defined under this or any other Federal order.

(a) His only sources of milk supply (except that prerepresented by nonfat solids used in fortification) are his own production and fluid milk products transferred from pool plants. For the purpose of this paragraph, any fluid milk products which were acquired or purchased from a nonpool plant by him, his agent, partner or other associate and which he or such other person caused to be delivered at retail or wholesale outlets (including vending machines) in any Federal marketing area without being first received at his plant shall be included in such person's nonpool source of fluid milk products.

* * * * *

In § 1015.16(b), subparagraph (1) is revised to read as follows:

§ 1015.16 Pool plants.

* * * * *

(b) * * *

(1) Any plant, other than as provided in subparagraphs (2) through (5) of this paragraph, from which is shipped during any month of July through November at least 25 percent, and during any month of December through June at least 15 percent, of its total receipts of milk from dairy farmers as fluid milk products, other than as diverted milk, to pool distributing plants, producer-handlers and plants to which qualifying shipments may be made under another New England Federal order, if a greater quantity of qualifying shipments are made to pool distributing plants and producer-handlers under this order than to the other plants. In the case of any plant which is eligible for qualification under subparagraph (5) of this paragraph and for which such qualification is requested the receipts at the plant from dairy farmers and the shipments therefrom to pool distributing plants for the purpose described in this subparagraph, shall include all direct deliveries of milk to pool distributing plants by producer-members of the cooperative association.

* * * * *

In § 1015.26, paragraph (c) is revoked.

§ 1015.26 Exempt milk.

* * * * *

(c) [Revoked]

In § 1015.32(g), a new subparagraph (5) is added to read as follows:

§ 1015.32 Duties.

* * * * *

(g) * * *

(5) Whenever required for purpose of allocating receipts from other order plants pursuant to § 1015.55(c)(2), his estimate of the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

* * * * *

A new § 1015.35 together with a center heading is provided to read as follows:

APPLICATION OF PROVISIONS

§ 1015.35 Exempt governmental agency.

None of the provisions of this part shall apply to a governmental agency. Receipts of fluid milk products at a pool plant from such an agency shall be Class II. The disposition of fluid milk products by a pool handler to such an agency shall be Class I except that the disposition of fluid milk products in bulk to a plant operated by the University of Connecticut shall be Class II if claimed by the selling handler and supported by a certification, signed by an authorized agent of the University, that such milk was used to produce milk products other than fluid milk products or cream.

In § 1015.41, paragraphs (c) and (e)(1) are revised to read as follows:

* * * * *

§ 1015.41 Other reports of receipts and utilization.

* * * * *

(c) Each handler under § 1015.9(d) shall report to the market administrator in detail and on forms prescribed by the market administrator by the date on which reports are due under § 1015.40 after the end of each month, the quantities of skim milk and butterfat in producer milk delivered to each pool plant in such month and in the milk transferred into the tank truck at each producer's farm, and the classification of the quantities of skim milk and butterfat which are considered producer milk pursuant to § 1015.24(a)(4).

* * * * *

(e) * * *

(1) Mail or deliver to the market administrator on or before the second day (exclusive of Sundays and of legal holidays applicable at the location of the plant) following the day of each dumping not witnessed by the market administrator or his agent, a report in writing, as prescribed by the market administrator, showing the date on which the dumping was performed and the quantity dumped, such report to be signed by both the person who performed the dumping operation and the person authorized to sign reports for the handler under § 1015.40 (if the latter person is not available to sign the report within the 2-day period, the signature of the plant manager or plant superintendent shall be substituted on the report); and

* * * * *

Section 1015.50 is revised to read as follows:

§ 1015.50 Skim milk and butterfat to be classified.

All skim milk and butterfat which is required to be reported pursuant to § 1015.40, or is producer milk pursuant to § 1015.24(a)(4) and required to be reported pursuant to § 1015.41(c), shall be classified pursuant to the provisions of §§ 1015.51 to 1015.53. Bulk milk which a cooperative association causes to be delivered under § 1015.9(c)(3) to the pool plant of another cooperative association shall be considered as if it were transferred between two pool plants located in the same zone location. When nonfat milk solids derived from nonfat dry milk, condensed skim milk or any other product condensed from milk or skim milk are utilized or unaccounted for by the handler, the total pounds of skim milk classified shall reflect a volume equivalent to the skim milk used to produce such nonfat milk solids, except that if the solids are utilized to fortify fluid milk products or cream, the actual weight of any such products shall be included in classifying the total product weight.

In § 1015.52, paragraphs (g)(2), (g)(3) and, (l) are revised, paragraph (l) is redesignated as paragraph (j), and a new paragraph (l) is added. Paragraphs (g)(2), (g)(3), (l), and (j) are to read as follows:

§ 1015.52 Class II milk.

* * * * *

(g) * * *

(2) Plus 1.5 percent of:

(l) Producer milk received from a handler under § 1015.9(d);

(ll) Milk received at the pool plant of a cooperative association from another cooperative association as specified in § 1015.9(c)(3) unless the association that received the milk at its pool plant notifies the market administrator in writing by the date reports are due under § 1015.40 that it is purchasing the milk on the basis of farm tank measurements and butterfat tests determined from farm tank samples in which case the applicable percentage shall be 2 percent;

(3) Plus 0.5 percent of:

(i) Producer milk received by a handler under § 1015.9(c)(3) if the association operating the pool plant where the milk is delivered has not notified the market administrator in writing by the date reports are due under § 1015.40 that it is purchasing the milk on the basis of farm tank measurements and butterfat tests determined from farm tank samples;

(ii) Milk transferred by a cooperative association in its capacity as a handler pursuant to § 1015.9(d) from a producer's farm tank into a tank truck.

* * * * *

(j) Contained in bulk fluid milk products transferred or diverted to the plant of an exempt governmental agency if the conditions of § 1015.35 are met.

(j) Contained in fluid milk products transferred or diverted from a pool plant to another plant other than the plant of a producer-handler under any Federal order or the plant of an exempt governmental agency if the conditions of § 1015.53 are met.

In § 1015.55, the introductory paragraph, and paragraphs (b)(3) and and (c)(2) are revised to read as follows:

§ 1015.55 Assignment to classes of skim milk and butterfat received.

The total quantity of skim milk and butterfat received during the month at each pool plant and by handlers specified in § 1015.9(c) and required to be reported under § 1015.40 (including those quantities in inventory at the beginning of the month) and in producer milk pursuant to § 1015.24(a)(4) required to be reported pursuant to § 1015.41(c), shall be assigned separately, in the manner and sequence provided below, to the respective quantities of skim milk and butterfat classified in each class under §§ 1015.50 through 1015.53.

* * * * *

(b) * * *

(3) Fluid milk products from producer-handlers under any Federal order, from exempt governmental agencies or exempt distributing plants under any New England Federal order in sequence beginning with the source most distant from Hartford according to its zone location;

* * * * *

(c) * * *

(2) To the remaining pounds in each class, assign in the manner provided in subdivisions (i) and (ii) of this subparagraph any remaining receipts of bulk fluid milk products from each regulated plant under another Federal order, to the extent that such receipts are not offset by transfers of bulk fluid milk products to the same plants, if such receipts are classified and priced under the other order as Class I milk or are subject to such classification and pricing or the equivalent thereof, if assigned to Class I milk under this order. Should the quantity to be assigned to either class exceed the respective quantity remaining in that class at the plant of receipt, the respective quantity remaining in that class shall be increased to the quantity to be assigned and the respective quantity remaining in the other class shall be decreased by an identical quantity. If such an adjustment is required at the receiving plant, an offsetting adjustment shall be made to the respective remaining quantities in each class at the handler's other pool plants, in sequence beginning with the plant nearest Hartford.

(i) Assign the quantities in such receipts to Class I milk and Class II milk in proportion to the estimated percentages of skim milk and butterfat, respectively, in each class in producer milk of all handlers for the month as announced under § 1015.32(g)(5), or in proportion to the respective remaining pounds in each class at all of the handler's pool plants, whichever procedure results in the greater combined quantity of skim milk and of butterfat in such receipts being assigned to Class II milk.

(ii) The quantities assigned to Class II milk under this paragraph shall not exceed the respective quantities of skim milk and of butterfat in Class II milk remaining at all of the handler's pool plants. Any remaining receipts shall be assigned to Class I milk.

* * * * *

Section 1015.60 is revised to read as follows:

§ 1015.60 Class I price.

The Class I price per hundredweight of milk containing 3.5 percent butterfat, at plants in the nearby plant zone under § 1015.62 shall be the amount computed for each month as specified in this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday the latest figures available on the next succeeding workday shall be used.

(a) Compute an economic index, with the year 1958 as the base period, as follows:

(1) Calculate a U.S. wholesale commodity price index by dividing the monthly wholesale price index for all commodities (as reported by the Bureau of Labor Statistics, U.S. Department of Labor, with the years 1957–59 as the base period) by 1.0025.

(2) Calculate a New England consumer income index by multiplying the current annual rate of per capita disposable income in the United States (based upon the quarterly figure released by the U.S. Department of Commerce or the Council of Economic Advisers to the President) by the New England adjustment percentage and dividing the result by 20.50. The New England adjustment percentage shall be the current percentage relationship of per capita personal income in the United States (using data on per capita personal income by States and regions as published by the United States Department of Commerce).

(3) Calculate a New England dairy ration index by dividing the monthly average price paid by farmers in the New England region for 100 pounds of mixed dairy feed containing less than 20 percent protein (as reported by the U.S. Department of Agriculture) by 0.03884.

(4) Calculate a New England farm wage rate index by dividing the weighted average farm wage rate for the New England region by 1.9833. The weighted average farm wage rate for the New England region shall be the average of the farm wage rates for the New England region (as reported by the U.S. Department of Agriculture) weighted by the factors indicated in the following table.

Rate	Weighting factor
Per month with board and room	1.00
Per month with house	1.00
Per week with board and room	4.33
Per week without board or room	4.33
Per day without board or room	26.00

(5) Calculate a New England grain-labor cost index by multiplying the New England dairy ration index by 0.6 and the New England farm wage rate index by 0.4, and combining the two results.

(6) The economic index shall be the result of dividing by 7 the sum of three times the U.S. wholesale commodity price index, the New England consumer income index, and three times the New England grain-labor cost index, except that for the purpose of computing the Class I price for each of the months through April 1968 such economic index shall not be less than 115.89.

(b) Compute an economic index price as follows:

(1) Multiply the economic index by $0.0557, expressing the result to the nearest mill.

(2) Divide the Class I–A price for the month computed under the New York-New Jersey Federal order, applicable to milk containing 3.5 percent butterfat received at plants located in the 201–210-mile freight zone, by the utilization adjustment percentage which entered into the computation of that price, expressing the result to the nearest mill.

(3) The economic index price shall be the price computed in subparagraph (1) of this paragraph, except that its deviation from the result obtained in subparagraph (2) of this paragraph shall be limited to $0.13.

(c) Compute a supply-demand adjustment factor (using quantities announced in the statistical reports of the respective market administrators for the New England Federal orders for the second, third, and fourth months preceding the month for which the price is being computed but excluding receipts and sales of plants which become regulated on the basis of their sales in the Massachusetts-Rhode Island area extension) as follows:

(1) For each of the 3 months, determine the total Class I producer milk and the total producer milk for the New England Federal order markets by combining the respective totals for the individual markets.

(2) For each of the 3 months, divide the total Class I producer milk for the New England Federal order markets by the base Class I percentage factor for the same months as determined under § 1015.65(a). The result shall be the New England base supply for that month.

(3) For each of the 3 months, express the total producer milk for the New England Federal order markets as a percentage of the New England base supply for the same month. The simple average of the three resulting percentages shall be the percentage of base supply.

(4) The supply-demand adjustment factor shall be the figure in the following table opposite the bracket within which the percentage of base supply falls, except that for the purposes of computing Class I prices through December 1967 such factor shall be 0.99. When the percentage of base supply falls in an interval between brackets, the supply-demand adjustment factor shall be the figure shown for the next higher bracket if the factor for the previous month was based on a bracket higher than such interval, and shall be the figure for the next lower bracket if the factor for the previous month was based on a bracket lower than such interval.

Percentage of base supply: [1]	*Supply-demand adjustment factor*
90.5–91.5	1.08
92.0–93.0	1.06
93.5–94.5	1.04
95.0–96.0	1.03
96.5–97.5	1.02
98.0–99.0	1.01
99.5–100.5	1.00
101.0–102.0	.99
102.5–103.5	.98
104.0–105.0	.97
105.5–106.5	.96
107.0–108.0	.95
108.5–109.5	.94

[1] If the percentage of base supply calculated according to subparagraph (3) of this paragraph falls outside the extremes shown in this column, the supply-demand adjustment factor shall be determined by extending the table at the indicated rate of extension.

(d) The Class I price shall be the result, rounded to the nearest full cent, of the economic index price determined under paragraph (b) of this section, multiplied by the supply-demand adjustment factor determined under paragraph (c) of this section, plus 40 cents.

In § 1015.62, paragraph (d) is revised to read as follows:

§ 1015.62 Plant zone price differentials.

* * * * *

(d) The zone price differentials for each plant shall be those applicable to its zone location as shown in the following table:

PLANT ZONE PRICE DIFFERENTIALS

Distance to Hartford (miles)	Plant location zone	Class I and uniform price differentials (cents per hundredweight)	Class II price differentials (cents per hundredweight)
Various	Nearby plant	0.0	0.0
51 to 60	6	−19.0	−1.4
61 to 70	7	−20.4	−1.7
71 to 80	8	−21.8	−2.0
81 to 90	9	−23.2	−2.6
91 to 100	10	−24.8	−2.8
101 to 110	11	−26.0	−2.9
111 to 120	12	−27.4	−3.2
121 to 130	13	−28.8	−3.4
131 to 140	14	−30.2	−3.7
141 to 150	15	−31.6	−4.2
151 to 160	16	−33.0	−4.8
161 to 170	17	−34.4	−4.6
171 to 180	18	−35.8	−5.2
181 to 190	19	−37.2	−5.4
191 to 200	20	−38.6	−5.7
201 to 210	21	−40.0	−5.8
211 to 220	22	−41.4	−6.4
221 to 230	23	−42.8	−6.5
231 to 240	24	−44.2	−6.7
241 to 250	25	−45.6	−6.7
251 to 260	26	−47.0	−7.0
261 to 270	27	−48.4	−7.1
271 to 280	28	−49.8	−7.3
281 to 290	29	−51.2	−7.4
291 to 300	30	−52.6	−7.6
301 to 310	31	−54.0	−8.1
311 to 320	32	−55.4	−8.2
321 to 330	33	−56.8	−8.3
331 to 340	34	−58.2	−8.6
341 to 350	35	−59.6	−8.6
351 to 360	36	−61.0	−8.8
361 to 370	37	−62.4	−8.9
371 to 380	38	−63.8	−9.1
381 to 390	39	−65.2	−9.2
391 to 400	40	−66.6	−9.3
401 and over	41 and over	(1)	−9.3

[1] Class I and uniform price differentials applicable to plants located more than 400 miles from Hartford shall be obtained by extending the table at the rate of 1.4 cents for each additional 10 miles, except that in no event shall the Class I or uniform price at any zone be less than the Class II price for the month for plants in such zone.

* * * * *

In § 1015.63, the introductory paragraph and paragraph (c) are revised to read as follows:

§ 1015.63 Value of each handler's fluid milk products.

For each month, the market administrator shall compute the value of fluid milk products for each handler under § 1015.9(a), (b), (c), and (d) except a producer-handler under any Federal order. The prices used shall be those for the zone location of the plant for which the value is being computed or at which it has been considered that a handler under § 1015.9(c) or (d) received producer milk, except that under paragraphs (a)(2), (b)(2), and (f)(2) of this section the prices used shall be those applicable at the zone locations of the plants from which the fluid milk products were received, and under paragraph (c) of this section, the prices which are specified therein shall be used.

* * * * *

(c) Compute a charge on the handler's beginning inventory as follows:

(1) Multiply the difference between the Class II price for the preceding month and the Class I price for the current month applicable at the nearest plant location from which an equivalent quantity of skim milk and butterfat, respectively, was allocated to Class II milk in the preceding month, by the hundredweight of skim milk and butterfat, respectively, assigned to Class I milk under § 1015.55(b)(7) for the month which is in excess of the hundredweights of skim milk and butterfat, respectively, allocated to Class II milk under § 1015.55 (e) and (f) during the preceding month and classified and priced as Class I milk or the equivalent thereof under the provisions of any Federal order; and

(2) Multiply the hundredweight of skim milk and butterfat in milk which is in transit to a pool plant at the beginning of the month from a cooperative association in its capacity as a handler under § 1015.9(d), by the difference between the Class II price for the preceding month and the uniform price for the current month applicable at the location at which such milk was priced during the preceding month.

* * * * *

In § 1015.64, paragraph (a) is revised to read as follows:

§ 1015.64 Basic uniform price.

(a) Combine into one total the value of fluid milk products computed under § 1015.63, excluding any charge under § 1015.63(c)(2), for each handler who made the reports prescribed in §§ 1015.40 and 1015.41(c) for the month and who was not in default of payments under § 1015.81 for the preceding month.

* * * * *

In § 1015.73, paragraph (b) is revised to read as follows:

§ 1015.73 Statements to producers.

* * * * *

(b) The total pounds and average butterfat test of milk received from the producer or from the cooperative association in its capacity as a handler under § 1015.9(d) except that the butterfat test shall not be required on statements accompanying payment for the first 15 days of the month;

* * * * *

Section 1015.74 is revised to read as follows:

§ 1015.74 Adjustment of payments to producers and cooperative associations.

Whenever the market administrator's verification of a handler's payments to producers or cooperative associations discloses payment of an amount less than is required by § 1015.70 the handler shall make payment of the balance due the producer or cooperative association not later than the date for making payment under § 1015.70 for the month in which the handler is notified by the market administrator of the deficiency.

Section 1015.80 is revised to read as follows:

§ 1015.80 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund." He shall deposit all amounts received from handlers under §§ 1015.81, 1015.88, and 1015.89 into the fund. He

shall pay all amounts due handlers under §§ 1015.82 and 1015.88 from the fund, subject to his right to offset a payment due to a handler from the producer-settlement fund against any payment due from the handler to the fund. All amounts subtracted under § 1015.64 (c) inclusive of interest earned thereon, shall remain therein as an obligated balance until it is withdrawn for the purpose of effectuating § 1015.64(d). The market administrator shall render a statement to each handler who made the reports prescribed in § 1015.40 or § 1015.41(c), by the 16th day of the month showing the amount due to or from the producer-settlement fund computed in accordance with §§ 1015.63, 1015.81, and 1015.82.

In § 1015.87, paragraph (b) is revised to read as follows:

§ 1015.87 Payment of administration expense.

* * * * *

(b) The payment shall also apply to the quantity of pool milk distributed as route disposition in the marketing area from a handler's nonpool plant, to the quantity of producer milk for which a cooperative association is the handler under § 1015.9(c), and to the quantity of producer milk for which the cooperative association is the handler under § 1015.9 (d), except that disposed of to pool plants or in ending inventory for the month.

Signed at Washington, D.C., on June 27, 1967.

CLARENCE H. GIRARD,
Deputy Administrator,
Regulatory Programs.

5-Year Compilations of Presidential Documents

Supplements to Title 3 of the Code of Federal Regulations

The Supplements to Title 3 of the Code of Federal Regulations contain the full text of proclamations, Executive orders, reorganization plans, trade agreement letters, and certain administrative orders issued by the President and published in the Federal Register during the period June 2, 1938–December 31, 1963. Tabular finding aids and subject indexes are included. The individual volumes are priced as follows:

1938–1943 Compilation*
1943–1948 Compilation—$7.00
1949–1953 Compilation—$7.00
1954–1958 Compilation—$4.00
1959–1963 Compilation—$6.00

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402

* Temporarily out of print

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B); under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue ($1.5 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1967, and specifies how they are affected.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 8—COLOR ADDITIVES

Subpart D—Listing of Color Additives for Food Use Exempt From Certification

CONFIRMATION OF EFFECTIVE DATE OF ORDER REGARDING USE OF CALCIUM HYDROXIDE U.S.P. IN MANUFACTURING CARAMEL

In the matter of amending the color additive regulations (§ 8.303) to provide for use of calcium hydroxide U.S.P. as an alkali to assist caramelization in the manufacture of caramel:

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706 (b), (c) (2), (d), 74 Stat. 399–403; 21 U.S.C. 376 (b), (c) (2), (d), and under the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (21 CFR 2.120), notice is given that no objections were filed to the order in the above-identified matter published in the FEDERAL REGISTER of May 12, 1967 (32 F.R. 7173). Accordingly, the amendment promulgated by that order will become effective July 11, 1967.

(Sec. 706 (b), (c) (2), (d), 74 Stat. 399–403; 21 U.S.C. 376 (b), (c) (2), (d))

Dated: June 28, 1967.

JAMES L. GODDARD,
Commissioner of Food and Drugs.

[F.R. Doc. 67-7620; Filed, July 6, 1967; 8:49 a.m.]

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

SUBCHAPTER B—COOPERATIVE CONTROL AND ERADICATION OF ANIMAL DISEASES

PART 51—CATTLE DESTROYED BECAUSE OF BRUCELLOSIS (BANG'S DISEASE), TUBERCULOSIS, OR PARATUBERCULOSIS

Payment of Indemnities

Pursuant to the provisions of sections 3 and 11 of the Act of May 29, 1884, as amended (21 U.S.C. 114, 114a), and section 2 of the Act of February 2, 1903, as amended (21 U.S.C. 111), § 51.6 of Part 51, Subchapter B, Title 9, Code of Federal Regulations, relating to payment of indemnity for cattle destroyed because of brucellosis, tuberculosis, or paratuberculosis, is amended to read as follows:

§ 51.6 Time limit for slaughter.

Payment of indemnity will be made under this part for cattle destroyed because of brucellosis, tuberculosis or paratuberculosis only if the animals are slaughtered or die otherwise within 15 days after the date of appraisal, except that the appropriate Veterinarian in Charge, for reasons satisfactory to him, may extend the period beyond 15 days.

(Sec. 3–6, 23 Stat. 32, as amended, sec. 2, 32 Stat. 792, as amended, sec. 3, 33 Stat. 1265, as amended, sec. 11, 58 Stat. 734, as amended; 21 U.S.C. 111, 112, 113, 114, 114a, 120, 125)

The foregoing amendment delegates full authority to the Veterinarian in Charge to grant, for reasons satisfactory to him, any extension of time believed necessary to enable owners of reactors to comply with the requirements of § 51.6. The amendment will be of benefit to affected persons as it will facilitate the payment of certain indemnity claims for cattle destroyed because of brucellosis, tuberculosis, or paratuberculosis. Accordingly, under the administrative procedure provisions (5 U.S.C. 553) it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Effective date. The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 3d day of July 1967.

F. J. MULHERN,
Deputy Administrator,
Agricultural Research Service.

[F.R. Doc. 67-7660; Filed, July 6, 1967; 8:51 a.m.]

Title 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Commuted Travel Time Allowances

Pursuant to the authority conferred upon the Director of the Plant Quarantine Division by § 354.1 of the regulations concerning overtime services relating to imports and exports, effective July 31, 1966 (7 CFR 354.1), administrative instructions (7 CFR 354.2), effective January 27, 1965, as amended March 19, 1966, April 23, 1966, June 9, 1966, July 15, 1966, August 25, 1966, October 13, 1966, January 27, 1967, March 1, 1967, April 18, 1967, and May 26, 1967 (31 F.R. 1052, 4722, 6247, 8113, 9593, 11212, 13203, 32 F.R. 969, 3383, 6019, 7697), prescribing the commuted travel time that shall be included in each period of overtime duty are hereby amended by adding to and deleting from the "lists" therein as follows:

§ 354.2 Administrative instructions prescribing commuted travel time.

WITHIN METROPOLITAN AREA

ONE HOUR

Add: McChord AFB, Wash.

* * * * * *

OUTSIDE METROPOLITAN AREA

ONE HOUR

Add: Fort Lewis, Wash. (served from McChord AFB, Wash.).

Add: Olympia, Wash. (served from McChord AFB, Wash.).

Add: Tacoma, Wash. (served from McChord AFB, Wash.).

* * * * * *

TWO HOURS

Add: SEA-TAC Airport, Wash. (served from McChord AFB, Wash.).

* * * * * *

THREE HOURS

Delete: Fort Lewis, Wash. (served from Seattle, Wash.).

* * * * * *

These commuted travel time periods have been established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such overtime duty when such travel is performed solely on account of such overtime duty. Such establishment depends upon facts within the knowledge of the Plant Quarantine Division. It is to the benefit of the public that these instructions be made effective at the earliest practicable date. Accordingly, pursuant to the provisions of 5 U.S.C. 553, it is found upon good cause that notice and public procedure on these instructions are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making these instructions effective less than 30 days after publication in the FEDERAL REGISTER.

(64 Stat. 561)

This amendment shall become effective July 7, 1967.

Done at Hyattsville, Md., this 30th day of June 1967.

[SEAL] F. A. JOHNSTON,
Director,
Plant Quarantine Division.

[F.R. Doc. 67-7816; Filed, July 6, 1967; 8:49 a.m.]

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM ACREAGE ALLOTMENTS AND MARKETING QUOTAS

[Amdt. 15]

PART 717—HOLDING OF REFERENDA ON MARKETING QUOTAS

Subpart—Regulations Governing the Holding of Referenda on Marketing Quotas

TIME OF VOTING AND REFERENDUM COMMUNITIES

Basis and purpose. The amendment herein is issued under and in accordance with the provisions of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.).

The purpose of these amendments is to (1) change the hours during which polls will be open in all counties in the States of Alabama, Florida, Georgia, North Carolina, South Carolina, and Virginia, and (2) publish in the FEDERAL REGISTER the referendum communities by States and counties in which polling places will be designated for holding flue-cured tobacco referendums. If a community is not listed in the amendment, no referendum is to be held therein because there are no eligible voters in the community.

The boundaries of the ASCS communities in Marion County, S.C., are involved in litigation. In the case of Drew v. Lawrimore et al., Federal Judge Robert W. Hemphill of the U.S. District Court for the District of South Carolina directed that the boundaries of certain ASCS communities in Marion County be established differently from the boundaries previously established. Judge Hemphill's decision has been appealed and the matter has not been finally determined. For the purposes of the flue-cured tobacco referendum to be held in 1967, the boundaries of the communities established pursuant to Judge Hemphill's order will be used.

Since a referendum for flue-cured tobacco will be held in the near future, it is important that these amendments be issued and made effective as soon as possible. Accordingly, it is hereby found that compliance with the notice, public procedure, and effective date requirements of 5 U.S.C. 553 is impracticable and contrary to the public interest and these amendments shall become effective as provided herein.

1. Section 717.4 is amended by adding at the end thereof a new paragraph (c) to read as follows:

§ 717.4 Place for balloting.

* * * * *

(c) Referendum communities for flue-cured tobacco referendums by States and counties are as follows:

REFERENDUM COMMUNITIES

ALABAMA

County	Commodity	Referendum communities
Butler	Flue-cured tobacco	ASC community 4. ASC community 7 and a combination of ASC communities 3, 5, and 6.

2. Section 717.5 is amended by revising the times listed in the table for the States of Alabama, Florida, Georgia, North Carolina, South Carolina, and Virginia for polls to open and close as follows:

§ 717.5 Time of voting.

* * * * *

State	Polls to open	Polls to close
	a.m.	p.m.
Alabama	7:00	7:00
Florida	7:00	7:00
Georgia	7:00	7:00
North Carolina	7:00	7:00
South Carolina	7:00	7:00
Virginia	7:00	7:00

(Secs. 312, 336, 343, 344a, 354, 358, 375, 52 Stat. 46, 55, 56, 61, 66, as amended, 55 Stat. 88, as amended, 79 Stat. 1187, 7 U.S.C. 1312, 1336, 1343, 1344b, 1354, 1358, 1375)

Effective date. Date of filing with the Director, Office of the Federal Register.

Signed at Washington, D.C., on June 29, 1967.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Service.

[F.R. Doc. 67-7731; Filed, July 6, 1967; 8:45 a.m.]

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

[Sugar Reg. 811, Amdt. 10]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

Requirements and Quotas for 1967

Basis and purpose and statement of bases and considerations. The purpose of this amendment to Sugar Regulation 811 (31 F.R. 15581, 32 F.R. 2609, 3085, 4015, 6387, 7011, 7521, 7581, 8577, 9149) is to revise the determination of sugar requirements for the calendar year 1967 and to establish quotas, prorations and direct-consumption limits thereof consistent with such requirements pursuant to the Sugar Act of 1948, as amended (61 Stat. 922, as amended), hereinafter referred to as the "Act."

Section 201 of the Act directs the Secretary to revise the determination of sugar requirements at such times during the calendar year as he deems necessary.

The work stoppage at the Pacific Coast cane sugar refinery temporarily retarded the availability of raw sugar supplies from Hawaii. While deliveries of beet sugar supplied the requirements of users on the West Coast, some diminution of refined beet sugar deliveries elsewhere during the summer and prior to the sugarbeet harvest could occur as a result. It is prudent in these circumstances to add to the offerings of immediately available raw sugar supplies for Gulf and East Coast cane sugar refineries. Also, in the development of this amendment, consideration has been given to the desirability of obtaining fairly stable sugar prices that will carry out the price objectives set forth in Section 201 of the Act.

Accordingly, total sugar requirements for the calendar year 1967 are hereby increased by 100,000 short tons, raw value, to 10,800,000 short tons, raw value.

By virtue of the authority vested in the Secretary of Agriculture by the Act, Part 811 of this chapter is hereby amended by amending §§ 811.50, 811.51 and 811.53 as follows:

1. Section 811.50 is amended to read as follows:

§ 811.50 Sugar requirements, 1967.

The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1967 is hereby determined to be 10,800,000 short tons, raw value.

2. Section 811.51 is amended by amending paragraph (a)(1) to read as follows:

§ 811.51 Quotas for domestic areas.

(a)(1) For the calendar year 1967 domestic area quotas limiting the quantities of sugar which may be brought into or marketed for consumption in the continental United States are established, pursuant to Section 202(a) of the Act, in Column (1) and the amounts of such quotas for offshore areas that may be filled by direct-consumption sugar are established, pursuant to Section 207 of the Act, in Column (2) as follows:

Area	Quotas (1)	Direct-consumption limits (2)
	(Short tons, raw value)	
Domestic beet sugar	3,215,667	(1)
Mainland cane sugar	1,169,333	(1)
Hawaii	1,282,563	96,938
Puerto Rico	1,140,000	162,000
Virgin Islands	15,000	0

[1] No limit.

* * * * *

3. Section 811.53 is amended by amending paragraph (c) to read as follows:

§ 811.53 Quotas for foreign countries.

* * * * *

(c) For the calendar year 1967, the prorations or allocations to individual foreign countries other than the Republic of the Philippines pursuant to section 202(c) (3) and (4), section 202(d) and paragraph (a) of section 204 of the Act are as follows:

Countries	Basic quotas	Temporary quotas and prorations pursuant to sec. 202(d) [1]	Deficit prorations and allocation	Total quotas and prorations
	(Short tons, raw value)			
Mexico	222,321	237,008	62,508	521,837
Dominican Republic	217,482	231,801	166,134	615,367
Brazil	217,482	231,793	61,184	510,359
Peru	173,458	184,864	48,781	407,073
British West Indies	86,858	73,460	22,802	182,820
Ecuador	31,627	33,725	8,895	74,257
French West Indies	27,223	23,108	7,078	57,509
Argentina	26,748	28,514	7,520	62,782
Costa Rica	25,597	27,292	7,196	60,087
Nicaragua	25,597	27,292	7,196	60,087
Colombia	23,009	24,528	6,469	54,006
Guatemala	21,571	23,000	6,065	50,636
Panama	16,106	17,170	4,528	37,804
El Salvador	15,819	16,867	4,448	37,134
Haiti	12,060	12,877	3,396	28,333
Venezuela	10,929	11,650	3,073	25,652
British Honduras	6,227	5,352	1,639	13,218
Bolivia	2,588	2,759	728	6,075
Honduras	2,588	2,744	726	6,058
Australia	102,529	87,000		190,529
Republic of China	43,141	36,250		79,391
India	41,416	34,800		76,216
South Africa	20,487	25,616		46,103
Fiji Islands	22,721	19,092		41,813
Thailand	9,491	7,975		17,466
Mauritius	9,491	7,975		17,466
Malagasy Republic	4,889	4,108		8,997
Swaziland	3,739	3,142		6,881
Ireland	3,351	0		3,351
Total	1,439,655	1,441,782	430,000	3,311,437

[1] Proration of the quotas withheld from Cuba and Southern Rhodesia.

(Secs. 201, 202, 207 and 403; 61 Stat. 923, as amended, 924, as amended, 927, as amended, and 932, as amended; 7 U.S.C. 1111, 1112, 1117, and 1153)

Effective date. This action increases quotas for the calendar year 1967 by 100,000 tons. In order to promote orderly marketing, it is essential that all persons selling and purchasing sugar for consumption in the continental United States be able as soon as possible to make plans based on changes in the marketing opportunities. Therefore, it is hereby determined and found that compliance with the notice, procedure, and 30-day effective date requirements in 5 U.S.C. 553 is unnecessary, impracticable, and contrary to the public interest and this amendment shall become effective when filed for public inspection in the Office of the Federal Register.

Signed at Washington, D.C., this 30th day of June 1967.

ORVILLE L. FREEMAN,
Secretary.

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1446—PEANUTS

Subpart—General Regulations Governing 1967 and Subsequent Crop Peanut Warehouse Storage Loans and Sheller Purchases

GENERAL

Sec.
1446.1 General statement.
1446.2 Administration.
1446.3 Definitions.

WAREHOUSE STORAGE LOANS

1446.4 Availability of warehouse storage loans.
1446.5 Producer indebtedness.
1446.6 Eligible producer.
1446.7 Eligible peanuts.

SHELLER PURCHASES

1446.10 CCC purchases from shellers.
1446.11 Eligible sheller.
1446.12 Peanuts excluded from purchase.
1446.13 Ineligible peanuts.
1446.14 Period of offering—size of lots—grading.
1446.15 Determination of compliance.
1446.16 Delivery.
1446.17 Passage of title.
1446.18 Payment for peanuts.
1446.19 Records and books.
1446.20 Covenant against contingent fees.
1446.21 Setoff.
1446.22 Assignment.
1446.23 Buy American.
1446.24 Convict labor.
1446.25 Disputes.
1446.26 Officials not to benefit.
1446.27 Equal employment opportunity.

AUTHORITY: The provisions of this subpart issued under secs. 4 and 5, 62 Stat. 1070, as amended; 15 U.S.C. 714 b and c. Interpret or apply secs. 101, 401, 63 Stat. 1051, as amended, 7 U.S.C. 1441, 1421.

GENERAL

§ 1446.1 General statement.

(a) *Scope.* This subpart contains the regulations which set forth the terms and conditions under which (1) eligible producers acting collectively through specified cooperative marketing associations (referred to severally in this subpart as "the association") may obtain warehouse storage price support loans on their eligible 1967 and subsequent crop farmers stock peanuts, and (2) Commodity Credit Corporation will purchase 1967 and subsequent crop peanuts from eligible shellers: *Provided, however,* That CCC will make warehouse storage loans on, and purchases from shellers of, peanuts of a particular crop only if an annual supplement to this subpart providing for such loans or purchases, or both, is issued by CCC. Any such annual supplement will also specify support and purchase prices, the association through which producers may obtain price support, and other terms and conditions not contained in this subpart applicable to the warehouse storage loan and sheller purchase programs for peanuts of a particular crop.

(b) *Price support advances.* Eligible producers may obtain price support through the association specified in the applicable annual supplement for the Southeastern area, Southwestern area, and Virginia-Carolina area, respectively. Each association will make price support advances on eligible peanuts delivered to it by eligible producers at warehouses operating under peanut receiving and warehouse contracts with the association. CCC will make a loan (referred to in this subpart as a "warehouse storage loan") to the association. Such loan will be secured by the eligible peanuts upon which the association has made advances to eligible producers.

(c) *Purchases from shellers.* CCC will purchase farmers stock and shelled peanuts of a particular crop from shellers who participate in the price support program for the crop as provided in § 1446.11 and are parties to any peanut marketing agreement which is applicable to the crop and which is approved by the Secretary of Agriculture under the Agricultural Marketing Agreement Act of 1937, as amended.

(d) *Farm storage loans; purchases from producers.* Regulations containing the terms and conditions under which CCC may make farm storage loans directly to producers on, and purchases directly from, producers of farmers stock peanuts of any crop will be published separately in the FEDERAL REGISTER.

§ 1446.2 Administration.

(a) *Responsibility.* Under the general direction and supervision of the Executive Vice President, CCC, the Producer Associations Division, ASCS, will administer this subpart.

(b) *Limitation of authority.* County office managers, State and county ASC committees, and the associations do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements thereto.

(c) *Supervisory authority.* No delegation of authority in this subpart shall preclude the Executive Vice President, CCC, or his designee, from determining any questions arising under the regulations or from reversing or modifying any determination made pursuant to such delegation.

§ 1446.3 Definitions.

As used in this subpart, and in instructions and documents in connection herewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) *ASCS.* The Agricultural Stabilization and Conservation Service of the United States Department of Agriculture.

(b) *CCC.* The Commodity Credit Corporation, an agency and instrumentality of the United States within the Department of Agriculture.

(c) *County office.* The office of the ASC county committee where records for the farm are kept.

(d) *Effective farm allotment.* The effective farm peanut acreage allotment for the applicable crop of peanuts, as defined in the marketing quota regulations.

(e) *Farm.* A farm, as defined in the Regulations Governing Reconstitution of Farms, Allotments, and Bases, as amended, for the applicable crop of peanuts, Part 719 of this title, which in general define a farm as all adjoining or nearby farmland which is operated by one person.

(f) *Farmers stock peanuts.* Picked or threshed peanuts produced in the United States which have not been shelled, crushed, cleaned or otherwise changed (except for removal of foreign material, loose shelled kernels, and excess moisture) from the state in which picked or threshed peanuts are customarily marketed by producers.

(g) *Farm peanut acreage.* The farm peanut acreage for the applicable crop determined in accordance with the marketing quota regulations which, in general, define such acreage as the total acreage of peanuts on the farm which is picked or threshed.

(h) *Form MQ–94.* Inspection Certificate and Sales Memorandum for farmers stock peanuts.

(i) *Inspector.* A Federal or Federal-State inspector authorized or licensed by the Secretary, U.S. Department of Agriculture.

(j) *Lot.* That quantity of farmers stock or shelled peanuts for which one Form MQ–94 or other inspection certificate is issued.

(k) *Marketing quota regulations.* The Allotment and Marketing Quota Regulations for Peanuts as amended, issued by the Administrator, ASCS, and effective for the applicable crop, Part 729 of this title.

(l) *Marketing year.* The period beginning on August 1 of the year in which peanuts of the applicable crop are planted and ending on July 31 of the following year.

(m) *Net weight.* That weight of farmers stock or shelled peanuts obtained by multiplying the gross scale weight of peanuts by a percentage equal to 100 percent minus the sum of the percentages of (1) foreign material, and (2) moisture in excess of 7 percent in the Southwestern and Southeastern areas, and 8 percent in the Virginia-Carolina area.

(n) *Peanut receiving and warehouse contract.* Form CCC–1028 Identity Preserved (Segregation 1 and Segregation 2); Form CCC–1028–A (commingled); or Form CCC–1028–B Identity Preserved (Segregation 3).

(o) *Price support value.* The value of a lot of farmers stock peanuts computed on the basis of the weight, quality and type of such peanuts and the support price for such peanuts as shown on the Price Support Schedule for such type appearing in the applicable annual supplement to this subpart.

(p) *Segregation 1 peanuts.* Farmers stock peanuts with (1) at least 99 percent peanuts of one type, (2) not more than 2 percent damaged kernels, and (3) not more than 1 percent concealed damage caused by rancidity, mold or decay.

(q) *Sound mature kernels.* Kernels which are free from "damage" and

"minor defects," as defined in the U.S. Standards for the applicable type of peanuts effective on the date of the inspection, and which will not pass through screens with the following openings:

(1) 15/64 by ¾ inch in the case of Spanish and Valencia type peanuts.

(2) 15/64 by 1 inch screen in the case of Virginia type peanuts.

(3) 15/64 by ¾ inch in the case of Runner type peanuts.

(r) *Extra large kernels.* Shelled Virginia type peanuts which will not pass through a screen having 21.5/64- by 1-inch openings and which are "whole" and free from "minor defects" and "damage," as such terms are defined in the U.S. Standards for Shelled Virginia type peanuts effective on the date of inspection.

(s) *Type.* The generally known types of peanuts (i.e., Runner, Spanish, Valencia, and Virginia), as defined in the marketing quota regulations.

(t) *Valencia type peanuts suitable for cleaning and roasting.* Valencia type peanuts containing not more than 25 percent peanuts having shells damaged by (1) discoloration, (2) cracks or broken ends, or (3) both.

(u) *Within quota card.* Form MQ–76 (Peanuts), Peanut Within Quota Marketing card for the applicable crop issued pursuant to the marketing quota regulations.

WAREHOUSE STORAGE LOANS

§ 1446.4 Availability of warehouse storage loans.

(a) *Loans to associations.* CCC will make warehouse storage loans to the associations specified in § 1446.1 which contract with CCC to arrange for the storing and handling of eligible farmers stock peanuts, make advances to eligible producers on such peanuts, and use such peanuts as collateral for loans to be obtained from CCC. Such loans will mature on demand.

(b) *Areas.* Price support advances will be available in the following areas:

(1) The Southeastern area consisting of the States of Alabama, Georgia, Mississippi, Florida, and that part of South Carolina south and west of the Santee-Congaree-Broad Rivers.

(2) The Southwestern area consisting of the States of Arizona, Arkansas, California, Louisiana, New Mexico, Oklahoma, and Texas.

(3) The Virginia-Carolina area consisting of the States of Missouri, North Carolina, Tennessee, Virginia, and that part of South Carolina north and east of the Santee-Congaree-Broad Rivers.

(c) *Where available.* Price support advances will be available to eligible producers at warehouses which have entered into peanut receiving and warehouse contracts with the association. Such contracts will require the warehouses to inform producers that price support advances are available and to make advances to eligible producers on eligible peanuts tendered for price support as provided in paragraph (g) of this section. The names and locations of such warehouses may be obtained from the office of the appropriate association or from an ASCS State or county office. The associations shall pledge to CCC all eligible peanuts upon which they have made price support advances as security for loans obtained pursuant to agreements with CCC.

(d) *Time.* Price support advances to eligible producers on peanuts of any crop will be available from time of harvest through January 31 following the beginning of the marketing year on such crop, or such later date as may be established by the Executive Vice President, CCC. If the final date of availability falls on a nonworkday for the association, the applicable final date shall be the next workday.

(e) *Inspection.* The type and quality of each lot of farmers stock peanuts delivered to an association for a price support advance shall be determined by an inspector when such peanuts are received at a warehouse under contract with an association. The fee for such determination shall be paid by the association.

(f) *Producer agreement.* To obtain a price support advance, the producer shall, in writing, authorize the association to pledge peanuts delivered to the association to CCC as collateral for a warehouse storage loan, and relinquish any right to redeem or obtain possession of such peanuts.

(g) *Advance to producer.* For each lot of eligible peanuts received, the association will make a price support advance to the producer in an amount equal to the price support value of such peanuts, except that, in addition to the deductions specified in § 1446.5, (1) the association will deduct from such advances and pay over to the proper State authorities any assessments or excise taxes imposed by State law, and (2) the Southwestern Peanut Growers Association will, upon the prior agreement of the producer, deduct from such advance an amount approved by CCC, not to exceed 50 cents per net weight ton of peanuts upon which such advance was made, to be used in payment for its peanut activities outside the price support program.

(h) *Fraud of producer.* The making of any fraudulent representation by a producer in the loan documents or in obtaining a loan or advance shall render him subject to criminal prosecution under Federal law. The producer shall be personally liable to CCC, aside from any additional liability under criminal or civil frauds statutes, for the amount of such advance and for all costs which CCC would not have incurred except for the producer's fraudulent representation, together with interest upon such amounts at the rate of 6 percent per annum: *Provided,* That the producer shall be given credit for the proceeds received by CCC upon sale of the peanuts upon which such advance was made.

§ 1446.5 Producer indebtedness.

(a) *Facility and drying equipment loans.* If any installment or installments on any loan made by CCC on farm storage facilities or drying equipment are payable under the provisions of the note evidencing such loan out of any amount due the producer under this subpart, the amount due the producer, after deduction of amounts due prior lienholders, shall be applied to such installment(s).

(b) *Producers listed on county debt record.* If the producer is indebted to CCC or to any other agency of the United States and such indebtedness is listed on the county debt record, amounts due the producer under this subpart, after deduction of amounts due prior lienholders and on farm storage facilities or drying equipment, shall be applied to such indebtedness as provided in the Secretary's Setoff Regulations, Part 13 of this title.

(c) *Producer's right.* Compliance with the provisions of this section shall not deprive the producer of any right he would otherwise have to contest the justness of the indebtedness involved in the setoff action either by administrative appeal or by legal action.

§ 1446.6 Eligible producer.

(a) *Requirements.* An eligible producer is an individual, partnership, association, corporation, estate, trust, or other legal entity, and whenever applicable, a State, political subdivision of a State or any agency thereof, producing peanuts as a landowner, landlord, tenant, or sharecropper on a farm on which the farm peanut acreage, determined in accordance with the Determination of Acreage and Compliance Regulations for the applicable crop, Part 718 of this title, does not exceed the effective farm allotment established under the marketing quota regulations, or on a farm on which such acreage exceeds such allotment (1) if the producer establishes to the satisfaction of the ASC County Committee, as provided in paragraph (c) of this section, that he did not knowingly exceed such allotment, or (2) if a within quota marketing card is issued to the producer upon the execution of Form MQ–92, Peanuts, as provided in Part 729 of this title and paragraph (b) of this section. No producer on a farm in a certification county for which the farm operator fails timely to file a certification of crop or land use acreages as required by § 718.8b (c) of Part 718 of this title shall be eligible for price support, except as otherwise provided in paragraph (d)(2) of § 718.8b.

(b) *Agreement by operator of overplanted peanut farm.* If a producer has executed a Form MQ–92, Peanuts, Agreement by Operator of Overplanted Peanut Farm, and (1) the farm peanut acreage exceeded the effective farm allotment by not more than the larger of one-tenth acre or 2 percent of such allotment, payment of the liquidated damages specified in the agreement will not be required if the ASCS State Executive Director, or in his absence, the Acting Executive Director, determines that the breach of such agreement was unintentional and occurred despite a bona fide effort by the operator and other producers on the farm to comply with such agreement, or (2) the farm peanut acreage exceeded the effective farm allotment by more than the larger of one-tenth acre or 2

percent of such allotment, payment of the liquidated damages will not be required if the ASC State Committee makes the determination specified in subparagraph (1) of this paragraph and also determines that the amount by which the farm peanut acreage exceeded the effective farm allotment was so small in relation to such allotment that it did not materially impair CCC's price support operations.

(c) *Determination that producer unknowingly exceeded the effective farm allotment.* A producer on a farm on which the farm peanut acreage exceeds the effective farm allotment shall be considered not to have knowingly exceeded such allotment, if (1) the excess acreage is determined, in accordance with the marketing quota regulations, to be zero, (2) payment of the liquidated damages provided for as the result of a breach of the terms of Form MQ-92—Peanuts is not required under paragraph (b) of this section, (3) an erroneous notice of measured acreage was issued to the producer and the farm peanut acreage is deemed to be equal to the effective farm allotment under the Determination of Acreage and Compliance Regulations, Part 718 of this title, (4) in certification counties on farms with an effective allotment of more than 1 acre, such excess is not more than the larger of 0.5 acre or 5 percent of the allotment, not to exceed 10 acres, or (5) the producer exceeded the effective farm allotment under circumstances which are not provided for under subparagraphs (1), (2), (3), and (4) of this paragraph and the ASC County Committee determines that the producer unknowingly exceeded such allotment.

(d) *Estates and trusts.* A receiver of an insolvent debtor's estate, an executor or an administrator of a deceased person's estate, a guardian of an estate or of a ward or incompetent person, and trustees of a trust estate shall be considered to represent the insolvent debtor, the deceased person, the ward or incompetent, and the beneficiaries of a trust, respectively, and the production of the receiver, executor, administrator, guardian or trustees shall be considered to be the production of the person he represents. Loan documents executed by any such person shall be accepted by CCC only if they are legally valid and such person has the authority to sign the applicable documents.

(e) *Eligibility of minors.* A minor who is otherwise an eligible producer shall be eligible for price support only if he meets one of the following requirements: (1) The right of majority has been conferred on him by court proceedings or by statute; (2) a guardian has been appointed to manage his property and the applicable price support documents are signed by the guardian; or (3) a bond is furnished under which a surety guarantees to protect CCC from any loss incurred for which the minor would be liable had he been an adult.

§ 1446.7 Eligible peanuts.

(a) *Eligible peanuts.* Peanuts eligible for price support advances shall be farmers stock peanuts of the applicable crop which were produced in the United States by an eligible producer, and

(1) Which contain not more than 10 percent moisture, and which if they have been mechanically dried, contain at least 6 percent moisture;

(2) Which contain not more than 10 percent foreign material;

(3) Which were not produced in violation of a restrictive lease on federally owned land, or on land owned by the Federal Government which was occupied by the producer without lease, permit, or other right of possession;

(4) Which are free and clear of all liens and encumbrances, including landlord's lien, or if liens or encumbrances exist on the peanuts, acceptable waivers are obtained; and

(5) In which the beneficial interest is in the producer who delivers them to the association and has always been in him or in him and a former producer whom he succeeded before they were harvested. To meet the requirements of succession to a former producer, the rights, responsibilities, and interest of the former producer with respect to the farm on which the peanuts were produced shall have been substantially assumed by the person claiming succession. Mere purchase of a crop prior to harvest, without acquisition of any additional interest in the farm on which the peanuts were produced, shall not constitute succession. Any producer in doubt as to whether his interest in the peanuts complies with the requirements of this section should, before applying for price support, make available to the ASC County Committee all pertinent information which will permit a determination with respect to succession to be made by CCC.

(6) Which are, if delivered to the association in bags in the Southwestern area, in new or thoroughly cleaned used bags which are made of material, other than mesh or net, weighing not less than 7½ ounces nor more than 10 ounces per square yard and containing no sisal fibers, are free from holes and are finished at the top with either the selvage edge of the material, binding or a hem. Such bags shall be of uniform size approximately 2 bushel capacity.

Sheller Purchases

§ 1446.10 CCC purchases from shellers.

Sections 1446.10 through 1446.27 of this subpart contain the terms and conditions under which CCC will purchase farmers stock and shelled peanuts from eligible shellers. Such shellers may offer peanuts to CCC through the appropriate associations listed in the applicable annual supplement.

§ 1446.11 Eligible sheller.

To be eligible to sell peanuts to CCC under this subpart the sheller shall:

(a) File with the appropriate association, not later than the date specified in the annual supplement, or such later date as may be approved by CCC, his notice of participation (the form of which will be furnished by the association), which includes the equal employment opportunity representation required by the regulations under Executive Order 11246.

(b) Execute and comply with any peanut marketing agreement approved by the Secretary of Agriculture relating to the applicable crop of peanuts.

(c) Cooperate with the association and CCC in making price support available to peanut producers by: (1) Informing each producer, upon request, of the price support value of his peanuts, (2) paying producers not less than the price support value for each lot of farmers stock peanuts purchased, and (3) if requested by the association, making price support advances available to producers by entering into peanut receiving and warehouse contract(s) with the association unless all his storage space is needed in his normal milling operations and other storage space is not available to him in his area at reasonable cost.

(d) Provide that the type and quality of each lot of farmers stock peanuts received by the sheller through purchase, loan or otherwise be determined by an inspector. The type and quality shall be shown on Form MQ-94 and be determined in accordance with procedures of the Consumer and Marketing Service, U.S. Department of Agriculture.

(e) Furnish CCC an assurance, in his notice of participation, that his cooperation with and participation in the peanut price support program for the applicable crop will be conducted, and his facilities operated, in compliance with all requirements imposed by or pursuant to the regulations governing nondiscrimination in federally assisted programs of the Department of Agriculture, Part 15 of this title, which effectuate Title VI of the Civil Rights Act of 1964.

§ 1446.12 Peanuts excluded from purchase.

CCC will not purchase from a sheller (a) any loose shelled kernels, sheller oilstock or pickouts which the sheller is obligated under the marketing agreement to identify separately and to dispose of in accordance with limitations imposed in the marketing agreement, (b) any peanuts which are eligible for indemnification, or which would be eligible for indemnification if sold commercially, under any peanut marketing agreement approved by the Secretary of Agriculture, (c) any shelled peanuts which have been blanched (for the purposes of this section, blanched peanuts are whole peanut kernels with 50 percent or more of their skins removed), or (d) a quantity of peanuts (farmers stock equivalent as determined by CCC) of any crop which exceeds 90 percent of the quantity of Segregation 1 farmers stock peanuts of that crop purchased by the sheller for which producers received not less than their price support value, exclusive of any farmers stock peanuts purchased from CCC or an association for the restricted uses of crushing or export.

§ 1446.13 Ineligible peanuts.

(a) *Rejection or sale.* (1) CCC may refuse to accept delivery of, or may reject to the sheller, any lot of peanuts or any portion thereof which (i) fails to meet all of the applicable quality requirements of the subpart and the applicable annual supplement, (ii) was offered or delivered by a sheller who was not an eligible sheller, or (iii) was excluded from purchase under § 1446.12. With respect to any peanuts rejected, the sheller shall reimburse CCC for any transportation, storage or handling charges incurred thereon by CCC.

(2) If CCC has sold any lot of peanuts described in subparagraph (1) of this paragraph (a), the price paid the sheller shall be adjusted downward by CCC, in the case of peanuts described in subparagraph (1) (i) of this paragraph, to reflect their reduced value due to the quality deficiencies, as determined by CCC, or in the case of peanuts described in subparagraph (1) (ii) and (iii) of this paragraph, to the final sales price of such peanuts received by CCC. The sheller shall, promptly upon demand by CCC, refund to CCC the amount by which the price originally paid the sheller for the peanuts by CCC exceeds the price therefor provided in this subparagraph.

(3) If CCC finds that a sheller has offered or delivered to CCC from any crop any lot of peanuts, or part thereof, which the sheller knew did not meet all of the quality requirements of this subpart and the applicable annual supplement, CCC may thereafter terminate its obligation to purchase additional peanuts from that crop from such sheller.

(b) *Liquidated damages.* (1) CCC will incur administrative costs in connection with any peanuts described in subdivision (i), (ii), and (iii) of subparagraph (1), paragraph (a) of this section, as well as damages to its program of orderly disposition of surplus peanuts, the amount of which would be difficult to ascertain exactly. The sheller shall, therefore, in addition to any other payment or price adjustment provided for in this section, pay to CCC as liquidated damages and not as a penalty, one cent ($0.01) per net pound of such peanuts either rejected to the sheller or sold by CCC.

(2) The sheller agrees that the amount of liquidated damages specified is a reasonable estimate of the administrative costs and program damages which CCC may incur because of sale to it of such peanuts.

(c) *Other rights of the Government.* Nothing contained in this section shall be construed as waiving any other rights which CCC or the United States may have in the event of any unlawful or fraudulent act on the part of a sheller.

§ 1446.14 Period of offering—size of lots—grading.

(a) *Offers of peanuts.* Written offers to sell peanuts to CCC, on the form prescribed by CCC, may be filed with the association from time of harvest through the dates specified in the applicable annual supplement. Copies of the offer form may be obtained from the association.

(b) *Time of offer and acceptance.* The date the offer is received by the association shall be deemed to be the date of the offer. If peanuts (other than farmers stock peanuts) are inspected before they are offered to CCC, the offer must be received by the association within 9 days after the date of the inspection certificate, except that when the 9th day following the date of the inspection certificate is a Saturday, Sunday, or a holiday, receipt of the offer by the association on the next regular working day will be considered timely. Offers will be accepted by CCC as soon as possible after receipt thereof.

(c) *Contract.* The sheller's offer, the acceptance, and the terms and conditions of §§ 1446.10–1446.27 and of the applicable annual supplement shall constitute the sales contract between the sheller and CCC with respect to the lot(s) of peanuts covered by the acceptance.

(d) *Size of lot.* Unless otherwise specified by CCC or the association, shelled peanuts offered by shellers shall consist of lots of approximately 40,000 pounds.

(e) *Inspection.* The type and grade of peanuts delivered to CCC shall be determined by an inspector, whose certificate shall be used for determining quality and net weight. Shelled peanuts which are not inspected before being offered to CCC shall be inspected at the time of delivery to CCC. If shelled peanuts have been inspected before being offered to CCC, the sheller may, at his expense, obtain from an inspector a certificate showing the percentage of moisture in the peanuts at the time of delivery, and such percentage shall be used in determining the net weight of peanuts delivered to CCC.

The sheller shall pay the cost of all inspections under this paragraph. Nothing in this subpart shall preclude the sheller or CCC from applying for an appeal inspection under the regulations governing inspection of fresh fruits, vegetables and other products, Part 51.1–51.67 of this title.

(f) *Identification.* Each bag of shelled peanuts purchased by CCC shall be positively identified with a tag or seal affixed in accordance with instructions issued by the Federal or Federal-State Inspection Service.

(g) *Weight.* The gross weight of the peanuts delivered to CCC shall be determined at the time of delivery in a manner satisfactory to CCC.

§ 1446.15 Determination of compliance.

Authorized representatives of CCC or the association may enter and remain in the sheller's mill(s) and storage and other facilities to the extent deemed necessary by them to determine that the sheller is complying with all of the terms and conditions of this subpart.

§ 1446.16 Delivery.

(a) *Place of delivery.* The sheller shall arrange with the association in his area for the delivery of lots of peanuts accepted by CCC. The sheller shall deliver all peanuts sold to CCC either f.o.b. cars or trucks (CCC's option) at sheller's mill or storage facility as CCC may direct, or the sheller may deliver such peanuts in store at a cold storage warehouse if such delivery is approved by CCC. The sheller shall deliver a quantity of peanuts which is not less than 95 percent or more than 105 percent of the quantity specified in the sheller's offer which is accepted by CCC. Unless otherwise approved by CCC, all peanuts delivered to CCC on or after April 1 shall be fumigated at the time of delivery at the sheller's expense and in accordance with instructions issued by CCC. All deliveries of peanuts to CCC shall be made in accordance with shipping instructions issued by the association.

(b) *Bags.* The sheller shall deliver all shelled peanuts to CCC in bags of uniform size which are packed in accordance with instructions issued by the association. Unless otherwise approved by CCC, such bags shall be made of new burlap of not less than 10-ounce weight material, except that all U.S. grade shelled peanuts shall be delivered in bags made of new burlap of not less than 12-ounce weight material.

§ 1446.17 Passage of title.

Title and risk of loss or damage to the peanuts purchased by CCC shall pass to CCC upon delivery. Title and risk of loss or damage to peanuts rejected to the sheller in accordance with § 1446.11 shall revert to the sheller at the time of delivery of rejection as of the date of CCC's notice of rejection.

§ 1446.18 Payment for peanuts.

(a) *Purchase price.* Payment for peanuts purchased by CCC shall be made on the basis of the net weight determined at time of delivery. For purposes of calculating the price of shelled peanuts, the percentage of each grade factor shall be rounded to the nearest tenth of a percent; fractions of five-hundredths or less shall be dropped.

(b) *Invoice.* Payment for peanuts delivered to CCC by the sheller shall be made after presentation to the association of an invoice accompanied by a copy of the offer form and the inspection certificate applicable to the peanuts.

§ 1446.19 Records and books.

(a) The sheller shall keep complete and accurate records with respect to all his transactions relating to peanuts of each crop with respect to which he participates in the program, including but not limited to: (1) With respect to each lot of farmers stock or shelled peanuts purchased, the date and place received and the name and address of the seller, the type and grade or quality as determined by an inspector, the weight and price paid, and (2) with respect to each lot of peanuts sold, the date of sale, the name and address of the purchaser, the type and grade or quality as determined by an inspector, and weight of peanuts involved in each sale. The sheller shall keep such records for a period of 3 years after the final delivery of peanuts to CCC pursuant to this subpart and make them available upon request to representatives of the association, the General Accounting Office or CCC for examination and audit. The sheller shall obtain and furnish to CCC a statement from any person (other than

a producer, the association, or another sheller participating in this program) from whom the sheller purchases farmers stock peanuts of any crop with respect to which he participates in the program to the effect that such person will keep until December 31 of the third year following the date of purchase by the sheller, and make available to representatives of CCC, the General Accounting Office or the appropriate association, records which will readily disclose the quality and price paid to producers for each lot of such peanuts.

(b) For peanuts of any crop with respect to which he participated in the program, the sheller shall, upon request by CCC, furnish CCC a written report summarizing, by type, quality and quantity, all purchases of farmers stock peanuts and all sales of shelled and cleaned in-shell peanuts.

§ 1446.20 Covenant against contingent fees.

Sheller warrants that no person or selling agency has been or will be employed or retained to solicit or secure any contract entered into pursuant to this subpart upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by sheller for the purpose of securing business. For breach or violation of this warranty, CCC shall have the right to annul its agreement to purchase peanuts without liability or in its discretion to deduct from the contract price for peanuts, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fee.

§ 1446.21 Setoff.

If the sheller is indebted to CCC or any other agency of the United States, the amount of such indebtedness may be set off against any amount due the sheller under this subpart in accordance with the CCC Setoff and Withholding Regulations, 30 F.R. 8094, as amended.

§ 1446.22 Assignment.

No assignment shall be made by the sheller of any contract entered into pursuant to this subpart or any rights thereunder, except that the sheller may assign the proceeds of such contract to any bank, trust company, Federal lending agency, or other financial institution and, subject to the approval of CCC, assignment may be made to any other person: *Provided*, That such assignment shall be recognized only if and when the assignee files with CCC written notice of the assignment, together with a signed copy of the instrument of the assignment, in accordance with the instructions on Form CCC–251, "Notice of Assignment," which form must be used in giving notice of assignment to CCC: *Provided further*, That such assignment shall cover all amounts payable and not already paid under such contract, shall not be made to more than one person and shall not be subject to further assignment, except that such assignment may be made to one person as agent or trustee for two or more persons. The "Instrument of Assignment" may be executed on Form CCC–252, or the assignee may use his own form of assignment. Forms may be obtained from the Producer Associations Division, ASCS.

§ 1446.23 Buy American.

The sheller warrants he will deliver to CCC only peanuts which have been produced in the United States.

§ 1446.24 Convict labor.

The sheller, in the performance of any contract entered into pursuant to this subpart, agrees not to employ any person undergoing sentence of imprisonment at hard labor.

§ 1446.25 Disputes.

(a) *Questions of fact.* Except as may otherwise be provided in this subpart, any dispute concerning a question of fact rising out of any sales contract entered into pursuant to this subpart, which is not disposed of by agreement shall be decided by the Director or Acting Director, Producer Associations Division, ASCS, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the sheller. Such decision shall be final and conclusive unless within 30 days from the date of receipt of such copy, the sheller mails or otherwise furnishes a written appeal addressed to the Contract Disputes Board, CCC. The decision of such Board shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this section, the sheller shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, if performance under any such sales contract has not been completed by the sheller or terminated by CCC, the sheller shall proceed diligently with the performance of the contract and in accordance with the decision of the Director or Acting Director, Producer Associations Division, ASCS.

(b) *Questions of law.* This "disputes" section does not preclude consideration of questions of law in connection with decisions provided for in paragraph (a) of this section: *Provided*, That nothing herein shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

§ 1446.26 Officials not to benefit.

No member of or delegate to the Congress of the United States, or Resident Commissioner, shall be admitted to any share or part of any sales contract entered into pursuant to this subpart or to any benefit that may arise therefrom, but this provision shall not be construed to extend to such contract if made with a corporation for its general benefit, and shall not extend to any benefits that may accrue from such contract to a member of or delegate to Congress or a Resident Commissioner in his capacity as a farmer.

§ 1446.27 Equal employment opportunity.

During the period between the date the sheller files his notice of participation pursuant to § 1446.11 and the date on which he completes delivery of the final lot of peanuts of the applicable crop sold to CCC pursuant to this subpart, the sheller agrees as follows:

(a) *Nondiscrimination.* The sheller will not discriminate against any employee or applicant for employment because of race, creed, color, or national origin. The sheller will take affirmative action to insure that applicants are employed and that employees are treated during employment without regard to their race, creed, color, or national origin. Such action shall include, but not be limited to, the following: Employment upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The sheller agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Association setting forth the provisions of this nondiscrimination clause.

(b) *Advertisements.* The sheller, will, in all solicitations or advertisements for employees placed by or on behalf of the sheller, state that all qualified applicants will receive consideration for employment without regard to race, creed, color, or national origin.

(c) *Notice to labor union.* The sheller will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the said labor union or workers' representative of the sheller's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(d) *Executive Order No. 11246.* The sheller will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations and relevant orders of the Secretary of Labor.

(e) *Information and reports.* The sheller will furnish all information and reports required by Executive Order No. 10925 of March 6, 1961, as amended, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and order.

(f) *Noncompliance.* In the event of the sheller's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the sheller may be declared ineligible for further government contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in the said Executive Order or by rule, regulations, or order of the Secretary of Labor, or as otherwise provided by law.

(g) *Subcontracts.* The sheller will include the provisions of paragraphs (a) through (g) of this section in every subcontract or purchase order, unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The sheller will take such action with respect to any subcontract or purchase order as the contracting agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: *Provided, however*, That in the event the sheller becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the contracting agency, the sheller may request the United States to enter into such litigation to protect the interests of the United States.

The reporting and recordkeeping requirements contained in this subpart have been approved by, and subsequent reporting requirements will be subject to approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Effective date: This subpart shall be effective on the date of its publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on June 30, 1967.

E. A. JAENKE,
Acting Executive Vice President, Commodity Credit Corporation.

[F.R. Doc. 67–7647; Filed, July 6, 1967; 8:51 a.m.]

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

[Docket No. R–339; Order 353]

[General Policy 61–1, Amdt. 11]

PART 2—GENERAL POLICY AND INTERPRETATIONS

Independent Producers of Natural Gas; Antitriggering Conditions in Certificates of Public Convenience and Necessity

JUNE 30, 1967.

The 10th amendment to the Commission's statement of general policy No. 61–1[1] provided that all permanent certificates issued with respect to applications filed after April 15, 1965, would contain substantially the following condition:

No increase in rate shall be filed prior to _____ at any price which would exceed the ceiling prescribed for the given area by paragraph (d) of the Commission's statement of general policy No. 61–1, as amended.

The moratorium period in the above condition extended to January 1, 1968, for all areas except the south Louisiana and Oklahoma areas where a July 1, 1967, date had previously been established.

In view of the pending expiration of these moratoria periods, we think it appropriate for the same reasons set forth in the 10th amendment to revise paragraph (d) of the Commission's statement of general policy No. 61–1 to preclude any rate increase filing above the antitriggering levels set forth therein until January 1, 1970, in all permanent certificates issued with regard to applications filed on or after July 1, 1967. Applications filed prior to July 1, 1967, will remain subject to the provisions of the 10th amendment (§ 2.56(d) (1), (2)).

Any applicant wishing to demonstrate that the price specified in the policy statement is not a triggering rate or otherwise wishing to contest the propriety of the condition will be permitted to do so, upon filing a timely request. In such situation, the application will be set for formal hearing and, if the producer wishes to commence operation pending such hearing, he must comply with the provisions of § 157.28 of the regulation under the Natural Gas Act governing temporary authorizations.

The Commission finds: In view of the fact that this statement of policy does not prescribe any course of action on the part of any person but merely sets forth the Commission's contemplated course of action, notice under section 4 of the Administrative Procedure Act (5 U.S.C. 553) is not required and the Statement may be made effective upon issuance.

The Commission, acting pursuant to authority granted by the Natural Gas Act, as amended, particularly sections 4, 5, 7, and 16 thereof (52 Stat. 822, 823, 824, 830, 15 U.S.C. 717c; 717d, 717f, 7170), orders:

(A) Effective upon the issuance of this order, § 2.56, Part 2, Statements of General Policy and Interpretations, Chapter I of Title 18 of the Code of Federal Regulations, is amended by adding thereto two new subparagraphs (3) and (4) to paragraph (d), as follows:

§ 2.56 Area price levels for natural gas sales by independent producers.

* * * * *

(d) * * *

(3) All permanent certificates of public convenience and necessity granting applications filed on or after July 1, 1967, will contain a condition, substantially in the language set out in subparagraph (4) of this paragraph, precluding any filing of an increased rate at a price in excess of those designated in the table referred to in subparagraph (1) of this paragraph, prior to January 1, 1970, unless at the time of filing such certificate application, or within the time fixed in the notice of application for filing protests or petitions to intervene, the applicant indicates in writing that it is unwilling to accept such a condition in which event the application will be set for formal hearing to determine, inter alia, whether any grant of certificate shall be so conditioned.

(4) Standard anti-triggering condition: "No increase in rate shall be filed prior to January 1, 1970, at any price which would exceed the ceiling prescribed for the given area by paragraph (d)(3) of the Commission's statement of general policy No. 61–1, as amended."

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] GORDON M. GRANT,
Secretary.

[F.R. Doc. 67–7774; Filed, July 6, 1967; 8:46 a.m.]

Title 12—BANKS AND BANKING

Chapter V—Federal Home Loan Bank Board

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 20,702]

PART 545—OPERATIONS

Loans in Excess of 80 Percent of Value

JUNE 29, 1967.

Resolved that, notice and public procedure having been duly afforded (32 F.R. 2989) and all relevant material presented or available having been considered by it, the Federal Home Loan Bank Board, upon the basis of such consideration and of determination by it of the advisability of amending § 545.6–1 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.6–1) relating to loans, and for the purpose of effecting such amendment, hereby amends § 545.6–1 aforesaid, by revising subparagraph (4) of paragraph (a) of said section to read as follows, effective July 7, 1967:

§ 545.6–1 Lending powers under sections 13 and 14 of Charter K.

* * * * *

(a) *Homes or combination of homes and business property.*

* * * * *

(4) *Loans in excess of 80 percent of value.* The limitation of 80 percent set forth in subdivision (i) of subparagraph (1) of this paragraph shall be 90 percent in the case of any loan which is made in an amount not in excess of $21,500 and with respect to which the following requirements are met:

(i) The association, at the time it makes or invests its funds in the loan,

[1] Promulgated by order No. 296, Docket No. R–373, issued Apr. 5, 1965 (33 FPC 662, 30 F.R. 4670).

has general reserves, surplus, and undivided profits equal to at least 3 percent of the association's assets;

(ii) The loan is made upon the security of a first lien upon real estate upon which there is located only a structure designed for residential use for one family or a structure designed for residential use for one family and structures ancillary to such residential use. The amount by which such a loan exceeds 80 percent of the value of the improved real estate shall not be disbursed until construction has been completed, and, if such structure is being constructed for sale, until the property has been sold and title has been conveyed to a purchaser who has executed an agreement with the association assuming and agreeing to pay the loan;

(iii) The principal obligation of the loan is specified in the instrument securing the loan and does not exceed (*a*) $31,500 or (*b*) 90 percent of the value of the real estate or, if the loan is made to finance the purchase of the real estate, 90 percent of the purchase price set forth in the certification specified in subdivision (vii) of this subparagraph, whichever is less;

(iv) The loan contract requires that, in addition to interest and principal payments on the loan, the equivalent of one-twelfth of the estimated annual taxes, assessments, and insurance premiums on the real estate security be paid monthly in advance to the association;

(v) The borrower, including a purchaser who assumes the loan, has executed a certification in writing stating (*a*) that no lien or charge upon such property, other than the lien of the association or liens or charges which will be discharged from the proceeds of the loan, has been given or executed by the borrower or has been contracted or agreed to be so given or executed, and (*b*) that the borrower is actually occupying the property as a dwelling or that the borrower in good faith intends to do so;

(vi) If the loan is sought or assumed for the purpose of enabling a purchaser to acquire the security property, the vendor or vendors have executed a certification in writing stating that no lien or charge upon such property, other than the lien of the association or liens or charges which will be discharged from the proceeds of the loan, has been given or executed to the vendor or vendors by the purchaser or has been contracted or agreed to be so given or executed;

(vii) If the loan is sought or assumed for the purpose of enabling a purchaser to acquire the security property, the purchaser and the vendor or vendors have jointly executed a certification in writing stating the purchase price of the security property and the items comprising such price;

(viii) The association has made or obtained, prior to approval of the loan, a written report on the credit standing of the borrower and the financial ability of such borrower to undertake and pay off the obligation involved in the loan;

(ix) The resulting aggregate of the principal amount of such loan and of the association's investment in the principal amount of all other loans made under this subparagraph, exclusive of any such loan with respect to which the unpaid principal balance has been reduced to an amount not in excess of 80 percent of the value of the property according to the appraisal on which such loan was made (or 80 percent of the purchase price set forth in the certification specified in subdivision (vii) of this subparagraph, if such purchase price is less than such value), does not, at the time the association makes or invests, its funds in such loan, exceed 20 percent of the association's assets; and

(x) In the case of a loan purchased by a Federal association from other than a Federal association, each certification required by subdivisions (v), (vi), and (vii) of this subparagraph (4) shall contain a statement that the certification is made for the purpose of inducing a Federal savings and loan association to purchase the loan.

* * * * *

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1947 Supp.)

By the Federal Home Loan Bank Board.

[SEAL] HARRY W. CAULSEN,
Secretary.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

SUBCHAPTER E—AIRSPACE

[Airspace Docket No. 66-WE-87]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On April 15, 1967, a notice of proposed rule making was published in the FEDERAL REGISTER (32 F.R. 6060) stating that the Federal Aviation Administration was considering amendments to Part 71 of the Federal Aviation Regulations that would alter the controlled airspace in the vicinity of Crescent City, Calif.

Interested persons were afforded an opportunity to participate in the proposed rule through the submission of comments. The only comment received was from the Air Transport Association and they interposed no objection.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., September 14, 1967, as hereinafter set forth.

1. In § 71.171 (32 F.R. 2071) the Crescent City, Calif., control zone is amended to read:

CRESCENT CITY, CALIF.

Within a 5-mile radius of Jack McNamara Field Crescent City (latitude 41°46'50" N., longitude 124°14'00" W.), within 2 miles each side of the Crescent City VORTAC 325° radial, extending from the 5-mile radius zone to 8 miles northwest of the VORTAC and within 2 miles each side of the Crescent City VORTAC 180° radial extending from the 5-mile radius zone to 7 miles south of the VORTAC. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

2. In § 71.181 (32 F.R. 2148) the Crescent City, Calif., transition area is amended to read:

CRESCENT CITY, CALIF.

That airspace extending upward from 1,200 feet above the surface within 10 miles east and 7 miles west of the Crescent City VORTAC 180° and 360° radials, extending from 8 miles north to 20 miles south of the VORTAC; within 5 miles each side of the Crescent City VORTAC 234° radial, extending from the VORTAC to 12 miles southwest of the VORTAC; that airspace north of Crescent City bounded on the east by the east edge of V-27; on the north and northwest by the arc of 16.5-mile radius of Crescent City VORTAC, bounded on the southwest by a line 8 miles southwest of and parallel to the Crescent City VORTAC 325° radial and bounded on the south by latitude 41°46'00" N.

(Secs. 307(a), 1110, Federal Aviation Act of 1958; 49 U.S.C. 1348, 1510; E.O. 10854 (24 F.R. 9565))

Issued in Washington, D.C., on June 29, 1967.

T. MCCORMACK,
Acting Chief, Airspace and Air Traffic Rules Division.

[F.R. Doc. 67-7804; Filed, July 6, 1967; 8:48 a.m.]

[Airspace Docket No. 67-SO-62]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zones

On June 17, 1967, Federal Register Docket No. 67-6830 was published in the FEDERAL REGISTER (32 F.R. 8708 and 8709), amending Part 71 of the Federal Aviation Regulations by altering the Albany, Ga. (Municipal Airport), and the Albany, Ga. (Turner AFB), control zones.

In the amendment the effective period of the Albany, Ga. (Turner AFB), control zone was reduced from a full time basis to 0800 to 1700 hours, local time, Monday through Friday until July 1, 1967, and thereafter unless it is changed by a Notice to Airmen.

Subsequent to publication of the rule, it was determined there is an aeronautical requirement that the effective period of this control zone exceed the 0800 to 1700 hours, local time, for June 30, 1967. The effective period of the control zone for June 30, 1967, will be published by a Notice to Airmen prior to that date.

Since this amendment will impose no additional burden on the public and is required for reasons of safety, notice and public procedures hereon are unnecessary.

In consideration of the foregoing, effective immediately, Federal Register Docket No. 67-6830 is amended as follows: On line ten of the Albany, Ga. (Turner AFB) control zone description "* * * July 1, 1967 * * *" is deleted and "* * * June 30, 1967 * * *" is substituted therefor.

(Sec. 307(a), the Federal Aviation Act of 1958; 49 U.S.C. 1348(a))

Issued in East Point, Ga., on June 28, 1967.

JAMES G. ROGERS,
Director, Southern Region.

[F.R. Doc. 67-7805; Filed, July 6, 1967; 8:49 a.m.]

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Reg. Docket No. 8241; Amdt. 548]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to the standard instrument approach procedures contained herein are adopted to become effective when indicated in order to promote safety. The amended procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the complete procedure is republished in this amendment indicating the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 97 (14 CFR Part 97) is amended as follows:

1. By amending the following automatic direction finding procedures prescribed in § 97.11(b) to read:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, miles an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots

2. By amending the following very high frequency omnirange (VOR) procedures prescribed in § 97.11(c) to read:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less: 65 knots or less	2-engine or less: More than 65 knots	More than 2-engine, more than 65 knots

%When weather is below 800–1 aircraft departing northbound, flight below 2100′ is prohibited between radials 300° clockwise to 030° inclusive of the TVF VOR due to 1613′ tower, 3 miles N of the airport.
MSA within 25 miles of facility: 000°–360°—2700′.

City, Thief River Falls; State, Minn.; Airport name, Municipal; Elev., 1116′; Fac. Class., L-BVOR; Ident., TVF; Procedure No. VOR Runway 31, Amdt. 2; Eff. date, 29 July 67; Sup. Amdt. No. TwVOR-31, Amdt. 1; Dated, 23 July 66

3. By amending the following very high frequency omnirange—distance measuring equipment (VOR/DME) procedures prescribed in § 97.15 to read:

VOR/DME STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
VRB VORTAC	7-mile DME Fix (final)	Via R 150°	1000	T-dnf	800-1	800-1	800-1¼
				C-dnf	800-1	800-1	800-1⅓
				S-d-14f	400-1	400-1	400-1
				A-dn%#	NA	NA	NA

Procedure turn W side of crs, 330° Outbnd, 150° Inbnd, 1500′ within 10 miles.
Minimum altitude over facility on final approach crs, 1800′; over 7-mile DME Fix, 1000′; over 16.5-mile DME Fix, 800′.
Crs and distance, facility to airport, 150°—12.5 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 0 mile after passing 12.5-mile DME Fix, right-climbing turn to 1500′ and return to VRB VORTAC via R 163°.
NOTES: (1) Use VRB FSS altimeter setting. (2) Close IFR flight plan with VRB FSS immediately after landing or reaching VFR conditions.
fNight takeoffs and landings authorized on Runways 9 and 27 only.
%Weather service not available.
MSA within 25 miles of facility: 000°–360°—1600′.

City, Fort Pierce; State, Fla.; Airport name, St. Lucie County; Elev., 24′; Fac. Class., H-BVORTAC; Ident., VRB; Procedure No. VOR/DME Runway 14, Amdt. 1; Eff. date, 29 July 67; Sup. Amdt. No. VOR/DME No. 1, Orig.; Dated, 6 Jan. 66

5. By amending the following radar procedures prescribed in § 97.19 to read:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
					Surveillance		
000°	350°	Within: 40 miles	5000	T–dn	300–1	300–1	300–1/4
000°	340°	30 miles	4000	C–dn	600–1	600–1	600–1 1/4
000°	340°	25 miles	3000	S–dn	NA	NA	NA
000°	360°	25 miles	4000	A–dn	800–2	800–2	800–2
340°	360°	10 miles	2500				
000°	340°						

Approach from the E:
Minimum altitude over 5-mile Radar Fix (AGC ILS OM), 3000′.
Crs and distance, 5-mile Radar Fix to airport, 275°—5 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished, climb to 3000′ direct to AGC RBn. Hold W right turns, 1 minute, 062° Inbnd.
Approach from the SW:
Minimum altitude over 5-mile Radar Fix (AGC VOR), 3000′.
Crs and distance, 5-mile Radar Fix to airport, 052°—6 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished, climb to 3000′, proceed to MKP RBn. Hold E, 1-minute left turns, 270° Inbnd.

City, Pittsburgh; State, Pa.; Airport name, Allegheny County; Elev., 1252′; Fac. Class. and Ident., Pittsburgh Radar; Procedure No. 1, Amdt. Orig.; Eff. date, 29 July 67

These procedures shall become effective on the dates specified therein.

(Secs. 307(c), 313(a), and 601, Federal Aviation Act of 1958 (49 U.S.C. 1348(c), 1354(a), 1421; 72 Stat. 749, 753, 756))

Issued in Washington, D.C., on June 21, 1967.

EDWARD C. HODSON,
Acting Director, Flight Standards Service.

[F.R. Doc. 67–7365; Filed, July 6, 1967; 8:45 a.m.]

Chapter III—National Transportation Safety Board

SUBCHAPTER A—ORGANIZATION

[NTSB Reg. OR–1]

PART 401—PUBLIC AVAILABILITY OF INFORMATION

Adopted by the National Transportation Safety Board at its office in Washington, D.C., on the 3d day of July 1967.

Part 401 of the National Transportation Safety Board's Organizational Rules is intended to comply with the requirements of the Freedom of Information Act of 1966 (Public Law 89–487, enacted July 4, 1966, effective July 4, 1967) which amended section 3 of the Administrative Procedure Act. The part initially sets forth the Board's policy with reference to the disclosure of information to the public and describes the information which will be made available to the public. With respect to such information, it states where and when matters can be inspected by the public, the identity of the custodian of the records, the procedures to be followed by the public in identifying the information sought, the fees to be paid for copies and certain services of Board employees, and the procedure to be followed by members of the public who are denied access to certain Board information.

It should also be noted that the regulation identifies in general terms the Board information which will not be made public in accordance with the exemptions contained in the Freedom of Information Act. Specifically, the public's attention is called to information which the Board has determined under section 1104 of the Federal Aviation Act of 1958, as amended, 49 U.S.C. 1504, it will not be in the public interest to disclose; namely, information either oral or documentary in character which pertains to the Convention on International Civil Aviation (Chicago Convention), or which involves the interchange of ideas with the International Civil Aviation Organization (ICAO), or any member thereof, and information which is obtained as a result of the Board's participation as an accredited representative observer or advisor in a foreign accident investigation. Such information would include but not be limited to accident reports from foreign governments, correspondence relative thereto, or oral communications exchanged between the Board or its employees and the foreign government. Such information will be made available to the public where the foreign government indicates in writing it has no objection to the disclosure thereof.

The part identifies the Board employee who is custodian of records and provides that records can be inspected during the working hours of the Board (8:30 a.m. to 5 p.m.). It also provides that copies of the Board documents can be obtained by members of the public upon the payment of certain fees to the Board. The amount of the fees and the manner of payment are fully described in the regulation. In connection with the payment of fees, it should be noted that the NTSB is continuing the practice of the Civil Aeronautics Board in imposing such fees and has adopted the CAB's fee bill as being consistent with the need of the Board of recovering a portion of its cost in supplying such services. These fees are charged in line with the Congressional policy expressed in Title V of the Act of August 31, 1951, 5 U.S.C. 140, wherein Congress has stated: "that any work, service, publication, report, document, * * * or similar thing of value or utility, performed, furnished, provided, granted, prepared or issued by any Federal agency * * * to or for any person * * * except those engaged in the transaction of official business of the Government, shall be self-sustaining to the fullest extent possible." In order to accomplish this objective, section 140 of Title V authorizes the head of each agency to prescribe by regulation such fees and charges as he shall determine to be fair or equitable, "taking into consideration indirect, or direct, cost of government, value to the recipient, public policy or interest served and other pertinent facts." The Bureau of the Budget, in implementing this policy has issued Circular A–25, September 23, 1959, which sets forth general policies for developing an equitable and uniform system of

charges for certain government services. It should be noted that the Board has exempted governments or instrumentalities thereof, as well as foreign applicants, from the payment of the proposed fees, and the exemption also applies to persons engaged in a nonprofit activity designed for public safety, health, and welfare in the field of civil aeronautics or to colleges and universities.

Finally, it should be noted that the part provides an administrative procedure whereby a member of the public can ask for reconsideration of a refusal of the Executive Director, to permit disclosure thereof. In cases where the applicant has correctly identified the record and disclosure has been refused, the applicant can appeal the ruling of the Executive Director to the Chairman. The Chairman's decision, in all cases, will be final.

Since this part is merely a rule of organization, and is not in derogation of the rights of any person, notice and public hearing are not required, and the part may become effective upon less than 30 days' notice.

In consideration of the foregoing, a new Chapter III is hereby established in Title 14 to contain Parts 400 through 499, and under Chapter III the NTSB adopts Part 401 of its regulations (14 CFR Part 401), effective July 4, 1967, to read as follows:

Subpart A—General Provisions

Sec.
401.1 Applicability.
401.2 Policy.
401.3 Administration of the part.

Subpart B—Availability and Access to the Public of Board Information

401.4 Availability during working hours.
401.5 Place where available.
401.6 Method for obtaining access to records and information.
401.7 Request for records of concern to more than one agency.
401.8 Protection of records.

Subpart C—Fees for Special Services

401.9 Policy and scope.
401.10 Services available.
401.11 Payment of fees and charge.
401.12 Fees for services.
401.13 Copying records and documents.
401.14 Certification of copies of documents.
401.15 Board publication
401.16 Transcript of hearings.
Appendix

Subpart D—Information Exempted From Disclosure

401.17 General statement.
401.18 Material required to be withheld from public disclosure by Executive Orders.
401.19 Material related solely to internal rules and practices.
401.20 Matters exempted from disclosure by statute.
401.21 Trade secrets and privileged or confidential information.
401.22 Intragovernmental exchanges.
401.23 Protection of personal privacy.
401.24 Investigating files compiled for law enforcement purposes except to the extent available by law to a private party.

Subpart E—Administrative Review From Denial of Information

401.25 General.

AUTHORITY: The provisions of Part 401 issued under secs. 5(k), 6, and 12 of the Department of Transportation Act, 80 Stat. 931, et seq.; secs. 902(f), 72 Stat. 784, as amended by 75 Stat. 466, 76 Stat. 150, 76 Stat. 921, 49 U.S.C. 1472(f), and 1104 of the Federal Aviation Act of 1958, as amended, 72 Stat. 797, 49 U.S.C. 1504; and section 3 of the Administrative Procedures Act, 80 Stat. 250, 5 U.S.C. 552.

§ 401.1 Applicability.

(a) This part implements section 3 of the Administrative Procedure Act, 80 Stat. 250, 5 U.S.C. 552, and prescribes rules governing the availability to the public of the records and other written information of the National Transportation Safety Board (Board).

(b) This part applies only to information and records existing at the time a request therefor is made. The Board is not required to supply or procure a record or other written information solely for the purpose of making it available under this part.

§ 401.2 Policy.

It is the policy of the Board to make its information and records available to the public to the greatest extent possible in keeping with the Congressional intention expressed in section 3 of the Administrative Procedure Act, the national interest, the protection of private rights, and the efficient conduct of the public business. All the records and other information of the Board, except those records and information which are necessarily and specifically made unavailable by section 3(e) of the Administrative Procedure Act, and which are described in Subpart D of this part, are declared to be available to the public promptly and to the fullest extent consistent with this policy.

§ 401.3 Administration of the part.

The overall authority to administer this part is delegated to the Board's Executive Director. In cases where the head of the Board's component is of the view that the information should be denied to the person requesting it pursuant to § 401.6, he shall so advise the Executive Director. The initial agency decision to deny access to information will be made by the Executive Director. Appeals from such a denial may be made to the Board Chairman pursuant to § 401.25.

Subpart B—Availability and Access to the Public of Board Information

§ 401.4 Availability during working hours.

All documents except those exempted from public disclosure in Subpart D of this part shall be made available for public inspection and copying during the working hours of the Board (8:30 a.m. to 5 p.m.).

§ 401.5 Place where available.

(a) Copies of all records required to be made public by section 5 of the Department of Transportation Act shall be made available for public inspection and copying by the Board's Executive Director in a public reading room, or its equivalent, to be maintained at the Board's official headquarters. Moreover, indices of the Board's decisions and public dockets of all proceedings before it will also be made available for public inspection and copying in a similar manner.

(b) All other records or written information shall be made available for public inspection and copying by the heads of the various Board's components where such records or information is found, and persons requesting such information will be specifically advised by the head of the Board's component where such records will be available for inspection and copying.

§ 401.6 Method for obtaining access to records and information.

(a) Any person desiring to see a record covered by this subpart must make a written request to the office in which the record is located. If the person making the request does not know where the record is located, but does know the name of the Board's component in which it is located, he may send his request to the head of that component. If he does not know the name of the Board's component in which it is located he may send his request to the Executive Director, National Transportation Safety Board, Washington, D.C. 20591.

(b) Each request must describe the particular record in enough detail to allow the record to be identified and located with a reasonable amount of effort. If the description is insufficient, the officer handling the request will notify the applicant and, to the extent possible, indicate the additional data required. In any case in which an extended period of time will be required to identify and locate the record sought, the officer handling the request will notify the person making the request of the required time.

(c) Each request for a search of records or for a copy of a record must be accompanied by the fee prescribed in Subpart C of this part. However, if the fee cannot be ascertained from the appropriate schedule, the officer or employee processing the request shall furnish an estimate of the fee to the person making the request.

(d) Each record covered by this subpart is available for inspection and copying during regular working hours at the facility in which it is located. Original records may be copied but may not be released from custody.

§ 401.7 Request for records of concern to more than one agency.

Any request for a record covered by this subpart that is identifiable as being of concern to both the Board and another agency will be processed by the Board only if its interest in that record is the primary interest and only after coordination with the other interested agency. If the Board's interest in the record is not the primary interest, the request will be transferred to the agency having the primary interest.

§ 401.8 Protection of records.

(a) No person may steal, mutilate, obliterate, or destroy, in whole or in part, any record or other written information made available to him for inspection or copying under this Part.

(b) Section 641 of Title 18 of the United States Code provides, in pertinent part, as follows:

> Whoever * * * steals, purloins, or knowingly converts to his use or the use of another, or without authority, sells, conveys or disposes of any record * * * or thing of value of the United States or of any department or agency thereof * * * Shall be fined not more than $10,000 or imprisoned not more than ten years or both; but if the value of such property does not exceed the sum of $100, he shall be fined not more than $1,000 or imprisoned not more than 1 year, or both. * * *

Section 2071 of Title 18 of the United States Code provides, in pertinent part, as follows:

> Whoever willfully and unlawfully conceals, removes, mutilates, obliterates, or destroys, or attempts to do so, or, with intent to do so takes and carries away any record, proceeding, map, book, paper, document, or other thing, filed or deposited * * * in any public office, or with any * * * public officer of the United States, shall be fined not more than $2,000 or imprisoned not more than 3 years, or both.

Subpart C—Fees for Special Services

§ 401.9 Policy and scope.

Pursuant to policies established by the Congress, the Government's costs for special services furnished to individuals or firms who request such services are to be recovered by the payment of fees. (Title V of Independent Offices Appropriation Act of 1952; 5 U.S.C. 140.) This regulation sets forth the special services made available by the Board and the fees therefor.

§ 401.10 Services available.

Upon request and payment of fees as provided in subsequent sections, there are available, with respect to documents subject to inspection, services as follows:

(a) Copying records and documents.

(b) Certification of copies of documents under seal of the Board.

(c) Subscriptions to publications of the Board.

(d) Transcripts of hearings.

§ 401.11 Payment of fees and charges.

The fees charged for special services may be paid by check, draft, or postal money order, payable to the National Transportation Safety Board, except for charges for copying documents and reporting services which are performed under competitive bid contracts with non-Government firms. Fees for the latter are payable to the firms providing the services.

§ 401.12 Fees for services.

The basic fees set forth below provide for documents to be mailed with ordinary first class postage prepaid. If copy is to be transmitted by registered, certified, air, or special delivery mail, postal fees therefor will be added to the basic fee. Also, if special handling or packaging is required, costs therefor will be added to the basic fee.

§ 401.13 Copying records and documents.

Copies of public records and documents on file with the National Transportation Safety Board, as it may be practicable to furnish, will be provided upon request therefor and payment of fees as set forth below:

(a) Copies of documents are made by non-Government contractors, on request to the Board. The contractor will bill directly those who request such copies.

(b) To the extent that time can be made available, services involved in searching the records and files of the Board for documents to be copied and preparing such materials for copying will be charged for as follows:

(1) Factual accident investigation reports, statements, photographs and other material contained in the Board's accident investigation files, insofar as such materials are open to public inspection at the rate of $2 for each accident involved. Payment of this fee shall accompany the request.

(2) All other materials, at the rate of $6 per hour.

(3) A minimum charge of $1 will be made for these services.

§ 401.14 Certification of copies of documents.

The Executive Director of the Board will provide, on request, certification or validation (with the National Transportation Safety Board seal) of documents filed with or issued by the Board. Charges for this service are as follows:

(a) Certification of the Executive Director, $2. This fee includes clerical services involved in checking the authenticity of records to be certified, and shall be prepaid with the request. If copying of the documents to be certified is required, the copying charges provided for in § 401.13(a) will be in addition to the charges specified in this section.

§ 401.15 Board publications.

(a) *Charges for subscriptions.* Charges are established for subscriptions to Board publications for which there are regular mailing lists. Publications available, and charges therefor, are described in the "List of Publications" available on request to the Board's Executive Director. This list and the charges therein are subject to revision at least annually and without prior notice. Subscriptions to publications are for calendar year terms and all subscriptions expire on December 31 of each year. Subscriptions to weekly or monthly publications for periods of less than a full calendar year will be prorated on a monthly basis. Quarterly publications will be prorated on a quarterly basis. No provision is made for refund upon cancellation of subscription by a purchaser. Payment for subscriptions in the form prescribed in § 401.11 shall accompany the subscription order.

(b) *Free services.* No charge will be made by the Board for notices, decisions, orders, etc., required by law to be served on a party to any proceeding or matter before the Board. No charge will be made for single copies of Board publications individually requested in person or by mail, except where a charge is specifically fixed for a publication at the time of its issuance. In addition, subscriptions to Board publications will be entered without charge when one of the following conditions is present:

(1) The furnishing of the service without charge is an appropriate courtesy to a foreign country or international organization;

(2) The recipient is engaged in a nonprofit activity designed for the public safety, health, and welfare in the field of transportation;

(3) The recipient is another government agency, Federal, State or local, concerned with transportation or having a legitimate interest in the proceedings and activities of the Board;

(4) The recipient is a college or university;

(5) The recipient does not fall into any of the foregoing categories, but free service or service at a reduced rate is determined by the Executive Director to be appropriate in the interest of and contributing to the Board's program.

(c) *Reciprocal services.* Arrangements may be made for furnishing publications to a foreign country on a reciprocal basis.

§ 401.16 Transcripts of hearings.

Transcripts of testimony and oral argument are furnished by a non-Government contractor, and may be purchased directly from the reporting firm.

APPENDIX—SCHEDULE OF SUBSCRIPTION RATES FOR PUBLICATIONS

Publications	Rates in effect calendar year 1967
Examiners' recommended or initial decisions	$25
Aircraft accident reports	5
Statistical review and resume of air carrier accidents (annually)	1
General aviation accidents, a statistical review (annually)	1
Board safety enforcement opinions and orders	10
Briefs of accidents, U.S. general aviation (monthly)	15
Notices of proposed rulemaking	2
Special Studies	(1)

[1] Price determined at publication.

Subpart D—Information Exempted From Disclosure

§ 401.17 General statement.

This subpart describes the material that may be withheld from public inspection under this part and implements section 3(e) of the Administrative Procedure Act authorizing the withholding of certain material from public inspection under that section.

§ 401.18 Material required to be withheld from public disclosure by Executive orders.

Material specifically required by Executive orders to be withheld in the interest of national defense or foreign policy includes that within the scope of Executive Order 10501 of November 5, 1953 (3 CFR, 1949–53 Comp., p. 979), as amended by Executive Order 11097 of February 28, 1963 (3 CFR, 1963, Supp., p. 161). It will also include any material described in any Executive order issued by the President dealing with matters not to be disclosed in the interest of foreign policy. This material may not be made available for public inspection.

§ 401.19 Material related solely to internal rules and practices.

(a) Material related solely to internal rules and practices that may be withheld includes memoranda pertaining to personnel matters such as staffing policies and policies and procedures for the hiring, training, promotion, demotion, and discharge of employees. In addition, it includes operating rules, practices, guidelines, and procedures for Board investigators and examiners, the release of which would substantially impair the effective performance of their duties.

(b) The purpose of this section is to authorize the withholding of material that is designed only for the guidance of Board personnel, including internal rules and practices that cannot be disclosed to the public without substantial prejudice to the effective performance of a significant Board function. For example, a Board negotiator cannot bargain effectively if his instructions and limitations are known to the person with whom he is negotiating. Similarly, the effectiveness of an authorized but unannounced inspection or audit would be destroyed if the circumstances under which that inspection or audit would be held were public knowledge.

§ 401.20 Matters exempted from disclosure by statute.

(a) Applicable statutes that specifically authorize or require the withholding of material from public inspection include—

(1) Section 1472(f) of Title 48, United States Code, which prohibits any member of the Board or any officer or employee of the Board from divulging certain information which may come to his knowledge during the course of an examination of the account, records, and memorandums of any air carrier.

(2) Section 1504 of Title 49, United States Code, authorizes the Board to order certain information withheld from public disclosure when in its judgment a disclosure of such information would adversely affect the interests of a person and is not required in the interest of the public. All information ordered by the Board to be held confidential under this section will not be disclosed to the public and, in addition, the Board has determined that it will not be in the interest of the public to disclose (i) any information or documents in the Board's possession dealing with or related to the Board's position or construction of the provisions of the Annexes to the Chicago Convention (61 Stat. 1180), and (ii) any information obtained by the Board or the Board personnel as a result of participation by the Board and its personnel in accident investigations in foreign countries, unless the country of occurrence notifies the Board in writing that it has no objection to a disclosure of such information.

§ 401.21 Trade secrets and privileged or confidential information.

(a) Trade secrets and privileged or confidential information, including the following, may be withheld from public inspection:

(1) Information furnished by any person, to the extent that the person furnishing the information would not customarily release it to the public;

(2) Information furnished and accepted in confidence;

(3) A statement of financial interests furnished by any employee of the Board;

(4) Information customarily subject to doctor-patient, lawyer-client, priest-penitent, or similar privileges.

(b) The purpose of this section is to authorize the withholding of material that is customarily privileged as is appropriately given to the Board in confidence. It assures the confidentiality of information obtained by the Board through questionnaires and required reports to the extent that the information would not customarily be made public by the person from which it was obtained. In any case in which the Board has obligated itself in good faith not to disclose information it receives, this section authorizes the Board to honor that obligation.

§ 401.22 Intragovernmental exchanges.

(a) Any memorandum, letter, report, or similar document prepared by a Government officer or employee for internal Government use may be withheld from public inspection to the extent that it contains—

(1) Opinions, advice, deliberations, or recommendations made in the course of developing official action by the Government; or

(2) Material concerning any pending matter, including any claim or other dispute to be resolved before a court of law, administrative board, hearing officer, or contracting officer.

However, material covered by subparagraph (2) of this paragraph will be made available to the public to the extent that material could be made available by the Board under the discovery procedures applicable to that claim or other dispute.

(b) The purpose of this section is to protect the full and frank exchange of ideas, views, and opinions necessary for the effective functioning of the Government. These resources must be fully and readily available to those officials upon whom the responsibility rests to take official Board action. Its purpose is also to protect against the premature disclosure of material that is in the development stage if premature disclosure would be detrimental to the authorized and appropriate purposes for which the material is being used, or if, because of its tentative nature, the material is likely to be revised or modified before it is officially presented to the public.

(c) Examples of materials covered by this section include staff papers containing advice, opinions, or suggestions, preliminary to a decision or action; advance information on such things as proposed plans to procure, lease, or otherwise hire and dispose of materials, real estate, or facilities; documents exchanged preparatory to anticipated legal proceedings; material intended for public release at a specified future time, if premature disclosure would be detrimental to orderly processes of the Board; records of inspections, investigations, and surveys pertaining to internal management of the Board; and matters that would not be routinely disclosed in litigation but which are likely to be the subject of litigation.

§ 401.23 Protection of personal privacy.

(a) Any of the following personnel, medical, or similar information may, if its disclosure would be a clearly unwarranted invasion of personal privacy, be withheld from public inspection:

(1) Personnel and background information personal to any officer or employee of the Board or other person;

(2) Medical histories and information concerning individuals, including applicants for licenses;

(3) Any other detailed record identifiable with a particular person.

(b) The purpose of this section is to provide a proper balance between the protection of personal privacy and the preservation of the public's right to Board information by authorizing the withholding of information, the use of which might harass the individual or interfere with his personal privacy.

§ 401.24 Investigating files compiled for law enforcement purposes except to the extent available by law to a private party.

(a) Files compiled by the Board for law enforcement purposes, including the enforcement of the regulations of the Board, may be withheld from public inspection except to the extent available by law to a private party.

(b) The purpose of this section is to protect from disclosure the law enforcement files of the Board, including files prepared in connection with related litigation and adjudicative proceedings. It includes the enforcement not only of criminal statutes but all kinds of laws. While it confirms the availability to litigants of documents from investigatory files to the extent that Congress and the courts have made them available, it ensures that the litigant is not given any earlier or greater access to investigatory material than he would have directly in litigation or other enforcement proceedings.

Subpart E—Administrative Review From Denial of Information

§ 401.25 General.

(a) Each officer or employee of the Board who, upon a request by a number of the public for a record or other information under this part, determines not to make that information available shall give his reasons therefor to the Executive Director. The Executive Director shall then determine whether or not the information will be disclosed and shall advise the person seeking such information of his determination.

(b) Any person to whom a record or other information is not made available within 14 days after his request is made, or who is denied such record or information by the Executive Director, may apply to the Chairman of the Board for reconsideration of the request.

(c) Each application for reconsideration must be in writing and must include all information and arguments relied upon by the person making the request.

(d) Whenever the Executive Director, or the Chairman, determines it to be necessary, he may require the person making the request to furnish additional information, or proof of factual allegations, and may order other proceedings appropriate in the circumstances.

(e) A decision by the Chairman not to make a record or information available is considered to be a refusal by the Board for the purposes of section 3(c) of the Administrative Procedure Act.

By the National Transportation Safety Board.

Adopted: July 3, 1967.

Effective: July 4, 1967.

[SEAL] JOSEPH J. O'CONNELL, JR., *Chairman.*

[F.R. Doc. 67-7633; Filed, July 3, 1967; 5:07 p.m.]

Title 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

SUBCHAPTER B—BUREAU OF THE PUBLIC DEBT

PART 323—DISCLOSURE OF RECORDS

The regulations set forth in the Code of Federal Regulations, Title 31, Subtitle B, Part 323, "Availability of Records," are revised in the manner shown below, and the heading amended as set forth above, to be effective July 4, 1967.

Dated: July 3, 1967.

[SEAL] GEORGE F. STICKNEY, *Deputy Fiscal Assistant Secretary.*

Sec
- 323.1 Purpose of regulations.
- 323.2 Rules governing availability of information.
- 323.3 Materials available for inspection and copying.
- 323.4 Requests for identifiable records.
- 323.5 Fees.

AUTHORITY: The provisions of this Part 323 are issued under 5 U.S.C. 301 and 552.

§ 323.1 Purpose of regulations.

The regulations of this part are issued to implement 5 U.S.C. 552(a)(2) and (3). The requirements of 5 U.S.C. 552(a)(1) are met through the publication in the FEDERAL REGISTER of the statement of the organization, functions and procedures available of the Fiscal Service, including the Bureau of the Public Debt, and revisions thereof, and through the publication therein of substantive and procedural regulations of the Bureau. A synopsis of the statements of Bureau organization, functions and procedures available will be published annually by the Office of the Federal Register in the U.S. Government Organization Manual.

§ 323.2 Rules governing availability of information.

(a) *General.* The records of the Bureau of the Public Debt required by 5 U.S.C. 552 to be made available to the public shall be made available in accordance with the regulations on the Disclosure of Records of the Office of the Secretary issued under 5 U.S.C. 552 and published as Part I of Title 31 of the Code of Federal Regulations, 32 F.R. 9562, July 1, 1967, except as specifically provided in this Part.

(b) *Limitations on the availability of records relating to securities.* Records relating to the purchase, ownership of, and transactions in Treasury securities or other securities handled by the Bureau of the Public Debt for government agencies or wholly or partially Government-owned corporations will ordinarily be disclosed only to the owners of such securities, their executors, administrators or other legal representatives or to their survivors or to investigative and certain other agencies of the Federal and State governments, to trustees in bankruptcy, receivers of insolvents' estates or where proper order has been entered requesting disclosure of information to Federal and State courts. These records are held confidential because they relate to private financial affairs of the owners.

§ 323.3 Materials available for inspection and copying.

(a) *Availability.* The materials which are required under 5 U.S.C. 552(a)(2) to be made available for inspection and copying are:

(1) Final opinions or orders made in the adjudication of cases. Any issued by the Bureau of the Public Debt would be in the form of letters or memorandums setting out determinations made in disposing of any matter before the Bureau.

(2) Statements of policy and interpretations which have been adopted by the Bureau but not published in the FEDERAL REGISTER.

(3) Administrative staff manuals and instructions to the staff that affect any member of the public. Some Federal Reserve Bank memorandums and Public Debt memorandums will be made available under this provision.

(b) *Location.* The materials listed in paragraph (a) of this section are available for inspection and copy during office hours in the Public Reading Room of the Treasury Department, 15th Street and Pennsylvania Avenue NW., Washington, D.C. 20220.

§ 323.4 Requests for identifiable records.

(a) *Procedure.* (1) A written request for an identifiable record relating to a U.S. savings bond or note shall be addressed to the Deputy Commissioner, Bureau of the Public Debt, Chicago, Ill. 60605.

(2) A request for an identifiable record relating to any Treasury Department security, other than a savings bond or note, or a security of a Government agency or a wholly or partially Government-owned corporation, the record of which is maintained by the Bureau of the Public Debt, shall be addressed to the Chief, Division of Loans and Currency, Bureau of the Public Debt, Washington, D.C. 20226.

(3) A request for an identifiable record relating to any security of a Government agency or wholly or partially Government-owned corporation, the record for which is maintained by the Federal Reserve Bank of New York, shall be addressed to the Federal Reserve Bank of New York, New York, N.Y. 10045.

(4) A written request for any identifiable record that the Bureau of the Public Debt has other than those set out in subparagraphs (1), (2), and (3) of this paragraph shall be addressed to the Commissioner of the Public Debt, Washington, D.C. 20220.

(5) A request may be presented in person at the office to which a written request would be addressed.

(b) *Determination of availability.* Determination as to whether or not a requested record shall be disclosed will be made by the Officer to whom the request should be directed under paragraph (a) of this section, and by the Bureau of Public Debt Information Officer for requests directed to the Office of the Commissioner, subject to an appeal to the Commissioner of the Public Debt. The decision of the Commissioner shall constitute final agency action unless he refers the appeal to the Fiscal Assistant Secretary, in which case the decision of the Fiscal Assistant Secretary shall constitute final agency action.

§ 323.5 Fees.

The fees provided in Part 1 of Title 31 of the CFR (32 F.R. 9562, July 1, 1967), shall apply to all requests for identifiable records under this Part except as follows:

(a) No charge will be made for verifying the record of a savings bond or note identified by series and denomination and either the registration and issue date or the serial number at the request of the owner, coowner, or surviving beneficiary or person entitled to the security under the applicable regulations.

(b) No charge will be made for verifying the record of a registered Treasury security, other than a savings bond or note, or a registered security of a Government agency or a wholly or partially

Government-owned corporation, identified as to loan and registration for an owner, joint owner or person entitled to the security under the applicable regulations.

(c) No charge will be made for advising a person who has submitted satisfactory evidence of ownership as to the status of a bearer Treasury security or a bearer security of a Government agency or a wholly or partially Government-owned corporation.

(d) No charge will be made for furnishing an owner, coowner, joint owner, surviving beneficiary, or person who is entitled to the security under the applicable regulations a photocopy or similar reproduction of any Treasury security, with any necessary supporting documents, which it is alleged was improperly paid or was reissued, transferred or redeemed on a forged or defective request, endorsement, or assignment.

(e) Fees may be waived for other classes of requested records upon a finding by the Commissioner of the Public Debt that the person requesting the information is entitled to the record requested without charge.

[F.R. Doc. 67-7850; Filed, July 3, 1967; 8:07 p.m.]

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER B—PERSONNEL, MILITARY AND CIVILIAN

PART 67—IDENTIFICATION CARDS FOR ISSUE TO THE MEMBERS OF THE ARMED FORCES OF THE UNITED STATES

The Assistant Secretary of Defense (Manpower) approved the following on June 12, 1967:

Sec.
67.1 Reissuance and purpose.
67.2 Applicability.
67.3 Policy.
67.4 Procedures.

AUTHORITY: The provisions of this Part 67 issued under 5 U.S.C. 301.

§ 67.1 Reissuance and purpose.

This part reissues DoD Instruction 1336.2, dated February 17, 1959, which is hereby cancelled, and prescribes the identification cards (DD Forms 2)[1] to be issued members of the Armed Forces of the United States.

§ 67.2 Applicability.

The provisions of this part apply to the Military Departments.

§ 67.3 Policy.

(a) The DD Form 2, printed in green security-type ink on a paper insert with a light green background laminated between two (2) sheets of plastic, shall be issued to members of the Armed Forces who are serving on extended active duty.

(b) The DD Form 2, printed in gray security-type ink on a paper insert with a light gray background and laminated between two (2) sheets of plastic, shall be issued to retired members of the Armed Forces who are entitled to retired pay.

(c) The DD Form 2, printed in red security-type ink on a paper insert with a light red background and laminated between two (2) sheets of plastic, shall be issued to members of the Reserve Components who are not otherwise entitled to either of the cards prescribed in paragraph (a) or (b) of this section.

§ 67.4 Procedures.

(a) The method of control and record of issuance of the DD Forms 2 shall be as determined by the respective Military Departments.

(b) Positive statement of entitlement to health care benefits under the provisions of Public Law 614, 89th Congress will not be entered on DD Forms 2 (gray). Potential sources of care will assume entitlement in the absence of a negative statement in this regard.

(c) DD Forms 2 (gray) will not be reissued for the sole purpose of covering entitlement to new medical benefits authorized by Public Law 89-614, except in the following cases:

(1) DD Forms 2 (gray) will be reissued to Reservists entitled to retired pay under the provisions of DoD Directive 1340.7, "Notification of Eligibility for Retired Pay for Members of Reserve Components," dated March 29, 1967,[2] who served on active duty (other than for training) for less than eight (8) years.

(2) In the case of a Reservist who is 65 years of age or older and who is entitled to hospital insurance benefits under title I of the Social Security Amendments of 1965, Public Law 97, 89th Congress, the entry "NoCivMedCare" will be made in the blank space to the right of the "Date of Issue" section of the form.

(d) When for any reason a DD Form 2 (gray) is issued in the future to a retired member who is under 65 years of age, the entry "NoCivMedCare after (date)" will be made to the right of the "Date of Issue" section of the form. The date to be entered will be the day preceding the retired member's 65th birthday.

(e) When a retired member 65 years of age or older who has a DD Form 2 (gray) issued pursuant to paragraph (d) of this section presents a statement from the Social Security Administration indicating that he is not eligible for hospital insurance benefits under title I of the Social Security Amendments of 1965 (Public Law 89-97), a new form will be issued with no entry in the blank space to the right of the "Date of Issue" section of the form.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

[F.R. Doc. 67-7769; Filed, July 6, 1967; 8:45 a.m.]

PART 68—UNIFORMED SERVICES IDENTIFICATION AND PRIVILEGE CARD

The Assistant Secretary of Defense (Manpower) approved the following on June 12, 1967:

Sec.
68.1 Reissuance and purpose.
68.2 Policy and scope.
68.3 Procedures.
68.4 DD Form 1173[1] preparation instructions.
68.5 Application for uniformed services identification and privilege card (DD Form 1172).

AUTHORITY: The provisions of this Part 68 issued under 5 U.S.C. 301.

§ 68.1 Reissuance and purpose.

This part reissues DoD Instruction 1000.7, dated June 28, 1960, which is superseded to prescribe a uniform identification and privilege card (DD Form 1173[1]) for issue to dependents of members of the Uniformed Services, civilians accompanying or employed by the Uniformed Services, foreign personnel subject to NATO Status of Forces Agreements who are entitled to medical care in accordance with DoD Directive 6310.7, "Medical Care for Foreign Personnel Subject to the North Atlantic Treaty Organization (NATO) Status of Forces Agreement (SOFA)," dated December 18, 1962,[2] and for such purposes as may be determined.

§ 68.2 Policy and scope.

(a) DD Form 1173 shall be used throughout the Department of Defense for identification of those categories of persons listed in § 68.1, and as an authorization card for the benefits or privileges administered by the military departments to which those persons may be entitled. No other forms shall be used for such purposes, except as herein provided.

(b) The DD Form 1173 shall be printed in black security-type ink on a paper insert with an identification of passport-type photograph of the bearer and laminated between two sheets of plastic.

(c) DD Form 1173 shall not be issued to individuals when eligibility for or usage of the card for periods of 30 days or less is indicated. Except in unusual cases, DD Form 1173 shall not be issued to minor dependents under ten years of age. Normally, certificates of these minors for eligibility for medical care in civilian medical facilities will be the responsibility of the accompanying parent, member or acting guardian.

(d) DD Form 1173 will replace all other identification or organization cards now prescribed by the military departments for the categories of personnel indicated above, except as may be required for additional identification for access to classified areas; activities or installations, or at the discretion of the headquarters of the military department concerned, to satisfy unusual requirements which cannot be met by DD Form 1173.

(e) DD Form 1173 shall generally not be issued to military personnel except on an individual basis. DD Form 1173 may be issued to a member of the Armed Forces if the Secretary of the Service concerned or his designee, considers the issuance to be in the Service's interest. DoD Instruction 1336.2, "Identification Cards for Issue to the Members of the Armed Forces of the United States," dated June 12, 1967 (Part 67 of this subchapter), prescribes the identification card to be issued to members in an active, inactive or reserve status.

§ 68.3 Procedures.

(a) Application for issuance of the DD Form 1173 ID card shall be made on DD Form 1172 (see § 68.5).

(b) The method of control and record of issuance of DD Form 1173 shall be as determined by the respective military departments.

(c) Existing official criteria relative to the determination of eligibility and identification of individuals will apply to the issuance of DD Form 1173.

(d) The DD Form 1173 shall be effective for the contracted period of service of the sponsor upon whom the entitlement is based, in the case of dependents of members of the Uniformed Services, or, in the case of minors, the 21st birthday, if it occurs prior to the termination of the service of the sponsor except that for entitlement to medical care, the provisions of DoD Directive 6010.4, "Dependents' Medical Care," dated April 25, 1962 (Part 70 of this subchapter), and Public Law 89-614 will apply.

(e) DD Forms 1173 issued to personnel other than dependents of members of the Uniformed Services, or to dependents of personnel having no contracted period of service, such as deceased and retired military personnel, may be assigned an expiration date as prescribed by the military departments, but not later than 6 years from date of issuance.

(f) DD Forms 1173 issued to the dependents of a retired or deceased member who will reach age 65 before the normal 6-year expiration date would occur, will show an expiration date reflecting the date preceding the day on which such a person will reach age 65.

(g) The military departments will ensure that sponsors are directed to notify the appropriate authority immediately upon any change in status that would terminate or modify the right to any of the benefits for which the DD Form 1173 may be issued. Survivors of deceased personnel will likewise be so directed.

(h) All dependents of each sponsor will be listed on the application Form DD 1172 (see § 68.5). A separate DD Form 1173 will be issued to each dependent 10 years of age or older. DD Forms 1173 shall not be reissued solely because of changes in the grade of the sponsor.

(i) Instructions for preparation of items 4, 9, 11, 14, and 15 of DD Form 1173 are shown in § 68.4; other items on the Form are self-explanatory.

(j) Privileges and facilities not authorized for the holder of DD Form 1173 will be blocked out.

§ 68.4 DD Form 1173, preparation instructions.

Item 4 Relationship of named dependent to sponsor:
W—Wife; H—Husband; S—Son; D—Daughter; F—Father;
M—Mother; FL—Father-in-law; ML—Mother-in-law;
U—Unremarried Widow; UW—Unremarried Widower. When issued to a person who is not a dependent, the words "and Relationship" will be lined out.

Item 9 In those special circumstances which permit children 21 and over entitlement to medical care and other privileges, indicate, after date of birth (INC) for incompetency, or (SCH) for attendance at an approved school.

Item 11 Present status of sponsor will be indicated by code as follows:
AD—Active Duty; RET—Retired; D—Deceased; CIV—Civilian;
FM—Foreign Military Personnel.

Item 14 Signature of cardholder in those instances where the individual is incompetent will be coded as (INC).

Item 15a The positive entry "YES" will be entered when bearer is entitled to medical care in Uniformed Services facilities. These include:

a. Eligible spouses and children of members of the Uniformed Services who are on active duty for a period of more than 30 days.

b. Eligible spouses and children of active duty members who died while on active duty for a period of more than 30 days.

c. Eligible spouses and children of retired members and deceased retired members, including the spouses and children of those reservists entitled to retired pay under the provisions of DoD Directive 1340.7, "Notification of Eligibility for Retired Pay for Members of Reserve Components," dated March 29, 1967. (32 FR 6393)

d. Eligible parents and parents-in-law of members of the Uniformed Services who are on active duty for a period of more than 30 days and of members who died while on such duty.

e. Eligible parents and parents-in-law of retired members and of deceased retired members.

Item 15b The positive entry "YES" will be entered for persons who fall in categories of a through c, above. The "effective date" will be as follows:

a. For persons in category a, above, the most recent date the person became an eligible dependent, or December 7, 1956, whichever is later.

b. For persons in category b and c, above, the date the person became an eligible dependent, or January 1, 1967, whichever is later.

c. The date a person becomes an eligible dependent is one of the following as appropriate:

1. Date of marriage to sponsor; or

2. Date of sponsor's last entry on active duty after a break in service of more than 24 hours; or

3. Date of sponsor's initial entry on continuous active duty (no break in service of more than 24 hours); or

4. In the case of children, the date: of birth; of adoption by sponsor; or on which the child became a dependent of sponsor.

d. Block out item 15b on cards issued to persons—

1. In categories b and c, Item 15a, above, if the foregoing persons are 65 years of age or older and are entitled to hospital insurance benefits under title I of the Social Security Amendments of 1965.

2. In categories d and e, Item 15a, above.

§ 68.5 Application for Uniformed Services Identification and Privilege Card (DD Form 1172).

NOTE: Form filed as part of original document.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

SUBCHAPTER M—MISCELLANEOUS

PART 242—AIR POLLUTION CONTROL

The Acting Assistant Secretary of Defense (Installations and Logistics) approved the following:

Sec.
242.1 Purpose.
242.2 Applicability.
242.3 Definitions.
242.4 Policy.
242.5 Plans.
242.6 Annual progress reports and revised plans.
242.7 Report control symbol.
242.8 Air pollution control; requirements plan by installation (format A).
242.9 Air pollution control; summary financing plan (format B).
242.10 Air pollution control; annual progress report by installation, fiscal year 19-- (format C).

AUTHORITY: The provisions of this Part 242 issued under 5 U.S.C. 301.

§ 242.1 Purpose.

This Part establishes Department of Defense procedures for developing and submitting plans for installing improvements needed to abate air pollution emanating from DoD installations, in implementation of Executive Order 11282, "Prevention, Control, and Abatement of Air Pollution by Federal Activities," May 25, 1966; Bureau of the Budget Circular No. A-78, "Air Pollution from Federal Activities," August 6, 1966 and DoD Directive 5100.50,[1] "Environmental Pollution Control," January 4, 1966 (31 FR 849).

§ 242. Applicability.

The provisions of this part apply to all components of the Department of Defense and to all contractor activities

[1] Filed as part of original document; copies may be obtained from Departments of Army, Navy, or Air Force, as appropriate.

[2] Filed as part of original; copies of this Directive are available by writing Publications Branch, OASD(A), Pentagon, Washington, D.C. 20301, or Oxford 52167.

[1] Facsimile filed as part of original; DD Forms issued to eligible personnel upon application (DD Form 1173).

[1] Filed as part of original; copies of this Directive are available by writing Publications Branch, OASD(A), Pentagon, Washington, D.C. 20301, or Oxford 52167.

located on real property under the jurisdiction of the Department of Defense.

§ 242.3 Definitions.

For purposes of this part the following definitions apply:

(a) **Installation**: Includes all buildings and facilities owned by the Military Departments whether or not operated by a component of the DoD. It excludes buildings and facilities leased in whole or in part by DoD components except where the DoD component, in consultation with the Department of Health, Education, and Welfare, determines that exclusion of such buildings or facilities would seriously impair the ability to abate air pollution resulting from the activities of the DoD component.

(b) **United States**: The 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

(c) **Cost of Remedial Measures**: Funds which must be specifically provided for in the DoD budget for the purpose of accomplishing the required measures. (Generally, this will mean the capital costs of equipment and installation, but not maintenance and operating costs.)

(d) **Existing Facilities**: Facilities for which construction contracts were awarded prior to August 1966 as well as facilities already in operation.

§ 242.4 Policy.

(a) Pursuant to Executive Order 11282, "Prevention, Control, and Abatement of Air Pollution by Federal Activities," May 25, 1966, projects proposed for approval in the Five Year Defense Program and projects included in budget requests for new facilities and buildings in the United States must provide for the installation of air pollution control equipment where necessary. Accordingly, the annual submission of the military construction programs by DoD components shall be accompanied by a statement indicating compliance with the above requirement of Executive Order 11282, "Prevention, Control, and Abatement of Air Pollution by Federal Activities," May 25, 1966.

(b) Air pollution control systems shall be designed to meet the standards contained in Executive Order 11282, "Prevention, Control, and Abatement of Air Pollution by Federal Activities," May 25, 1966, and Department of Health, Education, and Welfare "Performance Standards and Techniques of Measurement," June 2, 1966 (42 CFR 76.1–76.9).

(c) Pursuant to Bureau of the Budget Circular No. A–78, "Air Pollution from Federal Activities," August 6, 1966, construction contracts which have been or will be awarded subsequent to August 6, 1966, must meet the requirements and procedures specified for new installations in Executive Order 11282, "Prevention, Control, and Abatement of Air Pollution by Federal Activities," May 25, 1966, and Department of Health, Education, and Welfare "Performance Standards and Techniques of Measurement," June 2, 1966 (42 CFR 76.1–76.9). If necessary to comply with this policy, change orders will be issued to contracts which have been awarded prior to receipt of this Part and financed from within existing available funds.

(d) DoD Components may communicate directly with the Division of Air Pollution, Department of Health, Education, and Welfare, for advice and assistance concerning compliance with Executive Order 11282, "Prevention, Control, and Abatement of Air Pollution by Federal Activities," May 25, 1966, and Department of Health, Education, and Welfare "Performance Standards and Techniques of Measurement," June 2, 1966 (42 CFR 76.1–76.9).

(e) DoD Components will cooperate with the Division of Air Pollution, Health, Education, and Welfare, by furnishing pertinent data, including inventory information, concerning potential air pollution sources at all installations identified under the provisions of paragraph VI.D.1 of DoD Directive 5100.50, "Environmental Pollution Control," January 4, 1966 (31 FR 849).

§ 242.5 Plans.

Each DoD Component will submit to the Assistant Secretary of Defense (Installations and Logistics) a phased and orderly plan for the prevention, control, or abatement of air pollution from existing facilities. Prior to submission to the ASD(I&L), these plans will be reviewed by the DoD Environmental Pollution Control Committee (see DoD Directive 5100.50, "Environmental Pollution Control," January 4, 1966 (31 FR 849)). The plan for each DoD Component should provide for compliance with Executive Order 11282, "Prevention, Control, and Abatement of Air Pollution by Federal Activities," May 25, 1966 and Department of Health, Education, and Welfare "Performance Standards and Techniques of Measurement," June 2, 1966 (42 CFR 76.1–76.9) at all DoD installations within 5 years or less.

(a) Six (6) copies of each plan will be forwarded by June 1, 1967, and will cover conditions existing as of April 1, 1967, at all installations in the United States which are below the standards set forth in Executive Order 11282, "Prevention, Control, and Abatement of Air Pollution by Federal Activities," May 25, 1966, and Department of Health, Education, and Welfare "Performance Standards and Techniques of Measurement," June 2, 1966 (42 CFR 76.1–76.9). Operations involving the use of (1) fossil fuels, where the heat input is less than 1 million B.t.u.'s per hour; (2) No. 1 and No. 2 distillate fuel oil; or (3) gas-fired units will not be reported unless there is reason to believe that an air pollution problem exists and remedial action should be taken.

(b) Format A, "Air Pollution Control—Requirements Plan by Installation" (§ 242.8), will be completed for each installation covered by the plan. All installations covered will be listed on Format B, "Air Pollution Control—Summary Financing Plan" (§ 242.9), in the order of their priority in funding the required remedial measures. Installations will be designated in the same manner as used in the Annual Real Property Inventory furnished to the General Services Administration pursuant to Subchapter A, Part 101–8 of the Federal Property Management Regulations.

§ 242.6 Annual progress reports and revised plans.

Each DoD Component will submit six (6) copies of an annual fiscal year report to the ASD(I&L) describing progress in accomplishing the objectives of the pollution abatement plan by June 1, 1968 (to be identified as the "FY 1968" report) and by the first of June of each year thereafter, covering conditions existing as of April 1, or when appropriate, conditions anticipated by June 30 of the year in which submitted. The annual progress report shall be accompanied by revised requirements and financial plans, as necessary.

(a) **Annual Progress Reports**: will be comprised of separate reports for each installation covered by the plan, except those where remedial measures (1) have been completed prior to the fiscal year covered by the annual report or (2) are scheduled for budgeting and financing in a subsequent budget estimate submission and no planning and design work has been initiated. All information specified on Format C "Air Pollution Control—Annual Progress Report by Installation, FY____" (§ 242.10) will be included in the annual report.

(1) The report will contain information on projects included in the President's budget of the preceding or prior fiscal year and on congressional action on each of these projects. If congressional action has not yet been taken on the project, the DoD Components will so indicate, and the project should be restated in the following year's annual progress report indicating final congressional action thereon.

(2) The report for each installation will also include the specific prevention, control or abatement measures (i) completed during the preceding fiscal year, and (ii) the progress on remedial measures for which work has been started, but not yet completed.

(b) **Revised Plans**: If changed conditions, such as the nature or volume of the air pollution discharged, have caused a previously nonpolluting installation to contribute to air pollution, a Format A (§ 242.8) will be submitted for that installation as part of the DoD component's annual report. If such changed conditions, unanticipated budgetary action, or other factors have made revisions in a DoD component's overall plan necessary, a revised financing plan (Format B, § 242.9) will also be submitted as part of the annual report.

§ 242.7 Report Control Symbol.

Reporting requirements contained herein have been assigned Report Control Symbol DD-I&L(A)761.

§ 242.8 Air Pollution Control; Requirement Plan by Installation (Format A).

FORMAT A (MILITARY DEPARTMENT) OR (DEFENSE AGENCY)

AIR POLLUTION CONTROL—REQUIREMENTS PLAN BY INSTALLATION

(Date)

a. Name of installation and GSA inventory control number. Albemarle Arsenal—No. 546307.

b. Location of installation (Town or City, County and State). Albemarle, Jefferson County, Utah.

c. Location of point of discharge and Federal enforcement action[1] taken, if any. Power plant at Albemarle, Utah. Arsenal was cited in the tri-State enforcement action, October 20, 1966.

d. Nature and amount of pollutant being discharged.[1] 846 tons of particulates per day and 600 tons of SO_2 per day.

e. Existing level of control being provided. Mechanical filters.

f. Remedial measures proposed. Installation of electrostatic precipitators.

g. Cost of remedial measures (in thousands of dollars). Total cost: $5,000 for electrostatic precipitators. Cost by fiscal years: 1968—$50 for design and engineering studies; 1969—$4,950 for construction.

h. Title of account under which costs will be appropriated.

[1] List each point of discharge on the installation which meets the requirements of § 242.5(a).

[1] Provide information on the total individual emissions for each point of discharge listed in Item 3, with additional information as to the amounts of pollution above the standards indicated in Department of Health, Education, and Welfare "Performance Standards and Techniques of Measurement," June 2, 1966 (42 CFR 76.1–76.9).

AIR POLLUTION CONTROL—ANNUAL PROGRESS REPORT BY INSTALLATION, FISCAL YEAR 19__ (CONDITIONS EXISTING AS OF APRIL 1, 19__, UNLESS OTHERWISE EXPLAINED IN PARAGRAPH E BELOW)

(a) Name of installation and GSA inventory control number. Albemarle Arsenal—No. 546307.

(b) Location of installation (Town or City, County and State). Albemarle, Jefferson County, Utah.

(c) Budgetary action (in thousands of dollars).[1]

(1) In 19__, President's Budget: $50.

(2) Congressional action: $50.

(3) Other (for appropriate explanation when the project has not been included in the President's Budget).

(d) Progress on remedial measures. A contract has been let for design and engineering studies.

(e) New or Changed Conditions between 1 April and 30 June. (Where conditions 1 April will not fairly represent conditions which are anticipated to exist on 30 June, submit appropriate explanation.)

[1] It is not anticipated that specific projects will be identified in the President's Budget until fiscal year 1969. Therefore, the reports covering conditions in fiscal year 1968 will include a statement in § 242.10(c)(3) as to financing from within existing available funds, when applicable.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

[F.R. Doc. 67–7761; Filed, July 6, 1967; 8:45 a.m.]

PART 243—WATER POLLUTION CONTROL

The Assistant Secretary of Defense (Installations and Logistics) approved the following on June 5, 1967:

Sec.
243.1 Purpose.
243.2 Applicability.
243.3 Definitions.
243.4 Policy.
243.5 Plan for existing facilities.
243.6 Annual progress reports and revised plans.
243.7 Report Control Symbol.
243.8 Water Pollution Control; Requirements Planned by Installation (Format A).
243.9 Water Pollution Control; Summary Financing Plan (Format B).
243.10 Water Pollution Control; Annual Progress Report by Installation (Format C).

AUTHORITY: The provisions of this Part 243 issued under 5 U.S.C. 301.

§ 243.1 Purpose.

This part establishes Department of Defense procedures for developing and submitting plans for installing improvements needed to abate water pollution emanating from DoD installations, in implementation of Executive Order 11288, "Prevention, Control, and Abatement of Water Pollution by Federal Activities," July 2, 1966; Bureau of the Budget Circular No. A–81, "Reporting Requirements in Connection with Prevention, Control and Abatement of Water Pollution by Federal Activities," March 30, 1967, and DoD Directive 5100.50[1] "Environmental Pollution Control," January 4, 1966 (31 F.R. 849).

§ 243.2 Applicability.

The provisions of this part apply to all components of the Department of Defense and to all contractor activities located on real property under the jurisdiction of the Department of Defense.

§ 243.3 Definitions.

For purposes of this part the following definitions apply:

(a) **Installation**: Includes all buildings and facilities owned by the Military Departments whether or not operated by a component of the DoD. It excludes buildings and facilities leased in whole or in part by DoD Components except where the DoD Component, in consultation with the Department of Interior, determines that exclusion of such buildings or facilities would seriously impair the ability to abate water pollution resulting from the activities of the DoD Component.

(b) **United States**: The 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

(c) **Cost of Remedial Measures**: Funds which must be specifically provided for in the DoD budget for the purpose of accomplishing the required water pollution control measures. This will include design and engineering costs, capital cost of structures, equipment and cost of installation, but not the annual maintenance and operating costs.

(d) **Existing Facilities**: Facilities for which construction contracts were awarded prior to April 1, 1967, as well as facilities already in operation.

§ 243.4 Policy.

(a) Pursuant to Executive Order 11288, "Prevention, Control, and Abatement of Water Pollution by Federal Activities," July 2, 1966, projects proposed for approval in the 5-year defense program and projects included in budget requests for new facilities and buildings in the United States must provide for the installation of water pollution control equipment where necessary. Accordingly, the annual submission of the military construction programs by DoD Components shall be accompanied by a statement indicating compliance with the above requirement of Executive Order 11288, "Prevention, Control, and Abatement of Water Pollution by Federal Activities," July 2, 1966.

[1] Filed as part of original; copies of this Directive are available by writing Publications Branch, OASD(A), Pentagon, Washington, D.C. 20301, or Oxford 52167.

(b) Water pollution abatement projects will, in general, be included in the military construction programs. Projects of $25,000 or less may be included in the operation and maintenance programs. Projects at industrial plants or at research and development installations will be programed in accordance with established procedures for the construction of facilities at those installations. Pollution abatement projects constructed solely for family housing should be included in family housing programs. All programing and changes thereto will be accomplished through the established procedures governing all programs in the 5-year defense program.

(c) Water pollution control systems shall be designed to meet the standards contained in Executive Order 11288, "Prevention, Control, and Abatement of Water Pollution by Federal Activities," July 2, 1966.

(d) Pursuant to Bureau of the Budget Circular No. A-81, "Reporting Requirements in Connection with Prevention, Control, and Abatement of Water Pollution by Federal Activities," March 30, 1967, construction contracts which have been or will be awarded subsequent to April 1, 1967, must meet the requirements and procedures specified for new installations in Executive Order 11288, "Prevention, Control, and Abatement of Water Pollution Federal Activities," July 2, 1966. If necessary to comply with this policy, change orders will be issued to contracts which have been awarded prior to receipt of this Part and financed from within existing available funds.

(e) DoD Components may communicate directly with the Division of Federal Activities Coordination, Federal Water Pollution Control Administration, Department of the Interior, or with the appropriate Regional Director of that Administration for advice and assistance concerning compliance with Executive Order 11288, "Prevention, Control, and Abatement of Water Pollution by Federal Activities," July 2, 1966.

(f) DoD Components will cooperate with the Federal Water Pollution Control Administration by furnishing pertinent data, including survey information, concerning potential water pollution sources at DoD installations.

§ 243.5 Plan for existing facilities.

(a) The phased and orderly fiscal plan for control of water pollution which was submitted to the Bureau of the Budget on July 1, 1966, will be updated and revised, as necessary, by each DoD Component and submitted to the Assistant Secretary of Defense (Installations and Logistics) by June 15, 1967. Prior to submission to the ASD(I&L), these plans will be reviewed by the DoD Environmental Pollution Control Committee (see DoD Directive 5100.50, "Environmental Pollution Control," January 4, 1966 (31 F.R. 849)). The plan for each DoD Component should cover conditions as of April 1, 1967, and should provide for compliance with Executive Order 11288, "Prevention, Control, and Abatement of Water Pollution by Federal Activities," July 2, 1966, at all DoD installations by the end of fiscal year 1972.

(b) Twenty (20) copies each of Format A, "Water Pollution Control—Requirements Planned by Installation" (§ 243.8) and Format B, "Water Pollution Control-Summary Financing Plan" (§ 243.9) will be submitted for each installation which is below the general standards set forth in Executive Order 11288, "Prevention, Control, and Abatement of Water Pollution by Federal Activities," July 2, 1966. Format B (§ 243.9) will list all installations covered in Format A in order of their recommended priority in funding the required remedial measures. Amounts in the "total" column of Format B should equal the total amount indicated for each project in section 7 on Format A. Installations will be designated in the same manner as used in the Annual Real Property Inventory furnished the General Services Administration pursuant to Subchapter A, Part 101-3 of the Federal Property Management Regulations.

§ 243.6 Annual progress reports and revised plans.

Each DoD Component will submit twenty (20) copies of an annual fiscal year progress report (Format C (§ 243.10) to the ASD(I&L)) describing progress in accomplishing the objectives of the pollution abatement plan by June 15, 1967, and by the first of June of each year thereafter, covering conditions existing as of April 1, or when appropriate, conditions anticipated by June 30 of the year in which submitted. The annual progress report shall be accompanied by revised requirements and financial plans, as necessary. The first progress report due June 15, 1967, will cover installations included in the plan submitted to the Bureau of the Budget in July 1966 (as modified by the fiscal year 1968 budget).

(a) *Annual Progress Reports:* Will be comprised of separate reports for each installation covered by the plan, except those where remedial measures (1) have been completed prior to the fiscal year covered by the annual report or (2) are scheduled for budgeting and financing in a subsequent budget estimate submission and no planning and design work have been initiated. All information specified on Format C, "Water Pollution Control-Annual Progress Report by Installation, Fiscal Year ------ (§ 243.10), will be included in the annual report.

(1) The report will contain information on projects included in the President's budget of the preceding or prior fiscal year and on congressional action on each of these projects. If congressional action has not yet been taken on the project, the DoD Components will so indicate, and the project should be restated in the following year's annual progress report indicating final congressional action thereon.

(ii) The report for each installation will also include the specific prevention, control or abatement measures (a) completed during the preceding fiscal year, and (b) the progress on remedial measures for which work has been started, but not yet completed.

(b) *Revised plans:* If changed conditions, such as the nature or volume of the water pollutant discharged, have caused a previously nonpolluting installation to contribute to pollution, a Format A (§ 243.8) will be submitted for that installation as part of the DoD Component's annual report. If such changed conditions, unanticipated budgetary action, or other factors have made revisions in a DoD Component's overall plan necessary, a revised financing plan (Format B, § 243.9) will also be submitted as part of the annual report.

§ 243.7 Report Control Symbol.

Reporting requirements contained herein have been assigned Report Symbol DD-I&L(A)781.

§ 243.8 Water Pollution Control: Requirements Planned by Installation (Format A).

FORMAT A (MILITARY DEPARTMENT)
OR
(DEFENSE AGENCY)

WATER POLLUTION CONTROL—REQUIREMENTS PLANNED BY INSTALLATION

(a) Name of installation and GSA inventory control number. Albemarle Arsenal—No. 546307.

(b) Location of installation (State, County, and Town or City). Utah, Jefferson County, Albemarle.

(c) Location of point(s) of discharge and Federal enforcement action taken, if any. Effluent from primary sewage treatment plant, Albemarle Arsenal, discharges into Jefferson River. Arsenal was cited in the Tri-State enforcement action, October 20, 1965.

(d) Nature and amount of pollutant being discharged. 3 million gallons/day of domestic sewage.

(e) Existing level of control being provided and effectiveness in removing the significant pollutants at this installation. Primary treatment plant consisting of bar screen, grit chamber, chemical flocculator with mechanical mixing, primary settling tanks, and sludge digestor. Average BOD removal of 50 percent. Average suspended solids removal of 60 percent.

(f) Remedial measures proposed and estimated effectiveness in removing the significant pollutants at this installation. Installation of secondary treatment consisting of two high-rate trickling filters and secondary clarifier. Would provide average BOD removal of 90 percent and average suspended solids removal of 92 percent.

(g) Cost of remedial measures (in thousands of dollars). Total cost: $600 for trickling filters and clarifier. Cost by fiscal years: 1968—$50 for design and engineering studies; 1969—$750 for construction.

(h) Title and symbol of account under which costs will be appropriated. Construction 96X1111.

§ 243.9 Water Pollution Control: Summary Financing Plan (Format B).

FORMAT B
(MILITARY DEPARTMENT)
OR

Chapter XVI—Selective Service System

[Amdt. No. 105]

SELECTIVE SERVICE REGULATIONS

Miscellaneous Amendments

The Selective Service Regulations are hereby amended as follows:

PART 1607—FINANCE ADMINISTRATION

1. Part 1607—Finance Administration, is amended as follows:

(a) Section 1607.2 *State Director of Selective Service May Authorize Certain Expenditures*, is amended to read as follows:

§ 1607.2 State Director of Selective Service may authorize certain expenditures.

Subject to the provisions of applicable regulations and to any limitation imposed by the Director of Selective Service, the State Director of Selective Service, or his designee, may authorize such lawful expenditures as he determines to be necessary for the operation and maintenance of the Selective Service System in his State.

§ 1607.3 [Revoked]

(b) Section 1607.3 *State Procurement Officer*, is hereby rescinded.

(c) Section 1607.5 *Report of obligations*, is amended to read as follows:

§ 1607.5 Report of obligations.

A report of obligations incurred shall be submitted for each State Headquarters at such times and in such manner as the Director of Selective Service may prescribe.

PART 1609—EXPENDITURES OTHER THAN FOR PERSONAL SERVICES

2. Part 1609—Expenditures Other Than for Personal Services, is amended as follows:

(a) Section 1609.1 *Procurement*, is amended as follows:

(1) Paragraph (b) and (d) are amended to read as follows:

§ 1609.1 Procurement.

* * * * *

(b) In each State the procurement of property, equipment, supplies, office space, and services, unless otherwise provided for by regulations or instructions of the Director of Selective Service, shall be performed by the State Director of Selective Service, or his designee.

* * * * *

(d) Except when circumstances justify other action, the procurement of property, equipment and supplies shall be accomplished through the General Services Administration.

(2) Paragraph (e) is rescinded, and paragraph (f) is redesignated as paragraph (e).

(b) Section 1609.2 *Requisitions*, is amended to read as follows:

§ 1609.2 Requisitions.

Equipment, supplies, and services required by selective service offices within the State will be obtained by requisition on the State Director of Selective Service, or his designee.

(c) Paragraph (b) of § 1609.21 *Telephone; authorization*, is amended to read as follows:

§ 1609.21 Telephone; authorization.

* * * * *

(b) Contracts, when required, for telephone installation shall be executed by the General Services Administration.

PART 1610—PROPERTY ACCOUNTABILITY

3. Paragraphs (a) and (b) of § 1610.2 of Part 1610—*Property Accountability*, are amended to read as follows:

§ 1610.2 Government property; responsibility and accountability.

(a) The State Director of Selective Service shall designate for each selective service office in the State an officer or a compensated civilian employee who shall be responsible for property of the United States in the possession of that office.

(b) The State Director of Selective Service, or his designee, shall be accountable for all U.S. Government property purchased by, or issued, transferred, or donated to the Selective Service System within his State, and accurate records of such property shall be maintained and reports rendered as may be prescribed by the Director of Selective Service.

(Sec. 10, 62 Stat. 618, as amended; 50 U.S.C. App. 460; E.O. 9979, July 20, 1948, 13 F.R. 4177; 3 CFR 1948-48 Comp)

PART 1622—CLASSIFICATION RULES AND PRINCIPLES

4. Part 1622—Classification Rules and Principles, is amended as follows:

(a) Subparagraph (2) of paragraph (f) of § 1622.23a, *Standards and requirements for Apprentice Training Programs and acceptance of such programs for deferment purposes under paragraph* (b) of § *1622.23*, is amended to read as follows:

§ 1622.23a Standards and requirements for apprentice training programs and acceptance of such programs for deferment purposes under paragraph (b) of § 1622.23.

* * * * *

(f) * * *

(2) The registrant currently is meeting all the standards and requirements of the apprentice training program and is satisfactorily performing and progressing in his on-the-job training and related trade instruction.

(Sec. 10, 62 Stat. 618, as amended; 50 U.S.C. App. 460; E.O. 10988, June 26, 1962, 17 F.R. 5740)

§ 1622.25a [Revoked]

(b) Section 1622.25a *Criteria concerning the placing of registrants in Class II-S*, is hereby rescinded.

(Sec. 10, 62 Stat. 618; 50 U.S.C. App. 460; E.O. 10984, Jan. 5, 1962, 27 F.R. 193)

[SEAL] LEWIS B. HERSHEY,
Director of Selective Service.

Title 43—PUBLIC LANDS: INTERIOR

SUBTITLE A—OFFICE OF THE SECRETARY OF THE INTERIOR

PART 2—RECORDS AND TESTIMONY

Part 2 of Title 43 of the Code of Federal Regulations is revised to read as follows:

Sec.
2.1 Inspection.
2.2 Determinations as to availability of records.
2.3 Charges.
2.4 Opinions in adjudication of cases; administrative manuals.
2.5 Compulsory process.
2.6 Testimony of employees.
2.7 Definition.

AUTHORITY: The provisions of this Part 2 are issued under 81 Stat. 54, 5 U.S.C. 552; 66 Stat. 290, 31 U.S.C. 483a; and 64 Stat. 402.

§ 2.1 Inspection.

Records of the Department of the Interior which are available to the public may be inspected or copied by any person during the normal business hours at the office in which the records are located. Requests to inspect or to obtain copies of records shall be handled as promptly as possible with due regard for the dispatch of other public business. While there is no general requirement that requests to inspect must be in writing, applicants may be required to file written requests in instances in which such action will assist in the search for the records sought or in the orderly filling of such requests. A request to inspect or to obtain copies of a record must contain a reasonably specific description of the records sought.

§ 2.2 Determinations as to availability of records.

(a) Section 552 of Title 5, U.S. Code, as amended by Public Law 90–23 (the act codifying the "Public Information Act") requires that identifiable agency records be made available for inspection. Subsection (b)[1] of section 552 exempts several categories of records from the general requirement but does not require the withholding from inspection of all records which may fall within the categories exempted. Accordingly, no request made of a field office to inspect a record shall be denied unless the head of the office or such higher field authority as the head of the bureau may designate shall determine (1) that the record falls within one or more of the categories exempted and (2) either that disclosure is prohibited by statute or Executive order or that sound grounds exist which require the invocation of the exemption. A request to inspect a record located in the headquarters office of a bureau shall not be denied except on the basis of a similar determination made by the head of the bureau or his designee, and a request made to inspect a record located in a major organizational unit of the Office of the Secretary shall not be denied except on the basis of a similar determination by the head of that unit. Officers and employees of the Department shall be guided by the "Attorney General's Memorandum on the Public Information Section of the Administrative Procedure Act" of June 1967.

(b) An applicant may appeal from a determination that a record is not available for inspection to the Solicitor of the Department of the Interior, who may exercise all of the authority of the Secretary of the Interior in this regard. The Deputy Solicitor may decide such appeals and may exercise all of the authority of the Secretary in this regard.

§ 2.3 Charges.

(a) No charge shall be made for the inspection of any record available pursuant to the provisions of section 2.4. No charge shall be made in connection with requests to inspect identifiable records in those instances involving no search or only a nominal search for the records. In those instances in which a request to inspect a record requires more than a nominal search, a charge shall be made (in accordance with the policy of Bureau of the Budget Circular A–25, "User Charges") which covers the cost of the service.

(b) Except as otherwise provided in this section, a charge shall be made for a copy of a record. Such charge shall be at a rate that recovers the full cost of rendering the service in accordance with the policy of Bureau of the Budget Circular A–25, "User Charges."

(c) A charge of 25 cents may be made for each certificate or verification attached to authenticated copies of records furnished to the public.

(d) No charge shall be made for furnishing unauthenticated copies of any opinions, regulations, or instructions reproduced for gratuitous distribution.

(e) No charge shall be made for the making or verifying of copies of records which are required for official use by the officers of any branch of the Government.

(f) No charge shall be made for furnishing one copy of a personal document (e.g., a birth certificate) to a person who has been required to furnish it for retention by the Department.

(g) A copy of the transcript of a hearing before a hearing board in an adverse action or grievance proceeding shall be furnished without charge to the employee for whom the hearing was held.

(h) Money received from the collection of charges fixed under this section shall be deposited in the Treasury to the credit of the appropriation current and chargeable for the cost of furnishing the copies.

(i) Copies of records may be provided free:

(1) To press, radio, television, and newsreel representatives for dissemination to the general public.

(2) To donors with respect to the original of their gift, individuals or associations having an official voluntary or cooperative relationship to an agency in rendering assistance toward its work, or national governments and international agencies when furnishing the service without charge is an appropriate courtesy.

(3) To agencies of State and local governments which are carrying on a function related to that of the Federal agency involved, when furnishing the service will help to accomplish an objective of the Federal agency.

(4) When furnishing the service free saves costs or yields income equal to the direct costs of the agency providing the service. This category includes cases where the fee for the service would be included in a billing against the Government (for example, in cost-type contracts, or in the case of private physicians who are treating Government beneficiaries at Government expense).

(5) When furnishing the service free is in conformance with generally established business custom, such as furnishing personal reference data to prospective employers of former Government employees.

(6) To the extent of one copy, to those who require copies of records or information from the records in order to obtain financial benefits to which they may be entitled (e.g., veterans or their dependents, employees with workmen's compensation claims, or persons insured by the Government).

§ 2.4 Opinions in adjudication of cases; administrative manuals.

(a) (1) Copies of final opinions and orders issued in the following categories of cases are available for inspection and copying in the Docket and Records Section, Office of the Solicitor, Interior Building, Washington, D.C.:

(i) Appeals from decisions of officers of the Bureau of Land Management and of the Geological Survey in proceedings relating to lands or interests in land;

(ii) Contract appeals;

(iii) Tort claims decided in the headquarters office of the Office of the Solicitor, and appeals from decisions of Regional Solicitors or Field Solicitors on tort claims;

(iv) Irrigation claims under Public Works Appropriation Acts (e.g., 79 Stat. 1103) or 25 U.S.C. section 388 decided in the headquarters office of the Office of the Solicitor, and appeals from decisions of Regional Solicitors on irrigation claims;

(v) Appeals in Indian probate proceedings; and

(vi) Indian enrollment appeals.

(2) An Index-Digest is issued by the Office of the Solicitor. All opinions in the categories of cases described in subdivisions (i) and (ii) of subparagraph (1) of this paragraph (that is, land appeals and contract appeals), are covered in the Index-Digest; in addition, the Index-Digest covers the more important opinions in the remaining categories of cases described in subparagraph (1) of this paragraph and the more important opinions of law issued by the Office of the Solicitor. The Index-Digest is available for use by the public in the Docket and Records Section mentioned in subparagraph (1) of this paragraph and in the offices of the Regional Solicitors and Field Solicitors.[2] Selected opinions are published in a series entitled "Decisions of the United States Department of the Interior" (cited at I.D.) and copies may be obtained by subscription from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(3) Copies of final opinions and orders issued by Regional Solicitors on tort claims, irrigation claims, and appeals in Indian probate proceedings are available for inspection and copying in their respective offices. Copies of final opinions and orders issued by Field Solicitors on tort claims and by hearing examiners in Indian probate proceedings are available for inspection and copying in their respective offices.

(b) (1) Copies of final opinions and orders issued on appeals to the Director, Bureau of Land Management, in proceedings relating to lands and interests in land are available for inspection and copying in the Office of Appeals and Hearings, Bureau of Land Management, Robin Building, Silver Spring, Md., and in the offices of hearing examiners referred to in subparagraph (2) of this paragraph.

(2) Copies of final opinions and orders issued by hearing examiners of the Bureau of Land Management in proceedings relating to lands and interests in land are available for inspection at their offices in the Interior Building, 2929 Fulton Avenue, Sacramento, Calif., and in the Federal Building, Salt Lake City, Utah, and at the Robin Building, Silver Spring, Md.

(c) Copies of final opinions and orders issued in cases pertaining to applications for subsidies for the construction of fishing vessels are available for inspection and copying in the Branch of Grants and Loans, Bureau of Commercial Fisheries, Washington, D.C.

(d) Copies of final opinions and orders issued by the Oil Import Appeals Board are available for inspection and copying in the Office of the Chairman, Interior Building, Washington, D.C.

(e) The Departmental Manual is available for inspection in the Departmental Library, Interior Building, Washington, D.C., and at each of the regional offices of bureaus of the Department. The administrative manuals of those bureaus which have issued such documents are available for inspection at the headquarters offices and at the regional offices of the bureaus.

§ 2.5 Compulsory process.

(a) If the production of any record of the Department is sought by compulsory process and if it is determined, in accordance with the provisions of § 2.2 that the record should not be disclosed, the person making such determination shall immediately report the matter to the Solicitor. The person to whom the compulsory process is directed shall appear in answer to the process and respectfully decline to produce the record on the ground that the disclosure, pending the receipt of instructions from the Secretary of the Interior, is prohibited by the regulations in this part.

(b) The Solicitor of the Department of the Interior and the Deputy Solicitor may exercise all of the authority of the Secretary of the Interior under this section.

§ 2.6 Testimony of employees.

(a) An officer or employee of the Department shall not testify in any judicial or administrative proceeding concerning matters related to the business of the Government without the permission of the head of the bureau, or his designee, or of the Secretary of the Interior, or his designee. If the head of a bureau, or his designee, concludes that permission should be withheld, he shall report the matter immediately to the Solicitor for a determination, and the officer or employee shall appear in answer to process and respectfully decline to testify, pending the receipt of instructions from the Secretary, on the ground that testimony is prohibited by the regulations in this part. Pending instructions from the Secretary, or his designee, an officer or employee in the Office of the Secretary shall follow the same procedure.

(b) Any person (including a public agency) wishing an officer or employee of the Department to testify in a judicial or administrative proceeding concerning a matter related to the business of the Government may be required to submit a statement setting forth the interest of the litigant and the information with respect to which the testimony of the officer or employee of the Department is desired, before permission to testify will be granted under this section.

(c) The Solicitor of the Department of the Interior and the Deputy Solicitor may exercise all of the authority of the Secretary of the Interior under this section.

§ 2.7 Definition.

As used in the regulations in this part, the term "bureau" includes the other Departmental offices.

CHARLES F. LUCE,
Acting Secretary of the Interior.

JULY 3, 1967.

[1] Subsection (b) of section 552 provides that:

(b) This section does not apply to matters that are—

(1) Specifically required by Executive order to be kept secret in the interest of the national defense or foreign policy;

(2) Related solely to the internal personnel rules and practices of an agency;

(3) Specifically exempted from disclosure by statute;

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Interagency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Investigatory files compiled for law enforcement purposes except to the extent available by law to a party other than an agency;

(8) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(9) Geological and geophysical information and data, including maps, concerning wells.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Parts 1090, 1101]

[Docket Nos. AO 266-A9, AO 195-A16]

MILK IN CHATTANOOGA AND KNOXVILLE, TENN., MARKETING AREAS

Notice of Recommended Decision and Opportunity to File Written Exceptions On Proposed Amendments to Tentative Marketing Agreements and Orders

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreements and orders regulating the handling of milk in the Chattanooga and Knoxville marketing areas.

Interested parties may file written exceptions to this decision with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by the seventh day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quintuplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreements and to the orders as amended, were formulated, was conducted at Knoxville, Tenn., on May 24, 1967, pursuant to notice thereof which was issued May 5, 1967 (32 F.R. 7133).

The material issues on the record of the hearing relate to:

1. The Class II price, and
2. Date for announcing class prices.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *The Class II price.* The Class II price under the Chattanooga and Knoxville orders should be established at the level of the basic formula price for the month. For the year ending April 30, 1967, this would have resulted in an average Class II price of $4.06. In the same 12 months, the actual Chattanooga and Knoxville Class II prices averaged $3.59 and $3.54, respectively.

The basic formula price for the Chattanooga and Knoxville orders is the average price per hundredweight paid for manufacturing grade milk in Minnesota and Wisconsin as reported by the U.S. Department of Agriculture, adjusted to a 3.5 percent butterfat test. This price series, which is used as a basis for determining Class I prices in most Federal orders, has also gained wide acceptance in the various orders as a formula for pricing milk used for manufacturing purposes.

The Class II price in the Knoxville order is now the average reported basic paying price at nine Tennessee milk manufacturing plants plus 10 cents in the months of February–August and 25 cents September–January. Such price, however, may not exceed the higher of (1) a formula based on the market prices of butter and nonfat dry milk or (2) a formula based on the market prices for butter and cheddar cheese. The average pay price of the nine Tennessee manufacturing plants adjusted by the fixed differentials has been consistently less than the two alternative prices. At no time in recent years has either of the two alternative prices been the effective Class II price.

The Chattanooga Class II price for February through August is the average reported basic paying prices of four local manufacturing plants. For other months, the Class II price is the higher of either the average paying price at such plants or a formula price based on market prices of butter and nonfat dry milk. The formula price generally has been the applicable Class II price in the September–January periods. For the year ending April 30, 1967, this formula price averaged $3.86; 20 cents less than the average Minnesota-Wisconsin price for the same 12-month period.

Under both the Chattanooga and Knoxville orders, the monthly Class II prices have been consistently below the Class II price that would have been obtained by using the Minnesota-Wisconsin price series as herein proposed.

The basic prices reported by local manufacturing plants are no longer appropriate for determining Class II prices under the two orders. The prices actually paid dairy farmers for milk delivered to these manufacturing plants are significantly more than the basic price quotations for such plants that are used in determining the orders' Class II prices. These basic price quotations do not include premiums for such things as volume, concrete floors, cooling, quality, bulk tank and hauling, some or all of which are paid to their patrons. Also, the formula prices now used in determining the Chattanooga and Knoxville Class II prices do not reflect the value of Class II milk in these markets under current conditions.

The major producer associations in the Knoxville and Chattanooga markets have for some time been disposing of their Class II milk, both to regulated and unregulated plants, at substantially more than the order Class II price. Such sales to local manufacturing plants have been at prices 50 to 70 cents above the Class II prices applicable under these orders. Also, since last September sales to regulated handlers of Class II milk in these markets have been negotiated at the level of the Minnesota-Wisconsin price series. On the other hand, however, the handlers receiving milk from producers unaffiliated with the cooperatives are required to settle with the pool only on the basis of the relatively low Class II prices that are now provided under the two orders.

The Class II price recommended herein is representative of the value of milk used for manufacturing purposes in the Chattanooga and Knoxville markets and will result in more equitable returns to producers for Class II milk. This formula is used for the same purpose in 44 other Federal orders. Utilizing it in the Chattanooga and Knoxville orders will return to producers a value for their milk consistent with the value of milk used in the manufacture of similar products in other markets. There was no opposition to the proposal for basing the Class II price on the Minnesota-Wisconsin price series.

Information on the prices paid at manufacturing plants in Wisconsin is assembled by the State-Federal Crop Reporting Service. A large number of manufacturing plants are included in the monthly sample on which average prices and butterfat content information is based. Plant operators report the total pounds of manufacturing grade milk received from farmers, the total butterfat content, and total dollars paid to dairy farmers for such milk, f.o.b. plant. Similar information is assembled for Minnesota manufacturing plants. These prices are available on a current month basis and are announced on or about the 5th day of the following month.

The Minnesota-Wisconsin price series for manufacturing grade milk reflects price information in each of the two States weighted by the proportionate amount of manufacturing milk produced in each State. The series is based upon a large sample of plants located in the remaining large production area of manufacturing grade milk in the United States. Competition for this milk is strong in both States. Consequently, no firm or group of firms can have a significant influence upon the level of prices.

The present Class II butterfat differential in the Chattanooga and Knoxville orders for adjusting the price for milk containing more or less than 3.5 percent

butterfat should be retained. It is arrived at for each one-tenth percent of butterfat by multiplying the monthly average wholesale selling price per pound of 92-score butter at Chicago by 11.5 percent. Producers maintain that this differential has been satisfactory in the past and would be suitable in connection with the adoption of the Class II price herein proposed. Moreover, this differential is the same as that applied to Class II prices under many other Federal orders, including the order for the nearby Nashville market.

Both orders also provide that the Class II butterfat differential shall not exceed the result obtained by dividing by 40 the price on a 4 percent butterfat basis of each of the average reported paying prices or formula prices now used in determining the Class II price. It would be impractical to retain in the order these reported pay prices and formula prices solely for the purpose of computing this proviso, especially since it has never been effective in establishing a Class II butterfat differential in the orders. Moreover, there is no indication that it would have any different effect in the future. Accordingly, the producer prepesal that it be removed from the orders should be adopted.

2. *Date for announcing class prices.* The Chattanooga and Knoxville Class I prices and butterfat differentials for the month should be announced by the market administrator not later than the 6th day of the month.

Both orders now provide for announcing the Class I price and butterfat differential by the 10th day of the month. The proposed earlier announcement date would be helpful to the industry by providing it with information concerning what the precise Class I price for the month would be at the earliest practicable date. Also, changing the Class I price announcement date from the 10th to the 6th day of the month will align the announcement dates in these orders with those provided in the great majority of the Federal milk orders and in all the nearby orders.

In determining the supply-demand adjustment applicable to their monthly Class I prices, the Chattanooga and Knoxville orders now use the producer milk deliveries and Class I sales data for the first and second preceding months. Since such data for the first preceding month would not be available by the proposed earlier announcement date (handler reports are not due until the 6th), it is necessary that the supply-sales data used in computing the supply-demand adjustment be those for the second and third preceding months. This requires that each 2-month utilization period and corresponding standard utilization percentages now used in computing the Class I price for a particular month be used instead for determining the following month's price. Thus, a price adjustment determined under the present provisions for a certain month would apply under the proposed change one month later. The level of adjustments on an annual basis, however, would not be affected by this change in the supply-demand provisions.

The Chattanooga order provides that the market administrator announce the Class II price and butterfat differential by the 10th day of the following month. Since the information for computing the Class II price will now be available on or about the 5th day of the month, it is practicable and desirable that it be announced by the 6th, the same date by which most orders, including Knoxville, announce their Class II prices. This change, which was proposed by producers, should be adopted.

Rulings on proposed findings and conclusions. No briefs or proposed findings and conclusions were filed on behalf of interested parties.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreements and the orders, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing areas, and the minimum prices specified in the proposed marketing agreements and the orders, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreements and the orders, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, the marketing agreements upon which a hearing has been held.

Recommended marketing agreements and orders amending the orders. The following orders amending the orders as amended regulating the handling of milk in the Chattanooga and Knoxville marketing areas are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreements are not included in this decision because the regulatory provisions thereof would be the same as those contained in the orders, as hereby proposed to be amended:

PART 1090—MILK IN THE CHATTANOOGA MARKETING AREA

1. In § 1090.27(k), subparagraph (1) is revised to read as follows:

§ 1090.27 Duties.

* * * * *

(k) * * *

(1) The 6th day of each month, the Class I price and Class I butterfat differential, both for the current month; and the Class II price and Class II butterfat differential, both for the preceding month, and

* * * * * *

2. Section 1090.51 is revised to read as follows:

§ 1090.51 Class prices.

Subject to the provisions of §§ 1090.52 and 1090.53, the minimum prices per hundredweight of milk containing 3.5 percent butterfat, to be paid by each handler for milk received at his pool plant from producers during the month, shall be as follows:

(a) *Class I milk price.* The price per hundredweight for Class I milk for the month shall be the basic formula price for the preceding month, subject to the adjustments provided in subparagraphs (1) and (2) of this paragraph:

(1) Add $1.75, and plus 20 cents through April 1968;

(2) Add if the utilization percentage calculated pursuant to subparagraph (3) of this paragraph is less than, or subtract if it is more than, the standard utilization range, an amount determined by multiplying the net utilization percentage calculated pursuant to subparagraph (4) of this paragraph by 2 cents: *Provided,* That any addition or subtraction shall be limited to 50 cents per hundredweight;

(3) Calculate a utilization percentage for each month by dividing the net hundredweight of Class I milk (excluding the skim milk and butterfat in fluid milk products received during the month in the same product and same package from a plant fully regulated pursuant to Order No. 101 (Part 1101 of this chapter) regulating the handling of milk in the Knoxville marketing area) disposed of from all pool plants for the second and third preceding months into the total hundredweight of producer milk for the same months, multiplying by 100, and rounding the resultant figure to the nearest whole number;

(4) Calculate a net utilization percentage by determining the amount by which the utilization percentage calculated pursuant to subparagraph (3) of this paragraph exceeds the higher figure or is less than the lower figure of the standard utilization range in the following table:

Month for which price applies	Months for which utilization is computed	Standard utilization range	
		Minimum	Maximum
January	October–November	114	118
February	November–December	117	121
March	December–January	117	121
April	January–February	117	121
May	February–March	119	123
June	March–April	124	128
July	April–May	126	130
August	May–June	124	128
September	June–July	120	124
October	July–August	118	119
November	August–September	110	114
December	September–October	114	118

(b) *Class II milk price.* The Class II milk price shall be the basic formula price for the month.

3. Section 1090.52(b) is revised to read as follows:

§ 1090.52 Butterfat differentials to handlers.

* * * * *

(b) *Class II milk price.* Multiply the Chicago butter price for the month by 0.115.

PART 1101—MILK IN THE KNOXVILLE MARKETING AREA

1. In § 1101.22(j), subparagraph (1) is revised to read as follows:

§ 1101.22 Duties.

* * * * *

(j) * * *

(1) The 6th day of each month, the Class I price and the Class I butterfat differential, both for the current month;

* * * * *

2. Section 1101.51 is revised to read as follows:

§ 1101.51 Class prices.

Subject to the provisions of §§ 1101.52 and 1101.53, each handler shall pay producers, at the time and in the manner set forth in §§ 1101.80 through 1101.86, not less than the prices per hundredweight computed as follows for the respective quantities of Class I milk and Class II milk computed pursuant to § 1101.46:

(a) *Class I milk price.* The price per hundredweight for Class I milk for the month shall be the basic formula price for the preceding month, subject to the adjustments provided in subparagraphs (1) and (2) of this paragraph:

(1) Add $1.50, and plus 20 cents through April 1968;

(2) Add if the utilization percentage calculated pursuant to subparagraph (3) of this paragraph is less than, or subtract if it is more than, the base utilization range, an amount determined by multiplying the net utilization percentage calculated pursuant to subparagraph (4) of this paragraph by 2 cents: *Provided,* That any addition or subtraction shall be limited to 50 cents per hundredweight;

(3) Calculate a utilization percentage for each month by dividing the net hundredweight of Class I milk disposed of from all pool plants for the second and third preceding months into the total hundredweight of producer milk for the same months, multiplying by 100, and rounding the resultant figure to the nearest whole number;

(4) Calculate a "net utilization percentage" by determining the amount by which the utilization percentage calculated pursuant to subparagraph (3) of this paragraph exceeds the higher figure or is less than the lower figure of the base utilization range in the following table:

Pricing month	Second and third preceding months	Base utilization range
January	October–November	114–118
February	November–December	114–118
March	December–January	114–118
April	January–February	114–118
May	February–March	115–119
June	March–April	124–128
July	April–May	121–125
August	May–June	120–124
September	June–July	124–128
October	July–August	116–120
November	August–September	112–116
December	September–October	110–114

(b) *Class II milk price.* The Class II milk price shall be the basic formula price for the month.

3. Section 1101.52(b) is revised to read as follows:

§ 1101.52 Butterfat differentials to handlers.

* * * * *

(b) *Class II milk.* Multiply the average price per pound of butter for the month as described in § 1101.50 by 0.115.

Signed at Washington, D.C., on June 30, 1967.

CLARENCE H. GIRARD,
Deputy Administrator,
Regulatory Programs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 14]

CACAO PRODUCTS; SWEET AND MILK CHOCOLATE

Identity Standards; Proposal To List Sorbitan Monostearate and Polysorbate 60 as Optional Ingredients

Notice is given that a petition has been filed by Atlas Chemical Industries, Inc., Wilmington, Del. 19899, proposing that the standards of identity for sweet chocolate (21 CFR 14.6) and milk chocolate (21 CFR 14.7) be amended by listing sorbitan monostearate and polysorbate 60 as additional optional emulsifiers. The emulsifiers presently permitted in these products are lecithin (with or without related natural phosphatides) and mono- and diglycerides of fat-forming fatty acids (in combination with monosodium phosphate derivatives thereof).

The proposal sets limits of 1 percent on the sorbitan monostearate and 0.5 percent on the polysorbate 60 with a total quantity limitation on all four ingredients of 1.5 percent, and with the following further limitations on percent by weight of the finished food:

1. The total amount of lecithin and mono- and diglycerides, used singly or in combination, does not exceed 0.5 percent.

2. The total amount of any two or all three of the ingredients mono- and diglycerides, sorbitan monostearate, and polysorbate 60 in any combination does not exceed 1 percent.

Due to cross-references, adoption of the proposed amendment to the standard for sweet chocolate (§ 14.6) would have the effect of making sorbitan monostearate and polysorbate 60 permitted ingredients in sweet cocoa and vegetable fat (other than cacao fat) coating (§ 14.12), and adoption of the proposed amendment to the standard for milk chocolate (§ 14.7) would have the effect of making sorbitan monostearate and polysorbate 60 permitted ingredients of skim milk chocolate (§ 14.8), buttermilk chocolate (§ 14.9), and mixed dairy product chocolates (§ 14.10). The proposal provides that sorbitan monostearate and polysorbate 60 not be permitted optional ingredients in sweet chocolate and vegetable fat (other than cacao fat) coating (§ 14.11).

The proposed amendments would require any sorbitan monostearate or polysorbate 60 used in a standardized cacao product to be declared on the product label as "Emulsifier Added" or "With Added Emulsifier."

Concurrently with the petition to amend the cacao products standards Atlas Chemical Industries, Inc., has petitioned to amend the food additive regulations for sorbitan monostearate (21 CFR 121.1029) and polysorbate 60 (21 CFR 121.1030) to provide for the safe and limited use of these emulsifiers in cacao products.

Grounds set forth in the petitions to support the proposed amendments are that use of sorbitan monostearate and polysorbate 60 in cacao products will preserve the surface gloss and delay or prevent occurrence of "fat bloom," which is related to higher temperature storage conditions and is manifested as a gray film on the product due to migration of fat to the surface.

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (21 CFR 2.120), all interested persons are invited to submit their views in writing, preferably in quintuplicate, regarding this proposal. Such views and comments should be addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, within 60 days following the date of publication of this notice in the FEDERAL REGISTER, and may be accompanied by a memorandum or brief in support thereof.

Dated: June 28, 1967.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 121]

SMALL BUSINESS SIZE STANDARDS

Definitions of Small Business Manufacturers in Certain Manufacturing Industries and Classes of Products for Government Procurement

Notice is hereby given that the Administrator of the Small Business Administration proposes to amend Part 121 of Chapter I of Title 13 of the Code of Federal Regulations and revise existing or establish new definitions of a small business manufacturer in certain manufacturing industries and classes of products, for the purpose of Government procurement.

The Government procurement size standards for the manufacturing industries established in 1964 were based primarily on the 1947 Census of Manufactures and the 1948 Census of Business Statistics. As the 1954 and 1958 census data became available they were analyzed and some standards were revised. Since then the size structure of firms that provides effective competition in certain industries and classes of products has been affected by changes in (1) price levels and/or sales or physical volume of business, (2) production and distribution processes, and/or (3) the number and employment of companies. Further, the 1967 Edition of the Standard Industrial Classification Manual, prepared and published by the Bureau of the Budget, Executive Office of the President, contains changes in the composition of certain industries and subindustries. All of these factors make obsolete the current size standards for certain industries.

Accordingly, the size standards for certain industries and classes of products require revision. In addition, size standards need to be established for newly recognized industries and classes of products.

Proposed Schedule B with Explanation of Changes lists the various industries or classes of products and their census classification code, the proposed size standard for each, the current standard if different than the proposed standard and the nature of each change.

Interested persons may file with the Small Business Administration, within 15 days after publication of this proposal in the FEDERAL REGISTER, written statements of facts, opinions or arguments concerning the proposal.

All correspondence shall be addressed to:

Associate Administrator for Procurement and Management Assistance, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416, Attention: Size Standards Staff.

Dated: June 23, 1967.

EBERHARD L. BOUTIN,
Administrator.

PROPOSED SCHEDULE B WITH EXPLANATION OF CHANGES

MANUFACTURING

Census classification code	Industry	Proposed size standard (number of employees) [1]	Size standard currently in effect [2]	Type of change
	Major group 28—Chemicals and Allied Products:			
2813	Alkalies and chlorine	1,000	1,000	Revision of size standard.
2816	Carbon black	750	500	Do.
2823	Cellulosic manmade fibers	1,000		
2815	Cyclic intermediates, dyes, organic pigments (lakes and toners), and cyclic (coal tar) crudes.	750		Includes former industry 2814, Cyclic (coal tar) crudes, with 500-employee size standard.
2892	Explosives	750		
2813	Industrial gases [3]	1,000		
2819	Industrial inorganic chemicals, n.e.c.	750		
2818	Industrial organic chemicals, n.e.c.	1,000		
2816	Inorganic pigments	1,000		
2833	Medicinal chemicals and botanical products	750		
2844	Perfumes, cosmetics, and other toilet preparations.	750	500	Revision of size standard.
2834	Pharmaceutical preparations	1,000	750	Do.
2821	Plastics materials, synthetic resins, and nonvulcanizable elastomers.	750		
2841	Soap and other detergents, except specialty cleaners.	1,000	750	Do.
2824	Synthetic organic fibers, except cellulosic	1,000		
2822	Synthetic rubber (vulcanizable elastomers)	1,000		
	Major group 29—Electrical Machinery, Equipment, and Supplies:			
2836	Carbon and graphite products	750		
3672	Cathode ray picture tubes	750		
3634	Electric housewares and fans	750		
3641	Electric lamps [3]	2,500	1,000	Do.
3694	Electrical equipment for internal combustion engines.	750		
3631	Household cooking equipment	750		
3633	Household laundry equipment	1,000		
3632	Household refrigerators and home and farm freezers.	1,000		
3635	Household vacuum cleaners	750		
3622	Industrial controls	750		
3621	Motors and generators	1,000		
3652	Phonograph records	750		
3612	Power, distribution, and specialty transformers.	750		
3691	Primary batteries, dry and wet	2,500	1,000	Do.
3651	Radio and television receiving sets, except communication type.	750		
3671	Radio and television receiving type electron tubes, except cathode ray [4]	2,500	1,000	Do.
3661	Radio and television transmitting, signaling, and detection equipment and apparatus.	750		
3693	Radiographic X-ray, fluoroscopic X-ray, therapeutic X-ray, and other X-ray apparatus and tubes; electromedical and electrotherapeutic apparatus.	750	500	Do.
3674	Semiconductors and related devices	1,000	500	Formerly included in industry 3679, Electronic components and accessories, n.e.s., with 500-employee size standard.
3636	Sewing machines	750		
3613	Switchgear and switchboard apparatus	750		
3661	Telephone and telegraph apparatus [3]	2,500	1,000	Revision of size standard.
3673	Transmitting, industrial, and special purpose electron tubes.	750		
	Major group 34—Fabricated Metal Products, Except Ordnance, Machinery, and Transportation Equipment:			
3421	Cutlery	750	500	Do.
3466	Enameled iron and metal sanitary ware	750		
3411	Metal cans	1,000		
3482	Safes and vaults	1,000	500	Do.
	Major group 20—Food and Kindred Products:			
2063	Beet sugar	750		
2062	Cane sugar refining	750		
2032	Canned specialties	2,500	1,000	Do.
2045	Cereal preparations	1,000		
2072	Chocolate and cocoa products	750	500	Do.
2052	Cookies and crackers	750		
2085	Distilled, rectified, and blended liquors	750		
2087	Flavoring extracts and flavoring syrups, n.e.c.	750	500	Do.
2026	Fluid milk	750		
2082	Malt liquors	750	500	Do.
2046	Shortening, table oils, margarine, and other edible fats and oils, n.e.c.	750		
2075	Soybean oil mills	1,000	500	Do.
2068	Vegetable oil mills, except corn, cottonseed, and soybean.	1,000		
2044	Wet corn milling	750		
	Major group 35—Machinery, Except Electrical:			
3585	Air conditioning equipment and commercial and industrial refrigeration machinery and equipment.	750		
3562	Ball and roller bearings	750		
3574	Calculating and accounting machines, except electronic computing equipment.	500	1,000	Formerly included in industry 3571, Computing and accounting machines, including cash registers, with 1,000-employee size standard.
3531	Construction machinery and equipment	500		

See footnotes at end of table.

Census classification code	Industry	Proposed size standard (number of employees) [1]	Size standard currently in effect [2]	Type of change
3061	Reclaimed rubber	1,000	750	Do.
3011	Rubber footwear	1,000		
3011	Tires and inner tubes	1,000		
30112	Passenger car, truck, and bus tires (and off-the-road) pneumatic tires.	1,000		
	Major group 32—Stone, Clay, Glass, and Concrete Products:			
3281	Abrasive products	750	500	Do.
3251	Brick and structural clay tile	750		
3253	Ceramic wall and floor tile	750		
3255	Clay refractories	750		
3241	Cement, hydraulic	1,000	750	Do.
3275	Gypsum products	750		
3297	Nonclay refractories	750		
3229	Pressed and blown glass and glassware, n.e.c.	750		
3211	Flat glass	1,000	500	Do.
3296	Mineral wool	750		
3255	Nonclay refractories	750		
3281	Structural clay products	750		
3259	Vitreous china plumbing fixtures and china and earthenware fittings and bathroom accessories.	750		
3253	Vitreous china table and kitchen articles	750	500	Do.
	Major group 22—Textile Mill Products:			
2296	Automotive, apparel, and other industry fabrics, except rubberized.	1,000		
2295	Coated fabrics, not rubberized	1,000		
2221	Manmade fiber and silk broad woven fabric mills	1,000	750	Do.
2222	Manmade fiber and silk narrow fabric mills	1,000		
2231	Wool broad woven fabric mills, except felt.	1,000		
2298	Cordage and twine	750		
2211	Cotton broad woven fabric mills	1,000	750	Do.
2241	Narrow fabric and other smallwares mills: cotton, wool, manmade fiber, and silk.	750		
2392	Housefurnishings, except curtains and drapes	750		
2391	Curtains and drapes	750		
2393	Textile bags	750		
2394	Canvas and related products	750		
2399	Fabricated textile products, n.e.c.	750		
	Major group 23—Apparel and Other Finished Products Made From Fabrics and Similar Materials:			
2385	Raincoats and other rubberized apparel	1,000	500	Do.
2386	Leather and sheep-lined clothing	750		
2381	Fabric dress and work gloves	750		
2384	Robes and dressing gowns	750		
2383	Waterproof outerwear	1,000	500	Do.
	Major group 24—Lumber and Wood Products, Except Furniture:			
2435	Hardwood veneer and plywood	750		
2426	Hardwood dimension and flooring mills	750		
2421	Sawmills and planing mills, general	750		
2429	Special product sawmills, n.e.c.	750		
2491	Wood preserving	750		
2436	Softwood veneer and plywood	750		
2493	Reconstituted wood products	750		
	Major group 25—Furniture and Fixtures:			
2515	Mattresses and bedsprings	1,000	500	Do.
2511	Wood household furniture	750		
2512	Upholstered household furniture	750		
2521	Wood office furniture	750		
2522	Office furniture, except wood	750		
2531	Public building and related furniture	750		
2541	Wood partitions and fixtures	750		
2542	Partitions and fixtures, except wood	750		
	Major group 26—Paper and Allied Products:			
2655	Fiber cans, drums, and similar products	750		
2611	Pulp mills	750		
2621	Paper mills, except building paper	750		
2631	Paperboard mills	750		
2652	Setup paperboard boxes	750		
2651	Folding paperboard boxes	750		
2653	Corrugated and solid fiber boxes	750		
2654	Sanitary food containers	750		
2649	Sanitary paper products	750		
	Major group 27—Printing and Publishing:			
2731	Book publishing	500	250	Revision of size standard.
2732	Book printing	500		
2752	Commercial printing, lithographic	500		
2754	Commercial printing, gravure	500		
2759	Commercial printing, n.e.c.	500		
2761	Manifold business forms	500		
2782	Blankbooks and looseleaf binders	500		
2789	Bookbinding and related work	500		
2791	Typesetting	500		
2796	Platemaking and related services	500		
	Major group 28—Chemicals and Allied Products:			
2861	Gum and wood chemicals	750		
2865	Cyclic crudes and intermediates	750		
2869	Industrial organic chemicals, n.e.c.	750		
2819	Industrial inorganic chemicals, n.e.c.	750		
2895	Carbon black	750		
2851	Paints and allied products	750		
2911	Petroleum refining [5]	1,500	1,000	Revision of size standard.
	Major group 29—Petroleum Refining and Related Industries:			
2951	Asphalt felts and coatings	750		
2952	Asphalt paving mixtures and blocks	750		
2992	Lubricating oils and greases	750		
2911	Petroleum refining [5]	1,500	1,000	Revision of size standard.
	Major group 30—Rubber and Miscellaneous Plastics Products:			
3011	Tires and inner tubes	1,000		
3021	Rubber and plastics footwear	1,000		
3052	Rubber and plastics hose and belting	1,000		
3069	Fabricated rubber products, n.e.c.	1,000	750	Do.
3079	Miscellaneous plastics products	1,000		
	Major group 31—Leather and Leather Products:			
3111	Leather tanning and finishing	750		
3131	Boot and shoe cut stock and findings	750		
3142	House slippers	750		
3149	Footwear, except rubber, n.e.c.	750		
3172	Personal leather goods	750		
3111	Leather, gloves and mittens	750		
3199	Leather goods, n.e.c.	750		
	Major group 32—Stone, Clay, Glass, and Concrete Products:			
3211	Flat glass	1,000	500	Do.
3221	Glass containers	1,000		
3229	Pressed and blown glass and glassware, n.e.c.	750		
3231	Products of purchased glass	750		
3241	Cement, hydraulic	1,000	750	Do.
3251	Brick and structural clay tile	750		
3253	Ceramic wall and floor tile	750		
3255	Clay refractories	750		
3259	Structural clay products, n.e.c.	750		
3261	Vitreous china plumbing fixtures and china and earthenware fittings and bathroom accessories.	750		
3262	Vitreous china table and kitchen articles	750	500	Do.
3264	Porcelain electrical supplies	750		
3269	Pottery products, n.e.c.	750		
3271	Concrete block and brick	750		
3272	Concrete products, except block and brick	750		
3273	Ready-mixed concrete	750		
3274	Lime	750		
3281	Cut stone and stone products	750		
3291	Abrasive products	750		
3292	Asbestos products	750		
3293	Gaskets, packing, and sealing devices	750		
3295	Minerals, ground or treated	750		
3296	Mineral wool	750		
3297	Nonclay refractories	750		
3299	Nonmetallic mineral products, n.e.c.	750		
	Major group 33—Primary Metal Industries:			
3312	Blast furnaces and steel mills	1,000	750	Do.
3313	Electrometallurgical products	1,000		
3315	Steel wire drawing and steel nails and spikes	1,000		
3316	Cold rolled steel sheet, strip, and bars	1,000		
3317	Steel pipe and tubes	1,000		
3321	Gray iron foundries	1,000		
3322	Malleable iron foundries	1,000		
3323	Steel foundries, n.e.c.	1,000		
3331	Primary smelting and refining of copper	1,000		
3334	Primary production of aluminum	1,000		
3339	Primary smelting and refining of nonferrous metals, except copper and aluminum.	1,000		
3341	Secondary smelting and refining of nonferrous metals.	1,000		
3351	Rolling, drawing, and extruding of copper	1,000		
3353	Aluminum sheet, plate, and foil	1,000		
3354	Aluminum extruded products	1,000		
3355	Aluminum rolling and drawing, n.e.c.	1,000		
3356	Rolling, drawing, and extruding of nonferrous metals, except copper and aluminum.	1,000		
3357	Nonferrous wiredrawing and insulating	1,000		
3365	Aluminum foundries	1,000		
3366	Copper foundries	1,000		
3369	Nonferrous foundries, except aluminum and copper.	1,000		
3398	Metal heat treating	1,000		
3399	Primary metal products, n.e.c.	1,000		
	Major group 34—Fabricated Metal Products, Except Ordnance, Machinery, and Transportation Equipment:			
3411	Metal cans	1,000	750	Do.
3412	Metal barrels, drums, kegs, and pails	1,000		
3421	Cutlery	750	500	Do.
3423	Hand and edge tools, n.e.c.	750		
3425	Saw blades and handsaws	750		
3429	Hardware, n.e.c.	750		
3431	Enameled iron and metal sanitary ware	750		
3432	Plumbing fixture fittings and trim	750		
3433	Heating equipment, except electric and warm air furnaces.	750		
3441	Fabricated structural metal	750		
3442	Metal doors, sash, frames, molding, and trim	750		
3443	Fabricated plate work (boiler shops)	750		
3444	Sheet metal work	750		
3446	Architectural metal work	750		
3448	Prefabricated metal buildings and components.	750		
3449	Miscellaneous metal work	750		
3451	Screw machine products	750		
3452	Bolts, nuts, screws, rivets, and washers	750		
3461	Metal stampings	750		
3462	Iron and steel forgings	750		
3463	Nonferrous forgings	750		
3464	Automotive stampings	750		
3465	Crowns and closures	750		
3466	Metal stampings, n.e.c.	750		
3469	Metal foil and leaf	750		
3471	Electroplating, plating, polishing, anodizing, and coloring.	750		
3479	Coating, engraving, and allied services, n.e.c.	750		
3482	Small arms ammunition	750		
3483	Ammunition, except for small arms	750		
3484	Small arms	750		
3489	Ordnance and accessories, n.e.c.	750		
3491	Industrial valves	750		
3492	Fluid power valves and hose fittings	750		
3493	Steel springs, except wire	750		
3494	Valves and pipe fittings, n.e.c.	750		
3495	Wire springs	750		
3496	Miscellaneous fabricated wire products	750		
3497	Metal foil and leaf	750		
3498	Fabricated pipe and fittings	750		
3499	Fabricated metal products, n.e.c.	750		
	Major group 35—Machinery, Except Electrical:			
3511	Steam, gas, and hydraulic turbines, and turbine generator sets.	750	500	Do.
3519	Internal combustion engines, n.e.c.	750		
3523	Farm machinery and equipment	750		
3524	Lawn and garden equipment	750		
3531	Construction machinery and equipment	500		
3532	Mining machinery and equipment, except oil field machinery.	750		
3533	Oil field machinery and equipment	750		
3534	Elevators and moving stairways	750		
3535	Conveyors and conveying equipment	750		
3536	Hoists, cranes, and monorails	750		
3537	Industrial trucks, tractors, trailers, and stackers	750		
3541	Machine tools, metal cutting types	750		
3542	Machine tools, metal forming types	750		
3543	Industrial patterns	750		
3544	Special dies and tools and machine tool accessories.	750		
3545	Machine tool accessories	750		
3546	Power driven handtools	750		
3547	Rolling mill machinery and equipment	750		
3548	Electric and gas welding and soldering equipment.	750		
3549	Metalworking machinery, n.e.c.	750		
3551	Food products machinery	750		
3552	Textile machinery	750		
3553	Woodworking machinery	750		
3554	Paper industries machinery	750		
3555	Printing trades machinery and equipment	750		
3559	Special industry machinery, n.e.c.	750		
3561	Pumps and pumping equipment	750		
3562	Ball and roller bearings	750		
3563	Air and gas compressors	750		
3564	Blowers and fans	750		
3565	Packaging machinery	750		
3566	Speed changers, industrial high speed drives, and gears.	750		
3567	Industrial furnaces and ovens	750		
3568	Mechanical power transmission equipment, n.e.c.	750		
3569	General industrial machinery, n.e.c.	750		
3571	Electronic computing equipment	750	500	Do.
3572	Computer storage devices	750		
3573	Computer terminals	750		
3574	Calculating and accounting machines, except electronic computing equipment.	500	1,000	Formerly included in industry 3571, Computing and accounting machines, including cash registers, with 1,000-employee size standard.
3579	Office machines, n.e.c.	750	500	Do.
3581	Automatic merchandising machines	750		
3582	Commercial laundry, dry cleaning, and pressing machines.	750		
3585	Air conditioning equipment and commercial and industrial refrigeration machinery and equipment.	750		
3586	Measuring and dispensing pumps	750		
3589	Service industry machines, n.e.c.	750		
3592	Carburetors, pistons, piston rings, and valves	750		
3593	Fluid power cylinders and actuators	750		
3594	Fluid power pumps and motors	750		
3596	Scales and balances, except laboratory	750		
3599	Machinery, except electrical, n.e.c.	750		
	Major group 36—Electrical Machinery, Equipment, and Supplies:			
3612	Power, distribution, and specialty transformers.	750		
3613	Switchgear and switchboard apparatus	750		
3621	Motors and generators	750		
3622	Industrial controls	750		
3623	Welding apparatus, electric, except electrolytic	750		
3624	Carbon and graphite products	750		
3629	Electrical industrial apparatus, n.e.c.	750		
3631	Household cooking equipment	750		
3632	Household refrigerators and home and farm freezers.	1,000		
3633	Household laundry equipment	1,000		
3634	Electric housewares and fans	750		
3635	Household vacuum cleaners	750		
3636	Sewing machines	750		
3639	Household appliances, n.e.c.	750		
3641	Electric lamps [3]	2,500	1,000	Do.
3643	Current-carrying wiring devices	750		
3644	Noncurrent-carrying wiring devices	750		
3645	Residential electric lighting fixtures	750		
3646	Commercial, industrial, and institutional electric lighting fixtures.	750		
3647	Vehicular lighting equipment	750		
3648	Lighting equipment, n.e.c.	750		
3651	Radio and television receiving sets, except communication type.	750		
3652	Phonograph records	750		
3661	Radio and television transmitting, signaling, and detection equipment and apparatus.	750		
3662	Radio and television communication equipment	750		
3671	Radio and television receiving type electron tubes, except cathode ray [4]	2,500	1,000	Do.
3672	Cathode ray picture tubes	750		
3674	Semiconductors and related devices	1,000	500	Formerly included in industry 3679, Electronic components and accessories, n.e.c., with 500-employee size standard.
3675	Electronic capacitors	750		
3676	Electronic resistors	750		
3677	Electronic coils, transformers, and other inductors.	750		
3678	Electronic connectors	750		
3679	Electronic components, n.e.c.	750		
3691	Storage batteries	750		
3692	Primary batteries, dry and wet	2,500	1,000	Do.
3693	Radiographic X-ray, fluoroscopic X-ray, therapeutic X-ray, and other X-ray apparatus and tubes; electromedical and electrotherapeutic apparatus.	750	500	Do.
3694	Electrical equipment for internal combustion engines.	750		
3699	Electrical machinery, equipment, and supplies, n.e.c.	750		
	Major group 37—Transportation Equipment:			
3711	Motor vehicles and passenger car bodies	1,000		
3713	Truck and bus bodies	750		
3714	Motor vehicle parts and accessories	750		
3715	Truck trailers	750		
3716	Motor homes	750		
3721	Aircraft	1,500	1,000	Revision of size standard.
3724	Aircraft engines and engine parts	1,000		
3728	Aircraft parts and auxiliary equipment, n.e.c.	1,000		
3731	Ship building and repairing	1,000		
3732	Boat building and repairing	750		
3743	Railroad and street cars	750		
3751	Motorcycles, bicycles, and parts	750		
3761	Guided missiles and space vehicles	1,000		
3764	Guided missile engines and engine parts	1,000		
3769	Guided missile and space vehicle parts and auxiliary equipment, n.e.c.	1,000		
3792	Travel trailers and campers	750		
3799	Transportation equipment, n.e.c.	750		
	Major group 38—Instruments and Related Products:			
3811	Engineering and scientific instruments	750		
3822	Automatic temperature controls	750		
3823	Industrial process measurement and control instruments.	750		
3824	Totalizing fluid meters and counting devices	750		
3825	Instruments to measure electricity	750		
3826	Laboratory analytical instruments	750		
3827	Optical instruments and lenses	750		
3829	Measuring and controlling devices, n.e.c.	750		
3831	Optical instruments and lenses	750		
3841	Surgical and medical instruments and apparatus.	750	500	Do.
3842	Orthopedic, prosthetic, and surgical appliances and supplies.	750		
3843	Dental equipment and supplies	750		
3844	X-ray apparatus and tubes and therapeutic X-ray apparatus.	750		
3845	Electromedical and electrotherapeutic apparatus.	750		
3851	Ophthalmic goods	750		
3861	Photographic equipment and supplies	750	500	Do.
3873	Watches, clocks, clockwork operated devices, and parts.	750		
	Major group 39—Rubber and Miscellaneous Plastics Products:			
3911	Jewelry, precious metal	500	250	Do.
3914	Silverware, plated and stainless steel flatware.	500		
3915	Jewelers' findings and materials and lapidary work.	500		
3931	Musical instruments	500		
3942	Dolls and stuffed toys	500		
3949	Sporting and athletic goods, n.e.c.	500		
3951	Pens, mechanical pencils, and parts	500		
3952	Lead pencils, crayons, and artists' materials	500		
3953	Marking devices	500		
3955	Carbon paper and inked ribbons	500		
3961	Costume jewelry	500		
3962	Costume novelties, except precious metal	500		
3963	Buttons	500		
3964	Needles, pins, and fasteners	500		
3965	Fabricated textile products, n.e.c.	500		
3991	Brooms and brushes	500		
3993	Signs and advertising specialties	500		
3995	Burial caskets	500		
3996	Linoleum, asphalted-felt-base, and other hard surface floor covering, n.e.c.	750		
3999	Manufacturing industries, n.e.c.	500		

[1] The number of employees means the average employment of any concern and its affiliates based on the number of persons employed during the pay period ending nearest the last day of the third month in each calendar quarter for the preceding four quarters.

[2] Together with its affiliates does not employ more than 1,000 persons and does not have more than a combined capacity of 1,000 tons daily basis owned or leased by the firm.

[3] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[4] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[5] Is small if it is bidding on a contract for steam, gas, or hydraulic turbines or steam, gas or hydraulic turbine generator sets within Census classification code 3511 and together with its affiliates does not employ more than 2,500 persons and did not manufacture or produced of such engines, turbines or generator sets in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced in industry 3720. Missile control systems are classified in industry 3812.

[6] Guided missile engine and engine parts are classified in industry 3764. Missile control systems are classified in industry 3812.

[7] Is small if it is bidding on a contract for telephone and telegraph apparatus within Census classification code 3661 and together with its affiliates does not employ more than 2,500 persons and did not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such apparatus.

[8] Is small if it is bidding on a contract for steam, gas, or hydraulic turbines or steam, gas or hydraulic turbine generator sets within Census classification code 3511 and together with its affiliates does not employ more than 2,500 persons and did not manufacture or produced of such engines, turbines or generator sets in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced in industry 3720. Missile control systems are classified in industry 3812.

[9] Guided missile engine and engine parts are classified in industry 3764. Missile control systems are classified in industry 3812.

[10] Is small if it is bidding on a contract for telephone and telegraph apparatus within Census classification code 3661 and together with its affiliates does not employ more than 2,500 persons and did not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such apparatus.

[11] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not employ more than 2,500 persons and did not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[12] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[13] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[14] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[15] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[16] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[17] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[18] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[19] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[20] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[21] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[22] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[23] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[24] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[25] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[26] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[27] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[28] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[29] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[30] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[31] Is small if it is bidding on a contract for radio and television receiving type electron tubes (except cathode ray) within Census classification code 3671 and together with its affiliates does not manufacture or otherwise produce in the United States during the preceding calendar year more than (0%) three percent of the total value manufactured or produced of such tubes.

[32] Is small if it is bidding on a contract for rad

[1] The size standards for Census classification codes 30111, 30112, and 37171 are set forth in §§ 121.3-8(b)(4) and 121.3-8(b)(5) of the regulation.

[2] Is small if it is bidding on a contract for gypsum products within Census classification code 3275 and together with its affiliates does not employ more than 2,500 persons and did not manufacture or otherwise produce in the United States during the preceding calendar year more than (3%) three percent of the total value manufactured or produced of such gypsum products in the United States.

[3] Includes maintenance as defined in the Federal Aviation Regulations (14 CFR 1.1) but excludes contracts solely for preventive maintenance as defined in 14 CFR 1.1. As defined in the Federal Aviation Regulations:

" 'Maintenance' means inspection, overhaul, repair, preservation, and the replacement of parts, but excludes preventive maintenance. 'Preventive maintenance' means simple or minor preservation operations and the replacement of small standard parts not involving complex assembly operations."

[4] The three Standard Industrial Classification industries (3711, 3712, and 3716) have been combined because of a major problem of defining the reporting unit in terms of these industries. This difficulty arises from the fact that many large establishments have integrated operations which include the production of parts or bodies and the assembly of complete vehicles at the same location.

[13 CFR Part 121]

SMALL BUSINESS SIZE STANDARDS

Definitions of Small Business Manufacturers in Certain Manufacturing Industries and Classes of Products for Receiving Financial Assistance

Notice is hereby given that the Administrator of the Small Business Administration proposes to amend Part 121 of Chapter I of Title 13 of the Code of Federal Regulations and revise existing or establish new definitions of a small business manufacturer in certain manufacturing industries and classes of products, for the purpose of receiving financial assistance.

The financial assistance size standards for the manufacturing industries established in 1954 were based primarily on the 1947 Census of Manufactures and the 1948 Census of Business Statistics. As the 1954 and 1958 census data became available they were analyzed and some standards were revised. Since then the size structure of firms that provide effective competition in certain industries and classes of products has been affected by changes in (1) price levels and/or sales of physical volume of business, (2) production and distribution processes, and/or (3) the number of employment of companies. Further, the 1967 Edition of the Standard Industrial Classification Manual, prepared and published by the Bureau of the Budget, Executive Office of the President, contains changes in the composition of certain industries and subindustries. All of these factors make obsolete the current size standards for certain industries.

Accordingly, the size standards for certain industries and classes of products require revision. In addition, size standards need to be established for newly recognized industries and classes of products.

Proposed Schedule A with Explanation of Changes lists the various industries or classes of products and their census classification codes, the proposed size standard for each, the current standard if different than the proposed standard and the nature of each change.

Interested persons may file with the Small Business Administration, within 15 days after publication of this proposal in the FEDERAL REGISTER, written statements of facts, opinions or arguments concerning the proposal.

All correspondence shall be addressed to:

Associate Administrator for Procurement and Management Assistance, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416, Attention: Size Standards Staff.

Dated: June 23, 1967.

BERNARD L. BOUTIN,
Administrator.

PROPOSED SCHEDULE A WITH EXPLANATION OF CHANGES

Census classification code	Industry or class of products	Proposed size standard (number of employees)[1]	Size standard currently in effect[2]	Type of change
	Major group 23—Apparel and Related Products, except for the following industries.	250		
2342	Corsets and allied garments	500	250	Revision of size standard.
2371	Men's, youths', and boys' shirts (except work shirts), collars, and nightwear	500		
2311	Men's, youths', and boys' suits, coats, and overcoats	500	250	Do.
	Major group 28—Chemicals and Allied Products			
2891	Adhesives and gelatin	250		
2879	Agricultural pesticides, and other agricultural chemicals, n.e.c.	500		Includes former industry 2873, Agricultural pesticides, with same size standard.
2812	Alkalies and chlorine	1,000		
2831	Biological products	500	250	Revision of size standard.
2895	Carbon black	750	500	Do.
2823	Cellulosic manmade fibers	1,000		
2899	Chemicals and chemical preparations, n.e.c.	250		Includes former industry 2894, Fatty acids, with 500-employee size standard.
2815	Cyclic intermediates, dyes, organic pigments (lakes and toners), and cyclic (coal tar) crudes	750		Includes former industry 2814, Cyclic (coal tar) crudes, with 500-employee size standard.
2892	Explosives	750		
2871	Fertilizers	500		
2872	Fertilizers, mixing only	500		
2861	Gum and wood chemicals	500		
2813	Industrial gases [5]	1,000		Revision of size standard. See footnote.
2819	Industrial inorganic chemicals, n.e.c.	750		
2818	Industrial organic chemicals, n.e.c.	1,000		
2816	Inorganic pigments	1,000		
2833	Medicinal chemicals and botanical products	750		Includes former industry 2852, Putty, caulking compounds and allied products with same size standard.
2851	Paints, varnishes, lacquers, enamels, and allied products	250		
2844	Perfumes, cosmetics, and other toilet preparations	750	500	Revision of size standard.
2834	Pharmaceutical preparations	1,000	750	Do.
2821	Plastics materials, synthetic resins, and nonvulcanizable elastomers	750		
2893	Printing ink	250		
2841	Soap and other detergents, except specialty cleaners	1,000	750	Do.
2842	Specialty cleaning, polishing, and sanitation preparations, except soap and detergents	500		
2843	Surface active agents, finishing agents, sulfonated oils and assistants	250		
2824	Synthetic organic fibers, except cellulosic	1,000		
2822	Synthetic rubber (vulcanizable elastomers)	1,000		
	Major Group 36—Electrical machinery, equipment, and supplies			
3624	Carbon and graphite products	750		
3672	Cathode ray picture tubes	750		
3643	Current-carrying wiring devices	500		
3634	Electric housewares and fans	750		
3641	Electric lamps	1,000		
3611	Electric measuring instruments and test equipment	500		
3694	Electrical equipment for internal combustion engines	750		
3629	Electrical industrial apparatus, n.e.c.	500		
3699	Electrical machinery, equipment, and supplies, n.e.c.	500		
3679	Electronic components and accessories, n.e.c.	500		
3493	Steel springs	500		
3494	Valves and pipe fittings, except plumbers' brass goods	500		
	Major group 20—Food and Kindred Products:			
2394	Animal and marine fats and oils	500		Includes former industries 2006, Animal and marine fats and oils, except grease and tallow, and 2004, Grease and tallow, with same size standards.
2063	Beet sugar	750		
2045	Blended and prepared flour	500		
2086	Bottled and canned soft drinks and carbonated waters	250		
2051	Bread and other bakery products, except cookies and crackers	250		
2071	Candy and other confectionery products	250		
2061	Cane sugar, except refining only	750		
2062	Cane sugar refining	250		
2091	Canned and cured fish and seafoods	500		
2033	Canned fruits, vegetables, preserves, jams, and jellies	1,000		
2032	Canned specialties	1,000		
2043	Cereal preparations	500		Includes processed and other cheese products from former industry 2026, Special dairy products, with same size standard.
2022	Cheese, natural and processed			
2073	Chewing gum	500	500	Revision of size standard.
2072	Chocolate and cocoa products	500		
2023	Condensed and evaporated milk	750		
2052	Cookies and crackers	250		
2074	Cottonseed oil mills	250		
2021	Creamery butter	750		
2085	Distilled, rectified, and blended liquors	500		
2034	Dried and dehydrated fruits and vegetables	750	500	Do.
2087	Flavoring extract and flavoring syrups, n.e.c.	500		
2041	Flour and other grain mill products	500		
2026	Fluid milk	250		
2099	Food preparations, n.e.c.	500		
20992	Peanuts (ready-to-mix)	500		
20994	Baking powder and yeast	250		
2092	Fresh or frozen packaged fish and sea foods	500		
2037	Frozen fruits, fruit juices, vegetables, and specialties	500		
2024	Ice cream and frozen desserts	250		
2098	Macaroni, spaghetti, vermicelli, and noodles	250		
2083	Malt	750	500	Do.
2082	Malt liquors	500		
2097	Manufactured ice	500		
2011	Meat packing plants	250		
2035	Pickled fruits and vegetables; vegetable sauces and seasonings; salad dressings	500	250	Do.
2015	Poultry and small game dressing and packing, wholesale	250		
2042	Prepared feeds for animals and fowls	250		
2044	Rice milling	500	250	Formerly included in industry 2099, Food preparations, n.e.c., with 250-employee size standard.
2095	Roasted coffee			
2013	Sausages and other prepared meat products	500		
2080	Shortening, table oils, margarine, and other edible fats and oils, n.e.c.	750		
2075	Soybean oil mills	1,000	500	Revision of size standard.
2076	Vegetable oil mills, except corn, cottonseed, and soybean	1,000		
2046	Wet corn milling	750		
2084	Wines, brandy, and brandy spirits	250		

[5] See footnotes at end of table.

FEDERAL REGISTER, VOL. 32, NO. 130—FRIDAY, JULY 7, 1967

Census classification code	Industry or class of products	Proposed size standard (number of employees)[1]	Size standard currently in effect[2]	Type of change
3630	Household appliances, n.e.c.	500		
3631	Household cooking equipment	750		
3633	Household laundry equipment	1,000		
3632	Household refrigerators and home and farm freezers	1,000		
3635	Household vacuum cleaners	750		
3823	Industrial controls	750		
3642	Lighting fixtures	500		
3621	Motors and generators	1,000		
3644	Noncurrent-carrying wiring devices	500		
3652	Phonograph records	750		
3612	Power, distribution, and specialty transformers	750		
3692	Primary batteries, dry and wet	1,000		
3651	Radio and television receiving sets, except communication types	750		
3671	Radio and television receiving type electron tubes, except cathode ray	1,000		
3662	Radio and television transmitting, signaling, and detection equipment and apparatus [3]	750		
3693	Radiographic X-ray, fluoroscopic X-ray, therapeutic X-ray, and other X-ray apparatus and tubes; electromedical and electrotherapeutic apparatus	750	500	Do.
3674	Semiconductors and related devices	1,000	500	Formerly included in industry 3679, Electronic components and accessories, n.e.c., with 500-employee size standard.
3636	Sewing machines	750		
3691	Storage batteries	750		
3613	Switchgear and switchboard apparatus	750		
3661	Telephone and telegraph apparatus	1,000		
3673	Transmitting, industrial, and special purpose electron tubes	750		
3699	Welding apparatus	500		
	Major Group 34—Fabricated Metal Products, Except Ordnance, Machinery, and Transportation Equipment:			
3446	Architectural and ornamental metal work	250		Formerly included in industry 3449, Architectural and miscellaneous metal work, with same size standard.
3452	Bolts, nuts, screws, rivets, and washers	500		
3479	Coating, engraving, and allied services, n.e.c.	250		
3498	Collapsible tubes	750	500	Revision of size standard.
3421	Cutlery	250		
3471	Electroplating, plating, polishing, anodizing, and coloring	750		
3431	Enameled iron and metal sanitary ware	250		
3499	Fabricated metal products, n.e.c.	500		
3498	Fabricated pipe and fabricated pipe fittings	500		
3443	Fabricated plate work (boiler shops)	500		
3441	Fabricated structural steel	500		
3423	Hand and edge tools, except machine tools and hand saws	250		
3425	Hand saws and saw blades	500		
3429	Hardware, n.e.c.	500		
3433	Heating equipment, except electric	1,000		
3411	Metal cans	750		
3442	Metal doors, sash, frames, molding, and trim	500		
3497	Metal foil and leaf	500		
3491	Metal shipping barrels, drums, kegs, and pails	250		
3461	Metal stampings	500		
3481	Miscellaneous fabricated wire products	500		
3449	Miscellaneous metal work	500		
3432	Plumbing fixture fittings and trim (brass goods)	1,000	500	Do.
3402	Sales and vaults	250		
3451	Screw machine products	500		
3444	Sheet metal work			

FEDERAL REGISTER, VOL. 32, NO. 130—FRIDAY, JULY 7, 1967

Census classification code	Industry or class of products	Proposed size standard (number of employees)[1]	Size standard currently in effect[2]	Type of change
	Major group 25—Furniture and Fixtures, except for the following industry.	250		
2522	Metal office furniture	500		
	Major group 31—Leather and Leather Products, except for the following industry.	250		
3141	Footwear, except house slippers and rubber footwear	500		
	Major group 24—Lumber and Wood Products, except for the following industry.	250		
2445	Cooperage	500	250	Do.
	Major group 35—Machinery, Except Electrical:			
3585	Air conditioning equipment and commercial and industrial refrigeration machinery and equipment.	750		
3581	Automatic merchandising machines	250		
3562	Ball and roller bearings	750		
3564	Blowers and exhaust and ventilation fans	250		
3574	Calculating and accounting machines, except electronic computing equipment.	750	1,000	Formerly included in industry 3571, Computing and accounting machines, including cash registers, with 1,000-employee size standard.
3582	Commercial laundry, dry cleaning, and pressing machines	250		
3531	Construction machinery and equipment	750		
3535	Conveyors and conveying equipment	250		
3573	Electronic computing equipment	1,000		Formerly included in industry 3571, Computing and accounting machines, including cash registers, with same size standard.
3534	Elevators and moving stairways	500		
3522	Farm machinery and equipment	500		
3551	Food products machinery	250		
3599	General industrial machinery and equipment, n.e.c.	250		
3536	Hoists, industrial cranes, and monorail systems.	500		
3598	Industrial patterns	250		
3567	Industrial process furnaces and ovens	250		
3537	Industrial trucks, tractors, trailers, and stackers.	250

3545	Machine tool accessories and measuring devices.	250		
38492	Precision-measuring tools	500		
3541	Machine tools, metal cutting types	500		
3542	Machine tools, metal forming types	500		
3586	Measuring and dispensing pumps	500		
3568	Mechanical power transmission equipment, except ball and roller bearings.	500		
3548	Metalworking machinery, except machine tools; and power driven hand tools.	500		
3532	Mining machinery and equipment, except oil field machinery and equipment.	500		
3599	Miscellaneous machinery, except electrical	250		Includes former industry 3591, Machine shops, jobbing and repair, with same size standard.
3579	Office machines, n.e.c.	500		
3533	Oil field machinery and equipment	500		
3554	Paper industries machinery	250		
3555	Printing trades machinery and equipment	500		
3561	Pumps, air and gas compressors, and pumping equipment.	500		
3576	Scales and balances, except laboratory	250		
3589	Service industry machines, n.e.c.	250		Includes former industry 3584, Vacuum cleaners, industrial, with same size standard.
3544	Special dies and tools, die sets, jigs, and fixtures.	500		
3599	Special industry machinery, n.e.c.	250		
3511	Steam engines, steam, gas, and hydraulic turbines, and steam, gas, and hydraulic turbine generator set units.	1,000		
3552	Textile machinery	250		
3572	Typewriters	1,000		
3553	Woodworking machinery	250		
	Major group 39—Miscellaneous Manufacturing Industries:			
3991	Brooms and brushes	250		Former industry 3991, Brooms and brushes, with same size standard.
3988	Buttons	250		
3955	Carbon paper and inked ribbons	500	250	Revision of size standard.
3943	Children's vehicles, except bicycles	250		
3961	Costume jewelry and costume novelties, except precious metal.	250		
3942	Dolls	250		
3962	Feathers, plumes, and artificial flowers	250		
3941	Games and toys, except dolls and children's vehicles.	250		
3913	Jewelers' findings and materials	250		
3911	Jewelry, precious metal	250		
3913	Lapidary work	250		
3952	Lead pencils, crayons, and artists' materials	250		
3996	Linoleum, asphalted-felt-base, and other hard surface floor coverings, n.e.c.	700		Former industry 3982, with same title and size standard.
3999	Manufacturing industries, n.e.c.	250		Includes former industries 3964, Candles, 3962, Furs, dressed and dyed; and 3987, Lamp shades, and 3996, Umbrellas, parasols and canes, with same size standards.
38608	Matches	750	500	Revision of size standard for former industry 3963 of same title.
3953	Marking devices	250		
3604	Morticians' goods	250		
3631	Musical instruments	500		
3964	Needles, pins, hooks and eyes, and similar notions.	250		
3951	Pens, pen points, fountain pens, ball point pens, mechanical pencils, and parts.	500		
3993	Signs and advertising displays	250		
3914	Silverware, plated ware, and stainless steel ware.	500		
3949	Sporting and athletic goods, n.e.c.	250		
	Major group 19—Ordnance and Accessories:			
1979	Ammunition, except for small arms, n.e.c.	500	250	Revision of size standard. Includes former industries 1923, Ammunition loading and assembling, and 1921, Artillery ammunition, with 250-employee size standards.
1928	Guided missiles and space vehicles, completely assembled.	1,000	250	Revision of size standard. Formerly included in industry 1929, Ammunition, n.e.c., with 250-employee size standard.
1191	Guns, howitzers, mortars, and related equipment.	500	250	Revision of size standard.
1999	Ordnance and accessories, n.e.c.	500	250	Do.
1941	Sighting and fire control equipment	500	250	Do.
1951	Small arms	1,000		
1953	Small arms ammunition	1,000		
1931	Tanks and tank components	1,000		
	Major group 26—Paper and Allied Products:			
2643	Bags, except textile bags	500		
2661	Building paper and building board mills	750		
2649	Converted paper and paperboard products, n.e.c.	500		

Census classification code	Industry or class of products	Proposed size standard (number of employees)[1]	Size standard currently in effect[2]	Type of change
2653	Corrugated and solid fiber boxes	500	250	Do.
2645	Die cut paper and paperboard and cardboard.	250		
2642	Envelopes	250		
2655	Fiber cans, tubes, drums, and similar products.	250		
2651	Folding paperboard boxes	250		
2641	Paper coating and glazing	500		
2621	Paper mills, except building paper mills	750		
2631	Paperboard mills	750		
2646	Pressed and molded pulp goods	1,000	750	Do.
2611	Pulp mills	750		
2656	Sanitary food containers	1,000	500	Formerly included in industry 2649, Converted paper and paperboard products, n.e.c., with 500-employee size standard.
2647	Sanitary paper products			
2652	Set-up paperboard boxes	250		
2644	Wallpaper	250		
	Major group 29—Petroleum Refining and Related Industries:			
2952	Asphalt felts and coatings	750		
2992	Lubricating oils and greases	500		
2951	Paving mixtures and blocks	250		
2911	Petroleum refining [3]	1,000		Revision of size standard. See footnote.
2999	Products of petroleum and coal, n.e.c.	250		
	Major group 33—Primary Metal Industries:			
3361	Aluminum castings	250		
3313	Blast furnaces (including coke ovens), steel works, and rolling mills.	1,000		
3369	Brass, bronze, copper, copper base alloy castings.	250		
3316	Cold rolled steel sheet, strip, and bars	1,000		
3357	Drawing and insulating of nonferrous wire	1,000	750	Revision of size standard.
3313	Electrometallurgical products	500		
3321	Gray iron foundries	500		
3391	Iron and steel forgings	500		
3322	Malleable iron foundries	250		
3369	Nonferrous castings, n.e.c.	500	250	Do.
3392	Nonferrous forgings	750		
3399	Primary metal products, n.e.c.	1,000		
3334	Primary production of aluminum	1,000		
3331	Primary smelting and refining of copper	1,000		
3332	Primary smelting and refining of lead	750		
3339	Primary smelting and refining of nonferrous metals, n.e.c.	750		
3333	Primary smelting and refining of zinc	750		
3352	Rolling, drawing, and extruding of aluminum	750		
3351	Rolling, drawing, and extruding of copper	750		
3356	Rolling, drawing, and extruding of nonferrous metals, except copper and aluminum.			
3341	Secondary smelting and refining of nonferrous metals.	250		
3325	Steel foundries	500		
3317	Steel pipes and tubes	1,000		
3315	Steel wire drawing and steel nails and spikes	1,000		
	Major group 27—Printing and Publishing Industries, except for the following industry.	250		
2771	Greeting card publishing	500	250	Do.
	Major group 38—Professional, Scientific, and Controlling Instruments; Photographic and Optical Goods; Watches and Clocks:			
3822	Automatic temperature controls	750	500	Do.
3843	Dental equipment and supplies	250		
3811	Engineering, laboratory, and scientific and research instruments and associated equipment.	750	500	Do.
3821	Mechanical measuring and controlling instruments, except automatic temperature controls.	500		
3851	Ophthalmic goods	250		
3831	Optical instruments and lenses	250		
3842	Orthopedic, prosthetic, and surgical appliances and supplies.	250		
3861	Photographic equipment and supplies	750	500	Do.
3841	Surgical and medical instruments and apparatus.	500	250	Do.
3872	Watchcases	750		
3871	Watches, clocks, clockwork operated devices, and parts, except watchcases.			
	Major group 30—Rubber and Miscellaneous Plastics Products:			
3069	Fabricated rubber products, n.e.c.	500		
3079	Miscellaneous plastics products	250		
3031	Reclaimed rubber	1,000	750	Do.
3021	Rubber footwear	1,000		
3011	Tires and inner tubes	1,000		
	Major group 32—Stone, Clay, Glass, and Concrete Products:			
3291	Abrasive products	250		
3292	Asbestos products	750		
3251	Brick and structural clay tile	250		
3241	Cement, hydraulic	1,000	750	Do.
3253	Ceramic wall and floor tile	500		
3255	Clay refractories	250		
3271	Concrete block and brick	250		
3272	Concrete products, except block and brick	250		
3281	Cut stone and stone products	250		
3263	Fine earthenware (whiteware) table and kitchen articles.	500		
3211	Flat glass	1,000		
3293	Gaskets, packing, and asbestos insulations	500		
3221	Glass containers	750		
3231	Glass products, made of purchased glass	250		
3275	Gypsum products	1,000		
3274	Lime	500		
3296	Mineral wool	1,000	750	Do.
3295	Minerals and earths, ground or otherwise treated.	250		
3297	Nonclay refractories	750		
3299	Nonmetallic mineral products, n.e.c.	250		
3264	Porcelain electrical supplies	500		
3269	Pottery products, n.e.c.	250

3799	Transportation equipment, n.e.c	250		
3713	Truck and bus bodies	250		
3715	Truck trailers (full)	500		

[1] The "number of employees" means the average employment of any concern and its affiliates based on the number of persons employed during the pay period ending nearest the last day of the third month in each calendar quarter for the preceding four quarters.

[2] Together with its affiliates does not employ more than 1,000 persons and does not have more than a combined capacity of 1,500 tons daily from owned or leased facilities.

[3] Guided missile engines and engine parts are classified in SIC 3722. Missile control systems are classified in SIC 3662.

[4] Together with its affiliates does not employ more than 1,000 persons and does not have more than 50,000 barrels-per-day capacity from owned and leased facilities.

[5] Includes maintenance as defined in the Federal Aviation Regulations (14 CFR 1.1) but excludes contracts solely for preventive maintenance as defined in 14 CFR 1.1. As defined in the Federal Aviation Regulations:

"'Maintenance' means inspection, overhaul, repair, preservation, and the replacement of parts, but excludes preventive maintenance. 'Preventive maintenance' means simple or minor preservation operations and the replacement of small standard parts not involving complex assembly operations."

[6] The three Standard Industrial Classification industries (3711, 3712, and 3714) have been combined because of a major problem of defining the reporting unit in terms of these industries. This difficulty arises from the fact that many large establishments have integrated operations which include the production of parts or bodies and the assembly of complete vehicles at the same location.

[F.R. Doc. 67-7483; Filed, July 6, 1967; 8:45 a.m.]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 67-SO-65]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Kinston, N.C., control zone.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Area Manager, Atlanta Area Office, Attention: Chief, Air Traffic Branch, Federal Aviation Administration, Post Office Box 20636, Atlanta, Ga. 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The Kinston control zone described in § 71.171 (32 F.R. 2071) would be redesignated as:

Within a 5-mile radius of Stallings Field (latitude 35°19'40" N., longitude 77°37'05" W.), effective from 0600 to 0030 hours, local time, daily.

An airport activity appraisal conducted at Stallings Field, Kinston, N.C., disclosed that airline personnel are performing aviation weather observations and reporting duties from 0530 to 0030, local time, daily and scheduled air carrier flights are operating from 0626 to 0004 local time, daily. To provide controlled airspace necessary for the protection of IFR operations, it is necessary to redesignate the effective hours of operation of the Kinston control zone from 0600 to 0030, local time, daily.

The official docket will be available for examination by interested persons at the Southern Regional Office, Federal Aviation Administration, Room 724, 3400 Whipple Street, East Point, Ga.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)).

Issued in East Point, Ga., on June 27, 1967.

JAMES G. ROGERS,
Director, Southern Region.

[F.R. Doc. 67-7606; Filed, July 6, 1967; 8:49 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 67-SO-66]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Fort Stewart, Ga., control zone.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Area Manager, Atlanta Area Office, Attention: Chief, Air Traffic Branch, Federal Aviation Administration, Post Office Box 20636, Atlanta, Ga. 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The Fort Stewart control zone described in 71.171 (32 F.R. 2071) would be redesignated as:

Within a 5-mile radius of Liberty AAF (latitude 31°53'20" N., longitude 81°33'45" W.); within a 1.5-mile radius of Liberty County Airport (latitude 31°47'22" N., longitude 81°38'15" W.); within 2 miles each side of the 231° bearing from the Liberty RBN, extending from the 5-mile radius zone to 8 miles southwest of the RBN; within 2 miles each side of the 049° bearing from the Stewart RBN, extending from the 5-mile radius zone to 2 miles northeast of the RBN.

The proposed control zone extension predicated on the 231° bearing from the Liberty RBN is required for the protection of aircraft executing the (NDB ADF-1) approach procedure.

Because of the redefinement of the final approach radial (NDB ADF-2), it is necessary to redesignate the extension predicated on the 048° bearing from the Stewart RBN to the 049° bearing.

The official docket will be available for examination by interested persons at the Southern Regional Office, Federal Aviation Administration, Room 724, 3400 Whipple Street, East Point, Ga.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)).

Issued in East Point Ga., on June 27, 1967.

JAMES G. ROGERS,
Director, Southern Region.

[F.R. Doc. 67-7607; Filed, July 6, 1967; 8:49 a.m.]

[14 CFR Part 91]

[Docket No. 8258; Notice 67-25]

FOREIGN CIVIL AIRCRAFT IN THE UNITED STATES

Proposed Operation

The Federal Aviation Administration is considering amending Part 91 of the Federal Aviation Regulations to set forth certain of the conditions under which a foreign civil aircraft may be operated in the United States without a currently effective airworthiness certificate.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. All communications received on or before September 5, 1967, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Section 610(a)(1) of the Federal Aviation Act of 1958 prohibits any person from operating in air commerce any civil aircraft for which there is not currently in effect an airworthiness certificate, or in violation of any such certificate. However, under section 610(b) of the Act, foreign aircraft and airmen serving in connection therewith may be exempted from the provisions of subsection (a) to the extent and, upon such terms and conditions, as may be prescribed by the Administrator as being in the public interest.

The navigation of foreign civil aircraft in the United States is subject to the permission of the Civil Aeronautics Board under section 1108(b) of the Act. Part 375 of the Board's Special Regulations implements section 1108(b) and sets forth the rules, conditions, and limitations applicable to the navigation of foreign aircraft in the United States. As a general rule, foreign civil aircraft registered in any foreign country which at the time is a member of the International Civil Aviation Organization created by the Chicago Convention (ICAO) may be operated in the United States if they carry aboard currently effective certificates of registration and airworthiness, issued or rendered valid by the country of registry. Moreover, the Board has granted blanket permission in Part 375 for the operation of these foreign aircraft for certain specified purposes without airworthiness certificates on condition that an air safety flight authorization for such aircraft is obtained from the Administrator of the FAA. On the other hand, aircraft registered in foreign countries that are not members of ICAO may be operated in the United States only under special authorization from the Board.

In the past, the air safety flight authorizations referred to in Part 375 of the Board's Special Regulations have been issued by the FAA in the form of individual exemptions under section 610(b) of the Act. However, in the light of the increasing number of requests for such authorizations being received by the FAA, it is now considered appropriate to implement the provisions of section 610(b) of the Act by regulation. In this connection, it is proposed to add a new § 91.28 which would permit certain foreign civil aircraft to be operated without appropriate airworthiness certificates if the aircraft are engaged in specified operations which have been found by the Administrator to be in the public interest. Permission would be granted through the issuance of special airworthiness flight authorizations. Applications for the authorizations would have to be made to the FAA Regional Office of the Region in which the applicant is located and the regulation contemplates the issuance of the authorizations in the field under a delegation of authority from the Administrator. In order to assure that the operations permitted under this regulation are conducted safely, the regulation would provide for the imposition by the issuing Region of appropriate conditions and limitations on the special authorizations.

The purposes for which a special airworthiness flight authorization would be issued under this regulation parallel those specified by the Civil Aeronautics Board in Part 375 of its regulations as requiring FAA authorization. These purposes include, among other things, the operation in the United States of a foreign aircraft that is not in full compliance with the comprehensive and detailed airworthiness code of the country of registry but which is to be operated at an exhibition or air show. The proposal would also provide for the issuance of an authorization for new model aircraft of foreign manufacture that have not been issued airworthiness certificates but for which permission to conduct demonstration flights in the United States is desired. In addition, it would cover foreign registered aircraft of U.S. manufacture that are brought to the United States for alterations that invalidate their airworthiness certificates. The authorizations issued under this amendment would constitute the air safety flight authorization referred to by the Board in its regulations.

These amendments are proposed under the authority of sections 313(a), 601, 603, and 610(b) of the Federal Aviation Act of 1958 (49 U.S.C. 1354, 1421, 1423, and 1430).

In consideration of the foregoing, it is proposed to amend Part 91 of the Federal Aviation Regulations as follows:

1. By amending the introductory clause of paragraph (a) of § 91.27 to read as follows:

§ 91.27 Civil aircraft certificates required.

(a) Except as provided in § 91.28, no person may operate a civil aircraft unless it has within it—

* * * * * *

2. By amending § 91.27(b) by inserting the words "or a special airworthiness flight authorization issued under § 91.28" immediately after the word "section".

3. By adding the following new section after § 91.27:

§ 91.28 Special airworthiness flight authorizations for foreign civil aircraft.

(a) Foreign civil aircraft may be operated without the airworthiness certificate required under § 91.27 if a special airworthiness flight authorization for that operation is issued under this section. Application for a special airworthiness flight authorization must be made to the FAA Region in which the applicant is located.

(b) The Administrator may issue a special airworthiness flight authorization for a foreign civil aircraft for any of the following purposes, subject to any conditions that he considers necessary to establish that the aircraft is capable of safe flight:

(1) The flight of an aircraft to a place where repairs or alterations are to be made, if the country of registry determines that the aircraft has been damaged to the extent that the airworthiness certificate is invalid.

(2) The flight of an aircraft to a new country of registry, if the airworthiness certificate has been invalidated by the country of registry due to change in nationality.

(3) The flight of an aircraft of U.S. manufacture for flight testing or giving training in the operation of the aircraft to the buyer or his employees or designees, or for the purpose of ferrying the aircraft to make an export delivery outside of the United States, whenever title to the aircraft has passed to a foreign buyer and there is no airworthiness certificate for it.

(4) The flight of an aircraft for any purpose stated in subparagraph (3) of this paragraph, in the case of a foreign civil aircraft brought to the United States for alterations which invalidate its airworthiness certificate.

(5) The flight of a foreign civil aircraft brought to the United States for the purpose of demonstration or test of the whole or any part thereof.

(6) The flight of a foreign civil aircraft for any other purpose specifically authorized for that aircraft by an authorization issued by the Civil Aeronautics Board.

(c) An aircraft of U.S. manufacture may be operated for the purposes stated in paragraph (b)(3) of this section even though no registration certificate has been issued by the country of the foreign buyer, if the aircraft bears identification markings issued by the country of registry or intended registry.

Issued in Washington, D.C., on June 30, 1967.

JAMES F. RUDOLPH,
Acting Director,
Flight Standards Service.

Correction

In F.R. Doc. 67-7135, appearing in the issue for Saturday, June 24, 1967, at page 9031, make the following changes:

1. In section 4(a), delete line 6 reading "Stat. 54) provides that '* * * each".

2. In section 4(b), line 2, delete the word "the" preceding the word "Director".

3. In section 6(c)(2), line 22, delete "; the General Arrangements to" and insert instead "and its affiliates, the Inter-Amer-".

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[New Mexico 1613]

NEW MEXICO

Notice of Proposed Classification

Pursuant to section 2 of the Act of September 19, 1964 (43 U.S.C. 1412), notice is hereby given of a proposal to classify the lands described below for disposal through exchange, under the Act of June 28, 1934 (48 Stat. 1269; 43 U.S.C. 315g), as amended, for lands within Valencia County, N. Mex.

The District Advisory Board, local governmental officials and other interested parties have been notified of this application. Information derived from discussions and other sources indicate that these lands meet the criterion of 43 CFR 2410.1-3(c)(4), which authorizes classification of lands "for exchange under appropriate authority where they are found to be chiefly valuable for public purposes because they have special values, arising from the interest of exchange proponents, for exchange for other lands which we need for the support of a Federal Program." Information concerning the lands, including the record of public discussions, is available for inspection and study in the Land Office, Bureau of Land Management, U.S. Post Office and Federal Building, Santa Fe, N. Mex. 87501, Socorro District Office, 200 Neel Avenue, Socorro, N. Mex. 87801, and Albuquerque District Office, 1304 Fourth Street NW., Albuquerque, N. Mex. 87107.

For a period of 60 days from the date of this publication, interested parties may submit comments to the District Manager of the Socorro or Albuquerque District Office.

The lands affected by this proposal are located in San Juan, Socorro and McKinley Counties, New Mexico, and are described as follows:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

COLORADO

Proposed Classification of Public Lands for Multiple Use Management

1. Pursuant to the Act of September 19, 1964 (43 U.S.C. 1411-18), and to the regulations in 43 CFR, Parts 2410 and 2411, it is proposed to classify for multiple use management the public lands within the areas described below, together with any lands therein that may become public lands in the future. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose. Publication of this notice has the effect of segregating all lands described in this notice from appropriation only under the agricultural land laws (43 U.S.C. Parts 7 and 9, 25 U.S.C. 334) and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171), and the lands shall remain open to all other applicable forms of appropriation including the mining and mineral leasing laws.

2. Public lands proposed for classification are located within the following described areas and are shown on maps on file in the Montrose District Office, Bureau of Land Management, Highway 550 South, Montrose, Colo., and Land Office, Bureau of Land Management, New Federal Building, Denver, Colo.

CALIFORNIA

Notice of Proposed Classification of Public Lands for Multiple Use Management

1. Pursuant to the Act of September 19, 1964, (43 U.S.C. 1411-18), and to the regulations in 43 CFR 2410 and 2411, it is proposed to classify for multiple use management the public lands in paragraph 3, together with any lands in the area described in paragraph 2 that may become public lands in the future. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. Publication of this notice has the effect of segregating the public lands in paragraph 3 from appropriation under the agricultural land laws (43 U.S.C. Chs. 7 and 9; 25 U.S.C., sec. 334), and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171).

3. The overall description of the planning unit is as follows:

MOUNT DIABLO MERIDIAN

INYO AND TULARE COUNTIES

T. 22 S., R. 36 E.
T. 22 S., R. 37 E.
T. 23 S., R. 35 E.,
Secs. 25 and 36.
T. 23 S., R. 36 E.
T. 23 S., R. 37 E.
T. 23 S., R. 38 E.,
West of the Los Angeles Aqueduct.
T. 24 S., R. 35 E.,
Secs. 1, 12, 13, 24, 25, 26.
T. 24 S., R. 36 E.
T. 24 S., R. 37 E.
T. 24 S., R. 38 E.,
West of the Los Angeles Aqueduct.

These lands lie in the extreme southeastern portion of Tulare County and southwestern portion of Inyo County. The public lands which are being classified aggregate 3,977.58 acres; the remainder is withdrawn land not subject to classification, as shown on the map on file in the District Office, Room 311, Federal Building, 800 Truxtun Avenue, Bakersfield, Calif. 93301 and as noted on the records in the Land Office, 1414 University Avenue, Riverside, Calif. 92507.

4. For a period of 60 days from the date of publication of this notice in the FEDERAL REGISTER, all persons who wish to submit comments, suggestions, or objections in connection with the proposed classification may present their views in writing to the District Manager, Bureau of Land Management, Room 311, Federal Building, 800 Truxtun Avenue, Bakersfield, Calif. 93301.

5. A public hearing will be held on the proposed classification if sufficient public interest exists to warrant the time and expense of a hearing (43 CFR 2411.2(a)(2)).

For the State Director.

ROBERT J. SPRINGER,
District Manager.

COLORADO

Notice of Proposed Classification of Public Lands for Multiple Use Management

JUNE 30, 1967.

1. Pursuant to the Act of September 19, 1964 (43 U.S.C. 1411-18), and to the regulations in 43 CFR 2410 and 2411, it is proposed to classify for multiple use management the public lands described in paragraph 3 below, together with any lands therein that may become public lands in the future.

2. Publication of this notice: (a) segregates the described lands from appropriation only under the agricultural land laws (43 U.S.C., Chs. 7 and 9; 25 U.S.C. sec. 334); from sales under section 2455 of the Revised Statutes (43 U.S.C. 1171); and the lands shall remain open to all other applicable forms of appropriation, including the mining and mineral leasing laws; (b) the lands described in paragraph 4 of this notice are further segregated from operation of the general mining laws (30 U.S.C. 20), but not the mineral leasing laws. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

3. The public lands proposed for classification are located within the following described area and are shown on a map and designated No. 1, located in the Canon City District Office, Bureau of Land Management, 1001 Main Street, Canon City, Colo.; and the Land Office, Bureau of Land Management, 1961 Stout Street, Denver, Colo.

COLORADO

Proposed Classification of Public Lands for Multiple Use Management

1. Pursuant to the Act of September 19, 1964 (43 U.S.C. 1411-18), and to the regulations in 43 CFR, Parts 2410 and 2411, it is proposed to classify for multiple use management the public lands within the areas described below, together with any lands therein that may become public lands in the future. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose. Publication of this notice has the effect of segregating all lands described in this notice from appropriation only under the agricultural land laws (43 U.S.C. Parts 7 and 9, 25 U.S.C. 334) and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171), and the lands shall remain open to all other applicable forms of appropriation including the mining and mineral leasing laws.

2. Public lands proposed for classification are located within the following described areas and are shown on maps on file in the Montrose District Office, Bureau of Land Management, Highway 550 South, Montrose, Colo., and the Land Office, Bureau of Land Management, New Federal Building, Denver, Colo.

[Serial No. N-257]

NEVADA

Notice of Classification of Public Lands for Multiple Use Management

JUNE 27, 1967.

1. Pursuant to the Act of September 19, 1964 (43 U.S.C. 1411-18) and to the regulations in 43 CFR, Subparts 2410 and 2411, the public lands described in paragraph 3 below are hereby classified for multiple use management.

2. Publication of this notice segregates (a) the public lands described in paragraph 3 from appropriation under the agricultural land laws (43 U.S.C., Chs. 7 and 9; 25 U.S.C., sec. 334), and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171) and the Public Land Sale Act of September 19, 1964 (43 U.S.C. 1421-27), and (b) further segregates the public land described in paragraph 4 of this notice from operation of the general mining laws (30 U.S.C. 20). Except as provided in (a) and (b) above, the lands shall remain open to all other applicable forms of appropriation, including the mining and mineral leasing or material sale laws. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district, established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

3. The classified public lands are located within the Spring Mountain Planning Unit and are shown on maps, designated as N-257, which are on file in the Las Vegas District Office, Bureau of Land Management, 1859 North Decatur Boulevard, Las Vegas, Nev., and the Land Office, Bureau of Land Management, Federal Building, 300 Booth Street, Reno, Nev. The lands involved are described as follows:

COLORADO

Proposed Classification of Public Lands for Multiple Use Management

1. Pursuant to the Act of September 19, 1964 (43 U.S.C. 1411-18), and to the regulations in 43 CFR, Parts 2410 and 2411, it is proposed to classify for multiple use management the public lands within the areas described below, together with any lands therein that may become public lands in the future. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 8910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose. Publication of this notice segregates all lands described in this notice from appropriation only under the agricultural land laws (43 U.S.C. Parts 7 and 9, 25 U.S.C. 334) and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171), and the lands shall remain open to all other applicable forms of appropriation, including the mining and mineral leasing laws.

2. Public lands proposed for classification are all public lands located within the following described areas and are shown on maps on file in the Montrose District Office, Bureau of Land Management, Highway 550 South, Montrose, Colo., and Land Office, Bureau of Land Management, New Federal Building, Denver, Colo.

ARIZONA

Notice of Proposed Classification of Public Lands for Multiple Use Management

1. Pursuant to the Act of September 19, 1964 (78 Stat. 986; 43 U.S.C. 1411-18) and to the regulations in 43 CFR, Parts 2410 and 2411, it is proposed to classify for multiple use management the public lands described in paragraph 6. Principal public resource values to be enhanced by this proposed classification are conservation of important watershed, grazing, and wildlife habitat, conservation of outstanding natural beauty, and provision for present and long-range future use for outdoor recreational activities near an expanding urban area. Publication of this notice has the effect of segregating the land from appropriation under the agricultural land laws (43 U.S.C., Chs. 7 and 9; 25 U.S.C. 334); from private exchange (43 U.S.C. 315g(b)); from State exchange (43 U.S.C. 315g (c)); from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171); from appropriation under section 2477 of the Revised Statutes (43 U.S.C. 932); from State selection (43 U.S.C. 851, 852); and from sale under the Act of September 19, 1964 (43 U.S.C. 1421-27). The lands shall remain open to all other applicable forms of appropriation, including the mining and mineral leasing laws. As used herein "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. The land is located approximately 40 miles southwest of Tucson, Ariz., and constitutes a scenic desert mountain range at elevations between 3,000 and 6,000 feet in an undisturbed natural condition.

3. The site is receiving moderate public recreational use by hunters, photographers, artists, hikers, horseback riders, rock hounds, artifact hunters, picnickers, and Boy Scout groups.

4. Local planning, zoning and recreation officials, and representatives of the Bureau of Land Management have agreed after study and analysis that the best use for this public land is for outdoor recreational purposes. The site will be known as the Coyote Mountain Natural Area.

5. The public lands proposed for classification in this notice are shown on maps on file and available for inspection in the Phoenix District Office, Bureau of Land Management, Federal Building, Phoenix, Ariz.

6. The land involved is in Pima County and is described as follows:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 16 S., R. 8 E.,
Sec. 25, lots 1 to 12, inclusive, and NE¼;
Sec. 26, lots 1 to 4, inclusive, S½N½ and S½;
Sec. 27, lots 1 to 4, inclusive, S½N½ and S½;
Sec. 28, lots 1 to 4, inclusive, E½W½ and E½;
Sec. 33, lots 1 to 7, inclusive, NE¼, E½NW¼, NE¼SW¼, and N½SE¼;
Sec. 34, lots 1 to 4, inclusive, N½ and N½S½.
T. 17 S., R. 8 E.,
Sec. 3, lots 1 to 4, inclusive, S½N½ and SW¼;
Sec. 4, lots 1 and 2, S½NE¼ and SE¼;
Sec. 9, NE¼;
Sec. 10, NW¼.

The areas described aggregate 5,082.28 acres of public land.

7. For a period of 60 days from the date of publication of this notice in the FEDERAL REGISTER, all persons who wish to submit comments, suggestions, or objections in connection with the proposed classification may present their views in writing to the District Manager, Bureau of Land Management, 3041 Federal Building, Phoenix, Ariz. 85025.

FRED S. WEILER,
State Director.

JUNE 29, 1967.

[N-1338]

NEVADA

Notice of Proposed Withdrawal and Reservation of Lands

JUNE 29, 1967.

The Federal Aviation Administration has filed the above application for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the mining laws, but not from leasing under the mineral leasing laws.

The applicant desires the land for proper operation of facilities on the lands.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Room 3008 Federal Building, 300 Booth Street, Reno, Nev. 89502.

The Department's regulations (43 CFR 2311.1-3(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN, NEVADA

T. 2 N., R. 42 E.,
Sec. 1, that portion of the NW¼SW¼ and SW¼NW¼ which abuts and lies to the south of patented Mineral Survey 4262.

The area described contains 44 acres more or less.

DANIEL P. BAKER,
Land Office Manager.

[F.R. Doc. 67-7846; Filed, July 6, 1967; 8:51 a.m.]

Commodity Credit Corporation

SALES OF CERTAIN COMMODITIES

July Sales List

Notice to buyers. Pursuant to the policy of Commodity Credit Corporation issued October 12, 1954 (19 F.R. 6669), and subject to the conditions stated therein as well as herein, the commodities listed below are available for sale and, where noted, for redemption of payment-in-kind certificates on the price basis set forth.

The U.S. Department of Agriculture announced the prices at which CCC commodity holdings are available for sale beginning at 3 p.m., e.d.t., on June 30, 1967, and, subject to amendment, continuing until superseded by the August Monthly Sales List.

The following commodities are available: Cotton (upland and extra long staple), wheat, corn, oats, barley, rye, rice, grain sorghum, peanuts, flax, linseed oil, dry edible beans, tung oil, butter, cheese, and nonfat dry milk.

With the 1967-crop marketing year beginning July 1 for wheat, barley, oats, flaxseed, and rye, the July list includes formula minimum pricing for these commodities based on 1967 price-support loan rates. The beginning markups used in CCC minimum sales prices for these grains in-store have been adjusted to reflect changes in receiving rate under the Uniform Grain Storage Agreement. This results in increased markups for some grains and decreased ones for others.

Information on the availability of commodities stored in Commodity Credit Corporation bin sites may be obtained from ASCS State offices shown at the end of the sales list, and for commodities stored at other locations from ASCS commodity and grain offices also shown at the end of the list.

Corn, oats, barley, or grain sorghum, as determined by CCC, will be sold for unrestricted use for "Dealers' Certificates" issued under the emergency livestock feed program. Grain delivered against such certificates will be sold at the applicable current market price, determined by CCC.

In the following listing of commodities and sales prices or method of sales, "unrestricted use" applies to sales which permit either domestic or export use and "export" applies to sales which require export only. CCC reserves the right to determine the class, grade, quality, and available quantity of commodities listed for sale.

The CCC Monthly Sales List, which varies from month to month as additional commodities become available or commodities formerly available are dropped, is designed to aid in moving CCC's inventories into domestic or export use through regular commercial channels.

If it becomes necessary during the month to amend this list in any material way—such as by the removal or addition of a commodity in which there is general interest or by a significant change in price or method of sale—an announcement of the change will be sent to all persons currently receiving the list by mail from Washington. To be put on this mailing list, address: Director, Procurement and Sales Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250.

Interest rates per annum under the CCC Export Credit Sales Program (Announcement GSM-3 or 4) for July 1967 are 5½ percent for U.S. bank obligations and 6½ percent for foreign bank obligations. Commodities now eligible for financing under the CCC Export Credit Sales Program include wheat, wheat flour, barley, bulgur, corn, cornmeal, grain sorghum, upland and extra long staple cotton, tobacco, cottonseed oil, soybean oil, dairy products, dry edible beans, and tallow. Unless otherwise provided in applicable sales or credit announcements, commodities purchased from CCC may be financed for export as private stocks under Announcement GSM-4.

Information on commodities available under Title I, Public Law 480, private trade agreements, and current information on interest rates and other phases of the program may be obtained from the Office of the General Sales Manager, Foreign Agricultural Service, U.S. Department of Agriculture, Washington, D.C. 20250.

The following commodities are currently available for new and existing barter contracts: oats, cotton (upland and extra long staple), and tobacco. Wheat and grain sorghum are also available under conditions noted in the individual commodity listings. (In addition, free market stocks of corn, grain sorghum, wheat, wheat flour, tobacco, cottonseed, and soybean oils are eligible for barter programming under barter contracts covering procurements for Federal agencies that will reimburse CCC except that hard red winter, hard red spring, and durum wheats, and flour produced from those wheats, may not be exported through west coast ports. Also new barter contracts may not provide for exports of white wheat from west coast ports prior to August 15, 1967.) This list is subject to change from time to time.

The CCC will entertain offers from responsible buyers for the purchase of any commodity on the current list. Offers accepted by CCC will be subject to the terms and conditions prescribed by the Corporation. These terms include payment by cash or irrevocable letter of credit before delivery of the commodity, and the conditions require removal of the commodity from CCC stocks within a reasonable period of time. Where sales are for export, proof of exportation is also required, and the buyer is responsible for obtaining any required U.S. Government export permit or license. Purchases from CCC shall not constitute any assurance that any such permit or license will be granted by the issuing authority.

Applicable announcements containing all terms and conditions of sale will be furnished upon request. For easy reference a number of these announcements are identified by code number in the following list. Interested persons are invited to communicate with the Agricultural Stabilization and Conservation Service, USDA, Washington, D.C. 20250, with respect to all commodities or—for specified commodities—with the designated ASCS commodity office.

Commodity Credit Corporation reserves the right to amend from time to time, any of its announcements. Such amendments shall be applicable to and be made a part of the sale contracts thereafter entered into.

CCC reserves the right to reject any or all offers placed with it for the purchase of commodities pursuant to such announcements.

CCC reserves the right to refuse to consider an offer, if CCC does not have adequate information of financial responsibility of the offerer to meet contract obligations of the type contemplated in this announcement. If a prospective offerer is in doubt as to whether CCC has adequate information with respect to his financial responsibility, he should either submit a financial statement to the office named in the invitation prior to making an offer, or communicate with such office to determine whether such a statement is desired in his case. When satisfactory financial responsibility has not been established, CCC reserves the right to consider an offer only upon submission by offerer of a certified or cashier's check, a bid bond, or other security, acceptable to CCC, assuring that if the offer is accepted, the offerer will comply with any provisions of the contract with respect to payment for the commodity and the furnishing of performance bond or other security acceptable to CCC.

Disposals and other handling of inventory items often result in small quantities at given locations or in qualities not up to specifications. These lots are offered by the appropriate ASCS office promptly upon appearance and therefore, generally, they do not appear in the Monthly Sales List.

On sales for which the buyer is required to submit proof to CCC of exportation, the buyer shall be regularly engaged in the business of buying or selling commodities and for this purpose shall maintain a bona fide business office in the United States, its territories or possessions and have a person, principal or resident agent upon whom service of judicial process may be had.

Prospective buyers for export should note that generally, sales to U.S. Government agencies, with only minor exceptions will constitute domestic unrestricted use of the commodity.

Commodity Credit Corporation reserves the right, before making any sales, to define or limit export areas.

The Department of Commerce, Bureau of International Commerce, pursuant to regulations under the Export Control Act of 1949, prohibits the exportation or reexportation by anyone of any commodities under this program to Cuba, the Soviet Bloc or Communist-controlled areas of the Far East including Communist China, North Korea, and the Communist-controlled area of Viet Nam except under validated license issued by the U.S. Department of Commerce, Bureau of International Commerce.

For all exportations, one of the destination control statements specified in Commerce Department Regulations (Comprehensive Export Schedule, § 379.10(c)) is required to be placed on all copies of the shipper's export declaration, all copies of the bill of lading, and all copies of the commercial invoices. For additional information as to which destination control statement to use, the exporter should communicate with the Bureau of International Commerce or one of the field offices of the Department of Commerce.

Exporters should consult the applicable Commerce Department regulations for more detailed information if desired and for any changes that may be made therein.

SALES PRICE OR METHOD OF SALE

WHEAT, BULK

Unrestricted use.

A. *Storable.* All classes of wheat in CCC inventory are available for sale at market price but not below 115 percent of the 1967 price-support loan rate for the class, grade, and protein of the wheat plus the markup shown in C below applicable to the type of carrier involved.

B. *Nonstorable.* At not less than market price, as determined by CCC.

C. *Markup and examples (dollars per bushel—in-store).*[1]

Markup in-store received by—		Examples—Agricultural Act of 1949; Stat. minimum
Truck	Rail or barge	
$0.04	$0.01½	Minneapolis—No. 1 DNS ($1.55) 115 percent +$0.01½; $1.80½. Portland—No. 1 SW ($1.44) 115 percent +$0.01½; $1.67½. Kansas City—No. 1 HRW ($1.42) 115 percent +$0.01½; $1.66½. Chicago—No. 1 SW ($1.47) 115 percent +$0.01½; $1.71½.

Export.

A. CCC will sell limited quantities of Hard Red Winter and Hard Red Spring wheat at west coast ports at domestic market price levels for export under Announcement GR-345 (Revision III, July 6, 1963, as amended) as follows:

(1) Notice of foreign sale must be furnished CCC within 5 calendar days after purchase.

(2) Sales will be made only to fill dollar market sales abroad and exporter must show export from the west coast to a destination west of the 170th meridian, west longitude, and east of the 60th meridian, east longitude, and to countries on the west coast of Central and South America.

B. CCC will sell wheat for export under Announcement GR-261 (Revision III, Jan. 9, 1961, as amended and supplemented) subject to the following:

(1) All classes will be sold subject to offers which include the price at which the buyer proposes to purchase the wheat.

(2) All classes will be sold to fill dollar market sales abroad and exporter must show export from the west coast to a destination within the geographical limitation shown in A(2) above.

(3) All classes will be sold for application to barter contracts entered into pursuant to invitations for barter offers dated prior to 3:30 p.m., e.d.t., on August 26, 1966. However, CCC-owned wheat will not be sold for barter at west coast ports nor will evidence of export at west coast ports be acceptable under a sale for barter.

C. Announcement GR-262 (Revision II, Jan. 9, 1961, as amended) for export as flour as follows: All classes will be sold for application to barter contracts entered into pursuant to invitations for barter offers dated prior to 3:30 p.m., e.d.t., on August 26, 1966. However, sales for barter will not be made at west coast ports nor will evidence of export from west coast ports be acceptable under a

sale for barter pursuant to this announcement.

D. CCC will not sell wheat under Announcement GR-846 until further notice.

Available. Evanston, Kansas City, Minneapolis, and Portland ASCS offices.

CORN, BULK

Unrestricted use.

A. *Redemption of domestic payment-in-kind certificates.* Such CCC dispositions of corn as CCC may designate will be in redemption of certificates or rights represented by pooled certificates under a feed grain program. The price at which corn shall be valued for such dispositions shall be the market price as determined by CCC, but not less than 115% of the applicable 1966 price-support loan rate[1] for the class, grade, and quality of the corn plus the markup shown in C of this unrestricted use section.

B. *General sales.*

1. *Storable.* Such CCC dispositions of storable corn as CCC may designate as general sales will be made during the month at market price, as determined by CCC, but not less than the Agricultural Act of 1949 formula minimum price for such sales which is 105 percent of the applicable 1966 price support rate[1] (published loan rate plus 19 cents per bushel) for the class, grade, and quality of the corn, plus the markup shown in C of this unrestricted use section.

2. *Nonstorable.* At not less than market price as determined by CCC.

C. *Markups and examples (dollars per bushel in-store[1] basis No. 2 Yellow Corn 14 percent M.T. 2 percent F.M.).*

Markup in-store received by—	Example
Truck	
$0.17½	Feed grain program domestic PIK certificate minimums: McLean County, Ill. ($1.62+$0.03) 115 percent +$0.37½; $2.07½. Agricultural Act of 1949; stat. minimums: McLean County, Ill. ($1.62+$0.19 +$0.09); 105 percent +$0.17½; $1.47½.

Available. Evanston, Kansas City, Minneapolis, and Portland ASCS grain offices.

Export.

Corn from CCC inventory is not available for export sale.

GRAIN SORGHUMS (BULK)

Unrestricted use.

A. *Redemption of domestic payment-in-kind certificates.* Such CCC dispositions of grain sorghum as CCC may designate will be in redemption of certificates or rights represented by pooled certificates under a feed grain program. The minimum price at which grain sorghum shall be valued for such dispositions shall be market price, as determined by CCC, but not less than 115 percent of the applicable 1966 price-support loan rate[1] for the class, grade, and quality of the grain sorghum, plus the markup shown in C of this unrestricted use section applicable to the type of carrier involved.

B. *General sales.*

1. *Storable.* Such CCC dispositions of storable grain sorghum as CCC may designate as general sales will be made during the month at market price, as determined by CCC, but not less than the Agricultural Act of 1949 formula minimum price for such sales which is 105 percent of the applicable 1966 price-support rate[1] (published loan rate plus 34 cents per hundredweight) for the class, grade, and quality of the grain sorghum, plus the markup shown in C of this unrestricted use section applicable to the type of carrier involved.

2. *Nonstorable.* At not less than market price as determined by CCC.

C. *Markups and examples (dollars per hundredweight in-store[1] No. 2 or better).*

Markup in-store received by—		Example
Truck	Rail or barge	
$0.39½	$0.28½	Feed grain program domestic PIK certificate minimums: Hale County, Tex. ($2.65) 115 percent +$0.39½; $3.04½. Kansas City, Mo. (ex-rail) ($1.75) 115 percent +$0.39½; $2.14½. Agricultural Act of 1949; stat. minimums: Hale County, Tex. ($2.29+$0.24); 105 percent +$0.39½; $2.68½. Kansas City, Mo. (ex-rail) ($1.51+$0.24); 105 percent +$0.39½; $2.14½.

Export.

Sales are made at applicable domestic market price levels for export, as determined by CCC; export payment rates, if any, are deducted in arriving at barter prices. The statutory minimum price referred to in the price adjustment provisions of the following export sales announcements is 105 percent of the applicable price-support rate plus the markup referred to in C of the unrestricted use section for grain sorghum. Sales will be made pursuant to the following announcements:

A. Announcement GR-806 (Revision 2, Mar. 1, 1965, as amended), for export commodity certificate redemption.

B. Announcement GR-212 (Revision 2, Jan. 9, 1961) for application to barter contracts entered into pursuant to invitations for barter offers dated prior to 3:30 p.m., e.d.t., on August 20, 1966, and for cash or other designated sales.

Available. Evanston, Kansas City, Minneapolis, and Portland ASCS grain offices.

BARLEY, BULK

Unrestricted use.

A. *Storable.* Market price, as determined by CCC, but not less than 115 percent of the applicable 1967 price-support rate[1] for the class, grade, and quality of the barley plus the applicable markup.

B. *Markups and examples (dollars per bushel in-store[1] No. 2 or better).*

Markup in-store received by—		Example
Truck	Rail or barge	
$0.04	$0.01½	Cass County, N. Dak. ($0.87); 105 percent +$0.04; $1.05. Minneapolis, Minn. (ex-rail) ($1.10); 105 percent +$0.01½; $1.25½.

C. *Nonstorable.* At not less than market price as determined by CCC.

Export.

Sales are made at applicable domestic market price levels for export, as determined by CCC. The statutory minimum price referred to in the price adjustment provisions of the following export sales announcement is 105 percent of the applicable price-support rate plus the markup referred to in B of the unrestricted use section for barley. Sales will be made pursuant to the following announcements:

A. Announcement GR-806 (Revision 2, Mar. 1, 1965, as amended), for export commodity certificate redemption.

B. Announcement GR-212 (Revision 2, Jan. 9, 1961) for cash or other designated sales.

Available. Kansas City, Evanston, Minneapolis, and Minneapolis grain offices.

OATS, BULK

Unrestricted use.

A. *Market price,* as determined by CCC, but not less than 115 percent of the applicable 1967 price-support rate[1] for the class, grade, and quality of the oats plus the markup shown in B below.

B. *Markups and examples (dollars per bushel in-store[1] basis No. 2 XHWO).*

Markup in-store received by—	Examples—Agricultural Act of 1949; Stat. minimum
Truck	
$0.04	Redwood County, Minn. ($0.60+$0.08 quality differential); 115 percent +$0.04; $0.72.

C. *Nonstorable.* At not less than the market price as determined by CCC.

Export.

Sales are made at applicable domestic market price levels for export as determined by CCC; export payment rates, if any, are deducted in arriving at barter prices. The statutory minimum price referred to in the price adjustment provisions of the following export sales announcements is 105 percent of the applicable price-support rate plus the markup referred to in B of the unrestricted use section for oats. Sales will be made pursuant to the following announcements.

A. Announcement GR-806 (Revision 2, Mar. 1, 1965, as amended), for export commodity certificate redemption.

B. Announcement GR-212 (Revision 2, Jan. 9, 1961), for application to barter contracts and for cash or other designated sales.

Available. Kansas City, Evanston, Minneapolis, and Portland ASCS grain offices.

RYE, BULK

Unrestricted use.

A. *Storable.* Market price, as determined by CCC, but not less than the Agricultural Act of 1949 formula price which is 105 percent[1] of the applicable 1967 price-support rate for the class, grade, and quality of the grain plus the markup shown in B below applicable to the type of carrier involved.

B. *Markups and examples (dollars per bushel in-store[1] No. 2 or better).*

Markup in-store received by—		Examples—Agricultural Act of 1949 Stat. minimum
Truck	Rail or barge	
$0.04	$0.02½	Rolette County, N. Dak. ($0.90); 105 percent +$0.04; $0.99. Minneapolis, Minn. (ex-rail) ($1.23); 105 percent +$0.02½; $1.31½.

C. *Nonstorable.* At not less than market price as determined by CCC.

Export. Sales are made at applicable domestic market price levels for export, determined by CCC. The statutory minimum price referred to in the price adjustment provisions of the following export sales announcement is 105 percent of the applicable price-support rate plus the markup referred to in B of the unrestricted use section for rye. Sales will be made pursuant to the following announcements:

A. Announcement GR-806 (Revision 2, Mar. 1, 1965, as amended), for export commodity certificate redemption.

B. Announcement GR-212 (Revision 2, Jan. 9, 1961) for cash or other designated sales.

Available: Evanston, Kansas City, Portland, and Minneapolis ASCS grain offices.

RICE, ROUGH

Unrestricted use.

Market price but not less than 1966 loan rate plus 5 percent plus 44 cents per hundredweight, basis in store.

Export.

As milled or brown under Announcement GR-369 (Revision III, as amended), Rice Export Program.

Available: Prices, quantities, and varieties of rough rice available from Kansas City ASCS Commodity Office.

COTTON, UPLAND

Unrestricted use.

A. Competitive offers under the terms and conditions of Announcement NO-C-32 (Sale of Upland Cotton for Unrestricted Use). Under this announcement, upland cotton acquired under price-support programs will be sold at the highest price offered but in no event at less than the higher of (a) 110 percent of the current loan rate for such cotton, or (b) the market price for such cotton, as determined by CCC.

B. Competitive offers under the terms and conditions of Announcement NO-C-31 (Disposition of Upland Cotton—In Redemption of Payment-In-Kind Certificates or Rights in Certificate Pools, In Redemption of Export Commodity Certificates, Against the "Short-fall," and Under Barter Transactions), as amended. Cotton may be acquired at the current market price for such cotton at time of delivery, which shall be the highest price offered but not less than the minimum determined by CCC, and in no event at less than the loan rate for such cotton at time of delivery.

Export.

CCC disposals for barter. Competitive offers under the terms and conditions of Announcements CN-EX-28 (Acquisition of Upland Cotton for Export under the Barter Program) and NO-C-31 (described above), as amended.

COTTON, EXTRA LONG STAPLE

Unrestricted use.

Competitive offers under the terms and conditions of Announcements NO-C-6 (Revised July 22, 1960), as amended, and NO-C-10, as amended. Under these announcements extra long staple cotton (domestically grown) will be sold at the highest price offered but in no event at less than the higher of (a) 115 percent of the current support price for such cotton plus reasonable carrying charges, or (b) the domestic market price as determined by CCC.

Export.

A. *CCC sales for export.* Competitive offers under the terms and conditions of Announcements CN-EX-23 (Extra Long Staple Cotton Export Program) and NO-C-27 (Sale of Extra Long Staple Cotton), as amended.

B. *Barter.* Competitive offers under the terms and conditions of Announcement CN-EX-27 (Acquisition of Extra Long Staple Cotton for Export under the Barter Program), and NO-C-27 (Sale of Extra Long Staple Cotton), as amended.

COTTON, UPLAND OR EXTRA LONG STAPLE

Unrestricted use.

A. Competitive offers under the terms and conditions of Announcement NO-C-18 (Sale of Cotton—To Establish Claims). Any such cotton will be offered for sale periodically on the basis of samples representing the cotton for the purpose of establishing claims against producers and others according to schedules issued from time to time by CCC.

B. Competitive offers under the terms and conditions of Announcement NO-C-20 (Sale of Special Condition Cotton). Any such cotton (Below Grade, Sample Loose, Damaged Pickings, etc.) owned by CCC will be offered for sale periodically on the basis of samples representing the cotton according to schedules issued from time to time by CCC.

Availability information.

Sale of cotton will be made by the New Orleans ASCS Commodity Office. Sales announcements, related forms and catalogs for upland cotton and extra long staple cotton showing quantities, qualities and location may be obtained for a nominal fee from that office.

PEANUTS, SHELLED

When stocks are available in their area of responsibility, the quantity, type, and grade offered and whether for restricted or unrestricted use are announced in weekly lot lists or invitations to bid issued by the following:

GFA Peanut Association, Camilla, Ga.

Peanut Growers Cooperative Marketing Association, Franklin, Va.

Southwestern Peanut Growers' Association, Gorman, Tex.

A. *Restricted use sales.* Announcement PR-1 effective July 1, 1966, Amendment 1, and the lot list contain terms and conditions of sales restricted to domestic crushing or export.

1. Shelled peanuts of less than U.S. No. 1 grade may be purchased for foreign or domestic crushing.

2. U.S. Medium, Virginia type may be purchased for export only.

B. *Unrestricted sales.* Announcement PR-3 effective May 11, 1967, and the invitation to bid contain the terms and condition of sale.

U.S. Medium Virginia type may be purchased for domestic unrestricted use.

All sales are made on the basis of competitive bids each Wednesday, by the Producer Associations Division, Agricultural Stabilization and Conservation Service, Washington, D.C. 20250, to which all bids are submitted.

TUNG OIL

Unrestricted use.

Sales are made periodically on a competitive bid basis. Bids are submitted to the Producer Associations Division, Agricultural Stabilization and Conservation Service, Washington, D.C. 20250.

The quantity offered and the date bids are to be received are announced to the trade in notices of Invitation to Bid, issued by the National Tung Oil Marketing Cooperative, Inc., Poplarville, Miss. 39470.

Terms and conditions of sale are set forth in Announcement NTOM-PR-4 of April 6, 1967, as amended, and the applicable Invitation to Bid.

Bids will include, and be evaluated on the basis of, price offered per pound f.o.b. storage location. For certain destinations, CCC will as provided in the Announcement, as amended, refund to the buyer a "freight equalization" allowance.

Copies of the Announcement or the Invitation may be obtained from the Cooperative or Producer Associations Division, ASCS, telephone Washington, D.C., area code 202, DU 8-3901.

DRY EDIBLE BEANS (BAGGED)

Unrestricted use.

Domestic market price but not less than the following minimum prices per hundredweight for U.S. No. 1, f.o.b. indicated points of production. Amount of paid-in-freight to be added as applicable. For other grades and location, adjust by applicable 1966 price support differentials.

Class	Price per cwt.	Area of production
Light red kidney	$9.84	Michigan and New York.
Dark red kidney	9.48	Michigan.
Pea	7.40	Do.
Pink	7.97	Michigan and New York.

FLAXSEED, BULK

Unrestricted use.

A. *Storable.* Domestic market price but not less than the applicable 1967 support price for the class, grade, and quality of flaxseed plus 14½ cents per bushel, and plus the respective markup shown in B below applicable to the type of carrier involved.

B. *Markups and examples (dollars per bushel, in-store[1]).*

Markup per bushel received by—		Examples of minimum prices (ex-rail or barge)		
Truck	Rail or barge	Terminal	Class and grade	Price
Cents $0.06	*Cents* $0.01½	Minneapolis	No. 1	$3.31½

C. *Nonstorable.* At not less than domestic market price as determined by CCC.

Export.

Flaxseed will be sold at domestic market price levels for export with payment to be made in cash or export commodity certificates under Announcement PS-GR-4, Revision 1, as amended.

Available. Through the Minneapolis Grain Merchandising ASCS office.

LINSEED OIL, RAW (BULK)

Export.

Linseed oil will be sold at domestic market price levels for export with payment to be made in cash or export commodity certificates under Announcement PS-GR-4, Revision 1, as amended.

Available. Through the Minneapolis ASCS commodity office.

DAIRY PRODUCTS

Sales are in carlots only in-store at storage location of products.

Submission of offers. Submit offers to the Minneapolis ASCS Commodity Office.

NONFAT DRY MILK

Unrestricted use.

Announced prices, under MP-14: Spray process, U.S. Extra Grade, 21.60 cents per pound.

BUTTER

Unrestricted use.

Announced prices, under MP-14: 74 cents per pound—New York, Pennsylvania, New Jersey, New England, and other States bordering the Atlantic Ocean and Gulf of Mexico. 73.25 cents per pound—Washington, Oregon, and California. All other States 73 cents per pound.

CHEDDAR CHEESE (STANDARD MOISTURE BASIS)

Unrestricted use.

Announced prices, under MP-14: 49.125 cents per pound—New York, Pennsylvania, New England, New Jersey, and other States bordering the Atlantic Ocean and Pacific Ocean and the Gulf of Mexico. All other States 48.125 cents per pound.

FOOTNOTES

[1] The formula price delivery basis for bin site sales will be f.o.b.

[2] To compute, multiply applicable support price by 105 percent or the price-support loan rate by 115, as indicated, round product up to nearest whole cent and add amount shown in the appropriate table and any applicable freight and handling charges.

Office of Management Improvement

ORGANIZATION AND FUNCTIONS AND AVAILABILITY OF INFORMATION

Notice is hereby given for the guidance of the general public as to the organization and functions, and the availability of records of the Office of Management Improvement pursuant to 5 U.S.C. 552, 559.

Organization and functions. The Office of Management Improvement provides leadership in planning, administering, and evaluating the Department's management program. The Office initiates appraisals of management activities and operating policies of the Department to achieve more effective and lower cost approaches to the conduct of business. It designs and revises management systems, and develops guidelines for a comprehensive data processing program designed to promote effective use of automatic data processing in the Department.

Availability of records. Records in possession of the Office of Management Improvement are open for inspection at their location either in Washington, D.C., or New Orleans, La., and copies may be made by the requestor or furnished by the Office of Management Improvement, except exempt records as described in the paragraph below.

Exempt records. Exempt records of the Office of Management Improvement include the following:

(1) Matters specifically required by Executive Order to be kept secret;

(2) Matters related solely to the internal personnel rules and practices of the Department;

(3) Matters specifically exempted from disclosure by statute;

(4) Trade secrets and commercial or financial information obtained from any person and privileged or confidential;

(5) Interagency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the Department;

(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Investigatory files compiled for law enforcement purposes except to the extent available by law to a party other than an agency.

Requests for records. Requests for records, other than publications available from office stocks, shall be submitted in writing, either to (1) Deputy Director, Office of Management Improvement, U.S. Department of Agriculture, Office of the Secretary, 14th and Independence Avenue SW., Washington, D.C. 20250; or (2) Director, Management Data Service Center, U.S. Department of Agriculture, 119 South Claiborne Avenue, New Orleans, La. 70112. Requests shall identify each desired record with reasonable specificity. Requests may be submitted in person or by mail.

Appeals. Denials of requested records may be appealed to the Director of Management Improvement. Appeals shall be made in writing within 15 days of the denied request. The Director will give written notice of final determination on the appeal.

Fees. A person who has requested available records shall be promptly notified that he may inspect and, upon payment of applicable fees, may copy such records, or purchase copies or extracts thereof on business days during regular office hours. Copies of such records may also be purchased by mail. Applicable fees are prescribed by the Director, Office of Plant and Operations, U.S. Department of Agriculture.

Effective date. The provisions of this notice are effective July 4, 1967.

Done at Washington, D.C., this 30th day of June 1967.

JOSEPH HASPRAY,
Director of Management Improvement.

[F.R. Doc. 67-7840; Filed, July 3, 1967; 8:49 a.m.]

Office of the Secretary

NORTH CAROLINA

Extension of Designation of Area for Emergency Loans

For the purpose of making emergency loans pursuant to section 321 of the Consolidated Farmers Home Administration Act of 1961 (7 U.S.C. 1961), it has been determined that in the hereinafter-named counties in the State of North Carolina natural disasters have caused a continuing need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

North Carolina	Original designation
Chowan	31 F.R. 10263.
Perquimans	31 F.R. 10263.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1968, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

This extension shall become effective as of June 30, 1967.

Done at Washington, D.C., this 30th day of June 1967.

DEVILLE L. FREEMAN,
Secretary.

DEPARTMENT OF COMMERCE

Office of the Secretary

RUTH M. SMYSER AND GEORGIANA R. RAMSEY

Delegation of Authority Relating to Certifications

1. Pursuant to the authority delegated to the Assistant Secretary for Administration by Department Order 166, the following employees of the Office of Administrative Services, Office of the Secretary, are hereby authorized to sign as certifying officers certifications as to the official nature of copies of correspondence and records from the files, publications and other documents of the Department and to affix the seal of the Department of Commerce to such certifications or documents for all purposes, including the purposes authorized by 28 U.S.C. 1733(b).

Ruth M. Smyser.
Georgiana R. Ramsey.

2. This delegation of authority shall be effective as of the date hereof.

Dated: June 27, 1967.

DAVID R. BALDWIN,
Assistant Secretary for Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ATLAS CHEMICAL INDUSTRIES, INC.

Notice of Filing of Petition for Food Additives Sorbitan Monostearate and Polysorbate 60 (Polyoxyethylene (20) Sorbitan Monostearate)

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 6B2009) has been filed by Atlas Chemical Industries, Inc., Wilmington, Del. 19899, proposing amendments to §§ 121.1089 Sorbitan monostearate and 121.1089 Polysorbate 60 (polyoxyethylene (20) sorbitan monostearate) to provide for the safe use of sorbitan monostearate and polysorbate 60 (polyoxyethylene (20) sorbitan monostearate) as emulsifiers in standardized sweet chocolate, milk chocolate, skim milk chocolate, buttermilk chocolate, mixed dairy product chocolates, and sweet cocoa and vegetable fat (other than cocoa fat) coating. The petition proposes that when the additives are used alone the maximum amounts not exceed 1 percent sorbitan monostearate and 0.5 percent polysorbate 60 (polyoxyethylene (20) sorbitan monostearate) by weight of the finished, standardized cocoa product; and that when used in combination the total maximum amount not exceed 1 percent by weight of such product, with the limitation that the polysorbate 60 not exceed 0.5 percent by weight.

Dated: June 28, 1967.

R. E. DUGGAN,
Acting Associate Commissioner for Compliance.

[F.R. Doc. 67-7824; Filed, July 6, 1967; 8:49 a.m.]

STATEMENT OF ORGANIZATION, FUNCTIONS, AND DELEGATIONS OF AUTHORITY

The following Statement Supersedes All Previous Material Issued in Part 10 (Food and Drug Administration) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare.

10-A *Mission.* The Food and Drug Administration administers the Federal Food, Drug, and Cosmetic Act, Tea Importation Act, Import Milk Act, Caustic Poison Act, Hazardous Substances Act, Fair Packaging and Labeling Act, and the Filled Milk Act. It is responsible for promoting purity, standard potency, and truthful and informative labeling of consumer products covered by this legislation.

10-B *Organization and functions.* The Food and Drug Administration is under the supervision and direction of the Commissioner of Food and Drugs, and is comprised of the following organizational components:

Office of the Commissioner. Under the general direction and supervision of the Secretary of Health, Education, and Welfare, the Commissioner of Food and Drugs is responsible for administering the following Acts: Federal Food, Drug, and Cosmetic Act; Federal Caustic Poison Act; Import Milk Act; Filled Milk Act; Tea Importation Act; Fair Packaging and Labeling Act; and Federal Hazardous Substances Act. Responsible for executive direction of the Agency and for developing and maintaining high management goals and objectives including: (1) assurance that FDA will hold a position of leadership in the medical and science issues surrounding the mission; and (2) assurance that medical and related scientific matters in the mission, and in relation to enforcement in administrative matters, are given appropriate weight in the making of top management decisions.

Associate Commissioner for Compliance. Functions as principal adviser to the Commissioner on regulations and compliance-oriented matters which impact on policy and Agency-level decisions. Evaluates and coordinates FDA's overall compliance effort to assure an optimum use of FDA resources (combined with other Federal, State, and local resources), a balance between voluntary and regulatory compliance, and FDA responsiveness to consumer needs. Stimulates an awareness within the Agency of the need for prompt and positive action to secure compliance by the regulated industries. Directs and coordinates the regulation-making activities of the Food and Drug Administration, to include procedural regulations, interpretive regulations, exempt regulations, rule-making regulations, and formal and informal regulatory policy statements. Responsible for preparation of FEDERAL REGISTER material. Counsels the Commissioner on courses of action necessary to rectify major deficiencies in compliance programs as reflected in formal program evaluation reports prepared by responsible staff officers. Determines impact on and/or need for major changes in Agency policy and direction and long-range program goals. Operates FDA emergency preparedness and civil defense program. Coordinates FDA delegate-agency and other civil defense responsibilities, and special FDA programs designed to meet national disaster and emergency requirements. Serves as liaison between FDA and outside agencies and industry on emergency preparedness matters.

Associate Commissioner for Science. Stimulates scientific and technological effort and achievement in the Agency. Provides leadership in shaping long-range program goals, advancement of programs, and understanding of FDA's scientific role and responsibilities. Promotes intra and extramural scientific cooperation. Serves as principal advisor to the Commissioner on scientific matters which impact on policy and agency-level decisions, specifically, (1) long-range program plans and goals, (2) initiation, curtailment, consolidation, or decentralization of major scientific research projects and functions, (3) organization; delegation of authority; and deployment of resources, and (4) industry petitions and proposals; precedent court cases; consumer protection; proposed legislation; and implementing FDA regulations. Responsible for all committee management within FDA. Serves as or designates, a scientific committee chairman for (a) scientific committees attached to the National Advisory Council; (b) agency-wide FDA research councils established to make objective appraisal of research accomplishments, needs and capabilities; (c) agency-wide contract research committees established to review status

and determine priorities for proposed research contract awards; and (d) related ad hoc committees established to determine an agency-wide approach for resolution of critical problems of immediate concern. Provides broad policy guidance and establishes relative degree of emphasis necessary for effective administration of the Science Information Facility in FDA. Responsible for, and is the focal point within the Agency, for continuing agency-wide appraisal of ongoing scientific research programs in FDA. Coordinates FDA scientific research programs to prevent overlap or duplication of effort within FDA and with scientific research performed in other Government agencies such as NIH, ARS, or research and development laboratories of the Defense Department. Responsible for the administration of the FDA Library. Directs the FDA safety program.

Assistant Commissioner for Administration. Serves as principal advisor to the Commissioner on all phases of management inherent in the operations of FDA. Responsible for the effective direction and utilization of all management resources and the implementation of operating programs by coordinating the funding, manpower, facilities, and equipment needs of the Agency. Provides leadership and direction to administrative management including budget, finance, personnel, organization, methods, procurement and property, records, and similar supporting activities. Provides central administrative services. Assures that conduct of these efforts effectively supports program operations.

Division of Financial Management. Plans, directs, and coordinates a comprehensive financial management program for the Food and Drug Administration encompassing the areas of budget analysis, formulation and execution, fiscal accounting, voucher audit, and financial reporting. Provides staff assistance in justifying budgets through executive and Congressional echelons. After appropriation, assures an orderly expenditure rate. Develops apportionment plans and issues allotments for expenditure. Makes periodic reports regarding the status of agency's financial management. Maintains liaison with the HEW Office of Financial Management, Bureau of the Budget, Congressional Committees, and other Federal agencies concerned with such matters. The Director of this Division is the Financial Manager of the Food and Drug Administration.

Division of General Services. Provides leadership and guidance to headquarters staff officers, headquarters operating activities, and field activities for all general services programs, including: procurement, contracts, personal property management and accountability, real property management, space management and utilization, construction and engineering services, communications, printing and reproduction, and mails and files. Responsible for maintaining effective liaison with the Government Printing Office, and for the centralized clearance and coordination of all printing and publication services. Coordinates the development of agencywide policies and procedures for such services and plans, executes, evaluates, and adjusts efforts in these activities. Maintains liaison with the HEW Division of General Services, General Services Administration, and other Federal agencies concerned with such matters.

Division of Management Systems. Assists the Assistant Commissioner for Administration in carrying out his responsibilities in those phases of agency management which involve: organization analysis and design; planning and evaluation of operations; the more effective and economical use of resources; the analyses, design, installation and maintenance of operating systems and procedures. Conducts management surveys or studies of FDA administrative and program operations. Designs and installs modern automated systems for data processing. Provides automatic data processing (ADP) services for all of FDA including electronic data processing (EDP) as well as electrical accounting machine (EAM) equipment. Develops and maintains coordinated systems for the management of directives, reports, forms, records, and correspondence. Establishes policy for all systems development and improvement work of the agency including such work performed by the operating Bureaus. Maintains liaison with the DHEW Office of Management Policy, General Services Administration, Bureau of the Budget, and other Federal agencies concerned with such matters.

Division of Personnel Management. Responsible for planning, developing, executing, and evaluating a comprehensive personnel management program for FDA including recruitment, placement, classification, pay administration, employee relations, employee services, employee-management relations, and employee development and training. Through this program, assists top management as well as operating units to expeditiously and efficiently achieve its program objectives while insuring the application of the Federal Merit System. Maintains liaison with the HEW Division of Personnel Management, Civil Service Commission, and other Federal agencies concerned with such matters. The Director of this Division is the Personnel Officer of the Food and Drug Administration.

Assistant Commissioner for Education and Information. Acts as principal advisor to the Commissioner concerning public information and education. Plans, coordinates, and participates in a comprehensive public information program for the Agency and acts as a focal point for dissemination of news concerning FDA activities; maintains contacts with the press and other public information media for this purpose. Gives proper emphasis to newsworthy occurrences and assures that distortions of FDA intention do not occur as a result of insufficient explanation by the Agency. Conducts a public information program that will create a positive atmosphere for FDA regulatory programs and will be conductive to the FDA personnel recruitment effort. Maintains contact with key individuals and organizations in the field of education and educational materials in order to interest them in the role of FDA as an item of educational importance. Reviews long-range plans and sets long-range goals for consumer education programs. Reviews all speeches and other informational material prepared for public presentation to assure that they are in agreement with the latest FDA and Department policies. Provides editorial, design, and graphic art services to FDA headquarters activities. Answers public inquiries and corresponds with the public on topics of consumer interest.

Assistant Commissioner for Planning and Evaluation. Responsible for FDA long-range planning including program analysis. Develops and participates in the administration of the FDA planning-programing-budgeting system by: Assisting the Bureaus in developing long-range objectives; developing cost-benefit studies; providing staff leadership in the conduct of economic and demographic studies as a basis for forecasting trends, needs, and major problems requiring solution. Coordinates intra- and inter-agency planning-programing; provides liaison with the Department Office of Program Coordination. Consolidates and issues FDA 5-year plan. Evaluates program accomplishments against objectives and priorities.

Office of International Affairs. Advises the Commissioner on all FDA matters having international implications. Develops position papers on international programs as recommendations to the Commissioner. Helps to coordinate implementation of such programs. Serves as focal point for and coordinates FDA contacts and liaison with international organizations. Represents FDA at meetings concerning international affairs when requested to do so by the Commissioner. Assumes leadership in the fostering of multilateral interests, support, and action by other countries in administering FDA-type regulatory programs of foods, drugs, cosmetics, and hazardous substances which are subject to importation into the United States. Fosters international cooperation on problems concerning foods, drugs, cosmetics, and hazardous substances. Maintains constant liaison and close working relationships with the Office of the Assistant Secretary for Health and Scientific Affairs, DHEW, regarding developments, trends, programs, policies, and procedures concerning international activities. Maintains a working relationship with other U.S. Government organizations that have to do with international affairs, such as the Department of State and the Department of Defense. Represents the Food and Drug Administration in relations with foreign visitors.

Office of Legislative and Governmental Services. Advises the Commissioner concerning legislative and other needs necessary to develop effective Federal-State cooperative programs. Provides a focal point of headquarters-field liaison, program development, and information concerning State food and drug consumer protection programs and FDA operating relationships with the States. Provides assistance in the analysis of State legislative needs and develops or coordinates the development of model legislation and regulations. Coordinates analyses of FDA legislative needs and the development of FDA legislative proposals and prepares FDA position papers for the approval of the Commissioner. Maintains liaison with the Congress concerning food and drug legislative proposals and provides assistance in making modifications and interpretations as appropriate. Develops the FDA position on proposed legislation which may affect FDA programs and initiates action to resolve major differences of opinion. Coordinates Congressional inquiries and reports, as appropriate, coordinates State and local inquiries. Coordinates pertinent activities and acts as liaison with the Office of the Assistant Secretary for Legislation, DHEW.

Office of Policy Management. Advises the Commissioner on policy and procedures necessary for maintaining the integrity of trade secrets and other privileged information submitted by industry to the Food and Drug Administration. Formulates Agency-wide security measures to be followed to prevent disclosure of such privileged information to unauthorized sources. Investigates and recommends action concerning problems associated with security. Serves as FDA representative and liaison with the Office of Internal Security, OS, and participates with them in developing and implementing intra-agency policy and procedures for security-related matters. Advises the Commissioner on policy and special problems concerning conflict of interest and/or potential conflict of interest. Establishes broad Agency-wide policy, and reviews and initiates actions as necessary to maintain a climate of confidence, on the part of regulated industry and of the general public, in the integrity of the Food and Drug Administration. Reviews the administration of fair employment practices within the Agency and recommends corrective action as may be indicated.

Bureau of Drug Abuse Control.—Responsible for the development and execution of appropriate inspection, enforcement, and analytical programs necessary to carry out the intent and provisions of the Drug Abuse Control Amendments of 1965 (relating to the control of depressant, stimulant, hallucinogenic, and counterfeit drugs) and to prevent the illegal sale of prescription drugs. Executes at the local level, in cooperation with the Bureau of Education and Voluntary Compliance, educational and voluntary compliance programs. Initiates and conducts programs designed to emphasize the social, physiological, and psychological aspects of drug abuse control. Develops and conducts a program of inventory audit of manufacturers and other handlers of stimulant and depressant drugs to prevent the illegal diversion of such drugs. Conducts investigations and takes appropriate enforcement action designed to stop illegal traffic in stimulant and depressant drugs, counterfeit drugs, and the illegal sale of prescription drugs. Responsible for the operation of field offices established to implement the programs of the Bureau in the field.

Division of Case Assistance. Provides guidelines in interpretation of statutes, regulations, and court decisions relating to the control of stimulant and depressant drugs, counterfeit drugs, and illegal sale of prescription-legend drugs. Develops policies and procedures and provides guideline in the areas of fundamentals of evidence, legal authorities and rights, libel action, search and seizure, and other aspects of general criminal law including current court decision relating to the control of stimulant and depressant drugs, counterfeit drugs, and illegal sale of prescription-legend drugs. Monitors all contested court actions pending in cases initiated by the Bureau. In this role, assures that the field office and the U.S. Attorney receives all needed assistance in whatever form. (Responsibility for additional investigational work rests with the Division of Investigations.) Serves as a focal point of information on all current court cases initiated by the Bureau. Provides counsel and assistance, as required, to the Bureau's field staff in preparing legal actions for trial. Provides for any needed coordination of court cases among the Bureau, Bureau of Regulatory Compliance, and the General Counsel (HEW). Prepares and organizes Bureau presentations at hearings conducted under Section 701 of the Federal Food, Drug, and Cosmetic Act. Drafts, or coordinates the preparation of, the regulations necessary to implement the Drug Abuse Control Amendments; maintains the regulations in a current status. Provides guidance and assistance to the BDAC Hearing Officers.

Division of Drug Studies and Statistics. Provides a focal point on the social, psychological, and physiological ramifications of stimulant and depressant drug abuse. Collects, maintains, and analyzes statistical data concerning legal and illegal stimulant and depressant drug production, distribution and use. Initiates, arranges for, and coordinates studies to determine the potential for drug abuse of existing and new psychotoxic drugs and to expand current knowledge concerning the side effects of controlled drugs. Recommends programs for community action and other types of educational and voluntary compliance programs and conducts studies that would lead to the development of effective programs.

Division of Investigations. Develops policies and procedures for the inventory audit of manufacturers, compounders, processors, wholesalers, jobbers, distributors, pharmacies, hospitals, and other persons or firms required to maintain records on stimulant and depressant drugs. Develops recommended records and controls for voluntary use by manufacturers and other handlers of stimulant and depressant drugs in order to obstruct the illegal diversion of such drugs. Develops and coordinates field investigations relating to the control of stimulant and depressant drugs, counterfeit drugs, and the illegal sale of prescription drugs. Develops policies and procedures for the guidance of field investigative staff in conducting criminal and other types of investigations and in the protection of personnel. Coordinates with the Bureau of Regulatory Compliance concerning the following: provision of adequate laboratory support from BRC for the examination of samples; proper timing of citations and other enforcement actions to avoid duplication of investigative and enforcement efforts, scheduling of audits of stimulant and depressant drug handlers to minimize the possibility of conflicting visits to firms.

Field Offices. Carries out assigned programs designed to eliminate the problem of drug abuse. Conducts and participates in educational and voluntary compliance activities designed to prevent and forestall the necessity for punitive action to be taken by Federal and State authorities in their efforts to control drug abuse. Conducts overt and covert investigations to prevent illegal traffic in stimulant and depressant, counterfeit, and prescription legend drugs; takes appropriate regulatory action when violations of the Drug Abuse Control Amendments are encountered. Audits inventory records of manufacturers and distributors of stimulant and depressant drugs to determine whether there is diversion of such drugs from legitimate channels of distribution; initiates remedial action. Advises manufacturers and distributors of stimulant and depressant drugs as requested in developing and maintaining such records and controls that will discourage and detect illegal diversions and will facilitate inventory audits by FDA. Holds informal hearings for violators of the Drug Abuse Control Amendment of 1965 when violations occur and recommends appropriate regulatory action. Maintains working relationships with State and local agencies, police and narcotic enforcement officials and with local representatives of the Bureau of Narcotics, Federal Bureau of Investigation and the Department of Justice. Coordinates with the appropriate FDA district office in scheduling inventory audits of drug manufacturers and in taking regulatory actions in order to avoid duplication of investigative and enforcement efforts and to minimize the possibility of conflicting visits.

Bureau of Education and Voluntary Compliance. Conducts a broad program of promoting voluntary compliance and cooperation between the public, the regulated industries, and the Food and Drug Administration through educational and informational activities. Conducts programs to effectively inform specific segments of the population to avoid abuse and misuse of drugs; avoid health hazards, frauds, and quackery; and to use drugs safely and effectively. Conducts programs aimed at effectively providing industry with facts and techniques that will give industry the greatest opportunity to comply with FDA

regulations and standards. Decides areas of emphasis and techniques to be used for such programs. Determines consumer attitudes, interests, and values; industry trends and attitudes; and program effectiveness through the use of special surveys.

Division of Consumer Relations. Conducts educational and informational programs to assist consumers in deriving the most benefit from the Federal Food, Drug, and Cosmetic Act and related laws. Organizes and conducts meetings, workshops, and seminars for providing consumer information directed to specific population groups, such as low income, senior citizens, youth, and other representative consumer organizations. Initiates plans and prepares informational material in support of areas of responsibility. Initiates plans for movies, radio and TV spots, filmstrips, exhibits, and other audiovisual materials as required to support meetings, workshops, and seminars. Designs, plans, and recommends consumer surveys as required. Implements programs in schools, colleges, and universities relevant to Federal Food, Drug, and Cosmetic Act. Makes long-range plans in the areas of the Division's responsibilities.

Division of Industry Education. Conducts programs to encourage and promote industry self-improvements and self-regulation. Assures understanding of FDA regulations and policies by the regulated industries. Prepares and distributes informational material to explain FDA's laws, regulations, and policies. Organizes and conducts meetings, workshops, and seminars for discussion of new laws or amendments, proposed regulations, and for providing industry with facts and techniques to produce products that meet the agency's regulatory standards. Initiates plans for visual materials in support of division's areas of responsibility. Makes long-range plans for carrying out an effective industry voluntary compliance program.

Bureau of Medicine. Develops medical policy of the Food and Drug Administration with respect to efficacy and safety for man of drugs and devices. Establishes medical policy and furnishes the Commissioner with medical evaluation of substances found, or proposed for use, in foods, drugs, cosmetics, and hazardous household substances. Coordinates and evaluates New Drug Applications and claims for investigational drugs. Operates an adverse drug reaction reporting program. Conducts through contract, a program of clinical studies of drugs and devices. Coordinates medical aspects of FDA's inspectional and investigational programs, new drug hearings, and court cases. Determines those drugs having a potential for abuse; develops recommendations and explanatory data for review by committees established to advise the Commissioner in this area of responsibility. Analyses data on drugs subject to abuse and makes appropriate recommendations for action by FDA. In response to Bureau of Drug Abuse Control requirements, conducts and contracts for studies on the medical aspects of drug abuse control.

Office of Drug Surveillance. Evaluates the safety and efficacy data and proposed labeling in supplements to new drug applications and makes appropriate recommendations to the Division Director with respect to approval and disapproval of the supplements. Conducts continuing surveillance and medical evaluation of the labeling, clinical experience and reports of adverse reactions, including those submitted by an applicant under the records and reports requirements, of all drugs for which a new drug approval is in effect. Determines whether there is a need for revised labeling, withdrawal of approval of the drug, or recall of the drug from the market. Consults with medical experts to ascertain the concensus of informed medical opinion relating to current problems regarding individual or classes of drugs. Reviews inspection and other findings designed to reveal whether new drugs are being marketed in accordance with commitments contained in new drug applications. When the Office determines there is a need for labeling revision, withdrawal of a new drug approval or removal of a new drug from the market, makes appropriate recommendations to the Division Director. Provides medical evaluation with regard to the safety of foods, particularly special dietary foods, food additives, and cosmetics. Maintains a system to obtain reports of adverse reactions from the use of drugs. Maintains a system to collect reports of and disseminate information on hazardous substances.

Division of Drug Monitoring. Makes preliminary review and analysis of all adverse drug reactions coming into the Bureau of Medicine. Administers the Hospital Adverse Drug Reaction Reporting Program and develops and coordinates other sources of adverse drug reaction information. Receives and disseminates information obtained from those sources. Screens adverse reaction reports to initiate prompt in-depth evaluation by other Divisions of situations that may require changes in labeling, issuance of warning letters, withdrawal of new drug approvals, or removal of drugs from the market. Makes in-depth evaluations when requested.

Division of Epidemiology. Collects, evaluates, and disseminates information obtained with regard to the hazards of chemicals used in the household and of cosmetics, pesticides, food additives, and the accidental ingestion of drugs. Develops precautionary statements for hazardous substances covered by Federal laws. Makes recommendations for further study, precautionary labeling, changes in labeling, or withdrawal from use, to other Divisions in the Bureau of Medicine and the Office of the Bureau Director. Conducts clinical studies based on hospital records-keeping systems.

Division of Supplemental Review. Evaluates the safety and efficacy data provided in supplements to new drug applications. Evaluates proposed labeling changes submitted as part of supplements to new drug applications. Monitors and otherwise refers to appropriate catalogs of labeling for all new drugs to assure that supplemental labeling changes are consistent with and otherwise in conformity with the labeling of similar or comparable drug articles. Makes appropriate medical recommendations to the Office of Drug Surveillance with respect to approval or disapproval of supplements to new drug applications.

Office of Medical Review. Provides assistance on medical matters to legal officers in hearings and court cases. Reviews and evaluates promotional material for drugs, devices, and books which are sold principally through the mails and after consideration of the drug's formula, design of the devices, or review of the book, forwards a report to the Chief Postal Inspector indicating whether or not there is convincing medical basis for a fraud action. In Post Office Fraud hearings gives medical testimony in support of the Department's charges of false and fraudulent claims, and when indicated, makes arrangements for other physicians to testify in support of the Government's position. Testifies at Grand Jury hearings when requested by the Post Office Department and assists the U.S. Attorney by explaining the medical aspects of the particular case and assists him in preparation of the case for trial. Advises the Post Office Department of the need or desirability for clinical studies to support actions against false and fraudulent therapeutic claims set forth in the Department's complaint, plans such studies, and secures the cooperation of physicians and scientists in carrying them through to completion. Reviews advertising claims and promotional labeling and recommends actions to prevent misleading and false claims. Develops medical facts and opinions to establish medical policy with respect to therapeutic devices and appliances having medical claims. Provides necessary medical evidence and expert witnesses to support legal actions involving violative devices.

Division of Case Review. Reviews proposed legal actions involving medical issues and recommends appropriate action on the basis of medical evidence. Determines the necessity for field investigation of drug problems and when indicated, assists the field in making these investigations. Directs, designs, or conducts clinical investigations to obtain the medical and other scientific facts necessary for the final determination of policy and to support regulatory actions on violative drugs. Develops medical evidence, procures expert medical witnesses, and collaborates with the Bureau of Regulatory Compliance and the Office of the General Counsel to provide medical support in new drug hearings and court cases. Provides technical advice to the General Counsel and to the U.S. Attorney in the presentation of court cases, including preparing and answering of interrogatories, depositions, and sitting with the attorneys in court to advise on cross-examination of opposition witnesses.

Division of Medical Advertising. Monitors and evaluates professional journal advertising, and promotional

labeling and advertising contained in establishment inspection reports and submitted under the records and reports requirements. Recommends regulatory procedures to deal with false or misleading claims in advertising and promotional labeling or failure of prescription drug advertisements to fairly present in brief summary, information concerning side effects, contraindications, and effectiveness of drugs. Cooperates with the Bureau of Regulatory Compliance and the Bureau of Education and Voluntary Compliance in furnishing medical support for trade correspondence and regulatory proceedings based on the advertising and promotional labeling for prescription drugs.

Division of Medical Devices. Develops medical facts and opinions necessary to establish Food and Drug Administration medical policy with respect to therapeutic devices and appliances having medical claims. Conducts or directs research, testing, and laboratory studies required to determine the technical adequacy, qualitative characteristics, physical characteristics, and the physical effects produced by medical devices and appliances. Conducts or directs clinical studies to determine the truthfulness or falsity of claims made in the labeling of such devices. In cooperation with the Bureau of Regulatory Compliance, provides necessary medical evidence and expert witnesses to support legal actions involving violative devices.

Office of New Drugs. Determines whether preclinical pharmacologic tests and other toxicological evaluations performed on new drug articles are adequate to support proposed clinical uses. Determines whether clinical trials of new drugs on man are soundly conceived and are supported by prior animal testing and other controls adequate to justify the tests on man. Determines whether applications by manufacturers for permission to market new drugs for general use should be approved on the basis of an evaluation of the evidence of safety and effectiveness. Evaluates the truthfulness of claims for safety and effectiveness, and the adequacy of directions for uses, and warnings against misuses, appearing in proposed labeling; the adequacy of animal, clinical, and chemical tests performed on the new drug and the suitability of manufacturing and laboratory methods, facilities and controls exercised in factories producing new drugs.

Division of Anti-infective Drugs. Performs all of the functions outlined in the overall functions for the Office of New Drugs with regard to drugs that will be classified anti-infective drugs.

Division of Cardiopulmonary and Renal Drugs. Performs all of the functions outlined in the overall functions for the Office of New Drugs with regard to drugs that will be classified cardiopulmonary renal drugs.

Division of Dental and Surgical Adjuncts. Performs all of the functions outlined in the overall functions for the Office of New Drugs with regard to drugs that will be classified dental and surgical adjuncts.

Division of Metabolism and Endocrine. Performs all of the functions outlined in the overall functions for the Office of New Drugs with regard to drugs that will be classified metabolism and endocrine drugs.

Division of Neuropharmacological Drugs. Performs all of the functions outlined in the overall functions for the Office of New Drugs with regard to drugs that will be classified neuropharmacological drugs.

Division of Oncology and Radiopharmaceuticals. Performs all of the functions outlined in the overall functions for the Office of New Drugs with regard to drugs that will be classified oncologic and radiopharmaceutical drugs.

Bureau of Regulatory Compliance. Provides staff assistance to the FDA district offices through the development of regulatory program plans, the collection and processing of program statistics, the development of legal, inspectional, and laboratory guidelines, and the provision of guidance, coordination, and assistance in case handling. Develops program plans in concert with the district offices within the context of national compliance programs developed by the Associate Commissioner for Compliance. Receives, processes, and analyzes program statistics collected from the field organization, and provides the Commissioner and the district offices with relevant program data and summary information. Provides technical guidance for the district offices by developing and revising program manuals for district use. In coordination with the Field Liaison Officer and the district offices, uses field expertise in the development of the manuals. Recommends to the Commissioner delegations of authority to the districts concerning the direct handling of legal actions. Develops and maintains legal guidelines for the districts to use in such cases. Reviews and approves legal actions in cases where authority has not been delegated to the field or where guidelines have not yet been established, and in cases of national scope requiring headquarters coordination. Advises the Commissioner and the district offices regarding the development of evidence leading to precedent-establishing court contests designed to test and interpret the law. Provides data and information for long-range planning and budget formulation to the Assistant Commissioner for Planning and Evaluation and the Assistant Commissioner for Administration. Issues advisory opinions resulting from specific requests from industry. Prepares responses to Congressional inquiries and requests for information under 21 CFR 4.1 relating to investigations and enforcement policies. Performs a liaison function between FDA and the General Counsel and other governmental organizations in the conduct of various enforcement actions.

Division of Case Guidance. Provides support and guidance upon request to the district offices in the handling of legal actions, and provides headquarters case development, coordination, and contested case assistance. Recommends to the Commissioner delegations of authority to the districts concerning the direct handling of legal actions. Develops and maintains legal guidelines for the districts to use in such cases. Reviews and approves legal actions in cases where authority has not been delegated to the field, and in cases of national scope requiring headquarters coordination. Advises the Commissioner and the district offices regarding the development of evidence leading to precedent-establishing court contests designed to test and interpret the law. Issues advisory opinions resulting from specific requests from industry, trade associations, government agencies, and members of Congress. Answers inquiries relating to pending or terminated legal actions. Responds to requests for official records and information under 21 CFR 4.1. Serves as liaison office between FDA and General Counsel, DHEW, and other Federal agencies on policy issues relating to cases. Participates in the training of field staff who are concerned with court cases.

Division of Program Operations. Develops program plans in concert with the district offices within the context of national compliance programs developed by the Associate Commissioner for Compliance. Receives, processes, and analyzes program statistics collected from the district offices for use in the Division's program planning. Provides the Office of the Commissioner and the districts with relevant program data and summary information. Recommends workload distribution for the district offices to the Commissioner. Provides data and information for long-range planning and budget formulation to the Assistant Commissioner for Planning and Evaluation and the Assistant Commissioner for Administration. Participates in decisions on nationwide technical training needs. Cooperates with the district offices, the Field Liaison Officer, and the Training Branch, ACA in planning and presenting training programs.

Bureau of Science. Plans, develops and administers a program of scientific support to the regulatory missions of the Food and Drug Administration. Responsible to the Commissioner for scientific standards and research relating to the composition and quality of foods, drugs, and cosmetics. Establishes policy for and directs a National program for the development of scientific standards for the protection of consumers against deleterious and fraudulent products. Develops and administers a program of scientific research in support of FDA's regulatory certification and enforcement responsibilities. Establishes and maintains relationships with other governmental and nongovernmental research and science organizations.

Division of Antibiotic and Insulin Certification. Jointly administers the antibiotic and insulin certification programs. Assists Bureau of Medicine in the evaluation of the adequacy and reliability of chemical and biological data in proposals for listing for certification antibiotic and insulin drugs and dosage forms. Assists Bureau of Medicine in the development of specifications, tests, and

methods of assay for antibiotic and insulin drugs. Assists Bureau of Medicine in the formulation of judgments on the nature of various antibiotic and insulin drugs including their safety and efficacy in use. Conducts laboratory tests and assays of samples submitted for certification, including tests for identity, composition, potency, sterility, and pyrogenicity. Conducts research programs to secure and organize new scientific information about the composition, properties, and interactions of these drugs to provide bases for the improvement of analytical methods and the development of sound opinions and policies. Performs examinations and tests required to support regulatory programs involving these drugs. Serves as repository of expertise and information concerning antibiotic and insulin drugs. Establishes planning, reporting, and accomplishment appraisal procedures.

Division of Color Certification and Evaluation. Administers the color certification program. Reviews and evaluates scientifically petitions and proposals for listing color additives and diluents with respects to the adequacy and reliability of chemical data (identity, composition, purity, stability) and methodology. Prepares color additive regulations. Conducts laboratory examinations and tests of samples for compliance with specifications as based for certification of batches. Conducts laboratory investigations to: (1) Check on accuracy of data consigned in petitions and proposals, (2) study unusual findings or difficulties encountered in routine analysis of samples submitted for certification, and (3) carry out special investigations involving regulatory samples. Participates in development of regulatory programs involving color additives. Establishes planning, reporting and accomplishment appraisal procedures.

Division of Color and Cosmetic Chemistry. Originates, plans, and conducts far-ranging researches to elucidate the nature and properties of significant substances occurring in cosmetics, colorants, and related commodities. Devises new methods for the analysis of cosmetics, colorants, and related commodities; investigates the mechanisms of the underlying chemical reactions; and explores the utilization of novel instruments and equipment. Designs and participates in collaborative studies to establish the reliability of new analytical methods and to validate important discoveries in the area of its competence. Organizes and conducts short-term training courses to impart its findings to scientists in other FDA Bureaus; participates in joint long-range experiments with members of these Bureaus and with interested scientists from other government agencies and academic institutions. Recommends the initiation of new research projects to the Bureau Director. Provides expert advice and consultation to the Office of the Commissioner and the components of FDA and to other government agencies with respect to research and the interpretation of scientific information in the domain of cosmetic and colorant science and technology. Performs regulatory analyses when required facilities are not available elsewhere, and when additional or check data are desired to support legal actions; participates in the formulation of regulatory programs concerning cosmetics and colorants. Publishes the results of its investigations in scientific journals and circulates preliminary reports among the scientists in FDA to apprise them promptly of its findings.

Division of Food Chemistry. Originates, plans and conducts far-ranging researches to elucidate the nature and properties of significant substances occurring in foods and related commodities. Devises new methods for the analysis of foods and related commodities; investigates the mechanisms of the underlying chemical reactions; and explores the utilization of novel instruments and equipment. Cooperates with the Bureau of Regulatory Compliance to design and participate in collaborative studies establishing the reliability of new analytical methods and validating important discoveries in the area of its competence. Organizes and conducts short-term training courses to impart its findings to scientists in other FDA Bureaus; performs joint long-range experiments with members of these Bureaus and with interested scientists from other government agencies and academic institutions. Recommends the initiation of new research projects to the Bureau Director. Provides expert advice and consultation to the Office of the Commissioner and the components of FDA and to other Government agencies with respect to research and the interpretation of scientific information in the domain of food chemistry. Performs regulatory analyses when required facilities are not available elsewhere, and when additional or check data are desired to support legal actions; participates in the formulation of regulatory programs concerning foods, food additives, pesticides, and related commodities. Publishes the results of its investigations in scientific journals and circulates preliminary reports among the scientists in FDA to apprise them promptly of its findings.

Division of Food Standards and Additives. Initiates and conducts a planned program for development of standards of identity, quality, and fill of container for food products. Evaluates scientifically and processes proposals for regulations establishing standards of identity, quality, and fill of container for food products. Serves as a repository of expertise and information in current food technology. Evaluates scientifically pesticide and food additive petitions with respect to adequacy and reliability of information on chemistry (identity, reproducibility, purity, stability), residue data, methodology, and intended effect data (food additives). Plans and conducts appropriate laboratory investigations with respect to: (1) Food Standards: (a) Preparation, analysis, and evaluation of authentic packs, (b) development of data and expertness in food processing, (c) data and methods for identification of foods, (d) data and methods for detecting substitutes, (e) deceptive packaging, and (f) examination of check regulatory samples. (2) Pesticides and Food Additives: (a) validation of methodology related to particular pesticide or food additive petitions or enforcement programs, and (b) collection of authentic research data by applying established methodology, e.g.: *i* Commodity (specific foods or feeds) surveys for levels of pesticide residues and food additives.

Division of Microbiology. Originates, plans and conducts researches to determine the nature, extent, and significance of microbial and other microscopic contaminants occurring in foods and drugs; studies causes and develops methods for the detection and prevention of food poisoning. Devises new microscopic and biological methods for the analysis of foods, drugs, and cosmetics; and explores the utilization of novel biological systems, instruments, and techniques. Designs and participates in collaborative studies to determine the reliability of new analytical methods and to evaluate important discoveries within the areas of its special competence. Organizes and conducts short-term training courses to impart its findings to scientists in other Bureaus of FDA and to State and Municipal regulatory officials. Recommends the initiation of new research projects to the Bureau Director. Provides expert advice and consultation to the Commissioner and the components of FDA and to other Government agencies with respect to technological developments, research, and the interpretation of scientific information in the areas of microbiology (bacteriology, mycology, virology, etc.), entomology and other biological sciences, and microanalysis; participates in the formulation of regulatory programs involving these disciplines. Performs regulatory analyses when required facilities are not available elsewhere, and when additional or check data are desired to support legal actions. Publishes the results of its investigations in scientific journals and circulates preliminary reports among the scientists in FDA to apprise them promptly of its findings.

Division of Nutrition. Originates, plans, and conducts far-ranging researches to elucidate the nature and properties of nutrient substances occurring in foods, drugs, and related commodities and factors affecting these nutrients; to determine the nutritional effects of these substances in biological and microbiological systems; and to study the metabolic fate of these substances. Devises new methods for the analysis of nutrients in foods, drugs, and related commodities; investigates the mechanisms of the underlying chemical and biochemical reactions; and explores the utilization of novel instruments and equipment. Designs and participates in collaborative studies to establish the reliability of new analytical methods to validate important discoveries in the area of its competence. Organizes and conducts short-term training courses to impart its findings to scientists in the Bureau of Regulatory Compliance, the Bureau of Medicine and the Bureau of Veterinary Medicine; participates in joint long-range experiments with members of these Bureaus and with interested scientists from other Government agencies and academic institutions. Recommends the initiation of new research projects to the Bureau Director. Provides expert advice and consultation to the Office of the Commissioner and the components of FDA and to other Government agencies with respect to general technological developments, research, and the interpretation of scientific information in the domain of the nutritional sciences. Performs regulatory analyses when required facilities are not available elsewhere, and when additional or check data are desired to support legal actions; participates in the formulation of regulatory programs concerning special dietary foods and certain drugs offered for their nutrient properties. Publishes the results of its investigations in the scientific journals and circulates preliminary reports among the scientists in FDA to apprise them promptly of its findings.

Division of Pharmaceutical Chemistry. Originates, plans, and conducts far-ranging researches to elucidate the nature of significant substances occurring in drugs and related commodities. Devises new methods for the analysis of drugs and related commodities; investigates the mechanism of the underlying chemical reactions; and explores the utilization of novel instruments and equipment. Designs and participates in collaborative studies to establish the reliability of new analytical methods and to validate important discoveries in the area of its competence; cooperates with the Committees of Revision of the Pharmacopoeia of the United States and the National Formulary in providing tests, assays, and standards for the drugs recognized by these compendia. Organizes and conducts short-term training courses to impart its findings to scientists in other FDA Bureaus; participates in joint long-range experiments with members of these Bureaus and with interested scientists from other Government agencies and academic institutions. Recommends the initiation of new research projects to the Bureau Director. Provides expert advice and consultation to the Office of the Commissioner and the components of FDA and to other Government agencies with respect to general technological developments, research, and the interpretation of scientific information in the domain of pharmaceutical chemistry. Performs regulatory analyses when required facilities are not available elsewhere, and when additional or check data are desired to support legal actions; participates in the formulation of regulatory programs concerning drugs. Publishes the results of its investigations in scientific journals and circulates preliminary reports of its findings.

Division of Pharmacology. Originates, plans, and conducts far-ranging researches to elucidate the nature and properties of pharmacologically significant substances occurring in foods, drugs, cosmetics, colorants, and related commodities; to investigate the pharmacological effects of these substances in biological and microbiological systems; and to study the metabolic fate of these substances. Devises new methods for the analysis of foods, drugs, and related commodities for pharmacologically significant substances; investigates the mechanisms of the underlying chemical and biochemical reactions; and explores the utilization of novel biological systems, instruments and equipment. Designs and participates in collaborative studies to establish the reliability of new analytical methods and to validate important discoveries in the areas of its competence; participates in the formulation of regulatory programs concerning drugs, cosmetics, and related commodities. Publishes the results of its investigations in scientific journals and circulates preliminary reports among the scientists in FDA to apprise them promptly of its findings.

Division of Toxicological Evaluation. Evaluates scientifically pesticide and food additive petitions with respect to adequacy and reliability of toxicological data and tests. Evaluates scientifically color additive petitions and proposals with respect to adequacy and reliability of toxicological data and tests. Evaluates scientifically labeling for hazardous substances. Plans and conducts appropriate laboratory investigations, such as: (1) Acute and chronic administration studies on various classes of pesticide chemicals, food additives, drugs, color, and hazardous substances to provide bases for evaluation of new proposals, and bases for review of existing tolerances and uses, (2) investigations to check data submitted by petitioners, (3) studies in application and interpretation of new procedures, and (4) studies to detect likelihood of potentiation of mixtures of pesticide chemicals, additives, and drugs. Serves as a repository of expertise and information on the toxicology of pesticide chemicals, food additives, color additives, drugs and hazardous substances. Establishes planning, reporting, and accomplishment appraisal procedures.

Bureau of Veterinary Medicine. Responsible for developing the veterinary medical policy of the Food and Drug Administration, with respect to the safety and efficacy of veterinary preparations and devices. Evaluates proposed use of veterinary preparations for animal safety and efficacy. Responsible for the veterinary medical aspects of the Food and Drug Administration inspection and investigational programs, and providing veterinary medical opinion in drug hearings and court cases.

Division of Veterinary Medical Review. Maintains surveillance of veterinary preparations and devices to assure safety and efficacy. Evaluates drug experience reports, establishment inspection information, advertising, and other clinical or research data bearing on marketed veterinary preparations. Evaluates and recommends action on medicated feed applications for those preparations that have been approved for marketing (generally under an approved food additive regulation or other original new drug applications). Recommends and/or supports regulatory and research activity. In cooperation with Bureau of Regulatory Compliance, obtains expert witnesses and data to support the Government's case when contest is pending or anticipated. Prepares veterinary medical reports for the Post Office Department on which action, as prescribed by the Postal Laws and Regulations, may or may not be taken; testifies as expert witness when such action is taken.

Division of Veterinary New Drugs. Evaluates for animal safety and efficacy proposed new veterinary preparations. Reviews the use of such preparations in veterinary medical practice to determine the effect on animals. (If the preparation is administered to food producing animals, the use of the product is considered as it relates to safety in humans.) Evaluates proposed labels to assure that they clearly indicate the use and limitations of the product. Evaluates manufacturing facilities and procedures as described in the application to assure that such controls are adequate. Recommends action to be taken on proposed new veterinary preparations submitted for FDA review. Determines data required to establish safety and efficacy and provides such information to investigators and manufacturers. Initiates research projects to gain further information on new drugs.

Division of Veterinary Research. Conducts studies to evaluate the validity of data supporting the safety and efficacy of veterinary drugs intended for the prevention or treatment of animal diseases. Conducts acute and chronic toxicity studies in large domestic animals following reports of contaminated animal feeds, such as heavy metals, weed seeds, pesticides, etc. Studies the therapeutic properties of specific products and substances and the experimental reproduction of various disease conditions. Cooperates with other Divisions and Bureaus of the Food and Drug Administration in the development of actual evidence based on animal experimentation to support legal action under the Federal Food, Drug, and Cosmetic Act. Directs research to develop methods for studying the effects of therapeutic agents and various disease conditions. Conducts experiments to develop information re-

garding food additive problems arising from the use of drugs in veterinary medicine. Maintains the veterinary laboratories located at the Agricultural Research Center, Beltsville, Md. Maintains colonies of laboratory animals for experimental tests and studies.

District Offices. Carries out all field activities necessary for the enforcement of the several laws under the jurisdiction of the Food and Drug Administration, with the exception of those activities relating to drug abuse control. Working within broad program plans developed in concert with headquarters, carries out investigations and inspections to assure and encourage compliance with pertinent sections of the Food, Drug, and Cosmetic Act, its regulations, and related acts. Collects and makes laboratory analyses of samples where the need is indicated. Analyzes violative situations and makes recommendations on legal actions. Carries out approved actions. Where authority and responsibility have been delegated, makes the enforcement decisions and carries out or initiates the enforcement or legal action indicated within the context of guidelines provided by headquarters. Maintains communications and working relationships with companion districts necessary for collaborating on investigations or programs that involve more than a single district. Carries out assignments from the Office of the Commissioner which require the special expertise or services of a field organization. Participates actively in FDA voluntary compliance programs and encourages industry participation during regular inspectional operations. Provides selected laboratory support services for the field offices of the Bureau of Drug Abuse Control. Provides headquarters with short- and long-range plans and budget proposals and cooperates with the Office of the Commissioner in the formal planning and budgeting function. Makes critical self-assessments of the district's role and of its administrative and program accomplishment, and reports the conclusions to the Commissioner. Responsible for making effective use of headquarters program, technical and administrative review services. Decides on technical training needs of the district offices jointly with the Field Liaison Officer, and cooperates in the planning and carrying out of group training sessions. Conducts hearings for alleged violations of the Food, Drug, and Cosmetic Act. Maintains liaison and develops cooperative relations with Federal, State, and local enforcement agencies.

10–C *Delegations of authority*—1. *Order of Succession.* During the absence or disability of the Commissioner of Food and Drugs or in the event of a vacancy in that office, the first official listed below who is available shall act as Commissioner:

a. Deputy Commissioner.

b. Associate Commissioner for Compliance.

c. Associate Commissioner for Science.

d. Assistant Commissioner for Administration.

e. Assistant Commissioner for Planning and Evaluation.

2. *Delegations of Authority to the Commissioner of Food and Drugs.* Except as provided in Part 2, the Commissioner of Food and Drugs shall exercise the:

a. Functions vested in the Secretary and the Department under the Federal Food, Drug, and Cosmetic Act, the Federal Caustic Poison Act, the Import Milk Act, the Filled Milk Act, the Tea Importation Act, the Federal Hazardous Substances Act (as amended by the Child Protection Act of 1966), and the Fair Packaging and Labeling Act, pursuant to section 12 of Reorganization Plan No. IV and Reorganization Plan No. I of 1953, including authority to administer oaths vested in the Secretary of Agriculture by 7 U.S.C. 2217.

b. Functions vested in the Secretary by amendments to the foregoing statutes subsequent to Reorganization Plan No. I of 1966.

c. Functions under Executive Order 11001, section 3(f), and those portions of sections 3(b), 3(d), 3(e), 6, 7, 9, and 12 which relate to food, drugs, and biologicals. In the performance of his emergency functions the Commissioner shall coordinate his activities with the Surgeon General in order that preemergency plans shall be developed in consonance with postattack organizational plans and structure of the Department for the Emergency Health Service.

d. Function of issuing all regulations of the Food and Drug Administration. The reservation of authority contained in Part 2 shall not apply.

e. Function of authorizing and approving miscellaneous and emergency expenses of enforcement activities, vested in the Secretary by Public Law 88–309 or by any other law.

3. *Establishment of the National Advisory Food and Drug Council.* Within the provisions of Executive Order 11007, the Commissioner of Food and Drugs is authorized to establish and maintain a National Advisory Food and Drug Council. The Commissioner will serve as Chairman, ex officio, of said council.

10–D *Reservation of authority.* Not applicable.

10–E *Redelegation of authority.* Authority contained in section C may be redelegated by the Commissioner to such officials of the Food and Drug Administration and, with the concurrence of the General Counsel, to such officials of the Office of the General Counsel, as he may deem appropriate.

Office of the Secretary

WELFARE ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority

The following statement supersedes all previous material issued in Part 8 (Welfare Administration) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare.

9–A *Mission.* The Welfare Administration is responsible for administering the programs of the Federal Government pertaining to assistance to individuals and families in need, and the provision of welfare and medical assistance and services for children, the aging, and other groups, and of maternal and child health services. It is responsible for studying the causes, prevention, and reduction of dependency, matters pertaining to child life, the welfare and medical needs of children, the aging, and other groups, and for making studies and recommendations as to the most effective method of providing social and economic security through social welfare programs.

9–B *Organization and functions.* The Welfare Administration, which is under the supervision and direction of the Commissioner of Welfare, consists of:

Office of the Commissioner. Directs the administration of the program of the Federal Government pertaining to assistance to persons in need and the provision of welfare and medical assistance and services for children, the aging and other groups, and of maternal and child health services. This includes certification of compliance of State laws, plans, and operations with Federal requirements, and approval of grants to States. Acts as the focal point in the Federal Government in the welfare field. Provides leadership; develops program policies and objectives; oversees the planning and execution of programs; coordinates program operations and activities; evaluates the effectiveness of operations and takes action to achieve improvements. Provides advice to and maintains relationships with Federal, State, and international welfare and other professional agencies and organizations. Directs and coordinates activities relating to fiscal and administrative management, public information, civil rights, civil defense, staff development and field liaison, legislative reference, economic opportunity programs, and voluntary organization liaison so that all these functions are integrated and unified.

Division of Research. Formulates broad research and statistical goals and policies, conducts the basic studies necessary to analyze aspects of social welfare that are beyond the immediate scope of the bureaus, and reviews and integrates the statistical and analytic work of program bureaus. Its activities are concentrated on overall social, financial, medical, and economic aspects, the relation of the programs to other social welfare and related measures, and the development of findings and recommendations on the most effective methods of providing social and economic security through social welfare programs. Provides a secretariat for making contracts with or grants to States and public and other nonprofit organizations and agencies for paying part of the cost of research or demonstration projects in the field of social welfare and related programs.

International Office. Conducts and coordinates the international activities of the Welfare Administration. Provides advisory service on U.S. foreign social policy. Serves as contact point with United States and international welfare programs. Develops programs for the technical training of foreign welfare personnel. Recommends welfare experts for foreign assignments with AID and the U.N. Conducts a grant program of cooperative research and demonstration projects in foreign countries with counterpart funds.

Office of Juvenile Delinquency and Youth Development. Administers a program of Federal grants to and contracts with public or nonprofit organizations or institutions for support of demonstration projects and training programs in the field of juvenile delinquency and youth development. Services the independent review panels that provide professional recommendations on grant applications. Provides consultant services to State, local, and private, nonprofit agencies. Works with the Division of Juvenile Delinquency Service of Children's Bureau which provides consultant services in correctional aspects of juvenile delinquency. Responsible for coordination of activities involving delinquency programs within the Department and maintains a close working relationship with the staff of the President's Committee on Juvenile Delinquency and Youth Crime in developing the total Federal delinquency program.

Cuban Refugee Program Staff. Administers an emergency Cuban refugee program which includes: (1) Financial assistance to supply basic essentials (food, clothing, and shelter) to needy refugees; (2) financial assistance in relocating refugees from Miami, Fla., to homes and jobs elsewhere in the country; (3) emergency health services; (4) assistance to the public schools of Dade County (Miami, Fla.) in providing instruction to the refugee children as well as English instruction and vocational training to adults; (5) loans to refugee students in college and funds for English and refresher courses for doctors and other professional persons; and (6) care of minors unaccompanied by relatives. These programs are carried out through a Federal Cuban Refugee Emergency Center in Miami, Fla., four voluntary relocation agencies which have offices at the Federal Center in Miami, and a variety of Federal, State, and local agencies and organizations.

Bureau of Family Services—Office of the Director. Responsible for directing and coordinating Bureau activities in the administration of Federal grants to States for old-age assistance and medical assistance for the aged, aid to families with dependent children, aid to the blind, aid to the permanently and totally disabled, and medical assistance programs. Coordinates formulation of and issues program policies and standards and provides consultation and assistance for improvement of State programs and provision of services directed to strengthening family life, self-support, self-care, and prevention of dependency. Coordinates public assistance programs with those of public and private agencies doing similar work. Provides information services to increase public understanding and support of the assistance programs, prepares information materials, and answers inquiries from Congress and the public. Provides a program of training and development for Bureau staff. Administers grants for demonstration projects in public welfare. Advises on selected aspects of international welfare activities. Appraises the national public assistance programs and recommends improvements.

The Divisions of the Bureau are: Office of Special Services, Division of Administration, Division of Staff Development, Division of Program Operations, Division of Research, Division of Welfare Services, Division of State Administrative and Fiscal Standards, and Division of Medical Services.

Office of Special Services. Serves as focal point for Bureau activities in carrying out responsibilities related to Work Experience and Training Programs (Title V, Economic Opportunity Act) and Community Work and Training Programs (sec. 409, Social Security Act). Provides technical assistance to States and localities in developing and executing projects that: (1) provide opportunities for constructive work experience and other needed training to unemployed parents and other needy persons to secure and retain employment, or to attain or retain capability for self-support or personal independence; and (2) relate to coordinated community efforts providing a broad variety of services and assistance to attack poverty in the community. Reviews Title V project proposals and State plan materials in community work and training projects. Conducts program evaluation of Work Experience and Training Program projects.

Division of Administration. Conducts Bureau administrative and business management activities and assists in coordination of program activities, including work plans and reports. Plans and conducts management analyses and appraisals and a system of issuances management. Prepares internal Bureau procedures and instructions. Conducts Bureau personnel management and incentive awards programs. Advises on training needs of Bureau employees and conducts certain administrative training. Plans and develops Bureau financial management programs and executes budget. Formulates administrative budget justifications; coordinates grant-in-aid and emergency welfare program

estimates; maintains administrative accounting system and audits administrative expenses. Maintains Bureau central records. Arranges for procurement of supplies, equipment, travel and other general services.

Division of Staff Development. Formulates, in collaboration with Children's Bureau, policies and standards on staff development and manpower utilization for use by State agencies. Gives leadership in implementation and interpretation of such policies and standards. Develops teaching materials on content, methods, and techniques in program administration and teaching. Evaluates recommendations for legislation on training and education. Provides technical assistance to Bureau staff and State agencies. Participates in development of standards on recruitment, selection, and utilization of staff. Cooperates with other Federal and national agencies and educational institutions on educational and training needs of public welfare personnel.

Division of Program Operations. Implements, in the field, Bureau programs of grants to States by maintaining continuing relationships through advice and assistance to State agencies administering public assistance programs. Coordinates field use of Bureau services. Takes action on State public assistance plan material. Conducts a continuing review of State and local public assistance program administration. Keeps the Bureau informed of important developments in State programs and whether State operations meet requirements of the Social Security Act for continued certification of Federal funds. Analyses State grant requests. Makes recommendations for grants to States and action on fiscal audit reports. Carries out Bureau responsibilities in programs of emergency welfare services, assistance for U.S. citizens and hospitalization of mentally ill nationals returned from foreign countries, and welfare planning for refugees and immigrants. Plans, directs, and coordinates the activities of Bureau regional staff who, within the framework of the nine regional offices, maintain Federal-State relationships with State agencies receiving grants-in-aid for public assistance, assure that requirements and standards under the Federal act are understood and in effect, provide technical assistance to States in the administration of their programs, conduct a continuing review of State and local public assistance administration, review and take action on State plan material, analyze State grant estimates, and review audit reports, making recommendations as required.

Division of Research. Develops and conducts a research and statistical program which includes collection and analysis of data on public assistance programs and the people aided by them for use in program interpretation, evaluation, and planning. Assists State agencies in developing statistical reporting and research programs and staff through technical supervision of Regional research analysts and specialized consultation. Serves as central resource of quantitative data about public assistance and related programs. Develops projections and justifications for the Federal budget, including estimates of coverage and costs of public assistance. Develops formulas for Federal financial participation. Participates in joint or coordinated research related to several programs of the Welfare Administration and the Department.

Division of Welfare Services. Formulates policies, standards, and procedures to assure entitlement to assistance and social services, promote adequate assistance, and improve welfare services directed to prevention of dependency, personal rehabilitation, care and protection of children, the aged, including those in mental hospitals, the blind, disabled, and medically needy. Assesses progress and problems in these areas and provides leadership in administrative and legislative planning for protection of recipients' rights, development of services, establishment of assistance standards and determination of eligibility. Develops recommended public assistance program objectives. Initiates recommendations for Federal legislation and evaluates and advises on proposals made elsewhere. Provides technical assistance to Bureau staff and State agencies in these areas.

Division of State Administrative and Fiscal Standards. Formulates policies, standards, and methods relating to proper and efficient administration of State and local public assistance programs, such as organizational and management standards and practices, fiscal accountability, fiscal policy affecting financing of programs, administrative controls and procedures, State administrative supervision of local agencies, requirements for Federal participation in costs of administration, and technical aspects of Federal matching. Provides technical assistance to Bureau staff and State agencies in these areas.

Division of Medical Services. Formulates policies, standards, methods, and guides relating to (a) the provision of medical care and health services for needy children, the blind, disabled, and aged, and the medically needy and (b) the medical aspects of eligibility in programs of old age assistance, aid to the blind, aid to families with dependent children, aid to the permanently and totally disabled, and medical assistance. Conducts studies in these areas. Assists States through consultation and other methods to extend the medical scope and content and to improve the quality of the medical and medical-social aspects of their medical assistance programs, including prevention of illness and medical rehabilitative services, and to encourage recipients to make maximum use of available medical care and related health services.

Children's Bureau—Office of the Chief. Establishes Bureau program objectives within broad statutory requirements. Develops and coordinates overall program policies and plans, and directs staff in carrying out these programs. Maintains liaison with other units of government within and outside the Department. Establishes and maintains working relationships with nongovernmental organizations and individuals interested in the well-being of mothers and children. Identifies national problems, needs, and trends related to children and youth. Formulates, develops, and coordinates legislative recommendations, and analyzes and evaluates proposed legislation. Provides representation on and staff services to the Interdepartmental Committee on Children and Youth. Coordinates policies relating to the administration of the Bureau's grants programs. Participates in international programs affecting maternal and child health and welfare. Provides program planning and consultation on the development and strengthening of services for adolescent youth. Serves as the focal point for planning and carrying out decennial conferences on the status of children and youth in the nation.

The divisions of the Bureau are:

Division of Health Services. Plans and administers the Bureau's nationwide health programs for mothers and children. Provides national leadership in the field of maternal and child health and crippled children's services. Formulates and carries out, through its central and regional office staff, programs designed to provide comprehensive preventive health, hospital, medical care and after care services for mothers and children throughout the nation, including services for mentally retarded children. Administers grants to State health departments, crippled children's agencies, local health agencies, schools of medicine, and other public and nonprofit institutions of higher learning as authorized under Title V, Parts 1, 2, and 4 of the Social Security Act, as amended, for the following purposes: Maternal and child health services, crippled children's services, maternity and infant care projects, projects for the health of school and preschool children, and grants for the training of professional personnel for the care of crippled children. Develops policies, guides and standards for professional services and effective administration of the grant programs. Provides consultation and technical assistance on a nationwide basis on the development, extension and improvement of programs and services in the various specialized fields represented in the programs (e.g., medicine, including pediatrics and obstetrics, dentistry, psychology, nursing, nutrition, medical social work, audiology and speech pathology, physical and occupational therapy, public health administration). Works cooperatively with national, State and local organizations and agencies, both public and voluntary, on programs for improving the effectiveness of health services for mothers and children.

Division of Social Services. Plans and administers the Bureau's nationwide child welfare programs. Provides national leadership in the development, extension and strengthening of child welfare services. Formulates and carries out, through its central and regional office staff, programs designed to provide comprehensive child welfare services in all areas of the nation. Administers grants to State welfare agencies for public child welfare services, and to institutions of higher learning for training of personnel for work in the field of child welfare, as authorized under Title V, Part 3, of the Social Security Act, as amended. Develops policies, guides and standards for professional services and effective administration of the grant programs. Provides consultation and technical assistance on a nationwide basis on the development, extension, and improvement of child welfare programs, including specialized areas (e.g., services to children in their own homes, foster care, day care services, adoptions, services to unmarried mothers, homemaker services, protective services for neglected, abused, or exploited children, services to mentally retarded children, licensing of child care facilities, training, and staff development in child welfare). Works cooperatively with national, State and local organizations and agencies, both public and voluntary, on programs for improving the effectiveness of child welfare services.

Division of Juvenile Delinquency Service. Plans and carries out the Bureau's activities in the field of juvenile delinquency. Provides national leadership in the development of programs for the control and treatment of juvenile delinquency. Develops program policies, standards and guides for services. Provides consultation and technical assistance to, and works cooperatively with, public and voluntary agencies and other organizations at national, State, and local levels on the development, extension, and improvement of services and facilities for the control and treatment of juvenile delinquency, including legislative bases, organization, content, administration, and coordination of programs, training of both professional and nonprofessional personnel for services, and operation of such special services as police, law enforcement, juvenile courts, probation, detention, diagnostic and reception centers, training schools, group work, and community services. Makes evaluative surveys of overall programs or of special services and facilities.

Division of Research. Plans and carries out the Bureau's activities in the field of research. Conducts and reports on studies dealing with child life and with the evaluation of programs and services for children. Administers the program authorized under Title V, Part 3, of the Social Security Act, as amended, for grants to child welfare or research organizations and agencies and to institutions of higher learning for research or demonstration projects in the child welfare field. Administers the program authorized under Title V, Part 4 of the Social Security Act, as amended, providing funds to agencies and organizations engaged in research or in maternal and child health or crippled children's programs, and to institutions of higher learning for research projects that show promise of substantial contribution to the advancement of maternal and child health and crippled children's services. Develops, compiles, analyzes and reports program and administrative data relating to the health of mothers and children, child welfare, and juvenile delinquency. Provides consultation on research in all areas of child life and on statistical reporting systems. Collects, analyzes, and disseminates information on research findings. Conducts a clearinghouse on current research in child life. Prepares content for publications interpreting research findings for use by parents, professional workers, and others concerned about children. Answers inquiries from the public about problems of child care and child life. Stimulates through conferences, publications and other means the utilitization of research findings by administrators and practitioners.

Division of Reports. Directs the Bureau's program of public information. Advises the Bureau Chief and other staff on the public interest in and reaction to the Bureau's programs and activities. Formulates policies and implements program plans for communicating information to parents, children, youth, those working with children, and the general public. Produces a variety of publications, visual materials, and releases for parents, children, youth, professional workers, civic groups, and others, including an interdisciplinary journal for the child-serving professions. Plans and carries out effective distribution of these informational materials. Provides information to the mass media concerning the needs of and services for children. Provides consultation and advice to State child health and welfare agencies on methods of interpreting programs for, or special subject areas about, children to professional and lay groups. Provides technical assistance on writing and other information activities. Procures or provides printing and duplicating services to meet Bureau needs.

Division of International Cooperation. Directs, coordinates and carries out the Bureau's participation in international activities relating to the health and well-being of mothers and children. Serves as the focal point in the U.S. Government for the development and coordination of U.S. policies and positions on programs of the United Nations Children's Fund. Provides consultation and technical assistance to other Federal agencies on programs in foreign countries and international programs in the fields of the Bureau's competence. Maintains working relationships with international organizations concerned with child life. Plans and arranges training and observation programs in the United States for specialists from other countries in the fields with which the Bureau is concerned. Assists in recruitment of specialists in these fields to serve overseas and provides technical assistance to them through cooperation with the Agency for International Development. Develops and administers research programs under the Agricultural Trade Development and Assistance Act of 1954 and the International Health Research Act of 1960 for research grants, research fellowships, and interchange of experts in the maternal and child health field.

Division of Administrative Services. Directs the administrative and management activities essential to the operation of the Bureau's programs. Carries out budget planning and execution for all Bureau appropriations. Performs administrative accounting and auditing functions, including establishment of new or revised systems. Participates in the formulation and implementation of fiscal and administrative policies and procedures relating to grants administration. Provides office services, including procurement of equipment and supplies, space utilization, property management, etc. Develops and implements personnel policies and programs, including staffing, classification, staff development, employee recognition, employee relations, etc. Maintains Bureau official records. Coordinates preparation of the Bureau's annual work plan and progress report. Coordinates the Bureau's participation in the Department's planning-programing-budgeting system. Participates in and advises on overall Bureau program planning from the viewpoint of administrative management.

9–C *Delegations of authority.* 1. Order of succession: In the absence of the Commissioner of Welfare, the Deputy Commissioner acts for him.

2. Delegations of authority to the Commissioner of Welfare:

(a) Except as provided in paragraph (b) of this section and Part 2 of this Statement, the Commissioner of Welfare shall exercise:

(1) The functions vested in the Secretary by Titles I, IV, V, X, XIV, and XVI of the Social Security Act (42 U.S.C. 301–306, 601–609, 701–731, 1201–1206, 1351–1355, 1381–1385), by Title XIX of the Act (42 U.S.C. 1396–1396 d), subject to Part 1 of this Statement, by Title XVIII of the Act (42 U.S.C. 1395–1395 ll), to the extent of the responsibilities assigned by Part I of this Statement, and by Titles VII and XI of the Act (42 U.S.C. 90–907, 1301–1315), insofar as the provisions of such Titles pertain to the mission of the Welfare Administration as described in section 9–A.

(2) The functions vested in the Secretary relating to the mission of the Welfare Administration, as described in section 9–A, under the Social Security Act which are not contained in the Act but which are contained in the Acts cited in Exhibit X3–2.

(3) The functions vested in the Secretary by the Juvenile Delinquency and Youth Offenses Control Act of 1961 (42 U.S.C. 2541–2548).

(4) The functions vested in the Secretary by Public Law 86–571 (24 U.S.C. 321–329) (pertaining to hospitalization of mentally ill nationals returned from foreign countries) with the exception of the issuance of regulations under section 1(d) (2) (24 U.S.C. 321(d) (2)). (In exercising this authority, the Commissioner shall work with the Surgeon General, Public Health Service, and the Superintendent, Saint Elizabeths Hospital, in arranging for appropriate use of their resources to provide the most ef-

fective and economical administration of this law.)

(5) The functions vested in the Secretary by letter dated September 1, 1960, to the Secretary of the Treasury from the Director, Bureau of the Budget, authorizing the carrying out of programs under section 104(k) of the Agricultural Trade Development and Assistance Act of 1954, as amended (7 U.S.C. 1704 (k)), insofar as this authority pertains to the mission of the Welfare Administration as described in section 9–A, provided that this authority shall be exercised in accordance with applicable policies and procedures established by appropriate authorities to ensure consistency with basic foreign policy and with related Federal programs.

(6) The functions vested in the Secretary by section 4 of the International Health Research Act of 1960 (22 U.S.C. 2102), with respect to responsibilities relating to the mission of the Welfare Administration as described in section 9–A: *Provided, however*, That such authority, with respect to the exercise of responsibilities under the Act entitled "An Act To Establish in the Department of Commerce and Labor a Bureau To Be Known as the Children's Bureau" (42 U.S.C. Ch. 6), shall be administered under the Commissioner's supervision and direction through the Children's Bureau: *Provided further*, That this authority shall be exercised in accordance with applicable policies and procedures established by appropriate authorities to ensure consistency with basic foreign policy and with related Federal programs.

(7) The functions under Executive Order 11001, section 4, and those portions of sections 5, 7, 9, 10, 11, and 12 pertaining to emergency welfare. In the performance of his emergency functions the Commissioner shall coordinate the health activities of the Children's Bureau with the Surgeon General in order that preemergency plans shall be developed in consonance with postattack organizational plans and structure of the Department for the Emergency Health Service.

(8) The functions under section 2 of the Migration and Refugee Assistance Act of 1962 (22 U.S.C. 2601) delegated to the Secretary by Executive Order 11077 of January 22, 1963, effective as of July 1, 1962.

(9) The functions under the Economic Opportunity Act of 1964 (42 U.S.C. 2701–2967) delegated to the Secretary pursuant to the Delegation of Authorities from the Director, Office of Economic Opportunity, dated October 24, 1964 (29 F.R. 14764, Oct. 29, 1964), pertaining to (a) the authority delegated to the Secretary under Title V, Work Experience Programs; and (b) the authority delegated to the Secretary contained in section 602 of such Act, to the extent the Commissioner may deem such authority to be necessary or appropriate for carrying out such functions in exercise if the authority indicated in (a) above: *Provided*, (1) Such authority shall be exercised pursuant to policies, standards, criteria, and procedures jointly prescribed by the Director, Office of Economic Opportunity, and the Commissioner; (2) that in exercising such authorities, preference shall, to the extent feasible, be given to programs and projects which are components of a community action program pursuant to Title II, Part A, of such Act; and (3) that such authorities shall be exercised subject to the reporting and coordination provisions of section 611 of such Act.

(b) The functions currently performed by the Children's Bureau under the Act of April 9, 1912, and under Title V of the Social Security Act, shall continue to be performed by the Chief of the Children's Bureau under the supervision and direction of the Commissioner of Welfare.

9–D *Reservation of authority.* None

9–E *Redelegation of authority.* Authority contained in section 9–C2(a) may be redelegated by the Commissioner to such officers and employees of the Welfare Administration as he may deem appropriate, except that authority conferred by section 3(c)(2), 4, 403(c)(2), 404, 505, 515, 1003(c)(2), 1004, 1116 (insofar as it provides for reconsideration of disapproved State plans or State plan amendments or disallowed claims for Federal financial participation), 1403 (c)(2), 1404, 1603(c)(2), 1604, or 1904 of the Social Security Act, as amended, shall be exercised only by the Commissioner and Deputy Commissioner of Welfare.

CIVIL AERONAUTICS BOARD

[Docket No. 18306]

NORTHERN CONSOLIDATED-WIEN ALASKA MERGER

Notice of Hearing

Notice is hereby given, pursuant to provisions of the Federal Aviation Act of 1958, as amended, that hearing in the above-entitled proceeding is assigned to be held on August 8, 1967, at 10 a.m., e.d.s.t., in Room 726, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before the undersigned Examiner.

Dated at Washington, D.C., July 3, 1967.

[SEAL] THOMAS L. WRENN, *Associate Chief Examiner.*

[F.R. Doc. 67–7838; Filed, July 6, 1967; 8:50 a.m.]

[Docket Nos. 18292, 18483]

PAN AMERICAN WORLD AIRWAYS, INC., AND AMERICAN AIRLINES, INC.

Transpacific Exemption Requests; Notice of Oral Argument

At the direction of the Board notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that oral argument on the exemption request of Pan American World Airways, Inc., in Docket 18292 and American Airlines, Inc., in Docket 18483 is assigned to be held on September 13, 1967, at 10 a.m., e.d.s.t., in Room 1027, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before the Board.

Pan American World Airways, Inc., and American Airlines, Inc., will be allotted 30 minutes each for the presentation of their arguments. The opposing carriers Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Northwest Airlines, Inc., Trans World Airlines, Inc., and United Air Lines, Inc., will be allotted 10 minutes each for argument. The Flying Tiger Line Inc., will also be allotted 10 minutes. The applicants will be allowed to reserve not to exceed one-quarter of their allotted time for rebuttal. Please advise the Chief Examiner on or before September 5, 1967, whether the time allotted will be utilized and the name of the person who will present the argument.

Dated at Washington, D.C., June 30, 1967.

[SEAL] FRANCIS W. BROWN, *Chief Examiner.*

CIVIL SERVICE COMMISSION

DESCRIPTION OF THE ORGANIZATION AND STATEMENTS OF FUNCTIONS

Pursuant to section 552 of title 5, United States Code, this notice describes the organization of the U.S. Civil Service Commission and contains statements of the functions of the Commission with descriptions as to how those functions are channeled and determined. The rules of procedures of the Commission are set forth in the Civil Service Regulations published in title 5 of the Code of Federal Regulations and references to them are contained in this notice as appropriate. Any revision or amendment of this notice will be published in the FEDERAL REGISTER. Prior statements describing the organization of the Commission and its functions which appear in 11 F.R. 177A–362 and 11 F.R. 177A–370 are superseded by this notice.

General. The Commission, the Executive Director, the Executive Assistant to the Commissioners, and the bureaus and staff offices of the Civil Service Commission are located in the central office of the Commission at 1900 E Street NW., Washington, D.C. The employees from whom members of the public may obtain information are the employees designated to disclose information by the head of the bureau or staff office concerned with the subject matter in regard to which the information is sought. Contact with these employees may be made through the office of the head of the bureau or staff office concerned. The locations of the Commission's regional and branch offices are shown subsequently in this notice.

The Chairman and Commissioners. The organization and special authorities of the U.S. Civil Service Commission (referred to in this notice as the Commission) are governed by chapters 11 and 13 of title 5, United States Code. The Commission is composed of three Commissioners appointed by the President, by and with the advice and consent of the Senate. The Chairman of the Commission, who is designated by the President from among the Commissioners as the presiding head of the Commission, is the chief executive and administrative officer of the Commission. The President also designates, from among the Commissioners, a Vice Chairman who performs the functions of the Chairman during the latter's absence or disability. The Commissioners prescribe the regulations of the Commission; establish the policies of the Commission; assist the President in preparing the Civil Service Rules; and, in their discretion, may reopen and reconsider any operating or appellate decision of a bureau, staff office, or regional office of the Commission (see 5 CFR 511.612, 713.324, and 772.308).

The Executive Director. The Executive Director of the Commission coordinates the internal management of the Commission; directs the operating and staff activities of the Commission; and, in the absence or disability of the three Commissioners, performs the executive and administrative functions of the Chairman.

The Executive Assistant to the Commissioners. The Executive Assistant to the Commissioners maintains control of all matters submitted to the Commissioners for action; arranges meetings of the Commissioners; compiles and records the official minutes of the Commission; and has official custody of the official records of the Commission.

Staff Offices—Office of the General Counsel. The Office of the General Counsel, under the direction of the General Counsel, provides general legal services to the Commission; enforces the political activity restrictions in chapter 15 and subchapter III of chapter 73 of title 5, United States Code (see 5 CFR Parts 151 and 733); adjudicates claims under the Federal Tort Claims Act (see sec. 2672 of title 5, United States Code, and 5 CFR Part 177), and other claims involving personnel of the Commission; prepares or reviews legislation and regulations; assists in the defense of actions at law involving the Commission; administers the ethical conduct program under Executive Order 11222 and 5 CFR Part 735; and provides assistance in the implementation of the Voting Rights Act of 1965 (see "Voting Rights Program" regulations in 45 CFR Part 801).

The Board of Appeals and Review. The Board of Appeals and Review acts for the Commissioners in adjudicating appeals from decisions of the bureaus, staff offices, and regional offices of the Commission, and agency decisions reviewable in the Commission, except position-classification appeals (see 5 CFR 511.601–511.612) and political activity appeals (see 5 CFR Parts 151 and 733). (See 5 CFR 352.508(d), 353.704, and 772.307 concerning appeals to the Board relative to decisions of bureaus, staff offices, and regional offices, and 5 CFR 713.221–713.226 for the Board's jurisdiction relative to appeals from agency decisions concerning complaints of discrimination on the ground of race, creed, color, or national origin.) The Board, in addition, adjudicates appeals from retirement, insurance, and health benefits decisions of the Bureau of Retirement and Insurance (see 5 CFR 831.107, 870.205, 890.103, 891.106). Contact with this Board may be made through the Chairman, Board of Appeals and Review.

The Public Information Office. The Public Information Office, under the direction of the Public Information Officer, furnishes information to news media regarding the personnel needs of the competitive service and actions of the Commission affecting Federal personnel management; prepares public address material and informational pamphlets and articles concerning the Federal civil service; prepares exhibits, audiovisual, and radio-television material connected with recruitment; provides informational materials to Federal employees and their organizations; answers inquiries from news media and the public on civil service matters; publishes the Civil Service Journal; coordinates interagency projects to inform the public about civil service careers; and, with respect to the press and public media, coordinates the policies of the Commission relative to the availability of official information (see 5 CFR Part 294).

The Office of Hearing Examiners. The Office of Hearing Examiners advises the Commission on all matters relating to hearing examiners appointed under section 3105 of title 5, United States Code, and directs the nationwide program for their employment and compensation (see 5 CFR 930.201–930.234). The Director of the Office serves as the point of contact within the Commission for all information and services relative to the hearing examiner program in the Government.

The Appeals Examining Office. The Appeals Examining Office has initial jurisdiction of appeals from Government employees in the Washington, D.C., metropolitan area, outside the continental limits of the United States (except when jurisdiction has been specifically assigned to a regional office), and reduction-in-force appeals by field employees whose notices are issued from the Washington, D.C., office of an agency. The appeals covered, in addition to reduction-in-force appeals under 5 CFR Part 351, relate to adverse actions under 5 CFR Part 752, actions instructed to be taken by the Commission under 5 CFR 754, the denial of reemployment or restoration rights under 5 CFR Parts 352 and 353, the separation of probationary employees under 5 CFR Subpart H of Part 315, the denial of salary retention under 5 CFR Subpart E of Part 531, and performance ratings under 5 CFR Part 430 (in regard to performance rating appeals, the Chief of the Appeals Examining Office has been designated as the chairman of the appropriate boards of review). The Office investigates or directs the investigation of appellate matters, holds hearings as required, and makes and issues initial appellate decisions. Contact with this office may be made through the Chief, Appeals Examining Office.

The International Organizations Employees Loyalty Board. The Interna-

tional Organizations Employees Loyalty Board makes advisory determinations concerning the appointment of U.S. citizens considered for, or employed in, international organizations of which the United States is a member (see Executive Order 10422, as amended). Contact with this Board may be made through the Chairman, International Organizations Employees Loyalty Board.

Bureaus—The Bureau of Recruiting and Examining. The Bureau of Recruiting and Examining, under the direction of the Director of that Bureau, directs the Government-wide recruiting and examining program for positions in the competitive service at or below the equivalent of grade GS–15; designs a nationwide program for operating the recruiting and examining plan through a network of Interagency Boards of Civil Service Examiners (see sec. 1105 of title 5, United States Code); and aids in publicising the employment opportunities and needs of the Government to insure that all qualified citizens have full information about, and the opportunity to compete for, positions (see chapter 33 of title 5, United States Code, and 5 CFR Parts 212, 315, 316, 330, 332, 333, 335, and 337). The Bureau also directs programs to promote employment of the handicapped and the operation of a nationwide program of college relations and recruitment; acts on agency recommendations for according competitive status to employees noncompetitively under legislation, Executive orders, and the Commission's regulations; and makes determinations of civil service status in individual cases. In addition, the Bureau acts on promotion and training agreements; operates the Separated Career Employee Program and the Interdepartmental Placement Program for the Washington, D.C., metropolitan area; provides rosters of specialized personnel to fill key positions; and operates the examining program to fill Presidential postmaster positions and rural carrier positions. The Bureau provides guidance in operating the competitive examining program for staffing positions throughout the country through the Interagency Board of Examiners system and through the Post Office Boards of Examiners.

The Bureau of Personnel Investigations. The Bureau of Personnel Investigations, under the direction of the Director of that Bureau, directs the investigative programs of the Commission which include investigations to determine the suitability of persons for appointment and retention in the Government service, investigations relative to the enforcement of the laws, rules, and regulations administered by the Commission, and investigations of the qualifications of applicants for high-level administrative and professional positions. In addition, the Bureau provides program coordination and liaison with agencies to insure the adequacy of investigations and to advise on the application of suitability standards (see 5 CFR Part 731). The Division of Adjudications within the Bureau decides on the suitability of appointees to nonsensitive positions in the competitive service in the Washington, D.C., metropolitan area and all nonsensitive cases under the jurisdiction of the Commission in which a full field investigation by the Federal Bureau of Investigation has been conducted. The Bureau considers initial appeals from the Division of Adjudication, and instructs agencies to remove or take other disciplinary action against employees for fraud in examination or appointment or for violating the Civil Service Rules or Regulations (see 5 CFR Part 754). The Bureau also conducts a continuing study of the Government-wide security program under Executive Order 10450, and decides on the reemployment eligibility of former employees separated on charges of misconduct, delinquency, or inefficiency, or in connection with a security proceeding (see 5 CFR Subpart D of Part 731 and Subpart D of Part 732).

The Bureau of Inspections. The Bureau of Inspections, under the direction of the Director of the Bureau, plans evaluations of Government personnel management on a nationwide basis; evaluates the effectiveness of personnel management in terms of its contribution to the accomplishment of agency mission and the degree to which it accords with public policy and employee rights established under law or regulation; serves as a clearinghouse for information to improve the efficiency and economy of agency personnel management; and reviews personnel management practices in the Washington, D.C., metropolitan area. Except with respect to positions above grade GS–15, the Bureau develops procedures and technical instructions for Government-wide application in regard to the classification of positions under chapter 51 and subchapter III of chapter 53 of title 5, United States Code (see 5 CFR Parts 511, 530, 531, 534, and 539); acts on requests for classification action (classification appeals) under section 5112 of title 5, United States Code, and 5 CFR 511.601–511.610, from employees in the Washington, D.C., metropolitan area; and, in the discretion of the Bureau, reopens and reconsiders classification decisions of the regional offices of the Commission (see 5 CFR 511.611). The Bureau decides appeals relative to the salary level of positions in the Postal Field Service under section 3502 of title 39, United States Code. In addition, the Project Manager for Equal Employment Opportunity in the Bureau is responsible for the development and coordination of the Government-wide Equal Employment Opportunity Program and serves as the primary contact point in the Commission on Equal Opportunity matters.

The Bureau of Management Services. The Bureau of Management Services, under the direction of the Director of that Bureau, is responsible for the direction, coordination, and control of the fiscal, administrative, and business management activities of the Commission. Within the Bureau, the Management Systems Division develops and evaluates systems and records for performing the functions of the Commission; conducts operational audits and management surveys; directs automated data processing operations within the Commission and aids agencies in automating personnel systems; and prepares personnel statistics on the total Government work force. The Budget and Finance Division of the Bureau prepares and executes the budget program of the Commission; operates the Commission's accounting systems, including the preparation of financial and accounting statements; and audits vouchers, maintains accounts, and prepares payrolls for central office activities. The Bureau's Office Services Division is responsible for procurement and property management and maintenance; transportation and communications; publications and distribution; and records management and control. The Library maintains a specialized collection of current and historical information on all phases of public and personnel administration, including civil service law, and performs research and reference work in civil service and related fields. The Personnel Division of the Bureau administers the internal personnel program of the Commission and is the point of contact for information available in regard to employees of the Commission.

The Bureau of Executive Manpower. The Bureau of Executive Manpower, under the direction of the Director of that Bureau, is responsible for developing, operating, and evaluating the Executive Assignment System established under Executive Order 11315, and for handling other functions of the Commission relating to the classification (including classification appeals under sec. 5112 of title 5, United States Code, and 5 CFR 511.601–511.610), qualification, and appointment determinations for positions at grades GS–16, GS–17, and GS–18, and comparable salary levels, except Hearing Examiners (see sec. 3324 of title 5, United States Code, and chapter 51 of title 5, United States Code, particularly section 5108). Within the Bureau, the Division of Plans and Programs recommends improvements for the Executive Assignment System; reviews, on a continuing basis, the effectiveness of the System; prepares programs and budget estimates for the Bureau; and performs staff studies on executive manpower. The Bureau's Division of Executive Manpower Requirements reviews the top level staffing needs of the Government; recommends the allocation of spaces for positions at grades GS–16, GS–17, and GS–18; and passes on the qualifications of persons for those grades and for appointments under section 3325 of title 5, United States Code. The Division of Executive Manpower develops, operates, and maintains the career executive inventory of Government employees in and above grade GS–15; develops special qualification requirements and recruiting methods for positions covered by the system; and prepares merit staffing standards for executive search outside the Government.

The Bureau of Policies and Standards. The Bureau of Policies and Standards, under the direction of the Director of that Bureau, is responsible for a coordinated program of policy development, planning, and standards setting in the areas of Federal personnel administration with which the Commission is concerned. The Policy Development Division of the Bureau conducts studies, develops plans, and recommends policies to improve Federal personnel management; prepares the Commission's legislative program and the annual report; and plans for the management of Federal personnel in the event of a national emergency. The Bureau's Program Systems and Instructions Division develops policies and procedures to implement the laws, programs, and legal decisions with which the Commission is concerned, including pay and allowances (see chapters 53 and 55 of title 5, United States Code, and 5 CFR Parts 511, 550, 530, 531, 539, 550, and 591), leave (see chapter 63 of title 5, United States Code, and 5 CFR chapter 630), hours of duty (see chapter 61 of title 5, United States Code, and 5 CFR 610), conferring competitive status, and employee grievances. The Program Systems and Instructions Division also prepares and interprets the Commission's regulations and instructions not reserved to another bureau or staff office, administers the Federal Personnel Manual system; and evaluates the operation of the Commission's appeals program at the first appellate level. The Standards Division of the Bureau sets classification standards under section 5105 of title 5, United States Code, and standards for wage board positions; establishes qualification standards for positions in the competitive service; and devises tests for measuring qualifications for original appointments, promotions, and other personnel actions.

The Bureau of Retirement and Insurance. The Bureau of Retirement and Insurance, under the direction of the Director of that Bureau, administers the Civil Service Retirement Program (see chapter 83 of title 5, United States Code) and the Federal Employees' Life Insurance and Health Benefits Programs (see chapters 87 and 89 of title 5, United States Code). In addition, the Bureau administers the Retired Federal Employees Health Benefits Act, 74 Stat. 849, the Canal Zone Construction Annuity Act, 58 Stat. 257, the Lighthouse Service Widows Annuity Act, 64 Stat. 465. The Bureau prepares and interprets regulations necessary for the operation of the programs it administers (see 5 CFR Part 831 (Retirement), Part 870 (Life Insurance), Part 890 (Federal Employees Health Benefits), and Part 891 (Retired Federal Employees Health Benefits)). In addition, the Bureau controls the accounting systems used by agencies under the Bureau's programs; audits reports on life insurance and health benefits carriers; negotiates contracts with carriers; and develops instructional and informational material to increase employee understanding of the Bureau's programs. The Bureau also adjudicates claims for retirement, death benefits, refunds of retirement deductions, applications to make deposit, redeposit, or voluntary contributions; and determines eligibility for the health benefits enrollment of annuitants and survivor annuitants. The Bureau's Medical Division develops, provides guidance for, and evaluates the Government-wide medical program of the Commission which includes the medical review of disability retirement claims, fixing physical standards for Federal service, and coordinating nationwide programs for employment of the handicapped.

The Bureau of Training. The Bureau of Training develops, promotes, and carries out nationwide programs to assure the effective training, development, and utilization of Government employees; coordinates interagency training activities; assists agencies in assessing training needs; and aids in the development and improvement of non-Government educational programs (see chapter 41 of title 5, United States Code, Executive Order 11348, and 5 CFR Part 410). The Bureau operates the Executive Seminar Center and the ADP Management Training Center; and fosters and coordinates the Government-wide Incentive Awards Program (see chapter 45 of title 5, United States Code, and 5 CFR 451).

Regional and Branch Offices. The Commission has 10 regional offices and four branch offices. Each regional office is headed by a Director and each branch office, which is under the supervision of the Director of the region in which it is located, is headed by a Manager. Each regional office provides top level representation of the Commission within the region; represents to agency field establishments and to Government personnel in the region the authority of the Commission in maintaining the merit system and in administering the other programs of the Commission; conducts and rates examinations; and conducts qualifications, security, and other personnel investigations and makes determinations of the suitability of persons for Government employment. Within their geographical areas, the regions also coordinate training and career development; administer the Federal Equal Employment Opportunity Program; inspect personnel operations and evaluate personnel management in agency field establishments; administer the Commission's medical program and programs to employ the handicapped; and maintain liaison with employee organizations, veterans organizations, schools, and other groups having an interest in Government employment. In addition, the regional offices adjudicate appeals from employees involving adverse personnel actions, reduction in force, position classification, and other agency-initiated actions (see 5 CFR Subpart H of Part 315, Subpart B of Part 330, Subpart I of Part 351, Subpart A of Part 352, Subpart E of Part 531, and Subparts B and C of Part 752). The regional offices and their geographic jurisdiction are as follows:

Region and area served, and address

Atlanta (Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, Puerto Rico, and Virgin Islands), 240 Peachtree Street NW., Atlanta, Ga. 30303.

Boston (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont), Post Office and Courthouse Building, Boston, Mass. 02109.

Chicago (Illinois, Indiana, Kentucky, Michigan, Ohio, and Wisconsin), Main Post Office Building, Chicago, Ill. 60607.

Dallas (Arkansas, Louisiana, Oklahoma, and Texas), 1114 Commerce Street, Dallas, Tex. 75202.

Denver (Arizona, Colorado, New Mexico, Utah, and Wyoming), Building 20, Denver Federal Center, Denver, Colo. 80225.

New York (New Jersey and New York), 220 East 42d Street, New York, N.Y. 10017.

Philadelphia (Delaware, Maryland, Pennsylvania, Virginia, and West Virginia), Customhouse, Philadelphia, Pa. 19106.

St. Louis (Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota), 1256 Federal Building, St. Louis, Mo. 63103.

San Francisco (California, Hawaii, Nevada, and the Pacific Overseas Area), Federal Building, San Francisco, Calif. 94102.

Seattle (Alaska, Idaho, Montana, Oregon, and Washington), 902 Federal Office Building, Seattle, Wash. 98104.

The branch offices of the Commission and their addresses are as follows:

Branch office and address

New Orleans, La.: Room 802, Federal Building South, 600 South Street, New Orleans, La. 70112.

Anchorage, Alaska: Federal Office Building, Anchorage, Alaska 99501.

Los Angeles, Calif.: 714 West Olympic Boulevard, Los Angeles, Calif. 90015.

Fort Snelling, Minn.: Veterans Administration Building 57, Fort Snelling, Minn. 55111.

Effective date. This notice shall be effective on the date of its publication in the FEDERAL REGISTER.

In the matter of investigation of television interference to be caused by the construction of the World Trade Center by the Port of New York Authority, Docket No. 17483.

The Commission having under consideration its order of June 2, 1967, instituting this investigation and indicating that the presiding officer and the date, time, and place of hearing would be later announced; and

It appearing that it is now appropriate to specify the aforementioned information and to provide for the procedures to be followed in this proceeding.

It is ordered, That Commissioner Robert E. Lee is designated as the Presiding Officer for this proceeding and that the hearing herein commence at 10 a.m. on July 24, 1967 in Courtroom No. 110, U.S. Courthouse, Foley Square, New York, N.Y.; and

It is further ordered, That, subject to any necessary rulings on materiality and relevancy, witnesses in behalf of the following participants will be heard at such time in the order in which their names are listed:

Committee for a Reasonable World Trade Center.
Empire State Building Co.
Trans-Tel Corp.
Port of New York Authority.
Television Broadcasters All Industry Committee.
City of New York Municipal Broadcasting System.
National Association of Broadcasters.
Teleprompter Corp.
Thomas A. Cronin Corp.

It is further ordered, That each witness appearing at this proceeding shall provide for the Commission twenty (20) copies of each exhibit tendered for inclusion in the record of this proceeding; and

It is further ordered, That all witnesses in this proceeding may be accompanied by counsel of their own choice whom they may consult with, as necessary, off the record; however, all examination of witnesses will be conducted by counsel for the Commission and any questions proposed to be asked of such witnesses by persons other than Commission counsel shall be tendered in writing to Commission counsel who will, in his own discretion, determine whether or not such questions shall be put to the witness; and

It is further ordered, That upon completion of the hearing herein, the Presiding Officer shall certify to the Commission the record made, together with such observations or comments as he may deem necessary and appropriate.

Adopted: June 28, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 67-7843; Filed, July 6, 1967; 8:51 a.m.]

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 158]

CORNELIUS M. HURLEY

Revocation of License

Whereas, Cornelius M. Hurley, 1491 Metropolitan Avenue, Bronx, N.Y. 10462, has ceased to operate as an independent ocean freight forwarder; and

Whereas, by letter received June 28, 1967, Cornelius M. Hurley has requested the cancellation of his Independent Ocean Freight Forwarder License No. 158.

Now, therefore, by virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order 201.1 (revised), section 6.03.

It is ordered, That the Independent Ocean Freight Forwarder License No. 158 of Cornelius M. Hurley be and is hereby revoked, effective 12:01 a.m., June 30, 1967.

It is further ordered, That Independent Ocean Freight Forwarder License No. 158 be returned to the Commission for cancellation.

It is further ordered, That a copy of this order be published in the FEDERAL REGISTER and served on the licensee.

JAMES E. MAHER,
Director,
Bureau of Domestic Regulation.

[1] Commissioner Johnson absent.

FEDERAL POWER COMMISSION

[Docket Nos. AR61-1, etc.]

AREA RATE PROCEEDING ET AL.

Order Permitting Withdrawal of Increased Rate Filing, Severing and Terminating Proceeding

JUNE 29, 1967.

George R. Brown (Brown) has submitted a notice of withdrawal of Supplement No. 5 to his FPC Gas Rate Schedule No. 20 which involved the sale of natural gas to El Paso Natural Gas Co. (El Paso) from the Headlee Plant, Ector County, Tex. The subject proceeding concerns a proposed rate increase from 10.9406 cents per Mcf to 17.2296 cents per Mcf that was filed on January 4, 1960, by Brown's predecessor, Herman Brown, and thereafter suspended. This proceeding was consolidated with Docket Nos. AR61-1 et al. by the Commission in its order issued December 23, 1960.

In support of his request for withdrawal, Brown states that the subject increased rate proposal has not been placed in effect; that deliveries of gas under contract involved ceased in December 1959, and all gas produced since that time has been reinjected into the producing formations; and that it is estimated that it will be 10 years or more before deliveries of gas under the contract will be resumed. El Paso, on June 2, 1967, submitted a letter in support of these statements. Accordingly, as the increased rate has not placed in effect, the increased rate proposal should be permitted to be withdrawn, the proceeding involved should be severed from the Permian Basin area rate proceeding and terminated.

The Commission finds: Good cause exists for permitting the withdrawal of said Supplement No. 5, for severing Docket No. RI60-82 from the proceedings in Docket Nos. AR61-1 et al., and for terminating Docket No. RI60-82.

The Commission orders; Supplement No. 5 to George R. Brown's FPC Gas Rate Schedule No. 20 is permitted to be withdrawn; Docket No. RI60-82 is severed from the proceedings in Docket Nos. AR61-1 et al.; and the proceeding in Docket No. RI60-82 is terminated.

By the Commission.

[SEAL] GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-7767; Filed, July 6, 1967; 8:45 a.m.]

[Docket No. CP67-61]

EL PASO NATURAL GAS CO.

Notice of Petition To Amend

JUNE 29, 1967.

Take notice that on June 23, 1967, El Paso Natural Gas Co. (Petitioner), Post Office Box 1492, El Paso, Tex. 79999, filed in Docket No. CP67-61 a petition to amend the order issued by the Commission December 13, 1966, by authorizing Petitioner to continue the sale and delivery of natural gas to Pacific Gas and Electric Co. (Pacific) for an additional period of time to commence November 1, 1967, and to continue until either the commencement of additional firm deliveries now pending in Docket No. CP67-217 or October 31, 1968, whichever occurs first, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the abovementioned order, Petitioner was authorized to sell and deliver to Pacific, under Petitioner's FPC Gas Rate Schedule G-X-2, up to 36,500 MMcf of natural gas on an interruptible, best efforts basis, during any calendar year for a period continuing through October 31, 1967. By the instant filing, Petitioner seeks authorization to continue the sale and delivery, on an interruptible, best efforts basis, of an average daily quantity of 100 MMcf of natural gas to Pacific for the limited term commencing November 1, 1967, and continuing until commencement of the additional firm deliveries pending in Docket No. CP67-217 or October 31, 1968, whichever occurs first. Petitioner states that the deliveries aboveproposed are to be made by the use of existing facilities and will not require any new or additional facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 27, 1967.

GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-7768; Filed, July 6, 1967; 8:46 a.m.]

[Docket No. CP66-269 etc.]

TENNESSEE GAS PIPELINE CO. ET AL.

Order Initiating Proceedings, Consolidating Proceedings and Setting the Proceedings to Consolidated for Hearing

JUNE 29, 1967.

Tennessee Gas Pipeline Co., a division of Tenneco, Inc., Docket No. CP66-269; Pan American Petroleum Corp. et al., Docket No. CI66-910 et al.; The Delta Development Co., Inc., Docket No. CI67-1808; Moise W. Dennery, Docket No. CI67-1806; Charles William Fastering, Docket No. CI67-1807; Gertrude Jastrzan Fastering, Docket No. CI67-1808; John Bernard Fastering III, Docket No. CI67-1809; The Louisiana Land and Exploration Co., Docket No. CI67-1810; Joseph McCloskey, Docket No. CI67-1811; Joan B. Fastering Meyers, Docket No. CI67-1812; Edith Fastering McGee and Kenneth C. McGee, Docket No. CI67-1813.

Tennessee Gas Pipeline Co., the interstate pipeline division of Tenneco, Inc. (Tennessee),[1] has applied, in Docket No. CP66-269, for a certificate of public convenience and necessity authorizing the construction and operation of 2.63 miles of pipeline facilities to connect reserves in the Bastian Bay field, Plaquemines Parish, La., with its interstate pipeline transmission system. Pan American Petroleum Corp. (Pan American) has applied, in Docket No. CI66-910, for a certificate of public convenience and necessity authorizing the assignment of certain leasehold interest in developed acreage in the Bastian Bay field. Each of these applications has been filed pursuant to our mandate in Opinion No. 413, 30 FPC 1477 (1963), reh. den. 31 FPC 241 (1964).

The Bastian Bay acreage involved in each of the applications was acquired by Pan American between 1954 and 1959 through its acquisition of twelve oil, gas and mineral leases in what was then undeveloped acreage. By 1960 Pan American had succeeded in proving all of the acreage covered by the 12 leases and on December 1, 1960, it consummated a "Lease Sale Agreement" and an "Assignment and Conveyance" whereby it assigned to Tennessee its rights in the 12 leases, together with its wells, equipment and related personal property on the acreage affected, for a purchase price, subject to redetermination, of $159,463,500. Tennessee paid $9,427,104 at the time and agreed to pay the balance in seventeen annual installments. The contract provided for a redetermination of the gas reserves, which had been agreed by the parties at the time of contracting to be 759,350,000 Mcf at 15.025 p.s.i.a., between 1969 and 1973 at the request of either party and for the adjustment of the purchase price upon such redetermination.

The assignment of leases was subject to certain reservations. Pan American (1) retained its rights in minerals other than natural gas, oil, and other petroleum liquids; (2) retained its rights in the leases below the bottom of the deepest presently known productive horizons; (3) reserved, as a production payment, all proceeds received by Tennessee from the sale of oil produced on the leased acreage, such payment to terminate when 85 percent of the recoverable reserves have been produced; (4) reserved a similar production payment for pro-

[1] Formerly Tennessee Gas Transmission Co. By order of July 20, 1966, we permitted the amendment of Tennessee's pending application to reflect the change in corporate name which previously had been effected.

ceeds received by Tennessee from the sales of separator liquids, permitting the deduction by Tennessee of its costs and expenses associated with such sales; and (5) retained the right to process all gas produced from the assigned leaseholds (including that attributable to the royalty interests) for the recovery of natural-gas liquids, with Tennessee to be reimbursed at 21 cents per Mcf for plant and fuel losses.

Prior to the assignment Pan American's wells had not been connected to an interstate pipeline. Following the sale Tennessee installed 2.63 miles of 12-inch connecting line for which it here seeks certification. Gas from the Bastian Bay leaseholds has flowed into Tennessee's system since February 3, 1961.

Tennessee's construction of the connecting facilities was undertaken pursuant to a budget certificate issued to it on January 6, 1961, in Docket No. CP61-106, pursuant to an application for facilities "to relieve applicant of the time and expense of preparing numerous relatively minor certificate applications, and the Commission and its staff of the burden of processing such routine applications." The application made no reference to Tennessee's acquisition of Bastian Bay reserves nor did it disclose Tennessee's intention to rely on the issuance of a budget authorization to connect any such reserves. As the budget application appeared routine and as no petition to intervene or protest had been filed, we granted the application, 25 FPC 129.

Subsequently, on April 6, 1961, having learned of the attachment by Tennessee of the Bastian Bay reserves, we reopened the proceedings in Docket No. CP61-106 to determine (1) whether the budget-type certificate therein issued covered the 2.63 miles of line connecting the Bastian Bay reserves with Tennessee's interstate system and (2) the cost to Tennessee of the reserves so acquired. On March 21, 1962, in Docket No. CI62-1035, we directed Pan American to show cause why it should not be found to have made a jurisdictional sale of natural gas to Tennessee. The show cause order thereafter was consolidated with the reopened Tennessee docket.

Following hearing the Commission, in Opinion No. 413, held, as to Tennessee, that the budget-type certificate did not cover the construction and operation of the 2.63 miles of connecting line noting that "the very size and cost of these reserves will necessarily have a material effect on Tennessee's rates." 30 FPC at 1480. Accordingly, the Commission concluded that authorization of the connecting facilities without close scrutiny would be inconsistent with the mandate of CATCO (Atlantic Refining Co. v. P.S.C. of N.Y., 360 U.S. 378.) This part of Opinion 413 was affirmed in Tennessee Gas Transmission Co. v. FPC, 340 F. 2d 100 (C.A. 10). As to Pan American the Commission, although declining to determine the precise nature of the sale until such time as an appropriate application is filed, held that the Pan American-Tennessee leasehold assignment constitutes a jurisdictional sale of natural gas. Pan American and Tennessee were given six months from the date of the issuance of our order to file for appropriate section 7 authorizations and the pending applications were filed pursuant thereto.

The royalty portion of the reserves at issue, as the examiner found following the prior hearing, equals more than 25 percent of the total volume which Tennessee will receive from the leases, 30 FPC at 1491. Pursuant to its obligation under the lease assignment Tennessee negotiated separate contracts with the royalty owners whereby it agreed to pay the royalty owners for such interests at the rate of 22.5 cents per Mcf, plus reimbursement for the Louisiana severance tax of 2.3 cents per Mcf until January 1, 1962, and 25 cents per Mcf plus severance tax reimbursement (or 27.3 cents per Mcf) thereafter. Thus, it appears that the royalty owners have departed from the usual royalty situation and instead have elected to take their gas in-kind and negotiate their own sales. In the circumstances it would appear that these royalty owners have engaged in the jurisdictional sale of natural gas in interstate commerce for which sales the authorization of this Commission should have been obtained. Accordingly, we are hereby directing the following named royalty owners either to file, within 45 days from the issuance of this order, for appropriate section 7 certificates or to show cause why they should not be required to obtain such certification: [1]

The Delta Development Co., Inc.
Moise W. Dennery.
Charles William Fasterling.
Gertrude Jackman Fasterling.
John Bernard Fasterling III.
The Louisiana Land and Exploration Co.
Joseph McCloskey.
Joan B. Fasterling Meyers.
Edith Fasterling McGee and Kenneth McGee.

We note that in addition to the aforementioned, the State of Louisiana and one of its local subdivisions (the Buras Levee District) are among the royalty owners of the acreage at issue. But section 2(6) of the Natural Gas Act would seem to exclude such political entities from the definition of "natural-gas company" and thus exempt them from the necessity of obtaining this Commission's authorization prior to effectuating an interstate sale. However, in view of the fact that this Commission already has made clear its concern with the cost to Tennessee of the Bastian Bay reserves we would expect that both the State of Louisiana and the Buras Levee district will be most interested in the course of these proceedings and we would welcome their participation as intervenors.

Since the application of Tennessee and Pan American raise common questions of law and fact we are consolidating them for hearing. Similarly, since the applications or responses to be filed by the aforementioned royalty owners are intimately related to each of the pending applications it is appropriate to consolidate those proceedings as well.

Timely petitions to intervene in Docket No. CI66-910 (the Pan American application), have been filed by Long Island Lighting Co., Consolidated Edison Co. of New York, Inc., Brooklyn Union Gas Co., Consolidated Gas Supply Corp., the East Ohio Gas Co., Lake Shore Pipe Line Co., and the Peoples Natural Gas Co., Manufacturers Light and Heat Co., the Ohio Fuel Gas Co., United Fuel Gas Co., and Tennessee Gas Pipeline Co., a division of Tenneco, Inc. In Docket No. CP66-269 (the Tennessee application), timely petitions to intervene have been filed by Public Service Electric and Gas Co., United Fuel Gas Co., the Manufacturers Light and Heat Co., the Ohio Fuel Gas Co., Consolidated Gas Supply Corp., the East Ohio Gas Co., Lake Shore Pipe Line Co., the Peoples Natural Gas Co., the Brooklyn Union Gas Co., and Pan American Petroleum Corp. Each of the timely petitions to intervene will be granted. [2]

These proceedings should be expedited by the holding of a prehearing conference to clarify the position of the parties and limit the issues. Since hearings have already been held on the underlying Bastian Bay transaction, the prehearing conference should also explore the extent to which the record in the prior hearings could be used in this case. The examiner may allow the incorporation by reference of evidence from the prior proceeding in this proceeding and limit the presentation of the parties to the correction or supplementation of the prior record.

The Commission finds:

(A) It is necessary and appropriate in the public interest and to carry out the provisions of sections 4, 5, 7, and 16 of the Natural Gas Act to direct Delta Development Co., Inc., Moise W. Dennery, Charles William Fasterling, Gertrude Jackman Fasterling, John Bernard Fasterling III, the Louisiana Land and Exploration Co., Joseph McCloskey, Joan B. Fasterling Meyers, and Edith Fasterling McGee and Kenneth C. McGee to file, within 45 days of the issuance of this order, for appropriate certificates authorizing the sale by them, in-kind, of their royalty interests in gas in the Bastian Bay field to Tennessee, or show cause why they should not file for such certification.

[1] It should be clear that our action here in no way prejudges the pending proceeding of William Harvey Denman, Trustee et al., v. J. M. Huber Corp., Docket Nos. RI67-113 et al. In Denman the question is whether the Commission has jurisdiction over a landowner's royalty interest in natural gas leaseholds under traditional transactions where the royalty owner makes no independent contract for sale of his interest but instead receives a fixed percentage of the receipts the producer secures when he sells the gas.

[2] The long Island Light Co., in addition to its timely intervention petition in the Pan American docket, filed an untimely intervention request in the Tennessee docket. In view of an order herein consolidating those dockets Long Island Lighting will be permitted to participate fully with respect to each of the applications.

(B) It is necessary and appropriate in the public interest and to carry out the provisions of sections 4, 5, 7, and 16 of the Natural Gas Act to consolidate for hearing the proceedings heretofore initiated against the aforementioned royalty owners and the applications of Tennessee and Pan American.

(C) The granting of the above mentioned petitions to intervene would be in the public interest.

The Commission orders:

(1) That the Delta Development Co., Inc., Moise W. Dennery, Charles William Fasterling, Gertrude Jackman Fasterling, John Bernard Fasterling III, the Louisiana Land and Exploration Co., Joseph McCloskey, Joan B. Fasterling Meyers, and Edith Fasterling McGee and Kenneth C. McGee, within 45 days of the issuance of this order, file appropriate applications for certificates authorizing the sale, by them, in-kind, of their royalty interest in Bastian Bay reserves to Tennessee or show cause why they should not be required so to file.

(2) That the proceedings hereby initiated against the aforementioned royalty owners and the applications of Tennessee and Pan American are consolidated for hearing.

(3) That the above noted petitions to intervene are granted.

(4) That a prehearing conference shall be held in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., on September 25, 1967, at 10 a.m., for the purpose of limiting the issues, effectuating factual stipulations and for such other purposes as may seem appropriate to the Presiding Examiner.

(5) Following the prehearing conference, the Presiding Examiner shall give notice of the date of hearing and shall prescribe such other procedure as he deems appropriate in the disposition of these proceedings.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[F.R. Doc. 67-7768; Filed, July 6, 1967; 8:46 a.m.]

[Docket No. G-12646 etc.]

TEXAS EASTERN TRANSMISSION CORP. ET AL.

Order Consolidating Proceedings and Setting Matters for Hearing

June 29, 1967.

The Continental Oil Co. (Continental), the Sun Oil Co. (Sun), M. H. Marr (Marr) and the General Crude Oil Co. (General), have applied for certificates of public convenience and necessity authorizing the assignment of certain leasehold interests in developed acreage in the Rayne Field, Acadia Parish, La. Texas Eastern Transmission Corp. (Texas Eastern) has applied for a certificate of public convenience and necessity authorizing the construction and operation of a 2,200 horsepower compressor station and 22 miles of 14-inch pipeline to transport natural gas from the Rayne Field to Opelousas, La., where the gas would be delivered into its interstate pipeline system. Each of these applications is before us pursuant to our mandate in Opinion No. 378, 29 FPC 249.

The initial transaction which gave use to these applications took place on February 1, 1957, when Texas Eastern executed conventional 20-year gas sales contracts with Continental, Sun, Marr, and General, purchasing their natural gas production in the Rayne Field at an initial price of 23.9 cents per Mcf, including 1.3 cents per Mcf for reimbursement of State taxes. In April 1957, Texas Eastern applied for a certificate authorizing it to connect that production to its interstate pipeline system. Shortly thereafter each of the producers applied for certificates authorizing the sale of their gas to Texas Eastern. On April 15, 1958, the examiner issued his initial decision wherein he recommended the grant of unconditional certificates to each of the applicants. However, before the Commission could act on the exceptions but after the decision of the Court of Appeals for the Third Circuit in Public Service Commission of New York v. Federal Power Commission, 267 F. 2d 717, affirmed sub nom. Atlantic Refining Co. v. Public Service Commission of New York, 360 U.S. 378 (the "CATCO" case), the producers canceled their original contracts with Texas Eastern and, in September 1958, Texas Eastern filed a petition to reopen the hearing and to amend its application.

A new plan was then formulated under which Texas Eastern agreed to acquire the leasehold interest in the reserves which the producers had formerly committed under the standard gas purchase contracts. To effectuate the plan, Continental, Sun, Marr, and General, on December 4, 1958, entered into a contract (designated "Lease Sale Agreement"), with Louisiana Gas Corp., an intermediary created by Texas Eastern for this transaction. Texas Eastern, by agreement with Louisiana Gas, had the right to acquire and did acquire, title to the "Lease Sale Agreement".

Under the agreement the producers conveyed their leasehold rights to gas down to the base of the Nodosaria "A" Sand at a depth of from 13,850 to 13,980 feet, together with wells and related equipment, but reserved their "leasehold" rights to the oil and other minerals, except gas and condensate, below the Nodosaria "A" Sand. The producers also retained the right to receive, as "production payments", all proceeds from the sale of the condensate in excess of the costs of operating the leasehold, including processing expenses. Continental, which previously had operated the field for itself and the other producers, was to continue to conduct all operations, including drilling, developing, and managing the wells and well equipment. A management agreement so providing was signed on July 27, 1959.

Consideration for the conveyance was $196,989,706, of which $72,420,500 was paid in cash and the balance in promissory notes payable in 16 annual installments (ending in 1976). If gas production exceeds a specified amount payment of the notes, at Texas Eastern's nomination, may be accelerated (in inverse order of maturity) in accordance with a prescribed formula.

Although the exact amount of recoverable reserves in the Rayne Field is a matter of controversy, they are admittedly substantial; Texas Eastern's estimate exceeds 900,000,000 Mcf. Recently, by supplement to their pending applications, the producers have filed an undertaking in which they guarantee minimum reserves of 830,648 MMcf at 14.73 p.s.i.a. and 60° F., agreeing to reimburse Texas Eastern in the amount of 20.220 cents per Mcf for any reserve deficiency below that amount providing such deficiency is not attributable to bad management on the part of Texas Eastern.

The Commission granted Texas Eastern's request to reopen the proceeding in order to consider the lease sale plan, and on June 23, 1959, issued an unconditional certificate to Texas Eastern for its proposed facilities. On June 27, 1959, the transfer of the gas rights under the leases was completed and Texas Eastern began to receive gas from Rayne Field, gas which it has since transmitted and sold at wholesale in interstate commerce. However, on review, the Court of Appeals for the District of Columbia Circuit set aside the certificate order and remanded the case for further proceedings. Public Service Commission of New York v. Federal Power Commission, 287 F. 2d 143. The court held that, regardless of the form of the transaction, the Commission was required to consider fully the reasonableness of the acquisition costs to the pipeline.

On remand, and following a hearing at the conclusion of which the examiner found that the average cost to Texas Eastern would be 24.34 cents per Mcf at 15.025 p.s.i.a. and recommended that a certificate to it be conditioned upon the inclusion of Rayne Field gas in the pipeline's cost of service at an initial price of 18.5 cents per Mcf, the Commission decided that it had jurisdiction over the "in-place" sale of the Rayne Field gas reserves but concluded that it was not in the public interest to certificate the transaction then before us for we were not satisfied that the unit cost of the gas was reasonable or that it could be determined with reasonable accuracy. Rather than deny outright Texas Eastern's application the Commission afforded it and the sellers an opportunity to revise their contractual arrangements so as to furnish assurance that the transactions, already partially consummated, would be consistent with the public interest.

The parties were given 6 months, following the completion of judicial review, "to work out new arrangements in the light of the requirements of the Natural Gas Act and our discussion * * *." 30 FPC at 267. Following affirmance by the Supreme Court of the Commission's holding that the assignment of the leaseholds constituted a jurisdictional sale of natural gas subject to the jurisdiction of this Commission, (United Gas Improvement

Co. v. Continental Oil Co. et al., 381 U.S. 392) Continental, Sun, Marr, and General filed applications pursuant to our mandate. Texas Eastern has chosen to proceed upon the application which it filed on April 22, 1967, as amended on December 5, 1968.

Since the applications of Continental, Sun, Marr, General and Texas Eastern raise common questions of law and fact, we are consolidating them for hearing. Timely petitions to intervene were filed in Continental, Sun, Marr, and General dockets by The Manufacturers Light and Heat Co., The Ohio Fuel Gas Co., Consolidated Gas Supply Corp., The East Ohio Gas Co., The Peoples Natural Gas Co., The River Gas Co., Philadelphia Electric Corp., Consolidated Edison Company of New York, Inc., Texas Eastern Transmission Co., Public Service Electric and Gas Co., Philadelphia Electric Co., Brooklyn Union Gas Co., and The Philadelphia Gas Works Division of The United Gas Improvement Co. The Public Service Commission of New York and The Long Island Lighting Co. did not move to intervene in the General docket but did in the others. Nevertheless, in view of our action consolidating the proceedings they will be permitted to participate fully with respect to each of the applications, as will each of the parties already permitted to intervene in the Texas Eastern docket.

These proceedings should be expedited by the holding of a prehearing conference to clarify the position of the parties and limit the issues. Since hearings already have been held on the underlying Rayne Field transaction, the prehearing conference should explore the extent to which the record in the prior hearing could be used in this case. The examiner may allow the incorporation by reference of evidence from the prior proceeding in this proceeding and limit the presentation of the parties to the correction or supplementation of the prior record.

The Commission Finds:

(A) It is necessary and appropriate in the public interest and to carry out the provisions of sections 4, 5, 7, and 16 of the Natural Gas Act to consolidate for hearing the Continental, Sun, Marr, General, and Texas Eastern applications.

(B) The granting of the above mentioned petitions to intervene would be in the public interest.

The Commission Orders:

(1) That the application of Continental (Docket No. CI66-890), Sun (Docket No. CI66-891), Marr (Docket No. CI66-892), General (Docket No. CI66-919) and Texas Eastern (Docket No. G-12440) are consolidated for hearing.

(2) That the above noted petitions to intervene are granted.

(3) That a prehearing conference shall be held in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., on October 2, 1967, at 10 a.m., for the purpose of limiting the issues, effectuating factual stipulations and for such other purposes as may seem appropriate to the presiding examiner.

(4) Following the prehearing conference, the presiding examiner shall give notice of the date of hearing and shall prescribe such other procedures as he deems appropriate in the disposition of these proceedings.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[F.R. Doc. 67-7770; Filed, July 6, 1967; 8:46 a.m.]

[Docket No. CP67-39]

TRANSWESTERN PIPELINE CO.

Notice of Petition To Amend

JUNE 29, 1967.

Take notice that on June 21, 1967, Transwestern Pipeline Co. (Petitioner), First City National Bank Building, Houston, Tex. 77002, filed in Docket No. CP67-39 a petition to amend the order issued by the Commission October 17, 1966, by extending the period of authorization for the sale of natural gas to Duval Corp. (Duval) from July 31, 1967, to July 31, 1968, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the above-mentioned order, Petitioner was authorized to construct and operate certain minor natural gas sales facilities to enable it to sell and deliver, if available, up to 5,000 Mcf of natural gas per day to Duval on an interruptible basis, said authorization to terminate July 31, 1967. In the instant filing, Petitioner states that Duval has advised that it will have a continuing need for the volumes of natural gas as originally authorized and has requested Petitioner to continue the sale and delivery of same for an additional 1 year period. Petitioner, therefore, requests authorization to continue the sale and delivery of up to 5,000 Mcf per day of natural gas to Duval on an interruptible basis for an additional 1 year period terminating July 31, 1968. Petitioner states that no additional facilities or expenditures are required to render the above-proposed service.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before July 27, 1967.

[SEAL] GORDON M. GRANT, *Secretary.*

[F.R. Doc. 67-7771; Filed, July 6, 1967; 8:46 a.m.]

[Docket No. G-10656]

UNITED FUEL GAS CO.

Order Further Amending Order Issuing Certificate of Public Convenience and Necessity

JUNE 29, 1967.

On May 12, 1967, United Fuel Gas Co. (Petitioner) filed in Docket No. G-10656 a petition to amend the order issued in said docket on September 18, 1956, as amended by the orders issued October 27, 1964, and March 31, 1967, authorizing an extension of 1 month in the period during which increased daily deliveries may be made, on an interruptible basis to one of its industrial customers all as more fully set forth in the petition to amend.

By the order issued in the instant proceeding on September 18, 1956, Petitioner was authorized to deliver a maximum of 35,000 Mcf of natural gas per day to E. I. du Pont de Nemours Co. (du Pont), Belle, Kanawaha County, W. Va. By the amending order issued October 27, 1964, Petitioner was authorized to increase its deliveries to du Pont to a maximum of 60,000 Mcf per day.

On March 31, 1967, Petitioner was authorized to deliver to du Pont for the period from April 1, 1967, through October 1, 1967, a maximum daily quantity of 70,000 Mcf in order that du Pont may effectuate certain changes in its plant facilities.

Petitioner now states that it inadvertently misstated the interim period during which the increased deliveries were required, and that the customer actually requested such increased volumes for the period April 1, 1967, through October 31, 1967. Petitioner requests further amendment of the Commission's amending order, issued March 31, 1967, so as to terminate the interim authorization on October 31, 1967, in lieu of the existing termination date of October 1, 1967.

Due notice of the filing of the petition to amend and opportunity for hearing thereon have been given by publication in the FEDERAL REGISTER on May 25, 1967 (32 F.R. 7650). No protest, petition to intervene, or notice of intervention has been filed in the proceeding concerning this amendment.

The Commission finds: It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the Commission's order issued September 18, 1956, as amended October 27, 1964, and March 31, 1967, in Docket No. G-10656 be further amended as hereinafter ordered.

The Commission orders: (A) The Commission's order issued September 18, 1956, as amended October 27, 1964, and March 31, 1967, is further amended so as to authorize Petitioner to transport and deliver up to 70,000 Mcf of natural gas daily on an interruptible basis to du Pont to October 31, 1967, in lieu of October 1, 1967, as presently fixed.

(B) The certificate order issued in Docket No. G-10656 is amended on the express condition that the increased interruptible service authorized herein shall be curtailed or interrupted to the extent required to meet existing or future maximum contract obligations of Petitioner for firm service to its customers.

(C) In all other respects said order shall remain in full force and effect.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[F.R. Doc. 67-7772; Filed, July 6, 1967; 8:46 a.m.]

[Docket No. CP65-421]

UNITED NATURAL GAS CO. AND PENNSYLVANIA GAS CO.

Notice of Petition To Amend

JUNE 29, 1967.

Take notice that on June 21, 1967, United Natural Gas Co. (United), 308 Seneca Street, Oil City, Pa. 16301, and Pennsylvania Gas Co. (Penn), 213 Second Avenue, Warren, Pa. 16365 (Petitioners), filed in Docket No. CP65-421 a petition to amend the order of the Commission issued September 3, 1965, by allowing Petitioners to exchange natural gas on any day of the year at any existing or future point of interconnection between the respective pipeline systems and amending United's FPC Gas Rate Schedule X-6 and Penn's FPC Gas Rate Schedule X-2, respectively, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the above-mentioned order, Petitioners were authorized inter alia, to exchange volumes of natural gas during the months of May through October, at certain points of interconnection. By the instant filing, Petitioners seek authorization to exchange natural gas during all 12 months of the year during the term of the exchange agreement. Petitioners state that United's market requirements in the Youngsville, Pa., area have increased in the past year to the extent that United will require increased natural gas deliveries from Penn during the winter months. Petitioners also state that since Penn would be receiving like amounts of natural gas from United at other points on its system, it is able to make the necessary natural gas available to United adjacent to the Youngsville market area.

United and Penn propose to amend and revise their FPC Gas Rate Schedule X-6 and X-2, respectively, to reflect the changes set forth above.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before July 26, 1967.

GORDON M. GRANT, *Secretary.*

FEDERAL RESERVE SYSTEM

HARVARD TRUST CO. ET AL.

Applications for Exemption From Registration

Notice is hereby given that Harvard Trust Co., Cambridge, Mass.; Newton-Waltham Bank and Trust Co., Newton, Mass.; Norfolk County Trust Co., Brookline, Mass.; and Valley Bank and Trust Co., Springfield, Mass., member State banks of the Federal Reserve System, have applied to the Board of Governors, pursuant to sections 12(h) and 12(l) of the Securities Exchange Act of 1934 (15 U.S.C. 781), for exemption from the registration requirements of section 12 (g) of said Act.

In determining whether to grant such exemptions, the Board is required by section 12(h) to consider whether, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the bank, income or assets of the bank, or otherwise, such action will be consistent with the public interest and the protection of investors.

Any interested person may, not later than 15 days after the publication of this notice in the FEDERAL REGISTER, (i) submit written comments and recommendations with respect to any of the applications, (ii) request the holding of a hearing on the matter, stating the nature of his interest and the reason for such request, or (iii) request to be notified if the Board should order a hearing thereon. Such communication should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. At any time after the expiration of said 15 days, an order disposing of the applications may be issued by the Board upon the basis of the information stated therein and other available information, unless an order for a hearing thereon shall have been issued.

Dated at Washington, D.C., this 30th day of June 1967.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN, *Secretary.*

NATIONAL SCIENCE FOUNDATION

INFORMATION AND OTHER MATTERS

Statement for Guidance of the Public

Organization. The National Science Foundation is an independent agency of the U.S. Government, established by the National Science Foundation Act of 1950 (64 Stat. 149; 42 U.S.C. 1861-1879). A Statement of Organization of the Foundation was published in the FEDERAL REGISTER, Volume 31, No. 1—Tuesday, January 4, 1966.

Inquiries and transaction of business. All inquiries, submittals or requests should be addressed to the National Science Foundation, Washington, D.C. 20550, or a member of the public may call at the Foundation offices at 1800 G Street NW., Washington, D.C., during normal business hours, which are 8:30 a.m., to 5 p.m., Monday through Friday. The Statement of Organization described above indicates the officers with whom members of the public should deal in particular matters. If a person is not sure with whom he should deal on a particular matter, he should address his inquiry, submittal or request to the Foundation (if by mail) or he may call in person at the National Science Foundation Public Information Office at 1800 G Street NW.

General method of functioning, procedures, forms, descriptions of programs. The Foundation's general course and method of operation is to furnish financial support on behalf of basic research and education in the sciences in response to requests, applications and proposals submitted by the person or organization desiring support. In general, grants in support of scientific research or science education, and fellowship awards are made on a merit basis after a review process involving both the Foundation staff and qualified outside commentators acting individually or in review panels drawn from the scientific, educational, and industrial community.

The Foundation publishes a number of booklets describing the programs of the Foundation and covering its procedures and the methods by which its functions are channeled. The booklet entitled, "Guide to Programs of the National Science Foundation," provides a comprehensive description of Foundation programs, functions and procedures. The booklet entitled, "Grants for Scientific Research," covers all general matters and procedures relating to scientific research grants. The booklet entitled, "Grants in Support of Science Education" similarly covers education programs. Forms or instructions for application to participate in these programs are described in these booklets and are obtainable upon request. All publications and forms may be obtained by writing to or calling at the Foundation as described above.

Availability of information; Foundation rules and policies. Persons desiring to obtain a Foundation record, statement of policy, or similar document which is legally available to the public should write to or call at the Foundation as described above. These records or documents will be made available for inspection or copying according to the terms of the then current Foundation rules on this subject (and upon payment of charges as prescribed therein), which may be obtained by writing to or calling at the Foundation as described above. An index of Foundation policy statements and interpretations is maintained at the Foundation for public use. Foundation substantive rules are published in Title 45 of the Code of Federal Regulations. Currently these relate to (1) Weather Modification Activities, (2) Nondiscrimination, and (3) Denial or Revocation of Fellowship Awards.

Dated: July 3, 1967.

LELAND J. HAWORTH, *Director, National Science Foundation.*

SECURITIES AND EXCHANGE COMMISSION

[70-4501]

ALABAMA POWER CO.

Notice of Proposed Issue and Sale of Short-Term Notes to Banks

JUNE 30, 1967.

Notice is hereby given that Alabama Power Co. ("Alabama"), 600 North 18th Street, Birmingham, Ala. 35202, a public-utility subsidiary company of The Southern Co. ("Southern"), a registered holding company, has filed a declaration with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 thereof as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Alabama requests authorization to issue, from time to time prior to December 1, 1967, its unsecured promissory notes to banks in an aggregate principal amount not to exceed $45 million, including in such amount up to an aggregate of $32,054,000 principal amount of promissory notes to be issued pursuant to the exemption afforded by the first sentence of section 6(b) of the Act: $26,727,000 principal amount of such notes have been issued, $7,502,000 at 5¾ percent and $19,225,000 at 5½ percent per annum. Each note proposed to be issued by Alabama will bear interest at the prime rate in effect at Chemical Bank New York Trust Co. (presently 5½ percent per annum) on the date of issue, will mature not more than 9 months after the date of issue and will be prepayable without penalty or premium.

Commitments from the following banks for the initial $40,527,000 of Alabama's notes are set forth below in the respective aggregate amounts:

Name of banks	Amounts
The Bank of Abbeville, Ala.	$50,000
The First National Bank, Alexander City, Ala.	75,000
The Anniston National Bank, Anniston, Ala.	200,000
The Commercial National Bank of Anniston, Ala.	50,000
The First National Bank of Anniston, Ala.	300,000
Auburn National Bank of Auburn, Ala.	75,000
The First National Bank of Auburn, Ala.	80,000
Birmingham Trust National Bank, Birmingham, Ala.	1,800,000
The First National Bank of Birmingham, Ala.	4,000,000
Central Bank & Trust Co., Birmingham, Ala.	800,000
Exchange Security Bank, Birmingham, Ala.	400,000
Steiner Bank, Birmingham, Ala.	60,000
Citizens-Farmers & Merchants Bank, Brewton, Ala.	70,000
The Choctaw Bank of Butler, Ala.	40,000
The First National Bank, Clanton Ala.	80,000
Southern-Citizens Bank of Gordova, Ala.	12,000
The Commercial National Bank of Demopolis, Ala.	40,000
Robertson Banking Co., Demopolis, Ala.	65,000
The Citizens Bank, Enterprise, Ala.	80,000
Bufaula Bank & Trust Co., Bufaula, Ala.	80,000
Merchants & Farmers Bank of Greene County, Eutaw, Ala.	100,000
The Citizens Bank of Fayette, Ala.	50,000

Marion Bank & Trust Co., Marion, Ala.	10,000
American National Bank & Trust Co., Mobile, Ala.	400,000
First National Bank of Mobile, Ala.	750,000
The Merchants National Bank of Mobile, Ala.	1,000,000
The Monroe County Bank, Monroeville, Ala.	60,000
The Alabama National Bank of Montgomery, Ala.	800,000
The First National Bank of Montgomery, Ala.	550,000
Union Bank & Trust Co., Montgomery, Ala.	350,000
Bankers Trust Co., New York, N.Y.	8,800,000
Chemical Bank New York Trust Co., New York, N.Y.	9,500,000
The Chase Manhattan Bank, New York, N.Y.	2,000,000
Irving Trust Co., New York, N.Y.	2,500,000
Morgan Guaranty Trust Co. of New York, N.Y.	3,000,000
The Bank of Ozark, Ala.	50,000
The Commercial Bank of Ozark, Ala.	35,000
Phenix-Girard Bank, Phenix City, Ala.	25,000
Phenix National Bank, Phenix City, Ala.	25,000
Mellon National Bank & Trust Co., Pittsburgh, Pa.	950,000
Bank of Prattville, Ala.	50,000
Citizens Bank & Trust Co., Selma, Ala.	25,000
The City National Bank of Selma, Ala.	100,000
The Peoples Bank & Trust Co., Selma, Ala.	110,000
The Selma National Bank, Selma, Ala.	200,000
The Isbell National Bank, Talladega, Ala.	70,000
The Talladega National Bank, Talladega, Ala.	50,000
The City National Bank, Tuscaloosa, Ala.	200,000
The First National Bank of Tuscaloosa, Ala.	300,000
The American National Bank of Union Springs, Ala.	15,000
The First National Bank of Union Springs, Ala.	35,000
Total	40,527,000

Alabama proposes to use the proceeds from the notes listed above, together with its cash on hand and the proceeds from the sale on June 2, 1967, of 20,000 shares of common stock to Southern and a contemplated sale during the latter part of 1967 of $35 million principal amount of first mortgage bonds to the public and common stock to Southern to finance its 1967 construction program, estimated at $80,834,000, to reimburse its treasury for the retirement of previously outstanding bonds, to pay its short-term bank loans incurred for such purposes and for other lawful purposes. All notes issued under any authorization issued in respect of this declaration will be paid in full at or before maturity from the net proceeds from such sale of bonds, from funds generated from internal sources, or from notes issued by Alabama pursuant to the exemption afforded by the first sentence of section 6(b).

The fees and expenses to be incurred in connection with the proposed transactions are estimated at $500, including legal fees of $200.

It is stated that the Alabama Public Service Commission has jurisdiction over the proposed issue of notes and that no other State commission and no Federal commission, other than this Commission, has such jurisdiction.

Notice is further given that any interested person may, not later than July 25, 1967, request in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service thereof (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[70-4502]

NATIONAL FUEL GAS CO. ET AL.

Proposed Issue and Sale of Debentures

JUNE 30, 1967.

Notice is hereby given that National Fuel Gas Co. ("National"), 30 Rockefeller Plaza, New York, N.Y. 10020, a registered holding company, and three of its gas utility subsidiary companies, Iroquois Gas Corp. ("Iroquois"), United Natural Gas Co. ("United"), and Pennsylvania Gas Co. ("Penn"), have filed a joint application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 9(a), 10, 12(b), and 12(f) of the Act and Rules 43, 45, and 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the joint application-declaration, which is summarized below, for a complete statement of the proposed transactions.

National proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 promulgated under the Act, $18 million principal amount of ——— percent sinking fund debentures due 1992. The interest rate of the debentures (which shall be a multiple of one-eighth of 1 percent) and the price, exclusive of accrued interest, to be paid to National (which shall be not less than 99 percent nor more than 102¾ percent of the principal amount thereof) will be determined by the competitive bidding. The debentures will mature on August 15, 1992, will be issued under an indenture to be dated as of August 15, 1967, between National and Irving Trust Co., New York, N.Y., Trustee, and will be issued in registered form.

National also proposes to issue and sell, from time to time prior to December 31, 1967, its unsecured promissory notes to the Chase Manhattan Bank (National Association) ("Chase") in an aggregate face amount not to exceed $12,600,000 outstanding at any one time. The notes will mature on December 31, 1968, will bear interest, payable quarterly, at the prime commercial rate in effect at the Chase (currently 5½ percent), and will be prepayable, in whole or in part, at any time without penalty, except that a premium of three-eighths of 1 percent must be paid if the prepayment results from borrowings from a bank other than Chase. National proposes to use the net proceeds from the sale of its notes and debentures (1) to prepay its outstanding notes due to a bank, amounting to $11,900,000 and maturing December 31, 1967, and (2) to acquire for cash $18 million principal amount of long-term notes from its three mentioned gas utility subsidiary companies.

Iroquois, Penn, and United propose to issue and sell, from time to time prior to December 31, 1967, to National, a total aggregate amount of $12,400,000 unsecured short-term notes in the respective aggregate face amounts outstanding at any one time of $8,700,000 for Iroquois, $1,700,000 for United, and $2 million for Penn. These notes will bear interest at the same prime rate and will be subject to the same general terms and conditions as the notes to be issued by National to Chase except that no prepayment penalty or premium will be incurred under any circumstances. Such notes will mature December 31, 1968, and, to a large extent, will replace notes due National maturing on December 31, 1967. Iroquois, United, and Penn also propose to issue from time to time during 1967 short-term notes to banks not in excess of $7 million, $4 million, and $2,300,000 respectively to finance the purchase of inventory gas. The three subsidiary companies propose to issue and sell said notes to National and to banks as shown below.

	To National		To Banks: Short-term notes to finance the purchase of inventory gas	Total
	Long-term construction notes for cash	Short-term construction notes largely in replacement of maturing notes		
Iroquois	$12,700,000	$8,700,000	$7,000,000	$28,400,000
United	2,300,000	1,700,000	4,000,000	8,000,000
Penn	3,000,000	2,000,000	2,300,000	7,300,000
Total	$18,000,000	$12,400,000	$13,300,000	$43,700,000

The maximum amount to be borrowed by the subsidiary companies from each such bank being as follows:

Iroquois:	
Marine Midland Trust Co., Buffalo, N.Y.	$3,200,000
Manufacturers & Traders Trust Co., Buffalo, N.Y.	3,150,000
Liberty National Bank & Trust Co., Buffalo, N.Y.	550,000
Total	7,000,000
United:	
Bradford National Bank, Bradford, Pa.	200,000
Du Bois Deposit National Bank, Du Bois, Pa.	200,000
Elk County Bank & Trust Co., Ridgway, Pa.	100,000
Emporium Trust Co., Emporium, Pa.	150,000
United—Continued	
Exchange Bank & Trust Co., Franklin, Pa.	$200,000
First National Bank of Mercer County, Greenville, Pa.	150,000
First Seneca Bank & Trust Co., Oil City, Pa.	600,000
McDowell National Bank, Sharon, Pa.	400,000
Northwest Pennsylvania Bank & Trust Co., Oil City, Pa.	500,000
The Pennsylvania Bank & Trust Co., Titusville, Pa.	500,000
Producers Bank & Trust Co., Bradford, Pa.	70,000
The St. Marys National Bank, St. Marys, Pa.	160,000
Mellon National Bank & Trust Co., Pittsburgh, Pa.	730,000
Total	4,000,000

Penn:	
Warren National Bank, Warren, Pa	$60,000
The First National Bank of Erie, Erie, Pa	800,000
Marine National Bank, Erie, Pa	925,000
Marine Midland Chautauqua National Bank, Jamestown, N.Y	475,000
The Pennsylvania Bank & Trust Co., Warren, Pa	150,000
Total	2,300,000

The long-term notes will be issued and sold to National, as a series, between August 1967, and December 31, 1967. The first such serial note issued by each company will mature on September 15, 1971, followed by maturities of one note each succeeding September 15th with the last payment due August 15, 1992. The notes will bear interest at a rate per annum equal to the effective cost of money incurred by National on the sale of its new debentures, rounded to the next higher one-tenth of 1 percent, payable semiannually. Such notes will be prepayable at any time, in whole or in part, without premium. The net proceeds from the proposed long-term notes are to be used by the subsidiary companies, together with funds available from other sources, to make additions to utility plant and to increase and replenish working capital. Construction expenditures for 1967 are estimated at $13,205,000 for Iroquois, $3,442,000 for United, and $3,220,000 for Penn.

The short-term notes to be issued to banks by Iroquois, United, and Penn will be dated as of the date of issue, will mature not later than 9 months from the date thereof, will bear interest at the prime rate in effect at the lending bank on the date of issue of each note, and will be prepayable at any time, in whole or in part, without penalty or premium. Such notes will aggregate about 6.4 percent of the principal amount and par value of Iroquois' other securities outstanding, about 7.5 percent of the principal amount and par value of United's other securities outstanding, and about 12 percent of the principal amount and par value of Penn's other securities outstanding March 31, 1967. Any amount in excess of 5 percent may be issued only pursuant to an order under section 6(b) of the Act.

The proposed issue and sale of long-term notes by Iroquois are subject to the jurisdiction of the Public Service Commission of New York, the State commission of the State in which Iroquois is organized and doing business; the proposed issue and sale of long-term notes by United and Penn are subject to the jurisdiction of the Pennsylvania Public Utility Commission, the State commission of the State in which both United and Penn are organized and doing business. No other State commission and no Federal commission, other than this commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than July 27, 1967, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the joint application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[Notice 1081]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

JUNE 30, 1967.

The following applications are governed by Special Rule 1.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with § 1.247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of § 1.247(d)(4) of the special rule, and shall include the certification required therein.

Section 1.247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

[1] Copies of Special Rule 1.247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's General Policy Statement Concerning Motor Carrier Licensing Procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record.

The publications hereinafter set forth reflect the scope of the applications as filed by applicants, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

No. MC 2860 (Sub-No. 10), filed June 19, 1967. Applicant: NATIONAL FREIGHT, INC., 57 West Park Avenue, Vineland, N.J. 08360. Applicant's representative: Alvin Altman, 1776 Broadway, New York, N.Y. 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Food and food products* (except in bulk), from points in Cumberland County, N.J., to points in Maine, New Hampshire, Vermont, Ohio, and West Virginia, and (2) *commodities used in or incidental to the preparation, packing, and shipment of canned, frozen, and processed foods* (except in bulk), from points in Maine, New Hampshire, Vermont, Ohio, and West Virginia to points in Cumberland County, N.J. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or New York, N.Y.

No. MC 2860 (Sub-No. 11), filed June 19, 1967. Applicant: NATIONAL FREIGHT, INC., 57 West Park Avenue, Vineland, N.J. 08360. Applicant's representative: Alvin Altman, 1776 Broadway, New York, N.Y. 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass or plastic containers, bottles, jars, pack glasses, and jelly tumblers*, with or without caps, covers, stoppers, or tops, and *corrugated paper boxes or paper containers*, knocked down, when moving in mixed shipments with the above-described commodities, between Freehold, N.J., on the one hand, and on the other, points in Massachusetts and New York. NOTE: If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or New York, N.Y.

No. MC 4963 (Sub-No. 25), filed June 21, 1967. Applicant: JONES MOTOR CO., INC., Bridge Street, and Schuylkill Road, Spring City, Pa. 19475. Applicant's representative: John C. Bradley, 618

Perpetual Building, 111 E Street, NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of Kingston Manufacturing Co., Inc., located at or near Newfields, N.H., as an off-route point in connection with applicant's present regular route authority between Boston, Mass., and Manchester, N.H., in MC-4963 Sub-20. NOTE: If a hearing is deemed necessary, applicant requests it be held at Nashua, N.H., or Washington, D.C.

No. MC 5888 (Sub-No. 29), filed June 20, 1967. Applicant: MID-AMERICAN TRUCK LINES, INC., 900 North Indiana Avenue, Kansas City, Mo. 64120. Applicant's representative: Robert D. Schuler, Suite 1700, 1 Woodward Avenue, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite, Ford Motor Co., Sterling Township, Macomb County, Mich., as an off-route point in connection with authorized service at Detroit, Mich. NOTE: If a hearing is deemed necessary, applicant did not specify location.

No. MC 18068 (Sub-No. 45) (Amendment), filed April 24, 1967, published in FEDERAL REGISTER issues of May 11, 1967, and May 18, 1967, amended May 17, 1967, and republished as amended, this issue. Applicant: FLOYD AND BEASLEY TRANSFER COMPANY, INC., Post Office Drawer 3, Sycamore, Ala. Applicant's representative: John W. Cooper, 1301 City Federal Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), serving Pelham, Ala., as an off-route point in connection with applicant's regular route authority between Birmingham and Anniston, Ala., over U.S. Highway 78. NOTE: The purpose of this republication is to remove the restriction. If a hearing is deemed necessary, applicant requests it be he held at Birmingham, Ala.

No. MC 22195 (Sub-No. 131), filed June 20, 1967. Applicant: DAN DUGAN TRANSPORT COMPANY, a corporation, 41st and Grange Avenue, Post Office Box 946, Sioux Falls, S. Dak. 57101. Applicant's representative: J. F. Everist (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (liquid and dry) including but not restricted to anhydrous ammonia and fertilizer solutions, in bulk, from Welcome, Minn., and points within 5 miles thereof to points in Iowa, Minnesota, North Dakota, South Dakota, and Wisconsin. NOTE: If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 25798 (Sub-No. 151), filed June 19, 1967. Applicant: CLAY HYDER TRUCKING LINES, INC., 502 East Bridgers Avenue, Post Office Box 1186, Auburndale, Fla. 33823. Applicant's representative: Tony G. Russell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs*, unfit for human consumption (except in bulk, in tank vehicles), from points in Alabama, Georgia, Mississippi, Tennessee, North Carolina, South Carolina, and Tampa and Alachua, Fla., to Golden Meadow and New Orleans, La. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or New Orleans, La.

No. MC 25798 (Sub-No. 152), filed June 19, 1967. Applicant: CLAY HYDER TRUCKING LINES, INC., 502 East Bridgers Avenue, Post Office Box 1186, Auburndale, Fla. 33823. Applicant's representative: Tony G. Russell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Food products*, and (2) *food products* in mixed shipments with commodities, the transportation of which is partially exempt under the provisions of section 203(b)(6) of the Interstate Commerce Act if transported in vehicles not used in carrying any other property, when moving in the same vehicle at the same time with commodities in (2) above, from Wellston, Ohio, to points in Florida, Georgia, North Carolina, and South Carolina. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Columbus, Ohio.

No. MC 26174 (Sub-No. 3) (Amendment), filed May 18, 1966, published FEDERAL REGISTER issue of October 13, 1966, amended June 26, 1967, and republished as amended, this issue. Applicant: M. W. DALTON, ROBERT D. DALTON, AND MAURICE WAYNE DALTON, a partnership, doing business as M. W. DALTON & SONS, 709 E Street, Hamburg, Iowa 51640. Applicant's representative: Howard B. Wenger, 1101 Main Street, Hamburg, Iowa 51640. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe, plastic awnings, and related plastic products*, from Nebraska City, Nebr., and Hamburg, Iowa, to points in Illinois, Iowa, Missouri, Minnesota, Nebraska, Kansas, South Dakota, and North Dakota, and (2) *dry fertilizer and dry feed*, in bags, from St. Joseph, Mo., to Hamburg, Iowa. NOTE: The purpose of this republication is to broaden the scope of the application. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 28956 (Sub-No. 12) (Amendment), filed May 17, 1967, published in FEDERAL REGISTER issues of June 1, 1967, and June 15, 1967, amended June 19, 1967, and republished as amended this issue. Applicant: G. P. RYALS, doing business as RYALS TRUCK SERVICE, Post Office Box 634, Albany, Oreg. Applicant's representative: Lawrence V. Smart, Jr., 419 Northwest 23d Avenue, Portland, Oreg. 97210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer and fertilizer solutions*, from points in Clark County, Wash., to points in Oregon. NOTE: Applicant states no duplicating authority is being sought. The purpose of this republication is to more clearly set forth the proposed operations. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 29079 (Sub-No. 37), filed June 23, 1967. Applicant: BRADA MILLER FREIGHT SYSTEM, INC., 1210 South Union Street, Kokomo, Ind. 46901. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except articles of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between the plantsites and warehouses of Rockwell-Standard Corp. at or near Winchester, Ky., on the one hand, and, on the other, points in Illinois, Indiana, Michigan, Ohio, and St. Louis, Mo. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Columbus, Ohio.

No. MC 30605 (Sub-No. 141), filed June 9, 1967. Applicant: THE SANTA FE TRAIL TRANSPORTATION COMPANY, a corporation, 423 East Waterman Street, Wichita, Kans. 67202. Applicant's representative: F. J. Steinbrecher, 80 East Jackson Boulevard, Chicago, Ill. 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, nitroglycerin, livestock, household goods as defined by the Commission, commodities requiring special equipment, and those injurious or contaminating to other lading, (1) between the Colorado-Kansas State line and Pueblo, Colo.; from the Colorado-Kansas State line over U.S. Highway 50 to Pueblo, Colo., and return over the same route, serving all intermediate points; (2) between junction U.S. Highway 50 Bypass and U.S. Highway 85 north of Pueblo, Colo.; and junction U.S. Highway 50 Bypass and U.S. Highway 50; from junction U.S. Highway 50 Bypass and U.S. Highway 85, over U.S. Highway 50 Bypass to junction U.S. Highway 50 Bypass and U.S. Highway 50, and return over the same route, serving all intermediate points; and (3) between Pueblo, Colo., and junction U.S. Highway 50 and Colorado Highway 209, from Pueblo, Colo.; over Colorado Highway 96 to Boone, Colo., thence over Colorado

Highway 209 to junction U.S. Highway 50, and return over the same route, serving all intermediate points. NOTE: If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 38227 (Sub-No. 6), filed May 29, 1967. Applicant: CRUTCHER TRANSFER LINE, INC., 600 Marret Avenue, Louisville, Ky. Applicant's representative: Rudy Yessin, Sixth Floor, McClure Building, Post Office Box 457, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Elizabethtown and Munfordville, Ky., over U.S. Highway 31W, serving the intermediate point of Bonnieville, Ky. NOTE: If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky.

No. MC 46313 (Sub-No. 9), filed June 19, 1967. Applicant: GREAT FALLS TRANSFER AND STORAGE COMPANY, a corporation, doing business as SUHR TRANSPORT, 117 Park Drive South, Great Falls, Mont. 59401. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cement and concrete products*, from Montana City, Mont., to points in Wyoming in and north of Lincoln, Sublette, Fremont, Natrona, Commerce, and Niobrara Counties, Wyo., and (2) *concrete products*, from Billings, Great Falls, and Missoula, Mont., to points in Wyoming. NOTE: If a hearing is deemed necessary, applicant requests it be held at Helena, Great Falls, or Billings, Mont.

No. MC 51012 (Sub-No. 19), filed June 20, 1967. Applicant: JIMMIE THOMAS BRYANT, doing business as J. T. BRYANT, 810 E. Pinner Street, Suffolk, Va. 23434. Applicant's representative: Henry E. Ketner, 1208 State Planters Building, Richmond, Va. 23219.

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Suffolk, Va., to Cincinnati, Ohio, Detroit, Mich., Chicago, Ill., and points in Illinois, Indiana, Michigan, and Ohio. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Richmond, Va.

No. MC 51146 (Sub-No. 57), filed June 23, 1967. Applicant: SCHNEIDER TRANSPORT & STORAGE, INC., 817 McDonald Street, Green Bay, Wis. 54306. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Animal foods*, from Momence, Ill., to Omaha, Nebr., and points in Indiana, Ohio, Missouri, Iowa, Kentucky, Tennessee, West Virginia, and Wisconsin and (2) *returned and rejected shipment* on return. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 53116 (Sub-No. 104), filed June 20, 1967. Applicant: BRADY MOTORFRATE, INC., 2150 Grand Avenue, Des Moines, Iowa 50312. Applicant's representative: Robert D. Schuler, Suite 1700, One Woodward Avenue, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of the Ford Motor Co., located at or near Van Dyke and 18-Mile Road, Sterling Township, Macomb County, Mich., as an off-route point in connection with applicant's authorized service at Detroit, Mich. NOTE: If a hearing is deemed necessary, applicant requests it be held at Lansing, Mich.

No. MC 55811 (Sub-No. 91), filed June 22, 1967. Applicant: CRAIG TRUCKING, INC., Albany, Ind. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except articles of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between the plantsites and warehouses of Rockwell-Standard Corp. at or near Winchester, Ky., on the one hand, and, on the other, points in Indiana, Ohio, and Michigan. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Columbus, Ohio.

No. MC 55896 (Sub-No. 31), filed June 22, 1967. Applicant: R–W SERVICE SYSTEM, INC., 4840 Wyoming Avenue, Dearborn, Mich. 48126. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except articles of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between the plantsites and warehouses of Rockwell-Standard Corp. at or near Winchester, Ky., on the one hand, and, on the other, points in Illinois, Indiana, Michigan, Missouri, Ohio, and Wisconsin. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Columbus, Ohio.

No. MC 59590 (Sub-No. 10), filed June 19, 1967. Applicant: CLIPPER TRANSPORTATION COMPANY, a corporation, 143 Danforth Avenue, Jersey City, N.J. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Precast forms* composed of concrete and wood fibers or other reinforcing materials, and when moving therewith, *equipment, tools, and implements* used in the erection of such forms, (1) from Farmington, Conn., to points in Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, and (2) *returned shipments of the equipment, tools, and implements* specified in (1) above, from the destination states to Farmington, Conn., under contract with Concrete Plank Co., Inc., North Arlington, N.J. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New York, N.Y.

No. MC 60186 (Sub-No. 28), filed June 19, 1967. Applicant: NELSON FREIGHTWAYS, INC., 47 East Street, Rockville, Conn. 06066. Applicant's representative: Vernon V. Baker, 1411 K Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wallboard, building board, insulation board, fiberboard, pulpboard, and incidental materials and supplies* used in connection with the installation thereof, from Lisbon Falls, Maine, to points in New York, New Jersey, Delaware, Maryland, Virginia, West Virginia, and Pennsylvania and (2) *refused, rejected, or damaged shipments* of the commodities in (1) above from the destination points to Lisbon Falls, Maine, on return. NOTE: Applicant holds contract authority in MC 93421, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass., or Washington, D.C.

No. MC 61403 (Sub-No. 168) (Correction), filed May 9, 1967, published FEDERAL REGISTER issue of May 25, 1967, and republished as corrected this issue. Applicant: THE MASON AND DIXON TANK LINES, INC., Eastman Road, Kingsport, Tenn. 37662. Applicant's representative: W. C. Mitchell, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, from the plantsite and storage facilities of Reichhold Chemicals, Inc., at or near Tuscaloosa, Ala., to points in the United States (except Alaska and Hawaii), restricted to traffic originating at the plantsite or storage facilities of Reichhold Chemicals, Inc. NOTE: Applicant states it does not seek duplicating authority. The purpose of this republication is to add the restriction, inadvertently omitted in previous publication. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., Memphis, Tenn., or Jacksonville, Fla.

No. MC 68980 (Sub-No. 13), filed June 8, 1967. Applicant: CHECKER EXPRESS CO., a corporation, 960 West Montana Street, Milwaukee, Wis. 53215. Applicant's representative: John L. Bruemmer, 1210 West Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) between North Lake and Milwaukee, Wis., over Wiscon-

sin Highway 74, serving all intermediate points, and (2) between Allenton located at or near junction Wisconsin Highways 33 and 175 and Milwaukee, Wis., over Wisconsin Highway 175, serving all intermediate points. NOTE: If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis.

No. MC 72420 (Sub-No. 7), filed June 20, 1967. Applicant: THE ACE MOTOR TRANSPORT COMPANY, a corporation, 3103 Tiffin Avenue, Sandusky, Ohio 44870. Applicant's representative: Robert A. Sullivan, 1800 Buhl Building, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Automobile parts, assemblies, and materials* used in the manufacture of automobiles, serving the Willow Run Airport located at Ypsilanti, Mich., as an off-route point in connection with applicant's presently authorized regular route operations to and from Sandusky, Ohio, restricted to shipments having a prior or subsequent movement by air. NOTE: If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Washington, D.C.

No. MC 73688 (Sub-No. 20), filed June 23, 1967. Applicant: SOUTHERN TRUCKING CORP., 1500 Orenda Road, Memphis, Tenn. 38107. Applicant's representative: Charles H. Hudson, Jr., 833 Stahlman Building, Nashville, Tenn. 37201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) Iron and steel *pipe*, from Preston, Tenn. (near Counce on Pickwick Lake), to points in Tennessee, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, West Virginia, Kentucky, Ohio, Indiana, Illinois, Louisiana, Arkansas, Missouri, Iowa, Texas, Oklahoma, Kansas, Nebraska, and Michigan, and (2) iron and steel *plates, sheets, skelp*, and *equipment, materials, and supplies* used in the manufacturing, processing, or production of iron and steel pipe, from points in the States named in (1) above, to Preston, Tenn. NOTE: If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Nashville, Tenn.

No. MC 94201 (Sub-No. 59), filed June 7, 1967. Applicant: BOWMAN TRANSPORTATION, INC., 2161 Moreland Avenue SE., Atlanta, Ga. 30316. Applicant's representative: Maurice F. Bishop, 327 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission in Practices of Motor Common Carriers of Household Goods, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading), (1) between Gadsden, Ala., and Memphis, Tenn.: (a) From Gadsden, over U.S. Highway 431 to junction U.S. Highway 72 at Huntsville, Ala., thence over U.S. Highway 72 to Memphis, Tenn., and return over the same routes serving all intermediate points in Alabama and the off-route point of Scottsboro, Ala.; those points in Alabama within a 15-mile radius of Gadsden; Huntsville, Decatur, Florence, Sheffield, and Tuscumbia, Ala.; and those points in Tennessee, Mississippi, and Arkansas within a 15-mile radius of Memphis, Tenn.; (b) from Gadsden, Ala., over U.S. Highway 278 to junction U.S. Highway 231, thence over U.S. Highway 231 to junction Alabama Highway 67, thence over Alabama Highway 67 to junction U.S. Highway 31, thence over U.S. Highway 31 to junction U.S. Alternate Highway 72 at Decatur, Ala., thence over U.S. Alternate Highway 72 to junction U.S. Highway 72, thence over U.S. Highway 72 to Memphis, Tenn., and return over the same routes serving all intermediate points in Alabama;

(c) From Gadsden, Ala., over U.S. Highway 278 to Cullman, Ala., thence over Interstate Highway 65 to Hartselle, Ala., thence over Alabama Highway 36 to its intersection with Alabama Highway 33 at or near Wren, thence over Alabama Highway 33 to Moulton, thence over Alabama Highway 24 to Russellville, Ala., thence over U.S. Highway 43 to Tuscumbia, Ala., thence over U.S. Highway 72 to Memphis, Tenn., serving all intermediate points in Alabama; (2) between Florence, Ala., and Memphis, Tenn.: (a) From Florence over Alabama Highway 20 to the Alabama-Tennessee State line, thence over Tennessee Highway 69 to junction U.S. Highway 64 at Savannah, Tenn., thence over U.S. Highway 64 to Memphis, Tenn., and return over the same routes serving all intermediate points in Alabama and Tennessee; (3) between Guntersville, Ala., and junction Alabama Highways 69 and 67 near Hulaco, Ala.; (a) from Guntersville over Alabama Highway 69 to junction Alabama Highway 67, and return over the same routes serving all intermediate points; (4) between Huntsville and Decatur, Ala.: (a) From Huntsville and Decatur, Ala.: From Huntsville over U.S. Highway Alternate 72 to Decatur, and return over the same routes serving all intermediate points; (5) between Gadsden, and Huntsville, Ala.:

(a) From Gadsden over U.S. Highway 278 to junction U.S. Highway 231, thence over U.S. Highway 231 to Huntsville, and return over the same routes serving all intermediate points; (6) between Piedmont and Gadsden, Ala., over U.S. Highway 278, serving all intermediate points; (7) between Corinth, Miss., and Selmer, Tenn., over U.S. Highway 45, for operating convenience only; (8) between Selmer and Jackson, Tenn., over U.S. Highway 45, serving no intermediate points; (9) between Memphis and Jackson, Tenn.: From Memphis to Jackson, over U.S. Highway 70 or Interstate Highway 40, serving no intermediate points—but serving all points within a 15-mile radius of Jackson, as off-route points. NOTE: Applicant states it intends to tack the above-proposed routes with each other and with all that authority previously granted under certificates No. MC-94201 and Subs, wherein applicant is authorized to serve points in the States of Alabama, Tennessee, Virginia, Maryland, Florida, Georgia, North Carolina, South Carolina, Mississippi, Kentucky, Louisiana, West Virginia, New York, Delaware, New Jersey, Pennsylvania, District of Columbia, and Connecticut. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Memphis, Tenn.

No. MC 95540 (Sub-No. 702), filed June 21, 1967. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, Fla. 33803. Applicant's representative: Bill R. Davis, Suite 1600, First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen carnivorous animal foodstuffs*, unfit for human consumption, (except in bulk in tank vehicles) from points in Alabama, Georgia, Mississippi, Tennessee, North Carolina, South Carolina, and Tampa and Alachua, Fla., to Golden Meadow and New Orleans, La. NOTE: If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 95876 (Sub-No. 66), filed June 15, 1967. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, Minn. Applicant's representative: Grant J. Merritt, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Plywood, veneer, wood paneling, hardboard, wallboard or wood particle board, and materials, supplies, and accessories used in connection therewith*, from Oshkosh and Phillips, Wis., to points in Colorado, Iowa, Kansas, Minnesota, Montana, Nebraska, New Mexico, North Dakota, South Dakota, and Wyoming. NOTE: If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 103191 (Sub-No. 23) (Amendment), filed May 4, 1967, published in the FEDERAL REGISTER issue of May 18, 1967, amended and republished as amended, this issue. Applicant: THE GEORGE A. RHEMAN CO., INC., Post Office Box 2095, Station A, Charleston, S.C. 29403. Applicant's representative: Frank A. Graham, Jr., 707 Security Federal Building, Columbia, S.C. 29201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer*, in bulk, in pneumatic tank trailers, from points in Charleston, Darlington, Greenville, Richland, and Spartanburg Counties, S.C., to points in North Carolina. NOTE: The purpose of this republication is to broaden the authority sought by including additional origin points. If a hearing is deemed necessary, applicant requests it be held at Charleston or Columbia, S.C., or Charlotte, N.C.

No. MC 107002 (Sub-No. 337), filed June 23, 1967. Applicant: HEARIN-MILLER TRANSPORTERS, INC., Post Office Box 1123, Jackson, Miss. 39205. Applicant's representatives: Harold D. Miller, Jr., Post Office Box 1250, Jackson, Miss. 39205, and John J. Borth (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dimethyl acetamide* (resin solvents), in bulk, in tank vehicles, from Decatur, Ala., to Taft, La., and Gonzales, Fla. NOTE: If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or New Orleans, La.

No. MC 107286 (Sub-No. 23), filed June 19, 1967. Applicant: M. PASCALE TRUCKING, INC., 8-10 Rice Street, South Attleboro, Mass. 02774. Applicant's representative: Russell B. Curnett, 36 Circuit Drive, Edgewood Station, Providence, R.I. 02905. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Brick*, from Attleboro, and Bridgewater, Mass., to points in New York. NOTE: If a hearing is deemed necessary, applicant requests it be held at Providence, R.I., or Boston, Mass.

No. MC 107515 (Sub-No. 576), filed June 2, 1967. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 10799, Station A, Atlanta, Ga. 30310. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Food products*, and (2) *food products* in mixed shipments with commodities, the transportation of which is partially exempt under the provisions of section 203(b)(6) of the Interstate Commerce Act if transported in vehicles not used in carrying any other property, when moving in the same vehicle at the same time with commodities in (2) above, from Wellston, Ohio, to points in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, and Tennessee. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 108651 (Sub-No. 18), filed June 26, 1967. Applicant: ROY B. MOORE, INC., Post Office Box 628, Kingsport, Tenn. Applicant's representative: Jacob P. Billing, 1108 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, dealt in by wholesale and retail grocery stores, from Brockport, N.Y., to Richmond, Va. NOTE: If a hearing is deemed necessary, applicant did not specify location.

No. MC 108676 (Sub-No. 21), filed June 19, 1967. Applicant: A. J. METLER HAULING AND RIGGING, INC., 117 Chicamauga Avenue NE., Knoxville, Tenn. 37917. Applicant's representative: Robert M. Pearce, Central Building, 1033 State Street, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles*, from Knoxville, Tenn., to points in Delaware, Illinois, Indiana, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, West Virginia, Wisconsin, and the District of Columbia, and (2) *equipment, material, and supplies* used in the manufacturing and processing of iron and steel articles (except commodities in bulk) from the destinations described in (1) above and points in Kentucky and Virginia to Knoxville, Tenn. NOTE: Applicant indicates tacking the authority sought with presently held authority in MC-108676 whereas applicant is authorized to serve between Knoxville, Tenn., and points within (75) miles of Knoxville on the one hand, and, on the other, points in Kentucky, Virginia, Georgia, Alabama, North Carolina, South Carolina, and Tennessee. If a hearing is deemed necessary, applicant requests it be held at Knoxville or Nashville, Tenn.

No. MC 108859 (Sub-No. 46), filed June 12, 1967. Applicant: CLAIRMONT TRANSFER CO., a corporation, 1803 Seventh Avenue North, Escanaba, Mich. 49829. Applicant's representative: William B. Elmer, 32644 Gratiot Avenue, East Detroit, Mich. 48021. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, and commodities in bulk), between St. Ignace and Cheboygan, Mich.: From St. Ignace over Interstate Highway 75 to junction U.S. Highway 23, thence over U.S. Highway 23 to Cheboygan, and return over the same route, (a) restricted against service at points intermediate to Ignace and Cheyboygan, (b) restricted to traffic transported either from or to otherwise authorized points in the Upper Peninsula of Michigan west of Interstate Highway 75, U.S. Highway 2, and Michigan Highway 48 between St. Ignace and Sault Ste. Marie, and points in Wisconsin north of U.S. Highway 18 between Milwaukee and the Mississippi River, and (c) restricted against interlining traffic at Cheboygan with any connecting carrier if such traffic originates at or is destined to points other than those in Michigan and the area described in (b) above in Wisconsin. NOTE: This application is accompanied by a petition seeking a modification to applicant's present certificate in Docket No. MC 108859 against the transportation of any traffic which originates in the Lower Peninsula of Michigan and is destined to points in the Upper Peninsula of Michigan on and east of Interstate Highway 75, U.S. Highway 2, and Michigan Highway 48 between St. Ignace, Mich., and Sault Ste. Marie, Mich., and similarly restricted against the transportation of traffic which originates in the described area in the Upper Peninsula of Michigan and is destined to points in the Lower Peninsula of Michigan. Applicant states the proposed extension of service is expressly conditioned upon the modification of applicant's present certificate as above described. If a hearing is deemed necessary, applicant requests it be held at Lansing or Escanaba, Mich.

No. MC 109637 (Sub-No. 321), filed June 16, 1967. Applicant: SOUTHERN TANK LINES, INC., 4107 Bells Lane, Louisville, Ky. 40211. Applicant's representative: G. R. Thim (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime*, in bulk, in tank vehicles, from Louisville, Ky., to points in Michigan. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Washington, D.C.

No. MC 110420 (Sub-No. 547), filed June 26, 1967. Applicant: QUALITY CARRIERS, INC., 100 South Calumet Street, Burlington, Wis. 53105. Applicant's representatives: Allan B. Torhorst, Post Office Box 339, Burlington, Wis. 53105, and Fred H. Figge (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corn syrup and corn syrup mixtures*, in bulk, from Du Quoin, Ill., to points in Illinois, Indiana, Michigan, Wisconsin, Iowa, Kentucky, Tennessee, Missouri, Minnesota, and Ohio. NOTE: Applicant states it could tack at Chicago or Pekin, Ill., Clinton, Keokuk, or Cedar Rapids, Iowa, or St. Louis and North Kansas City, Mo., to serve points in various States. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 110525 (Sub-No. 814) (Amendment), filed January 24, 1967, published in FEDERAL REGISTER issue of February 9, 1967, amended June 28, 1967, and republished as amended, this issue. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representatives: Leonard A. Jaskiewicz, 1155 15th Street NW., Washington, D.C. 20005, and Edwin H. van Deusen (same address as applicant). Authority sought to operate as a *common carrier*, by motor over irregular routes, transporting: *Diammonium phosphate*, in bulk, from Depue, Colfax, and Riverside, Ill., and Des Moines, Iowa, to points in Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin, and Michigan. NOTE: The purpose of this republication is to broaden the origin point. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 110525 (Sub-No. 837), filed June 16, 1967. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representatives: Leonard A. Jaskiewicz, 1155 15th Street NW., Madison Building, Washington, D.C. 20005, and Edwin van Deusen, 520 East Lancaster Avenue, Downingtown, Pa. 19335. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic granules*, in bulk, from points in Lawrence County, Ohio, to points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 112750 (Sub-No. 245), filed June 15, 1967. Applicant: AMERICAN COURIER CORPORATION, 222-17

Northern Boulevard, Bayside, N.Y. 11361. Also: De Revalas Building, Bayside, N.Y. 11361. Applicant's representative: Russell S. Bernhard, 1625 K Street NW., Commonwealth Building, Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Commercial papers, documents, written instruments, and business records* (except coin, currency, bullion, and negotiable securities), as are used in the business of banks and banking institutions, (1) between Duluth, Minneapolis, and St. Paul, Minn., on the one hand, and, on the other, points in the Upper Peninsula of Michigan, (2) between Richmond, Va., on the one hand, and, on the other, points in Alamance, Bertie, Brunswick, Camden, Carteret, Caswell, Chowan, Columbus, Currituck, Dare, Duplin, Forsyth, Gates, Guilford, Hartford, Hyde, Jones, New Hanover, Onslow, Pamlico, Pasquotank, Pender, Perquimans, Scotland, Tyrrell and Washington Counties, N.C.; and Allendale, Bamberg, Barnwell, Beaufort, Berkeley, Calhoun, Charleston, Chesterfield, Clarendon, Colleton, Darlington, Dillon, Dorchester, Florence, Georgetown, Hampton, Horry, Jasper, Kershaw, Lee, Marion, Marlboro, Orangeburg, Richland, Sumter and Williamsburg Counties, S.C.; and (3) between Belvidere, Ill., on the one hand, and, on the other, Milwaukee, Wis., under contract with banks and banking carrier authority in MC 111729, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Cleveland, Ohio.

No. MC 113267 (Sub-No. 176), filed June 23, 1967. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 312 West Morris Street, Caseyville, Ill. 62232. Applicant's representative: Lawrence A. Fischer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned and preserved foodstuffs*, from Trafalgar, Ind., to points in Illinois, Ohio, Kentucky, and Tennessee. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 113828 (Sub-No. 131), filed June 22, 1967. Applicant: O'BOYLE TANK LINES, INCORPORATED, 4848 Cordell Avenue, Washington, D.C. 20014. Applicant's representative: William P. Sullivan, 1825 Jefferson Place NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Spent silica gel catalyst*, in bulk, (1) between points in New Jersey, Delaware, Maryland, and Virginia, and (2) between points in New Jersey, Delaware, Maryland, and Virginia, on the one hand, and, on the other, points in New York, Pennsylvania, Virginia, Ohio, and Kentucky. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 113843 (Sub-No. 130), filed June 19, 1967. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods, potatoes, and potato products*, from points in Montcalm County, Mich., to points in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Detroit, Mich.

No. MC 114067 (Sub-No. 9), filed June 20, 1967. Applicant: DECATUR PETROLEUM HAULERS, INC., 159 First Avenue NE., Decatur, Ala. Applicant's representative: D. H. Markstein, Jr., 818 Massey Building, Birmingham, Ala. 35203. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Resin solvents*, in bulk, in tank vehicles, from Decatur, Ala., to Taft, La., under contract with Monsanto Co., Textile Division. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Atlanta, Ga.

No. MC 114300 (Sub-No. 16), filed June 16, 1967. Applicant: SOUTHERN EXPRESS COMPANY, a corporation, 3333 South Cicero Avenue, Cicero, Ill. 60650. Applicant's representative: Edward C. Baselon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel, and iron and steel articles, and equipment, materials, and supplies used in the manufacture or processing of iron and steel articles*, from points in the St. Louis, Mo.-East St. Louis, Ill., commercial zone, and Alton and Madison, Ill., to points in Indiana, Kentucky, Michigan, and Ohio. NOTE: If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 115578 (Sub-No. 13), filed June 22, 1967. Applicant: ERWIN HURNER, 2505 South Rivershore Drive, Moorehead, Minn. 56560. Applicant's representative: Alan Foss, 502 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages and articles dealt in by wholesale beverage distributors*, from Chicago, Ill., to Moorehead, Minn., and Fargo N. Dak., under contract with Pernelin Distributing Co. NOTE: Applicant holds common carrier authority under MC-117148, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Fargo, N. Dak.

No. MC 116273 (Sub-No. 94), filed June 19, 1967. Applicant: D & L TRANSPORT, INC., 3800 South Laramie Avenue, Cicero, Ill. 60650. Applicant's representative: Robert G. Paluch (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt and road oil*, in bulk, in tank vehicles, from Chicago, Ill., to points in Wisconsin, and *damaged, defective, or returned shipments* of the above-specified commodities, on return. NOTE: This application is accompanied by a petition seeking a modification to applicant's present certificate in Docket No. MC 116273 (Sub-No. 6) to have the qualifying restriction namely "equipped with heating devices designed to control the viscosity of the commodities during transit" with respect to the handling of asphalt and road oils eliminated. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 117119 (Sub-No. 401), filed June 15, 1967. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., Elm Springs, Ark. 72728. Applicant's representative: John H. Joyce, 26 North College, Fayetteville, Ark. 72702. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, between Fort Smith, Springdale, Lowell, and Johnson, Ark., and Haskell, Spiro, Westville, and Stigler, Okla. NOTE: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 117557 (Sub-No. 14), filed June 15, 1967. Applicant: MATSON, INC., Post Office Box 43, Cedar Rapids, Iowa 52406. Applicant's representative: William A. Landau, 1307 East Walnut Street, Des Moines, Iowa 50306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road construction machinery and equipment* as described in appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from points in the United States (except points in Alaska), Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Washington, Wyoming, and Utah, to Cedar Rapids, Iowa. NOTE: If a hearing is deemed necessary, applicant requests it be held at Des Moines or Cedar Rapids, Iowa.

No. MC 117883 (Sub-No. 101), filed June 21, 1967. Applicant: SUBLER TRANSFER, INC., East Main Street, Versailles, Ohio 45380. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from St. Louis, Mo., to points in Indiana, Ohio, Pennsylvania, Michigan, New Jersey, New York, Delaware, Connecticut, Massachusetts, Maryland, New Hampshire, Maine, Vermont, Virginia, West Virginia, and the District of Columbia. NOTE: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 118994 (Sub-No. 4), filed June 23, 1967. Applicant: AIR VAN LINES, INC., 220 Post Road, Anchorage, Alaska. Also: Post Office Box 2188, ECB, Anchorage, Alaska. Applicant's representative: Wyman C. Knapp, 626 City National Bank Building, 606 South Olive Street, Los Angeles, Calif. 90014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, when moving on through bills of lading of an exempt freight forwarder, between points in the Seattle, Wash., commercial zone, restricted to shipments moving to and from the State of Alaska. NOTE: Applicant does not propose to restrict itself to transporting shipments which only originate or terminate in the aforesaid commercial zone, but will receive shipments from and deliver shipments to connecting carriers within said zone. If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash., or Portland, Oreg.

No. MC 119641 (Sub-No. 66), filed June 21, 1967. Applicant: RINGLE EXPRESS, INC., 450 East Ninth Street, Fowler, Ind. Applicant's representative: Robert C. Smith, 620 Illinois Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood products*, with or without metal attachments or metal parts, from Jackson and Magee, Miss., to points in Illinois, Indiana, Iowa, and Michigan. NOTE: If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn.

No. MC 121550 (Sub-No. 1), filed May 15, 1967. Applicant: JAMES C. WETHERILL, doing business as HATBORO DELIVERY SERVICE, 800 Ivyland Road, Warminster, Pa. 18974. Applicant's representative: S. H. Copelin, 121 South Broad Street, Philadelphia, Pa. 19107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between points in the borough of Hatboro, Montgomery County, Pa., and points within 5 miles of the limits of said borough, and the freight terminals, bus terminals, wharves, airports, and Philadelphia Airport, located in Philadelphia, Pa. NOTE: Applicant states the authority sought above is limited to emergency service constituting pickups and deliveries in less than 8 hours. If a hearing is deemed necessary, applicant requests it be held at or near Philadelphia, Pa.

No. MC 123112 (Sub-No. 2), filed June 19, 1967. Applicant: HOCKMAN'S MOTOR EXPRESS, INC., 300 Broad Street, Terre Hill, Pa. 17581. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Empty containers, thread, trimmings, cotton, rayon, and silk piece goods and machinery, machine parts, and supplies* used in the manufacture of shirts, pajamas, sleeping garments, underwear, and dresses, from Blue Ball, Pa. to Coats, N.C., and (2) *shirts, pajamas, sleeping garments, underwear, and dresses*, from Coats, N.C., to Blue Ball, Pa. NOTE: Applicant states it could tack at New Holland, Pa., to serve New York and New Jersey. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Harrisburg, Pa.

No. MC 123373 (Sub-No. 12), filed June 19, 1967. Applicant: CARTAGE SERVICES, INC., 26340 Van Born Road, Dearborn Heights, Mich. 48125. Applicant's representative: Frank J. Kerwin, Jr., 900 Guardian Building, Detroit, Mich. 48226. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from South Bend, Ind., to points in Illinois, under contract with Drewrys Limited U.S.A., Inc. NOTE: Applicant is also authorized to conduct operations as a common carrier in certificate No. MC 118594, therefor, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Chicago, Ill.

No. 123383 (Sub-No. 23), filed June 22, 1967. Applicant: BOYLE BROTHERS, INC., 276 River Road, Edgewater, N.J. 07020. Applicant's representative: Morton E. Kiel, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fiberboard, wallboard, and accessories and supplies* used in the installation thereof, from Deposit, N.Y., to points in Maine, New Hampshire, Vermont, North Carolina, South Carolina, and Tennessee, and *return shipments*, on return. NOTE: Applicant states the above-described commodities will be transported on flat-bed equipment. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 123393 (Sub-No. 187), filed June 21, 1967. Applicant: BILYEU REFRIGERATED TRANSPORT CORPORATION, 2105 East Dale Street, Springfield, Mo. 65803. Applicant's representative: Harley E. Laughlin, Post Office Box 948, Commercial Station, Springfield, Mo. 65803. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products and food products in mixed shipments with commodities* exempt from economic regulations pursuant to the provisions of section 203(B)(6) of the Interstate Commerce Act, from Wellston, Ohio, to points in Arkansas, Connecticut, Delaware, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Cleveland, Ohio.

No. MC 123819 (Sub-No. 11), filed June 19, 1967. Applicant: ACE FREIGHT LINE, INC., Post Office Box 2103, Memphis, Tenn. 38102. Also: 261 East Webster Street, Memphis, Tenn. Applicant's representative: Bill R. Davis, 1600 First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer, fertilizer materials, acids, and chemicals*, including but not limited to anhydrous ammonia, fertilizer solutions, insecticides, fungicides, herbicides, aqua ammonia, methanol, urea, and urea products, in bulk, from the plantsite of Gulf Oil Corp. (Faustina Works) at or near Donaldsonville, La., to points in Alabama, Arkansas, Mississippi, Missouri, Florida, Illinois, Kentucky, Tennessee, Texas, Louisiana, and Oklahoma. NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City or St. Louis, Mo.

No. MC 124951 (Sub-No. 20), filed June 19, 1967. Applicant: WATHEN TRANSPORT, INC., Post Office Box 237, Henderson, Ky. Applicant's representative: Robert M. Pearce, Central Building, 1033 State Street, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fabricated iron and steel articles*, from Owensboro and Kenderson, Ky., to points in Missouri and West Virginia. NOTE: If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn., or Louisville, Ky.

No. MC 127551 (Sub-No. 2), filed June 22, 1967. Applicant: GEORGE F. DAVIS, JR., doing business as GEORGE DAVIS TRUCKING COMPANY, 429 East Waterloo Street, Rapid City, S. Dak. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, dairy products, and articles distributed by meat packinghouses* as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates* 61 M.C.C. 209 and 766 (except hides and commodities in bulk in tank vehicles), from Rapid City, S. Dak., to points in Weston, Crook, Campbell, Johnson, and Sheridan Counties, Wyo., under contract with Black Hills Packing Co., Rapid City, S. Dak. NOTE: If a hearing is deemed necessary, applicant requests it be held at Rapid City, S. Dak.

No. MC 127568 (Sub-No. 6) (Correction), filed June 9, 1967, published FEDERAL REGISTER issue of June 29, 1967, and republished as corrected, this issue. Applicant: MID SOUTH DELIVERY SERVICE CO., a corporation, 3215 Tulane Road, Memphis, Tenn. Applicant's representative: Dale Woodall, 900 Memphis Bank Building, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Prefabricated metal buildings* knocked down, *prefabricated metal building sections* knocked down, *component parts thereof, equipment, materials, and supplies* used in the installation, construction, and erection thereof (except metal buildings which are designed to be drawn by passenger vehicles, and commodities which because of their size or weight require special equipment and handling), from Evansville, Wis., to points in Iowa, Illinois, Nebraska, Kansas, Missouri, Oklahoma, New Mexico, Arizona, Texas, Louisiana, Arkansas, Mississippi, Tennessee, Indiana, Kentucky, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, West Virginia, Ohio,

California, and Michigan, and (2) *materials, equipment and supplies* used or useful in the commodities described in (1) above, on return. NOTE: The purpose of this republication is to redescribe (2) above. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 127626 (Sub-No. 8), filed June 20, 1967. Applicant: SANTEE CEMENT CARRIERS, INC., Post Office Box 597, Holly Hill, S.C. 29059. Applicant's representative: Frank B. Hand, Jr., 1345 Pennsylvania Avenue NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer materials* in bulk, from points in Chatham, Columbia, Effingham, and Richmond Counties, Ga., to points in South Carolina. NOTE: If a hearing is deemed necessary, applicant requests it be held at Charleston or Columbia, S.C., or Augusta or Savannah, Ga.

No. MC 127626 (Sub-No. 9), filed June 20, 1967. Applicant: SANTEE CEMENT CARRIERS, INC., Post Office Box 597, Holly Hill, S.C. 29059. Applicant's representative: Frank B. Hand, Jr., 1345 Pennsylvania Avenue NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer materials*, in bulk, from points in Spartanburg and Darlington Counties, S.C., to points in North Carolina. NOTE: If a hearing is deemed necessary, applicant requests it be held at Charleston or Columbia, S.C., or Charlotte, N.C.

No. MC 128630 (Sub-No. 5), filed June 16, 1967. Applicant: COMMODITY CARRIERS, INC., 700 Denargo Market Denver, Colo. 80216. Applicant's representative: Chester A. Zyblut, 1522 K Street NW., Washington, D.C. 20005. NOTE: If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 128630 (Sub-No. 6), filed June 16, 1967. Applicant: COMMODITY CARRIERS, INC., 700 Denargo Market, Denver, Colo. 80216. Applicant's representative: Chester A. Zyblut, 1522 K Street NW., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meat products, frozen foods, and bakery goods*, from Denver and Colorado Springs, Colo., to points in California, Arizona, New Mexico, Nevada, Kansas, Missouri, and Indiana, under contract with Johnson Food Co., Shurtenda Steaks, Inc., and Colorado Pizza Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 128762 (Sub-No. 2), filed June 21, 1967. Applicant: P. L. LAWTON INC., Post Office Box 125, Berwick, Pa. 18603. Applicant's representative: John M. Musselman, 409 North Third Street, Harrisburg, Pa. 17108. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Prepared foodstuffs*, not frozen and not in bulk; and *advertising materials, displays, dispensing equipment, premiums*, and *office equipment and supplies*, from Berwick, Pa., to points in Connecticut, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and the District of Columbia, and (2) *packing materials, display racks, machinery, office equipment and supplies, foodstuff ingredients*; and *rejected prepared foodstuffs, advertising materials, displays, dispensing equipment, and premiums*, from the above-destination points to Berwick, Pa., under contract with Wise Potato Chip Co., subsidiary of The Borden Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 128805 (Sub-No. 1), filed June 19, 1967. Applicant: GARY E. CHAPMAN, doing business as CHAPMAN TRUCKING CO., Route 1, Box 295, Barboursville, W. Va. 25504. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Materials and supplies* used in the manufacture of carpets and carpeting, from Huntington, W. Va., to the plantsite of Louisa Carpet Mills, Inc., at or near Louisa, Ky., restricted to traffic having a prior movement by rail, under contract with Louisa Carpet Mills, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Charleston or Huntington, W. Va., or Columbus, Ohio.

No. MC 128940 (Sub-No. 1), filed June 22, 1967. Applicant: RICHARD A. CRAWFORD, doing business as R. A. CRAWFORD TRUCKING SERVICE, Post Office Box 722, Adelphi, Md. 20783. Applicant's representative: Charles E. Creager, 10 West Boscawen Street, Post Office Box 81, Winchester, Va. 22601. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meat*, from Milwaukee, Wis., to Washington, D.C., and Baltimore, Md., under contract with Standard Meat Co., Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Baltimore, Md.

No. MC 129123 (Sub-No. 1), filed June 20, 1967. Applicant: CHECKER VAN & STORAGE, INC., 2130 Third Street, San Francisco, Calif. 94107. Applicant's representative: Alan P. Wohlstetter, 1 Farragut Square South, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Marin, Sonoma, Napa, San Francisco, Solano, San Mateo, Santa Clara, Alameda, and Contra Costa Counties, Calif., restricted to shipments having a prior or subsequent movement beyond said counties in containers, and further restricted to pickup and delivery service incidental to and in connection with packing, crating, and containerization, or unpacking, uncrating, and decontainerization of such shipments. NOTE: If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif., or Washington, D.C.

No. MC 129129 (Sub-No. 2), filed June 19, 1967. Applicant: JACK-LEONARD TRANSPORTATION CO., INC., 67-12 73d Place, Middle Village, N.Y. 11379. Applicant's representative: Robert B. Pepper, 297 Academy Street, Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wire rope, wire mesh, and technical fabrics, wire winding machinery, and parts thereof, coil wire machinery, and parts thereof, dental tools, instruments, and burrs*, from points in the New York Harbor area, Ex Parte 140, 49 CFR Part 303, to points in Westchester County, N.Y., restricted to traffic having a prior movement by water. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Newark, N.J.

No. MC 129167 (Sub-No. 1) (Correction), filed June 1, 1967, published FEDERAL REGISTER issue of June 29, 1967, and republished as corrected, this issue. Applicant: SCHILLI TRANSPORTATION, INC., 200 St. Clair Avenue, East St. Louis, Ill. 62201. Applicant's representative: Thomas F. Kilroy, 1341 G Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Nitro-glycerin, desensitized*, in drums, from Martinsburg, W. Va., McArthur, Ohio, and Atlas, Mo., to East Alton, Ill., and (2) *drums, empty, and their contents of solvent*, on return. NOTE: Applicant holds contract carrier authority under MC 117500 Sub-2 and other subs, therefore, dual operations and common control may be involved. The purpose of this republication is to state that the applicant did not request no-hearing procedure. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Washington, D.C.

No. MC 129169, filed June 9, 1967. Applicant: ANDREWS EXPRESS AND STORAGE WAREHOUSE INCORPORATED, 7 Fir Street, Newport, R.I. 02840. Applicant's representative: Joseph A. Kline, 185 Devonshire Street, Boston, Mass. 02110. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containerized shipments of used household goods* in containers, when moving on through bills of lading of an exempt freight forwarder, between points in Rhode Island, that part of eastern Connecticut bounded by New London and U.S. Highway 53 and the Rhode Island State line, that part of eastern Massachusetts bounded by U.S. Highway 95 on the west, Boston on the north, including all of Cape Cod and southeastern part of Massachusetts. NOTE: If a hearing is deemed necessary, applicant requests it be held at Providence, R.I., Boston, Mass., or Washington, D.C.

No. MC 129175, filed June 12, 1967. Applicant: M and M MESSENGER SERVICE, INC., 314 Hemlock Terrace, Teaneck, N.J. 07666. Applicant's representative: Paul Halprin, 50 Broad Street, New York, N.Y. 10004. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Business papers, records, audits, accounting media, magazines and data processing*, except in tank vehicles or in bulk, between New York, N.Y., and Poughkeepsie, N.Y., on the one hand, and, on the other, Princeton, Trenton, Woodridge, and Newark, N.J.; Sharon Hills and Philadelphia, Pa.; East Hartford, Hartford, and New Haven, Conn., under contract with Service Bureau Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Newark, N.J.

No. MC 129180 (Sub-No. 1), filed June 19, 1967. Applicant: ROBERT D. CAPISTRANT, doing business as CAPPIE'S TRUCKING CO., 106 Lyton Place, St. Paul, Minn. 55117. Applicant's representative: Carl T. Johnson, 414 Hamm Building, St. Paul, Minn. 55102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Aggregates such as sand, gravel, and crushed rock and also sacked lime and cement and other building materials*, from Lakeland, Minn., to points in Polk, Pierce, and St. Croix Counties, Wis. NOTE: If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 129181 (Sub-No. 1), filed June 16, 1967. Applicant: DELRAN CARTAGE & LEASING CO., INC., Post Office Box 1003, Route 130, Delran, N.J. Applicant's representative: Morton E. Kiel, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Polystyrene foam articles*, (1) from Willow Grove, Pa., to points in New Jersey, New York, Connecticut, Delaware, Maryland, District of Columbia, Virginia, West Virginia, Ohio, and Kentucky, (2) from applicant's warehouse at Delran, N.J., to points in New York, Pennsylvania, Connecticut, Delaware, Maryland, District of Columbia, Virginia, West Virginia, Ohio, and Kentucky, and *returned shipments* in the opposite direction, under continuing contract with Sullifoam Inc. of Willow Grove, Pa. NOTE: If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 129189, filed June 15, 1967. Applicant: WING CARTAGE CO., a corporation, Box 250, Cary, Ill. 60013. Applicant's representative: Irving Stillerman, 29 South La Salle Street, Chicago, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand and gravel*, from points in Lake County, Ill., to points in Kenosha County, Wis. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 129195, filed June 22, 1967. Applicant: TOMMY WEBB AND JUNE WEBB, a partnership, doing business as WEBB MOVING & STORAGE, Route No. 6, Box 474, London, Ky. 40741. Applicant's representative: Louis J. Amato, Central Building, 1033 State Street, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Adair, Bell, Casey, Clay, Clinton, Cumberland, Estill, Floyd, Garrard, Harlan, Jackson, Johnson, Knott, Knox, Laurel, Lee, Leslie, Letcher, Lincoln, Madison, Magoffin, Martin, Menifee, Metcalfe, Monroe, McCreary, Owsley, Perry, Pike, Pulaski, Rockcastle, Russell, Taylor, Wayne, Whitley, and Wolfe Counties, Ky. Restriction: The above operations restricted to shipments having a prior or subsequent movement beyond said counties and further restricted to pickup and delivery service incidental to and in connection with packing, crating, and containerization, or unpacking, uncrating and decontainerization of such shipments. NOTE: If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Nashville, Tenn.

MOTOR CARRIER OF PASSENGERS

No. MC 126454 (Sub-No. 1), filed June 19, 1967. Applicant: STOCK BROS. BUS LINES LIMITED, 37 Stanton Drive, Orillia, Ontario, Canada. Applicant's representative: S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, in special operations, in round-trip sightseeing and pleasure tours, from ports of entry of the international boundary line between the United States and Canada to points in the United States (except Alaska and Hawaii), and on return. NOTE: If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y.

APPLICATION OF FREIGHT FORWARDER

No. FF-139 (Sub-No. 4), Midland Forwarding Corporation Extension—Maine, etc., Filed June 23, 1967. Applicant: MIDLAND FORWARDING CORPORATION, 201 11th Avenue, New York, N.Y. Applicant's representative: Leon Mitchell (same address as applicant). Authority sought under section 410, Part IV of the Interstate Commerce Act to extend operations as a *freight forwarder* in interstate or foreign commerce, through use of the facilities of common carriers by railroad, motor vehicle, water in the transportation of *general commodities*, between points in Maine, Maryland, New Hampshire, Pennsylvania, Rhode Island, and Vermont, on the one hand, and, on the other, points in Louisiana, Tennessee, and Texas.

APPLICATION OF WATER CARRIER

No. W-830 (Sub-No. 2), A. L. Mechling Barge Lines, Inc.—Extension—Mississippi Test Facility, Filed June 26, 1967. Applicant: A. L. MECHLING BARGE LINES, INC., 51 North Desplaines Street, Joliet, Ill. 60431. Applicant's representative: J. Richard Hommrich (same address as applicant). Application of A. L. Mechling Barge Lines, Inc., filed June 26, 1967, for a revised certificate authorizing extension of its operations to include transportation as a *contract carrier* by water by towing vessels in the performance of towage of Government-owned or supplied barges, empty or laden with space vehicles or component parts thereof, (1) between New Orleans, La., including Michoud, La., on the one hand, and, on the other, the Mississippi Test Facility on the Pearl River; and, (2) between the Mississippi Test Facility on the Pearl River, on the one hand, and, Cape Kennedy, Fla., on the other. By way of the Pearl River, the Gulf Intracoastal Waterway, the Atlantic Ocean, and the Atlantic Intracoastal Waterway including operations through the Cross-Florida Waterway.

APPLICATION IN WHICH HANDLING WITHOUT ORAL HEARING HAS BEEN REQUESTED

No. MC 89723 (Sub-No. 49), filed June 15, 1967. Applicant: MISSOURI PACIFIC TRUCK LINES, INC., 210 North 13th Street, St. Louis, Mo. 63103. Applicant's representative: Robert S. Davis (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, from junction U.S. Highway 65 and Arkansas Highway 81 (6 miles southeast of Pine Bluff, Ark.), thence southward over Arkansas Highway 81 to and serving presently authorized point of Monticello, Ark. (closed doors at intermediate points); thence from Monticello, Ark., over Arkansas Highway 81 to and serving presently authorized point of Hamburg, Ark. (closed doors at intermediate points); thence from Hamburg, Ark., over Arkansas Highway 81 to Arkansas-Louisiana State line, thence over Louisiana Highway 139 to junction Louisiana Highway 140 at, but not serving Log Cabin, La. (closed doors at all intermediate points), a total distance of 101 miles, and return over the same route. NOTE: Common control may be involved.

No. MC 128698 (Sub-No. 2), filed June 14, 1967. Applicant: BEVARD BROTHERS, INC., 4600 St. Barnabas Road SE., Washington, D.C. 20031. Applicant's representative: Francis J. Ortman, Suite 770, 1700 Pennsylvania Avenue NW., Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Crushed stone*, from Chantilly, Va., and points within 10 miles thereof, to Washington, D.C., and those points in Prince Georges County, Md., which are not within the Washington, D.C., commercial zone, as described by the Commission, under contract with Prince George Bituminous Co., Inc. NOTE: Applicant states the purpose of this application is to convert its common carrier authority presently held under certificate MC 126664, Sub-No. 1 to a permit.

No. MC 129119 (Sub-No. 1), filed June 20, 1967. Applicant: JOHN H. SANN, doing business as SANN'S

TRUCKING SERVICE, 1572 Annapolis Road, Odenton, Md. 21123. Applicant's representative: Irving J. Raley, 1411 K Street NW., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paint and advertising and promotional material*, not including commodities in bulk, in tank vehicles, and *rejected shipments* on return, from Odenton, Md., to points in New Jersey, Pennsylvania, Delaware, West Virginia, Ohio, Kentucky, Tennessee, Alabama, Mississippi, Indiana, Illinois, Michigan, Wisconsin, and Louisiana, under contract with The American Sta-Dri Co.

By the Commission.

[4th Rev. S.O. 562, Rev. ICC Order 229]

MISSOURI-KANSAS-TEXAS RAILROAD CO.

Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, agent, the Missouri-Kansas-Texas Railroad Co. is unable to transport traffic over its line between Parsons, Kans., and St. Louis, Mo., because of high water.

It is ordered, That:

(a) Rerouting traffic: The Missouri-Kansas-Texas Railroad Co. being unable to transport traffic over its line between Parsons, Kans., and St. Louis, Mo., that carrier and its connections are hereby authorized to reroute or divert such traffic over any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 11:59 p.m., June 30, 1967.

(g) Expiration date: This order shall expire at 11:59 p.m., July 15, 1967, unless otherwise modified, changed or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., June 30, 1967.

[Ex Parte No. 256]

EASTERN AND WESTERN RAILROADS

Increased Freight Rates, 1967

In the matter of June 19, 1967, petition filed by the Eastern and Western Railroads for leave to amend their petition filed May 18, 1967, in the above proceeding.

Present: Laurence K. Walrath, Commissioner, to whom the matters which are the subject of this order have been assigned for action thereon.

Upon consideration of the petition filed by certain respondent railroads in the above proceeding for leave to amend their petition of May 18, 1967, by changing the petitioners shown in Appendices I thereof, and by adding to the tariffs listed in Exception No. 2 to Item 122 on page 38 of said petition, and in Note 7 of page 53 of said petition, "EL Tariff 164, ICC 199" which tariff was inadvertently omitted; and good cause appearing therefor:

It is ordered, That the petition for leave to amend be, and it is hereby, granted.

And it is further ordered, That a copy of this order be filed with the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested parties.

Dated at Washington, D.C., this 26th day of June, A.D. 1967.

By the Commission, Commissioner Walrath.

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 3, 1967.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67, (49 CFR Part 340) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protest must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 29079 (Sub-No. 38 TA), filed June 26, 1967. Applicant: BRADA MILLER FREIGHT SYSTEM INC., 1210 South Union Street, Kokomo, Ind. 46901. Applicant's representative: Edward G. Bazelon, 39 La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except articles of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between the plantsites and warehouses of Rockwell-Standard Corp., at or near Winchester, Ky., on the one hand, and, on the other, points in Illinois, Indiana, Michigan, Ohio, and St. Louis, Mo.; for 180 days. Supporting shipper: Rockwell-Standard Corp., Transmission and Axle Division, Winchester, Ky. 40391. Send protests to: J. H. Gray, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 308 Federal Building, Fort Wayne, Ind. 46802.

No. MC 42406 (Sub-No. 26 TA) (Correction), filed May 29, 1967, published in FEDERAL REGISTER, issue of June 8, 1967, corrected, and republished as corrected, this issue. Applicant: MISTLETOE EXPRESS SERVICE, a corporation, 111 North Harrison, Oklahoma City, Okla. 73125. Applicant's representative: Max Morgan, 450 American National Building, Oklahoma City, Okla. 73102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except Classes A and B explosives), between Wichita, Hutchinson, and Pratt, Kans., as follows: From Wichita over U.S. Highway 81 to Newton, Kans., thence over U.S. Highway 50 to Hutchinson, thence over Kansas Highway 61 to Pratt, thence over U.S. Highway 54 to Wichita, serving all intermediate points and the off-route point of Halstead, Kans., for 180 days. NOTE: Applicant requests the right to tack with its Sub 10 at Wichita and to interline with Beaver Express, MC 117465, at Woodward, Okla., and Morgan Express, MC 120092, at Dallas, Tex. The purpose of this republication is to set forth applicant's intention to tack, previously inadvertently omitted. Supporting shippers: There are 34 shippers' supporting statements attached to application which may be examined at the Interstate Commerce Commission in Washington, D.C., or at the field office named below. Send protests to: C. L. Phillips, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 350, American General Building, 210 Northwest Sixth, Oklahoma City, Okla. 73102.

No. MC 63562 (Sub-No. 46 TA), filed June 26, 1967. Applicant: NORTHERN PACIFIC TRANSPORT COMPANY, 175 East Fifth Street, St. Paul, Minn. 55101. Applicant's representative: Barry McGrath, Northern Pacific Railway Co., Law Department, 1018 Northern Pacific Building, St. Paul, Minn. 55101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Kalispell, Mont., and Missoula, Mont., on the one hand, and, on the other, the Swan River Youth Forest Camp, at or near Goat Creek, located approximately 47½ miles southeast of Kalispell, Mont., on Montana Highway 209; for 180 days. NOTE: Applicant states that it intends to tack with authority under MC 63562 and subs thereunder. Supporting shipper: There are 7 shippers' supporting statements attached to application, which may be examined at the Interstate Commerce Commission, in Washington, D.C., or at the field office named below. Send protests to: A. E. Rathert, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building and U.S. Courthouse, 110 South Fourth Street, Minneapolis, Minn. 55401.

No. MC 93235 (Sub-No. 5 TA), filed June 29, 1967. Applicant: INDIANA TRUCKING, INC., 425 East Chicago Avenue, East Chicago, Ind. 46312. Applicant's representative: Eugene L. Cohn, 1 North La Salle Street, Chicago, Ill. 60602. Authority sought to operate as a *contract carrier*, by motor vehicle over irregular routes, transporting: *Castings, forgings, finished machine parts, truck cabs and parts, materials, and supplies* used in the manufacture, processing, or sale of motor trucks, between points in the Chicago, Ill., commercial zone, and Butler, Ind.; for 180 days. Supporting shipper: Hendrickson Manufacturing Co., Motor Truck Division, 3001 West 47th Street, Lyons, Ill. 60534. Send protests to: J. H. Gray, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 308 Federal Building, Ft. Wayne, Ind. 46802.

No. MC 107403 (Sub-No. 723 TA), filed June 28, 1967. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flour*, in bulk, in tank vehicles, from Washington, D.C., to Allentown, Pa.; for 180 days. Supporting shipper: Wilkins-Rogers Milling Co., Inc., 3261 K Street NW., Washington, D.C. Send protests to: Ross A. Davis, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 900 U.S. Customhouse, Second and Chestnut Streets, Philadelphia, Pa. 19106.

No. MC 107515 (Sub-No. 578 TA), filed June 29, 1967. Applicant: REFRIGERATED TRANSPORT CO., INC., 3901 Jonesboro Road SE., Post Office Box 10799, Station A, Atlanta, Ga. 30310. Applicant's representative: E. L. Gundlach (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Buffalo, N.Y., to points in Michigan, Ohio, Indiana, and Illinois; for 180 days. Supporting shipper: Rich Products Corp., 1145 Niagara Street, Buffalo, N.Y. 14213. Send protests to: William L. Scroggs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 680 West Peachtree Street NW., Atlanta, Ga. 30308.

No. MC 108449 (Sub-No. 265 TA), filed June 29, 1967. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, Minn. 55113. Applicant's representative: W. A. Mylenbeck (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Silica sand*, in bulk, from Minneapolis, Minn., to Superior, Wis.; for 180 days. Supporting shipper: Minnesota Silica Sand Co., 43d Avenue NE. and N.P. Tracks, Minneapolis, Minn., 55421. Send protests to: A. E. Rathert, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building and U.S. Courthouse, 110 South Fourth Street, Minneapolis, Minn. 55401.

No. MC 108449 (Sub-No. 266 TA), filed June 29, 1967. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, Minn. 55113. Applicant's representative: W. A. Mylenbeck (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acids and chemicals*, in bulk, from Port Edwards, Wis., to points in Illinois, Indiana, Iowa, Michigan, and Minnesota; for 180 days. Supporting shipper: Wyandotte Chemicals Corp., Wyandotte, Mich. 48192. Send protests to: A. E. Rathert, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building and U.S. Courthouse, 110 South Fourth Street, Minneapolis, Minn. 55401.

No. MC 110525 (Sub-No. 67 TA), filed June 29, 1967. Applicant: RINGER TRANSPORT, INC., 405 South Grant, Post Office Box 591, Fowler, Ind. 47944. Applicant's representative: Charles Singer, 33 North Dearborn Street, Chicago, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the plantsite of American Home Foods at La Porte, Ind., to points in Illinois, Kentucky, Michigan, Ohio, and Wisconsin; and *damaged and rejected shipments* on return; for 180 days. Supporting shipper: American Home Foods, Division of American Home Products Corp., 685 Third Avenue, New York, N.Y. 10017. Send protests to: J. H. Gray, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 308 Federal Building, Fort Wayne, Ind. 46802.

No. MC 110988 (Sub-No. 240 TA), filed June 28, 1967. Applicant: KAMPO TRANSIT, INC., 200 West Cecil Street,

Neenah, Wis. 54957. Applicant's representative: David A. Petersen (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acids and chemicals*, in bulk, in tank vehicles, from Port Edwards, Wis., to points in Illinois, Indiana, Iowa, Michigan, and Minnesota; for 180 days. Supporting shipper: Wyandotte Chemicals Corp., Wyandotte, Mich. 48192 (William H. Wright, Transportation Manager). Send protests to: W. F. Sibbald, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 119195 (Sub-No. 9 TA) (Correction), filed May 29, 1967, published in FEDERAL REGISTER, issue of June 7, 1967, corrected, and republished as corrected, this issue. Applicant: CHARLES S. ROGERS, JR., AND EDNA ROGERS, a partnership, doing business as ROGERS TRUCKING, Old Country Road, Monroe, N.Y. 10950. Applicant's representative: Vincent M. Brennan, Central Valley, N.Y. 10917. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is distributed by premium stamp redemption centers*, for the account of Stop and Save Trading Stamp Corp., from South Hackensack, N.J., to points in Orange, Ulster, Greene, and Dutchess Counties, N.Y.; for 150 days. NOTE: Applicant states that it intends to tack with authority held under MC 119195 (Sub-No. 7). The purpose of this republication is to set forth applicant's intention to tack, previously inadvertently omitted. Supporting shipper: Stop and Save Trading Stamp Corp., 125 Phillips Avenue, South Hackensack, N.J. 07606. Send protests to: Charles F. Jacobs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 215–217 Post Office Building, Binghamton, N.Y. 13902.

No. MC 129149 (Sub-No. 1 TA) (Amendment), filed June 12, 1967, published in FEDERAL REGISTER, issue of June 21, 1967, amended, and republished as amended, this issue. Applicant: ELLIS HAINES, doing business as HAINES TRUCK LINES, 906 Washington Street, Bushnell, Ill. 61422. Applicant's representative: Robert T. Lawley, 306–308 Reisch Building, Springfield, Ill. 62701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Gravity flow wagon boxes and component parts thereof*, from Bushnell, Ill., to points in Iowa, Indiana, Kansas, Missouri, Michigan, Minnesota, Nebraska, and Ohio; for the account of Bushnell Illinois Tank Co., Bushnell, Ill.; for 180 days. NOTE: The purpose of this republication is to add the destination State of Ohio. Supporting shipper: Bushnell Illinois Tank Co., 110 East Davis Street, Bushnell, Ill. 61422. Send protests to: Raymond E. Mauk, District Supervisor, Bureau of Operations, Interstate Commerce Commission, U.S. Courthouse and Federal Office Building, Room 1086, 219 South Dearborn Street, Chicago, Ill. 60604.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary*.

[Notice 4]

MOTOR CARRIER TRANSFER PROCEEDINGS

JULY 3, 1967.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 279), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–69319. By order June 28, 1967, the Transfer Board approved the transfer to Jackson Distribution Corp., a corporation, Syracuse, N.Y., of permit No. MC–18259, issued June 22, 1943, to B. H. Transportation Co., Inc., Syracuse, N.Y., authorizing the transportation of: Such merchandise as is dealt in by wholesale, retail, and chain grocery and food business houses, and in connection therewith, equipment, materials, and supplies used in the conduct of such business, between points within a specified territory in central and western New York. Carl F. Guy, 103 Seitz Building, Syracuse, N.Y. 13202, attorney for applicants.

No. MC–FC–69661. By order of June 28, 1967, the Transfer Board approved the transfer to D & O Transport, Inc., Yakima, Wash., of certificates Nos. MC–123766 (Sub-No. 1), and MC–123766 (Sub-No. 4), issued June 27, 1963, and November 8, 1965, respectively, to Donald L. Werst and Orville Charley, a partnership, doing business as D & O Transport, Yakima, Wash., authorizing the transportation of box shook, over irregular routes, from the plantsite of the Chelan Box Manufacturing Co. near Manson, Wash., to points in California, Idaho, and Montana, and specified points in Oregon. E. F. Velikanje, Suite 4, Yakima Legal Center, 303 East D Street, Yakima, Wash. 98901, attorney for applicants.

No. MC–FC–69669. By order of June 28, 1967, the Transfer Board approved the transfer to James E. Tolsma, doing business as Dawes Truck & Dray Line, Springfield, S. Dak., of the operating rights of Fred E. Dawes, doing business as Dawes Truck & Dray Line, Springfield, S. Dak., in certificate No. MC–81354, issued March 15, 1941, authorizing the transportation, over regular routes, of general commodities, except household goods, commodities in bulk, and other specified commodities, between Springfield, S. Dak., and Sioux City, Iowa, and of household goods, over irregular routes, between Springfield, S. Dak., and points within 20 miles of Springfield, on the one hand, and, on the other, points in Iowa, Minnesota, and Nebraska. Ray E. Post, Tyndall, S. Dak. 57066, attorney for applicants.

No. MC–FC–69709. By order of June 28, 1967, the Transfer Board approved the transfer to Helen E. Sappington, doing business as Sam Sappington, Terre Haute, Ind., of certificate No. MC–88959, issued December 11, 1947, to Samuel V. Sappington, doing business as Sam Sappington, Terre Haute, Ind., authorizing the transportation of household goods, as defined in 17 M.C.C. 467, over irregular routes, between Terre Haute, Ind., and points and places within 75 miles thereof, on the one hand, and, on the other, points and places in Illinois, Indiana, Kentucky, Michigan, Missouri, Ohio, Iowa, Arkansas, Tennessee, West Virginia, and Pennsylvania. Donald W. Smith, 511 Fidelity Building, Indianapolis, Ind. 46204, attorney for applicants.

No. MC–FC–69717. By order of June 28, 1967, the Transfer Board approved the transfer to N & I Express, Inc., Middleburg, N.Y., of the operating rights in certificate No. MC–76257 issued June 26, 1950, to Niles C. Tanner and Raymond C. Seoville, doing business as N. & I. Express, Middleburg, N.Y., authorizing the transportation of: General commodities, with the usual exceptions, between specified points in New York. John J. Brady, Jr., 75 State Street, Albany, N.Y. 12207, attorney for applicants.

No. MC–FC–69735. By order of June 28, 1967, the Transfer Board approved the transfer to Lopes Freight Service, Inc., New Orleans, La., of the certificate of registration in No. MC–57734 (Sub-No. 1), issued October 22, 1963, to Raymond P. Lopes, doing business as Lopes Freight Service, New Orleans, La., evidencing a right to engage in transportation in interstate or foreign commerce solely within the State of Louisiana, corresponding in scope to the service authorized by certificate No. 231 dated February 24, 1941, issued by the Louisiana Public Service Commission. George V. Knaumann, 1728 Howard Avenue, New Orleans, La., representative for applicants.

[SEAL] H. NEIL GARSON, *Secretary*.

Order from Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue (15 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1967, and specifies how they are affected.

Title 3—THE PRESIDENT

Proclamation 3791

WORLD LAW DAY, 1967

By the President of the United States of America
A Proclamation

Our Nation is committed to the Rule of Law. A government of laws, rather than of men, is the very essence of our society.

The Rule of Law, in our tradition, demands that

—Men be entitled to the government and the representatives of their choice.

—No citizen be above the law.

—Justice be administered by an independent judicial system.

—Disputes be fairly resolved by peaceful means.

We wish that relations among nations, as among individual citizens, were always governed by the Rule of Law—that disputes among nations were always adjudicated peacefully—that nations could learn to live with their differences as law-abiding neighbors.

One step in making this vision a reality is the joining together of the best judicial and legal minds of many nations. Many men of such eminence will assemble in Geneva on July 10, 1967, for the World Conference of World Peace Through Law. While other meetings will command more headlines, none will meet for a more important purpose.

It is especially fitting in these times of strife that we salute those who seek to establish the Rule of Law as a standard for the world.

Our best wishes are with this conference, as it assembles to promote the role of law and legal institutions in the resolution of international disputes and the maintenance of world peace. We join our fellow men throughout the world in reaffirming our commitment to the principles of international justice—and our hope that all men may find the wisdom to implement them.

NOW, THEREFORE, I, LYNDON B. JOHNSON, President of the United States of America, in order to advance the great goal of achieving and securing world peace, do hereby proclaim July 10, 1967, as World Law Day, and I call upon all public and private officials, members of the legal profession, citizens, and all men of good will to demonstrate the importance of the law in mankind's quest for world peace by appropriate observances and ceremonies in courts, schools, universities, and other public places.

IN WITNESS WHEREOF, I have hereunto set my hand this third day of July in the year of our Lord nineteen hundred and sixty-seven, and of the Independence of the United States of America the one hundred and ninety-first.

[F.R. Doc. 67-7971; Filed, July 7, 1967; 10:35 a.m.]

Executive Order 11359A

ADDING THE SECRETARY OF TRANSPORTATION TO THE MEMBERSHIP OF THE PRESIDENT'S COUNCIL ON RECREATION AND NATURAL BEAUTY

By virtue of the authority vested in me as President of the United States, Executive Order No. 11278 of May 4, 1966, entitled "Establishing a President's Council and a Committee on Recreation and Natural Beauty", is hereby amended as follows:

(1) By inserting in section 101(a) thereof, after "the Secretary of Housing and Urban Development,", the following: "the Secretary of Transportation,".

(2) By substituting for "and the Secretary of Housing and Urban Development,", in section 101(b) thereof, the following: "the Secretary of Housing and Urban Development, and the Secretary of Transportation,".

Lyndon B. Johnson

THE WHITE HOUSE,
June 29, 1967.

Rules and Regulations

Title 7—AGRICULTURE

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Orange Reg. 56]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, including Temple and Murcott Honey oranges, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on June 21, 1967, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this regulation, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges, and compliance with this regulation will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

§ 905.494 Orange Regulation 56.

(a) *Order.* (1) Orange Regulation 55 (31 F.R. 15189, 15584, 32 F.R. 4567, 8761, 9081) is hereby terminated July 10, 1967.

(2) During the period July 10, 1967, through September 10, 1967, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any oranges, except Temple and Murcott Honey oranges, grown in the production area, which do not grade at least U.S. No. 2, Russet; or

(ii) Any oranges, except Temple and Murcott Honey oranges, grown in the production area, which are of a size smaller than 2⅛ inches in diameter, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the U.S. Standards for Florida Oranges and Tangelos: *Provided*, That in determining the percentage of oranges in any lot which are smaller than 2⅛ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size 2⁹⁄₁₆ inches in diameter or smaller.

(3) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the applicable meaning given to the respective term in the U.S. Standards for Florida Oranges and Tangelos (7 CFR 51.1140–51.1178).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 6, 1967.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-7959; Filed, July 7, 1967; 8:49 a.m.]

[Valencia Orange Reg. 210]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.510 Valencia Orange Regulation 210.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and

compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 6, 1967.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period July 9, 1967, through July 15, 1967, are hereby fixed as follows:

(i) District 1: 150,000 cartons;

(ii) District 2: 350,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 7, 1967.

F. L. SOUTHERLAND,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67–7975; Filed, July 7, 1967; 11:40 a.m.]

[Lemon Reg. 275]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.575 Lemon Regulation 275.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 5, 1967.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period July 9, 1967, through July 15, 1967, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 325,500 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 7, 1967.

F. L. SOUTHERLAND,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67–7974; Filed, July 7, 1967; 11:40 a.m.]

[Avocado Reg. 15, Amdt. 1]

PART 944—FRUIT; IMPORT REGULATIONS

Avocados

Pursuant to the provisions of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), the provisions of paragraph (a) of § 944.7 (Avocado Reg. 15; 32 F.R. 7245) are hereby amended to read as follows:

§ 944.7 Avocado Regulation 15.

(a) On and after the effective time of this section, the importation into the United States of any avocados is prohibited unless such avocados are inspected and meet the following requirements:

(1) All avocados imported during the period May 20, 1967, through April 30, 1968, shall grade not less than U.S. No. 3.

(2) Avocados of the Pollock variety shall not be imported prior to July 10, 1967, and from July 10, 1967, through July 30, 1967, shall not be imported unless the individual fruit in each lot of such avocados weighs at least 18 ounces or measures at least 3 11/16 inches in diameter;

* * * * *

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective time of this regulation beyond that hereinafter specified (5 U.S.C. 553) in that (a) the requirements of this amended import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), which makes such regulation mandatory; (b) such regulation imposes the same grade and comparable maturity requirements on imports of avocados as are being made applicable to the shipment of avocados grown in Florida under Avocado Regulation 9, as amended, which becomes effective July 10, 1967; (c) such domestic and import restrictions should become effective at as near the same time as practicable; (d) compliance with this import regulation will not require any special preparation which cannot be completed by the effective time hereof; (e) notice hereof in excess of 3 days, the minimum prescribed by said section 8e, is given with respect to this import regulation, insofar as it imposes added restrictions and (f) such notice is hereby determined, under the circumstances, to be reasonable.

Dated: July 7, 1967, to become effective July 10, 1967.

F. L. SOUTHERLAND,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

1421.2283 Maturity of loans.
1421.2284 Support rates and discounts.

AUTHORITY: The provisions of this subpart issued under sec. 4, 62 Stat. 1070 as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 105, 401, 63 Stat. 1051 as amended; 15 U.S.C. 714c, 7 U.S.C. 1421, 1441.

§ 1421.2281 Availability.

A producer desiring a price support loan must request a loan on his eligible barley on or before April 30, 1968, on barley stored in Alaska, Idaho, Minnesota, Montana, North Dakota, Oregon, South Dakota, Washington, Wisconsin, and Wyoming, and on or before March 31, 1968, on barley stored in all other States. To obtain price support through a sale to CCC, a producer must give the appropriate ASCS county office notice of his intent to sell his eligible barley to CCC on or before May 31, 1968, for barley stored in the States named in this section and on or before April 30, 1968, for barley stored in all other States.

§ 1421.2282 Warehouse charges.

Subject to the provisions of § 1421.2269, the schedules of deductions set forth in this section shall apply to barley stored in an approved warehouse operating under the Uniform Grain Storage Agreement and operated by an Eastern common carrier.

(a) *Warehouses approved under the Uniform Grain Storage Agreement.*

SCHEDULE OF DEDUCTIONS FOR STORAGE CHARGES BY MATURITY DATES

Maturity date of April 30, 1968	Deduction (cents per bushel)	Maturity date of May 31, 1968
(1)		(1)
Prior to May 17, 1967	12	Prior to June 17, 1967.
May 17–June 13, 1967	12	June 17–July 14, 1967.
June 14–July 11, 1967	11	July 15–Aug. 11, 1967.
July 12–Aug. 8, 1967	10	Aug. 12–Sept. 8, 1967.
Aug. 9–Sept. 5, 1967	9	Sept. 9–Oct. 6, 1967.
Sept. 6–Oct. 3, 1967	8	Oct. 7–Nov. 3, 1967.
Oct. 4–Oct. 31, 1967	7	Nov. 4–Dec. 1, 1967.
Nov. 1–Nov. 28, 1967	6	Dec. 2–Dec. 29, 1967.
Nov. 29–Dec. 26, 1967	5	Dec. 30, 1967–Jan. 26, 1968.
Dec. 27, 1967–Jan. 23, 1968	4	Jan. 27–Feb. 23, 1968.
Jan. 24–Feb. 20, 1968	3	Feb. 24–Mar. 22, 1968.
Feb. 21–Mar. 19, 1968	2	Mar. 23–Apr. 19, 1968.
Mar. 20–Apr. 30, 1968	1	Apr. 20–May 31, 1968.

(1) Date storage charges start, all dates inclusive.

(b) *Warehouses operated by Eastern common carriers.* (1) Eligible barley stored in the following approved Eastern common carrier warehouses may be placed under loan or offered for sale to CCC: (i) Canadian National Railway Co., Portland Elevator, Warehouse Code 9–2101, Portland, Maine, and (ii) Pennsylvania Railroad Co. Canton Elevator, Warehouse Code 9–2151, Baltimore, Md.

(2) Schedule of deductions for storage charges:

Maturity date of April 30, 1968 (1)	Deduction (cents per bushel) (2)
Prior to June 26, 1967	16
June 26–July 15, 1967	15
July 16–Aug. 4, 1967	14
Aug. 5–Aug. 24, 1967	13
Aug. 25–Sept. 13, 1967	12
Sept. 14–Oct. 3, 1967	11
Oct. 4–Oct. 23, 1967	10
Oct. 24–Nov. 12, 1967	9
Nov. 13–Dec. 2, 1967	8
Dec. 3–Dec. 22, 1967	7
Dec. 23, 1967–Jan. 11, 1968	6
Jan. 12–Jan. 31, 1968	5
Feb. 1–Feb. 20, 1968	4
Feb. 21–Mar. 11, 1968	3
Mar. 12–Mar. 31, 1968	2
Apr. 1–Apr. 30, 1968	1

(1) Storage commence date, all dates inclusive.

(2) Charges shall be reduced by 2 cents per bushel if producer presents evidence that elevation charges were prepaid.

§ 1421.2283 Maturity of loans.

Loans mature on demand but not later than: May 31, 1968, on barley stored in the States of Alaska, Idaho, Minnesota, Montana, North Dakota, South Dakota, Oregon, Washington, Wisconsin, and Wyoming and April 30, 1968, on barley stored in all other States.

§ 1421.2284 Support rates and discounts.

(a) *Basic support rates (terminals).* Basic support rates for loan and settlement purposes for grade No. 2 or better barley stored in approved warehouses at the terminal markets listed below are as follows:

Terminal market	Rate per bushel
Atchison, Kans.	$1.09
Kansas City, Mo.	1.09
Saint Joseph, Mo.	1.09
Omaha, Nebr.	1.07
Sioux City, Iowa	1.07
Minneapolis, Minn.	1.10
Duluth, Minn.	1.10
Superior, Wis.	1.10

(c) *Discounts.* The basic support rate shall be adjusted as applicable by discounts as follows:

Reason:	Discount (cents per bushel)
Class—Mixed Barley	2
Grade:	
No. 3	3
No. 4	6
No. 5	15
Total damage (percent):	
10.1–11	1
11.1–12	2
12.1–13	3
13.1–14	4
14.1–15	5
15.1–16	6
16.1–17	7
17.1–18	8
18.1–19	9
19.1 and above	10
Garlicky	10
Weed Control Law (where required by § 1421.74)	10

Other factors: CCC may establish discounts for other quality factors not specified above which affect the value of the barley, such as (but not limited to) thin barley, moisture, foreign material, test weight, heat damage, musty, sour, smutty, stained, weevily, ergoty, and bleached. The discounts established will be based upon the market discounts for the factors at the time the barley is delivered to CCC, as determined by CCC. Producers may obtain schedules of such factors and discounts at ASCS county offices approximately one month prior to the loan maturity date.

Note: Discounts are cumulative except only one grade discount shall be applied. The discounts for total damage in excess of 10 percent are in addition to the discount of 15 cents for barley grading No. 5. For the purpose of applying discounts, factors which cause barley of the subclass Malting Barley or Blue Malting Barley to have a lower numerical grade than if the barley were graded under a different subclass shall be disregarded.

Effective date: Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on June 29, 1967.

H. D. GODFREY,
Executive Vice President,
Commodity Credit Corporation.

[OCC Grain Price Support Regs., 1966 and Subsequent Crops Rice Supp. Amdt. 1]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1966 and Subsequent Crops, Rice Loan and Purchase Program

COMPLIANCE REQUIREMENTS AND DETERMINATION OF QUANTITY

The regulations issued by the Commodity Credit Corporation, published in

31 F.R. 8346 and setting forth requirements with respect to price support for the 1966 and subsequent crops of rice, are hereby amended as follows:

1. Section 1421.2753 is amended to restate price support compliance provisions and reads as follows:

§ 1421.2763 Compliance requirements.

An eligible producer shall be a producer on whose farm the rice acreage allotment established for the farm under the provisions of the Rice Acreage Allotment Regulations of Part 730 of this title has not been knowingly exceeded. If the farm is determined to be in compliance with the farm rice acreage allotment under the provisions of Parts 718 and 730 of this title, the farm rice acreage allotment will not be considered to have been knowingly exceeded. If a producer has an interest in a rice crop produced on more than one farm in the same county, he must also, in order to be eligible for price support, be entitled to market rice produced on each such farm as penalty free rice under the provisions of the Rice Marketing Quota Regulations of Part 730 of this title and any amendments thereto. If a producer is engaged in the production of rice in more than one county (in the same State or in two or more States) and the requirements of Rice Marketing Quota Regulations of Part 730 of this title, and any amendments thereto, are applied to such multiple farming unit, he must also, in order to be eligible for price support, be entitled to market rice produced on each such farm, wherever situated, as penalty free rice under the provisions of such regulations. Notwithstanding the provisions of this section, rice produced on a farm shall be considered as available for marketing as penalty free rice for price support purposes if such rice was produced on a farm for which a certification is furnished under § 718.21(f) of this title of the Determination of Acreage and Compliance Regulations and subsequent measurement of the rice acreage on such farm indicates that the acreage planted in excess of the farm rice acreage allotment does not exceed the larger of 0.5 of an acre, or 5 percent of the farm rice acreage allotment but not to exceed 15 acres.

2. Section 1421.2765(a)(2) is amended to provide for expressing weights in whole units of 100 pounds and reads as follows:

§ 1421.2765 Determination of quantity.

(a) *In warehouse.*

* * * * *

(2) *Identity preserved or modified commingled.* The amount of a loan on the quantity of eligible rice stored identity preserved or modified commingled in an approved warehouse shall be based on a percentage, as determined by the State committee, of the weight specified on the warehouse receipt representing such rice which is pledged as security for the loan, or on the supplemental certificate if applicable. Such percentage shall not exceed 95 percent of the weight so specified. The State committee's determination shall be made on a statewide basis or for specified areas within the State. The county committee may lower such percentage on an individual basis when determined to be in the best interest of CCC. Weights determined on the basis of such percentages shall be expressed in terms of whole units of 100 pounds.

* * * * *

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 62 Stat. 1051, as amended, 1064, sec. 302, 72 Stat. 968; 15 U.S.C. 714c, 7 U.S.C. 1421, 1441)

Effective date: Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on July 3, 1967.

E. A. JAENKE,
Acting Executive Vice President, Commodity Credit Corporation.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C-1216]

PART 13—PROHIBITED TRADE PRACTICES

Continental Scarf Corp., Inc., et al.

Subpart—Importing, selling, or transporting flammable wear: § 13.1060; Importing, selling, or transporting flammable wear.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 67 Stat. 111, as amended; 15 U.S.C. 45, 1191) [Cease and desist order, Continental Scarf Corp., Inc., trading as Continental Scarf & Novelty Co., New York, N.Y., Docket C-1216, June 16, 1967]

In the Matter of Continental Scarf Corp., Inc., a corporation, and Isaac M. Topol, Individually, as an Officer of said Corporation, and Trading as Continental Scarf & Novelty Co.

Consent order requiring a New York City manufacturer of wearing apparel to cease importing and selling scarves and other items made from dangerously flammable fabrics.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That the respondents Continental Scarf Corp., Inc., a corporation, and its officers, and Isaac M. Topol, individually, as an officer of said corporation, and trading as Continental Scarf & Novelty Co., or under any other name or names, and respondents' representatives, agents and employees, directly or through any corporate or other device, do forthwith cease and desist from:

1. (a) Importing into the United States; or

(b) Manufacturing for sale, selling, offering for sale, introducing, delivering for introduction, transporting or causing to be transported in commerce, as "commerce" is defined in the Flammable Fabrics Act; or

(c) Transporting or causing to be transported, for the purpose of sale or delivery after sale in commerce;

Any article of wearing apparel which, under the provisions of section 4 of the Flammable Fabrics Act, as amended, is so highly flammable as to be dangerous when worn by individuals.

2. Manufacturing for sale, selling, or offering for sale any article of wearing apparel made of fabric, which fabric has been shipped or received in commerce, and which under section 4 of the Act, as amended, is so highly flammable as to be dangerous when worn by individuals.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 16, 1967.

By the Commission.

[SEAL] JOSEPH W. SHEA,
Secretary.

[F.R. Doc. 67-7865; Filed, July 7, 1967; 8:46 a.m.]

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER F—ENROLLMENT

PART 41—PREPARATION OF ROLLS OF INDIANS

Requirements for Enrollment and Deadlines for Filing Applications

That portion of Part 41 of Title 25 of the Code of Federal Regulations regulating the preparation of a roll of Tlingit and Haida Indians of Alaska, authorized by the Act of June 19, 1935 (49 Stat. 388), as amended by the Act of August 19, 1965 (79 Stat. 543), is amended to extend the deadline date for filing applications for enrollment with the Tlingit and Haida Indians of Alaska to December 31, 1967.

In § 41.3, paragraph (b) is revised to read as follows:

§ 41.3 Qualifications for enrollment and the deadline for filing applications.

* * * * *

(b) Tlingit and Haida Tribes in Alaska: All persons of Tlingit or Haida Indian blood residing in the various local communities or areas in the United States or Canada on August 19, 1965, shall be eligible for enrollment provided they were legal residents of the Territory of Alaska on June 19, 1935, or prior thereto, or they are descendants of persons of Tlingit or Haida Indian blood who were legal residents of the Territory of Alaska on June 19, 1935, or prior thereto. Applications for enrollment must be postmarked no later than December 31, 1967.

* * * * *

No further changes are made in the text of Part 41.

Notice of proposed rule making would cause undue delay in the preparation of the roll and would be contrary to the public interest. Therefore, notice and public procedure imposed by section 4 of the Administrative Procedure Act of June 11, 1946 (5 U.S.C. 1003), are dispensed with under the exceptions provided in that section. Accordingly, this amendment shall become effective on June 30, 1967.

CHARLES F. LUCE,
Acting Secretary of the Interior.

JUNE 30, 1967.

Title 31—MONEY AND FINANCE: TREASURY

Subtitle A—Office of the Secretary of the Treasury

PART 1—DISCLOSURE OF RECORDS

Correction

In F.R. Doc. 67-7610, appearing in the issue for Saturday, July 1, 1967, at page 9562, make the following changes:

1. In amendatory paragraph 3, the last word in line 4, and all of line 5, should read "constituting Part 1 to read as follows:".

2. In the authority citation, insert "5" preceding "U.S.C.".

3. In § 1.4(d), line 3, the word "from" should read "room".

Title 29—LABOR

Chapter I—National Labor Relations Board

PART 101—STATEMENTS OF PROCEDURE, SERIES 8

Miscellaneous Amendments

Correction

In F.R. Doc. 67-7411, appearing in the issue for Saturday, July 1, 1967, at page 9547, make the following change: In § 101.9(c)(2), line 17, should read "agreement to the board, the charging".

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Amdt. 8]

PART 101—ADMINISTRATION

Miscellaneous Amendments

Part 101 of Title 13 of the Code of Federal Regulations is hereby amended by adding a new § 101.4 thereto. The new § 101.4 reads as follows:

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 6361; Amdt. 39-442]

PART 39—AIRWORTHINESS DIRECTIVES

British Aircraft Corporation Model BAC 1-11 200 and 400 Series Airplanes

There has been a failure of the rudder pedal reach lock unit spring housing during flight on a BAC 1-11 airplane. The rudder pedal reach lock unit spring housing failed circumferentially at its lower end allowing the spring and locking plunger to move downwards leaving the pedals unlocked. Since failures are likely to occur in other airplanes of the same type, an airworthiness directive is being issued to require periodic inspection of the housing and the lock unit assembly until the incorporation of BAC 1-11 Modification PM 2946.

In view of the possible seriousness of an inflight failure of the rudder pedal reach lock unit spring housing, a situation exists that requires immediate adoption of this regulation, and it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BRITISH AIRCRAFT. Applies to Model BAC 1-11 200 and 400 Series airplanes.

Compliance required as indicated.

To prevent failure of the rudder pedal reach adjuster lock unit housing P/N AB32-509, accomplish the following:

(a) Within the next 50 hours' time in service after the effective date of this AD, unless already accomplished within the last 200 hours' time in service, and thereafter at intervals not to exceed 250 hours' time in service from the last inspection, visually inspect the rudder pedal reach adjuster lock unit housing P/N AB32-509 for cracks in accordance with British Aircraft Corporation BAC 1-11 Alert Service Bulletin No. 27-A-PM 2946, Issue 1, or later ARB-approved issue. Cracked housings must be replaced before further flight with an unused or serviceable housing having the same part number or with a new housing P/N AB32-9011 and locking plunger P/N AB32-9013 in accordance with BAC 1-11 Service Bulletin No. 27-PM 2946, or later ARB-approved issue, or FAA-approved equivalent.

(b) If no cracks are detected during the inspection required by paragraph (a), lubricate the housing and conduct a functional check of the lock unit assembly in accordance with BAC 1-11 Alert Service Bulletin No. 27-A-PM 2946 or later ARB-approved issue. Correct defects found before further flight.

(c) Within the next 1,200 hours' time in service after the effective date of this AD, replace rudder pedal reach adjuster lock unit housing P/N AB32-509 with new housing P/N AB32-9011 and locking plunger P/N AB32-9013 in accordance with BAC 1-11 Service Bulletin No. 27-PM 2946, or later ARB-approved issue, or FAA-approved equivalent.

(d) The repetitive inspections required by paragraph (a) and the functional checks required by paragraph (b) may be discontinued after the new housing P/N AB32-9011 and locking plunger P/N AB32-9013 are installed in accordance with paragraph (a) or (c) of this AD.

This amendment becomes effective July 13, 1967.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on June 30, 1967.

R. S. SLIFF,
Acting Director,
Flight Standards Service.

[F.R. Doc. 67-7872; Filed, July 7, 1967; 8:46 a.m.]

[Airspace Docket No. 67-WE-40]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The Department of the Navy will decommission the Oak Harbor Seaplane Base, Whidbey Island, Wash., approximately July 1967; thus, the portion of the Whidbey Island, Wash., control zone designated to protect aircraft operating to and from the Oak Harbor Seaplane Base and the Coupeville Airport, Coupeville, Wash., will no longer be required. Additionally, the Whidley Island (AL-451 USN) TACAN approach has been revised to permit a 1.5 SM reduction in the control zone extension north of Whidbey Island. An ADF approach has also been developed that will require a 3 SM control zone extension 2 miles each side of the 283° T bearing from the Whidbey Island RBN. The above actions will necessitate an amendment to the Whidbey Island, Wash., control zone, and action is taken herein to accomplish this purpose.

Since this amendment is minor in nature, is less restrictive than the present airspace designation, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., September 14, 1967, as hereinafter set forth:

In § 71.171 (32 F.R. 2145) the Whidbey Island, Wash., control zone is amended as follows:

WHIDBEY ISLAND, WASH.

Within a 5-mile radius of Ault Field, Whidbey Island, Wash. (latitude 48°21'10" N., longitude 122°39'20" W.), within 2 miles each side of the Whidbey Island TACAN 350° radial, extending from the 5-mile radius zone to 6 miles north of the TACAN, and within 2 miles each side of the 283° bearing from the Whidbey Island RBN, extending from the 5-mile radius zone to 8 miles west of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, as amended; 72 Stat. 749; 49 U.S.C. 1348)

Issued in Los Angeles, Calif., on June 29, 1967.

A. E. HOMMING,
Acting Director, Western Region.

[F.R. Doc. 67-7877; Filed, July 7, 1967; 8:47 a.m.]

[Docket No. 67-SW-11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

Correction

In F.R. Doc. 67-6533 appearing at page 8709 of the issue for Saturday, June 17, 1967, the latitude reading "31°08'00" N" in the fifteenth line of the Jasper, Tex., transition area designation is corrected to read "31°07'00" N."

[Airspace Docket No. 66-EA-96]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

On page 1086 of the FEDERAL REGISTER for January 31, 1967, the Federal Aviation Administration published a rule under Airspace Docket No. 66-EA-96 which altered the control zone for Manchester, N.H., by converting it to a part-time control zone for the hours 0700 to 2300 hours.

Due to requests from the State of New Hampshire and users of the Manchester Airport, the effective date of the conversion to a part-time control zone has been postponed until July 1, 1967, through several intervening airspace actions. It is now apparent that the State of New Hampshire is in a position to continue the operation of the control tower on a full time basis until at least January 1, 1968, at which time this matter will be reviewed again. Thus, it seems appropriate to delete all reference to a part-time control zone.

Since this amendment requires the deletion of an effective date of July 1, 1967, and to avoid any confusion immediate action is required and notice and public procedure hereon are impracticable and good cause exists for making this amendment effective on less than 30 days notice.

In view of the foregoing the following rule is hereby adopted effective upon publication in the FEDERAL REGISTER.

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete in the description of the Manchester, N.H., control zone all after

and including the words "on and after * * *"

2. Delete item 2 of the original notice of proposed rule making and the rule as originally published on January 31, 1967.

(Sec. 307(a) of the Federal Aviation Act of 1958; 72 Stat. 749; 49 U.S.C. 1348)

Issued in Jamaica, N.Y., on June 30, 1967.

WAYNE HENDERSHOT,
Acting Director, Eastern Region.

[F.R. Doc. 67-7958; Filed, July 7, 1967; 8:49 a.m.]

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

[Docket No. R-338; Order 351]

PART 1—RULES OF PRACTICE AND PROCEDURE

PART 3—ORGANIZATION; OPERATION; INFORMATION AND REQUESTS; ETHICAL STANDARDS

Public Information, Organization and Method of Operation

JULY 3, 1967.

Following enactment of Public Law 89-487, an Act to amend section 3 of the Administrative Procedure Act to clarify and protect the right of the public to information (80 Stat. 250, recodified by P.L. 90-23, 81 Stat. 54), the Commission has reviewed its existing rules, regulations, practice and procedures relating to the availability to the public of material in its files. Our review disclosed that the existing practices with respect to the release of information substantially accord with the revised section 3. We are revising our rules on public records (§ 1.36 (c) and (d)) to describe more clearly what information is available to the public. In Part 3 we indicate the places at and the method by which such information may be obtained. As required by the statute we have updated and are recodifying the Commission's statement of "Course and Method of Operation." Additionally, as indicated in § 3.102(e), a current subject-index of major Commission actions issued after July 4, 1967, will be maintained in the Office of Public Information where it will be available for public inspection and copying, to supplement the indexing services which are now being rendered to the public.

The principal change in § 1.36 is one of form. Paragraphs (c) and (d) have been combined into a new paragraph (c). Under this amended paragraph the records which are available to the public are specifically enumerated and any exceptions noted where appropriate. Previously, paragraph (c) broadly described the records available to the public and paragraph (d) listed the exceptions. Moreover, it was necessary to read appropriate portions of our definitions section (1.1(f)) in conjunction with § 1.36 (c) and (d). The new consolidation will largely obviate the necessity of analyzing and comparing different sections and paragraphs of our rules. Furthermore, since the Public Information Act provides for judicial review of any withholding of agency records, we are establishing a procedure for the filing of written appeals by complainants. On the basis of past experience however, we anticipate that almost all such cases can be handled orally and informally by the Office of Public Information.

The Commission finds:

(1) It is appropriate and in the public interest in administering the Federal Power and Natural Gas Acts and to implement the provisions of section 3 of the Administrative Procedure Act, as revised by Public Law 89-487 (80 Stat. 250) codified by P.L. 90-23 (81 Stat. 54), in 5 U.S.C. 552, to amend the Commission's general rules as ordered herein.

(2) The notice and effective date provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 553) do not apply with respect to the amendments here adopted.

The Commission, acting pursuant to authority granted by section 309 of the Federal Power Act, section 16 of the Natural Gas Act (16 U.S.C. 825h; 15 U.S.C. 717o) and in accordance with section 3 of the Administrative Procedure Act, as amended by P.L. 90-23 (81 Stat. 54), orders:

(A) Parts 1 and 3, Subchapter A, General Rules, Chapter I of Title 18 of the Code of Federal Regulations are amended as follows:

1. In § 1.1, paragraph (g) is revised to read as follows:

§ 1.1 The Commission.

* * * * *

(g) *Public information.* Requests for information may be addressed to the Office of Public Information at the Commission's headquarters in Washington, D.C. Public records are available for public inspection and copying at that office, as provided in § 1.36. Pleadings and other official filings are made as provided in § 1.2(c). A description of the facilities available for public reference and the procedures that may be employed to obtain information, copies of public records or to secure informal advice and assistance from or consultation with members of the staff on problems relating to the statutes and regulations administered by the Commission is contained in the material published in Part 3 of this chapter.

2. In § 1.2, paragraph (c) is revised to read as follows:

§ 1.2 The Secretary.

* * * * *

(c) *Pleadings and submittals.* Pleadings and other submittals or papers shall be filed in the Office of the Secretary of the Commission at Washington, D.C., within such time limits as are prescribed for such filings.

3. Section 1.36, Public Information, is amended by adding a new paragraph before the existing paragraph (a); revising paragraph (b); revising paragraph (c); deleting paragraph (d); revising paragraph (e) and renumbering it as (d) and adding a new paragraph (e). As amended, § 1.36 reads as follows:

§ 1.36 Public information and requests.

Section 3.102 of this chapter describes the methods by which the Commission makes information available to the public. This section prescribes the rules governing public notice of proceedings, publication of decisions, and public records of the Commission.

(a) *Notice of proceedings.* Notice of applications, formal complaints, and petitions other than petitions to intervene, is provided for in §§ 1.17 and 1.37. Notice of applications for certificates of public convenience and necessity under section 7 of the Natural Gas Act is provided for by § 157.9 of this chapter. Notice of hearings and of initiation or pendency of rulemaking proceedings is provided for in § 1.19. Notice of applications under Part I of the act for preliminary permits and licenses is provided for by §§ 4.31 and 4.81 of this chapter. Notice of proposed alterations or surrenders of license under section 6 of the Federal Power Act may be given by filing and publication in the FEDERAL REGISTER as provided in § 1.19(a), and, where deemed desirable by the Commission, by local newspaper advertisement. Notice of rates charged and changes therein is provided for by the filing requirements of Parts 35 and 154 of this chapter. Any other notice required by statute, rule, regulation, or order, or deemed desirable, may be given by filing and publication in the FEDERAL REGISTER as provided in § 1.19(a) or by service as provided in § 1.17(a).

(b) *Notice and publication of decisions, rules, statements of policy, organization, and operations.* Service of intermediate and final decisions upon parties to the proceedings is provided in § 1.30 (a), (b), and (i). Descriptions of the Commission's organization, its methods of operation, statements of policy and interpretations, procedural and substantive rules, and amendments thereto will be filed with and published in the FEDERAL REGISTER. Commission opinions together with accompanying orders, Commission orders, and intermediate decisions will be released to the press and made available to the public promptly. Copies of Commission opinions, orders in the nature of opinions, rulemaking and selected procedural orders, and intermediate decisions which have become final are published in the Federal Power Commission Reports (____FPC____) and may be procured from the Superintendent of Documents, United States Government Printing Office, Washington, D.C. 20402, upon payment of prescribed charges.

(c) *Public records.* The public records of the Commission, available upon specific request for inspection and copying during regular business hours in the public reference room maintained by the Office of Public Information, include: (1) All submittals and filings as follows:

(i) applications, declarations, complaints (both formal and informal), petitions and other papers seeking Commission action;

(ii) financial and statistical and other reports to the Commission (except for the "Curtailments of Main Line Industrial Customers" reports filed as a supplement to Form No. 2), power system statements, statements of claimed cost of licensed projects, original cost and reclassification studies, proposed accounting entries, certificates of notification (under section 204(e) of the Federal Power Act), rates or rate schedules and related data and concurrences, and other filings and submittals to the Commission in compliance with the requirement of any statute, executive order, or Commission rule, regulation, order, license, or permit;

(iii) all answers, replies, responses, objections, protests, motions, stipulations, exceptions, other pleadings, notices, depositions, certificates, proofs of service, transcripts or oral arguments, and briefs in any matter or proceeding;

(iv) all exhibits, attachments and appendices to, amendments and corrections of, supplements to, or transmittals or withdrawals of, any of the foregoing;

(v) any Commission correspondence relating to any of the foregoing.

(2) All other parts of the formal record in any matter or proceeding set for formal or statutory hearing and any Commission correspondence related thereto. "Matter or proceeding" means the Commission's elucidation of the relevant facts and applicable law, consideration thereof, and action thereupon with respect to a particular subject within the Commission's jurisdiction, initiated by a filing or submittal or a Commission notice or order. "Formal record" includes in addition to all the filings and submittals in a matter or proceeding, any notice or Commission order initiating the matter or proceeding, and, if a hearing is held, the following: the designation of the presiding officer, transcript of hearing, all exhibits received in evidence, all exhibits offered but not received in evidence, offers of proof, motions, stipulation, subpenas, proofs of service, reference to the Commission, and determinations made by the Commission thereon, certifications to the Commission, and anything else upon which action of the presiding officer or the Commission may be based; it does not include any unaccepted offer of settlement made by a party in the course of a proceeding and not formally submitted to the Commission.

(3) Any proposed testimony or exhibit filed with the Commission but not yet offered or received in evidence.

(4) All presiding officer actions and all presiding officer correspondence and memoranda to or from others with the exception of internal communications within the Office of Hearing Examiners.

(5) All Commission orders, notices, findings, opinions, determinations, and other actions in any matter or proceeding and all Commission minutes which have been approved.

(6) All Commission correspondence relating to any furnishing of data or information, except to or by another branch, department, or agency of the Government.

(7) Commission correspondence[1] with respect to the furnishing of data, information, comments, or recommendations to or by another branch, department, or agency of the Government where furnished to satisfy a specific requirement of a statute or where made public by that branch, department or agency.

(8) Commission correspondence and reports on legislative matters under consideration by the Bureau of the Budget or Congress but only if and after made public or released for publication by that Bureau or the Committee or Member of Congress involved.

(9) Staff reports on statements of claimed cost by licensees where such reports have been served on the licensee.

(10) Commission correspondence on interpretation of the Uniform System of Accounts and letters on such interpretation signed by the Chief Accountant and sent to others than the Commission, a Commissioner, or any of the staff.

(11) Commission correspondence on the interpretation or applicability of any statute, rule, regulation, order, license, or permit issued or administered by the Commission and letters of opinion on that subject signed by the General Counsel and sent to others than the Commission, a Commissioner, or any of the staff.

(12) Copies of all filings, certifications, pleadings, records, briefs, orders, judgments, decrees, and mandates in court proceedings to which the Commission is a party and all correspondence with the courts or clerks of court.

(13) The Commission's Administrative and Operating Manuals.

(14) All other records of the Commission except for those that are:

(i) Specifically required by Executive order to be kept secret in the interest of the national defense or foreign policy;

(ii) Related solely to the internal personnel rules and practices of an agency;

(iii) Specifically exempted from disclosure by statute;

(iv) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(v) Interagency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(vi) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(vii) Investigatory files compiled for law enforcement purposes except to the extent available by law to a party other than an agency; or

(viii) Geological and geophysical information and data, including maps, concerning wells.

(15) The following are examples of information which is not part of the public records of the Commission:

(i) Files and records containing facts or information not permitted to be divulged by section 301 of the Federal Power Act or section 8 of the Natural Gas Act because knowledge thereof was gained during the course of examination of books, records, data, or accounts pursuant to those sections and divulgence thereof has not been ordered by the Commission;

(ii) Files and records classified under Executive Order No. 10501, 3 CFR, 1949-53 Comp., p. 979, for national security purposes;

(iii) The schedule entitled "Curtailments of Main Line Industrial Customers" prescribed as a supplement to FPC Form No. 2 by § 260.1 of this chapter;

(iv) Written communications between or among the Commission, members of the Commission, the Secretary, and expressly designated members of the staff while particularly assigned, in accordance with all applicable legal requirements, to aid the Commission in the drafting of any order and findings, with or without opinion in any matter or proceeding;

(v) Unaccepted offers of settlement in any matter or proceeding unless or until made public by act of the offeror.

(d) *Other records.* Records not made part of the public records by this section may be requested in writing, accompanied by a showing in support thereof, filed with the Secretary and will be made available for public reference upon good cause shown by order of the Commission or the Chairman, where consistent with the public interest and permitted by the Commission's statutory authority.

(e) *Procedure in event of withholding of public records.* In any case where there is a question of interpretation under paragraph (c) of this section, the question shall be resolved informally, if possible, by the Director of the Office of Public Information. If the question cannot be resolved informally, the person seeking such record may request the Secretary, by petition filed pursuant to § 1.7, to make such record available for inspection and copying. The Secretary shall either cause the record to be made available or shall state in writing the basis for his determination that the document requested is not a public record under paragraph (c) of this section. If the Secretary denies the petition, the person seeking the record may appeal such denial to the Commission by petition conforming to the requirements of §§ 1.15 through 1.17.

(f) *Procedure in event of subpoena.* If an officer or employee of the Commission is served with a subpoena duces tecum, material which is not part of the public files and records of the Commission shall be produced only as authorized by the Commission. Service of such a subpoena shall immediately be reported to the Commission with a statement of all relevant facts. The Commission will thereupon enter such order or give such instructions as it deems advisable.

4. The heading of Part 3 is revised to read: Part 3—Organization; Operation; Information and requests; Ethical standards.

[1] As defined in § 1.1(f)(22).

5. The heading of Subpart A is revised to read: Subpart A—Organization; Delegations of Authority.

6. Subpart A is amended by revising § 3.1; revising § 3.4(e) by revising the opening paragraph thereof; revising subparagraphs (7), (9), (10), and (12), and revising paragraphs (a), (b), and (c) of § 3.6. As amended, the affected sections read as follows:

§ 3.1 Purpose.

This subpart describes the central and field organization of the Federal Power Commission, including delegations of final authority and the established places at which, and methods whereby, the public may secure information or make submittals or requests. This subpart also describes the plan of organization and operation which will be observed by this Commission in discharging its lawful duties and responsibilities in the event of an armed attack upon the United States, its territories and possessions, in the event of official notification of the likelihood or imminence of such attack or at a time specified by authority of the President, whichever may first occur.

§ 3.4 Organization.

* * * * *

(e) *The staff.* The Commission is comprised of the following bureaus and offices. The functions of each element, here summarized, are described in greater detail in the FPC Administrative Manual. * * *

(7) The Office of Special Assistants to the Commission, responsible for assisting the Commission in the preparation of opinions, orders, and other legal documents, and for analysing exceptions, preparing summaries of facts and issues, and performing related duties, as assigned. The Office, under the administrative supervision of the Chief of the Office, is directly responsible to the Commission for its operation.

* * * * *

(9) The Office of Administrative Operations, responsible for providing contracting and procurement, travel and transportation, records, dockets, and files, all types of office services, and library services.

(10) The Office of the Comptroller, responsible for development and implementation of program and budget planning and review, administrative accounting, audit and payroll services; organization and management analysis; direction and coordination of the automatic data processing program and computer operations; administration of the FPC staff instruction system; and the Employees' Suggestion Program in conjunction with the Commission's Incentive Awards Program.

* * * * *

(12) Office of Personnel Programs, responsible for the Commission's personnel management, personnel security and other related employee developments, utilization and service programs, such as recruiting, training, incentive awards, safety and health.

§ 3.6 Offices of the Commission; information and submittals.

(a) Headquarters of the Federal Power Commission are in the General Accounting Office Building, 441 G Street NW., Washington, D.C. Information concerning matters for which the Commission is responsible may be obtained in person at that office, or by written request addressed to the Federal Power Commission, Washington, D.C. 20426. Except as provided in paragraph (b) of this section, all formal requests, filings, and submittals should be addressed to the principal office of the Commission, pursuant to § 1.2(c) of this chapter.

(b) Regional offices of the Bureau of Power to which should be submitted all prescribed Power System Statements and Licensed Project Recreation Reports and from which information may be obtained to the extent available, are located as follows: * * *

(c) Public records are available pursuant to § 1.36 of this chapter for public inspection and copying in the Office of Public Information at agency headquarters.

7. The heading and section analysis of Subpart B, currently reserved, is added as follows:

Subpart B—Course and Method of Operation

GENERAL

Sec.
3.100 Introduction.
3.101 Right to conference.
3.102 Public information, requests, and assistance.
3.103 Hearings.
3.104 Complaints; answers.
3.105 Investigative functions.
3.106 Accounting.
3.107 Depreciation.
3.108 Reports to the Commission.
3.109 Publication and sale of reports.

FUNCTIONS UNDER PART I OF THE FEDERAL POWER ACT

3.111 Investigations.
3.112 Declaration of intention.
3.113 Preliminary permits.
3.114 Licenses.
3.115 Annual charges.
3.116 Cost or fair value determinations.
3.117 Headwater benefits.
3.118 Restoration of Government lands.
3.119 Field inspections and revocation of permits and licenses by court action.
3.120 Other matters.

FUNCTIONS UNDER PARTS II AND III OF THE FEDERAL POWER ACT

3.131 Determination of jurisdictional status.
3.132 Interconnection and coordination of facilities.
3.133 Exportation of electric energy.
3.134 Disposition of property, consolidation, purchase of securities.
3.135 Issuance of securities; assumption of liabilities.
3.136 Rate schedules.
3.137 Fixing rates and charges.
3.138 Ascertainment of cost and depreciation.
3.139 Interlocking positions.
3.140 Investigations relating to electric energy, etc.
3.141 Forfeitures.
3.142 Approved forms, etc.
3.143 Other matters.

FUNCTIONS UNDER THE NATURAL GAS ACT

Sec.
3.161 Determination of jurisdictional status.
3.162 Export or import of natural gas.
3.163 Rate schedules.
3.164 Fixing rates and charges.
3.165 Ascertainment of cost and depreciation.
3.166 Extension of facilities.
3.167 Abandonment.
3.168 Certificates.
3.169 State companies.
3.170 Approved forms, etc.
3.171 Other matters.

FUNCTIONS UNDER OTHER AUTHORIZATIONS

Sec.
3.181 Executive Order 10485.
3.182 Flood Control and River and Harbor Acts.
3.183 Federal multipurpose projects.
3.184 Water Resources Planning Act.
3.185 Outer Continental Shelf Lands Act.
3.186 Information relative to miscellaneous functions.

Subpart B—Course and Method of Operation

GENERAL

§ 3.100 Introduction.

(a) This subpart describes the general course and method by which the public functions of the Commission are channeled. Section 3.101 et seq., apply generally to all Commission matters; § 3.111 et seq. are concerned with functions relating to matters arising under the Federal Power Act; and § 3.161 et seq. with those under the Natural Gas Act. Functions under other authorizations are treated in § 3.181 et seq.

(b) The rules and regulations of the Commission, published in the FEDERAL REGISTER and in Chapter I of Title 18 of the Code of Federal Regulations, set forth the Commission's formal and informal procedures, prescribed forms, and instructions as to the scope and content of all papers, reports, and examinations. All applications, complaints, declarations, petitions, pleadings, protests, reports, and other documents addressed to the Commission are, unless otherwise specifically provided, received in its offices at Washington, D.C. Such material goes to the appropriate Bureaus or Offices, described in Subpart A of this part, for study and recommendation to the Commission as set out in the subsequent sections of this subpart. Inquiries about the status of such material should be directed to the Office of the Secretary of the Commission or as may be otherwise provided in this subpart. The Commission or the staff may seek information by written inquiry, conference, telephone inquiry, field investigation, or hearing.

§ 3.101 Right to conference.

In any formal or informal proceeding, a party may request a conference for the submission and consideration of facts, arguments, offers of settlement, or proposals of adjustment where time, the nature of the proceeding, and the public interest permit.

§ 3.102 Public information, requests, and assistance.

(a) A detailed description of the functions and responsibilities of the Office of Public Information, which is responsible for carrying out the Commission's public information program is set out in § 3.4(e)(11). The office is located in the Commission's headquarters in Washington, D.C., where there is maintained a specially staffed and equipped public reference room. More limited facilities for public use are provided in the Regional Offices (see § 3.6) where information may be obtained to the extent available.

(b) During the Commission's regular business hours, the public may examine in the Office of Public Information in Washington, D.C., copies of public information filed with the Commission. Photo copies of public material may be obtained through the public reference room. Fees charged for such copies are established by an annual contract between the Commission and a private company which does the work. Current schedules of fees for copying work are available from the Office of Public Information. Inquiries and orders may be made to that office personally, by telephone, or by mail.

(c) The stenographic reporting of the Commission's hearings is performed by a private company pursuant to an annual contract made with the Commission. Interested members of the public may obtain copies of the transcript of public hearings from the contract reporter at prices set by tables of charges in the contract, copies of which are on file in the Commission offices in Washington and are available for public inspection in the Office of Public Information.

(d) The Commission's opinions, decisions, orders, and rulemaking actions are published initially in mimeographed form, distributed in the Office of Public Information and mailed to persons on request. The opinions, decisions, rules and regulations, and selected categories of orders thereafter are printed in: "Preliminary Prints" and bound volumes entitled "Federal Power Commission Reports"; these publications may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D.C.

(e) A "List of Formal Documents" issued by the Commission is published daily and provides a convenient reference to current Commission actions. A current subject-index of major Commission actions since July 1, 1967, is also maintained in the Office of Public Information where it is available for public inspection and copying.

(f) The Commission publishes an annual report to the Congress which sets forth the result of the Commission's operations during the past fiscal year under the various statutes committed to its charge. Copies may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D.C.

(g) The Commission also makes other information related to its functions available to the public through the issuance of reports, maps, statistics and other materials on specific subject matters.

(h) Informal assistance and advice. Informal procedures are designed to aid the public and facilitate the execution of the Commission's functions. Opinions expressed by members of the staff do not constitute an official expression of the Commission's views. They represent, however, the views of persons who are continuously working with the provisions of the statutes and rules which are involved. More specifically, the staff provides advisory assistance to members of the general public and to prospective applicants for the several categories of authorizations (licenses, certificates, etc.) granted by the Commission. Inquiries may be directed to the chief of the appropriate bureau, office or division described in § 3.4(e).

(i) Press releases. The Commission issues press releases under authority of sections 4(d), 307, 311 and 312 of the Federal Power Act and section 14(a) of the Natural Gas Act. Releases are issued on major applications, decisions, opinions, major orders, rulemaking actions, new publications, major personnel changes and other matters of general public interest. Releases are primarily intended to inform the public of actions taken by, and matters pending before, the Commission. The Office of Public Information is responsible for the editorial preparation, including any necessary consultation with members of the Commission or the staff, and issuance of releases.

(j) Press, television, radio and photographic coverage of Commission proceedings. (1) Press tables are provided in each hearing room, located as near as possible to the bench and witness chair. The press may attend all sessions of hearings, subject to the same rules of conduct as all others present; (2) the use of television, movie and still cameras and recording equipment is permitted in hearing rooms prior to the opening of a hearing or argument and during recesses, pursuant to prior arrangements with the Commission or presiding Examiner, as the case may be. All equipment must be removed from the room before the proceedings begin or resume; (3) the use of television, movie, still cameras or recording equipment is not permitted while Commission hearings and oral arguments are in progress; (4) pursuant to prior arrangement with the Director of Public Information, television cameras, press cameras and recording equipment are permitted at FPC press conferences, provided that they are used in such a manner as not to interfere with the orderly conduct of the conference.

§ 3.103 Hearings.

Hearings are not required to be held in all of the Commission's proceedings. Where no hearing is held, the Commission acts on the basis of the material filed and the staff studies and recommendations thereon. (See also § 1.32 of this chapter.) The procedures for the possible use of joint boards and cooperation with State commissions pursuant to section 209 of the Federal Power Act and section 17 of the Natural Gas Act, are set forth in § 1.37 of this chapter. If a hearing is held under the Federal Power Act, section 308 thereof applies; if under the Natural Gas Act, section 15 thereof applies. In either case they are subject to the requirements of § 1.20 of this chapter. In general, the following procedure is followed: The time and place of hearings and the issues involved are stated in Commission orders or notices served on the participants and interested State agencies and published in the FEDERAL REGISTER. A prehearing conference procedure is provided by § 1.18 of this chapter. Provisions are also made in the rules concerning expert witnesses, stipulations, evidence, presiding officers, copies of transcripts, motions, and time requirements. Evidence may be offered and cross-examination conducted by any party to the proceeding and by staff counsel. Testimony and exhibits are given and prepared, and other assistance rendered staff counsel by the technical staff as may be required. Appeals from rulings of presiding officers during the course of proceedings may be made to the Commission in accordance with § 1.28 of this chapter. Briefs and oral arguments before presiding officers, and proposed findings and orders, are subject to § 1.29 of this chapter. The presiding officer's decision, exceptions thereto, briefs and oral arguments before the Commission, decisions by the Commission, and reopening of proceedings are governed by § 1.30 et seq. of this chapter. Whether or not a hearing has been held, an application may be made for rehearing under section 313(a) of the Federal Power Act or section 19(a) of the Natural Gas Act, respectively, and the provisions of § 1.34 of this chapter. Such applications may be filed with respect to any final Commission order.

§ 3.104 Complaints; answers.

Section 306 of the Federal Power Act, section 13 of the Natural Gas Act, and §§ 1.6 and 1.9 of this chapter provide for complaints (and answers) by any person, State commission, State or municipality on account of any act done or omitted to be done by any licensee, public utility, or natural gas company.

§ 3.105 Investigative functions.

Investigations made pursuant to the general authority provided in section 307 (a) of the Federal Power Act and section 14(a) of the Natural Gas Act are conducted by the bureau or office primarily concerned with the subject matter, with the OGC[1] participating on the legal aspects thereof. After notice, hearings may be held.

§ 3.106 Accounting.

The Uniform System of Accounts prescribed by the Commission for public

[1] The following abbreviations are used in this subpart: ENG—Bureau of Natural Gas; OAF—Office of Accounting and Finance; OEC—Office of Economics; OGC—Office of the General Counsel; OPI—Office of Public Information; PWR—Bureau of Power.

utilities, licensees, and natural gas companies pursuant to sections 301 and 6, respectively, of the Federal Power and Natural Gas Acts is contained in Subchapters C and F of this Chapter. Before prescribing any rules or requirements as to accounts, records, or memoranda, the Commission notifies interested State commissions and affords reasonable opportunity for presentation of their views, pursuant to the Acts. Studies and examinations of the accounting practices of the companies are conducted by the OAF, with the participation of the OGC on the legal aspects thereof. After notice, a hearing may be held.

§ 3.107 Depreciation.

(a) Rules, regulations, and forms of account for depreciation are set forth in the Uniform System of Accounts referred to in § 3.106. Studies and recommendations concerning depreciation under the Acts are made by the OAF and OEC, with the participation of the OGC on the legal aspects thereof.

(b) Before prescribing any rules or requirements as to depreciation, the Commission notifies interested State commissions and affords reasonable opportunity for presentation of their views.

§ 3.108 Reports to the Commission.

The reports and forms prescribed by the Commission pursuant to the Federal Power Act are listed in § 3.142; those prescribed under the Natural Gas Act are listed in § 3.169. Rules prescribing public use forms are submitted to the Bureau of the Budget for clearance as required by the Federal Reports Act of 1942, as amended.

§ 3.109 Publication and sale of reports.

Pursuant to section 312 and other sections of the Federal Power Act and section 14 of the Natural Gas Act, the Commission publishes reports, decisions, and other material on the electric power and natural gas industries. These publications are available over the counter from the Office of Public Information and by mail or over the counter from the Superintendent of Documents, GPO, Washington, D.C. 20402.

FUNCTIONS UNDER PART I OF THE FEDERAL POWER ACT

§ 3.111 Investigations.

(a) *Water power resources.* Investigations under section 4(a) of the act concerning water power resources and their utilization, are initiated by the Commission upon its own motion, request of another governmental agency or complaint. The staff work is performed by the PWR, with participation of the OGC on the legal aspects thereof. Such investigations may be conducted in cooperation with other governmental agencies. After notice, a hearing may be held.

(b) *Jurisdiction.* Investigations pursuant to section 4(g) of the act to determine Federal jurisdiction over water power projects which may require authorization under the act, are initiated by the Commission upon its own motion, request of another Federal agency, or complaint. The staff work is performed by the PWR with the participation of the OGC on the legal aspects thereof. Whenever it appears from such investigation that a license is required, the owner of the project may be so informed by the Secretary. If an application for license is not filed an order to show cause therefor may be issued and a hearing held.

§ 3.112 Declaration of intention.

Notice of declarations of intention to construct a dam or other project works, pursuant to section 23(b) of the Act, is given to interested public officials and state agencies. The declarations are referred to the PWR and to the OGC for studies to determine whether the interests of interstate or foreign commerce would be affected by the proposed construction. After notice, a hearing may be held.

§ 3.113 Preliminary permits.

Applications for preliminary permits to maintain priority of applications for license, under section 4(f) of the act are referred to the PWR and the OGC for studies and recommendations. Notice of an application filed by any person, association, or corporation is published in the FEDERAL REGISTER and in local newspapers in the vicinity of the proposed project and is given to States and municipalities likely to be affected, pursuant to section 4(f) of the act. After notice, a hearing may be held.

§ 3.114 Licenses.

(a) Formal procedures relating to the following applications are set out in Parts 4, 5, 6, 16, and 131 of this chapter.

(b) Applications under the Federal Power Act for license for proposed major projects; for constructed major projects; for amendment of licenses for major projects and for renewal of licenses for major projects are processed in the manner stated in § 3.113, except that those for alteration or surrender of licenses pursuant to section 6 of the act may be acted on by the Commission after thirty (30) days' public notice published in the FEDERAL REGISTER and, if deemed necessary, in local newspapers.

(c) Except for the notice requirements, applications for licenses for minor projects; for transmission lines only; for extension of time for commencing or completing construction of a project; for amendment of licenses for minor projects or primary transmission lines only; for approval of transfer of license or lease of project property; for renewal of licenses for minor projects or primary transmission lines only under license which expires on a specified date; for approval of plans and exhibits; for surrender of licenses for minor projects or primary transmission lines only; for annual licenses; and applications concerning a minor part only of a complete project except for primary transmission lines only (regulations for similar applications for major projects are applicable) are similarly processed. In certain cases Special Use Permits may be issued by the Forest Service covering projects of less than 2,000 horsepower.

§ 3.115 Annual charges.

Petitions for adjustment of annual charges are referred to the Bureau of Power for study and recommendation. Petitions by State or municipal licensees for exemption pursuant to section 10(e) of the act (§§ 11.24 and 131.70 of this chapter) from payment of such charges are similarly referred to the PWR. Petitions of both types are referred to the OGC for legal study and recommendation. After notice, a hearing may be held.

§ 3.116 Cost or fair value determinations.

The licensee initiates proceedings for the determination of actual legitimate original cost or fair value of a licensed project by the filing of an initial statement of cost or value (Form No. 6) pursuant to the requirements of the license and the Commission's regulations. Such statement is referred to the OAF for audit and report, with participation by the OGC on the legal aspects thereof and, when appropriate, with participation by OEC and PWR. Such report is served on interested state and federal agencies. Protest thereto may be filed by the licensee. If a protest is filed, a hearing is held after notice. In the absence of protest, the Commission makes the determination upon the basis of the staff report and recommendations. The licensee is required to file thereafter a statement on Form No. 7 (§ 141.12 of this chapter) showing its compliance with the Commission determination.

§ 3.117 Headwater benefits.

Commission action for the determination of headwater benefits under section 10(f) of the act may be initiated by the Commission, or by petition of an affected party, therefor, pursuant to the Commission's regulations. Answers may be submitted. The matter is referred to the PWR and the OGC for studies and recommendations. After notice, a hearing may be held.

§ 3.118 Restoration of Government lands.

Applications for restoration of Government lands withdrawn for power purposes under section 24 of the act are referred to the PWR and to the OGC for studies and recommendations. After notice, a hearing may be held. The Commission notifies the Secretary of the Interior of the determination made in accordance with section 24 of the act.

§ 3.119 Field inspections and revocation of permits and licenses by court action.

Compliance with the terms of licenses and with the approved plans in construction, operation, and maintenance of licensed projects, and with the terms of preliminary permits, is enforced by periodic inspections by the PWR, principally through the Regional Offices, or through designated Federal agencies. Apparent violations of such terms or

plans, or of provisions of the act and regulations of the Commission, are reported to the Commission either by the staff or other agency or by complaint. Reports and recommendations thereon by the PWR and the OGC are submitted to the Commission and attempts made through correspondence or field investigation to secure compliance by the permittees or licensees. If satisfactory adjustments are not made, orders to show cause are issued and served upon the permittees or licensees and interested State agencies and published in the FEDERAL REGISTER. After notice, hearings may be held and the matter referred to the Attorney General for institution of court proceedings pursuant to sections 13 and 26 of the act.

§ 3.120 Other matters.

Information concerning any function, form, or procedure of the Commission under Part I of the act, not described in §§ 3.111 to 3.119 inclusive, may be secured by written request to the Secretary.

FUNCTIONS UNDER PARTS II AND III OF THE FEDERAL POWER ACT

§ 3.131 Determination of jurisdictional status.

In the course of the administration and enforcement of the requirements of Parts II and III of the act, persons owning or operating electric power facilities may initially be classified as to jurisdictional status under the terms of section 201 of the act. These classifications, which are tentative and not binding on the persons or the Commission, are made on the basis of data reported to the Commission by such persons, supplemented when necessary by staff investigation of the facilities and their operations. The technical phases of such work are performed by the Bureau of Power. In all instances, the OGC participates in the legal aspects of the work. If any person involved disagrees with the classification and refuses to comply with the requirements of the act in accordance therewith, a formal proceeding may be initiated to resolve the questions presented. The proceeding is initiated by Commission order served upon such person and interested State agencies and published in the FEDERAL REGISTER. After notice, a hearing is held.

§ 3.132 Interconnection and coordination of facilities.

(a) To enhance the reliability of bulk power supply, to strengthen existing mechanisms and to establish new ones for coordination in the electric power industry, and to encourage comprehensive development of power resources of each area and region of the United States, national and regional investigations and power surveys are conducted pursuant to section 202(a) and reports thereon published and supplied to interested parties. These functions are performed by the PWR in cooperation with all segments of the electric power industry.

(b) Applications for orders directing the establishment of physical connection of transmission facilities or sale or exchange of electric energy pursuant to section 202(b) of the act are referred to the PWR and the OGC for studies and recommendations. Notice is given to each State commission and public utility affected and published in the FEDERAL REGISTER. After notice, a hearing may be held.

(c) The authority of the Commission under section 202(c) of the act to require emergency connections of facilities and generation, delivery, interchange, or transmission of electric energy may be exercised upon its own motion or upon complaint, with or without notice, hearing or report. Staff studies and recommendations are made by the PWR and the OGC. If the parties fail to agree upon the terms or any arrangements between them in carrying out a Commission order in such a proceeding, either party may file an application or the Commission may by order served upon the parties and interested State agencies and published in the FEDERAL REGISTER, initiate a proceeding to prescribe terms pursuant to the last sentence of section 202(c) of the act. A hearing is held after notice.

(d) Applications for approval of permanent connections of facilities for emergency use only, under the last provision of section 202(d) of the act, are referred to the PWR and the OGC for studies and recommendations. A hearing may be held after notice.

§ 3.133 Exportation of electric energy.

(a) Applications for authorization to transmit electric energy from the United States to a foreign country pursuant to section 202(e) of the act and for Presidential Permits under Executive Order 10485 (3 CFR, 1949–53 Comp., p. 970), are studied, and recommendations are made by the PWR and the OGC. After notice, a hearing may be held. Such authorizations are issued simultaneously with the requisite Presidential Permits.

(b) Proceedings for supplemental orders under the last provision of section 202(e) of the act may be initiated by application or by Commission order served on the parties and interested state agencies and published in the FEDERAL REGISTER. Staff studies and recommendations are made by the PWR and the OGC. After notice, a hearing may be held.

§ 3.134 Disposition of property, consolidation, purchase of securities.

(a) Written notice of applications for approval of disposition of property, consolidation of facilities, or purchase by public utilities of securities of another public utility pursuant to section 203 of the act is given to the Governor and state commission of each state affected and published in the FEDERAL REGISTER. The applications are referred to the OAF, PWR, and the OGC for studies and recommendations. After notice, a hearing may be held.

(b) Proceedings for supplemental orders under the last provision of section 203(b) of the act may be initiated by application or by Commission order served on the parties and interested State agencies and published in the FEDERAL REGISTER. Staff studies and recommendations are made by the OAF, the PWR, and the OGC. After notice, a hearing may be held.

§ 3.135 Issuance of securities; assumption of liabilities.

(a) Written notice of applications for authorizations to issue securities or to assume liabilities, pursuant to section 204 of the act is given to the Governor and the State commission of each State affected and published in the FEDERAL REGISTER. Such applications are referred to the OAF, the PWR, and the OGC for studies and recommendations. After notice, a hearing may be held.

(b) Proceedings for supplemental orders under section 204(b) of the act may be initiated by application or by Commission order served on the parties and interested State agencies and published in the FEDERAL REGISTER. Staff studies and recommendations are made by the OAF, PWR, and the OGC. After notice, a hearing may be held.

§ 3.136 Rate schedules.

Rate schedules and changes therein filed under section 205 of the act, and any accompanying requests for waiver of the 30- to 90-day prior notice provision are referred to the PWR for study and recommendation, with the participation of the OGC on the legal aspects thereof. Any complaint under section 205(e) of the act and any answer thereto, are similarly referred. Upon such complaint or upon its own motion the Commission may suspend the operation of rate schedules proposing changes in existing schedules, after notice and a statement of reasons therefor. Staff studies and recommendations are made by the PWR and the OGC. After notice, a hearing may be held pursuant to sections 205(e) and 308 of the Act.

§ 3.137 Fixing rates and charges.

Proceedings to determine just and reasonable rates, charges, etc., under section 206(a) of the act are initiated by complaint or by Commission order served on the parties and interested State agencies and published in the FEDERAL REGISTER. Staff studies and recommendations in such proceedings are made by the OAF, OEC, PWR, and OGC. After notice, a hearing is held.

§ 3.138 Ascertainment of cost and depreciation.

Investigations to ascertain the actual legitimate cost of public utility properties and depreciation therein pursuant to section 208(a) of the act, are made by the OAF, with the participation of the OGC on the legal aspects thereof. Such investigations are usually made in connection with rate proceedings under sections 205 and 206, or accounting proceedings under section 301 of the act, and frequently involve field studies of utility records and properties. After notice, a hearing may be held.

§ 3.139 Interlocking positions.

The requirements for applications for authority to hold interlocking positions pursuant to section 305(b) of the act, are stated in Part 45 of this chapter. Such applications are referred to the OAP and the OGC for studies and recommendations. After notice, a hearing may be held. Authorizations under this section of the act are subject to revocation after notice and opportunity for hearing.

§ 3.140 Investigations relating to electric energy, etc.

Investigations for the purpose of recommending legislation relating to electric energy and other matters referred to in section 311 of the act are conducted in the manner described in § 3.105. Unlike the investigations there described, however, the Commission in conducting an investigation pursuant to section 311 of the act may require the submission of information by persons and entities not otherwise subject to its regulatory jurisdiction. The results of such investigations may be published by the Commission pursuant to section 312 of the act. Lists of titles and prices of such publications may be secured from the Office of Public Information.

§ 3.141 Forfeitures.

On the basis of staff studies and recommendations, proceedings to fix the amount of forfeitures under section 315 (a) of the act are initiated by Commission order served on the parties and interested state agencies and published in the FEDERAL REGISTER. A hearing may be held.

§ 3.142 Approved forms, etc.

(a) The following is a list of approved forms, statements, and reports under the Federal Power Act, descriptions of which have been published in the indicated sections of Parts 131 and 141 of this chapter.

(1) Certificate of service (§ 131.1 of this chapter).

(2) Application for license for major project or minor part thereof (§ 131.2 of this chapter).

(3) Certificate of organization (§ 131.3 of this chapter).

(4) Certificate of exhibits (§ 131.4 of this chapter).

(5) Application for license for primary transmission lines only (§ 131.5 of this chapter).

(6) Application for license for minor project having installed capacity of 2,000 horsepower or less (§ 131.6 of this chapter).

(7) Application for preliminary permit (§ 131.10 of this chapter).

(8) Application for approval of transfer of license (§ 131.20 of this chapter).

(9) Application for amendment of license (§ 131.30 of this chapter).

(10) Balance sheet (§ 131.40 of this chapter).

(11) Classifications of utility plant and reserves applicable to utility plant (§ 131.41 of this chapter).

(12) Comparative income statement (§ 131.42 of this chapter).

(13) Report of securities issued (§ 131.43 of this chapter).

(14) Certificate of notification (§ 131.-50 of this chapter).

(15) Notice of succession of ownership or operation (§ 131.51 of this chapter).

(16) Certificate of concurrence (§ 131.-53 of this chapter).

(17) Notice of cancellation (§ 131.53 of this chapter).

(18) Verification of application (§ 131.-60 of this chapter).

(19) Form of application by state and municipal licensees for exemption from payment of annual charges (§ 131.70 of this chapter).

(20) Form No. 1, annual report public utilities and licensees, Classes A and B (§ 141.1 of this chapter).

(21) Form No. 1–F, annual report for public utilities and licensees, Classes C and D (privately-owned) (§ 141.2 of this chapter).

(22) Form No. 1–M, annual report for municipal electric utilities having annual electric operating revenues of $250,000 or more (§ 141.7 of this chapter).

(23) Form No. 6, initial cost statement for licensed projects (§ 141.11 of this chapter).

(24) Form No. 7, statement of actual legitimate original cost of construction (§ 141.12 of this chapter).

(25) Form No. 9, annual report form for licensees of privately owned major projects (utility and industrial) (§ 141.-13 of this chapter).

(26) Form No. 80, report of recreation facilities (§§ 8.11 and 141.14 of this chapter).

(27) Form No. 3, typical net monthly bills (§ 141.21 of this chapter).

(28) Form No. 4, monthly report of generation of electric energy consumption and stocks of fuel (multiple plant utilities) (§ 141.22 of this chapter).

(29) Form No. 4–A, monthly report of generation of electric energy consumption and stocks of fuel (multiple plant utilities) (§ 141.23 of this chapter).

(30) Form No. 4–B, monthly report of industrial generation of electric energy (§ 141.25 of this chapter).

(31) Form No. 5, monthly statement of electric operation revenue and income (§ 141.24 of this chapter).

(32) Form No. 13, summary for national electric rate book (§ 141.26 of this chapter).

(33) Form No. 12, power system statements for Class I and II systems, and for Class IV and V systems where requested (§ 141.51 of this chapter).

(34) Form No. 12–A, power system statement for Class III, IV and V systems (§ 141.52 of this chapter).

(35) Form No. 12–B, industrial electric generating capacity (detailed information) (§ 141.53 of this chapter).

(36) Form No. 12–C, industrial electric generating capacity (limited information) (§ 141.54 of this chapter).

(37) Form No. 12–D, power system statement for Class III systems having annual energy requirements of less than 5 million KWH, and Class IV and V systems when requested (§ 141.55 of this chapter).

(38) Form No. 12–E, monthly load statement (§ 141.56 of this chapter).

(39) Form No. 12–F, power line and generating plant data (§ 141.57 of this chapter).

(40) General requirements for annual reports to stockholders and others (§ 141.100 of this chapter).

(41) Report on bulk electric power supply interruptions (§ 141.58 of this chapter).

(b) The approved forms listed in paragraph (a) (1) to (19), inclusive, and paragraph (a) (41) of this section, are published in the cited regulations, copies of which may be obtained from the Secretary or the OPI upon request. Copies of statements and reports listed in paragraph (a) (20) to (39), inclusive, of this section, may be obtained from the OPI of the Commission.

§ 3.143 Other matters.

Information concerning any function, form, or procedure of the Commission under Parts II and III of the act, not described in §§ 3.131 to 3.142, inclusive, may be secured upon written request to the Secretary.

FUNCTIONS UNDER THE NATURAL GAS ACT

§ 3.161 Determination of jurisdictional status.

In the course of the administration and enforcement of the requirements of the Natural Gas Act, persons engaged in the transportation or sale of natural gas may initially be classified as to jurisdictional status under the terms of section 1 of the act. These classifications, which are tentative and not binding on the persons or the Commission, are made on the basis of available information, including data reported to the Commission by such persons, supplemented when necessary by staff investigation. The technical phases of such work are performed by the BNG and the legal phases by the OGC. If any person involved disagrees with the classification and refuses to comply with the requirements of the act in accordance therewith, a formal proceeding may be initiated to resolve the questions presented. The proceeding is initiated by Commission order served upon such person and interested State agencies, and published in the FEDERAL REGISTER. After notice, a hearing is held. The requirements for applications for exemptions pursuant to section 1(c) of the act (the Hinshaw Amendment) are set out in Part 152 of this chapter.

§ 3.162 Export or import of natural gas.

Applications for authorization to export or import natural gas from or to the United States, pursuant to section 3 of the act, for Presidential Permits under Executive Order 10485, described in § 3.191, and for certificates of public convenience and necessity pursuant to section 7 necessary in connection therewith, described in § 3.168 are studied and recommendations are made by the BNG, the OAP and the OGC. Notice is given to each State commission and gas company affected and published in the FEDERAL REGISTER. A hearing may be held. See also Part 159 of this chapter with respect to certain filing fees. Such authorizations are issued simultaneously with the requisite Presidential Permits.

§ 3.163 Rate schedules.

Rate schedules, and tariffs and changes therein filed under section 4 of the act and any accompanying requests for waiver of the 30- to 90-day prior notice provision, are referred to the BNG and OAP for study and recommendation, with the participation of the OGC on the legal aspects thereof. Any complaints under section 4(e) of the act and any answers thereto, are similarly referred. Upon such complaint or upon its own motion, the Commission may suspend the operations of rate schedules or tariff provisions proposing changes, after notice and a statement of reasons therefor. Staff studies and recommendations are made by the BNG, OEC, OAP, and OGC. After notice, a hearing may be held pursuant to sections 4(e) and 15 of the act.

§ 3.164 Fixing rates and charges.

Proceedings to determine just and reasonable rates, charges, etc., under section 5(a) of the act may be initiated by Commission order upon its own motion or upon complaint served on the parties and interested State agencies and published in the FEDERAL REGISTER. Staff studies and recommendations in such proceedings are made by the BNG, OEC, OAP, and OGC. After notice, a hearing may be held.

§ 3.165 Ascertainment of cost and depreciation.

Investigations to ascertain the actual legitimate cost of the properties of natural gas companies and depreciation therein, pursuant to section 6(a) of the act, are made by the OAP, with the participation of the OGC on the legal aspects thereof. Such investigations are usually made in connection with rate proceedings under sections 4 and 5, or accounting proceedings under section 8, of the act and frequently involve field studies of records and investigation of the properties of natural gas companies. After notice, a hearing may be held.

§ 3.166 Extension of facilities.

Action to require the extension or improvement of transportation facilities, the establishment of physical connection between facilities, and the sale of natural gas under section 7(a) of the act, may be initiated by application or by the Commission upon its own motion. An application seeking a Commission order directing such attachment and sale may be filed in accordance with the provisions of Part 156 of this chapter. Notice is given to each company affected and interested State agencies, and published in the FEDERAL REGISTER. Staff studies and recommendations are made by the BNG, OAP, OEC, and OGC. After notice, a hearing may be held. See Part 159 of this chapter relative to certain filing fees.

§ 3.167 Abandonment.

Applications for approval of abandonment of facilities or service pursuant to section 7(b) of the act are referred to the BNG, OAP and OGC for studies and recommendations. Notices thereof are served upon the parties and interested State agencies and published in the FEDERAL REGISTER. After notice, a hearing is held.

§ 3.168 Certificates.

Applications for certificates of public convenience and necessity authorizing the construction, extension, acquisition, or operation of facilities or the sale of natural gas under sections 7(c) and 7(e) of the act are referred to the BNG, OAP and OGC for studies and recommendations, with the participation of OEC. After notice, a hearing is held. Part 157 of this chapter applies. Notice of the application is given to the parties and interested State agencies, and published in the FEDERAL REGISTER. See Part 159 of this chapter relative to filing fees.

§ 3.169 State compacts.

The information required under section 11 of the act concerning matters covered in any proposed State compact on natural gas is assembled and maintained by the BNG. Inquiries concerning such information may be made to the Secretary.

§ 3.170 Approved forms, etc.

(a) The following is a list of approved forms, statements, and reports under the Natural Gas Act, descriptions of which have been published in Subchapter G, Parts 250 and 260 of this chapter.

(1) Certificate of service (§ 250.1 of this chapter).

(2) Form of proposed cancellation of tariff or part thereof (§ 250.2 of this chapter).

(3) Form of proposed cancellation or termination of contract or part thereof (§ 250.3 of this chapter).

(4) Form of certificate of adoption (§ 250.4 of this chapter).

(5) Form of contract summary to be filed by all applicants for certificates of public convenience, including successors in interest (§ 250.5 of this chapter).

(6) Form of application to be filed by distributor under section 7(a) seeking gas service of not more than 2,000 Mcf per day (3d year of operation) for a single community (§ 250.6 of this chapter).

(7) Form of contract summary for abandonment applications (§ 250.7 of this chapter).

(8) Summary to accompany rate schedule filed by an assignee as successor in interest (§ 250.8 of this chapter).

(9) Form of notice of proposed cancellation or termination of independent producer rate schedule or part thereof, where no new schedule is to be filed in its place (§ 250.9 of this chapter).

(10) Application for small producer certificate of public convenience and necessity (§ 250.10 of this chapter).

(11) Annual statement for independent producers holding small producer certificates (§ 250.11 of this chapter).

(12) Form No. 2, annual report for natural gas companies (Class A and Class B) (§ 260.1 of this chapter).

(13) Form No. 2–A, annual report for natural gas companies (Class C and Class D) (§ 260.2 of this chapter).

(14) Form No. 11, natural gas pipeline company monthly statement (§ 260.3 of this chapter).

(15) Form No. 301–A, statement of sales and revenues of independent producers (§ 260.5 of this chapter).

(16) Form No. 301–B, statement of sales and revenues of independent producers (§ 260.6 of this chapter).

(17) Form No. 15 and 15–A, annual report of gas supply and deliverability for certain natural gas companies (§§ 260.7, 260.7a of this chapter).

(18) System flow diagrams (§ 260.8 of this chapter).

(19) General requirements for annual reports to stockholders and others (§ 260.100 of this chapter).

(b) The approved forms listed in paragraph (a) (1) to (11), inclusive, and 18, of this section, are published in the regulations, copies of which regulations may be obtained from the Secretary or OPI upon written request. Copies of statements and reports listed in paragraph (a) (12) to (19), inclusive, of this section, may be obtained from the OPI of the Commission.

§ 3.171 Other matters.

Information concerning any function, form, or procedure of the Commission under the Natural Gas Act, not described in §§ 3.161 to 3.170, inclusive, may be secured upon written request to the Secretary.

FUNCTIONS UNDER OTHER AUTHORIZATIONS

§ 3.181 Executive Order 10485.

(a) Applications for construction, operation, maintenance, or connection of facilities for the transmission of electric energy between the United States and foreign countries, under Executive Order 10485 (3 CFR 1949–53 Comp., p. 970), are referred to the PWR and to the OGC for studies and recommendations. The Commission thereafter acts upon the basis of the application, staff studies, recommendations of the Secretaries of State, Defense, and Treasury and other pertinent data. If granted, the permit is signed by the Chairman.

(b) Applications for construction, operation, maintenance, or connection of facilities for the exportation and importation of natural gas from or into the United States are referred to the BNG and to the OGC for studies and recommendations. Thereafter they are processed in the manner described in paragraph (a) of this section, for applications for the exportation of electric energy.

§ 3.182 Flood Control and River and Harbor Acts.

Beginning with the Flood Control Act of 1938 (33 U.S.C. 701j) and the Flood Control and River and Harbor Acts of subsequent years, the Commission studies plans for proposed water resources

projects to be constructed by the Department of the Army, the Department of the Interior, or other Federal agencies, and makes recommendations concerning the installation of penstocks and similar facilities for the development of hydroelectric power.

§ 3.183 Federal multipurpose projects.

The Bonneville Project Act (16 U.S.C. 832), Fort Peck Act (52 Stat. 403), the Flood Control Act of 1944 (16 U.S.C. 825s), provide that the Commission review and, if satisfactory, confirm and approve rates proposed for the sale of electric energy generated at the projects constructed pursuant to these and other acts. It also allocates the costs of certain of these projects and participates in the allocation of the costs of others.

§ 3.184 Water Resources Planning Act.

The Commission participates, through its Chairman, as a permanent member of the Water Resources Council, in the administration of the Water Resources Planning Act (42 U.S.C. 1962), including the review of comprehensive river basin plans for water and related land resources development.

§ 3.185 Outer Continental Shelf Lands Act.

Section 5 of this Act (43 U.S.C. 1334) provides for the grant of rights-of-way across submerged lands for pipelines for the transportation of natural gas, oil, sulphur or other mineral. Such grants are upon condition that the gas pipelines shall transport gas produced in the vicinity of the line in such proportionate amounts as the Federal Power Commission shall determine after full hearing.

§ 3.186 Information relative to miscellaneous functions.

Pertinent excerpts from the statutes referred to in §§ 3.181 through 3.185 are set out in the appendices to the pamphlet editions of the Federal Power Act and the Natural Gas Act, copies of which may be obtained from the Office of Public Information. Additional information with respect to these functions may be obtained from the Secretary.

(B) These amendments to the Commission's rules shall be effective upon the issuance of this order.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-7868; Filed, July 7, 1967; 8:45 a.m.]

Title 21—FOOD AND DRUGS

Chapter II—Bureau of Narcotics, Department of the Treasury

[T.D. 80]

PART 308—PUBLIC ACCESS TO INFORMATION

Chapter II of Title 21 of the Code of Federal Regulations is hereby amended by adding a new Part 308 to read as follows:

Sec.
308.1 Purpose of regulations.
308.2 Definitions.
308.3 Records made available.
308.4 Records exempt from disclosure.
308.5 Fees for service.
308.6 Appeal.
308.7 Records not to be otherwise withdrawn or disclosed.
308.8 Testimony or the production of records in a court or other proceeding.
308.9 Regulations not applicable to official requests.

AUTHORITY: The provisions in this Part 308 are issued under 5 U.S.C. 301 and 5 U.S.C. 552.

§ 308.1 Purpose of regulations.

These regulations are issued to implement the public information provisions of Public Law 89-487, codified by Public Law 90-23 as 5 U.S.C. 552. The publication requirements of 5 U.S.C. 552(a)(1) are met through the publication in the FEDERAL REGISTER of statements of the Bureau's organization, functions, and procedures available, and revisions thereof, and through the continuing publication therein of substantive and procedural regulations of the Bureau. A current synopsis of the statements of the Bureau's organization, functions and procedures available will be published annually by the Office of the Federal Register in the U.S. Government Organizational Manual.

§ 308.2 Definitions.

As used in this part the following definitions shall apply:

(a) An "opinion" is a statement of reasons accompanying an "order".

(b) An "order" is a final disposition having precedential significance of an adjudicative proceeding.

(c) "Statements of policy and interpretations" are statements and interpretations of limited rather than general applicability adopted by the Bureau of Narcotics upon which the Bureau may rely as governing policy or precedents. They do not include advisory interpretations on a specific set of facts addressed to a particular person which are not relied on, used or cited as precedent in the disposition of other cases.

(d) "Administrative staff manuals and instructions to staff" are internal instructions that affect a member of the public, but they do not include instructions which set forth criteria or guidelines for the staff in auditing, or inspection procedures, or in the selection or handling of cases, such as operational tactics, allowable tolerances or criteria for defense, prosecution, or settlement of cases.

(e) The term "records" includes all books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics, made or received by the Bureau of Narcotics in pursuance of Federal law or in connection with the transaction of public business, and preserved or appropriate for preservation by the Bureau as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the Government or because of informational value of data contained therein. Extra copies of documents preserved only for convenience of reference are not records. The term "records" refers only to records in being and in the possession or under the control of a Bureau office covered by these regulations. It does not include the compiling or procuring of a record not already in existence. Nor does it include objects or articles such as structures, vehicles, equipment, etc.

(f) The term "identifiable" means a reasonably specific description of the particular record sought which will enable a Bureau employee to locate the requested record. The burden of identification rests with the person seeking the record.

(g) The term "available" means provided for inspection, copying, and purchase of copies.

§ 308.3 Records made available.

(a) *Records covered.* Within the meaning of the foregoing definitions, the following records of the Bureau of Narcotics covered by these regulations, unless determined to be exempt from disclosure under the provisions of 5 U.S.C. 552 and these regulations, will be made available, upon request, in accordance with the procedures provided in these regulations: (1) Opinions and orders, (2) statements of policy and interpretations, (3) administrative staff manuals and instructions to staff, and (4) identifiable records.

(b) *Determination of availability.* The determination of which records are available under this section will be made by the Commissioner of Narcotics, or his delegate, subject to the appeal provided in § 308.6. If a record is of concern to another agency whose interest in the record is paramount, the request shall be referred to that other agency for determination, and the person requesting the record shall be advised of the referral.

(c) *Means of access.* (1) The matters covered by paragraph (a) (1), (2), and (3) of this section, which are issued, adopted, or promulgated on or after July 4, 1967, will be made available during office hours in the public reading room of the Bureau of Narcotics, 633 Indiana Avenue NW., Washington, D.C. 20226, or in such other reading room as the Commissioner of Narcotics, or his delegate, may designate. To the extent feasible, such matters issued, adopted, or promulgated prior to July 4, 1967, are also shelved and indexed and are available in the designated public reading room. If not so shelved and indexed, they may be requested as identifiable records and shall be subject to the same fees as for identifiable records.

(2) Identifiable records covered by paragraph (a)(4) of this section will be made available upon request in writing to the Deputy Commissioner of Narcotics or to any district supervisor of any of the Bureau's district offices in the United States. A person appearing in the public reading room to request an identifiable record may complete a written request, which will be delivered to the Deputy Commissioner of Narcotics, or his delegate. Time will be required to obtain a record not at hand. The person requesting a record will be informed as promptly as possible of the time required to obtain it and the approximate cost of making the record available. The person requesting the record will be required to make arrangements for payment of the estimated cost prior to the search for the record.

(3) Since reading rooms are not provided at the field service level, requests at that level for matters covered under paragraph (a) (1), (2), (3), and (4) of this section, must be made in writing to the district supervisor of the appropriate district office of the Bureau of Narcotics. To the extent possible, the supervisor will provide the material and a reading area. If the district supervisor does not have the material or is otherwise unable to comply with the request, the request will be transmitted to Bureau headquarters, the material or copies thereof will be sent to the district office, and will be made available in a reading area provided by the district supervisor.

(d) *Provision of copies.* Copies of records made available in the public reading room under paragraph (c) of this section will be made through photocopy on payment of the fees therefor set forth in § 308.5. Copies made available by mail in response to written request therefor, or to a requester appearing personally, will be subject to the same charge.

(e) *Deletion of identifying details.* Before any records are made available under paragraph (a) (1), (2), and (3) of this section any identifying details the disclosure of which would be a clearly unwarranted invasion of personal privacy will be deleted by the appropriate official and justification therefor will be made in writing.

(f) *Deletion of matters exempt.* To the extent that the Commissioner of Narcotics, or his delegate, may find it feasible and consistent with the purposes of 5 U.S.C. 552, records that would be made available under paragraph (a) (1), (2), (3), or (4) of this section, if not for the application of § 308.4, nevertheless may be made available after deletion of those matters outlined in § 308.4 that the Commissioner of Narcotics, or his delegate, determines need be held exempt.

(g) *Indexes.* Indexes will be periodically prepared and made available in the public reading room with respect to the records having precedential significance to be made available under paragraph (a) (1), (2), and (3) of this section, relating to matters which are issued, adopted or promulgated on or after July 4, 1967.

§ 308.4 Records exempt from disclosure.

(a) As determined by the Commissioner of Narcotics, or his delegate, subject to the appeal provided in § 308.6, the following classes of records covered by these regulations are exempt from disclosure:

(1) Matters that are specifically required by Executive order to be kept secret in the interest of the national defense or foreign policy, including specifically Executive Order 10501, as amended;

(2) Matters related solely to the internal personnel rules and practices of the Bureau of Narcotics, including instructions, manuals and other records, or parts thereof, which set forth operating rules, guidelines, procedures, or other criteria for Bureau employees in audits, examinations, inspections, investigations, and negotiations, or in the selection or handling of cases, such as operational tactics, allowable tolerances or criteria for defense, prosecution, or settlement of cases;

(3) Matters specifically exempted from disclosure by statute; see, for example, 18 U.S.C. 1905 and 26 U.S.C. 7237(e);

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential. This exemption restricts the disclosure of records which would not customarily be made public by the person from whom it was obtained by the Bureau. It includes, but is not limited to, business sales statistics, inventories, customer lists, scientific or manufacturing processes or developments; information customarily subject to protection as privileged in a court or other proceeding, such as information protected by the doctor-patient, lawyer-client, or lender-borrower privilege; information submitted by any person to the Bureau in confidence or where the Bureau has obligated itself not to disclose information it received; formulae, designs, drawings, research data, and other records developed by or for the Government which are significant as items of valuable property;

(5) Interagency or intra-agency memorandums or letters which would not be available by law to a private party in litigation with the Bureau of Narcotics or the Treasury Department, such as, internal drafts, memoranda between officials or agencies, opinions, and interpretations prepared by Government employees for the use of the Bureau and records of the deliberations of the Bureau or staff groups, which would not routinely be disclosed to a private party through the discovery process in litigation with the Bureau or the Department. This exemption is also designed to protect from premature disclosure Government plans, such as those undergoing development and those final plans which cannot be made available in advance of their effectuation without harm to the authorized and appropriate purpose for which they are being used;

(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. In addition to exempting all personnel and medical files, this exemption protects all private or personal information contained in other files, which, if disclosed to the public, would amount to a clearly unwarranted invasion of the privacy of any person, including a Government employee;

(7) Investigatory files compiled for law enforcement purposes except to the extent available by law to a party other than an agency. This exemption protects from disclosure, except to litigants in accordance with law, investigatory files compiled to enforce all kinds of laws and is not limited to files compiled to enforce criminal statutes. This exemption shall not prevent a Bureau employee from furnishing information, either oral or written, to a bank or other lending institution seeking to comply with the policy of the Treasury Department in 31 CFR 15.1 with respect to the remission or mitigation or forfeiture of a vehicle, vessel, or aircraft.

(b) A record which may be classified as exempt pursuant to paragraph (a) of this section nevertheless may be made available, in whole or in part, if it is determined in a particular case that there is no need to rely on the exemption.

§ 308.5 Fees for service.

Fees for service performed by the Bureau of Narcotics shall be the same as the fees imposed by the Office of the Secretary of the Treasury in Part 1 of Title 31 of the Code of Federal Regulations. No fee shall be paid by a bank or other lending institution seeking to comply with the policy of the Treasury Department in 31 CFR 15.1 with respect to the remission or mitigation or forfeiture of vehicles, vessels, and aircraft.

§ 308.6 Appeal.

(a) Any person denied access to records requested under § 308.3 may, within 30 days after notification of such denial, file an appeal to the Commissioner of Narcotics. Such an appeal shall be in writing addressed to the Commissioner of Narcotics, 633 Indiana Avenue NW., Washington, D.C. 20226. The appeal shall provide the name and address of the appellant, the identification of the record denied, and the dates of the original request and its denial.

(b) The appeal will be promptly considered. The granting or denial of the request upon appeal shall constitute final agency action.

§ 308.7 Records not to be otherwise withdrawn or disclosed.

Except in accordance with this chapter, or as otherwise authorized, Bureau of Narcotics officers and employees are prohibited from making available to any person, not an officer or employee of the Treasury Department, and are prohibited from withdrawing from the files, possession or control of the Bureau, records or duplicates thereof.

§ 308.8 Testimony or the production of records in a court or other proceeding.

(a) Bureau of Narcotics officers and employees are prohibited from testifying or otherwise furnishing information obtained as a result of their official capacities or in connection with the transaction of public business, in compliance with a subpoena or other order or demand of any court or other authority without the prior approval of the Commissioner of Narcotics, or his delegate.

(b) Bureau of Narcotics officers and employees are prohibited from furnishing any record in compliance with subpoenas duces tecum or other order or demand of any court or other authority without the prior approval of the Commissioner of Narcotics, or his delegate.

(c) In court cases in which the United States, the Treasury Department or the Bureau of Narcotics is not a party, where the giving of testimony is desired, an affidavit by the litigant or his attorney, setting forth the information with respect to which the testimony of a Bureau officer or employee is desired, must be submitted before permission to testify will be granted. Permission to testify will, in all cases, be limited to the information set forth in the affidavit or to such portions thereof as may be deemed proper.

(d) Where approval to testify or to furnish records in compliance with a subpoena, order, or demand is not given the person to whom it is directed will, if possible, appear in court or before the other authority and respectfully state his inability to comply in full with the subpoena, order, or demand, relying for his action upon this section.

§ 368.9 Regulations not applicable to official requests.

These regulations shall not be applicable to official requests of other governmental agencies or officers thereof acting in their official capacities, unless it appears that granting a particular request would be in violation of law or inimical to the public interest. Cases of doubt will be referred for decision to the Commissioner of Narcotics.

Effective date. These regulations shall be effective as of July 4, 1967.

[SEAL] HENRY L. GIORDANO,
Commissioner of Narcotics.

Approved: June 3, 1967.

JAMES POMEROY HENDRICK,
Special Assistant to the Secretary (for Enforcement).

[F.R. Doc. 67-7367; Filed, July 7, 1967; 8:48 a.m.]

Title 23—HIGHWAYS AND VEHICLES

Chapter II—Vehicle and Highway Safety

[Docket No. 9]

PART 255—INITIAL FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Standard No. 105, Hydraulic Service Brake, Emergency Brake, and Parking Brake Systems

A proposal to amend § 255.21 of Part 255—Initial Federal Motor Vehicle Safety Standards, Motor Vehicle Safety Standard No. 105 (32 F.R. 2410) to include specified emergency system performance of the braking system on passenger cars was published in the FEDERAL REGISTER on February 3, 1967 (32 F.R. 2418).

Interested persons have been afforded an opportunity to participate in the making of the amendment. Two comments suggested increasing the average emergency brake deceleration rate from 6 fps² to 8 fps². Another comment suggested adopting the 8.5 fps² deceleration rate of the proposed standards of the Economic Commission for Europe. Since these suggestions are beyond the scope of the notice of proposed rule making, they were not considered for this amendment. A higher deceleration rate was not proposed in the notice, because the National Traffic Safety Agency determined that a rate greater than that proposed would not be reasonable nor practicable for 1968 cars. One comment requested a change in the pedal pressure requirement of SAE J843a as applied to the emergency braking system. Since the requirements and test procedures of SAE J843a (except for vehicle loading) do not apply to the emergency braking system when determining compliance with paragraph S4.2.1, there is no emergency braking system pedal pressure requirement. Therefore no changes have been made in the amendment.

In consideration of the foregoing, § 255.21 of Part 255—Initial Federal Motor Vehicle Safety Standards, Motor Vehicle Safety Standard No. 105 (32 F.R. 2410), paragraph S4.2.1, is amended to read as follows:

S4.2.1 *Emergency System Performance.* If failure of a pressure component or insufficient hydraulic fluid in the system causes loss of pressure in any part of the brake system, the remaining portion of the brake system shall provide a stop of the vehicle loaded in accordance with SAE Recommended Practice J843a, June 1966, from a speed of 60 m.p.h., in not more than 646 feet, without pulling or swerving to the extent that would cause the vehicle to leave a level, 12-foot wide lane on a clean, dry, smooth, Portland cement concrete pavement (or other surface with equivalent coefficient of surface friction).

This amendment is made under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392, 1407) and the delegation of authority of March 31, 1967 (32 F.R. 5606), as amended April 6, 1967 (32 F.R. 6495), and becomes effective January 1, 1968.

Issued in Washington, D.C., on June 30, 1967.

LOWELL K. BRIDWELL,
Federal Highway Administrator.

[F.R. Doc. 67-7362; Filed, July 7, 1967; 8:47 a.m.]

[Docket No. 16]

PART 255—INITIAL FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Standard No. 205, Glazing Materials

Motor Vehicle Safety Standard No. 205 (32 F.R. 2414) specifies requirements for glazing materials for use in passenger cars, multipurpose passenger vehicles, motorcycles, trucks, and buses.

Paragraph S3.2 requires that exposed edges of glazing materials be treated in accordance with Society of Automotive Engineers Recommended Practice J673, "Automotive Glazing," June 1960. SAE J673 specifies that exposed edge radii be not less than 0.187 inch nor greater than 0.250 inch.

The National Highway Safety Bureau has determined that the minimum edge radius specified in SAE J673, while suitable for glazing of 0.250 inch nominal thickness, does not provide the same level of safety for glazing of less than 0.250 inch nominal thickness. Therefore, Standard No. 205 is being amended to require that exposed edge radii be not less than one half the nominal thickness of the glazing material.

Since this amendment relieves a restriction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, § 255.21 of Part 255—Initial Federal Motor Vehicle Safety Standards, Motor Vehicle Safety Standard No. 205 (32 F.R. 2414), paragraph S3.2, is amended to read as follows:

S3.2 *Edges.* In vehicles, except school buses, exposed edges shall be treated in accordance with Society of Automotive Engineers Recommended Practice J673, "Automotive Glazing," June 1960, except that the minimum edge radius dimension shall be not less than one half of the nominal thickness of the glazing material. In school buses, exposed edges shall be banded.

This amendment is made under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392, 1407) and the delegation of authority of March 31, 1967 (32 F.R. 5606), as amended April 6, 1967 (32 F.R. 6495), and becomes effective January 1, 1968.

Issued in Washington, D.C., on June 30, 1967.

LOWELL K. BRIDWELL,
Federal Highway Administrator.

[F.R. Doc. 67-7363; Filed, July 7, 1967; 8:47 a.m.]

[Docket No. 17]

PART 255—INITIAL FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Standard No. 210, Seat Belt Assembly Anchorages

Motor Vehicle Safety Standard No. 210 (32 F.R. 2415) specifies requirements for seat belt anchorages for passenger cars.

Paragraph S4.3.2.1 provides that the anchorage for the upper end of the upper torso restraint shall be to the rear of the extension of the torso line with the seat in its rearmost position, and the seat back in its rearmost driving position.

The National Highway Safety Bureau has determined that clarification is needed with respect to the required position of the seat and seat back when determining compliance with paragraph S4.3.2.1, and that, due to the configuration of the body structure of certain passenger cars, location of the upper anchorage to the rear of the extended torso line could result in an unfavorable compound belt angle. Therefore, Standard No. 210 is being amended to require that these anchorages be to the rear of a line extending 6 inches vertically above the shoulder reference point and then extending rearward at an angle of 80 degrees above the horizontal, with the seat in its rearmost driving position and the seat back in its nominal design driving position.

Since this amendment relieves a restriction and provides a clarification and it imposes no additional burden on any person, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, § 255.21 of Part 255—Initial Federal Motor Vehicle Safety Standards, Motor Vehicle Safety Standard No. 210 (32 F.R. 2415), paragraph S4.3.2.1, is amended to read as follows:

S4.3.2.1 With the seat in its rearmost driving position, and the seat back in its nominal design driving position, the anchorage for the upper end of the upper torso restraint shall be to the rear of a line extending 6 inches vertically above the shoulder reference point of the two-dimensional manikin described in Society of Automotive Engineers Standard J826, "Manikins for Use in Defining Vehicle Seating Accommodation," November 1962, and then extending rearward at an angle of 80 degrees above the horizontal. If the angle of the upper torso restraint passing from the shoulder of a seated 95th percentile adult male to the anchorage, or to a structure between the shoulder point and the anchorage, is downward from the horizontal, it shall be not more than 40 degrees.

This amendment is made under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392, 1407) and the delegation of authority of March 31, 1967 (32 F.R. 5606), as amended April 6, 1967 (32 F.R. 6495), and becomes effective January 1, 1968.

Issued in Washington, D.C., on June 30, 1967.

LOWELL K. BRIDWELL,
Federal Highway Administrator.

[F.R. Doc. 67-7364; Filed, July 7, 1967; 8:47 a.m.]

Title 45—PUBLIC WELFARE

Chapter X—Office of Economic Opportunity

PART 1030—COMMUNITY ACTION PROGRAMS

Requirement of Increase in Non-Federal Share

Section 1030.10 of Chapter X of Title 45 of the Code of Federal Regulations is hereby revised to read as follows:

§ 1030.10 Regulations governing requirement of increase in non-Federal share.

(a) *Purpose.* (1) A 1966 amendment to section 208(a) (42 U.S.C. 2788(a)) of the Economic Opportunity Act increased the basic non-Federal share requirement applicable to community action (CAP) grants under sections 204 and 205(a) (42 U.S.C. 2784, 2785(a)) of Title II–A of the Act from 10 to 20 percent, effective July 1, 1967. However, section 208(a) permits OEO to exercise discretion in making the transition to the stricter requirement and in allowing relief from the non-Federal share requirement to ease the burden on communities where real hardship would be felt.

(2) This section explains non-Federal share requirements with regard to future grant actions under sections 204 and 205(a).[1] Paragraph (b) of this section describes general non-Federal share rules applicable to most communities. The major provision in paragraph (b) of this section is the adoption of a so-called "32 month rule". In essence, all community action agencies (CAA's) and single-purpose grantees with the exception of 1967 Summer Head Start and Upward Bound will have a 32-month operation period under the 10 percent requirement prior to meeting the 20 percent non-Federal share requirement as set out in section 208 of the Economic Opportunity Act. The rule set forth in paragraph (b) of this section is intended to insure fair treatment as between grantees which have been funded by OEO for a substantial period of time and those initially funded in more recent months. (NOTE: Paragraph (d) of this section explains the special steps to be followed by grantees which will reach their 33d month of CAP funding during a current program year or grant period.)

(3) Paragraph (c) of this section explains special exemption rules applicable to communities with per capita incomes below $1,000 per year. These rules are intended to provide lower non-Federal share requirements for communities and counties which have the most serious overall poverty.

(b) *Basic non-Federal share requirements.*—(1) *General rule.* (i) Grantees that are not eligible for exemption under paragraph (c) of this section will be required to provide a 20 percent non-Federal share for any portion of their program which will be conducted after the grantee has been funded by OEO for 32 months. The original groups of CAP grantees funded in November 1964 will reach their 33d month on July 1, 1967. Those funded originally in December 1964 will reach their 33d month on August 1, 1967, and so on.

(ii) All grantees not eligible for total or partial exemption under paragraph (c) of this section reaching their 33d month during a program year or grant period will thus be required to furnish a non-Federal share of at least 10 percent but not more than 20 percent of their total program costs during that program year. Those grantees affected during their current program year, should consult paragraph (d) of this section.

(iii) For purposes of computing the non-Federal share required under this rule, it will be assumed that monthly program expenditures are made evenly throughout a grant program. The non-Federal share required under the rule therefore depends on the number of program months which will occur following the 32d anniversary of a grantee's original OEO grant. The resulting percentage is to be rounded to the nearest whole number, i.e., upward if five-tenths of 1 percent or more, downward if four-tenths of 1 percent or less. The formula for computing this is shown below:

$$\text{Non-Federal} = 10\% \text{ (basic)} + \left(\frac{A}{B} \times 10\%\right).$$

A = Number of months of current program year occurring after end of 32-month grace period.

B = Total number of months in program year.

Example: A community action agency which received its first OEO grant in March 1965, requests OEO assistance for a new component project to run from August 1, 1967, through March 31, 1968.

Number of months of grant participation as of July 31, 1967 is 29.

A. Number of months occurring after 32d (i.e. Nov. 1, 1967, to Mar. 31, 1968) = 5 months.

B. Inclusive dates of new grant action (i.e. Aug. 1, 1967, to Mar. 31, 1968) = 8 months.

Non-Federal contribution = 10% (basic) + $\frac{5}{8} \times 10\% = 10\% + 6.25\% = 16\%$.

Exhibit I is attached to serve as a ready guide to the non-Federal share percentage to be approved. In all instances when the new grant is on a 12-month basis, the attached table can be used to determine the overall non-Federal percentage contribution. The table is to be used as follows:

Read down Column A until the date of initial grant from OEO.

Read across the row for that date to the column for the ending month of new grant (under D).

The number where the latter column intersects the proper row is the non-Federal percentage contribution.

When the new grant period covers less or more than 12 months, the above formula should be used.

(2) *Reorganized grantees and transferred grants.* Where a program has been transferred from a previous grantee to the present one or where the original grantee has been reorganized or dissolved in favor of the present one, the 32 months will be counted from the date of the original grant to the original grantee.

(3) *Single-purpose agencies.* (i) The non-Federal share of an established single-purpose grantee in a community where there is also a CAA will be determined on the basis of the single-purpose grantee's own history. The same will be

[1] For information concerning non-Federal share requirements in the projects under the Community Betterment and Employment Program under sec. 205(d) of the Act (42 U.S.C. 2785(d)) and the New Careers Program under sec. 205(e) of the Act (42 U.S.C. 2785(e)) administered by the Department of Labor, see 29 CFR 51.4(c)(1), 32 F.R. 6440, 6443 (Apr. 16, 1967).

true for applicants for independent funding of new programs.

(ii) However, the non-Federal share required of an agency which seeks independent or direct funding for a program which it previously ran as a delegate agency of a CAA will be determined on the basis of the history of the CAA.

(iii) See subparagraphs (5) and (6) of this paragraph for rules specially applicable to Summer Head Start programs and Upward Bound programs.

(4) *Rule for multicounty CAA's resulting from merger.* Where two or more CAA's for different counties (or other political jurisdiction) have merged into a multicounty CAA, the status of each CAA (prior to merger) will be considered in developing the overall rate of the new CAA. As a point of practical application, each prior CAA will be considered separately and then totaled in arriving at an overall non-Federal cost and rate of the newly formed CAA. However, should any of the segments be subject to the relief granted CAAs in low per capita income countries (see paragraph (c) of this section), a further percentage adjustment may be in order. An exception to this general rule is the adoption of an overall 20 percent rate where, at the discretion of the OEO Regional Directors, such an action would work no hardship on the newly formed CAA.

Example 2:

County "A"—$200,000—funded 28 months as of June 30, 1967.
County "B"—$400,000—funded 32 months as of June 30, 1967.
County "C"—$300,000—funded 26 months as of June 30, 1967.

The funding program of the multicounty CAA is from July 1, 1967, to June 30, 1968. In all counties, the per capita income is over $1,000. Using the attached table, the percentage rate is as follows for each of the counties.

	Rate	Program amount	Non-Federal contribution
	Percent		
County "A"	17	$200,000	$34,000
County "B"	20	400,000	80,000
County "C"	15	300,000	45,000
Total		900,000	159,000=18%

On the basis of the above, an overall rate of 18 percent will be charged the multicounty CAA. Note that any program which serves all these counties will be required to furnish the 18 percent local share. Where the specific amount, by county, is not readily available, an allocation of the total grant should be developed on a judgment basis. When data is not available to develop a cost allocation, the Regional Director will determine a non-Federal contribution percentage based on whatever facts are available. In all cases, at least a 10 percent non-Federal share shall be required unless the grantee qualifies for total or partial exemption under paragraph (c) of this section.

Example 3:

"D" is a multicounty CAA which covers counties "R," "S," and "T" as shown below. All of the funds requested are for multicounty components. None of the components can be associated with any specific county or even any two of the three counties. Therefore the only basis for determining non-Federal share is population.

To determine the total amount of non-Federal share in dollars that will be required of the CAA, follow the procedure described.

1. Determine the percentage the population of each county is of the total population of the area covered by the CAA.

2. Multiply the total dollar amount to be requested by the population percentage figure thus obtained for each of the counties. This apportions the total dollars requested to each county.

3. Determine the local share percentage for each county based on the per capita income (less than $750; $750–$1,000; over $1,000).

4. Multiply the dollars apportioned to the county by its local share percentage figure. This determines the dollar amount of local share each county must contribute.

5. Add the local share dollar amounts for each of the counties to obtain the total non-Federal share that will be required.

MULTICOUNTY "D"—$80,000 POPULATION; $100,000 GRANT REQUESTED

County	Population	Percent of total population	Dollar portion of request based on population	Local share category	Local share dollar amount
		Percent		*Percent*	
"R" (Below $750 [1] per capita)	160,000	50	$50,000	5	
"S" (Between $750–$1,000 [1] per capita)	80,000	25	25,000	10	$2,500
"T" (Over $1,000 per capita and operating for 32 months) [2]	80,000	25	25,000	20	5,000
Total local share			25,000		
Total Federal share			62,500		
Total program			100,000		

[1] See paragraph (c) of this section for rules for low-income counties.
[2] If County "T" would not reach its 32d month of operation until 3 months after the start of the new program year, the local share percentage would be only 17½ percent, that is, 10 percent local share would be required for the first 3 months and 20 percent for the last 9 months.

(5) *Special rule for Summer Head Start programs.* Commencing with the programs funded for summer of 1967, all local agencies which are not eligible for relief under paragraph (c) of this section will be expected to provide a 20 percent non-Federal share of the costs of summer Head Start programs. This will be true even though under preceding paragraphs of this paragraph (b), the same grantee may provide a smaller non-Federal share for other component programs which will be operating at the same time.

(6) *Special rule for Upward Bound programs.* (i) The round of Project Upward Bound grant actions effective April 1, 1967, will all be funded on a 90 percent–10 percent basis. This will be true even when the grantee is a CAA which will be required to contribute a 20 percent local share for its other component programs which are being conducted simultaneously.

(ii) Commencing in 1968, all Upward Bound grant actions will be funded on an 80 percent–20 percent basis, without regard to the 32-month rule.

(c) *Exemptions from non-Federal share requirements for communities with per capita incomes below $1,000 per year*—(1) *General rules.* (i) The Economic Opportunity Act provides, in subsection 208(a) (42 U.S.C. 2788(a)), that the Director of OEO may relieve grantees of all or part of the non-Federal share requirements. Previously, when the basic non-Federal share required for section 204/205 grants was 10 percent, an exemption was granted to communities with annual per capita incomes below $750 according to 1960 census data to the extent that they were unable to raise non-Federal share. This exemption will be continued.

(ii) Moreover, with the increase in basic non-Federal share requirements to 20 percent, OEO will extend a partial exemption to an additional group of about 500 counties with per capita incomes above $750 but below $1,000 per year according to 1960 census data. The exemption rules are as follows:

(A) As in the past, grantees serving communities with per capita incomes below $750 per year are expected to provide 10 percent of the program cost whenever possible. However, as in the past, such grantees may request exemption from that portion of the required non-Federal share which they are unable to provide.

(B) Grantees serving communities with per capita incomes in the $750–$999 range shall in all cases provide at least 10 percent non-Federal share but may request exemption from that portion of the non-Federal share above 10 percent which they are unable to provide.

(iii) For these purposes, community per capita incomes may be based on data from the 1960 U.S. Census of Population or any more recent reliable source of per capita income data submitted by the applicant agency.

(iv) The request for a waiver of the non-Federal share requirements under paragraph (A) or paragraph (B) above should be in the form of a letter accompanying the application for CAP grant and shall state clearly (a) the basis on which the community's per capita income was determined; (b) the amount of non-Federal share which the community can provide; and (c) that the applicant has made a reasonable effort to raise more non-Federal share and has been unsuccessful. OEO may require that additional evidence be submitted in support of these representations.

(2) *Rule for multicounty programs.* Generally, the waiver of part or all of the non-Federal share will be based on a showing that the per capita income of the entire community served by the community action programs is below $750 or $1,000 per year. However, if there are one or more counties in a multicounty area served by a single CAA having per capita incomes below $750 (or $1,000), even though the multicounty area, taken as a whole, does not, the CAA may request relief from its overall non-Federal share requirement for component projects designed to serve only the poorest counties. Note that this rule is not intended to either encourage or discourage the development or continuance of components to serve only one county in a multicounty CAA.

Example 4:

"G" a multicounty CAA, serves four counties, "W," "X," "Y," and "Z." Counties "W" and "X" have per capita incomes below $750. The other counties have per capita incomes in the $750–$999 range. The entire area served by "G" has a per capita income below $1,000 but not below $750. Its normal non-Federal share requirement is thus 10 percent, but for programs serving only county "W" or county "X" it is entitled to relief from that requirement if it cannot raise the non-Federal share.

The non-Federal share requirement on its grant may be calculated as follows:

Component projects	Total cost	Minimum required Non-Federal share
Head Start in county "W"	$50,000	
Legal services in county "X"	35,000	
Head Start in county "Y"	10,000	$1,000
Neighborhood Center in county "Z"	50,000	5,000
Program administration	10,000	1,000
Total	195,000	17,000

Note that the Program Administration component, which serves all four counties, is required to provide non-Federal share on the basis of 10 percent because the four-county area, taken as a whole, has a per capita income below $1,000 but not below $750.

OEO will permit pooling of the non-Federal share as between exempt and nonexempt counties served by the same CAA. See paragraph (e)(1) of this section.

(3) *Special rule for programs serving reservation Indians and migrant groups.* In cases where a CAA or other Title II–A grantee provides a specific component program solely for the benefit of Indians on Federal or State reservations within the community or for the benefit of groups of migrant farm workers who live, or earn their living, outside of the community 6 months or more a year, the CAA shall be entitled to seek a partial or total exemption of the non-Federal share requirements for the costs of those component programs in cases where the per capita income of the groups served is below $1,000. If the per capita income is below $750, the Regional Director is authorized to grant an exemption for that portion of the non-Federal share which the CAA is unable to provide. If the per capita income is in the $750–$999 range, the Regional Director is authorized to grant an exemption for the portion of the non-Federal share above 10 percent of program costs which the CAA is unable to provide. Exemptions granted under this paragraph will apply only to the particular component programs serving Indians or migrants, and shall not operate to reduce the non-Federal share requirements applicable to other component programs operated by the same CAA.

(d) *Instructions to grantees reaching their 33d month during a current program year.* (i) Grantees who, according to the rules in paragraph (b) of this section, will reach their 33d month of CAP funding during their present program years (or other grant periods) will be responsible for contributing the additional non-Federal share of costs called for according to the table in Exhibit I. They will be expected to submit revised CAP Form 25's for affected component projects identifying the value and kind of increased local share and showing a corresponding reduction in Federal funds.

(ii) Note that no increase in a grantee's level of approved program will be permitted on account of the increase in the required non-Federal share. That increase will be offset by a corresponding decrease in Federal support for the component projects in question.

(iii) Following receipt of the revised CAP Forms 25, the appropriate OEO/CAP office will review the changes and, upon approval, will issue a supplemental CAP Form 14 together with copies of the CAP Form 25's showing the approved changes.

(iv) Failure to take prompt action to provide the required increase in non-Federal share and to achieve a corresponding reduction in Federal funds may necessitate remedial action by OEO. Such action may include suspension or termination of the grant, and legal action to recover non-Federal share deficiencies and overexpenditures of Federal funds.

(e) *General*—(1) *Pooling of non-Federal share during program years.* (i) Grantees are reminded that the pooling of non-Federal share among all components of the same grant during a single program year is acceptable. The policy stated in CAP Guide, Volume II (Part I, par. 4 (page 20)) with reference to pooling in terms of the Federal fiscal year is obsolete and under revision.

(ii) The pooling provision should be utilized to lessen the burden of the increased non-Federal share requirement for component programs which will have the greatest difficulty in providing increased non-Federal share.

(2) *For further information.* Applicants are advised to communicate with the appropriate OEO Regional Office for any further specific information they may need with regard to non-Federal share requirements.

Dated: June 27, 1967.

SARGENT SHRIVER,
Director,
Office of Economic Opportunity.

[F.R. Doc. 67-7613; Filed, July 7, 1967; 8:45 a.m.]

Title 49—TRANSPORTATION

Subtitle A—Office of the Secretary of Transportation

PART 9—TESTIMONY OF EMPLOYEES OF OFFICE OF THE SECRETARY

This amendment adds a new Part 9 "Testimony of Employees of Office of the Secretary" to the regulations of the Office of the Secretary to state the policies and procedures of that Office with respect to the testimony of its employees in legal proceedings, the service of legal process, and the production of records pursuant to a subpoena. The new Part does not apply to the National Transportation Safety Board, the U.S. Coast Guard, the Federal Aviation Administration, the Federal Highway Administration, the Federal Railroad Administration, or the St. Lawrence Seaway Development Corporation.

Government agencies are often requested by private litigants to furnish expert witnesses as to technical or other matters that are within the scope of agency functions. It is the policy of the Office of the Secretary of Transportation not to authorize its employees to testify in these cases for the reasons enumerated in § 9.5. However, this Part does establish procedures whereby, under appropriate circumstances, an employee may testify as to facts within his personal knowledge, while refraining from opinion testimony. The regulation does not apply to those private cases in which an employee may be called upon to testify, while on leave, as to facts or events that have no relationship to his duties and the functions of the Department.

The new Part 9 also states the method whereby records of the Office of the Secretary may be subpoenaed and explains the relationship of records sought to be obtained by subpoena to records that may be made available, upon request and without a subpoena, under Part 7 "Public Availability of Information."

Section 9.15 sets forth the titles of the officials of the Office of the Secretary who are authorized to accept service of legal process or pleadings on behalf of the Secretary.

Since this amendment concerns itself with matters relating to Departmental management, procedures, and practices, notice and public procedure hereon is not required, and it may be made effective in less than 30 days after publication in the FEDERAL REGISTER.

This amendment is made under the authority of section 9 of the Department of Transportation Act (P.L. 89-670; 49 U.S.C. 1657).

In consideration of the foregoing, Subtitle A of Title 49 is amended, effective July 10, 1967, by adding the following new Part 9 "Testimony by Employees of Office of the Secretary."

Issued in Washington, D.C., on July 1, 1967.

ALAN S. BOYD,
Secretary of Transportation.

Sec.
9.1 Purpose.
9.3 Testimony by employees in proceedings involving United States.
9.5 Legal proceedings between private parties: General rule.
9.7 Legal proceedings between private litigants: Subpoenas.
9.9 Legal proceedings between private litigants: Factual testimony.
9.11 Legal proceedings between private litigants: Expert or opinion testimony.
9.13 Legal proceedings between private litigants: Disclosure of records.
9.15 Acceptance of service on behalf of Secretary.

AUTHORITY: The provisions of this Part 9 issued under sec. 9 of the Department of Transportation Act (P.L. 89-670; 49 U.S.C. 1657).

§ 9.1 Purpose.

(a) This part prescribes the policies and procedures of the Office of the Secretary of Transportation with respect to testimony of its employees as witnesses in legal proceedings, the serving of legal process and pleadings in legal proceedings involving the Secretary or his Office, and the production of records of that Office pursuant to subpoena.

(b) The General Counsel may grant permission to deviate from a policy or procedure prescribed by this part. He may grant that permission only when—

(1) It is necessary to prevent a miscarriage of justice;

(2) The Department has an interest in the decision that may be rendered in the legal proceeding; or

(3) The deviation is in the best interests of the United States.

(c) For the purposes of this part, "legal proceeding" includes any proceeding before a court of law, administrative board, hearing officer, or any other body conducting a legal or administrative proceeding.

(d) This part does not apply to any legal proceeding in which an employee is to testify, while in leave status, as to facts or events that are in no way related to the duties he performs or to the functions of the Department.

§ 9.3 Testimony by employees in proceedings involving United States.

(a) An employee of the Office of the Secretary shall testify as a witness for the United States whenever, in any legal proceeding involving the United States, the attorney in charge of presenting the case for the United States requests it.

(b) An employee of the Office of the Secretary may not testify as an expert or opinion witness for an adverse party in any legal proceeding in which the United States is involved, but may testify as to facts.

§ 9.5 Legal proceedings between private parties: General rule.

Subject to §§ 9.7 and 9.11, an employee of the Office of the Secretary of Transportation is not authorized to testify as an expert or opinion witness in any legal proceeding between private litigants for the following reasons:

(a) To conserve the time of employees for conducting official business.

(b) To minimize the possibility of criticism of the Department in cases in which its employees participate in controversial issues.

(c) To avoid spending the time and money of the United States for private purposes.

§ 9.7 Legal proceedings between private litigants: Subpoenas.

(a) Whenever, in a legal proceeding between private litigants, an employee of the Office of the Secretary is properly served with a subpoena, he shall immediately report the service to the General Counsel, who shall determine whether the employee is required to comply and shall provide legal representation for the employee.

(b) Whenever an employee's compliance with a subpoena would adversely affect the performance of official duties the General Counsel shall attempt to have the subpoena withdrawn or modified.

§ 9.9 Legal proceedings between private litigants: Factual testimony.

(a) An employee of the Office of the Secretary who has been properly subpoenaed in a legal proceeding between private litigants shall testify as to facts within his personal knowledge, even if the facts are contained in a report that he is not allowed to produce. However, he must obtain the permission of the General Counsel before disclosing any information that is restricted by statute or regulation.

(b) An employee who gives factual testimony shall avoid any statements of opinion.

§ 9.11 Legal proceedings between private litigants: Expert or opinion testimony.

If, while testifying in a legal proceeding between private litigants, an employee of the Office of the Secretary is asked for expert or opinion testimony, he shall decline to answer on the grounds that he is forbidden to do so by this part. If he is then ordered by competent authority to testify, he shall do so.

§ 9.13 Legal proceedings between private litigants: Disclosure of records.

(a) Copies of any records available for public inspection under Part 7 "Public Availability of Information", are available, as provided in that part, to litigants upon request.

(b) If copies of records that are available for public inspection under Part 7 are subpoenaed, the person subpoenaing them is liable for the fee established under that part for the production of those records, including any search for them.

(c) If an employee is served with a subpoena calling for records that the General Counsel determines should not be released, the General Counsel shall attempt to have the subpoena withdrawn or modified. If this cannot be done, the employee shall appear at the time and place specified in the subpoena, accompanied by an attorney from the Office of the General Counsel or the Department of Justice, as appropriate, and explain to the authority conducting the proceeding that a statute or regulation prohibits him from producing the records.

(d) If an employee who follows the procedure in paragraph (c) of this section is ordered to show cause why he should not be cited for contempt of court, the General Counsel shall request the Department of Justice to represent the employee.

§ 9.15 Acceptance of service on behalf of Secretary.

Process or pleadings in any legal proceeding may be served, at the option of the server, on the General Counsel, the Deputy General Counsel, or the Assistant General Counsel for Litigation, with the same effect as if served upon the Secretary. The official accepting the service for the Secretary acknowledges the service and takes further action as appropriate.

[F.R. Doc. 67-7676; Filed, July 7, 1967; 8:47 a.m.]

Title 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of International Commerce, Department of Commerce

SUBCHAPTER B—EXPORT REGULATIONS

[10 Gen. Rev. of Export Regs., Amdt. 31]

EXPORTS OF COPPER, NICKEL AND NICKEL ALLOYS

I. Exports of copper, July and August 1967.

Purpose and effect: Short supply controls over the export of copper and copper products will be continued at the same level as during the first half of 1967. However, because of the current unsettled condition of supply and demand, export licensing quotas are being established for a 2-month period, July and August 1967. These export licensing quotas are as follows:

Commodity	*Quota*
(a) Copper scrap, as follows: Copper metalliferous ash and residues (Export Control Commodity No. 28401); Copper or copper-base alloy waste and scrap, including copper alloy waste and scrap of less than 40 percent copper content where copper is the component of chief weight (Export Control Commodity No. 28402); Nickel waste and scrap containing 50 percent or more copper irrespective of nickel content (Export Control Commodity No. 28403).	5,500 copper content short tons.
(b) Refined copper including remelted, in cathodes, billets, ingots (except copper-base alloy ingots), wire bars, and other crude forms (Export Control Commodity No. 68212).[1]	8,330 copper content short tons.
(c) Copper-base alloy ingots composed essentially of copper with one or more other metals, for example: Beryllium copper ingots, devarda alloy ingots, guines alloy ingots, ounce metal ingots, etc. (Export Control Commodity No. 68212).	330 copper content short tons.
(d) Semifabricated copper products and master alloys of copper, as follows:[2]	3,000 copper content short tons.

[1] Shipments of refined copper produced from foreign-origin copper raw materials, and refined copper produced from material which was declared as an offset against an equivalent quantity of foreign-origin copper raw materials entered into the United States under a U.S. Customs Import Entry made within 3 months preceding the date of the license application, will be licensed without a charge against the quota (see § 373.42(b)(2)).

[2] Shipments of semifabricated copper products and master alloys of copper under U.S. military contracts or under contracts financed by the Agency for International Development will be licensed without a charge against the quota (see § 373.43(d)(2)).

Export Control Commodity Number and Commodity Description	
68713	Master alloys of copper.
68221	Bars, rods, angles, shapes, sections, and wire of copper or copper-base alloy.
68222	Plates, sheets, and strips of copper or copper-base alloy.
68223	Copper foil.
68223	Paper backed copper foil.
68224	Copper or copper alloy powders and flakes.
68225	Tubes, pipes, and blanks therefor, and hollow bars of copper or copper-base alloy.
65893	Copper and copper-base alloy castings and forgings.
72310	Wire and cable coated with, or insulated with, fluorocarbon polymers or copolymers.
72310	Coaxial-type communications cable as follows: (a) Containing fluorocarbon polymers or copolymers, (b) using a mineral insulator dielectric, (c) using a dielectric aired by discs, beads, spiral, screw, or any other means, (d) designed for pressurization or use with a gas dielectric, or (e) intended for submarine laying.
72310	Other coaxial cable.
72310	Communications cable containing more than one pair of conductors of which any one of the conductors, single or stranded, has a diameter exceeding 0.9 mm. (0.035 inch), as follows: (a) Cable in which the nominal mutual capacitance of paired circuits is less than 58 nanofarads/mile (38 nanofarads/KM), except conventional paper and air dielectric types, (b) submarine cable, or (c) cable containing fluorocarbon polymers or copolymers.

Export Control Commodity Number and Commodity Description	
72310	Other communications cable containing more than one pair of conductors and containing any conductor, single or stranded, exceeding 0.9 mm. in diameter.
72310	Other copper or copper-base alloy insulated wire and cable.

Licensing under past participation in exports licensing method. The quotas set forth above for copper-base scrap, refined copper, and copper-base alloy ingots will continue to be licensed entirely in accordance with the Past Participation in Exports licensing method described in § 373.8 of the U.S. export regulations.

Of the total quota of 3,000 copper content short tons established for semifabricated copper products and master alloys of copper, 55 percent (or 1,950 copper content short tons) will be allocated in accordance with the Past Participation in Exports licensing method. The remaining portion of the quota (1,050 copper content short tons) again will be reserved to meet essential export requirements that cannot be satisfied under the Past Participation in Exports licensing method.

The Office of Export Control will notify each exporter of his share of a quota.

Time schedules for submitting applications. An exporter who qualifies as a "historical exporter" under the Past Participation in Exports licensing method may submit his applications as soon as he receives his notice of entitlement but not later than August 15, 1967. An exporter who does not qualify as a "historical exporter" shall submit his applications no later than July 31, 1967.

The submission of applications for licenses to export semifabricated copper products and master alloys of copper is not subject to time schedules. Applications for these products may be submitted at any time.

Applicability of other provisions. Exporters are reminded that all other special copper provisions continue in effect. These provisions are set forth in §§ 373.20 and 373.43. It should be noted in particular that applications for licenses to export copper ores, concentrates, matte, and blister copper generally are denied. However, applications for licenses to export these commodities as well as copper and copper-base alloy waste and certain nickel scrap that cannot be processed commercially in the United States will continue to be considered for licensing without a charge against an export quota.

Effective date: June 20, 1967.

II. *Exports of nickel and nickel alloys.* A validated export license will now be required for shipments to Country Groups T and V of the nickel and nickel alloys and the nickel scrap described below. This added requirement is in addition to the previous requirement of a validated export license for shipments of these commodities to Country Groups S, W, X, Y, and Z.

Export Control Commodity Number and Commodity Description	
28403	Any nickel or nickel alloy waste and scrap, not previously requiring a validated license for shipments to Country Groups T and V.
51369	Nickel oxide.
51470	Nickel sulfate.
67160	Ferronickel containing 90 percent or less of nickel.
68310	Any nickel or nickel alloys, unwrought, not previously requiring a validated license for shipments to Country Groups T and V.
68324	Nickel or nickel alloy electroplating anodes.

Shipments of these commodities removed from general license as a result of this change that were on dock for lading, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a.m., June 10, 1967, may be exported under the previous general license provisions up to and including July 10, 1967. Any such shipment not laden aboard the exporting carrier on or before July 10, 1967, requires a validated license for export.

Effective date of action: June 10, 1967.

Amendments to the U.S. Export Regulations (15 CFR Ch. III, Subch. B) reflecting the above changes will be published in the near future.

(Sec. 3, 63 Stat. 7; 50 U.S.C. App. 2023; E.O. 10945, 26 F.R. 4487, 3 CFR 1959–63 Comp.; E.O. 11038, 27 F.R. 7003, 3 CFR 1959–63 Comp.)

RAUER MEYER,
Director,
Office of Export Control.

[F.R. Doc. 67-7493; Filed, July 7, 1967; 8:49 a.m.]

[10 Gen. Rev. of Export Regs., Amdt. 32]

MISCELLANEOUS AMENDMENTS TO CHAPTER

Parts 369, 370, 372, 373, and 379 of the Code of Federal Regulations are amended as set forth below.

(Sec. 3, 63 Stat. 7; 50 U.S.C. App. 2023; E.O. 10945, 26 F.R. 4487, 3 CFR 1959–63 Comp.; E.O. 11038, 27 F.R. 7003, 3 CFR 1959–63 Comp.)

Effective date: June 28, 1967.

RAUER MEYER,
Director,
Office of Export Control.

I. *Reporting requirement.*

Purpose and effect: The provisions of § 369.2 of the U.S. Export Regulations require any U.S. exporter, who receives a request for any action that has the effect of furthering or supporting a restrictive trade practice or boycott fostered by any foreign country against any country not included in Country Group S, W, Y, or Z, to report such a request to the Office of Export Control. To clarify the applicability of this reporting requirement, an "exporter" is construed to be that person who, as the principal party in interest in the export transaction, has the power and responsibility for determining and controlling the sending of the commodities and technical data out of the United States.

Accordingly, the note following § 369.2 is revised to read as set forth below.

II. *Request for waiver of documentation for certain reexports.*

In accordance with the provisions of § 372.12(c)(2) of the Export Regulations, requests for authorization to reexport to certain specified destinations require the submission of documents such as Consignee/Purchaser Statements, Swiss Blue Import Certificates, or Yugoslav End Use Certificates. The Export Regulations are revised to point out that if the document cannot be obtained, the applicant may request a waiver of the documentation requirement.

The Office of Export Control will give consideration to the waiver request when a satisfactory explanation accompanies the request, and such waiver will not be contrary to the objectives of the U.S. Export Control program.

Accordingly, a new paragraph is added to § 372.12(c)(2)(ii)(c) as set forth below.

III. *Parts, components, and materials in foreign-made end-products.*

Purpose and effect: To avoid any misunderstanding of the scope of export controls, a specific statement has been added to the Export Regulations explaining that parts, components, materials, or other commodities exported from the United States and used abroad to manufacture or produce a foreign-made end-product are subject to the export control laws of the United States. The Department of Commerce exercises vigilance over exports and reexports of these commodities to prevent such exports or reexports from being used for a purpose detrimental to the national security or foreign policy of the United States.

Accordingly, a new § 370.11 is added, as set forth below.

IV. *Kansas City, Mo., Airport authorized to clear air shipments.*

Purpose and effect: Certain inland airports in the United States have been authorized to clear air shipments for export, as set forth in § 379.12 of the U.S. Export Regulations. Kansas City, Mo., is now added to the list of airports with this authority.

Accordingly, § 379.12(c) is amended as set forth below.

V. *Additional country adhering to Limited Nuclear Test Ban Treaty.*

Purpose and effect: Section 373.7 of the U.S. Export Regulations sets forth the procedures to be followed when exporting commodities and technical data related to nuclear weapons, nuclear explosive devices, or nuclear testing. Certain provisions of these regulations do not apply to destinations subject to the jurisdiction of a country which is an adherent to the "Limited Nuclear Test Ban Treaty" (see list of countries adhering to this treaty in Part 373, Supplement No. 4 of the U.S. Export Regulations).

The Federation of Nigeria deposited an instrument of ratification with the U.S. Department of State on February 28, 1967, and is now added to the list.

Accordingly, Supplement No. 4 to Part 373 is amended as set forth below.

VI. *Exports of copper, July and August 1967.*

Supplement 1 of Part 373 is revised to read as set forth below.

The amendments to Parts 369, 370, 372, 373, and 379 are as follows:

PART 369—REQUEST FOR INFORMATION OR ACTION IN SUPPORT OF CERTAIN FOREIGN RESTRICTIVE TRADE PRACTICES OR BOYCOTTS

§ 369.2 Reporting requirements.

* * * * * * *

NOTE: *1. Exporter.* For the purpose of the reporting requirement set forth in § 369.2, an exporter is construed to be that person who, as the principal party in interest in the export transaction, has the power to determine and control and the responsibility for determining and controlling the sending of the commodities and technical data out of the United States.

2. Examples of restrictive trade practices or boycotts. The above § 369.2 refers to "a request for an action that has the effect of furthering or supporting a restrictive trade practice or boycott fostered by any foreign country against any country not included in Country Group S, W, Y, or Z * * *." These requests may be received by U.S. exporters in the form of general questionnaires to be answered, specific statements or certifications to be supplied in particular transactions, or other types of requests for action. Shown below are some examples of requests that could indicate the furthering or supporting of restrictive trade practices or boycotts.

a. A request for information as to whether the U.S. exporter or any subsidiary or affiliate of the U.S. exporter has, or intends to have, any stockholders, owners, employees, or officers who are nationals of a boycotted country.

b. A request for information as to whether the U.S. exporter or any subsidiary or affiliate of the U.S. exporter has, or intends to have, any stockholders, owners, employees, or officers who are members of a religious organization or of a race, creed, or color generally associated with a boycotted country.

c. A request for information as to whether the U.S. exporter or any subsidiary or affiliate of the U.S. exporter has, or intends to have, any business relationship with a boycotted country or a national of a boycotted country. These business relationships include but are not limited to trade in commodities or technical know-how, licensing arrangements, advertising, or promotion of sale of goods originating in a boycotted country, or use of such goods as components in a manufacturing process.

d. A request for information as to whether the U.S. exporter or any subsidiary or affiliate of the U.S. exporter does any business, or intends to do any business, with any firm that has a business relationship with a boycotted country or a national of a boycotted country.

e. A request for information as to whether the U.S. exporter or any subsidiary or affiliate of the U.S. exporter has any investments, including branches, subsidiaries, affiliates, or holdings, or any commercial or legal representation in a boycotted country or a business firm located in, or doing business in, a boycotted country.

f. A restriction prohibiting the U.S. exporter or any subsidiary or affiliate of the U.S. exporter from using shipping or transportation facilities that are "blacklisted" by the importing country: *Provided, however,* That a request or restriction solely precluding the export of commodities to the importing country on (a) shipping or transportation facilities owned, controlled, operated, or chartered by a country or a national of a country, friendly to the United States but not friendly to the importing country, or (b) a carrier that stops at a port in a country friendly to the United States but not friendly to the importing country prior to stopping at the port of unlading, is not deemed a restrictive practice within the meaning of section 2(4) of the Export Control Act, but rather a precautionary measure to avoid any risk of confiscation of the commodities. Accordingly, the two aforementioned types of shipping restrictions are exempted from the reporting requirement of this section.

The above examples of types of requests, which could indicate the furthering or supporting of restrictive trade practices or boycotts, are merely illustrative, and are not intended in any sense to be the only examples of restrictive trade practices or boycotts.

PART 370—SCOPE OF EXPORT CONTROL BY DEPARTMENT OF COMMERCE

§ 370.11 Parts, components, and materials in foreign-made end-products.

Parts, components, materials, or other commodities exported from the United States and used abroad to manufacture or produce a foreign-made end-product are subject to the export control laws of the United States. The Department of Commerce exercises vigilance over exports and reexports of these commodities in order to prevent such exports or reexports from being used for a purpose detrimental to the national security or the foreign policy of the United States.

PART 372—PROVISIONS FOR INDIVIDUAL AND OTHER VALIDATED LICENSES

§ 372.12 Reexportation.

* * * * * * *

(c) *Reexportation request subsequent to submission of license application.*
* * *

(2) *Additional special requirements.*
* * *

(ii) * * *

(c) * * *

If the required documentation cannot be obtained, waiver may be requested in accordance with the applicable provisions of the Export Regulations. (See § 373.65 (b)(6) for waiver of a Consignee/Purchaser Statement; 373.2(j) for waiver of an Import Certificate; § 373.67(d) for waiver of a Swiss Blue Import Certificate; and § 373.70(d) for waiver of a Yugoslav End Use Certificate.)

* * * * * * *

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

Supplement No. 1—Time Schedules for Submission of Applications for Certain Commodities

Export control commodity No.	Commodity	Submission dates for nonhistorical applicants (No later than date shown below)	Submission dates for historical applicants (No later than date shown below)
28401	Copper metalliferous ash and residues	July 31, 1967	Aug. 31, 1967
28403	Copper or copper-base alloy waste and scrap, including copper alloy waste and scrap of less than 40 percent copper content where copper is the component of chief weight.	July 31, 1967	Aug. 31, 1967
28408	Nickel alloy waste and scrap containing 60 percent or more copper irrespective of nickel content.	July 31, 1967	Aug. 31, 1967
68212	Refined copper, including remelted, in cathodes, billets, ingots (except copper-base alloy ingots), wire bars and other crude forms.	July 31, 1967	Aug. 31, 1967
68212	Copper-base alloy ingots composed essentially of copper with one or more other metals, for example: beryllium copper ingots, devarda alloy ingots, guinea alloy ingots, ounce metal ingots, etc.	July 31, 1967	Aug. 31, 1967

[10 Gen. Rev. of Export Regs., Amdt. 34]

MISCELLANEOUS AMENDMENTS TO CHAPTER

Parts 371, 373, and 385 of the Code of Federal Regulations are amended as set forth below.

(Sec. 3, 63 Stat. 7; 50 U.S.C. App. 2023; E.O. 10945, 26 F.R. 4487, 3 CFR 1959–63 Comp.; E.O. 11038, 27 F.R. 7003, 3 CFR 1959–63 Comp.)

RAUER MEYER,
Director,
Office of Export Control.

I. *Temporary exports of video tape.*[1]

Purpose and effect: The Office of Export Control has established a simplified

[1] The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

procedure for the temporary export to destinations in Country Groups T and V of blank video tape (raw stock) and video tape containing program material in order to facilitate the recording and broadcasting of news events, sports events, entertainment programs, educational programs, etc., in the United States and abroad. It provides that an exporter, without the need for obtaining an individual validated license for each shipment, may make such shipments of video tape over an indefinite period of time for the purpose of (a) recording program material abroad for broadcasting abroad and in the United States and (b) broadcasting in a foreign country(ies) program material which has been recorded in the United States.

An exporter may obtain authorization to make such exports by submitting to the Office of Export Control a letter request, in original and two copies, setting forth certain required information and certifying that the video tape will be used for authorized purposes only and will be returned to the United States unless other disposition is authorized by the Office of Export Control. The request need not be supported by an Import Certificate, a Single or Multiple Transaction Statement by Consignee and Purchaser, a Swiss Blue Import Certificate, or a Yugoslav End-Use Certificate. If the request is approved, the Office of Export Control will return to the U.S. exporter a copy of the letter request bearing the validation stamp of the U.S. Department of Commerce. If the request is disapproved, the Office of Export Control will so advise the U.S. exporter.

Effective date of action: July 3, 1967.

Accordingly, a new § 373.57 of the Export Regulations is established to read as set forth below.

II. *Reexports of technical data and exports of the product manufactured abroad by use of U.S. technical data.*

Purpose and effect: The Export Regulations regarding reexports of U.S. technical data and exports of the foreign-made products of U.S. technical data have been restated for purposes of greater clarity. In addition, specific instructions have been added for requesting authorization to reexport these technical data and to export from abroad the foreign-made products of such data. These authorizations shall be requested by means of a letter to the Office of Export Control fully describing the proposed transactions.

Effective date of action: July 3, 1967.

Accordingly, § 385.6 of the Export Regulations is revised to read as set forth below.

III. *Revision of General License GTDU.*

Purpose and effect: Before exporting unpublished data relating to certain materials and equipment under the provisions of General License GTDU, the exporter must obtain from the importer a written assurance that neither the technical data nor the direct product thereof is intended to be shipped, directly or indirectly, to a destination in Country Group W, Y, or Z. The list of materials and equipment subject to this requirement for a written assurance is now extended to include technical data relating to "Polyimide-polyamide resins and products made therefrom (Export Control Commodity Nos. 53333, 58120, 59958, 66311, and 89300)."

Effective date of action: August 2, 1967.

Accordingly, § 385.2(c)(4)(iii)(*gg*) of the Export Regulations is added to read as set forth below.

IV. *Shipments from the U.S. Virgin Islands to the British Virgin Islands.*

Purpose and effect: General License GLV has been amended to permit the export in a single shipment of commodities from the U.S. Virgin Islands to the British Virgin Islands, provided that the net value of the shipment does not exceed $500 or the amount specified on the Commodity Control List as the GLV dollar-value limit for Country Group T, whichever is greater. These provisions do not apply to the export of any commodity related to nuclear weapons, nuclear explosive devices, or nuclear testing, as described in paragraph 373.7(b) of the Export Regulations.

Effective date of action: July 3, 1967.

Accordingly, § 371.10 of the Export Regulations is revised to read as set forth below.

V. *Technical data supporting a quotation, bid, or offer.*

Purpose and effect: General License GTDU has been revised to permit exports of certain additional limited types of technical data to Country Groups W and Y. Technical data in support of a quotation, bid, or offer to sell, lease, or otherwise supply commodities, plants, technical data, or services, may now be exported, with certain restrictions, to these destinations under general license. Specifically excluded from the general license coverage are technical data concerning the strategic commodities identified by the symbol "A" on the Commodity Control List or listed on the U.S. Munitions List. Furthermore, the quotation technical data authorized by the general license must be of a type customarily transmitted with a prospective or actual quotation, bid, or offer; and the details of design, production, or manufacture, or the means of reconstruction, of either the commodity concerned in the quotation, bid, or offer or of its product may not be disclosed by the technical data. Similarly, a quotation, bid, or offer for technical data or services must not disclose the technical process involved.

The revision in the regulation makes clear that the use of General License GTDU to send technical data in support of a quotation, bid, or offer does not mean that the U.S. Government intends or is committed to approve an export license application for any commodity or technical data that may be the subject of the transaction to which the quotation relates. Exporters are advised to include in any quotations, bids, or offers, as well as in any resulting contracts, a provision relieving themselves of liability in the event that a validated export license (when required) is not approved by the Office of Export Control.

Effective date of action: July 3, 1967.

Accordingly, § 385.2(c)(2) of the Export Regulations is revised to read as set forth below.

The amendments to Parts 371, 373, and 385 are as follows:

PART 371—GENERAL LICENSES

§ 371.10 General License GLV; shipments of limited value.

(a) *Scope.* A general license designated GLV is hereby established, subject to the other provisions of this § 371.10, authorizing the export in a single shipment of any commodity on the Commodity Control List:

(1) To Country Group S, T, V, or X, provided that the net value of the commodity included in a single entry does not exceed the GLV dollar-value limit specified for the appropriate Country Group S, T, V, or X in the column headed "GLV $ Value Limits for Shipments to Country Groups S, T, V, X"; and

(2) From the U.S. Virgin Islands to the British Virgin Islands: *Provided*, That the net value of the shipment does not exceed $500 or the amount specified as the GLV dollar-value limit for Country Group T, whichever is greater.

(b) *Exception.* This General License GLV does not apply to the export of any commodity related to nuclear weapons, nuclear explosive devices, or nuclear testing, as described in paragraph 373.7(b).

(c) *Definitions*—(1) *"Net value."* Net value means the actual selling price less shipping charges or the current market price to the same type of purchaser in the United States, whichever is the larger.

(2) *"Single shipment."* Single shipment means a shipment of commodities which moves at the same time from one exporter to one consignee or intermediate consignee on the same exporting carrier even though such shipment is to be forwarded to one or more ultimate consignees. However, not more than one shipment may be made by parcel post or mail per calendar week from one exporter to one consignee or intermediate consignee.

(d) *Evasion of "single shipment" provisions.* Shipments designed as a device to evade the requirement of a validated export license are prohibited. Such devices include, but are not limited to, (1) the splitting of orders from a single consignee into two or more shipments the total value of which exceeds the maximum GLV dollar-value limit specified for a single shipment; (2) the solicitation from a single consignee of a number of separate orders each of which conforms to such dollar-value limits but which have a combined value in excess thereof.

NOTE: To determine the net value of a commodity which may be exported in a single shipment under the provisions of General License GLV, the exporter should first determine which country group includes the proposed country of destination. (See par. 370.1(g).) The exporter should then find on the Commodity Control List the commodity he proposes to export. For each commodity, in the column titled "GLV $ Value Limits for Shipments to Country Groups S, T, V, X" a dollar amount or a dash (—) is shown for each of the four applicable country groups. The exporter may ship this commodity in an amount not to exceed the dollar-value limit shown for the country group which includes the proposed destination. Where a dash (—) appears, the commodity may not be shipped to that country group under General License GLV. However, despite a lesser dollar-value limit appearing for Country Group T, single shipments of a net value not to exceed $500 may be exported from the U.S. Virgin Islands to the British Virgin Islands under the provisions of General License GLV.

PART 373—SPECIAL LICENSING POLICIES

§ 373.57 Temporary exports of video tape.

(a) *Scope.* A procedure is established authorizing temporary exports to destinations in Country Group T or V of blank vedeo tape (raw stock) and video tape containing program material (Export Control Commodity No. 89120), over an indefinite period of time, without the need of applying for or obtaining an individual validated license to cover each shipment. Such exports may be made from any port in the United States: *Provided*, That authorization is obtained from the Office of Export Control and:

(1) The tape is intended for use in the recording of program material abroad for broadcasting abroad and in the United States; or

(2) The tape contains program material recorded in the United States for broadcasting in a foreign country(ies); and

(3) The tape will be returned to the United States unless prior authorization to dispose of the tape abroad is obtained from the Office of Export Control.

(b) *Submission of request.* A request for authorization to make temporary exports of video tape under the provisions of this § 373.57 shall be submitted by signed letter, in original and two copies, to the Office of Export Control and shall include the following:

(1) A full description of the nature of the business in which the exporter is engaged;

(2) A statement as to whether the request covers blank video tape, video tape containing program material, or both;

(3) A general description of the types of program material, i.e., news events, sports events, entertainment, educational, etc., which will be recorded in the United States or in a foreign country(ies);

(4) The name(s) and address(es) of the consignee(s) who will use the video tape (if U.S. exporter, so state); and

(5) The following certification:

I(We) certify that if this request is approved, shipments will be made only in accordance with the provisions of § 373.57 of the Comprehensive Export Schedule.

If the request is approved, the Office of Export Control will stamp the letter request with the validation stamp of the U.S. Department of Commerce and return one validated copy to the applicant. Where the request is not approved, the applicant will be advised by letter. Customs Offices will be furnished with the names of U.S. exporters approved under these provisions.

(c) *Export clearance.* The exporter shall furnish the Customs Office with an additional copy of the Shipper's Export Declaration covering each shipment made under these provisions. The Declaration shall bear the notation "364" in the upper right corner, the words "Temporary Export," and the following certification in the commodity description space:

I(We) certify that the video tape described in this Declaration will be returned to the United States or authorization will be obtained from the Office of Export Control before it is disposed of abroad, and (contains program material recorded in the United States) (will be used to record program material abroad).

(d) *Waiver of supporting documentation.* A request submitted in accordance with the provisions of this § 373.57 need not be supported by an Import Certificate, a Form FC–842, Single Transaction Statement by Consignee and Purchaser, a Form FC–843 Multiple Transactions Statement by Consignee and Purchaser, a Swiss Blue Import Certificate, or a Yugoslav End-Use Certificate.

PART 385—TECHNICAL DATA

§ 385.2 General licenses.

* * * * *

(c) *General License GTDU.* * * *

(2) *Destination restrictions.* This general license shall not be applicable to any export of technical data, directly or indirectly, to Country Group Z. Only the following technical data may be exported under this general license to Country Group W or Y:

(i) Technical data such as manuals, instruction sheets, or blueprints: *Provided*, That the technical data are:

(*a*) Sent as part of the transaction involving, and directly related to, a commodity licensed for export from the United States to the same consignee and destination to which the commodity was or will be exported;

(*b*) Sent no later than 1 year following the shipment of the commodity to which the technical data are related;

(*c*) Of a type normally delivered with the commodity;

(*d*) Necessary to the assembly, installation, maintenance, repair, or operation of the commodity; and

(*e*) Not related to the production, manufacture, or construction of the commodity.

(ii) Technical data supporting a prospective or actual quotation, bid, or offer to sell, lease, or otherwise supply a commodity, plant, technical data, or service: *Provided*, That:

(*a*) The commodity, plant, technical data, or service, is not (and is not related to) a commodity identified on the Commodity Control list by the symbol "A", or shown on the U.S. Munitions List; and

(*b*) The technical data are of a type customarily transmitted with a prospective or actual quotation, bid, or offer (in accordance with established business practice); and

(*c*) The export will not disclose the details of design, production, or manufacture, or the means of reconstruction, of either the quotation item or its product. Similarly, a quotation, bid, or offer for technical data or services must not disclose the technical process involved.

NOTE: Neither this authorization nor its use means that the U.S. Government intends, or is committed, to approve an export license application for any commodity, plant, technical data, or service that may be the subject of the transaction to which such quotation, bid, or offer relates. Exporters are advised to include, in any quotations, bids, or offers, and in any contracts entered into pursuant to such quotations, bids, or offers, a provision relieving themselves of liability in the event that an export license (when required) is not approved by the Office of Export Control.

* * * * *

(4) *Requirements of written assurances for certain data, services, and materials.* * * *

(iii) * * *

(*gg*) Polyimide-polyamide resins and products made therefrom (Export Control Commodity Nos. 53332, 58120, 59958, 66311, and 89300).

* * * * *

§ 385.6 Reexports of technical data and exports of the product manufactured abroad by use of United States technical data.

(a) *Prohibited exports and reexports.* Unless specifically authorized by the Office of Export Control, or otherwise authorized under the provisions of paragraph (b) of this section of this § 385.6, no person in the United States or in a foreign country may:

(1) Reexport any technical data imported from the United States, directly or indirectly, in whole or in part, from the authorized country(ies) of ultimate destination;

(2) Export any technical data from the United States with the knowledge that it is to be reexported, directly or indirectly, in whole or in part, from the authorized country(ies) of ultimate destination; or

(3) Export or reexport to Country Group W, Y, or Z any foreign produced direct product of U.S. technical data, or any commodity produced by any plant or major component thereof which is a direct product of U.S. technical data, if such direct product or commodity is covered by the provisions of §§ 385.2(c)(4), 385.2(c)(5), or § 385.4(c)(3).

(b) *Permissive reexports.* (1) Any technical data which have been exported from the United States may be reexported from any destination to any other destination: *Provided*, That, at the time of reexport, the technical data is exportable directly from the United States to the new country of destination under General License GTDP, GTDU, or GTDS: *And provided*, That all of the requirements and conditions for use of these general licenses have been met.

(2) When the Office of Export Control has authorized the export of a commodity from the United States to a destination in Country Group W or Y, or the reexport of a U.S. origin commodity

from any foreign country to a destination in Country Group W or Y, technical data, such as manuals, instructional sheets, or blueprints, as described in and subject to the conditions of § 385.2(c)(2) may be sent to the same destination as part of the same transaction without separate specific authorization by the Office of Export Control.

(c) *Specific authorization to reexport.* Requests for specific authorization to reexport technical data or to export any product thereof shall be submitted to the Office of Export Control by letter. The letter shall bear the words "Technical Data Reexport Request" immediately below the heading. The letter shall contain all of the information required under § 385.4(a). Any request for extension of such authorization shall similarly be submitted by letter. Authorization to reexport, if granted, will be issued with a validity period of 12 months on Form IA–L–71 or by means of a letter from the Office of Export Control.

[F.R. Doc. 67–7940; Filed, July 7, 1967; 8:49 a.m.]

[10 Gen. Rev. of Export Regs., Amdt. 33]

MISCELLANEOUS AMENDMENTS TO CHAPTER

Parts 382 and 399 of the Code of Federal Regulations are amended as set forth below:

(Sec. 8, 63 Stat. 7; 50 U.S.C. App. 2028; E.O. 10945, 26 F.R. 4487, 3 CFR 1959–63 Comp.; E.O. 11038, 27 F.R. 7003, 3 CFR 1959–63 Comp.)

RAUER MEYER,
Director,
Office of Export Control.

I. The Commodity Control List, § 399.1, is amended as follows:

A. *Revisions.* The Commodity Control List is amended as set forth below, effective June 26, 1967, unless otherwise specified. Exporters are advised that only the items listed below opposite the specific Export Control Commodity Numbers are affected by these changes. The unnumbered captions serve only to identify the broad categories of commodities within which these items are to be found in Schedule B.

Two different types of explanatory numerical references are used at the end of a commodity description:

(a) A numerical reference enclosed in parentheses which indicates the entry being revised. For example, where a revised entry is followed by (1), it indicates that the new entry revises the first entry or only entry presently on the Commodity Control List under the same Export Control Commodity Number; if the entry is followed by a (2), it revises the second entry on the Commodity Control List, etc.

(b) A footnote reference referring to the footnote below which explains the effect of the revision.

[1] The GLV Dollar-Value Limit is decreased for shipments to Country Groups S and V, effective July 8, 1967.

[2] Effective July 28, 1967, these commodities may no longer be exported under the Periodic Requirements licensing procedure (see Part 376).

Department of Commerce export control commodity number and commodity description	Unit	*Processing number	*Validated license required for country groups shown below	*GLV dollar value limits for shipments to country groups				*Special provisions list
				S	T	V	X	
Metalliferous ores and metal scrap								
28401 Nickel bearing residues and dross. (6) [1]	Lb.	262	STVWXYZ...	100	500	100	.....	
28402 Other nickel or nickel alloy waste and scrap. (3 and 5) [1]	Lb.	262	STVWXYZ...	100	500	100	.....	
Nonferrous metals								
68510 Other nickel or nickel alloys, unwrought. (5 and 6) [1]	Lb.	262	STVWXYZ...	.....	500	100	.....	

B. *Saving clause.* Shipments of commodities removed from general license as a result of changes set forth in Part A above which were on dock for lading, on lighter, laden aboard and exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a.m. July 5, 1967, may be exported under the previous general license provisions up to and including July 28, 1967. Any such shipment not laden aboard the exporting carrier on or before July 28, 1967, requires a validated license for export.

II. The Commodity Control List, § 399.1 is further amended as follows:

A. *Revisions.* The Commodity Control List is amended as set forth below, effective July 3, 1967. Exporters are advised that only the items listed below opposite the specific Export Control Commodity Numbers are affected by these changes. The unnumbered captions serve only to identify the broad categories of commodities within which these items are to be found in Schedule B.

Two different types of explanatory numerical references are used at the end of a commodity description:

(a) A numerical reference enclosed in parentheses to indicate the entry being revised. For example, where a revised entry is followed by (1), it indicates that the new entry revises the first entry or only entry presently on the Commodity Control List under the same Export Control Commodity Number; if the entry is followed by a (2), it revises the second entry on the Commodity Control List, etc.

(b) A footnote reference referring to the footnote below which explains the effect of the revision.

[1] A separate entry is established.

[2] Effective July 10, 1967, a validated license is required for export of these commodities to Country Groups T, V, W, X, and Y.

[3] Effective July 10, 1967, a validated license is required for export of these commodities to Country Groups T, V, and W.

[4] Effective Aug. 17, 1967, an Import Certificate (or a Hong Kong Import Licenses) will be required in support of a license application covering export of these commodities to the countries specified in § 373.3.

Department of Commerce export control commodity number and commodity description	Unit	*Processing number	*Validated license required for country groups shown below	*GLV dollar value limits for shipments to country groups				*Special provisions list
				S	T	V	X	
Dyeing, tanning and coloring materials, natural and synthetic

66511 Diamond grinding wheels for hand- or pedal-operated machines, fabricated with polyimide-polyamide. (Specify value of polymeric substances and total value of other materials.) (7) [1, 3]	Carat	212	STVWXYZ...	.....	500	.....	.....	
Miscellaneous manufactured articles, n.s.e.								
69300 Manufactures, n.s.e., of polyimide-polyamide. (Specify value of polymeric substances and total value of commodity.) (16) [1, 3]	Lb.	223	STVWXYZ...	50	500	50	.....	

B. *Saving clause.* Shipments of commodities removed from general license as a result of changes set forth in Part A above which were on dock for lading, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a.m. July 10, 1967, may be exported under the previous general license provisions up to and including August 2, 1967. Any such shipment not laden aboard the exporting carrier on or before August 2, 1967, requires a validated license for export.

III. Revision of denial and probation orders: The denial and probation orders are revised as shown below. Accordingly, § 382.51 of the Export Regulations is amended as set forth below:

ADDITIONS

Name and address	Effective date	Expiration dates	Export privileges affected	Federal Register citation
New World Ltd., Yu To Sang Building, 87 Queens Road C., Hong Kong.	6-26-67	Indefinite.....	General and validated licenses, all commodities, any destination, also exports to Canada.	32 F.R. 9246, 6-29-67.
Sinclair Industrial Agencies Ltd., (Sindal), 13 Priory Avenue, Hornsey, London, N.8, England.	5-22-67	....do.....	General and validated licenses, all commodities, any destination, also exports to Canada. (Party related to Shepherd Export & Trading Co., Ltd., and Shepherd, Denis H., which see.)	30 F.R. 12266, 12-24-64.

B. AMENDMENTS

Aebersold, Paul, Zurich, Switzerland.	5-3-67	Until further notice.	General licenses, all commodities, any destination, also exports to Canada.*	32 F.R. 6736–6737, 5-3-67; 32 F.R. 8927, 6-23-67.

*No export of any commodity in any amount may be made to this person or firm under any General License. A validated license is required for all exports to any destination, including Canada.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 4—Department of Agriculture

PART 4–2—PROCUREMENT BY FORMAL ADVERTISING

Equal Low Bids

The following miscellaneous amendments are made in the Agriculture Procurement Regulations:

1. The table of contents for Part 4–2—Procurement by Formal Advertising, is amended to add the following new entry:

* * * * *

Subpart 4–2.4—Opening of Bids and Award of Contract

* * * * *

Sec.
4–2.407–6 Equal low bids.

* * * * *

2. Part 4–2—Procurement by Formal Advertising, is amended as follows: In Subpart 4–2.4—*Opening of Bids and Award of Contract*, a new § 4–2.407–6 is added as follows:

§ 4–2.407–6 Equal low bids.

Where the application of § 1–2.407–6 results in two or more bidders being equally eligible for award, the award shall be made by a drawing by lot limited to such bidders. In each such case, except as otherwise authorized by the Director of Plant and Operations, the bidders involved shall be given an opportunity to be present at the drawing.

Done at Washington, D.C., this 3d day of July 1967.

ELMER MOSTROM,
Director, Plant and Operations.

[F.R. Doc. 67–7880; Filed, July 7, 1967; 8:47 a.m.]

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 51]

FLORIDA GRAPEFRUIT

Standards for Grades [1]

Notice is hereby given that the U.S. Department of Agriculture is considering the revision of U.S. Standards for Grades of Florida Grapefruit (7 CFR 51.750–51.783) pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627).

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposal should file the same in duplicate, not later than July 31, 1967, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, where they will be available for public inspection during official hours of business (par. (b) of § 1.27, as amended at 29 F.R. 7311).

Statement of considerations leading to the proposed revision of the grade standards. Trends in production and marketing practices, over the past few years, have prompted a revision of the U.S. Standards for Grades of Florida Grapefruit which have been in effect since 1960.

In proposing this revision, the U.S. Department of Agriculture is introducing a new concept in grade standards which would involve the use of statistical principles and procedures in the application of tolerances to a greater extent than heretofore.

During the 1966–67 harvest season experimental studies were conducted in a number of Florida fresh fruit packinghouses utilizing these statistical procedures. As a result of these studies and demonstrations, a quality control master note sheet was developed and used under continuous inspection operations. The note sheet graphically presents the quality level being packed during any given period in the day. The proposal would involve the use of this quality control aid during the packing process as well as for establishing the grade of grapefruit on a lot basis. This would bring about more uniformity and better industry understanding of the grade standards. The Florida Citrus industry has requested that this new concept be adopted and incorporated in the standards. This would require the following changes in the presentation of tolerances:

(1) In selecting samples for grade determination, each sample would consist of 33 grapefruit. When individual packages contain at least 33 grapefruit, the sample is drawn from one package; when individual packages contain less than 33 grapefruit a sufficient number of adjoining packages would be combined to form a 33-grapefruit sample. The sample size would be constant regardless of the size of the containers.

(2) Tolerances: The tolerances for defects would be specified as acceptance numbers. The total maximum or minimum number of defective or off-size grapefruit would be specified for all samples selected for grade determination in the lot.

(3) Under the proposal, individual 33 count samples would be limited to a maximum number of defective or off-size grapefruit permitted, or to a minimum number of grapefruit having the amount of discoloration required in certain grades. This limitation would be specified in the tolerance tables under the absolute limit heading, and would replace the Application of Tolerances section in the existing standards.

In these standards a new format is proposed in an effort to arrange in logical order the various requirements for the particular grade. This would promote uniformity and bring about better understanding and simplifications of the standards.

A new Classification of Defects section would be provided which lists the various grade defects with limitations for these defects under the injury, damage, serious damage, and very serious damage headings.

Representatives of the U.S. Department of Agriculture will be available upon appointment to discuss and demonstrate the proposed revision to interested persons during the period provided for submitting comments. Request for such appointments should be made in writing to: Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, C&MS, U.S. Department of Agriculture, Washington, D.C. 20250.

The proposed standards, as revised, are as follows:

GRADES

§ 51.750 U.S. Fancy.

"U.S. Fancy" consists of grapefruit which meet the following requirements:
(a) Basic requirements:
(1) Discoloration:
(i) Not more than one-tenth of the surface, in the aggregate, may be affected by discoloration. (See § 51.770.)
(2) Firm;
(3) Mature;
(4) Similar varietal characteristics;
(5) Smooth texture;
(6) Well colored; and,
(7) Well formed.
(b) Free from:
(1) Ammoniation;
(2) Bruises;
(3) Buckskin;
(4) Caked melanose;
(5) Cuts not healed;
(6) Decay;
(7) Growth cracks;
(8) Scab;
(9) Sprayburn; and,
(10) Wormy fruit.
(c) Free from injury caused by:
(1) Green spots;
(2) Oil spots;
(3) Scale;
(4) Scars;
(5) Skin breakdown; and,
(6) Thorn scratches.
(d) Free from damage caused by:
(1) Dirt or other foreign material;
(2) Disease;
(3) Dryness or mushy condition;
(4) Hail;
(5) Insects;
(6) Sprouting;
(7) Sunburn; and,
(8) Other means.
(e) For tolerances see § 51.761.

§ 51.751 U.S. No. 1.

"U.S. No. 1" consists of grapefruit which meet the following requirements:
(a) Basic requirements:
(1) Discoloration:
(i) Not more than one-third of the surface, in the aggregate, may be affected by discoloration. (See § 51.770.)
(2) Fairly smooth texture;
(3) Fairly well colored;
(4) Firm;
(5) Mature;
(6) Similar varietal characteristics; and,
(7) Well formed.
(b) Free from:
(1) Bruises;
(2) Cuts not healed;
(3) Decay;
(4) Growth cracks; and,
(5) Wormy fruit.
(c) Free from damage caused by:
(1) Ammoniation;
(2) Buckskin;
(3) Caked melanose;
(4) Dirt or other foreign material;
(5) Disease;
(6) Dryness or mushy condition;
(7) Green spots;
(8) Hail;
(9) Insects;
(10) Oil spots;
(11) Scab;
(12) Scale;
(13) Scars;
(14) Skin breakdown;
(15) Sprayburn;
(16) Sprouting;
(17) Sunburn;
(18) Thorn scratches; and,
(19) Other means.
(d) For tolerances see § 51.761.

§ 51.752 U.S. No. 1 Bright.

The requirements for this grade are the same as for the U.S. No. 1 except that no fruit may have more than one-fifth of its surface, in the aggregate, affected by discoloration.
(a) For tolerances see § 51.761.

§ 51.753 U.S. No. 1 Golden.

The requirements for this grade are the same as for U.S. No. 1 except that not more than the number of fruits permitted in § 51.761, Tables I and II, shall have more than one-third of their surface, in the aggregate, affected by discoloration.
(a) For tolerances see § 51.761.

§ 51.754 U.S. No. 1 Bronze.

The requirements for this grade are the same as for U.S. No. 1 except that all fruit must show some discoloration. Not less than the number of fruits required in § 51.761, Tables I and II, shall have more than one-third of their surface, in the aggregate, affected by discoloration. The predominating discoloration on these fruits shall be of rust mite type.
(a) For tolerances see § 51.761.

§ 51.755 U.S. No. 1 Russet.

The requirements for this grade are the same as for U.S. No. 1 except that not less than the number of fruits required in § 51.761, Tables I and II, shall have more than one-third of their surface, in the aggregate, affected by any type of discoloration.
(a) For tolerances see § 51.761.

§ 51.756 U.S. No. 2.

"U.S. No. 2" consists of grapefruit which meet the following requirements:
(a) Basic requirements:
(1) Discoloration:
(i) Not more than one-half of the surface, in the aggregate, may be affected by discoloration. (See § 51.770.)
(2) Fairly firm;
(3) Mature;
(4) Similar varietal characteristics;
(5) Slightly colored;
(6) Slightly misshapen; and,
(7) Slightly rough texture.
(b) Free from:
(1) Bruises;
(2) Cuts not healed;
(3) Decay;
(4) Growth cracks; and,
(5) Wormy fruit.
(c) Free from serious damage caused by:
(1) Ammoniation;
(2) Buckskin;
(3) Caked melanose;
(4) Dirt or other foreign material;
(5) Disease;
(6) Dryness or mushy condition;
(7) Green spots;
(8) Hail;
(9) Insects;
(10) Oil spots;
(11) Scab;
(12) Scale;
(13) Scars;
(14) Skin breakdown;
(15) Sprayburn;
(16) Sprouting;
(17) Sunburn;
(18) Thorn scratches; and,
(19) Other means.
(d) For tolerances see § 51.761.

§ 51.757 U.S. No. 2 Bright.

The requirements for this grade are the same as for U.S. No. 2 except that no fruit may have more than one-fifth of its surface, in the aggregate, affected by discoloration.
(a) For tolerances see § 51.761.

§ 51.758 U.S. No. 2 Russet.

The requirements for this grade are the same as for U.S. No. 2 except that not less than the number of fruits required in § 51.761, Tables I and II, shall have more than one-half of their surface, in the aggregate, affected by discoloration.
(a) For tolerances see § 51.761.

§ 51.759 U.S. No. 3.

"U.S. No. 3" consists of grapefruit which meet the following requirements:
(a) Basic requirements:
(1) Mature;
(2) Misshapen;
(3) Poorly colored:
(i) Not more than 25 percent of the surface may be of a solid dark green color.
(4) Rough texture, not seriously bumpy;
(5) Similar varietal characteristics; and,
(6) Slightly spongy.
(b) Free from:
(1) Cuts not healed;
(2) Decay; and,
(3) Wormy fruit.
(c) Free from very serious damage caused by:
(1) Ammoniation;
(2) Bruises;
(3) Buckskin;
(4) Caked melanose;
(5) Disease;
(6) Dryness or mushy conditon;
(7) Growth cracks;
(8) Hail;
(9) Insects;
(10) Scab;
(11) Scale;
(12) Scars;
(13) Skin breakdown;
(14) Sprayburn;
(15) Sprouting;
(16) Sunburn; and,
(17) Other means.
(d) For tolerances see § 51.761.

UNCLASSIFIED

§ 51.760 Unclassified.

"Unclassified" consists of grapefruit which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no grade has been applied to the lot.

TOLERANCES

§ 51.761 Tolerances.

In order to allow for variations incident to proper grading and handling in each of the foregoing grades, based on sample inspection, the number of defective or off-size specimens in the individual sample, and the number of defective or off-size specimens in the lot, shall be within the limitations specified in Tables I and II. No tolerance shall apply to wormy fruit.

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

TABLE I—SHIPPING POINT [1]

(a) FOR 1 THROUGH 30 SAMPLES

STANDARD PACK

§ 51.762 Standard pack.

(a) Fruits shall be fairly uniform in size, unless specified as uniform in size, and when packed in boxes or cartons, shall be arranged according to the approved and recognized methods. Each wrapped fruit shall be fairly well enclosed by its individual wrapper.

(b) All such containers shall be tightly packed and well filled but the contents shall not show excessive or unnecessary bruising because of overfilled packages. When grapefruits are packed in standard nailed boxes, each box shall have a minimum bulge of 2 inches, except that boxes packed with grapefruit of a size 80 or smaller need only have a bulge of 1½ inches. When packed in cartons or in wire-bound boxes, each container shall be at least level full at time of packing.

(c) "Fairly uniform in size" means that not more than the number of fruits permitted in § 51.761, Tables I and II, are outside the ranges of diameters given in the following table for various packs:

TABLE III—DIAMETER IN INCHES

Pack	Minimum	Maximum
36's	5	5 9/16
42's or 44's	4 13/16	5 5/16
54's or 56's	4 5/16	4 13/16
64's	4 1/16	4 5/16
70's or 72's	3 13/16	4 1/16
80's	3 9/16	3 13/16
96's	3 5/16	3 9/16
112's	3 1/16	3 5/16
125's or 126's	2 13/16	3 1/16

(d) "Uniform in size" means that not more than the number of fruits permitted in § 51.761, Tables I and II, vary more than the following amounts:

(1) 64 size and smaller—not more than 9/16 inch in diameter.

(2) 54 size and larger—not more than 9/16 inch in diameter.

(e) In order to allow for variations, other than sizing, incident to proper packing, not more than 5 percent of the packages in any lot may fail to meet the requirements of standard pack.

DEFINITIONS

§ 51.763 Similar varietal characteristics.

"Similar varietal characteristics" means that the fruits in any container are similar in color and shape.

§ 51.764 Well colored.

"Well colored" means that the fruit is yellow in color with practically no trace of green color.

§ 51.765 Firm.

"Firm" means that the fruit is not soft, or noticeably wilted or flabby, and the skin is not spongy or puffy.

§ 51.766 Well formed.

"Well formed" means that the fruit has the shape characteristic of the variety.

§ 51.767 Mature.

"Mature" shall have the same meaning currently assigned that term in sections 601.16, 601.17, and 601.18 of the Florida Citrus Code of 1949, as amended (Chs. 28090 and 29760, Laws of Florida, 1953 and 1955), or as the definition of such term may hereafter be amended.

§ 51.768 Smooth texture.

"Smooth texture" means that the skin is thin and smooth for the variety and size of the fruit.

§ 51.769 Injury.

"Injury" means any specific defect described in § 51.783, Table IV; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which slightly detracts from the appearance, or the edible or marketing quality of the fruit.

§ 51.770 Discoloration.

"Discoloration" means russeting of a light shade of golden brown caused by rust mite or other means. Lighter shades of discoloration caused by superficial scars or other means may be allowed on a greater area, or darker shades may be allowed on a lesser area, provided no discoloration caused by speck type melanose or other means may detract from the appearance of the fruit to a greater extent than the shade and amount of discoloration allowed in the grade.

§ 51.771 Fairly well colored.

"Fairly well colored" means that, except for an aggregate area of green color which does not exceed the area of a circle 1 inch in diameter, the yellow or orange color predominates over the green color.

§ 51.772 Fairly smooth texture.

"Fairly smooth texture" means that the skin is fairly thin and not coarse for the variety and size of the fruit.

§ 51.773 Damage.

"Damage" means any specific defect described in § 51.783, Table IV; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which materially detracts from the appearance, or the edible or marketing quality of the fruit.

§ 51.774 Fairly firm.

"Fairly firm" means that the fruit may be slightly soft, but not bruised, and the skin is not spongy, or puffy.

§ 51.775 Slightly misshapen.

"Slightly misshapen" means that the fruit has fairly good shape characteristic of the variety and is not more than slightly elongated or pointed or otherwise deformed.

§ 51.776 Slightly rough texture.

"Slightly rough texture" means that the skin may be slightly thick but not excessively thick, materially ridged or grooved.

§ 51.777 Serious damage.

"Serious damage" means any specific defect described in § 51.783, Table IV; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which seriously detracts from the appearance, or the edible or marketing quality of the fruit.

§ 51.778 Slightly colored.

"Slightly colored" means that except for two inches in the aggregate of green color, the remainder of the fruit surface shows some yellow color.

§ 51.779 Misshapen.

"Misshapen" means that the fruit is decidedly elongated, pointed, or flat-sided.

§ 51.780 Slightly spongy.

"Slightly spongy" means that the fruit is puffy or slightly wilted but not flabby.

§ 51.781 Very serious damage.

"Very serious damage" means any specific defect described in § 51.783, Table IV; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which very seriously detracts from the appearance, or the edible or marketing quality of the fruit.

§ 51.782 Diameter.

"Diameter" means the greatest dimension measured at right angles to a line from stem to blossom end.

§ 51.783 Classification of defects.

TABLE IV

Factor	Injury	Damage	Serious damage	Very serious damage
Ammoniation		Not occurring as light speck type.	Scars are cracked or dark and aggregating more than a circle 1 inch in diameter on a 70 size grapefruit.	Aggregating more than 25 percent of the surface.
Buckskin		Aggregating more than a circle 1¼ inches in diameter on a 70 size grapefruit.	Aggregating more than 25 percent of the surface.	Aggregating more than 50 percent of the surface.
Caked melanose		Aggregating more than a circle ¾ inch in diameter on a 70 size grapefruit.	Aggregating more than a circle 1 inch in diameter on a 70 size grapefruit.	Aggregating more than 25 percent of the surface.
Dryness or mushy condition		Affecting all segments more than ¼ inch at stem end, or the equivalent of this amount, by volume, when occurring in other portions of the fruit.	Affecting all segments more than ½ inch at stem end, or the equivalent of this amount, by volume, when occurring in other portions of the fruit.	Affecting all segments more than ¾ inch at stem end, or the equivalent of this amount, by volume, when occurring in other portions of the fruit.
Green spots	More than slightly affecting appearance.	More than 10 spots caused by scale, each spot equivalent to the area of a circle ⅛ inch in diameter on a 70 size grapefruit.	More than 25 spots caused by scale, each spot equivalent to the area of a circle ¼ inch in diameter on a 70 size grapefruit.	
Hail	Not well healed, or aggregating more than a circle ¾ inch in diameter on a 70 size grapefruit.	Not well healed, or aggregating more than a circle ½ inch in diameter on a 70 size grapefruit.	Not well healed, or aggregating more than a circle ¾ inch in diameter on a 70 size grapefruit.	Not well healed, or aggregating more than a circle 1 inch in diameter on a 70 size grapefruit.
Oil spots	More than slightly affecting appearance.	More than 8 spots, or aggregating more than a circle ¾ inch in diameter on a 70 size grapefruit.	More than 10 spots, or aggregating more than a circle 1 inch in diameter on a 70 size grapefruit.	Aggregating more than 25 percent of the surface.
Scab		Materially detracts from the shape or texture, or aggregating more than a circle ¾ inch in diameter on a 70 size grapefruit.	Seriously detracts from the shape or texture, or aggregating more than a circle 1 inch in diameter on a 70 size grapefruit.	Aggregating more than 25 percent of the surface.
Scale	More than a few adjacent to the "buttons" at the stem end, or more than 6 scattered on other portions of the fruit.	Blotch aggregating more than a circle ¾ inch in diameter, or occurring as a ring more than a circle 1¼ inches in diameter on a 70 size grapefruit.	Blotch aggregating more than a circle 1 inch in diameter, or occurring as a ring more than a circle 1¼ inches in diameter on a 70 size grapefruit.	Aggregating more than 25 percent of the surface.
Scars	Depressed, not smooth, or detracts from appearance more than the amount of discoloration permitted in the grade.	Deep, not smooth, or shallow or fairly shallow and detracts from appearance more than the amount of discoloration permitted in the grade.	Very deep, fairly smooth, or detracts from appearance more than the amount of discoloration permitted in the grade.	Deep, rough, or unsightly that appearance is very seriously affected.
Skin breakdown		Aggregating more than a circle ⅛ inch in diameter on a 70 size grapefruit.	Aggregating more than a circle ¼ inch in diameter on a 70 size grapefruit.	Affecting more than 25 percent of the surface.
Sprayburn		Aggregating more than a circle ¼ inch in diameter on a 70 size grapefruit.	Hard and aggregating more than a circle 1¼ inches in diameter on a 70 size grapefruit.	Aggregating more than 25 percent of the surface.
Sprouting		More than 6 seeds are sprouted, or more than 1 sprout is more than ¼ inch in length.	More than 6 seeds are sprouted, or more than 1 sprout is more than ½ inch in length.	More than 6 seeds are sprouted or more than 1 sprout is more than ¾ inch in length.

TABLE IV—Continued

Factor	Injury	Damage	Serious damage	Very serious damage
Sunburn		Skin is flattened, dry, darkened, or hard and the affected area exceeds 36 percent of the surface.	Skin is hard and affects more than one-third of the surface.	Affecting more than 50 percent of the surface.
Thorn scratches	Not well healed, or more unsightly than discoloration permitted in the grade.	Not well healed, or hard concentrated thorn injury aggregating more than a circle ¾ inch in diameter on a 70 size grapefruit.	Not well healed, or hard concentrated thorn injury aggregating more than a circle 1⅛ inch in diameter on a 70 size grapefruit.	Affecting more than 25 percent of the surface.

Dated: June 28, 1967.

G. R. GRANGE,
Deputy Administrator, Marketing Services.

[F.R. Doc. 67-7516; Filed, July 7, 1967; 8:45 a.m.]

[7 CFR Part 51]

FLORIDA ORANGES AND TANGELOS

Standards for Grades [1]

Notice is hereby given that the U.S. Department of Agriculture is considering the revision of U.S. Standards for Grades of Florida Oranges and Tangelos (7 CFR 51.1140–51.1179) pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627).

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposal should file the same in duplicate, not later than July 31, 1967, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, where they will be available for public inspection during official hours of business (par. (b) of § 1.27, as amended at 29 F.R. 7311).

Statement of considerations leading to the proposed revision of the grade standards. Trends in production and marketing practices, over the past few years, have prompted a revision of the U.S. Standards for Grades of Florida Oranges and Tangelos which have been in effect since 1960.

In proposing this revision, the U.S. Department of Agriculture is introducing a new concept in grade standards which would involve the use of statistical principles and procedures in the application of tolerances to a greater extent than heretofore.

During the 1966–67 harvest season experimental studies were conducted in a number of Florida fresh fruit packinghouses utilizing these statistical procedures. As a result of these studies and demonstrations, a quality control master note sheet was developed and used under continuous inspection operations. The note sheet graphically presents the quality level being packed during any given period in the day. The proposal would involve the use of this quality control aid during the packing process as well as for establishing the grade of oranges on a lot basis. This would bring about more uniformity and better industry understanding of the grade standards. The Florida Citrus industry has requested that this new concept be adopted and incorporated in the standards. This would require the following changes in the presentation of tolerances:

(1) In selecting samples for grade determination, each sample would consist of 50 oranges. When individual packages contain at least 50 oranges, the sample is drawn from one package; when individual packages contain less than 50 oranges a sufficient number of adjoining packages would be combined to form a 50-orange sample. The sample size would be constant regardless of the size of the containers.

(2) Tolerances: The tolerances for defects would be specified as acceptance numbers. The total maximum or minimum number of defective or off-size oranges would be specified for all samples selected for grade determination in the lot.

(3) Under the proposal, individual 50 count samples would be limited to a maximum number of defective or off-size oranges permitted, or to a minimum number of oranges having the amount of discoloration required in certain grades. This limitation would be specified in the tolerance tables under the absolute limit heading, and would replace the Application of Tolerances section in the existing standards.

In these standards a new format is proposed in an effort to arrange in logical order the various requirements for the particular grade. This would promote uniformity and bring about better understanding and simplification of the standards.

A new Classification of Defects section would be provided which lists the various grade defects with limitations for these defects under the injury, damage, serious damage, and very serious damage headings.

Representatives of the United States Department of Agriculture will be available upon appointment to discuss and demonstrate the proposed revision to interested persons during the period provided for submitting comments. Request for such appointments should be made in writing to: Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, C&MS, U.S. Department of Agriculture, Washington, D.C. 20250.

The proposed standards, as revised, are as follows:

51.1165 Fairly well colored.
51.1166 Reasonably well colored.
51.1167 Fairly firm.
51.1168 Slightly misshapen.
51.1169 Slightly rough texture.
51.1170 Serious damage.
51.1171 Misshapen.
51.1172 Slightly spongy.
51.1173 Very serious damage.
51.1174 Diameter.
51.1175 Classification of defects.

STANDARDS FOR INTERNAL QUALITY OF COMMON SWEET ORANGES (CITRUS SINENSIS (L) OSBECK)

51.1176 U.S. Grade AA Juice (Double A).
51.1177 U.S. Grade A Juice.
51.1178 Maximum anhydrous citric acid permissible for corresponding total soluble solids.
51.1179 Method of juice extraction.

AUTHORITY: The provisions of this subpart issued under secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624.

GENERAL

§ 51.1140 General.

The standards contained in this subpart apply only to the common or sweet orange group and varieties and hybrids of varieties belonging to the Mandarin group, except tangerines, and to the citrus fruit commonly known as "tangelo"—a hybrid between tangerine or mandarin orange (citrus reticulata) with either the grapefruit or pomelo (C. paradisi and C. grandis). Separate U.S. Standards apply to tangerines. The standards for internal quality contained in §§ 51.1176 through 51.1179 apply only to common sweet oranges (citrus sinensis (L) Osbeck).

GRADES

§ 51.1141 U.S. Fancy.

"U.S. Fancy" consists of oranges which meet the following requirements:
(a) Basic requirements:
(1) Discoloration:
(i) Not more than one-tenth of the surface, in the aggregate, may be affected by discoloration. (See § 51.1162.)
(2) Firm;
(3) Mature;
(4) Similar varietal characteristics;
(5) Smooth texture;
(6) Well colored; and,
(7) Well formed.
(b) Free from:
(1) Ammoniation;
(2) Bruises;
(3) Buckskin;
(4) Caked melanose;
(5) Creasing;
(6) Cuts not healed;
(7) Decay;
(8) Growth cracks;
(9) Scab;
(10) Split navels;
(11) Sprayburn;
(12) Undeveloped segments; and,
(13) Wormy fruit.
(c) Free from injury caused by:
(1) Green spots;
(2) Oil spots;
(3) Rough, wide or protruding navels;
(4) Scale;
(5) Scars;
(6) Skin breakdown; and,
(7) Thorn scratches.
(d) Free from damage caused by:
(1) Dirt or other foreign material;
(2) Disease;
(3) Dryness or mushy condition;
(4) Hail;
(5) Insects;
(6) Riciness or woodiness;
(7) Sunburn; and,
(8) Other means.
(e) For Tolerances see § 51.1152.
(f) Internal quality:
(1) Lots meeting the internal requirements for "U.S. Grade AA Juice (Double A)" or "U.S. Grade A Juice" may be so specified in connection with the grade. (See §§ 51.1176–51.1179.)

§ 51.1142 U.S. No. 1 Bright.

The requirements for this grade are the same as for U.S. No. 1 except that no fruit may have more than one-fifth of its surface, in the aggregate, affected by discoloration.
(a) For tolerances see § 51.1152.
(b) Internal quality:
(1) Lots meeting the internal requirements for "U.S. Grade AA Juice (Double A)" or "U.S. Grade A Juice" may be so specified in connection with the grade. (See §§ 51.1176–51.1179.)

§ 51.1143 U.S. No. 1.

"U.S. No. 1" consists of oranges which meet the following requirements:
(a) Basic requirements:
(1) Color:
(i) Early and midseason varieties shall be fairly well colored.
(ii) For Valencia and other late varieties, not less than 50 percent, by count, shall be fairly well colored and the remainder reasonably well colored.
(2) Discoloration:
(i) Not more than one-third of the surface, in the aggregate, may be affected by discoloration. (See § 51.1162.)
(3) Fairly smooth texture;
(4) Firm;
(5) Mature;
(6) Similar varietal characteristics; and,
(7) Well formed.
(b) Free from:
(1) Cuts not healed;
(2) Bruises;
(3) Decay;
(4) Growth cracks; and,
(5) Wormy fruit.
(c) Free from damage caused by:
(1) Ammoniation;
(2) Buckskin;
(3) Caked melanose;
(4) Creasing;
(5) Dirt or other foreign material;
(6) Disease;
(7) Dryness or mushy condition;
(8) Green spots;
(9) Hail;
(10) Insects;
(11) Oil spots;
(12) Riciness or woodiness;
(13) Scab;
(14) Scale;
(15) Scars;
(16) Skin breakdown;
(17) Split, rough or protruding navels;
(18) Sprayburn;
(19) Sunburn;
(20) Thorn scratches; and,
(21) Other means.
(d) For tolerances see § 51.1152.
(e) Internal quality:
(1) Lots meeting the internal requirements for "U.S. Grade AA Juice (Double A)" or "U.S. Grade A Juice" may be so specified in connection with the grade. (See §§ 51.1176–51.1179.)

§ 51.1144 U.S. No. 1 Golden.

The requirements for this grade are the same as for U.S. No. 1 except that not more than the number of fruits permitted in § 51.1152, Tables I and II, shall have more than one-third of their surface, in the aggregate, affected by discoloration.
(a) For tolerances see § 51.1152.
(b) Internal quality:
(1) Lots meeting the internal requirements for "U.S. Grade AA Juice (Double A)" or "U.S. Grade A Juice" may be so specified in connection with the grade. (See §§ 51.1176–51.1179.)

§ 51.1145 U.S. No. 1 Bronze.

The requirements for this grade are the same as for U.S. No. 1 except that all fruit must show some discoloration. Not less than the number of fruits required in § 51.1152, Tables I and II, shall have more than one-third of their surface, in the aggregate, affected by discoloration. The predominating discoloration on these fruits shall be of rust mite type.
(a) For tolerances see § 51.1152.
(b) Internal quality:
(1) Lots meeting the internal requirements for "U.S. Grade AA Juice (Double A)" or "U.S. Grade A Juice" may be so specified in connection with the grade. (See §§ 51.1176–51.1179.)

§ 51.1146 U.S. No. 1 Russet.

The requirements for this grade are the same as for U.S. No. 1 except that not less than the number of fruits required in § 51.1152, Tables I and II, shall have more than one-third of their surface, in the aggregate, affected by any type of discoloration.
(a) For tolerances see § 51.1152.
(b) Internal quality:
(1) Lots meeting the internal requirements for "U.S. Grade AA Juice (Double A)" or "U.S. Grade A Juice" may be so specified in connection with the grade. (See §§ 51.1176–51.1179.)

§ 51.1147 U.S. No. 2 Bright.

The requirements for this grade are the same as for U.S. No. 2 except that no fruit may have more than one-fifth of its surface, in the aggregate, affected by discoloration.
(a) For tolerances see § 51.1152.
(b) Internal quality:
(1) Lots meeting the internal requirements for "U.S. Grade AA Juice (Double A)" or "U.S. Grade A Juice" may be so specified in connection with the grade. (See §§ 51.1176–51.1179.)

§ 51.1148 U.S. No. 2.

"U.S. No. 2" consists of oranges which meet the following requirements:
(a) Basic requirements:
(1) Discoloration:
(i) Not more than one-half of the surface, in the aggregate, may be affected by discoloration. (See § 51.1162.)
(2) Fairly firm;
(3) Mature;
(4) Reasonably well colored;
(5) Similar varietal characteristics;
(6) Slightly misshapen; and,
(7) Slightly rough texture.
(b) Free from:
(1) Bruises;
(2) Cuts not healed;
(3) Decay;
(4) Growth cracks; and,
(5) Wormy fruit.
(c) Free from serious damage caused by:
(1) Ammoniation;
(2) Buckskin;
(3) Caked melanose;
(4) Creasing;
(5) Dirt or other foreign material;
(6) Disease;
(7) Dryness or mushy condition;
(8) Green spots;
(9) Hail;
(10) Insects;
(11) Oil spots;
(12) Riciness or woodiness;
(13) Scab;
(14) Scale;
(15) Scars;
(16) Skin breakdown;
(17) Split, rough or protruding navels;

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

(18) Sprayburn;
(19) Sunburn;
(20) Thorn scratches; and,
(21) Other means.
(d) For tolerances see § 51.1152.
(e) Internal quality:
(1) Lots meeting the internal requirements for "U.S. Grade AA Juice (Double A)" or "U.S. Grade A Juice" may be so specified in connection with the grade. (See §§ 51.1176–51.1179.)

§ 51.1149 U.S. No. 2 Russet.

The requirements for this grade are the same as for U.S. No. 2 except that not less than the number of fruits required in § 51.1153, Tables I and II, shall have more than one-half of their surface, in the aggregate, affected by discoloration.
(a) For tolerances see § 51.1152.
(b) Internal quality:
(1) Lots meeting the internal requirements for "U.S. Grade AA Juice (Double A)" or "U.S. Grade A Juice" may be so specified in connection with the grade. (See §§ 51.1176–51.1179.)

§ 51.1150 U.S. No. 3.

"U.S. No. 3" consists of oranges which meet the following requirements:
(a) Basic requirements:
(1) Mature;
(2) Misshapen;
(3) Poorly colored:
(i) Not more than 25 percent of the surface may be of a solid dark green color.
(4) Rough texture, not seriously lumpy;
(5) Similar varietal characteristics; and,
(6) Slightly spongy.
(b) Free from:
(1) Cuts not healed;
(2) Decay; and,
(3) Wormy fruit.
(c) Free from very serious damage caused by:
(1) Ammoniation;
(2) Bruises;
(3) Buckskin;
(4) Caked melanose;
(5) Creasing;
(6) Disease;
(7) Dryness or mushy condition;
(8) Growth cracks;
(9) Hail;
(10) Insects;
(11) Riciness or woodiness;
(12) Scab;
(13) Scale;
(14) Scars;
(15) Skin breakdown;
(16) Split navels;
(17) Sprayburn;
(18) Sunburn; and,
(19) Other means.
(d) For tolerances see § 51.1152.
(e) Internal quality:
(1) Lots meeting the internal requirements for "U.S. Grade AA Juice (Double A)" or "U.S. Grade A Juice" may be so specified in connection with the grade. (See §§ 51.1176–51.1179.)

UNCLASSIFIED

§ 51.1151 Unclassified.

"Unclassified" consists of oranges which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no grade has been applied to the lot.

TOLERANCES

§ 51.1152 Tolerances.

In order to allow for variations incident to proper grading and handling in each of the foregoing grades, based on sample inspection, the number of defective or off-size specimens in the individual sample, and the number of defective or off-size specimens in the lot, shall be within the limitations specified in Tables I and II. No tolerance shall apply to wormy fruit.

TABLE I—SHIPPING POINT [1]

(a) FOR 1 THROUGH 20 SAMPLES

Factor	Grades	AL [2]	Number of 80-count samples [3]

[1] AL—Absolute limit permitted in individual 50-count sample.
[2] Sample size—50 count.
[3] Acceptance number—maximum or minimum number of defective or off-size fruit permitted.
[4] Preferred number of samples for this acceptance number.

STANDARD PACK

§ 51.1153 Standard pack.

(a) Fruit shall be fairly uniform in size and shall be place packed in boxes or cartons and arranged according to the approved and recognized methods and shall meet the applicable size requirements set forth in this section.

(b) All containers shall be tightly packed and well filled but the contents shall not show excessive or unnecessary bruising because of overfilled containers.

(c) When packed in half-standard ⅘-bushel nailed boxes or 1⅗-bushel wire-bound boxes, the bulge of any box shall not exceed 1¼ inches; when packed in ⅘-bushel wire-bound boxes including the ⅘-bushel flat wire-bound boxes, the bulge of any box shall not exceed 1 inch; when packed in telescope cartons, the bottom of each telescope cover, when in place, shall not be more than ¾ inch above the bottom of the carton container and each container shall be at least level full at time of packing.

(d) Fruit in each container shall meet the size, count, minimum diameter, and pack arrangement given in one of the following tables for the various types of fruit and sizes of containers:

TABLE III

(When oranges, including navels, are packed in 1⅗ bushel wire-bound box)

Size and count	Pack	Rows	Layers	Minimum diameter in inches
100's	4 x 4 or 5 x 5	5 4	5 5	3⅝ 3⅜
125's	5 x 5	5	5	3⅜
163's	7 x 6	5	5	2¹³⁄₁₆
200's	8 x 8	5	5	2¹³⁄₁₆
252's	7 x 7	6	6	2⅝
324's	9 x 9	6	6	2⅜

Provided, That when Navel oranges are packed in this container, the sizes and minimum diameter may be as follows:

Size and count	Minimum diameter in inches
96's	3⅝
125's or 136's	3⅜
150's	3
175's or 176's	2¹³⁄₁₆
216's	2⅝
252's	2⅜
288's or 294's	2⅛
324's	2⅛

TABLE IV

(When Temple oranges and Tangelos are packed in ⅘ bushel flat wire-bound box)

Size and count	Pack	Rows	Layers	Minimum diameter in inches
84's	4 x 5	4	5	3⅝
96's	6 x 5	4	5	3⅜
80's	4 x 4	5	4	3
100's	5 x 5	5	4	2¹³⁄₁₆
120's	5 x 5	6	4	2⅝
140's	7 x 6	6	4	2⅜

Provided, That when Murcott honey oranges are packed in this container, or in ⅘-bushel nailed box, or ⅘-bushel wire-bound box, or ⅘-bushel fiberboard carton, the sizes, packs, and minimum diameters shall be as follows:

Size and count	Pack	Rows	Layers	Minimum diameter in inches
100's	5 x 5	4	5	2¹³⁄₁₆
120's	4 x 6	5	6	2¹³⁄₁₆
150's	5 x 6	5	6	2⅝
176's	6 x 6	6	6	2⅜
210's	5 x 7	6	7	2⅛
245's	6 x 6	6	7	2⅛
294's	7 x 7	6	7	2

TABLE V

(When oranges, Temple oranges, Navel oranges and Tangelos are packed in 4/5 bushel wire-bound box and 4/5 bushel fiberboard carton)

Size	Count	Pack	Rows	Layers	Minimum diameter in inches
100's	48 or	8 x 6	4	4	3⅝
125's	80 64 or	8 x 5 4 x 4	5 4	4 4	3⅜ 3¹³⁄₁₆
163's	80 100 or	5 x 8 4 x 4 5 x 5	4 4	5 5	2¹³⁄₁₆ 2¹³⁄₁₆
200's	100	4 x 4	5	5	2¹³⁄₁₆
252's	125	5 x 5	5	5	2⅝
324's	168 or 163	7 x 6 8 x 4	5 6	5 6	2⅜ 2⅜

Provided, That when Navel oranges are packed in these containers, the size, pack, count, and minimum diameter may be as follows:

Size	Count	Pack	Rows	Layers	Minimum diameter in inches
96's	48	8 x 6	4	4	3⅝
125's or 126's	64	4 x 4	4	4	3⅜
150's	72	6 x 4	4	4	3
175's or 176's	88	4 x 3	5	5	2¹³⁄₁₆
216's	113	4 x 5	5	5	2¹³⁄₁₆
252's	128	5 x 5	5	5	2⅝
288's	150	6 x 6	5	5	2⅜
324's	162	6 x 7	6	5	2⅜

(e) "Fairly uniform in size", as applied to oranges packed in containers as set forth in paragraph (d) of this section, means that not more than the number of fruits permitted in § 51.1152; Tables I and II, are below the minimum diameters given for the various packs and vary more than the following amounts:

Size	Diameter range in inches
100's and 125's	9/16
163's and 200's	9/16
252's and 324's	1/16

(f) In order to allow for variations incident to proper packing, not more than 5 percent of the containers in any lot may fail to meet the requirements of standard pack.

STANDARD SIZING

§ 51.1154 Standard sizing.

(a) Boxes, cartons, bag packs, or bulk loads in which oranges are not packed according to a definite pattern do not meet the requirements of standard pack, but may be certified as meeting the requirements of standard sizing: *Provided*, That the oranges are fairly uniform in size as defined in this section: *And provided further*, That when packed in boxes or cartons the contents have been properly shaken down and the container is at least level full at time of packing.

(b) "Fairly uniform in size" as applied to oranges packed as set forth in paragraph (a) of this section, means that not more than the number of fruits permitted in § 51.1152, Tables I and II, are outside the range of diameters given for the following pack sizes:

Size	Diameter in inches	
	Minimum	Maximum
100's	2¹³⁄₁₆	3⅛
126's	2¹³⁄₁₆	2¹⁵⁄₁₆
163's	2¹³⁄₁₆	2¹³⁄₁₆
200's	2⅝	2¹³⁄₁₆
252's	2⅜	2⅝
324's	2⅛	2⅜

(c) When oranges are packed in containers, in order to allow for variations incident to proper packing, not more than 5 percent of the containers in any lot may fail to meet the requirements of standard sizing.

DEFINITIONS

§ 51.1155 Similar varietal characteristics.

"Similar varietal characteristics" means that the fruits in any container are similar in color and shape.

§ 51.1156 Well colored.

"Well colored" means that the fruit is yellow or orange in color with practically no trace of green color.

§ 51.1157 Firm.

"Firm" as applied to common oranges and tangelos means that the fruit is not soft, or noticeably wilted or flabby; as applied to oranges of the Mandarin group (Satsumas, King, Mandarin), "firm" means that the fruit is not extremely puffy, although the skin may be slightly loose.

§ 51.1158 Well formed.

"Well formed" means that the fruit has the shape characteristic of the variety.

§ 51.1159 Mature.

(a) "Mature" for other than Temple oranges shall have the same meaning currently assigned that term in sections 601.19 and 601.20 of the Florida Citrus Code of 1949, as amended (ch. 25149, Laws of Florida, 1949), or as the definition of such term may hereafter be amended;

(b) "Mature" for Temple oranges shall have the same meaning currently assigned that term in sections 601.21 and 601.22 of the Florida Citrus Code of 1949, as amended (ch. 26492, Laws of Florida, 1951), or as the definition of such term may hereafter be amended; and;

(c) "Mature" for Tangelos shall have the same meaning currently assigned that term in sections 601.231 and 601.232 of the Florida Citrus Code of 1949, as amended (ch. 29757, Laws of Florida, 1955), or as the definition of such term may hereafter be amended.

§ 51.1160 Smooth texture.

"Smooth Texture" means that the skin is thin and smooth for the variety and size of the fruit.

§ 51.1161 Injury.

"Injury" means any specific defect described in § 51.1175, Table VI; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which slightly detracts from the appearance, or the edible or marketing quality of the fruit.

§ 51.1162 Discoloration.

"Discoloration" means russeting of a light shade of golden brown caused by rust mite or other means. Lighter shades of discoloration caused by superficial scars or other means may be allowed on a greater area, or darker shades may be allowed on a lesser area, provided no discoloration caused by speck type melanose or other means may detract from the appearance of the fruit to a greater extent than the shade and amount of discoloration allowed for the grade.

§ 51.1163 Fairly smooth texture.

"Fairly smooth texture" means that the skin is fairly thin and not coarse for the variety and size of the fruit.

§ 51.1164 Damage.

"Damage" means any specific defect described in § 51.1175, Table VI; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which materially detracts from the appearance, or the edible or marketing quality of the fruit.

§ 51.1165 Fairly well colored.

"Fairly well colored" means that, except for an aggregate area of green color which does not exceed the area of a circle 1 inch in diameter, the yellow or orange color predominates over the green color.

§ 51.1166 Reasonably well colored.

"Reasonably well colored" means that the yellow or orange color predominates over the green color on at least two-thirds of the fruit surface, in the aggregate.

§ 51.1167 Fairly firm.

"Fairly firm" as applied to common oranges and tangelos, means that the fruit may be slightly soft, but not bruised; as applied to oranges of the Mandarin group (Satsumas, King, Mandarin), means that the skin of the fruit is not extremely puffy or extremely loose.

§ 51.1168 Slightly misshapen.

"Slightly misshapen" means that the fruit is not of the shape characteristic of the variety but is not appreciably elongated or pointed or otherwise deformed.

§ 51.1169 Slightly rough texture.

"Slightly rough texture" means that the skin is not of smooth texture but is not materially ridged, grooved, or wrinkled.

§ 51.1170 Serious damage.

"Serious damage" means any specific defect described in § 51.1175, Table VI; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which seriously detracts from the appearance, or the edible or marketing quality of the fruit.

TABLE VI—Continued

Factor	Injury	Damage	Serious damage	Very serious damage
Scale	More than a few adherent to the "button" at the stem end, or more than a few adherent on other portions of the fruit.	Aggregating more than a circle ¾ inch in diameter on a 200 size orange.	Aggregating more than a circle ¾ inch in diameter on a 200 size orange.	Covering more than 25 percent of the surface.
Scars	Depressed, not smooth, or shallow or fairly shallow and detracts from appearance more than the amount of disorder-ation permitted in the grade.	Deep, not smooth, or shallow and detracts from appearance more than the amount of disorder-ation permitted in the grade.	Very deep, fairly smooth, or detracts from appearance more than the amount of disorder-ation permitted in the grade.	Deep, rough or unsightly that appearance is very seriously affected.
Skin breakdown	Aggregating more than 25 percent of the surface.	Aggregating more than a circle ¾ inch in diameter on a 200 size orange.	Aggregating more than a circle ¾ inch in diameter on a 200 size orange.	Affecting more than 25 percent of the surface.
Sprayburn	Aggregating more than ¼ inch in diameter on a 200 size orange.	Aggregating more than ¼ inch in diameter on a 200 size orange.	Hard and aggregating more than ¼ inch in diameter on a 200 size orange.	Aggregating more than 25 percent of the surface.
Sunburn	Skin is flattened, dry, darkened, or hard and the affected area exceeds 25 percent of the surface.	Skin is flattened, dry, darkened, or hard and the affected area exceeds 25 percent of the surface.	Skin is hard and affects more than one-third of the surface.	Affecting more than 50 percent of the surface.
Split, Rough, Protruding Navels.	Split is unhealed, or more than ¼ inch in length, or navel protrudes beyond the general contour, and opening is so wide, folded and ridged that it detracts from appearance.	Split is unhealed, or more than ¼ inch in length, or navel protrudes beyond the general contour, and opening is so wide, folded and ridged that it detracts from appearance.	Split is unhealed, or more than ¼ inch in length, or two or more splits aggregate more than 1 inch in length, or navel protrudes beyond general contour, and opening is so wide, folded and ridged that it detracts from appearance.	Split is unhealed or fruit is seriously weakened.
Thorn scratches	Not well healed, or more unsightly than discoloration permitted in this grade.	Not well healed, or hard concentrated thorn injury aggregating more than a circle ¾ inch in diameter on a 200 size orange.	Not well healed, or hard concentrated thorn injury aggregating more than a circle ¾ inch in diameter on a 200 size orange.	Affecting more than 25 percent of the surface.

STANDARDS FOR INTERNAL QUALITY OF COMMON SWEET ORANGES (CITRUS SINENSIS (L) OSBECK)

§ 51.1176 U.S. Grade AA Juice (Double A).

Any lot of oranges, the juice content of which meets the following requirements, may be designated "U.S. Grade AA Juice (Double A)":

(a) Each lot of fruit shall contain an average of not less than 5 gallons of juice per standard packed box of 1⅗ bushels.

(b) The average juice content for any lot of fruit shall have not less than 10 percent total soluble solids, and not less than one-half of 1 percent anhydrous citric acid, or more than the permissible maximum acid specified in Table VII of § 51.1178.

§ 51.1177 U.S. Grade A Juice.

Any lot of oranges, the juice content of which meets the following requirements, may be designated "U.S. Grade A Juice":

(a) Each lot of fruit shall contain an average of not less than 4½ gallons of juice per standard packed box of 1⅗ bushels.

(b) The average juice content for any lot of fruit shall have not less than 9 percent total soluble solids, and not less than one-half of 1 percent anhydrous citric acid, or more than the permissible maximum acid specified in Table VII of § 51.1178.

§ 51.1171 Misshapen.

"Misshapen" means that the fruit is decidedly elongated, pointed or flat-sided.

§ 51.1172 Slightly spongy.

"Slightly spongy" means that the fruit is puffy or slightly wilted but not flabby.

§ 51.1173 Very serious damage.

"Very serious damage" means any specific defect described in § 51.1175.

§ 51.1175 Classification of defects.

Table VI; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which very seriously detracts from the appearance, or the edible or marketing quality of the fruit.

§ 51.1174 Diameter.

"Diameter" means the greatest dimension measured at right angles to a line from stem to blossom end.

TABLE VI

Factor	Injury	Damage	Serious damage	Very serious damage
Ammoniation		Not occurring as light speck type.	Scars are cracked or dark and aggregating more than a circle ¾ inch in diameter on a 200 size orange.	Aggregating more than 25 percent of the surface.
Bucktail		Aggregating more than a circle 1 inch in diameter on a 200 size orange.	Aggregating more than 50 percent of the surface.	Aggregating more than 50 percent of the surface.
Caked melanose		Aggregating more than a circle ¾ inch in diameter on a 200 size orange.	Aggregating more than 25 percent of the surface.	Aggregating more than 25 percent of the surface.
Creasing		Materially weakens the skin, or extends over more than one-third of the surface.	Seriously weakens the skin, or extends over more than one-third of the surface.	Very seriously weakens the skin, or extends over practically the entire surface.
Dryness or musty condition.		Affecting all segments more than ¼ inch at stem end, or the equivalent of this amount, by volume, when occurring in other portions of the fruit.	Affecting all segments more than ¼ inch at stem end, or the equivalent of this amount, by volume, when occurring in other portions of the fruit.	Affecting all segments more than ¼ inch at stem end, or the equivalent of this amount, by volume, when occurring in other portions of the fruit.
Green spots	More than slightly affecting appearance.	More than 10 spots caused by scale, each spot equivalent to the area of a circle ¼ inch in diameter on a 200 size orange.	More than 25 spots caused by scale, each spot equivalent to the area of a circle ¼ inch in diameter on a 200 size orange.	
Hail	Not well healed, or aggregating more than a circle ¾ inch in diameter on a 200 size orange.	Not well healed, or aggregating more than a circle ¾ inch in diameter on a 200 size orange.	Not well healed, or aggregating more than a circle ¾ inch in diameter on a 200 size orange.	Not well healed, or aggregating more than a circle ¾ inch in diameter on a 200 size orange.
Oil spots	More than slightly affecting appearance.	More than 3 spots, or aggregating more than a circle ¼ inch in diameter on a 200 size orange.	More than 10 spots, or aggregating more than a circle 1 inch in diameter on a 200 size orange.	Aggregating more than 25 percent of the surface.
Scab		Materially detracts from the shape or texture, or aggregating more than a circle ¼ inch in diameter on a 200 size orange.	Seriously detracts from the shape or texture, or aggregating more than a circle ¾ inch in diameter on a 200 size orange.	

§ 51.1178 Maximum anhydrous citric acid permissible for corresponding total soluble solids.

For determining the grade of juice, the maximum permissible anhydrous citric acid content in relation to corresponding total soluble solids in the fruit is set forth in the following Table VII together with the minimum ratio of total soluble solids to anhydrous citric acid:

TABLE VII

Total soluble solids (average percent)	Maximum anhydrous citric acid (average percent)	Minimum ratio of total soluble solids to anhydrous citric acid
9.0	0.947	9.50–1
9.1	.963	9.45–1
9.2	.979	9.40–1
9.3	.995	9.35–1
9.4	1.011	9.30–1
9.5	1.027	9.25–1
9.6	1.043	9.20–1
9.7	1.060	9.15–1

15.5	1.824	8.50–1
15.6 or more		

§ 51.1179 Method of juice extraction.

The juice used in the determining of solids, acid, and juice content shall be extracted from representative samples as thoroughly as possible with a hand reamer or by such mechanical extractor or extractors as may be approved. The juice shall be strained through cheese cloth or other approved straining device of extra fine mesh to prevent passage of juice cells, pulp, or seeds.

Dated: June 28, 1967.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

[F.R. Doc. 67-7519; Filed, July 7, 1967; 8:45 a.m.]

[7 CFR Part 51]

FLORIDA TANGERINES

Standards for Grades [1]

Notice is hereby given that the U.S. Department of Agriculture is considering the revision of U.S. Standards for Grades of Florida Tangerines (7 CFR 51.1810–51.1834) pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627).

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposal should file the same in duplicate, not later than July 31, 1967, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, where they will be available for public inspection during official hours of business (par. (b) of § 1.27, as amended at 29 F.R. 7311).

Statement of considerations leading to the proposed revision of the grade standards. Trends in production and marketing practices, over the past few years, have prompted a revision of the U.S. Standards for Grades of Florida Tangerines which have been in effect since 1960.

In proposing this revision, the U.S. Department of Agriculture is introducing a new concept in grade standards which would involve the use of statistical principles and procedures in the application of tolerances to a greater extent than heretofore.

During the 1966–67 harvest season experimental studies were conducted in a number of Florida fresh fruit packinghouses utilizing these statistical procedures. As a result of these studies and demonstrations, a quality control master note sheet was developed and used under continuous inspection operations. The note sheet graphically presents the quality level being packed during any given period in the day. The proposal would involve the use of this quality control aid during the packing process as well as for establishing the grade of tangerines on a lot basis. This would bring about more uniformity and better industry understanding of the grade standards. The Florida citrus industry has requested that this new concept be adopted and incorporated in the standards. This would require the following changes in the presentation of tolerances:

(1) In selecting samples for grade determination, each sample would consist of 50 tangerines. When individual packages contain at least 50 tangerines, the sample is drawn from one package; when individual packages contain less than 50 tangerines a sufficient number of adjoining packages would be combined to form a 50-tangerine sample. The sample size would be constant regardless of the size of the containers.

(2) Tolerances: The tolerances for defects would be specified as acceptance numbers. The total maximum or minimum number of defective or off-size tangerines would be specified for all samples selected for grade determination in the lot.

(3) Under the proposal, individual 50-count samples would be limited to a maximum number of defective or off-size tangerines permitted, or to a minimum number of tangerines having the amount of discoloration required in certain grades. This limitation would be specified in the tolerance tables under the absolute limit heading, and would replace the Application of Tolerances section in the existing standards.

The requirements for the U.S. No. 1 Bronze and U.S. No. 1 Russet grades would be changed to correspond to the U.S. No. 1 Bronze and U.S. No. 1 Russet grades in the present Florida orange and grapefruit standards.

The existing Bronze grade requires that at least 75 percent of the fruit shall show some discoloration and more than 20 percent shall have more than one-third of their surface affected with bronzed russeting.

The proposed Bronze grade would require that all fruit must show some discoloration and rust mite type discoloration must predominate only on fruits showing more than one-third of their surface discolored. This will accomplish the elimination of a large amount of other more objectionable types of discoloration. The change would facilitate the sorting procedure, eliminate time consuming evaluation of the discoloration on each fruit and provide for a more uniform flow of Bronze grade fruit to market. Corresponding changes would be made in the Russet grade.

In these standards a new format is proposed in an effort to arrange in logical order the various requirements for the particular grade. This would promote uniformity and bring about better understanding and simplification of the standards.

A new Classification of Defects section would be provided which lists the various grade defects with limitations for these defects under the injury, damage, serious damage, and very serious damage headings.

Representatives of the U.S. Department of Agriculture will be available upon appointment to discuss and demonstrate the proposed revision to interested persons during the period provided for submitting comments. Request for such appointments should be made in writing to: Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, C&MS, U.S. Department of Agriculture, Washington, D.C. 20250.

The proposed standards, as revised, are as follows:

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

GRADES

§ 51.1810 U.S. Fancy.

"U.S. Fancy" consists of tangerines which meet the following requirements:

(a) Basic requirements:

(1) Discoloration:

(i) Not more than one-tenth of the surface, in the aggregate, may be affected by discoloration. (See § 51.1825.)

(2) Firm;
(3) Highly colored;
(4) Mature; and,
(5) Well formed.

(b) Free from:

(1) Bruises;
(2) Caked melanose;
(3) Decay;
(4) Unhealed skin-breaks; and,
(5) Wormy fruit.

(c) Free from damage caused by:

(1) Ammoniation;
(2) Buckskin;
(3) Creasing;
(4) Dirt or other foreign material;
(5) Dryness or mushy condition;
(6) Disease;
(7) Green spots;
(8) Hail;
(9) Insects;
(10) Oil spots;
(11) Scab;
(12) Scale;
(13) Scars;
(14) Skin breakdown;
(15) Sprayburn;
(16) Sunburn;
(17) Unsightly discoloration; and,
(18) Other means.

(d) For tolerances see § 51.1818.

§ 51.1811 U.S. No. 1.

"U.S. No. 1" consists of tangerines which meet the following requirements:

(a) Basic requirements:

(1) Discoloration:

(i) Not more than one-third of the surface, in the aggregate, may be affected by discoloration. (See § 51.1825.)

(2) Fairly well colored;
(3) Firm;
(4) Mature; and,
(5) Well formed.

(b) Free from:

(1) Bruises;
(2) Decay;
(3) Unhealed skin-breaks; and,
(4) Wormy fruit.

(c) Free from damage caused by:

(1) Ammoniation;
(2) Buckskin;
(3) Caked melanose;
(4) Creasing;
(5) Dirt or other foreign material;
(6) Disease;
(7) Dryness or mushy condition;
(8) Green spots;
(9) Hail;
(10) Insects;
(11) Oil spots;
(12) Scab;
(13) Scale;
(14) Scars;
(15) Skin breakdown;
(16) Sprayburn;
(17) Sunburn;
(18) Unsightly discoloration; and,
(19) Other means.

(d) For tolerances see § 51.1818.

§ 51.1812 U.S. No. 1 Bronze.

The requirements for this grade are the same as for U.S. No. 1 except that all fruit must show some discoloration. Not less than the number of fruits required in § 51.1818, Tables I and II, shall have more than one-third of their surface, in the aggregate, affected by discoloration. The predominating discoloration on these fruits shall be of rust mite type.

(a) For tolerances see § 51.1818.

§ 51.1813 U.S. No. 1 Russet.

The requirements for this grade are the same as for U.S. No. 1 except that not less than the number of fruits required in § 51.1818, Tables I and II, shall have more than one-third of their surface, in the aggregate, affected by any type of discoloration.

(a) For tolerances see § 51.1818.

§ 51.1814 U.S. No. 2.

"U.S. No. 2" consists of tangerines which meet the following requirements:

(a) Basic requirements:

(1) Discoloration:

(i) Not more than one-half of the surface, in the aggregate, may be affected by discoloration. (See § 51.1825.)

(2) Fairly firm;
(3) Fairly well formed;
(4) Mature; and,
(5) Reasonably well colored.

(b) Free from:

(1) Bruises;
(2) Decay;
(3) Unhealed skin-breaks; and,
(4) Wormy fruit.

(c) Free from serious damage caused by:

(1) Ammoniation;
(2) Buckskin;
(3) Caked melanose;
(4) Creasing;
(5) Dirt or other foreign material;
(6) Disease;
(7) Dryness or mushy condition;
(8) Green spots;
(9) Hail;
(10) Insects;
(11) Oil spots;
(12) Scab;
(13) Scale;
(14) Scars;
(15) Skin breakdown;
(16) Sprayburn;
(17) Sunburn;
(18) Unsightly discoloration; and,
(19) Other means.

(d) For tolerances see § 51.1818.

§ 51.1815 U.S. No. 2 Russet.

The requirements for this grade are the same as for U.S. No. 2 except that not less than the number of fruits required in § 51.1818, Tables I and II, shall have more than one-half of their surface, in the aggregate, affected by discoloration.

(a) For tolerances see § 51.1818.

§ 51.1816 U.S. No. 3.

"U.S. No. 3" consists of tangerines which meet the following requirements:

(a) Basic requirements:

(1) Mature;
(2) Not flabby; and,
(3) Not seriously lumpy.

(b) Free from:

(1) Decay;
(2) Unhealed skin-breaks; and,
(3) Wormy fruit.

(c) Free from very serious damage caused by:

(1) Ammoniation;
(2) Bruises;
(3) Caked melanose;
(4) Creasing;
(5) Dirt or other foreign material;
(6) Disease;
(7) Dryness or mushy condition;
(8) Hail;
(9) Insects;
(10) Scab;
(11) Scale;
(12) Scars;
(13) Skin breakdown;
(14) Sprayburn;
(15) Sunburn;
(16) Unsightly discoloration; and,
(17) Other means.

(d) For tolerances see § 51.1818.

UNCLASSIFIED

§ 51.1817 Unclassified.

"Unclassified" consists of tangerines which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no grade has been applied to the lot.

TOLERANCES

§ 51.1818 Tolerances.

In order to allow for variations incident to proper grading and handling in each of the foregoing grades, based on sample inspection, the number of defective or off-size specimens in the individual sample, and the number of defective or off-size specimens in the lot, shall be within the limitations specified in Tables I and II. No tolerance shall apply to wormy fruit.

TABLE I—SERVICE FOOT [1]

STANDARD PACK

§ 51.1819 Standard pack.

The tangerines in each container shall be packed in accordance with recognized methods. Each container shall be well filled and properly marked to indicate the size of the fruit. When the figures used to indicate size of fruit vary from the actual number of tangerines in the container, as in the case of fractional parts of boxes, the figures indicating size shall be followed by the letter "s" or the word "size," as, for example, "210's," or "210 size." Containers which are not so marked shall not be regarded as meeting requirements of "standard pack."

(a) Fruit in each container shall be of a size not less than the minimum diameters specified in Table III for the various packs. Packs other than those listed shall have a minimum diameter not less than specified for the nearest count.

TABLE III

Pack	Diameter in inches (minimum)
100	2 15/16
120	2 11/16
150	2 5/16
176	2 1/16
210	2 1/16
246	2 1/16
294	2

(b) In order to allow for variations incident to proper sizing, not more than the number of fruits permitted in § 51.1818, Tables I and II, are below the minimum size for the count as specified in Table III.

DEFINITIONS

§ 51.1820 Mature.

"Mature" shall have the same meaning currently assigned that term in sections 601.21 and 601.22 of the Florida Citrus Code of 1949, as amended (ch. 28492, Laws of Florida, 1951), or as the definition of such term may hereafter be amended.

§ 51.1821 Firm.

"Firm" means that the flesh is not soft and the fruit is not badly puffy and that the skin has not become materially separated from the flesh of the tangerine.

§ 51.1822 Well formed.

"Well formed" means that the fruit has the characteristic tangerine shape and is not deformed.

§ 51.1823 Damage.

"Damage" means any specific defect described in § 51.1834, Table IV; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which materially detracts from the appearance, or the edible or marketing quality of the fruit.

§ 51.1824 Highly colored.

"Highly colored" means that the ground color of each fruit is a deep tangerine color with practically no trace of yellow color.

§ 51.1825 Discoloration.

"Discoloration" means russeting of a light shade of golden brown caused by rust mite or other means. Lighter shades

of discoloration caused by superficial scars or other means may be allowed on a greater area, or darker shades may be allowed on a lesser area, provided no discoloration caused by speck type melanose or other means may detract from the appearance of the fruit to a greater extent than the shade and amount of discoloration allowed in the grade.

§ 51.1826 Well colored.

"Well colored" means that a good yellow or better ground color predominates over the green color on the entire fruit surface with no distinct green color present, and that some portion of the surface has a reddish tangerine blush.

§ 51.1827 Fairly well colored.

"Fairly well colored" means that the surface of the fruit may have green color which does not exceed the aggregate area of a circle 1¼ inches in diameter and that the remainder of the surface has a yellow or better ground color with some portion of the surface showing reddish tangerine blush.

§ 51.1828 Fairly firm.

"Fairly firm" means that the flesh may be slightly soft but is not bruised or badly puffy, and that the skin has not become seriously separated from the flesh of the tangerine.

§ 51.1829 Fairly well formed.

"Fairly well formed" means that the fruit may not have the shape characteristic of the variety but that it is not badly deformed.

§ 51.1830 Serious damage.

"Serious damage" means any specific defect described in § 51.1834, Table IV; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which seriously detracts from the appearance, or the edible or marketing quality of the fruit.

§ 51.1831 Reasonably well colored.

"Reasonably well colored" means that a good yellow or reddish tangerine color shall predominate over the green color on at least one-half of the fruit surface in the aggregate, and that each fruit shall show practically no lemon color.

§ 51.1832 Very serious damage.

"Very serious damage" means any specific defect described in § 51.1834, Table IV; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which very seriously detracts from the appearance, or the edible or marketing quality of the fruit.

§ 51.1833 Diameter.

"Diameter" means the greatest dimension measured at right angles to a line from stem to blossom end.

TABLE IV

Factor	Damage	Serious damage	Very serious damage
Ammoniation	Not occurring as light speck type, or detracts more than discoloration permitted in the grade.	Scars are cracked or dark and aggregating more than ⅛ inch in diameter on a 176 size tangerine.	Aggregating more than 25 percent of the surface.
Buckskin	Aggregating more than a circle ⅜ inch in diameter on a 176 size tangerine.	Aggregating more than 25 percent of the surface.	Aggregating more than 25 percent of the surface.
Caked melanose	Aggregating more than a circle ⅜ inch in diameter on a 176 size tangerine.	Aggregating more than a circle ⅝ inch in diameter on a 176 size tangerine.	Aggregating more than 25 percent of the surface.
Creasing	Materially weakens the skin, or extends over more than one-third of the surface.	Seriously weakens the skin, or extends over more than one-half of the surface.	Very seriously weakens the skin, or is distributed over practically the entire surface.
Dryness or mushy condition.	Affecting all segments more than ⅛ inch at stem end, or the equivalent of this amount, by volume, when occurring in other portions of the fruit.	Affecting all segments more than ⅛ inch at stem end, or the equivalent of this amount, by volume, when occurring in other portions of the fruit.	Affecting all segments more than ⅛ inch at stem end, or the equivalent of this amount, by volume, when occurring in other portions of the fruit.
Green spots	More than 10 spots caused by scale, each spot equivalent to the area of a circle ⅛ inch in diameter on a 176 size tangerine.	More than 30 spots caused by scale, each spot equivalent to the area of a circle ⅛ inch in diameter on a 176 size tangerine.	
Hail	Not well healed, or aggregating more than a circle ⅛ inch in diameter on a 176 size tangerine.	Not well healed, or aggregating more than a circle ⅛ inch in diameter on a 176 size tangerine.	Not well healed, or aggregating more than a circle ⅛ inch in diameter on a 176 size tangerine.
Oil spots	More than 5 spots, or aggregating more than a circle ⅛ inch in diameter on a 176 size tangerine.	More than 10 spots, or aggregating more than a circle ⅛ inch in diameter on a 176 size tangerine.	
Scab	Materially detracts from the shape or texture, or aggregating more than a circle ⅛ inch in diameter on a 176 size tangerine.	Seriously detracts from the shape or texture, or aggregating more than a circle ⅛ inch in diameter on a 176 size tangerine.	Aggregating more than 25 percent of the surface.
Scale	Aggregating more than a circle ⅜ inch in diameter on a 176 size tangerine.	Aggregating more than a circle ⅝ inch in diameter on a 176 size tangerine.	Aggregating more than 25 percent of the surface.
Scars	Not smooth, or causing any noticeable depression, or detracts from appearance more than the amount of discoloration permitted in the grade.	Not fairly smooth, or causing any materially depressed area, or detracts from appearance more than the amount of discoloration permitted in the grade.	Deep, rough, or unsightly that appearance is very seriously affected.
Skin breakdown	Aggregating more than a circle ¼ inch in diameter on a 176 size tangerine.	Aggregating more than a circle ½ inch in diameter on a 176 size tangerine.	Affecting more than 25 percent of the surface.
Sprayburn	Skin is hard and aggregating more than a circle ¼ inch in diameter on a 176 size tangerine.	Skin is hard and aggregating more than a circle 1¼ inches in diameter on a 176 size tangerine.	Aggregating more than 25 percent of the surface.
Sunburn	Skin is flattened, dry, darkened, or hard and the affected area exceeds 25 percent of the surface.	Skin is hard and affects more than one-third of the surface.	Affecting more than 50 percent of the surface.
Unsightly discoloration.	Color and pattern causes an unattractive appearance.	Color and pattern causes a distinctly unattractive appearance.	Very objectionable appearance caused by any means.

Dated: June 28, 1967.

G. R. GRANGE,
Deputy Administrator, Marketing Services.

MASTER LUMP SUM REPAIR CONTRACT—NSA-LUMPSUMREP

Proposed Revision

The Acting Director, National Shipping Authority has under consideration the revision of the Master Lump Sum Repair Contract, NSA-LUMPSUMREP with respect to vessel repairs, etc.

A copy of the proposed revised form of contract has been filed with the original of this document in the Office of the Federal Register.

Copies of said revised form may be obtained upon request to the Secretary, Maritime Administration.

Interested persons may present views or comments in connection with the foregoing by filing same in writing, in triplicate, with the Secretary, Maritime Administration, 441 G Street NW., Washington, D.C. 20235, by close of business on August 31, 1967.

Dated: June 30, 1967.

JAMES W. GULICK,
Acting Director, National Shipping Authority.

[F.R. Doc. 67-7905; Filed, July 7, 1967; 8:49 a.m.]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 23]

[Docket No. 8070; Notice 67-11A]

AIRWORTHINESS STANDARDS

Small Airplanes Capable of Carrying More Than 10 Occupants; Extension of Comment Period

The Federal Aviation Administration proposed in Notice 67-11, published on April 7, 1967 (32 F.R. 5698), to amend Part 23 of the Federal Aviation Regulations to provide additional airworthiness standards for small airplanes capable of carrying more than 10 persons, and intended for use under Part 135, Air Taxi Operators and Commercial Operators of Small Aircraft. The notice stated that consideration would be given to all comments received on or before June 30, 1967.

The Aerospace Industries Association of America, Inc. (AIA), on behalf of its members, has requested a 168-day extension of the time for comments on this proposed regulatory action. This organization indicates that it has now determined that additional work on Notice 67-11 is necessary in order to provide the Administration with the information necessary to prepare regulations that will be readily adaptable to the expected large family of air taxi type aircraft. The AIA advises that the 168-day extension is necessary since all available manpower is being devoted to the preparation of industry response to Notice 67-14, and it will not be possible to begin review of Notice 67-11 until September 1967.

While the FAA recognizes the difficulties referred to in the petition, the petitioner has, nevertheless, not shown good cause for a 168-day extension of the comment period. Moreover, in view of the safety considerations which prompted the issuance of Notice 67-11, a grant of an extension for the requested length of time would not be consistent with the public interest. On the other hand, the FAA has previously acknowledged that Notice 67-11 contains complex proposals and that there may be some inconsistency with, or some duplication of, the proposals set forth in Notice 67-14 (32 F.R. 5791). Therefore, the FAA considers that the comment periods on Notices 67-11 and 67-14 should coincide, insofar as practicable, to permit the simultaneous evaluation of the two proposals with respect to any such inconsistencies or duplications.

In consideration of the foregoing, I find that the petitioner has shown a substantive interest in the proposed rule, that good cause exists for extending the comment period on Notice 67-11 to coincide with the comment period on Notice 67-14, and that such an extension is consistent with the public interest.

Therefore, pursuant to the authority delegated to me by the Administrator (14 CFR 11.45), the time within which comments on Notice 67-11 will be received is extended to September 9, 1967.

Issued in Washington, D.C., on June 30, 1967.

R. S. SLIFF,
Acting Director, Flight Standards Service.

[F.R. Doc. 67-7874; Filed, July 7, 1967; 8:47 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 67-WE-38]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations which would alter the controlled airspace in the Yuma, Ariz., area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 90007, Airport Station, Los Angeles, Calif. 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Avenue, Los Angeles, Calif. 90045.

The control zone is required to protect aircraft executing prescribed instrument approach and departure procedures while operating below 1,000 feet above the surface. The 700-foot transition area will provide controlled airspace for aircraft executing prescribed instrument approach and departure procedures during operation between 700 and 1,200 feet above the surface. The 1,200-foot transition area will provide controlled airspace for aircraft executing prescribed instrument approach, departure, and holding procedures above 1,200 feet above the surface. The additional 1,200-foot above the surface and 4,000-foot MSL transition areas are required to provide controlled airspace for aircraft executing standard instrument departure procedures from Yuma MCAS and transition routings to Blythe and Imperial, Calif., VORTAC's.

In view of the foregoing, the FAA proposes the following airspace actions:

In § 71.171 (32 F.R. 2147) the Yuma, Ariz., control zone is amended as follows:

YUMA, ARIZ.

Within a 5-mile radius of Yuma MCAS/Yuma International Airport (latitude 32°-39'23" N., longitude 114°36'18" W.), within 2 miles each side of the Yuma VORTAC 181° radial, extending from the 5-mile radius zone to 2 miles south of the VORTAC, and within 2 miles each side of the 044° bearing from the MCAS Yuma RBN, extending from the 5-mile radius zone to 8 miles northeast of the RBN.

In § 71.181 (32 F.R. 2273) the Yuma, Ariz., transition area is amended as follows:

YUMA, ARIZ.

That airspace extending upward from 700 feet above the surface, within an 11-mile radius of Yuma MCAS/Yuma International Airport (latitude 32°39'23" N., longitude 114°36'18" W.), within 2 miles each side of the Yuma VORTAC 181° radial, extending from the 11-mile radius area to 21 miles south of the VORTAC; that airspace extending upward from 1,200 feet above the surface, within 12 miles west and 11 miles east of the Yuma VORTAC 351° radial, extending from the north edge of V-66 to 20 miles north of the VORTAC, within 5 miles north and 8 miles south of the Yuma VORTAC 087° radial, extending from the VORTAC to 14 miles east of the VORTAC, within 11 miles east and 8 miles west of the Yuma VORTAC 180° radial, extending from the VORTAC to the United States/Mexico border; and that airspace northwest of Yuma, extending upward from 4,000 feet MSL, bounded on the north by the arc of an 18-mile radius circle centered on the Blythe, Calif., Airport (latitude 33°37'15" N., longitude 114°43'00" W.), on the east by the west edge of V-135, on the south by the north edge of V-66, and on the northwest and west by lines 5 miles northwest and west of and parallel to the Imperial and Blythe, Calif., VORTAC's, 064° and 187° radials respectively; excluding that portion outside the United States.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (72 Stat. 749; 49 U.S.C. 1348).

Issued in Los Angeles, Calif., on June 29, 1967.

A. E. HORNING,
Acting Director, Western Region.

[F.R. Doc. 67-7875; Filed, July 7, 1967; 8:47 a.m.]

[14 CFR Part 61]

[Docket No. 8260; Notice 67-26]

LIMITING CERTAIN PILOT PRIVILEGES

Operation of Hot Air Balloons Without an Airborne Heater

The Federal Aviation Administration is considering amending Part 61 of the Federal Aviation Regulations to limit the privileges of certain student and commercial pilots (lighter-than-air) to operating only hot air balloons without an airborne heater, if they do not meet all of the applicable aeronautical knowledge and experience requirements.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket GC-24, 800 Independence Avenue SW., Washington, D.C. 20590. All communications received on or before September 5, 1967, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Since 1951, the FAA and its predecessor agencies have allowed pilots to operate hot air balloons upon a demonstration of very limited aeronautical knowledge, experience, or skill. At present, the holder of a student pilot certificate who passes the written test required by § 61.71(c)(1) may act as pilot in command of a hot air balloon (subject to the limitations in § 61.71(b)). After he meets the flight instruction requirements of § 61.71(c)(2), he may act as pilot in command of any free balloon (also subject to § 61.71(b)). At present, an applicant for a commercial pilot certificate (lighter-than-air, free balloon class) who successfully performs the maneuvers required by § 61.130 may be issued a commercial pilot certificate with lighter-than-air category and free balloon class ratings limited to "Hot Air Balloons Only", and may give flight instruction in those balloons. After he meets the aeronautical knowledge and experience requirements of §§ 61.113(c) and 61.128, the "Hot Air Balloons Only" limitation may be removed from his commercial pilot certificate.

Originally when hot air was the lifting means, a ballon was filled with hot air from a heater that was located on the ground and that was no longer available after the balloon ascended. As the balloon rose, the hot air cooled rapidly resulting in flights of limited distance and altitude. Longer flights at higher altitudes usually were possible only with balloons that depended on a captive lighter-than-air gas for lift, rather than on retained heat, and the present regulations reflect the greater aeronautical knowledge, experience, and skill necessary for operating those balloons.

The development of compact and efficient airborne heaters for hot air balloons in recent years, and their increasing use, has greatly extended the altitude, distance, and duration capabilities of hot air balloons. Basically, the operating characteristics of a hot air balloon with an airborne heater are more similar to those of a lighter-than-air gas balloon than they are to the operating characteristics of a hot air balloon without an airborne heater. The FAA believes that the greater aeronautical knowledge, experience, and skill necessary to operate a hot air balloon with an airborne heater should be recognized, while continuing to allow presently authorized operations of hot air balloons without an airborne heater.

Accordingly, the FAA proposes to extend the general limitations as to class ratings in §§ 61.16(b) and 61.16(c) to all pilots of lighter-than-air aircraft, except those who operate hot air balloons without an airborne heater, and also to reflect that change in § 61.15(e). The proposed amendment to § 61.15(e) would require holders of the certificates named in that paragraph to either exchange their certificates or limit their pilot activities to operating hot air balloons without an airborne heater. Holders of certificates that now are limited to "Hot Air Balloons Only", and that either expire under § 61.9(c) or may be exchanged under § 61.15(e)(3), would be reissued a certificate that bears the new limitations described in proposed § 61.130(c). Proposed amendments to § 61.71 would allow a student pilot to operate a hot air balloon without an airborne heater after his instructor certifies on his student pilot certificate that the student is familiar with the general and visual flight rules in §§ 91.1 through 91.9 and Subpart B of Part 91 (rather than after passing the written test now required). However, he would be limited to operating those balloons until he acquired the necessary aeronautical experience. Under proposed § 61.130(c), an applicant for a commercial pilot certificate (lighter-than-air category, free balloon class) who demonstrates his aeronautical skill under §§ 61.130(a) and 61.130(b) would be eligible for a certificate limited to "Hot Air Balloons Without Airborne Heater Only". This limitation, or a limitation to "Hot Air Balloons Only", could be removed when the applicant meets the aeronautical knowledge and experience requirements of §§ 61.113(c) and 61.128. Under proposed § 61.131(c), the holder of a certificate issued under § 61.130(c), or one limited to "Hot Air Balloons Only", would have commercial pilot and flight instruction privileges only as to hot air balloons without an airborne heater.

Present §§ 61.101(a)(5) and 61.101(b) do not clearly reflect that only lighter-than-air category and airship class ratings are issued to private pilots under Subpart C of Part 61. Present § 61.39(a)(2)(iv) does not provide for logging free balloon flight instruction received from a private pilot (lighter-than-air, airship class). Appropriate clarifying amendments are proposed to those sections.

In consideration of the foregoing, it is proposed to amend Part 61 of the Federal Aviation Regulations as follows:

1. By amending the introductory language of paragraph (e) and subparagraph (e)(3) of § 61.15 to read as follows:

§ 61.15 Aircraft ratings.

* * * * *

(e) Subject to § 61.16, the holder of a lighter-than-air pilot certificate, a pilot certificate with a lighter-than-air category rating, or a free balloon pilot certificate may continue to exercise the privileges of that certificate or rating. However, if he exchanges his certificate— * * *

(3) The holder of a free balloon pilot certificate is issued a commercial pilot certificate with a lighter-than-air category rating and free balloon class rating, and if appropriate, with the limitation provided in § 61.130(c).

* * * * *

2. By amending subparagraph (d)(4) of § 61.16 to read as follows:

§ 61.16 General limitations.

* * * * *

(d) * * *

(4) The holder of a pilot certificate with a lighter-than-air category rating when operating a hot air balloon without an airborne heater.

3. By amending subdivision (a)(2)(iv) of § 61.39 to read as follows:

§ 61.39 Pilot logbooks: Except airline transport pilots.

(a) * * *

(2) * * *

(iv) Flight instruction from an appropriately rated flight instructor, in the case of airplanes or rotorcraft; from an appropriately rated flight instructor or commercial glider pilot, in the case of gliders; from an appropriately rated commercial pilot, in the case of airships; or from an appropriately rated private or commercial pilot, in the case of free balloons.

* * * * *

4. By amending § 61.71 by amending the flush paragraph at the end of paragraph (a), by amending paragraph (c), and by adding the following new paragraph (d), to read as follows:

§ 61.71 Lighter-than-air operations: Flight limitations.

(a) * * *

Subparagraph (2) of this paragraph does not apply to a student pilot who holds a free balloon class rating, unless that rating bears a limitation named in § 61.130(c).

* * * * *

(c) A student pilot (lighter-than-air) may not operate a free balloon as pilot in command until his instructor certifies on his certificate that he is familiar with the general and visual flight rules of §§ 91.1 through 91.9 and Subpart B of Part 91 of this chapter.

(d) A student pilot (lighter-than-air) may not operate a free balloon, other than a hot air balloon without an airborne heater, as pilot in command until his instructor certifies on his certificate that he has had at least six instruction flights, totaling at least 6 hours, in free balloons.

§ 61.101 [Amended]

5. By amending the parenthetical clauses in subparagraph (a)(5) and in paragraph (b) of § 61.101 to read "(lighter-than-air, airship class)".

6. By amending the introductory language of paragraph (c) of § 61.113 to read as follows:

§ 61.113 Aeronautical knowledge.

* * * * *

(c) An applicant for a commercial pilot certificate (lighter-than-air, free balloon class), other than a certificate issued under § 61.130(c), must pass a written test on the following:

* * * * *

7. By amending § 61.128 to read as follows:

§ 61.128 Lighter-than-air rating (free balloon class): aeronautical experience.

An applicant for a commercial pilot certificate (lighter-than-air, free balloon class), other than a certificate issued under § 61.130(c), must have made at least eight ascents averaging 2 hours in duration, substantiated by a logbook, including six ascents under the supervision of an appropriately rated private or commercial pilot, one ascent in control to an altitude of 10,000 feet under that supervision, and one solo ascent.

8. By adding the following new paragraph (c) at the end of § 61.130:

§ 61.130 Lighter-than-air rating (free balloon class): aeronautical skill.

* * * * *

(c) An applicant who meets the requirements of this section, but who does not meet the requirements of §§ 61.113(c) and 61.128, may obtain a commercial pilot certificate with lighter-than-air category and free balloon class ratings limited to "Hot Air Balloons Without Airborne Heater Only". Upon meeting the requirements of §§ 61.113(c) and 61.128, the "Hot Air Balloons Without Airborne Heater Only" limitation, or a "Hot Air Balloons Only" limitation, may be removed.

9. By amending paragraph (c) of § 61.131 to read as follows:

§ 61.131 General privileges and limitations.

* * * * *

(c) Unless his certificate is issued under § 61.130(c) or is limited to "Hot Air Balloons Only", a commercial pilot (lighter-than-air, free balloon class) may act as pilot in command of, and give flight instruction in, a free balloon. A commercial pilot (lighter-than-air, free balloon class) whose certificate is issued under § 61.130(c) or is limited to "Hot Air Balloons Only", may act as pilot in command of, and give flight instruction in, only a hot air balloon without an airborne heater.

This proposal is made under the authority of sections 313(a), 601, and 602 of the Federal Aviation Act of 1958 (49 U.S.C. 1354, 1421, and 1422).

Issued in Washington, D.C., on July 3, 1967.

R. S. SLIFF,
Acting Director,
Flight Standards Service.

Notices

DEPARTMENT OF THE TREASURY

Bureau of Customs

[101.11]

STATEMENT OF ORGANIZATION, FUNCTIONS, AND PROCEDURES

In compliance with 5 U.S.C. 552, this notice provides a statement for the guidance of the public of the Bureau of Customs central and field organization; the established places at which, the officers from whom, and the methods whereby the public may secure information, make submittals or requests, or obtain decisions; and the general course and method by which the Bureau of Customs functions are channeled and determined, including the nature and requirements of all formal and informal procedures available, superseding the material appearing in 16 F.R. 6964 [1951]:

Part

I Central Organization and Functions.
II Field Organization and Functions.
III Sources and Methods of Securing Information.
IV Procedures.
V Substantive Rules.

I. Central Organization and Functions

Section 1. *Official address and business hours*—(a) *Official address.* The principal office of the Bureau of Customs is at 2100 K Street NW., Washington, D.C. 20226. Communications to the Bureau of Customs should be addressed to the Commissioner of Customs at the above address unless otherwise specifically directed.

(b) *Business hours.* Principal and field offices are open on each business day from 8:30 a.m. to 5 p.m., unless otherwise posted.

Sec. 2. *Commissioner and Deputy Commissioner of Customs*—(a) *Appointment.* The Commissioner is appointed pursuant to law by the Secretary of the Treasury.

(b) *Authority*—(1) *Commissioner.* Under the general supervision of the Secretary of the Treasury, and pursuant to authority delegated by him, the Commissioner of Customs establishes the policies and supervises the activities of the Customs Service, including the appointment of its personnel and the management of its finances. The Commissioner is responsible for the implementation and administration of all executive directives and legislation relating to customs activities. He promulgates rules and regulations with the approval of the Secretary of the Treasury, and makes decisions under authority delegated to him.

(2) *Deputy Commissioner.* The Deputy Commissioner acts as Commissioner when the Commissioner is absent or when the office is vacant. He participates in the establishment of policies, and has general administrative supervision and control, under the general direction of the Commissioner, over all the work of the Bureau. He further participates in the supervision of the four Assistant Commissioners and the Regional Commissioners.

(c) *Officers empowered to act during absence, disability, or vacancy.* The officers of customs empowered to act as Commissioner of Customs during the absence or disability of the Commissioner, or when there is a vacancy in the office, are designated in Customs Delegation Order No. 27, dated November 25, 1966, T.D. 66-265 (31 F.R. 15098). If any change in the order of succession is hereafter made, a further delegation order will be published in the Federal Register.

Sec. 3. *Office of the Commissioner.* The Commissioner and other Bureau officials are assisted by five Assistants to the Commissioner on Bureau programs in the areas of equal employment opportunity, foreign customs assistance, public information, security, and priority correspondence.

Sec. 4. *Office of the Chief Counsel.* This office, which is a part of the Office of the General Counsel of the Treasury Department, is under the supervision of an Assistant General Counsel. The Chief Counsel serves as the legal advisor to the Commissioner and his staff on all matters pertaining to the administration and enforcement of the customs and related laws. His office also performs such other duties of a legal nature as may be assigned by the Commissioner of Customs, his Deputy, or Assistants. The Chief Counsel supervises the five Regional Counsels located in Chicago, Houston, Miami, New York, and San Francisco. (See Part II, sec. 3 of this notice.)

Sec. 5. *Offices and Divisions*—(a) *Office of Administration.* Under the supervision of an Assistant Commissioner of Customs, this office is composed of six divisions, each headed by a director. This office is responsible for the development, implementation and evaluation of internal programs relating to budgeting, accounting, personnel, data processing, audit, management analysis, administrative services, and facilities management. The designations of the divisions are generally descriptive of the functions performed in each: Division of Finance and Management Analysis; Division of Administrative Services; Division of Audits; Division of Personnel Management; Division of Data Processing; and Division of Facilities Management.

(b) *Office of Investigations.* Under the supervision of an Assistant Commissioner of Customs, this office is composed of four divisions, each headed by a director. This office is responsible for the development, implementation, and evaluation of programs relating to the investigative and enforcement activities of the Bureau, and for supervision of the field personnel of the Customs Agency Service (see Part II, sec. 3). The designations of the divisions are generally descriptive of the functions and responsibilities of each: Division of Planning and Inspection; Division of Enforcement; Division of Technical and Fraud Investigations; and Division of Intelligence and Communications.

(c) *Office of Operations.* Under the supervision of an Assistant Commissioner of Customs, this office is responsible for the development, implementation, and evaluation of programs relating to the identification, control, and disposition of imported merchandise, the control of carriers arriving in and departing from the United States, the procedural and operational requirements for enforcement of the regulations of other Government agencies by Customs personnel, the operational facilitation of the international movement of land, sea, and air carriers, passengers, baggage, and cargo, for the application of factual information concerning matters of value, tariff classification, and operational matters pertaining to acceptance and liquidation of entries, examination of merchandise, the collection and refund of duties and taxes on imported merchandise, the administration of import quotas, and for the furnishing of technical and scientific information. The responsibilities of the three divisions, each headed by a director, are indicated in a general way by the designations of the divisions: Division of Inspection and Control; Division of Appraisement and Collections; and Division of Technical Services.

(d) *Office of Regulations and Rulings.* Under the supervision of an Assistant Commissioner of Customs, this office is responsible for continuing review of customs decisions, programs, and procedures to assure conformity with the laws and regulations administered by the Bureau of Customs, for interpretation of the Antidumping Act, 1921, the countervailing duty provision of the Tariff Act of 1930 (19 U.S.C. 1303), and the laws relating to the tariff classification of merchandise, to personal or administrative exemptions, and to entry or valuation of merchandise, for decisions on matters relating to claims, fines, penalties, and forfeitures, for interpretation of the law and for decisions relating to the entrance, clearance and use of vessels, vehicles, and aircraft, for drafting regulations and rulings to implement Treasury and Bureau decisions and procedures, and for drafting or participating in the drafting of legislation. The responsibilities of the four divisions, each headed by a director, are indicated in a general way by the designations of the divisions: Division of Tariff Classification Rulings; Division of Entry Procedures and Penalties; Division of Marine and Transportation Ratings; and Division of Regulations.

Sec. 6. *Office of Planning and Research.* This office is headed by the Director of Planning and Research, who reports directly to the Commissioner, and consults with and provides technical advice and assistance to the Commissioner and officers of Customs on budget program and planning matters.

II. Field Organization

Section 1. *Field audit.* Under the direction of the Division of Audits, Office of Administration, field audit offices, headed by a director, conduct internal audits of regional fiscal procedures, accounts and records, property, and control of imported merchandise, and examine certain aspects of the accounts and records of customhouse brokers and wool manufacturers and processors. Field audit offices and the regions assigned to them are located as set forth in § 1.4a of the Customs Regulations (19 CFR 1.4a).

Sec. 2. *Customs Agency Service.* Under the direction of the Office of Investigations, Customs Agency Service investigative and enforcement staffs are responsible for preventing, detecting, and investigating offenses against Customs and related laws, and for providing information in matters of personnel security. The location and jurisdiction of Customs Agency Service offices is set out in § 1.5 of the Customs Regulations (19 CFR 1.5).

Sec. 3. *Office of the Regional Counsel.* Although assigned to the field and located in the offices of the Regional Commissioners in Chicago, Houston, Miami, New York, and San Francisco, the Regional Counsels are under the general supervision of the Chief Counsel at Bureau headquarters. The Regional Counsels serve as legal advisors to the principal customs field officers and their staffs and perform such other functions as are assigned.

Sec. 4. *Regional and District Offices.* There are nine Customs regions, each headed by a Regional Commissioner, with their offices in the following cities: Region I, Boston, Mass.; Region II, New York City, N.Y.; Region III, Baltimore, Md.; Region IV, Miami, Fla.; Region V, New Orleans, La.; Region VI, Houston, Tex.; Region VII, Los Angeles, Calif.; Region VIII, San Francisco, Calif.; Region IX, Chicago, Ill. The geographical areas and the location of customs districts or areas assigned to each region are as published in § 1.2 of the Customs Regulations (19 CFR 1.2).

Sec. 5. *Regional Commissioner of Customs.* The Regional Commissioner represents and acts for the Commissioner of Customs and is responsible for effective implementation in his region of the policies, programs, and procedures established by the Commissioner. He is also responsible for the development and implementation of regional policies, programs, and procedures, and the coordination, control, and supervision of all customs activities in his region, except those of Field Audit, and the Customs Agency Service.

Sec. 6. *Office of the Regional Commissioner.* The responsibilities and functions of the regional staffs are divided as follows, unless some other division is required by circumstances and authorized by the Commissioner:

(a) *Assistant Regional Commissioner of Customs for Administration.* This officer is responsible for developing, implementing, and evaluating programs for the budget, accounting, personnel, data processing, management analysis, and administrative services functions of the region. Under his immediate supervision are the Deputy Assistant Regional Commissioners of Customs for Personnel Management, and for Financial Management, whose responsibilities are indicated in a general way by the designations of their offices.

(b) *Assistant Regional Commissioner of Customs for Operations.* This officer is responsible for the development, implementation, and evaluation of operational programs relating to the inspection and control of persons, carriers, cargo, and baggage arriving in the United States, the inspection, identification, and control, assessment of duties and taxes upon, and disposition of imported merchandise, and the enforcement of the regulations of other Government agencies. Under his immediate supervision are the Deputy Assistant Regional Commissioners of Customs for Classification and Value, and for Inspection and Control, and the Chief Chemist of the region, whose responsibilities are indicated in a general way by the designations of their offices.

Sec. 7. *District Offices*—(a) *District Director of Customs.* The District Director of Customs represents and acts for the Regional Commissioner and is responsible for the implementation in his district of Bureau and regional policies, programs, and procedures, the development, implementation, and evaluation of district programs and procedures, and the coordination, control, and supervision of all customs activities in the district except laboratory, audit, and Agency Service activities. The district director also is the port director for the district headquarters port. Under his supervision are the Assistant District Directors of Customs for Inspection and Control, and for Classification and Value. These officers, as indicated by their designations, are responsible for operational functions pertaining to the entry and clearance of vessels, inspection and control of persons, carriers, baggage, and cargo, and for entry, examination, appraisement, and classification of imported merchandise, the liquidation of entries and the collection of duties and taxes.

(b) *Customs Port Director.* The Port Director serves as the principal operating official at each port other than district headquarters and is a staff assistant to the District Director of Customs. He is responsible for the final implementation of customs policies, programs, and procedures which apply to the every day activities of the port, except audit, laboratory, and Customs Agency Service activities. At each port where the volume of activity justifies it, the Port Director is assisted by one or more Assistant Port Directors.

III. Sources and Methods of Securing Information

Section 1. The places at which and the methods whereby the public may secure official information in matters administered by the Bureau of Customs are as follows:

(a) A request for information relating to the activities or functions of a District Director of Customs may be addressed to him at the headquarters office of his district or to a port director at a port other than at the headquarters port. Oral requests for information may be made at a customhouse in any port having jurisdiction over the subject matter of the request.

(b) A request for information relating to activities or functions of other field officials of the Customs Service may be addressed to the official in charge of the appropriate office having jurisdiction over the subject matter.

(c) Requests for information may also be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, D.C. 20226.

(d) Oral requests may be made to any official of the central organization of the Bureau for information on a subject within the jurisdiction of that official.

Sec. 2. No formal procedures for obtaining information relating to any matter within the Customs jurisdiction are required unless prescribed in the published regulations of the Bureau of Customs (19 CFR Ch. I). However, to assure prompt action upon a request, all pertinent facts relevant to the subject matter of the inquiry should be furnished.

Sec. 3. The availability of information in all cases shall be subject to any pertinent limitations or restrictions contained in Parts 14, 17, and 26 of the regulations (19 CFR Parts 14, 17, 26).

IV. Procedures

Section 1. No formal procedures other than those relating solely to internal agency management are required in connection with any function of the Customs Service except those described by, or referred to or cited in, the regulations published in 19 CFR, Chapter I, or regulations issued jointly by the Secretary of the Treasury, or the Commissioner of Customs with the approval of the Secretary of the Treasury, and the heads of other agencies, Departments, or Bureaus as referred to or cited in the published regulations of the Bureau of Customs. In addition to these procedures, interested parties may request conferences with appropriate officials of the Bureau to discuss matters within their responsibility.

Sec. 2. In general, required procedures and any required forms or documents for use in connection therewith are described or identified in the appropriate part of 19 CFR, Chapter I, although procedures, forms, or documents applicable to a given situation may be described, identified, or referred to in more than one part or section of that chapter. The part headings and section headings of

the regulations are designated as a general index of subject matter with sufficient accuracy to enable related procedures, forms, or documents to be considered. Information regarding procedures, forms, or documents are set forth in the parts indicated below:

Part	
1	General provisions.
4	Vessels in foreign and domestic trades.
6	Customs relations with contiguous foreign territory.
6	Air commerce regulations.
7	Customs relations with insular possessions and Guantanamo Bay Naval Station.
8	Liability for duties; entry of imported merchandise.
9	Importations by mail.
10	Articles conditionally free, subject to a reduced rate, etc.
11	Packing and stamping; marking; trademarks and trade names; copyrights.
12	Special classes of merchandise.
13	Examination, measurement, and testing of certain products.
14	Appraisement.
15	Relief from duties on merchandise lost, stolen, destroyed, injured, abandoned, or short-shipped.
16	Liquidation of duties.
17	Protests and reappraisements.
18	Transportation in bond and merchandise in transit.
19	Customs warehouses and control of merchandise therein.
20	Disposition of unclaimed and abandoned merchandise.
21	Cartage and lighterage.
22	Drawback.
23	Enforcement of customs and navigation laws.
24	Customs financial and accounting procedure.
25	Customs bonds.
26	Disclosure of information.
30	Foreign-trade zones.
31	Customhouse brokers.
32	Trade fairs.

Information regarding procedures covering temporary situations presently in effect and the required forms or documents for use therewith are set forth in the following parts:

Part	
54	Certain importations temporarily free of duty.
58	Extensions of time pursuant to Proclamation of the President under section 318, Tariff Act of 1930.

SEC. 3. Except where formal procedures are required as heretofore indicated, all informal procedures available for obtaining information, as described in Part III of this notice, are available for use in appropriate circumstances in any application for reconsideration of an official customs ruling or decision made in the field or at headquarters, in any petition for mitigation of a fine, penalty, or forfeiture, in any request for amendment of regulations or suggestion for the improvement of the Customs Service, or in any other matter within the jurisdiction of the Customs Service. In making use of such informal procedures all pertinent facts should be stated in correspondence to avoid delay.

SEC. 4. Requests, applications, petitions, or other communications soliciting or contemplating action by the central organization respecting matters within its jurisdiction, if addressed to the Commissioner of Customs, 2100 K Street NW., Washington, D.C. 20226, will be referred to the proper assistant for appropriate attention. If such communications concern specific transactions arising at a field office, action thereon will be expedited if the request, application, petition, or communication so addressed is first submitted to the district director of customs for the district in which the transaction arose, who will transmit it to the Bureau with his report thereon. There are no forms for or procedures governing the submission of such requests, applications, or petitions other than those set forth in the Customs Regulations as amended from time to time, which may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, or may be consulted at the Bureau headquarters office or at the customhouse at any port of entry.

V. SUBSTANTIVE RULES

Substantive rules and statements of general policy or interpretations formulated and adopted by the Treasury Department or the Bureau of Customs for the guidance of the public generally are included in the regulations of the Bureau of Customs and the joint regulations heretofore mentioned. Amendments of or supplements to such regulations, as promulgated from time to time, will be published in the FEDERAL REGISTER and the Code of Federal Regulations.

This notice shall be effective upon publication in the FEDERAL REGISTER.

Dated: June 30, 1967.

[SEAL] LESTER D. JOHNSON,
Commissioner of Customs.

[F.R. Doc. 67-7886; Filed, July 7, 1967; 8:48 a.m.]

Bureau of Narcotics

STATEMENT OF ORGANIZATION, FUNCTIONS AND PROCEDURES

In compliance with 5 U.S.C. 552, this notice provides a statement for the guidance of the public of the Bureau of Narcotics' central and field organization; the established places at which, the employees from whom and the methods whereby the public may obtain information, make submittals or requests or obtain decisions; and the general course and method by which the Bureau's functions are channeled and determined, including the nature and requirements of all formal and informal procedures available. Any revision or amendment of this statement will be published in the FEDERAL REGISTER. A current synopsis of the statement will be published annually by the Office of the Federal Register in the U.S. Government Organization Manual. The prior statements of organization, functions and procedures of the Bureau of Narcotics are revised to read as follows:

Sec.
1. Introduction.
2. Central organization.
(a) Commissioner of Narcotics.
(b) Deputy Commissioner of Narcotics.
(c) Office of Chief Counsel.
(d) Office of Assistant Commissioner (Enforcement).
(e) Office of Assistant Commissioner (Administration).
(f) Office of Assistant Commissioner (Permissive).
(g) Office of Assistant to the Commissioner (Information and Law Enforcement Training).
(h) Office of Inspection and Internal Audit.
3. Field organization.
4. Public information; submittals, requests, decisions.
5. Formal and informal procedures.

SECTION 1. *Introduction.* Under the Commissioner of Narcotics, the Bureau is responsible for investigating, detecting, and preventing violations of the Federal narcotic and marihuana laws and related statutes, including the Harrison Narcotic Act, the Narcotic Drugs Import and Export Act, the Opium Poppy Control Act, the Marihuana Tax Act, the Narcotic Control Act, and the Narcotics Manufacturing Act; and seizing and effecting forfeitures of vehicles, vessels, and aircraft under the Act of August 9, 1939, used in the transportation or concealment of contraband narcotic drugs or marihuana. In cooperation with the U.S. Public Health Service, the Bureau determines the quantities of crude opium and coca leaves to be imported into the United States for medical and scientific purposes; issues permits to import crude drugs; and limits the quantities of narcotic drugs manufactured in the United States. The Bureau has authority to issue licenses for the production of poppies and the manufacture of opium products therefrom if and when such production and manufacture shall become necessary to supply medical and scientific needs for opium products. The Bureau issues export permits for narcotic drugs and preparations in accordance with the international conventions and protocols. The Bureau cooperates with the State Department in the discharge of international obligations of the United States pertaining to the traffic in narcotic drugs and with the several States in the suppression of the abuse of narcotic drugs and marihuana in their respective jurisdictions. The headquarters office of the Bureau of Narcotics is located at 633 Indiana Avenue NW., Washington, D.C. 20226.

SEC. 2. *Central organization*—(a) *Commissioner of Narcotics.* The Commissioner of Narcotics is appointed by the President, and is the head of the Bureau of Narcotics. Subject to general supervision of the Secretary of the Treasury, he has the responsibility and authority to direct the administration of the Bureau and enforce the laws and regulations of the United States relating to narcotic drugs and marihuana. Specifically, the Secretary of the Treasury has imposed upon the Commissioner of Narcotics all the rights, privileges, powers, and duties relating to—

(1) The detection and punishment of violations of the narcotic drug and marihuana laws, and regulations issued thereunder;

(2) Exemptions from any of the provisions of the applicable laws and regulations;

(3) The books, records, and returns required to be kept or rendered under any of the applicable laws;

(4) The prescribing of forms and order forms under any of the applicable laws;

(5) The appointment of a committee for the certification and disposition of confiscated narcotic drugs and marihuana, and the manner in which application shall be made for the use of confiscated narcotic drugs and marihuana;

(6) The compromise of criminal and civil cases arising under certain provisions of the applicable laws;

(7) Seizures of property for violations of applicable laws, and the custody, control, sale, and disposition of property so seized;

(8) The determination of quantities of narcotic drugs which may be imported into the United States for medical and scientific purposes, and the issuance of import and export permits;

(9) The determination of the necessity to produce opium poppies for medical and scientific use in the United States, and the issuance of licenses for that purpose;

(10) The administration of the provisions of the laws relating to the licensing of narcotic drug manufacturers, the establishing of basic classes of narcotic drugs, the establishing of quotas, and the determination of substances as "opiates";

(11) The prescribing of such regulations as may be necessary for the execution of the functions imposed under the applicable laws;

(12) The appointment of such officers and employees as may be necessary for the execution of the functions imposed upon the Bureau of Narcotics.

(b) *Deputy Commissioner of Narcotics.* The Deputy Commissioner of Narcotics acts as Commissioner of Narcotics in his absence; he exercises general supervision over the Bureau of Narcotics, including the field force, with particular emphasis on administrative functions; and assists the Commissioner generally in all matters of narcotic drug and marihuana law enforcement and administration.

(c) *Office of Chief Counsel.* Under the general supervision and direction of the General Counsel of the Treasury Department, the Chief Counsel is the chief law official of the Bureau. The Chief Counsel is responsible to the Commissioner of Narcotics and to the General Counsel for the supervision and coordination of all legal duties of the Bureau. The legal activities include the rendering of advice and the consideration and resolution of all legal problems arising in connection with the administration of the duties and functions of the Bureau.

(d) *Office of Assistant Commissioner (Enforcement).* This office is responsible for policy coordination and direction of the Bureau's law enforcement activities, including the Bureau's investigations and coordination with the functions of other Federal, State, municipal, and international law enforcement agencies; studying and reporting trends of the national and international narcotic and marihuana traffic; and establishing and maintaining liaison with United States and foreign narcotic law enforcement agencies for exchange of information and improvement of cooperation in suppression of the narcotic and marihuana traffic.

(e) *Office of Assistant Commissioner (Administration).* This office is responsible for policy coordination, supervision and direction of field administrative matters; direction and supervision of the Bureau's Fiscal, Personnel, Statistics and Records, and Supplies and Equipment Divisions; budget programs; and liaison in connection with administrative control activities of the Treasury Department and other agencies.

(f) *Office of Assistant Commissioner (Permissive).* This office is responsible for policy coordination and direction of matters of concern to the Returns Division of the Bureau of Narcotics, pertaining to imports, exports, storage, manufacture, and distribution of narcotic drugs through legitimate channels for medical and scientific purposes; directs the activities of the Drugs Disposal Committee; audits returns of narcotic drug production and distribution; maintains records on imports, exports, manufacture, distribution, seizure, and diversion of narcotic drugs; and establishes and maintains liaison with manufacturers, medical and paramedical groups in connection with narcotic drug controls.

(g) *Office of Assistant to Commissioner (Information and Law Enforcement Training).* This office correlates general information on narcotic drugs and trafficking, and handles public information and correspondence of general nature; writes articles for publication in various trade journals and other news media; prepares the annual report of the Bureau; directs and conducts the Federal Bureau of Narcotics Training School; and programs technical narcotic law enforcement in-service training.

(h) *Office of Inspection and Internal Audit.* This office makes inspections of Bureau and field operations; conducts financial audits; and reports on the effectiveness of each operation, including general narcotic law enforcement conditions in the field.

SEC. 3. *Field organization.* The field organization is responsible for conducting investigations of violations of the narcotic drug, marihuana, and applicable statutes; establishing and maintaining liaison with the U.S. attorneys, the courts, State and municipal officials at local levels, and in foreign areas; and conducting inspections and examining procedures for effective control of the legitimate trade. The field organization is divided into districts, each of which is headed by a district supervisor, as follows:

Number; Headquarters Office; Territory
1. 1425 Post Office and Courthouse, Boston, Mass. 02109, Maine, Rhode Island, New Hampshire, Vermont, Connecticut, Massachusetts.
2. 90 Church Street, Suite 605, New York, N.Y. 10007, New York State, Newark I.R.S. District of New Jersey.
3. 605 U.S. Customhouse, Second and Chestnut Sts., Philadelphia, Pa. 19106, Pennsylvania, Delware, New Jersey (except Newark I.R.S. District).
5. 106 South Gay Street, Baltimore, Md. 21202, Maryland, District of Columbia, North Carolina, Virginia, West Virginia.
6. 1056 Federal Office Building, Atlanta, Ga. 30303, Georgia, Florida, Alabama, South Carolina, Tennessee.
8. 602 Federal Building, Detroit, Mich. 48226, Michigan, Ohio, Kentucky.
9. 1836 U.S. Courthouse and Federal Office Building, Chicago, Ill. 60604, Illinois, Indiana, Wisconsin.
10. 1114 Commerce Street, Room 1104, Dallas, Tex. 75202, Texas, Louisiana, Mississippi.
11. 1002 Federal Office Building, Kansas City, Mo. 64106, Missouri, Kansas, Arkansas, Oklahoma.
12. 403 Federal Building, 110 South Fourth Street, Minneapolis, Minn. 55401, Minnesota, Iowa, Nebraska, North Dakota, South Dakota.
13. 3317 U.S. Customhouse, Denver, Colo. 80202, Colorado, Utah, Wyoming, New Mexico.
14. 450 Golden Gate Avenue, Box 36085, San Francisco, Calif. 94102, California, Nevada, Arizona.
15. 311 U.S. Courthouse, Seattle, Wash. 98104, Washington, Oregon, Idaho, Montana, Alaska, Hawaii.
16. American Embassy, 95 Wireless Road, Bangkok, Thailand. Address mail to: Treasury, American Embassy, APO San Francisco, Calif. 96346, Far East.
17. American Embassy, Via Veneto 62A, Room 113, Rome, Italy. Address mail to: Narcotics Division, American Embassy, APO New York, N.Y. 09794, Europe, Middle East.
18. American Embassy, Mexico, D.F., Mexico. Address mail to: American Embassy—Nar. Apartado Postal 88 Bis., Mexico, D.F., Mexico. Mexico, Central and South America.

SEC. 4. *Public information; submittals, requests, decisions.*—(a) *Public information.* Requests for final opinions and all orders made in the adjudication of cases, those statements of policy and interpretations which have been adopted and not published in the FEDERAL REGISTER, administrative staff manuals and instructions to staff that affect a member of the public and other Bureau of Narcotics records or information may be made in person or by correspondence as provided in 21 CFR Part 306.

(b) *Submittals, requests, decisions.* Submittals, requests for decisions or other requests may be made in person or by correspondence to the Deputy Commissioner of Narcotics at the headquarters office in Washington, D.C., or with the appropriate district supervisor in the area described in the above section 3.

SEC. 5. *Formal and informal procedures.* The formal and informal provisions relating to functions of the Bureau of Narcotics may be found in the Code of Federal Regulations. The provisions relating to appeal and review to the Secretary of the Treasury of the action or nonaction of the Commissioner of Narcotics are in 21 CFR Part 301; the provisions relating to importation and exportation of narcotic drugs are in 21 CFR Part 302; the provisions relating to the growing of opium poppies are in 21 CFR Part 303; the provisions relating to adjudication and licensing procedure are in 21 CFR Part 304; the provisions relating to the determination of substances

as "opiates" are in 21 CFR Part 305; the provisions relating to the surrender of heroin are in 21 CFR Part 306; the provisions relating to the manufacture of narcotic drugs are in 21 CFR Part 307; the provisions relating to public access to information are in 21 CFR Part 308, the provisions relating to the regulatory taxes on smoking opium are in 21 CFR Part 150; the provisions relating to the regulatory taxes on narcotic drugs are in 26 CFR Part 151; the provisions relating to the regulatory taxes on marihuana are in 26 CFR Part 152; and the provisions relating to seizures of vehicles, vessels, and aircraft under the Act of August 9, 1939, are in 26 CFR Part 153. Certain other provisions may be found in the procedures published by the Office of the Secretary of the Treasury in 31 CFR Subtitle A and 41 CFR Part 10.

Additionally, provisions relating to Government employment and the purchase, sale, and disposition of Government property, are found in the respective procedures prescribed in the Federal Personnel Manual and the General Services Administration regulations. For specific instructions in connection with these procedures, interested persons may request conferences with the officials listed in this notice and assistance will be provided.

Effective date: This notice shall be effective as of July 4, 1967.

[SEAL] HENRY L. GIORDANO,
Commissioner of Narcotics.

Approved: June 3, 1967.

JAMES POMEROY HENDRICK,
Special Assistant to the Secretary (for Enforcement).

CIVIL AERONAUTICS BOARD

[Docket 18596]

ALM DUTCH ANTILLEAN AIRLINE

Notice of Hearing

Notice is given herewith, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that public hearing in the above-entitled proceeding is assigned to be held before the undersigned Examiner on July 26, 1967, at 10 a.m., e.d.s.t., in Room 911, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C.

For information concerning the issues involved and other details in this proceeding, interested persons are referred to the prehearing conference report served on June 27, 1967, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., July 3, 1967.

[SEAL] RICHARD A. WALSH,
Hearing Examiner.

[F.R. Doc. 67-7890; Filed, July 7, 1967; 8:48 a.m.]

FEDERAL POWER COMMISSION

[Docket Nos. CI61-448 etc.]

MARVIN E. WILHITE ET AL.

Findings and Orders

JUNE 26, 1967.

Findings and orders after statutory hearing issuing certificates of public convenience and necessity, amending certificates, canceling docket number, severing proceeding, permitting and approving abandonment of service, terminating certificates, making successor co-respondent, redesignating proceeding requiring filing of agreement and undertaking, and accepting related rate schedules and supplements for filing.

Each of the Applicants listed herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce, for permission and approval to abandon service, or a petition to amend an existing certificate authorization, all as more fully described in the respective applications and petitions (and any supplements or amendments thereto) which are on file with the Commission.

The Applicants herein have filed related FPC gas rate schedules and propose to initiate, abandon or add natural gas service in interstate commerce as indicated by the tabulation herein. All sales certificated herein are at rates either equal to or below the ceiling prices established by the Commission's statement of general policy No. 61-1, as amended, or involve sales for which permanent certificates have been previously issued; except that the sales from the Permian Basin area of Texas are authorized to be made at or below the applicable area base rates and under the conditions prescribed in Opinion Nos. 468 and 468-A.

Rocanville Corp. (Operator) et al., Applicant in Docket No. CI61-1806, proposes to continue the sale of natural gas heretofore authorized in said docket to be made pursuant to W. H. Hudson (Operator) et al., FPC Gas Rate Schedule No. 2. Said rate schedule will be redesignated as that of Applicant. The presently effective rate under said rate schedule is in effect subject to refund in Docket No. RI64-605. Therefore, Applicant will be made a co-respondent in said proceeding, the proceeding will be redesignated accordingly, and Applicant will be required to file an agreement and undertaking to assure the refund of any amounts collected by it in excess of the amount determined to be just and reasonable in said proceeding.

Forest Oil Corp., Applicant in Docket No. CI67-1388, has filed an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas made pursuant to an unconditioned temporary certificate issued in Docket No. CI61-248. The pending certificate application is consolidated with Union Texas Petroleum et al., Docket No. G-13221 et al. Inasmuch as the gas supply is depleted, the application filed in Docket No. CI67-1388 will be construed as an amendment to the application filed in Docket No. CI61-248, Docket No. CI67-1388 will be canceled, the application in Docket No. CI61-248 will be severed from the consolidated proceeding, and the temporary certificate will be terminated. Although the temporary certificate which will be terminated contained no express refund condition, there is a possibility that some portion of the initial price may have to be refunded,[1] and the termination of the certificate should not be construed to relieve Applicant of any such obligation. Likewise the termination of the temporary certificate should not be construed to relieve Applicant of any refund obligation in Docket No. RI65-216, in which proceeding an increased rate under the related rate schedule is effective subject to refund.

The staff has reviewed each application and recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

After due notice, no petitions to intervene, notices of intervention, or protests to the granting of any of the respective applications or petitions in this order have been received.

At a hearing held on June 15, 1967, the Commission on its own motion received and made a part of the record in these proceedings all evidence, including the applications, amendments, and exhibits thereto, submitted in support of the respective authorizations sought herein, and upon consideration of the record,

The Commission finds:

(1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will therefore, be a "natural-gas company" within the meaning of said Act upon the commencement of the service under the respective authorizations granted hereinafter.

(2) The sales of natural gas hereinbefore described, as more fully described in the respective applications, amendments and/or supplements herein, will be made in interstate commerce, subject to the jurisdiction of the Commission, and such sales by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

[1] P.S.C. of the State of New York v. F.P.C., 329 F. 2d 242, cert. denied sub nom. Prado Oil & Gas Co. v. F.P.C.

(3) The respective Applicants are able and willing properly to do the acts and to perform the services proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The sales of natural gas by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity and certificates therefore should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the certificate authorizations heretofore issued by the Commission in Docket Nos. CI61-448, CI61-819, CI61-874, CI61-1096, CI61-1806, CI62-303, CI62-578, CI62-1127, CI65-403, CI66-714, CI66-853, CI66-867, CI66-942, and CI67-1104 should be amended as hereinafter ordered and conditioned.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the application pending in Docket No. CI61-248 should be severed from the proceeding in Union Texas Petroleum et al., Docket No. G-13221 et al.

(7) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Docket No. CI67-1388 should be canceled and that the application filed therein should be construed as an amendment to the application filed in Docket No. CI61-248.

(8) The sales of natural gas proposed to be abandoned by the respective Applicants, as hereinbefore described, all as more fully described in the respective applications and in the tabulation herein, are subject to the requirements of subsection (b) of section 7 of the Natural Gas Act, and such abandonments should be permitted and approved as hereinafter ordered.

(9) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the certificates of public convenience and necessity heretofore issued to the respective Applicants relating to the abandonments hereinafter permitted and approved should be terminated.

(10) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Rocanville Corp. (Operator) et al., should be a co-respondent in the proceeding pending in Docket No. RI64-605, that said proceeding should be redesignated accordingly, and that Rocanville Corp. should be required to file an agreement and undertaking.

(11) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the respective related rate schedules and supplements as designated in the tabulation herein should be accepted for filing as hereinafter ordered.

The Commission orders:

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order, authorizing the sales by the respective Applicants herein of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary for such sales, all as hereinbefore described and as more fully described in the respective applications, amendments, supplements, and exhibits in this proceeding.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder, and is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against the respective Applicants. Further, our action in this proceeding shall not foreclose nor prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. Nor shall the grant of the certificates aforesaid for service to the particular customers involved imply approval of all of the terms of the respective contracts particularly as to the cessation of service upon termination of said contracts, as provided by section 7(b) of the Natural Gas Act. Nor shall the grant of the certificates aforesaid be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The grant of the certificates issued herein on all applications filed after April 15, 1965, is upon the condition that no increase in rate which would exceed the ceiling prescribed for the given area by paragraph (d) of the Commission's statement of general policy No. 61-1, as amended, shall be filed prior to the applicable dates, as indicated by footnotes 2 and 4 in the attached tabulation.

(E) The initial rates for sales authorized in Docket Nos. CI67-1075 and CI67-1461 shall be the applicable base area rates prescribed in Opinion No. 468, as modified by Opinion No. 468-A, as adjusted for quality, or the contract rates, whichever are lower; and no increases in rate in excess of said initial rates shall be filed before January 1, 1968.

(F) If the quality of the gas delivered by Applicants in Docket Nos. CI67-1075 and CI67-1461 deviates at any time from the quality standards set forth in Opinion No. 468, as modified by Opinion No. 468-A, so as to require a downward adjustment of the existing rate, a notice of change in rate shall be filed pursuant to the provisions of section 4 of the Natural Gas Act: *Provided, however,* That adjustments reflecting changes in B.t.u. content of the gas shall be computed by the applicable formula and charged without the filing of notices of changes in rate.

(G) Within 90 days from the date of initial delivery Applicants in Docket Nos. CI67-1075 and CI67-1461 shall file three copies each of a rate schedule quality Opinion No. 468-A statement in the form prescribed in

(H) Certificates are issued herein in Docket Nos. CI67-658 and CI67-1301 authorizing the respective Applicants to continue the sales of natural gas being rendered on June 7, 1954.

(I) A certificate is issued herein in Docket No. CI67-1181 authorizing Applicant to continue the sale of natural gas which was being rendered without prior Commission authorization by the predecessor.

(J) The certificates heretofore issued in Docket Nos. CI61-874, CI66-853, CI66-867, CI66-942, and CI67-1104 are amended by adding thereto authorization to sell natural gas to the same purchasers and in the same areas as covered by the original authorizations pursuant to the rate schedule supplements as indicated in the tabulation herein.

(K) The certificate heretofore issued in Docket No. CI61-819 is amended to include the sale of natural gas from the additional acreage at 15.0 cents per Mcf at 14.65 p.s.i.a., including tax reimbursement, plus B.t.u. adjustment; however, in the event that the Commission amends its Policy Statement No. 61-1, by adjusting the boundary between the Panhandle area and the "Other" Oklahoma area so as to increase the initial wellhead price for new gas in the area involved herein, Applicant thereupon may substitute the new rate reflecting the amount of such increase, and thereafter collect such new rate prospectively in lieu of the initial rate herein required.

(L) The certificates heretofore issued in Dockets Nos. CI61-448, CI61-1096, CI61-1806, CI62-303, CI62-578, CI62-1127, and CI66-714 are amended by changing the certificate holders to the respective successors in interest as indicated in the tabulation herein.

(M) The certificate heretofore issued in Docket No. CI65-403 is amended by permitting Applicant to continue the sale of natural gas from interest acquired from the coowner which was previously covered under said certificate and rate schedule pursuant to the rate schedule supplements as indicated in the tabulation herein.

(N) The application pending in Docket No. CI61-248 is severed from the proceeding pending in *Union Texas Petroleum* et al., Docket No. G-13221 et al.

(O) Docket No. CI67–1338 is canceled.

(P) Permission for and approval of the abandonment of service by the respective Applicants, as hereinbefore described, all as more fully described in the respective applications and in the tabulation herein are granted.

(Q) Permission for and approval of the abandonment in Docket No. CI67–1474 shall not be construed to relieve Applicant of any refund obligations which may be ordered in the rate suspension proceedings pending in Docket Nos. G–19914, RI61–191, RI62–52, RI63–158, and RI64–261.

(R) The temporary certificate heretofore issued in Docket No. CI61–248 is terminated and the termination of said certificate shall not be construed to relieve Applicant of any refund obligation in said docket or in Docket No. RI65–214.

(S) The certificate heretofore issued in Docket No. G–8577 is terminated only insofar as it pertains to Mesco Drilling & Supply Co.'s FPC Gas Rate Schedule No. 11.

(T) The certificates heretofore issued in Docket Nos. G–12780, G–16982, and CI65–1158 are terminated.

(U) Rocanville Corp. (Operator) et al., shall be a co-respondent in the proceeding pending in Docket No. RI64–606 and said proceeding is redesignated accordingly.[1]

(V) Within 30 days from the issuance of this order Rocanville Corp. (Operator) et al., shall execute, in the form set out below, and shall file with the Secretary of the Commission an acceptable agreement and undertaking in Docket No. RI64–606 to assure the refund of any amounts collected by it, together with interest at the rate of 7 percent per annum, in excess of the amount determined to be just and reasonable in said proceeding. Unless notified to the contrary by the Secretary of the Commission within 30 days from the date of submission, such agreement and undertaking shall be deemed to have been accepted for filing.

(W) Rocanville Corp. (Operator) et al., shall comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, and the agreement and undertaking filed by Rocanville Corp. in Docket No. RI64–606 shall remain in full force and effect until discharged by the Commission.

(X) The respective related rate schedules and supplements as indicated in the tabulation herein are accepted for filing; further, the rate schedules relating to the successions herein are accepted and redesignated, subject to the applicable Commission regulations under the Natural Gas Act to be effective on the dates as indicated in the tabulation herein.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary.*

[1] Pursuant to Opinion 511 & Gas Rate, 34 FPC 159, 160 (1965), as amended by Opinion No. 511–A, 34 FPC 1356 (1965), and Opinion No. 511–B, 34 FPC 1815 (1965), the Commission shall revise the Applicant's contract dated Nov. 24, 1965, which has been designated as Supplement No. 2 to Applicant's FPC Gas Rate Schedule No. C–1, to reflect the following:

(A) Applicant agrees to charge a jurisdictional rate of 18.5 cents per Mcf at 14.65 psia for all gas delivered.

(B) Applicant agrees to refund, pursuant to § 154.102 of the regulations under the Natural Gas Act, all amounts collected in excess of the rate ordered herein.

(C) Applicant agrees to file, within 30 days from the issuance of this order, a notice of change in rate to reflect the rate ordered herein.

(D) Applicant agrees to file, within 30 days from the issuance of this order, a statement of refunds due and refunds made pursuant to the Opinion No. 511 proceeding.

(E) Applicant agrees to execute a jurisdictional agreement and file it with the Commission within 30 days from the issuance of this order.

(F) Applicant agrees to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, and the agreement and undertaking filed by Applicant in Docket No. CI66–1154 shall remain in full force and effect until discharged by the Commission.

[2] Applicant's contract dated Nov. 24, 1965, which has been designated as Supplement No. 2 to Applicant's FPC Gas Rate Schedule No. C–1, is subject to the provisions of Opinion No. 511, 34 FPC 159, as amended by Opinion No. 511–A, 34 FPC 1356, and Opinion No. 511–B, 34 FPC 1815.

[3] Subject to the provisions of Opinion No. 511, 34 FPC 159, as amended by Opinion No. 511–A, 34 FPC 1356, and Opinion No. 511–B, 34 FPC 1815.

[4] Effective date: Date of filing unless otherwise stated.

[5] Applicant agrees to charge a jurisdictional rate of 18.5 cents per Mcf at 14.65 psia for all gas delivered.

[6] Applicant agrees to refund, pursuant to § 154.102 of the regulations under the Natural Gas Act, all amounts collected in excess of the rate ordered herein.

[7] Applicant agrees to file, within 30 days from the issuance of this order, a notice of change in rate to reflect the rate ordered herein.

[8] Applicant agrees to file, within 30 days from the issuance of this order, a statement of refunds due and refunds made pursuant to the Opinion No. 511 proceeding.

[9] Applicant agrees to execute a jurisdictional agreement and file it with the Commission within 30 days from the issuance of this order.

[10] Applicant agrees to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, and the agreement and undertaking filed by Applicant in Docket No. CI66–1154 shall remain in full force and effect until discharged by the Commission.

[11] Applicant's contract dated Nov. 24, 1965, which has been designated as Supplement No. 2 to Applicant's FPC Gas Rate Schedule No. C–1, is subject to the provisions of Opinion No. 511, 34 FPC 159, as amended by Opinion No. 511–A, 34 FPC 1356, and Opinion No. 511–B, 34 FPC 1815.

[12] Subject to the provisions of Opinion No. 511, 34 FPC 159, as amended by Opinion No. 511–A, 34 FPC 1356, and Opinion No. 511–B, 34 FPC 1815.

[13] Effective date: Date of filing unless otherwise stated.

[14] Applicant agrees to charge a jurisdictional rate of 18.5 cents per Mcf at 14.65 psia for all gas delivered.

[15] Applicant agrees to refund, pursuant to § 154.102 of the regulations under the Natural Gas Act, all amounts collected in excess of the rate ordered herein.

[Docket No. CP67-382]

EL PASO NATURAL GAS CO.

Notice of Application

JULY 3, 1967.

Take notice that on June 27, 1967, El Paso Natural Gas Co. (Applicant), Post Office Box 1492, El Paso, Tex. 77999, filed in Docket No. CP67-382 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities for the sale and delivery of additional volumes of natural gas to an existing customer, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate the following natural gas facilities:

(1) Approximately 5.5 miles of 16-inch O.D. pipeline and necessary appurtenances, commencing at a point of connection with its 26-inch O.D. Sumas Mainline and terminating at a point of connection with its existing 16-inch O.D. North Seattle Lateral loopline, all in Snohomish County, Wash.;

(2) Relocate its existing pressure regulator station from its present location at the beginning of the existing 16-inch O.D. loopline to the point of interconnection of the 16-inch loopline proposed in (1) above; and

(3) Add an additional 12¾ inch O.D. orifice meter run and make modifications to the existing North Seattle Lateral and loop, Snohomish County, Wash.

Applicant proposes to sell and deliver to Washington Natural Gas Co. (Washington), through the facilities proposed above, additional volumes of natural gas to meet Washington's estimated needs during the 1967–68, 1968–69, 1969–70, and 1970–71 heating seasons. Applicant states that Washington estimates its needs for the 1970–71 heating season at 123,479 Mcf per day of natural gas. Applicant states that Washington has experienced continuous load growth in the Seattle area since the inception of natural gas service and will require the volumes of natural gas proposed above to meet its growing demands.

Applicant estimates the total cost of the proposed facilities at approximately $571,907, said cost to be financed through working funds, supplemented, as necessary, by short-term bank loans.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before July 28, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-7860; Filed, July 7, 1967; 8:46 a.m.]

[Project No. 2131]

KINGSFORD CO. AND WISCONSIN MICHIGAN POWER CO.

Notice of Application for Transfer of Interest in License for Constructed Project

JUNE 30, 1967.

Public notice is hereby given that application for transfer of interest in license has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by Kingsford Co. of Iron County, Mich. (corporate successor to Kingsford Chemical Co. to whom the license was originally issued) and Wisconsin Michigan Power Co. (correspondence to: Owen Pyle, President, Kingsford Co., Post Office Box 1033, Louisville, Ky. 40201, and John G. Quale, Vice President and General Counsel, Wisconsin Michigan Power Co., 231 West Michigan Street, Milwaukee, Wis. 53201) for transfer of Kingsford Co.'s interest in the license to Wisconsin Michigan Power Co.

The existing project, known as Kingsford Hydroelectric Plant, is located partially in the city of Kingsford, in Dickinson County, Mich., and Florence County, Wis., on the Menominee River, and affects public lands of the United States consisting of several islands. The project consists of: (1) A dam about 845 feet long composed of, a powerhouse intake section, a gated spillway section, and two earth sections; (2) a detached earth dike about 313 feet long on the Michigan side of the river; (3) a powerhouse containing three 3,200 horsepower turbines, each connected to a 2,400 kilowatt generator; (4) a double circuit transmission line about three miles long; and (5) appurtenant facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is August 18, 1967. The application is on file with the Commission for public inspection.

GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-7861; Filed, July 7, 1967; 8:46 a.m.]

[Docket No. RP67-21]

NATURAL GAS PIPELINE CO. OF AMERICA

Order Providing for Hearing and Suspending Revised Tariff Sheets

JUNE 30, 1967.

Natural Gas Pipeline Co. of America (Natural) tendered for filing on May 31, 1967, changes in its FPC Gas Tariff, First Revised Volume No. 1 [1] to become effective on July 1, 1967. The proposed changes would increase Natural's sales rates by $19,158,000, based on billing demand units and volumes for the year beginning December 1, 1967, and its storage service rate by $757,000 per year. The proposed increases would be applicable to Natural's rate schedules as follows: 11 cents per Mcf in the demand rate and 1.9 cents per Mcf in the commodity rate of CD–1, CD–2, and PL–1; 1.9 cents per Mcf on I–1; 2.62 cents per Mcf on G–1 and G–2. Natural's S–1 storage service rate which is a cost-of-service formula rate, would be increased by changing the rate of return therein from 6¼ percent to 7 percent.

In support of its proposed increase, the company states that on or before December 1, 1967, it will have completed and placed in service facilities authorized in recent dockets [2] at an estimated cost of $95.7 million. The company also states that it will experience increased purchased gas costs during the test period due to new supplies from Southern Louisiana and increases filed by other producers under contract provisions. Additionally, Natural claims that its overall rate of return should be 7 percent because its cost of capital has increased materially due to higher interest cost on new financing and retirement of older, low cost debt. Natural estimates its capital needs for the near future at about $130 million. The proposed rates also reflect normalized taxes and a 1½ percent rate of return on accumulated deferred income taxes. Analysis of the filing indicates that, among other things, the data submitted in support of the proposed increases present issues concerning rate base, the overall rate of return, the claimed allowance for income taxes, the use of normalized taxes and a 1½ percent rate of return on accumulated deferred income taxes, the estimated sales volumes, claimed purchased gas costs and rate design.

The increased rates proposed have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions

[1] The proposed revised sheets include First Revised Sheets Nos. 25–B, 25–E; Second Revised Sheets Nos. 25–C, 25–D, 25–F; Third Revised Sheets Nos. 16, 19, 19–C, 22; Fifth Revised Sheets Nos. 6, 12, 15, 18; Sixth Revised Sheets Nos. 9, 13, 19–A, 19–B.

[2] The dockets referred to are: CP66–169 (Phase II) (not including facilities authorized on May 18, 1967, by an amendment to the Commission's order), CP66–169, CP66–170, and CP64–150.

of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates, charges, classifications and services contained in Natural's FPC Gas Tariff, and that the proposed revised tariff sheets listed above be suspended and the use thereof deferred as hereinafter provided.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing shall be held on a date fixed by notice from the Presiding Examiner concerning the lawfulness of the rates, charges, classifications and services contained in Natural Gas Pipeline Co.'s FPC Gas Tariff, as proposed to be amended by First Revised Sheets Nos. 25–B, 25–E; Second Revised Sheets Nos. 25–C, 25–D, 25–F; Third Revised Sheets Nos. 16, 19, 19–C, 22; Fifth Revised Sheets Nos. 6, 12, 15, 18; Sixth Revised Sheets Nos. 9, 13, 19–A, 19–B.

(B) Pending such hearing and decision thereon, the proposed tariff sheets listed in paragraph (A) above are suspended and the use thereof deferred until December 1, 1967, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Natural, having already served its direct evidence, the Commission staff and interveners shall serve their direct testimony and exhibits in this proceeding upon the Presiding Examiner and all other parties as follows: Staff, on or before October 24, 1967, and interveners on or before November 6, 1967.

(D) Pursuant to § 1.18 of the Commission's rules of practice and procedure, a prehearing conference before the Presiding Examiner shall commence at 10 a.m., e.s.t., on November 27, 1967, in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C. 20426, for the purpose of effectuating the expeditious disposition of this proceeding.

(E) Presiding Examiner Ewing G. Simpson, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the prehearing conferences and hearing in this matter, pursuant to the Commission's rules of practice and procedure, and particularly §§ 1.27, 1.18 and 2.59 thereof: *Provided, however,* That the Presiding Examiner may in his discretion set the date for service of rebuttal evidence before or after cross-examination of the direct evidence.

By the Commission.

[SEAL] GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-7862; Filed, July 7, 1967; 8:46 a.m.]

[Project No. 2157]

PUBLIC UTILITY DISTRICT NO. 1 OF SNOHOMISH COUNTY, WASH., AND CITY OF EVERETT, WASH.

Supplemental Order

JUNE 30, 1967.

Pursuant to the Commission's order of May 19, 1967, as amended, a hearing was convened in Seattle, Wash., on inter alia water releases in the Sultan River, project inspection and consideration of repairs to project structures. Testimony of witnesses for the joint licensees at pages 76, 77, 86, 87, and 123 of the record makes it clear that repairs to Culmback Dam outlet tunnel, one of the project structures, may be safely deferred until next year. However, conditions of the downstream diversion dam utilized in water supply to the city of Everett are such that repairs are immediately necessary this year in order to avoid danger of structural failure and subsequent serious impairment of the city's water supply system.

To meet the above conditions by accomplishing necessary repairs to the diversion dam this summer, staff, joint licensees and petitioners State of Washington Departments of Fisheries and Game, recognized the need for certain minimum water releases during the period of repair to preserve fish life. The understanding of the joint licensees and petitioners is reflected in an agreement dated June 15, 1967, pages 239 and 240 of the record.

Following execution of the June 15, 1967, agreement the hearing was recessed by the presiding examiner to permit joint licensees to begin immediate plans for making repairs as soon as possible to the diversion dam and to provide the minimum water releases for fish (Tr. 240–241).

Counsel for the Public Utility District at page 237 of the record noted that the June 15 agreement was made with the understanding that it would not prejudice the rights of the Public Utility District or city with regard to future water releases when repairs are made at Culmback Dam and/or the city's diversion dam in 1968 or beyond.

The Commission finds: It is necessary and appropriate for the purposes of the Federal Power Act, the Commission's regulations thereunder and the license for Project No. 2157 to order as hereinafter provided.

The Commission orders:

(A) Further hearings in this proceeding are continued for a period of 120 days.

(B) The Commission's order of May 19, 1967, requiring continuation of present flows is modified in accordance with the terms of the June 15 agreement of the joint licensees and petitioners which is hereby incorporated by reference in its entirety, so as to provide a temporary minimum flow of water for fish during the period the diversion dam is under repair.

(C) Joint licensees shall submit within 21 days from the date hereof for Commission consideration revised Exhibit L drawings reflecting the proposed repairs or modification of the diversion dam facility.

By the Commission.

[SEAL] GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-7863; Filed, July 7, 1967; 8:46 a.m.]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[S-567]

CALIFORNIA

Notice of Proposed Classification of Public Lands for Multiple-Use Management

JUNE 28, 1967.

1. Pursuant to the Act of September 19, 1964 (78 Stat. 986; 43 U.S.C. 1411–18), and to the regulations in 43 CFR, Parts 2410 and 2411, it is proposed to classify for multiple-use management, the public lands described in paragraph 3 together with any lands in the areas described in paragraph 3 that may become public lands in the future. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. Publication of this notice segregates (a) all public lands described below from appropriation under the agricultural land laws (43 U.S.C., Chs. 7 and 9, and 25 U.S.C. 334) and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171) and (b) the lands described in paragraph 4 from appropriation under the mining laws (30 U.S.C., Ch. 2).

3. The public lands are located within the following described areas within Amador and Calaveras Counties, west of Stanislaus National Forest. For the purposes of this proposed classification, the lands have been subdivided into Blocks, each of which has been analyzed in detail and described in documents and on maps available for inspection at the Folsom District Office, Bureau of Land Management, 63 Natoma Street, Folsom, Calif. 95630, and in the Sacramento Land Office, Bureau of Land Management, 650 Capitol Mall, Sacramento, Calif. 95814. The overall descriptions of the areas are as follows:

MOUNT DIABLO MERIDIAN, CALIFORNIA

BLOCK NO. 1

All public lands in:

T. 1 N., R. 13 E.,
Secs. 2, 4, 5, 8, 9, 11, 15, 21, 22, 28, and 29.

Secs. 11, 13, 14, 18, 19, and 23.
T. 6 N., R. 14 E.,
Secs. 24 and 31.

Except the following public lands:

T. 7 N., R. 11 E.,
Sec. 15, SE¼SE¼.
T. 5 N., R. 12 E.,
Sec. 2, tract in W½ designated as Mineral Land.
T. 7 N., R. 12 E.,
Sec 33, lot 46.
T. 4 N., R. 13 E.,
Sec. 10, N½NW¼SE¼;
Sec. 11, NE¼NW¼SE¼.
T. 5 N., R. 13 E.,
Sec. 33, E½SW¼SE¼.
T. 4 N., R. 14 E.,
Sec. 7, lots 13 and 18.

The public lands proposed to be classified aggregate approximately 30,972 acres.

4. As provided in paragraph 2, the following lands are segregated from appropriation under the mining laws (totaling approximately 1,997 acres):

MOUNT DIABLO MERIDIAN, CALIFORNIA

T. 8 N., R. 9 E.,
Sec. 26, NE¼NW¼ and S½NW¼.
T. 8 N., R. 10 E.,
Sec. 32, NE¼SE¼ and S½SE¼;
Sec. 33, SW¼NW¼ and NW¼SW¼.
T. 8 N., R. 10 E.,
Sec. 22, SW¼NW¼.
T. 8 N., R. 12 E.,
Sec. 9, E½SE¼NW¼.
T. 6 N., R. 12 E.,
Sec. 34, NW¼SE¼.
T. 4 N., R. 13 E.,
Sec. 6, SE¼NW¼.
T. 5 N., R. 13 E.,
Sec. 11, W½SE¼SE¼;
Sec. 27, Emma Quarts Mine;
Sec. 34, NW¼NE¼ and NE¼NW¼.
T. 6 N., R. 13 E.,
Sec. 3, tract in S½NW¼ designated as Mineral Land.
T. 7 N., R. 13 E.,
Sec. 13, SE¼SW¼SE¼ and SE¼SE¼;
Sec. 23, NE¼SE¼ and SE¼SW¼SE¼;
Sec. 24, lots 2, 3, 4, 5, and 6, N½NW¼NE¼, N½NE¼NW¼, NW¼NW¼, W½SW¼NW¼, and NW¼SE¼;
Sec. 26, W½NE¼NE¼, W½NE¼, SE¼SE¼NW¼, NE¼SW¼, SE¼NW¼SW¼, SW¼SW¼, and NW¼SE¼SW¼;
Sec. 27, SE¼SE¼SE¼;
Sec. 32, S½ of lot 1, SE¼NW¼SW¼, E½SW¼SW¼, and portion of N½SE¼;
Sec. 33, NE¼NE¼, S½NW¼NE¼, S½NE¼, SE¼NW¼, NW¼NE¼SW¼, and NW¼SW¼;
Sec. 34, N½NE¼, W½NW¼, and SE¼NW¼;
Sec. 35, NW¼NW¼NW¼.
T. 2 N., R. 14 E.,
Sec. 4, NW¼SW¼;
Sec. 17, W½SW¼.
T. 3 N., R. 14 E.,
Sec. 33, SE¼SE¼;
Sec. 34, NW¼NW¼.
T. 6 N., R. 14 E.,
Sec. 4, W½NW¼;
Sec. 5, E½NE¼;
Sec. 18, NE¼SE¼;
Sec. 20, W½SE¼.

5. For a period of sixty (60) days from the date of publication of this notice in the FEDERAL REGISTER, all persons who wish to submit comments, suggestions, or objections in connection with the proposed classification may present their views in writing to the Folsom District Manager, Bureau of Land Management, 63 Natoma Street, Folsom, Calif. 95630, or at the public hearing.

6. A public hearing on this proposed classification will be held at 10 a.m. on July 19, 1967, in the City Hall, San Andreas, Calif.

For the State Director.

H. CURT HAMMIT,
District Manager.

[F.R. Doc. 67-7867; Filed, July 7, 1967; 8:46 a.m.]

[N-1348]

NEVADA

Notice of Proposed Withdrawal and Reservation of Lands

JUNE 30, 1967.

The Atomic Energy Commission has filed the above application for the withdrawal of the lands described below, from all forms of appropriation including the Taylor Grazing Act and the mining and mineral leasing laws.

The applicant desires the land for an underground nuclear testing and buffer area.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Room 3008, Federal Building, 300 Booth Street, Reno, Nev.

The Department's regulations (43 CFR 2311.1-3(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN, NEVADA

T. 9 N., R. 51 E., unsurveyed,
Beginning at a point which is N. 36°08'09" W., 15,911.46 feet, from the southeast corner of T. 9 N., R. 51 E.; thence W., 5,280 feet; thence N., 5,280 feet; thence E., 5,280 feet; thence S., 5,280 feet, to the point of beginning.

The area described contains 640 acres.

DANIEL P. BAKER,
Land Office Manager.

[F.R. Doc. 67-7868; Filed, July 7, 1967; 8:46 a.m.]

Office of the Secretary

[Order No. 2508, Amdt. No. 72]

COMMISSIONER OF INDIAN AFFAIRS

Delegation of Authority

Delegation of authority to Commissioner of Indian Affairs with respect to the distribution of funds derived from appropriations in satisfaction of awards to Indian tribes by the Indian Claims Commission and the Court of Claims, Order 2508, as amended, is further amended to add subparagraphs 32 through 38 to section 30. As so amended, section 30 reads as follows:

SEC. 30. *Authority under specific acts.* (a) In addition to any authority delegated elsewhere in this order, the Commissioner of Indian Affairs, except as provided in paragraph (b) of this section, is authorized to perform the functions and exercise the authority vested in the Secretary of the Interior by the following acts or portions of acts or any acts amendatory thereof:

* * * * * *

(32) Act of August 20, 1964, P.L. 88-464, 78 Stat. 563: The Snake and Paiute Indians of the former Malheur Reservation;

(33) Act of August 20, 1964, P.L. 88-506, 78 Stat. 639: The Nehalem Band of the Tillamook Indians and the Tillamook Band of the Tillamook Indians;

(34) Act of October 14, 1966, P.L. 89-655, 80 Stat. 908-906: The Quileute and Hoh Tribes;

(35) Act of October 14, 1966, P.L. 89-656, 80 Stat. 906: The Nooksack Tribe;

(36) Act of October 14, 1966, P.L. 89-659, 80 Stat. 909-910: The Miami Indians of Indiana and Oklahoma;

(37) Act of October 14, 1966, P.L. 89-660, 80 Stat. 910-911: The Duwamish Tribe of Indians.

(38) All other acts which may authorize the Secretary of the Interior to prepare a roll for purposes of distributing judgment funds and to distribute such funds to those persons whose names appear on the rolls.

(b) * * *

CHARLES F. LUCE,
Acting Secretary of the Interior.

JULY 3, 1967.

[F.R. Doc. 67-7869; Filed, July 7, 1967; 8:46 a.m.]

DEPARTMENT OF AGRICULTURE

Foreign Agricultural Service

STATEMENT OF ORGANIZATION, FUNCTIONS AND DELEGATIONS OF AUTHORITY

Pursuant to the authority contained in 5 U.S.C. 552 and 559, there is hereby published the Statement of Organization, Functions, and Delegations of Authority of the Foreign Agricultural Service.

SECTION 1. *General.* The Foreign Agricultural Service, hereinafter referred to as "FAS", was established March 10, 1953, by the Secretary of Agriculture pursuant to the authority vested in him by section 161, Revised Statutes, 5 U.S.C. 22, and Reorganization Plan No. 2 of 1953. The central office of FAS is located at Washington, D.C., in the South Building of the Department of Agriculture.

SEC. 2. *Functions.* FAS is responsible for the general administration of a wide range of programs relating to foreign trade in agricultural commodities. The Service (a) has primary responsibilities for Department activities relating to foreign agricultural trade, including coordination of U.S. agricultural interests before bodies such as the Special Representative for Trade Negotiations, the Trade Expansion Act Advisory Committee, and other departmental committees concerned with the administration of the Trade Expansion Act of 1962, the Organization for Economic Cooperation and Development, the General Agreement on Tariffs and Trade, and the European Economic Community (the Common Market); development of foreign markets for agricultural products of the United States; relationships with foreign areas; marketing and economic investigations and service work related to current and prospective competition with and demand for specific U.S. agricultural products in foreign commodity markets; functions under 7 U.S.C. 1761-1766, 19 U.S.C. 1354, 22 U.S.C. 501, but excluding basic and long-range analyses of world conditions and developments affecting supply, demand, and trade in farm products and general economic analyses of the international financial and monetary aspects of agricultural affairs as assigned to Economic Research Service; (b) has responsibility for the administration of section 22 of the Agricultural Adjustment Act (of 1933), as amended, 7 U.S.C. 624, and export and import controls, except those under 7 U.S.C. 608e-1, but including the coordination of Department positions, actions, and recommendations as they pertain to the administration of the Export Control Act of 1949, as amended, 50 U.S.C. 2021-2032; (c) has responsibility for the coordination of relationships in the field of its primary responsibilities between the Department of Agriculture and the Department of State, other departments and agencies of the Government, and the Food and Agriculture Organization of the United Nations; (d) has responsibility for acting as the liaison agency between the Department of Agriculture and the Department of State, and coordinates, to the extent permitted by law, the carrying out by Department agencies of their functions in foreign areas, including relations with the Department of State at U.S. diplomatic and consular missions, foreign governments, private and public organizations, private firms, and other departments and agencies of the U.S. Government; (e) has responsibility for the administration of commodity export sales programs including export pricing policies, and export subsidy programs, other than section 32, 7 U.S.C. 612c; (f) has primary responsibility for the administration of barter programs under which agricultural commodities are exported in exchange for strategic and other materials, including strategic and critical materials for the National Stockpile, 15 U.S.C. 714b; strategic and other materials for the supplemental stockpile, 7 U.S.C. 1856; materials, goods, and equipment required in connection with foreign economic and military aid and assistance programs, for offshore construction programs, and for specific requirements of government agencies, 7 U.S.C. 1692; (g) has primary responsibility for Department functions under Title I of the Agricultural Trade Development and Assistance Act of 1954 (Public Law 480), as amended, 7 U.S.C. 1701-1709, 1731-1736, including market development trade programs under section 104(b)(1) of the Act, but excluding utilization research in aid of market development under section 104(b)(1), and farm, forestry, marketing, and utilization research under section 104(b)(3) of the Act; (h) has responsibility for activities involving program development, evaluation and review, including related liaison with the Agency for International Development, participating

private relief agencies and intergovernmental organizations with respect to the donation of foods for distribution to needy persons in foreign countries, but excluding responsibilities related to program execution involving procurement, reprocessing, packaging, delivery of commodities, and maintenance of records pertaining thereto; and (f) has responsibility for ocean transportation functions under the provisions of Public Law 480, but excluding the responsibility for designating and moving to port position commodities donated under Title II of Public Law 480 and the fiscal examination and accounting functions for Public Law 480 transactions.

Sec. 3. Organization and functional responsibilities. The Administrator, who is also a Vice President of the Commodity Credit Corporation (hereinafter referred to as "CCC"), is responsible to the Assistant Secretary for International Affairs for the general direction and supervision of programs assigned to FAS.

(a) *Associate Administrator.* The Associate Administrator acts for and assists the Administrator in formulating and administering the policies and programs of FAS and CCC, and acts in the capacity of Vice President, CCC, in the absence of the Administrator.

(b) *General Sales Manager.* The General Sales Manager is primarily responsible for administering CCC and FAS export programs and pricing policies relating to foreign sale for dollars of CCC owned or price-support commodities, and export pricing policies and programs with respect to special export programs except for the wheat and flour export programs.

(c) *Assistant Administrator for Export Programs.* The Assistant Administrator for Export Programs is primarily responsible for the policies and programs of FAS with respect to Title I of Public Law 480. He coordinates such programs with other agencies of the Government, in making use of foreign currencies and related appropriations in the development of new, and expansion of existing, foreign markets through such activities as international agricultural trade fairs and specialized trade projects.

(d) *Barter and Stockpiling Manager.* The Barter and Stockpiling Manager is primarily responsible for administering the program and policies for barter of U.S. surplus agricultural commodities in meeting specific national objectives, cooperating with other U.S. Government agencies in determining the impact of current barter activities on foreign policy and the U.S. balance of payments, and developing in conjunction with other U.S. agencies new opportunities for enlarging the use of barter in support of U.S. Government objectives.

(e) *Assistant Administrator for Commodity Programs.* The Assistant Administrator for Commodity Programs is primarily responsible for administering policies and programs involving studies of worldwide production, trade, marketing, prices, consumption, and other factors affecting exports and imports of U.S. agricultural commodities designed for use in the development of programs, and the provision of such information to domestic producers, the agricultural trade, the public, and other interests; and the promotion of normal commercial markets abroad.

(f) *Assistant Administrator for International Trade.* The Assistant Administrator for International Trade is primarily responsible for administering and coordinating the responsibilities of the Department of Agriculture with respect to international trade agreement programs and negotiations. He also administers specified agricultural import and export controls.

(g) *Assistant Administrator for Agricultural Attaches.* The Assistant Administrator for Agricultural Attaches is primarily responsible for administering the worldwide Agricultural Attache program in coordinating the collection, interpretation, and reporting by attaches of marketing, economic, and trade information in foreign areas essential to the administration of U.S. foreign agricultural policies and programs, assuring effective Department liaison through Agricultural Attaches with Chiefs of the U.S. Diplomatic Missions, and assuring effective working relationships by Agricultural Attaches with other U.S. agencies and foreign government officials, private agencies in the fields of agriculture, commerce, industry and finance, trade organizations, exporters, distributors, farmers, and international trade, farm and commodity groups, and organizations.

(h) *Assistant Administrator for Management.* The Assistant Administrator for Management assists the Administrator in the formulation, coordination, and evaluation of FAS programs and operations. He also designs and administers management and information operations essential to effective conduct of FAS activities.

Sec. 4. Delegations of Authority. The Administrator formulates and administers programs assigned to FAS under delegated authority from the Secretary of Agriculture, 29 F.R. 16210. This includes authority to execute any document, authorize any expenditure, promulgate any rule, regulation, order or instruction required by law or deemed by him to be necessary and proper to the discharge of the functions assigned to FAS, and take any other actions incident to the discharge of such functions. This authority is exercised under the general direction and supervision of the Assistant Secretary for International Affairs and is subject to the general responsibilities of the Secretary to the President and to Congress. The Administrator may delegate his authority and provide for redelegation of such authority to appropriate officers and employees. However, in no case does any delegation of authority to the Administrator preclude the Secretary, Under Secretary, or the appropriate Assistant Secretary from exercising any of the powers or functions so delegated.

Sec. 5. Availability of Records and Information. Any person desiring information or wishing to make submittals or requests with respect to the programs and functions of FAS should address his request to the Assistant Administrator for Management, FAS, Department of Agriculture, Washington, D.C. 20250. Records of FAS are available for examination in accordance with regulations governing the availability of records issued by the Secretary of Agriculture and the Administrator, 7 CFR Parts 1 and 1520, as amended.

Signed at Washington, D.C., this 30th day of June 1967.

RAYMOND A. IOANNIS,
Administrator,
Foreign Agricultural Service.

Approved: July 3, 1967.

JOHN A. BAKER,
Acting Secretary.

[F.R. Doc. 67-7879; Filed, July 7, 1967; 8:47 a.m.]

Office of the Secretary

ORGANIZATION, FUNCTIONS, AND AVAILABILITY OF INFORMATION

Notice is hereby given for the guidance of the general public as to the organization, functions, and availability of information of the Office of the Secretary, U.S. Departments of Agriculture, pursuant to 5 U.S.C. 552, 552a.

SECTION 1. *Organization and functions.* The Office of the Secretary, U.S. Department of Agriculture, consists of the Secretary, Under Secretary, and Assistant Secretaries of Agriculture, and other staff members. The Office of the Secretary provides the overall policy guidance and direction of the activities of the Department of Agriculture. Overall policy statements and announcements are made from this Office.

The Office of the Secretary is located in Washington, D.C. Hours of duty are from 8 a.m. to 5:30 p.m.

SEC. 2. *Availability of internal directives.* Internal administrative and program directives of the Office of the Secretary are available for public inspection and copying except as may be exempt under section 3. An index to such material is also available for inspection and copying. Facilities for inspection and copying are available in the Administration Building, U.S. Department of Agriculture, Washington, D.C. Arrangements for such may be made by contacting the Chief, Secretary's Records and Communications Division, Office of Plant and Operations, U.S. Department of Agriculture, either in person or by mail. Applicable fees are prescribed by the Director, Office of Plant and Operations.

SEC. 3. *Availability of identifiable records.* All records of the Office of the Secretary are available for inspection and copying except exempt records, which include the following:

(a) Matters specifically required by Executive order to be kept secret;

(b) Matters related solely to the internal personnel rules and practices of the Department;

(c) Matters specifically exempt from disclosure by statute;

(d) Trade secrets and commercial or financial information obtained from any person and privileged or confidential;

(e) Interagency or intraagency memoranda or letters which would not be available by law to a party other than an agency in litigation with the Department;

(f) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; and

(g) Investigatory files compiled for law enforcement purposes except to the extent available by law to a party other than an agency.

SEC. 4. *Requests for records.* Requests for Office of the Secretary records may be made in writing or in person to the Chief, Secretary's Records and Communications Division, Office of Plant and Operations, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250. Each request shall be reasonably specific in order to properly identify the record(s) sought.

SEC. 5. *Determination.* The Chief, Secretary's Records and Communications Division, shall make records available when requested in accordance with section 4, unless he determines that it is an exempt record. The Chief, Secretary's Records and Communications Division, shall give written notice of any such determination, together with the reasons therefor.

SEC. 6. *Appeals.* A denial by the Chief, Secretary's Records and Communications Division, for an Office of the Secretary record or records may be appealed, by the person who made the request, to the Assistant Secretary of Agriculture for Administration. The appeal shall be made in writing within 15 days of the date of the notice of denial. The Assistant Secretary will give written notice of the final determination of the Office of the Secretary.

SEC. 7. *Inspection and copies.* A person requesting available records may inspect them and, upon payment of applicable fees, copy them, in the Office of the Chief, Secretary's Records and Communications Division, on business days from 9:30 a.m. to 5 p.m. Copies of such records may also be purchased by mail. The applicable fees are prescribed by the Director, Office of Plant and Operations, U.S. Department of Agriculture.

Effective Date: The provisions of this notice are effective on July 4, 1967.

JOSEPH M. ROBERTSON,
Assistant Secretary
for Administration.

JUNE 30, 1967.

[F.R. Doc. 67-7881; Filed, July 7, 1967; 8:47 a.m.]

DEPARTMENT OF COMMERCE

Business and Defense Services Administration

OHIO STATE UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6 (c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Scientific and Technical Equipment, Department of Commerce, Room 5123, Washington, D.C. 20230.

Docket No. 67-00016-33-00000. Applicant: The Ohio State University, 190 North Oval Drive, Columbus, Ohio 43210. Article: Bennett Stereotaxic Apparatus, with parts and accessories. Manufacturer: Whitby Tool & Engineering Co., Ltd., United Kingdom. Intended use of article: Applicant states:

> This apparatus is designed to enable the Surgeon to perform any operation of stereotaxic surgery with certainty and ease. * * *
>
> Anterior and lateral views define the target in three dimensions, so that the semicircular instrument carrier is readily set to guide to the chosen part of the brain any straight instrument, electrode, needle, cannula, X-ray, or ultrasonic beam.
>
> The carrier and its bearings are marked off in degrees so that instruments or beams can be directed to meet at a single point from any combination of approaches. Three-dimensional patterns of electrodes or radioactive pellets can be set up. Lateral approaches through the temporal area as in the treatment of temporal lobe epilepsy can be made with guide plates mounted on the frame.
>
> For some applications it has been found valuable to use the apparatus to set the direction of single or multiple hole guides fastened subcutaneously to the skull, so that repeated observations or interventions can be made over a period of time. Such guides have been successfully used in the treatment of Parkinson's Disease and in the exploration of the thalamus. The stereotaxic apparatus measures the distance from the surface of the indwelling guides to the target area.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to such article, for the purposes for which such article is intended to be used, is being manufactured in the United States. Reasons: The stereotaxic apparatus is to be used in the neurosurgical treatment of human disease. Accuracy in placement of electrodes, ease and versatility in the use of the instrument, and comfort of the patient are of major importance in the design of such apparatus. The foreign article provides needed accuracy without requiring correction for parallax or specialized X-ray equipment in order to achieve this accuracy. The foreign article also provides wide versatility in its range of application to any area within the human head. In addition, the foreign article permits the use of a variety of lesion producing methods with a single apparatus. In our judgment, the greater utility and versatility of the foreign article can provide not only a greater degree of success in the operating theater or laboratory, it can also in certain cases insure success rather than failure. The Department of Commerce knows of no instrument or apparatus being made in the United States, which is of equivalent scientific value to the foreign article for the purposes for which such article is intended to be used.

CHARLEY M. DENTON,
Director, Office of Scientific and Technical Equipment, Business and Defense Services Administration.

[F.R. Doc. 67-7856; Filed, July 7, 1967; 8:45 a.m.]

OREGON REGIONAL PRIMATE RESEARCH CENTER OF THE MEDICAL RESEARCH FOUNDATION OF OREGON

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Scientific and Technical Equipment, Department of Commerce, Room 5123, Washington, D.C. 20230.

Docket No.: 67-00017-33-46040. Applicant: Oregon Regional Primate Research Center of the Medical Research Foundation of Oregon, 505 Northwest 185th Avenue, Beaverton, Oreg. 97005. Article: Electron Microscope Model EM-300 S, No. 30030000; Anticontamination Device No. 38300700, and Desiccator No. 38301000. Manufacturer: Philips Electronic Instruments, Inc., Holland. Intended use of article: Applicant states:

> The instrument will be used in conjunction with the medical-biological research programs * * *. The projects include the following diverse activities:
>
> A. Investigation of the ultrastructure of the fetal, neonatal, and adult Rhesus monkey adrenal cortex with particular reference to cytological expressions of sexual dimorphism and response to stress.
>
> B. A fine-structural investigation of the oviduct in the Rhesus mon-

key with emphasis on the control exerted by various gonadal hormones over ciliary atrophy and morphogenesis.

C. A study of the development of the fetal skin, including sweat glands, sebacious glands, and hair follicles.

D. An ultrastructural investigation of the development of epidermal tumors after the administration of carcenogenic agents.

E. A study of developing elastin in ligaments and in the aorta in normal animals and in copper deficient animals.

F. An investigation to describe the ultrastructural features of cardiac and skeletal muscle both in normal animals as well as in animals exposed to special diets (i.e., high fat) or to the effects of various pharmacological agents.

G. A fine structural study of human melanocytes and melanomas, part of these grown in tissue culture.

H. The study of simple photoreceptors with emphasis on the correlation of structure and function of specific cell types.

I. A descriptive study of fetal, neonatal, and adult pituitary under the influence of hormonal manipulation, such as gonadectomy.

J. In addition to the aforementioned, other problems are pursued on a routing service basis for other investigative staff of this Regional Primate Research Center who have projects amenable to the electron microscope program.

Comments: Comments were received from one domestic manufacturer, Radio Corporation of America (RCA), which alleged inter alia that "the RCA Model EMU-4 Electron Microscope with/named/accessories is of equivalent scientific value to the instrument and accessories for which duty free entry has been requested for the purposes stated in the application for which the instrument is intended to be used." (RCA comment, Apr. 27, 1967, par. (3).) Decision: Application Approved. No instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which such article is intended to be used, is being manufactured in the United States. Reasons: The pertinent characteristics and pertinent specifications of the foreign article were compared with similar pertinent characteristics and pertinent specifications of the RCA EMU-4 electron microscope. With respect to resolving power, the foreign article offers 5 Angstroms or better (the lower the numerical value in terms of Angstrom units, the higher the resolving power). (See specification sheet of foreign article attached to application, page I.) The domestic instrument offers 8 Angstroms or better. (See RCA comment, par. 4(c)(1).) While the major applications of the foreign article will involve the use of sectioned materials in which the fine structure beyond the resolution capabilities claimed for the domestic instrument is not preserved, the applicant intends to apply the article also to samples prepared by techniques that do preserve structural detail to the limit of resolution claimed for the foreign article.

The differences in resolution capabilities between the domestic instrument and the foreign article are therefore pertinent to the evaluation of scientific equivalency.

The foreign article also offers accelerating voltages of 20, 40, 60, 80, and 100 kilovolts. (See page 1 of specification sheet attached to application.) The domestic instrument offers only accelerating voltages of 50 and 100 kilovolts. (See par. 4(c)(iii) of comment by RCA.) The domestic manufacturer states that it has not been demonstrated that the additional accelerating voltages offered by the foreign article have produced any results. However, it is known that for certain types of specimens contrast is increased as the accelerating voltage is reduced below 50 kilovolts. The applicant has described the scientific benefits, particularly the maximum contrast obtained in unstained specimens, which can be achieved through using lower accelerating voltages. (See reply of applicant to comments of RCA, dated May 4, 1967, p. 3.) The availability of the lower accelerating voltages is, therefore, pertinent to the research objectives of the applicant.

The domestic manufacturer also claims that the microfocus gun is needed as an accessory to the foreign article only when the lower accelerating voltages are utilized. (See RCA comment par. 4(c)(v).) However, the applicant has demonstrated the need for the lower accelerating voltage. Moreover, as cited by the applicant (page 4 of applicant's reply to RCA comment), the microfocus gun can be used advantageouly with other operating voltages.

Therefore, the availability of the microfocus gun is pertinent to achieving the research objectives of the applicant.

In our judgment, the differences in resolving power and accelerating voltages, plus the availability of the microfocus gun as an accessory, lead to the conclusion that the domestic instrument is not scientifically equivalent to the foreign article for the purposes for which such article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus which is of equivalent scientific value to the foreign article for the purpose for which the article is intended to be used and is being made in the United States.

CHARLES M. DENTON,
Director, Office of Scientific and Technical Equipment, Business and Defense Services Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

CONSTRUCTION OF NONCOMMERCIAL EDUCATIONAL TELEVISION BROADCAST FACILITIES

Notice of Acceptance for Filing of Application for Federal Financial Assistance

Notice is hereby given that effective with this publication the following described applications for Federal financial assistance in the construction of noncommercial educational television broadcast facilities are accepted for filing in accordance with 45 CFR, section 60.7:

Memphis Community Television Foundation, Memphis State University, Box 80,000, Memphis, Tenn., File No. 202, to expand the facilities of noncommercial educational television station WKNO, Channel 10, Memphis, Tenn.

Hampton Roads Educational Television Association, 402 East Charlotte Street, Norfolk, Va., File No. 170, to amend its application for improvement of WHRO-TV, Channel 15, Norfolk, Va., by adding a transmitter unit which will increase power and expand coverage.

Arizona Board of Regents, Arizona State University, Tempe, Ariz., File No. 203, to improve the facilities of noncommercial educational television station KAET, Channel 8, Phoenix, Ariz.

Northeastern Pennsylvania Educational Television Association, 29 West Northampton Street, Wilkes-Barre, Pa., File No. 204, to improve the facilities of noncommercial educational television station WVIA, Channel 44, Scranton, Pa.

Nebraska Educational Television Commission, 1600 R Street, Lincoln, Nebr., File No. 205, to improve the facilities of noncommercial educational television station KUON, Channel 12, Lincoln, Nebr.

Any interested person may, pursuant to 45 CFR, section 60.8 within 30 calendar days from the date of this publication, file comments regarding the above applications with the Chief, Educational Television Facilities Branch, U.S. Office of Education, Washington, D.C. 20202.

(76 Stat. 64, 47 U.S.C. 390)

DONALD M. TRAPP,
Acting Chief, Educational Television Facilities Branch, U.S. Office of Education.

ATOMIC ENERGY COMMISSION

[Docket No. 50-213]

CONNECTICUT YANKEE ATOMIC POWER CO.

Notice of Issuance of Provisional Operating License

Please take notice that no request for a hearing by the applicant or petition for leave to intervene by any interested person having been filed following publication of the notice of proposed action in the FEDERAL REGISTER, the Atomic Energy Commission has issued Provisional Operating License No. DPR-14 to Connecticut Yankee Atomic Power Co. authorizing the licensee to possess, use, and operate the Haddam Neck Plant pressurized water nuclear reactor located on Connecticut Yankee's site on the east bank of the Connecticut River, approximately 21 miles south-southeast of Hartford, in the town of Haddam, Middlesex County, Conn. The license authorizes operation of the reactor at power levels not to exceed 1473 thermal megawatts, and incorporates Technical Specifications.

The Commission has inspected the facility and determined that it has been constructed in accordance with the application, as amended, and the provisions of Construction Permit No. CPPR-14.

The provisional operating license, as issued, is as set forth in the Notice of Proposed Issuance of Provisional Operating License published in the FEDERAL REGISTER on May 12, 1967, 32 F.R. 7167, except for the following changes in paragraph 3.C. of the license: (1) In line 3 of subparagraph (1) the words "a nuclear system" have been substituted for "the facility" in order to clarify the reporting requirement, and (2) in subparagraph (4) the listing of reporting requirements has been changed to a reference to the reporting requirements described in the Technical Specifications.

Dated at Bethesda, Md., this 30th day of June 1967.

For the Atomic Energy Commission.

S. LEVINE,
For Peter A. Morris,
Director,
Division of Reactor Licensing.

BUREAU OF THE BUDGET

TENNESSEE VALLEY AUTHORITY

Order Transferring the Use, Possession, and Control of the Coal and Coal Rights in and Under Lands From the General Services Administration

By virtue of the authority vested in the President of the United States by section 7(b) of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831f(b)), and delegated to the Director of the Bureau of the Budget by section 1(15) of Executive Order No. 11230 of June 28, 1965:

It is ordered, That the use, possession, and control of the coal and coal rights in and under the land hereinafter described are transferred from the General Services Administration to the Tennessee Valley Authority.

It is further ordered, That the right to use any surface areas of said land which are reasonably necessary in order to use any and all methods and processes, whether now known or hereafter developed, to prospect for, explore, mine, operate, produce, store and remove coal therefrom and the nonexclusive right of use of existing roads on said land for ingress and egress subject to liability to the owner or owners of the said surface area for actual damage caused thereby to the surface, growing crops, improvements, and livestock be and the same are transferred from the General Services Administration to the Tennessee Valley Authority.

The above transfers are deemed necessary and proper for the purposes of the Tennessee Valley Authority as stated in the Tennessee Valley Authority Act of 1933, as amended.

That certain tract of land designated on TVA land records as tract CBCR-1, the said land consisting of a portion of the U.S. Military Reservation identified as Camp Breckinridge, situated in the counties of Union, Webster, and Henderson, State of Kentucky, and more particularly described as follows:

NOTE: It is understood and agreed by the agencies affected by this transfer that when reference is made in the following property descriptions by way of identifying a given parcel of land by a number following the prefix "A," "B," or "E" (as the case may be), it is the intention that the same be deemed to refer to parcels correspondingly numbered and shown, in a general way and without accurate boundaries, on the "Land Acquisition Map—Morganfield, Kentucky, Triangular Division Camp Site—Portions of Union, Henderson, and Webster Counties, Ky.," a copy of which is attached hereto as Exhibit B.

Beginning on the northern boundary of Camp Breckinridge at the point of intersection of the south right-of-way line of U.S. Highway No. 60 and the center line of Little Air Line Road (Young-Harris Road), same also being the northwest corner of a tract of land formerly owned by P. B. Waller et al. (B-1); thence with said U.S. Highway No. 60 south right-of-way line N. 78°10' E., 53.71 poles to a corner common to a tract of land formerly owned by the Henderson-Union Rural Electric Co-op Corp. et al. (B-9); thence continuing with said U.S. Highway No. 60 south right-of-way line N. 78°10' E., 6.06 poles to a corner common to a tract of land formerly owned by Minnie Thomas et al. (B-9); thence continuing with said U.S. Highway No. 60 south right-of-way line in a northeasterly direction to the point of its intersection of the center line of Warehouse Road as designated on the reservation road map of Camp Breckinridge (attached hereto as Exhibit A); thence following the centerline of Warehouse Road in a southeasterly direction to a point which is approximately 795 feet northwest of the intersection of Road W-3 and Warehouse Road as designated on the reservation road map of Camp Breckinridge; thence in a southwesterly direction and parallel to Road W-3, a distance of approximately 660 feet; thence at a right angle in a southeasterly direction and parallel to Warehouse Road a distance of approximately 620 feet to a point; thence at a right angle in a southwesterly direction and parallel to Road W-3, approximately 200 feet to a point.

Thence at a right angle in a southeasterly direction and parallel to Road No. 26 as designated on the reservation map of Camp Breckinridge, approximately 175 feet to a point in the centerline of Road W-3; thence in a northeasterly direction with the centerline of Road W-3 to a point of intersection with the centerline of Warehouse Road; thence following the centerline of Warehouse Road in a southeasterly direction to its point of intersection with Road A as designated on the reservation map of Camp Breckinridge; said point also being Point H, which is an established internal property corner located in the intersection of Road A and Warehouse Road; thence in a generally easterly direction along the centerline of said Road A to a point where it intersects with the centerline of East Road as designated on the reservation road map of Camp Breckinridge; thence following the centerline of East Road in a northeasterly direction to the point of intersection of the south right-of-way line of U.S. Highway No. 60 and the centerline of East Road as designated on the reservation road map (attached hereto as Exhibit A) of Camp Breckinridge, said point being located in the northwest property line of a tract of land formerly owned by Margaret I. Drury (B-15); thence along the south right-of-way line of U.S. Highway No. 60 in a northeasterly direction to the point of intersection of the south right-of-way of U.S. Highway No. 60 and the northeast right-of-way line of Kentucky State Highway No. 141, a corner to a tract of land formerly owned by Fred Douglas Suggs et al. (B-29).

Thence with said U.S. Highway No. 60 south right-of-way line N. 72°35' E., 23.7 poles more or less to a corner common to the land formerly owned by John C. Roberts Estate (B-28) and the said Suggs tract (B-23); thence continuing with the south right-of-way line of U.S. Highway No. 60 N. 72°25' E., 87.0 poles; thence leaving the south right-of-way line of U.S. Highway No. 60 and with the northeast line of the said Roberts Estate tract (B-23) S. 49°55' E., 92 poles to a point in the center of Beaver Dam Road; thence with the centerline of said Beaver Dam Road N. 41°00' E., 3 poles to a corner common to the land formerly owned by Pearl Nally et vir. (B-24); thence continuing with the centerline of Beaver Dam Road N. 38°30' E., 95.8 poles to a corner common to tracts of land formerly owned by Charles R. Thomas (E-158) and the aforesaid Roberts Estate (B-23), said corner being the intersection of the centerline of Beaver Dam Road and the centerline of Highland Lick Road; thence with the west line of said Thomas tract N. 03° W., 67 poles to a point in the south right-of-way line of U.S. Highway No. 60; thence with said south right-of-way line of U.S. Highway No. 60 N. 85°10' E., 112 poles to a corner common to a tract of land formerly owned by Frank C. Rapier (E-158½) and to the aforesaid Thomas tract (E-158); thence continuing with the south right-of-way line of U.S. Highway No. 60 N. 85°10' E., 1,320 feet; thence continuing in the northeasterly direction along the south right-of-way line of U.S. Highway No. 60 and crossing a dirt road to a corner of a tract of land formerly owned by E. R. Rapier et al. (E-178).

Thence with the south right-of-way line of U.S. Highway No. 60 N. 85°10' E., 132 poles to a corner of said Rapier's tract (E-178); thence leaving said south right-of-way line of U.S. Highway No. 60 and with the northeast boundary line of said Rapier tract, S. 54°40' E., 98 poles; thence S. 38°25' W., 44 poles to a corner of a tract formerly owned by Susan Mills et al. (E-177); thence with said Mills northeast boundary line S. 56° E., 160 poles crossing the old bed of Casey Creek to the most easterly corner in said Mills tract; thence with the south boundary line of said Mills tract S. 46°32' W., 91 poles to the northeast right-of-way line of House Bridge Road; thence in a southwesterly direction and crossing House Bridge Road S. 33°30' W., 84 poles to a point in the old bed of Casey Creek which is a corner to a tract of land formerly owned by LeRoy Thomas et ux. (E-176); thence with the northeast line of said Thomas tract of land S. 50°45' E., 104 poles to the northeast corner of said Thomas tract; thence with the southeast boundary of said Thomas tract S. 38°40' W., 83 poles to the north corner of a tract of land formerly owned by Lillie G. Hosman et al. (E-183); thence with the northeast line of said Hosman tract S. 53°00' E., 58 poles; thence S. 38°05' W., 116 poles to the most northerly corner of a 1.06 acre school lot formerly owned by the Board of Education of Union County, Ky. (E-190); thence with the lines of said school lot S. 50°20' E., 17 poles; thence S. 38°05' W., 10 poles to a corner common to a tract of land formerly owned by Irene

Fowler et vir. (E-174) and to the tract of Board of Education of Union County (E-180).

Thence S. 88°29' E. along the northeast boundary line of said Fowler tract (E-174) and a tract of land formerly belonging to the Mary Ann Higginson Estate (E-178) to a corner common to a tract of land formerly owned by William A. Roberts et al. (E-391) and the Mary Ann Higginson Estate; thence with the northeast line of William A. Roberts' tract S. 54°54' E., 168 poles to a corner common to a tract of land formerly owned by Mary Katherine Roberts et al. (E-393) and the William A. Roberts tract; thence with the northeast line of Mary Katherine Roberts' tract S. 54°00' E., 77 poles; thence N. 28°05' E., 37.5 poles; thence S. 38°50' E. 23 poles to a point in the bed of the Old Highland Creek Ditch, thence with the center of the Old Highland Creek bed the following courses and distances: S. 11°00' W., 15 poles, thence S. 21°00' E., 6 poles, thence with the centerline of the Old Highland Creek N. 86°00' E., 15 poles, thence S. 20°30' E., 36 poles, thence S. 84°00' E., 15 poles, thence S. 69°00' E., 20 poles, thence S. 38°00' E., 10 poles, thence S. 45°00' W., 10 poles, thence S. 78°10' W., 37 poles; thence leaving the bed of the Old Highland Creek and continuing along the northeast boundary line of said Mary Katherine Roberts tract S. 54°45' E., 844.5 feet to a point, said point being the northwest corner of Federal Lease BLM-A-050213 (said lease being recorded in Oil and Gas Lease Book 86 at page 643 in the office of the County Clerk of Henderson County), said point also being in the northeastern boundary of Camp Breckinridge and is located 1,329 feet on a course N. 54°45' W. from the intersection of Berman-Corydon Road and the northeast boundary line of said Mary Katherine Roberts tract; thence south 6,600 feet along the westerly boundary of said Federal Lease BLM-A-050213 to a point being the southwest corner of said Federal Lease BLM-A-050212.

Thence east 6,900 feet along the southerly boundary of said Federal Lease BLM-A-050213 to Point O, said Point O being the southeast corner of said Federal Lease BLM-A-050213, this said Point O being located 2,800 feet due south of a point in the centerline of Duncan Road, which point is designated "X" and is located 132.25 feet on a course of S. 54°45' E. from the intersection of the centerline of Duncan Road and the northwest boundary line of a tract of land formerly owned by H. K. Tapp et ux. (E-688), the said boundary line also being the southwest line of an 8.8 acre tract formerly owned by H. K. and Barbara Tapp (E-696); thence north along the east boundary line of said Federal Lease BLM-A-050213 to Point X; thence from Point X along the centerline of Duncan Road and the H. K. Tapp northeast property line (E-688) to the corner of a tract formerly owned by Barbara Tapp et al. (E-687); thence with the centerline of Duncan Road S. 54°45' E., 39 poles; thence with the centerline of Duncan Road which is a northwest boundary line of the said Barbara Tapp tract (E-687) to the north corner of said tract in the centerline of Duncan Road; thence S. 56°00' E. with the centerline of Duncan Road which is the northwest boundary line of said Barbara Tapp tract (E-687) and a tract of land formerly owned by Nealie Tapp et al. (E-697) to a point in the center of White Lick Road and at the northwest corner of a tract of land formerly owned by Byron Tapp et ux. (E-682), said corner also being common to a tract formerly owned by Nealie Tapp, et al. (E-697).

Thence leaving the centerline of White Lick Road and following the northeast line of said Byron Tapp tract S. 55°10' E., 197 poles to a point in the northwest line of a tract formerly owned by Nannie Tapp et al. (E-686); thence with the northeast line of said tract and the centerline of Poole Road N. 33°25' E. to a point at the northwest corner of said Nannie Tapp tract and in the center of Poole Road; thence leaving the centerline of said road and continuing with the northeast line of the Nannie Tapp tract S. 53°30' E., 124 poles to the northeast corner of said tract; thence S. 36°40' W., 159 poles passing the Henderson-Webster County line to a point in the northeast property line of a tract formerly owned by E. C. Tapp et ux. (E-677); thence with the northeast line of the E. C. Tapp tract S. 51°20' E., 30.5 poles to the northeast corner of the said tract (E-677); thence S. 37°30' W., 73 poles to a corner common to a tract formerly owned by Jewel C. Duncan et vir. (E-679) and E. C. Tapp (E-677); thence with the line of Jewel C. Duncan's tract S. 57°25' E., 125 poles; thence S. 7°40' W., 27 poles; thence S. 81°40' E., 12 poles; thence S. 10°35' W., 30.5 poles to a point in the northeast line of a tract formerly owned by Mary Jane Melton et al. (E-678); thence with the north line of said Melton tract S. 79°30' E., 88 poles to a point in the center of the Jonestand Road (as located at the time of the Government's acquisition of the said tract E-678); thence following the centerline of Jonestand Road located as aforesaid which is the southeast line of the Mary Jane Melton tract S. 37°30' W., 96 poles; thence S. 24°30' W., 19 poles; thence S. 09°10' E., 25 poles to a point in the northwest line of a tract formerly owned by R. C. Bumpus et al. (E-702), said line also being common to Mary Jane Melton tract (E-678).

Thence with the center of Jonestand Road (as located at the time of the Government's acquisition of the tract E-702) S. 06°35' E., 17 poles, more or less, S. 28°0' E., 17.25 poles, more or less, S. 2°30' E., 14 poles, more or less, S. 18°35' E., 15 poles, more or less, S. 47°30' E., 9 poles to a corner common to a tract formerly owned by J. W. Tapp et ux. (E-661) and the R. C. Bumpus tract; thence with the center of the Jonestand Road (as located at the time of the Government's acquisition of the tract E-661) which is the east line of the J. W. Tapp tract, S. 17°45' E., 29 poles to a point in the east line of the J. W. Tapp tract; thence S. 06°45' W., 4 poles to a corner common to a tract formerly owned by G. M. Gibson et ux. (E-703) and the J. W. Tapp tract; thence continuing along the centerline of the Jonestand Road (as located at the time of the Government's acquisition of tract E-703) this being the east boundary line of the Gibson tract (E-703) S. 18° W., 8 poles, more or less; thence S. 09°55' W., 18 poles, more or less; thence S. 27°35' W., 24.5 poles, more or less; thence S. 1°25' E., 27.5 poles, more or less; thence S. 12°35' W., 29 poles, more or less; thence S. 14°30' W., 35 poles, more or less; thence S. 05°20' W., 07 poles, more or less, to a point in the north line of a tract formerly owned by T. T. Fulcher et ux. (E-618), said line also being common to G. M. Gibson tract; thence along the centerline of Jonestand Road (as located at the time of the Government's acquisition of tract E-618) S. 05° W., 56 poles, more or less; thence S. 17°45' E., 29 poles, more or less, to the northeast corner of a tract formerly owned by R. A. Tapp et ux. (E-700); thence with said R. A. Tapp property line and the centerline of the Jonestand Road (as located at the time of the Government's acquisition of tract E-700) S. 03°20' W., 49 poles to the southeast corner of tract E-700.

Thence N. 87°55' W., 15 poles along the south line of tract E-700; thence S. 03°20' W., 7.3 poles to a point in the north right-of-way line of Kentucky State Highway No. 56; thence with said Kentucky State Highway No. 56 north right-of-way line and R. A. Tapp's property line N. 87°55' W., 69 poles; thence N. 76°15' W., 23 poles to a point in the south line of tract E-700; thence leaving Kentucky State Highway No. 56 north right-of-way line and continuing with R. A. Tapp's line N. 6°25' E., 18 poles to a corner of tract formerly owned by Lula Melton et al. (E-610); thence along the southerly boundary of said Melton tract (E-610) N. 28°45' W., 65 poles to a point, and thence N. 78°10' W., 22 poles to a corner of a tract formerly owned by Gardie Tapp et ux. (E-615); thence N. 76°15' W. along the southerly boundary line of the said Gardie Tapp tract 31 poles, more or less, to a point in the east line of a tract formerly owned by David Tapp et ux. (E-631); thence along said David Tapp's east line S. 6°30' E., 15.2 poles to a point in the north right-of-way line of Kentucky State Highway No. 56; thence continuing along the north right-of-way line of said Kentucky State Highway No. 56 in a westerly direction to the southeast corner of a tract of land formerly owned by Rosabella Liles et vir. (E-226); thence continuing with the north right-of-way line of Kentucky State Highway No. 56, N. 78°00' W., 20.5 poles; thence S. 33°25' W. crossing said Kentucky State Highway No. 56 and continuing the same course in all 6.5 poles to the northeast corner of a tract of land owned by I. C. Russell; thence with the north line of the Russell tract N. 36°45' W., 40 poles; thence N. 78°30' W., 43 poles to the southeast corner of a tract of land formerly owned by J. E. Caton (E-218).

Thence with the east line of the said Caton tract N. 36°30' E. crossing the centerline of said Kentucky State Highway No. 56 at 6 poles and continuing to the north right-of-way line of said Kentucky State Highway No. 56; thence in a northwesterly direction along the north right-of-way line of said Kentucky State Highway No. 56 to Point P, said Point P which is the intersection of the north right-of-way line of Kentucky State Highway No. 56 and the intersection of the northerly line of Richards Road extended to intersect the north right-of-way line of said Kentucky State Highway No. 56, said point also being a corner in a tract of land formerly owned by Ella Bruce Waller (E-304); thence in a straight line to Point C, said Point C being 14,583 feet south of latitude 37°40'00" and 2,500 feet west of longitude 87°50'00"; thence continuing in a straight line in a northwesterly direction to Point B, said Point B being 10,125 feet south of latitude 37°40'00" and 625 feet west of longitude 87°52'30"; thence in a northwesterly direction in a straight line to Point A, said Point A being 6,000 feet south of latitude 37°40'00" and 7,542 feet west of longitude 87°52'30" thence continuing in a northwesterly direction in a straight line to Point G, said Point G being 3,542 feet south of latitude 37°40'00" and 667 feet west of longitude 87°55'00", said point being in the northwest line of tracts of land formerly owned by E. R. McBride et al. (E-110), and B. O. Waller (E-109), said line also being the westerly boundary of Camp Breckinridge; thence in a northeasterly direction along the westerly boundary of Camp Breckinridge and the northwest lines of the McBride and Waller tracts to the southwesterly corner of a tract of land formerly owned by T. S. Waller, Jr., et ux. (E-108).

Thence with said T. S. Waller line N. 40°00' E. 148.50 poles to the southwest corner of a tract of land formerly owned by Walter W. Leiter et ux. (E-107); thence with the line of said Leiter tract N. 40°00' E., 150 poles to a point in the south right-of-way line of Kentucky State Highway No. 56; thence continuing in a northeasterly direction crossing said Kentucky State Highway No. 56 to a point in the north right-of-way line of said Highway No. 56, said point also being a corner to a tract of land formerly owned by Lonnie Baird et ux. (A-19); thence with the property lines of the Lonnie Baird tract and running with the north right-of-way line of said Kentucky State Highway No. 56 N. 36°25' W., 28.20 poles to a point in the north right-of-way line of said Kentucky State Highway No. 56; thence leaving said highway, N. 58°20' E., 92.50 poles to a point in the west line of the Lonnie Baird tract; thence N. 37°55' E., 149.20 poles to a point in the center of Beaver Dam Road and the point of the northerly corner of the Baird tract; thence in a southeasterly direction along the centerline of Beaver Dam Road to the point of its intersection with the centerline of Coleman Lane; said point also being the southwest corner of a tract of land formerly owned by Tom Ellis et ux. (A-5); thence along the centerline of Coleman Lane and the line of Tom Ellis N. 38°49' E., 182.49 poles, thence N. 32°04' E., 15 poles; thence N. 36°04' E., 2.4 poles to the southwest corner of a tract formerly owned by the Trustees Coleman Cemetery (A-6); thence with the center of Coleman Lane and the line of said cemetery N. 36°04 E., 6.30 poles to the northwest corner of said cemetery, also a corner to Tom Ellis.

Thence with the center of Coleman Lane and Tom Ellis lines N. 36°04' W., 7.70 poles to the southwest corner of a tract of land formerly owned by Rice Cleveland et ux. (A-3); thence continuing along the centerline of Coleman Lane and the line of Rice Cleveland N. 35°34' E., 51.5 poles; thence N. 47°34' E., 19.5 poles; thence N. 39°50' E., 39 poles to a point in the center of Coleman Lane, a corner of a tract formerly owned by Zeda Ellis Wright (A-2); thence continuing with the centerline of Coleman Lane and Zeda Ellis Wright's line N. 40°04' E., 61 poles to the centerline of Little Air Line Road (Young-Harris Road); thence along the centerline of Little Air Line Road N. 50°00' W., 90.8 feet to the south right-of-way line of U.S. Highway No. 60, the point of beginning, containing 30,590 acres, more or less, and being all the land, except as noted below, within the tracts shown on Map D-Ky-433-B, Camp Breckinridge Minerals, a copy of which is attached hereto as Exhibit C, as follows:

Tract 2—4,975 acres, more or less.
Tract 3—3,950 acres, more or less.
Tract 4—4,390 acres, more or less.
Tract 5—3,600 acres, more or less.
Tract 6—5,075 acres, more or less.
Tract 7—4,270 acres, more or less.
Tract 8—4,330 acres, more or less.

Less and excepting from the above description and from this transfer:

1. The Independent Order of Odd Fellows Cemetery which is located on the south side of Kentucky State Highway No. 56 and west of the intersection of Kentucky State Highway No. 141, described as follows: Beginning at a point in the south right-of-way line of Kentucky State Highway No. 56 and the northeast corner of a tract of land formerly owned by Ulis M. Woodring et ux. (E-86), said corner also being common to a tract of land owned by the Independent Order of Odd Fellows Cemetery (E-101); thence with the north boundary line of said cemetery S. 85° E., 24.4 poles, said boundary line also being the south right-of-way line of Kentucky State Highway No. 56 to a corner of tract of land formerly owned by L. N. Duncan et al. (E-102); thence leaving said Kentucky State Highway No. 56 S. 04° W., 16 poles along a line common to said L. N. Duncan tract of land and to the Independent Order of Odd Fellows Cemetery to a point in the north line of tract of land formerly owned by L. N. Duncan et al. (E-100); thence with Duncan's north line 86°15' W., 13 poles; thence with the west line of said L. N. Duncan tract S. 04°00' W., 18 poles to the east corner of a tract of land formerly owned by Ulis M. Woodring (E-86); thence with the lines of said Woodring tract of land as follows: N. 85°30' W., 13 poles; thence N. 04° E., 16 poles; thence N. 86°15' W., 9 poles; thence N. 04°15' E., 15 poles to the point of beginning.

2. All rights of the State of Kentucky, any political subdivision thereof, and the public in those portions of the above described property lying within roads and highways known or designated as: (a) Kentucky State Highway No. 56, (b) Bordley Road, and (c) House Bridge Road.

3. All rights of the State of Kentucky, any political subdivision thereof, and the public in that portion of Kentucky State Highway No. 141 which lies south of the intersection of said highway and Kentucky State Highway No. 56 which may be situated within the above described property.

4. Any rights which may not have been acquired by the United States of America in and to the 2-acre church and cemetery plot which was excepted from the deed to Parcel E-173 dated July 14, 1943, recorded in Deed Book 110, page 95, Union County.

The above property was duly designated surplus and assigned to the Administrator of the General Services Administration for disposal pursuant to the provisions of the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, and regulations and orders promulgated thereunder, and this transfer is made subject to the terms and conditions of Invitation for Bids GSA Disposal No. D-Ky-432B, as modified and amended by Addendum No. 1 dated March 25, 1965, and the Tennessee Valley Authority's agreement to pay the sum of Seven Million Four Hundred and Ten Thousand Dollars ($7,410,000) to the General Services Administration conditioned upon the handling of such payment in accordance with the procedure set forth in the letter of April 17, 1967, from the Commissioner, Property Management and Disposal Service, General Services Administration, to the Chairman of the Board of Directors of the Tennessee Valley Authority.

Dated: June 29, 1967.

PHILLIP S. HUGHES,
Acting Director.

FEDERAL MARITIME COMMISSION

AMERICAN PRESIDENT LINES AND LUCKENBACH STEAMSHIP CO., INC.

Notice of Proposed Cancellation of Agreements

Notice is hereby given that a request for cancellation of the following agreement, pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814) has been filed with the Commission.

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of intent to cancel Agreement 7535 filed by:

Mr. G. M. Jordana, Acting Manager, American President Lines, 918 16th Street NW., Washington, D.C. 20006.

Agreement 7535, approved on October 7, 1941, between American President Lines, Ltd., and Luckenbach Steamship Co., Inc., provided that certain vessels of Luckenbach were to be used in American President Lines Trans-Pacific trade and the Luckenbach Co. agreed not to thereafter base any claim that it was an established operator in said trade. American President Lines has notified the Commission of their intention to terminate their participation in Agreement 7535.

Dated: July 5, 1967.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

INTERAGENCY TEXTILE ADMINISTRATIVE COMMITTEE

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN MALAYSIA

Entry and Withdrawal From Warehouse for Consumption

JULY 3, 1967.

On April 28, 1967, after discussions with the Government of Malaysia, the U.S. Government requested the Government of Malaysia to maintain for the 23-month period beginning April 28, 1967, its exports to the United States of cotton textiles and cotton textile products in Categories 9 and 38, produced or manufactured in Malaysia. In furtherance of the objectives of, and under the terms of the Long Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, including Article 3(c) relating to nonparticipants, the U.S. Government is establishing restraints in accordance with that request. These restraints do not apply to cotton textiles and cotton textile products produced or manufactured in Malaysia and exported to the United States prior to April 28, 1967.

There is published below a letter of June 28, 1967, from the Chairman of the President's Cabinet Textile Advisory Committee to the Commissioner of Customs, directing that the amounts of cotton textiles and cotton textile products in Categories 9 and 38 produced or manufactured in Malaysia which may be entered or withdrawn from warehouse for consumption in the United States for the designated 12-month period be limited to designated levels.

GEORGE HOUSER,
Chairman, Interagency Textile Administrative Committee, and Deputy Assistant Secretary for Resources.

THE SECRETARY OF COMMERCE
PRESIDENT'S CABINET TEXTILE
ADVISORY COMMITTEE
WASHINGTON, D.C. 20230,
June 28, 1967.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

DEAR MR. COMMISSIONER: Under the terms of the Long Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, including Article 3(c) thereof relating to nonparticipants, and in accordance with the procedures outlined in Executive Order 11052 of September 28, 1962, as amended by Executive Order 11214 of April 7, 1965, you are directed to prohibit, effective June 30, 1967, and for the 12-month period beginning April 28, 1967, and extending through April 27, 1968, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 9 and 38, produced or manufactured in Malaysia, in excess of the following designated levels of restraint:

Category	12-month level of restraint [1]
9	square yards.. 400,000
38	do.... 600,000

[1] This level of restraint has not been adjusted to reflect entries made on or after Apr. 28, 1967.

Cotton textiles and cotton textile products in Categories 9 and 38, produced or manufactured in Malaysia and which have been exported to the United States prior to April 28, 1967, shall not be subject to this directive.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on July 7, 1966 (31 F.R. 9099).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for con-

sumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Malaysia and with respect to imports of cotton textiles and cotton textile products from Malaysia have been determined by the President's Cabinet Textile Advisory Committee to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the notice provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely yours,

A. B. THOMSEN,
Secretary of Commerce and Chairman, President's Cabinet Textile Advisory Committee.

SECURITIES AND EXCHANGE COMMISSION

[811-1063]

COLUMBIA FUND, INC.

Notice of Proposal To Terminate Registration

JULY 3, 1967.

Notice is hereby given that the Securities and Exchange Commission proposes, pursuant to section 8(f) of the Investment Company Act of 1940 ("Act"), to declare by order upon its own motion that Columbia Fund, Inc. ("Fund"), 1346 Connecticut Avenue NW., Washington, D.C. 20006, a Delaware corporation which registered under the Act on May 24, 1961 as an open-end nondiversified management investment company, has ceased to be an investment company.

The Commission has been informed by letter from the President of the Fund that all of the Fund's assets were distributed to its shareholders by the Bank of Delaware and the corporation was formally dissolved on petition to the Delaware Corporation Commission. The letter also states that the Fund never made a public offering of its shares.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, on its own motion, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, that upon the taking effect of such order, the registration of such company shall cease to be in effect, and that, if necessary for the protection of investors, such order may be made upon appropriate conditions.

Notice is further given that any interested person may, not later than July 21, 1967, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Fund at the address set forth above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations under the Act, an order disposing of the matter may be issued by the Commission upon the basis of the information stated in this notice, unless an order for hearing upon this matter shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS,
Secretary.

SUBSCRIPTION TELEVISION, INC.

Order Suspending Trading

JULY 3, 1967.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $1 par value of Subscription Television, Inc., New York, N.Y., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period July 5, 1967, through July 14, 1967, both dates inclusive.

By the Commission.

ORGANIZATION MINUTES

Order. At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 22d day of June 1967.

Section 17 of the Interstate Commerce Act, as amended (49 U.S.C. 17) and other provisions of law being under consideration, with a view to reflecting the new organization of the Office of Proceedings.

It is ordered, That the Organization Minutes of the Interstate Commerce Commission relating to the Organization of Division and Boards and Assignment of Work, issue of July 27, 1965, as amended (30 F.R. 11189, 12559 and 13302; 31 F.R. 242, 4762, 9529, 12693, 13099, and 14025; and 32 F.R. 431, 7105, 8000, and 8784), be further amended as follows:

1. In Item 4.2, paragraphs (e), (j), (k), (l), (n), (t), and (w) are amended to read as follows:

4.2 *Division one—Operating Rights Division.*

* * * * *

(e) Section 204(a)(4a), relating to certificates of exemption to motor carriers operating solely within a single State, except matters assigned to and determined by the Operating Rights Board pursuant to Item 7.11(a).

* * * * *

(j) Sections 206, 207, and 208, relating to certificates of public convenience and necessity, and certificates of registration, except matters assigned to and determined by the Operating Rights Board pursuant to Items 7.11(a) and 7.11(b).

(k) Section 209, relating to permits, except matters assigned to and determined by the Operating Rights Board pursuant to Item 7.11(a).

(l) Section 210, relating to dual operations, except matters assigned to and determined by the Operating Rights Board pursuant to Item 7.11(a).

* * * * *

(n) Section 211, relating to brokerage licenses, except matters assigned to and determined by the Operating Rights Board pursuant to Item 7.11(a).

* * * * *

(t) Sections 303(1), 309, and 310, relating to certificates of public convenience and necessity and permits; section 311(a), relating to temporary authorities, when certified to the Division by the Temporary Authorities Board; section 312a, relating to suspension, change, or revocation of certificates and permits except determination of uncontested proceedings which have not involved the taking of testimony at a public hearing unless certified to the Division by the Temporary Authorities Board; section 410 (a) to (f), inclusive, section 410 (h) and (i), relating to permits, except matters assigned to and determined by the Operating Rights Board pursuant to Item 7.11(a) or by the Temporary Authorities Board pursuant to Item 7.4(c).

* * * * *

(w) Any matters arising under Parts II, III, and IV not specially assigned or referred to other Divisions, except matters relating to the Commission's Deviation Rules (49 CFR Part 311, or as amended) assigned to and determined by the Operating Rights Board, pursuant to Item 7.11(c).

2. In Item 4.4, paragraphs (c), (g), (k), and (r) are amended to read as follows:

4.4 *Division three—Finance and Service.*

* * * * *

(c) Section 1 (18) to (20), inclusive, relating to certificates of public convenience and necessity, except determination of applications which have not involved the taking of testimony at a public hearing or the submission of evidence by opposing parties in the form of affidavits, unless certified to the Division by a review board or recalled by the Division. (See Item 7.12(f).)

* * * * *

(g) Section 5 (2) to (13), inclusive (except matters assigned to Division 1), relating to consolidations, mergers, purchases, leases, operating contracts, and acquisitions of control of carriers, noncarrier control, and trackage rights, including matters of public convenience and necessity under section 207 and consistency with the public interest under section 209 directly related thereto, except determination of applications under section 5(2) and aforesaid related matters under sections 207 and 209 which have not involved the taking of testimony at a public hearing or the submission of evidence by opposing parties in the form of affidavits, unless certified to the Division by a review board or recalled by the Division. (See Item 7.12 (d) and (g).)

* * * * *

(k) Section 20a (other than matters assigned under Item 6.6(a) relating to interlocking directorates) and 214, relating to securities, except determination of applications which have not involved the taking of testimony at a public hearing or the submission of evidence by opposing parties in the form of affidavits, unless certified to the Division by an employee board or recalled by the Division. (See Items 7.6 (a) and 7.12 (d), (f), and (g).)

* * * * *

(r) Sections 210a(b) and 311(b) relating to applications for temporary authority when certified to the Division by a review board or recalled by the Division. (See Item 7.12 (e) and (h).)

* * * * *

3. Item 7.6 is revised to read as follows:

7.6 *Finance Board.* (a) Determination of applications under sections 20a (1) to (11), inclusive, and 214 relating to securities when not connected with an application under section 1 (18)-(20) or section 5(2) and which have not involved the taking of testimony at a public hearing or the submission of evidence by opposing parties in the form of affidavits.

(b) Any matter referred to the Finance Board which is assigned for the taking of testimony at a public hearing shall be carried to a conclusion in accordance with the established practices and assignments of work of the Commission.

(c) The Finance Board may certify to Division 3 any matter which in the Board's judgment should be passed on by that Division, or the Commission, and Division 3 may recall any matter from the Finance Board.

4. Item 7.11 is revised to read as follows:

7.11 *Operating Rights Board.* (a) Determination of applications under sections 204 (a) (4a), 206, 207, 208, 209, 210, 211, 303(1), 309, 310, 410 (a) to (f), inclusive, and 410 (h) and (i), relating to the issuance of certificates of public convenience and necessity and permits to motor and water carriers, permits to freight forwarders, certificates of exemption to single-State motor carriers, licenses to brokers, and dual operation matters which have not involved the taking of testimony at a public hearing or the submission of evidence by opposing parties in the form of affidavits.

(b) Determination of issues, raised by the filing of protests or otherwise, concerning applications by holders of intrastate authorities for certificates of registration to engage in operations in interstate or foreign commerce under sections 206(a) (6) and (7), except those applications under section 206(a)(6) in connection with which petitions for reconsideration of the finding of the State Commission that the public convenience and necessity require applicant's proposed operations in interstate or foreign commerce are seasonably filed, not involving the taking of testimony at a public hearing before the Commission or the submission of evidence to the Commission by opposing parties in the form of affidavits, with the right to designate

any such matter for hearing and determination in accordance with the general rules of practice where such action is deemed necessary or desirable.

(c) Determination of issues, raised by the filing of protests or otherwise, concerning the interpretation and application of the Deviation Rules, 49 CFR Part 211 (30 F.R. 638, 4823), or as amended, not involving the taking of testimony at an oral hearing or the submission of evidence by opposing parties in the form of affidavits, with the right to designate any such matter for hearing and determination in accordance with the general rules of practice where such action is deemed necessary or desirable.

(d) Any matter referred to the Operating Rights Board which is assigned for the taking of testimony at a public hearing shall be carried to a conclusion in accordance with the established practices and assignment of work of the Commission.

(e) The Operating Rights Board may certify to Division 1 any matter which in the Board's judgment should be passed on by that Division, or the Commission, and Division 1 may recall any matter from the Operating Rights Board.

5. In Item 7.12, paragraphs (d), (e), and (f) are revised; and paragraphs (g), (h), (i), (j), and (k) are added. As amended, Item 7.12 reads as follows:

7.12 *Review Board Nos. 1, 2, 3, 4, and 5:*

. . . . .

(d) Determination of applications (except matters assigned in Item 4.2(a)) relating to consolidations, mergers, purchases, leases, operating contracts, and acquisitions of control of motor carriers, and noncarrier control of such carriers, including matters of public convenience and necessity under section 207 and consistency with the public interest under section 209 directly related thereto, and issuance of securities and assumption of obligations under section 214 in connection therewith, which have not involved the taking of testimony at a public hearing or the submission of evidence by opposing parties in the form of affidavits. The term "motor carriers" as used herein does not include a motor carrier which also is a carrier subject to Part I or Part III of the Interstate Commerce Act.

(e) Section 210a(b) relating to applications for temporary authority, and continuance of temporary authority under section 9(b) of the Administrative Procedure Act and interpretative special rules (49 CFR 102.1 to 102.4).

(f) Determination of applications under section 1 (18) to (20), inclusive, relating to certificates of public convenience and necessity, and issuance of securities and assumption of obligations under section 20a in connection therewith, which have not involved the taking of testimony at a public hearing or the submission of evidence by opposing parties in the form of affidavits.

(g) Determination of applications under section 5(2) (except matters assigned in Item 4.2(a)) relating to consolidations, mergers, purchases, leases, operating contracts, and acquisitions of control of carriers, by railroad or water, noncarrier control of such carriers, and trackage rights; and applications under section 20a (2) to (11), inclusive, relating to securities of carriers, in connection with the aforesaid applications under section 5(2), which have not involved the taking of testimony at a public hearing or the submission of evidence by opposing parties in the form of affidavits.

(h) Section 311(b) relating to applications for temporary authority, and continuance of temporary authority under section 9(b) of the Administrative Procedure Act and interpretative special rules (49 CFR 102.1 to 102.4).

(i) In any proceeding under the provisions of law set forth under Item 4.2, 4.3, or 4.4 hereof, in which the parties request the withdrawal of exceptions, a Review Board may grant such request and enter an order making the recommended order of the hearing officer (other than a Commissioner) effective.

(j) In any proceeding under the provisions of law set forth under Item 4.2, 4.3, or 4.4 hereof, a Review Board may enter an order staying the recommended order of a hearing officer (other than a Commissioner) and may vacate such a stay order in the event it concludes later that the recommended order should be allowed to become effective.

(k) A Review Board may certify matters to the Divisions and the Divisions may recall matters from a Review Board, as follows:

(1) A Review Board may certify to Division 1 and Division 1 may recall from a Review Board any matter in any proceeding under the provisions of law set forth under Item 4.2 hereof.

(2) A Review Board may certify to Division 2 and Division 2 may recall from a Review Board any matter in any proceeding under the provisions of law set forth under Item 4.3 hereof.

(3) A Review Board may certify to Division 3 and Division 3 may recall from a Review Board any matter in any proceeding under the provisions of law set forth under Item 4.4.

6. Under the heading Rehearings and Further Proceedings, Items 8.4 and 8.6(a) are amended to read as follows:

REHEARINGS AND FURTHER PROCEEDINGS

. . . . .

8.4 Division 1 is hereby designated as an appellate division to which applications or petitions for reconsideration or review, based on an allegation of error on the merits, in whole or in part, of any order, action, or requirement of the Temporary Authorities Board under paragraphs (a) and (b) of Item 7.4, of the Operations Boards under paragraphs (a) and (b) of Item 7.8, of the Operating Rights Board under paragraphs (a), (b), and (c) of Item 7.11, and of the Review Boards under paragraph (a) of Item 7.12, shall be assigned or referred for disposition (except as otherwise provided in Item 7.4(a)), and the decisions or orders of the appellate division shall be administratively final and not subject to review by the Commission. All other petitions seeking modification of any order, action, or requirement of any such Board, or supplementary authority in the proceeding, shall be determined by the Board, whose order, action, or requirement is sought to be modified.

. . . . .

8.6 Division 3 is hereby designated as an appellate division—

(a) To which applications or petitions for reconsideration or review, based on an allegation of error on the merits, in whole or in part, of any order, action, or requirement of the Transfer Board under Item 7.5(a), the Finance Board under Item 7.6(a), and the Review Boards under paragraphs (c), (d), (e), (f), (g), and (h) of Item 7.12 shall be assigned or referred for disposition, and the decisions or orders of the appellate division shall not be subject to review by the Commission. All other petitions, seeking modification of any order, action, or requirement of any such Board, or supplementary authority in the proceeding, shall be determined by the Board, whose order, action, or requirement is sought to be modified.

. . . . .

By the Commission.

(SEAL) H. NEIL GARSON, *Secretary.*

FEDERAL REGISTER

VOLUME 32 • NUMBER 131

Saturday, July 8, 1967 • Washington, D.C.

PART II

Department of Labor

Federal Service Contracts

Proposed Interpretations

DEPARTMENT OF LABOR

Office of the Secretary

[29 CFR Part 4]

FEDERAL SERVICE CONTRACTS

Proposed Interpretations

Pursuant to sections 2 and 4 of the McNamara-O'Hara Service Contract Act of 1965 (79 Stat. 1035) and Secretary's Order No. 36-65 (30 F.R. 15305), I propose to amend 29 CFR Part 4 by adding thereto a new Subpart C as herein set out.

On September 27, 1966, other regulations relating to the administration of the McNamara-O'Hara Service Contract Act of 1965 were published in the FEDERAL REGISTER (31 F.R. 12646) as Subparts A and B of a proposal to revise 29 CFR Part 4. Public comment was invited, and it was stated that "Subpart C containing interpretative materials will be issued at a later date". Some of the comments received requested further opportunity to comment on Subparts A and B after publication of Subpart C. Accordingly, further data, views, or argument on Subparts A and B as published on September 27, 1966 (31 F.R. 12646) as well as such comment on the Subpart C herein set out are invited as provided in that document, but during a period which is expanded to include 30 days following the publication of this document.

Part 4 of Title 29 of the Code of Federal Regulations is hereby amended by adding thereto a new Subpart C as herein set out. As this Subpart C relates only to public contracts, the exemption provided in paragraph (a) (2) makes inapplicable the provisions of subsections (b), (c), and (d) of 5 U.S.C. 553 which otherwise require public procedure and a delayed effective date. It does not appear that any useful purpose would be served by such procedure and delay insofar as it relates to this Subpart C. Accordingly, this amendment shall be effective on the day this document is published in the FEDERAL REGISTER.

On September 27, 1966, other regulations relating to the administration of the McNamara-O'Hara Service Contract Act of 1965 were published in the FEDERAL REGISTER (31 F.R. 12646) as Subparts A and B of a proposal to revise 29 CFR Part 4. Public comment was invited, and it was stated that "Subpart C containing interpretative materials will be issued at a later date". Some of the comments received requested further opportunity to comment on Subparts A and B after publication of Subpart C. Accordingly, further data, views, or argument on Subparts A and B as published on September 27, 1966 (31 F.R. 12646) are invited as provided in that document, but during a period which is expanded to include 30 days following the publication of this document.

The new Subpart C of 29 CFR Part 4 reads as follows:

Subpart C—Application of the McNamara-O'Hara Service Contract Act

INTRODUCTORY

Sec.
4.101 Official rulings and interpretations in this subpart.
4.102 The Act.
4.103 What the Act provides, generally.
4.104 Administration of the Act.

AGENCIES WHOSE CONTRACTS MAY BE COVERED

4.107 Federal contracts.
4.108 District of Columbia contracts.

COVERED CONTRACTS GENERALLY

4.110 What contracts are covered.
4.111 Contracts "to furnish services".
4.112 Contracts to furnish services "in the United States".
4.113 Contracts to furnish services "through the use of service employees".
4.114 Subcontracts.

SPECIFIC EXCLUSIONS

4.115 Exemptions and exceptions generally.
4.116 Contracts for construction activity.
4.117 Contracts for carriage subject to published tariff rates.
4.118 Contracts for services of communications companies.
4.119 Contracts for public utility services.
4.120 Contracts for operation of postal contract stations.
4.121 Contracts for individual services.
4.122 Work subject to requirements of Walsh-Healey Act.
4.123 Administrative limitations, variations, tolerances, and exemptions.

PARTICULAR APPLICATIONS OF CONTRACT COVERAGE PRINCIPLES

4.130 Types of covered service contracts illustrated.
4.131 Furnishing services involving more than use of labor.
4.132 Services and other items to be furnished under single contract.
4.133 Government as beneficiary of contract services.
4.134 Contracts outside the Act's coverage.

DETERMINED AMOUNT OF CONTRACT

4.140 Significance of contract amount.
4.141 General criteria for measuring amount.
4.142 Contracts in an indefinite amount.

CHANGES IN CONTRACT COVERAGE

4.143 Effects of changes or extensions of contracts, generally.
4.144 Contract modifications affecting amount.
4.145 Extended term contracts.

PERIOD OF COVERAGE

4.146 Contract obligations after award, generally.

EMPLOYEES COVERED BY THE ACT

4.150 Employee coverage generally.
4.151 Employees covered by provisions of section 2(a).
4.152 Employees subject to prevailing compensation provisions of sections 2(a) (1) and (2).
4.153 Inapplicability of prevailing compensation provisions to some employees.
4.154 Employees covered by sections 2(a) (3) and (4).
4.155 Employee coverage does not depend on form of employment contract.
4.156 Employees in bona fide executive, administrative, or professional capacity.

COMPENSATION STANDARDS

4.159 General minimum wage.
4.160 Effect of section 5(c) of the Fair Labor Standards Act.
4.161 Minimum monetary wages under contracts exceeding $2,500.
4.162 Fringe benefits under contracts exceeding $2,500.
4.163 Locality basis of wage and fringe benefit determinations.
4.164 Making the determinations and informing contractors.

COMPLIANCE WITH COMPENSATION STANDARDS

4.165 Wage payments and fringe benefits—in general.
4.166 Wage payments—unit of payment.
4.167 Wage payments—medium of payment.
4.168 Wage payments—deductions from wages paid.
4.169 Wage payments—work subject to different rates.
4.170 Furnishing fringe benefits or equivalents.
4.171 Meeting requirements for particular fringe benefits.
4.172 Computation of hours worked.
4.173 Identification of contract work.

OVERTIME PAY OF COVERED EMPLOYEES

4.180 Overtime pay—in general.
4.181 Overtime pay provisions of other Acts.
4.182 Overtime pay of service employees entitled to fringe benefits.

NOTICE TO EMPLOYEES

4.183 Employees must be notified of compensation required.
4.184 Posting of notice.

RECORDS

4.185 Recordkeeping requirements.

SAFETY AND HEALTH PROVISIONS

4.186 Contract requirements for safety and health of workers.

ENFORCEMENT

4.187 Recovery of underpayments.
4.188 Ineligibility for further contracts when violations occur.
4.189 Administrative proceedings relating to enforcement of labor standards.
4.190 Contract cancellation.
4.191 Complaints and compliance assistance.

AUTHORITY: The provisions of this Subpart C issued under secs. 2(a) and 4, 79 Stat. 1035; 41 U.S.C. 352, R.S. 161, 5 U.S.C. 22, Secretary's Order 36-65 (30 F.R. 15305).

INTRODUCTORY

§ 4.101 Official rulings and interpretations in this subpart.

The purpose of this subpart is to provide, pursuant to the authority cited in § 4.103, official rulings and interpretations with respect to the application of the McNamara-O'Hara Service Contract Act for the guidance of the agencies of the United States and the District of Columbia which may enter into and administer contracts subject to its provisions, the persons desiring to enter into such contracts with these agencies, and the contractors, subcontractors, and employees who perform work under such contracts. This subpart supersedes all prior rulings and interpretations issued under the Act to the extent, if any, that they may be inconsistent with rules herein stated. Principles governing the application of the Act as set forth in this subpart are clarified or amplified in particular instances by illustrations and examples based on specific fact situations. Since such illustrations and examples cannot and are not intended to be exhaustive, no inference should be drawn from the fact that a subject or illustration is omitted. If doubt arises, inquiries with respect to matters other than safety and health standards should be directed to the Administrator of the Wage and Hour and Public Contracts Divisions, U.S. Department of Labor, Washington, D.C. 20210, or to any Regional or District Office of the Divisions. Safety and health inquiries should be addressed to the Director, Bureau of Labor Standards, U.S. Department of Labor, Washington, D.C. 20210, or to any Regional Office of the Bureau. A full description of the facts and any relevant documents should be submitted if an official ruling is desired.

§ 4.102 The Act.

The McNamara-O'Hara Service Contract Act of 1965 (Public Law 89-286, 79 Stat. 1034, 41 U.S.C. 351 et seq.), hereinafter referred to as the Act, was approved by the President on October 22, 1965 (1 Weekly Compilation of Presidential Documents 428). It establishes standards for minimum compensation and safety and health protection of employees performing work for contractors and subcontractors on service contracts entered into with the Federal Government and the District of Columbia. It applies to contracts entered into pursuant to negotiations concluded or invitations for bids issued on or after January 30, 1966.

§ 4.103 What the Act provides, generally.

The provisions of the Act apply to contracts, whether negotiated or advertised, the principal purpose of which is to furnish services in the United States through the use of service employees. Under its provisions, every contract subject to the Act (and any bid specification therefor) entered into by the United States or the District of Columbia in excess of $2,500 must contain stipulations requiring (a) that specified minimum monetary wages and fringe benefits determined by the Secretary of Labor (based on wage rates and fringe benefits prevailing in the locality) be paid to service employees employed by the contractor or any subcontractor in performing the services contracted for; (b) that working conditions of such employees which are under the control of the contractor or subcontractor meet safety and health standards; and (c) that notice be given to such employees of the compensation due them under the minimum wage and fringe benefits provisions of the contract. The Act does not permit the monetary wage rates specified in such a contract to be less than the minimum wage specified under section 6(a) (1) of the Fair Labor Standards Act, as amended (29 U.S.C. 206(a) (1)). In addition, it is a violation of the Act for any contractor or subcontractor under a Federal contract subject to the Act, regardless of the amount of the contract, to pay any of his employees engaged in performing work on the contract less than such Fair Labor Standards Act minimum wage (or, in the case of certain linen supply contractors, the alternative minimum wage provided under sec. 5(c)(2) of such Act). Contracts of $2,500 or less are not, however, required to contain the stipulations described above. These provisions of the Service Contract Act are implemented by the regulations contained in Subparts A and B of this Part 4, and are discussed in more detail in subsequent sections of this subpart.

§ 4.104 Administration of the Act.

(a) As provided by section 4 of the Act and under provisions of sections 4 and 5 of the Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. 38, 39) which are made expressly applicable for the purpose, the Secretary of Labor is authorized and directed to administer and enforce the provisions of the McNamara-O'Hara Service Contract Act, to make rules and regulations, issue orders, make decisions, and take other appropriate action under the Act, including the provision of reasonable limitations and the making of such rules and regulations allowing reasonable variations, tolerances, and exemptions to and from provisions of the Act as he may find necessary and proper in the public interest or to avoid serious impairment of the conduct of Government business.

(b) Functions of the Secretary are performed by the Administrator of the Wage and Hour and Public Contracts Divisions, subject to the direction of the Assistant Secretary for Labor-Management Relations, by the Director of the Bureau of Labor Standards, subject to the direction of the Assistant Secretary for Labor Standards, and by the Solicitor of Labor, as provided in Secretary's Orders 36-65 (30 F.R. 15305) and 12-66 (31 F.R. 12820), and the regulations in this part and in Part 6 of this title.

(c) The Administrator has authority and responsibility for administration of the Act's provisions relating to matters other than occupational health and safety, including (1) determining minimum wages and fringe benefits pursuant to section 2(a) of the Act; (2) issuing interpretations with respect to the Act and regulations thereunder on the advice of the Solicitor; (3) authorizing and instituting investigations and prosecuting any inquiry with respect to possible violations of the Act; (4) reviewing findings and decisions of the hearing examiners in administrative enforcement proceedings and making revised findings, conclusions, and decisions pursuant to section 8 of the Administrative Procedure Act as well as reviewing and modifying recommendations to the Secretary of Labor concerning application of the ineligibility list sanction; (5) making recommendations to the Secretary of Labor as to exceptions, limitations, variations, tolerances, and exemptions from the provisions of the Act and from regulations of the Secretary of Labor; (6) making disbursements from the deposit fund directly to the underpaid employees from any accrued underpayments withheld under the Act; (7) making recommendations to the Secretary for the issuance, amendment, or rescission of such rules and regulations as he may deem to be necessary or advisable to carry out the provisions of the Act; and (8) making appropriate arrangements with the contracting agencies pursuant to section 3 of the Act and for their cooperation in carrying out its provisions.

(d) The director has authority and responsibility for administration of the Act's provisions relating to occupational health and safety, including (1) formulating safety and health standards; (2) making safety and health inspections under the provisions of the Act; (3) reviewing findings and decisions of hearing examiners and making revised findings, conclusions, and decisions concerning compliance with safety and health standards, in administrative enforcement proceedings under the Act; (4) reviewing hearing examiners' recommendations for relief from the ineligibility list sanction for violations of safety and health standards and making recommendations with respect thereto to the Secretary; and (5) otherwise administering enforcement policy and activities in connection with the safety and health standards under the Act.

(e) The Solicitor of Labor has responsibility for (1) providing legal advice and assistance to the Secretary, the Administrator, and the Director in the issuance of regulations, rules, and interpretations under the Act and the regulations issued thereunder; (2) prosecuting judicial enforcement proceedings, determination in each case whether such proceedings are appropriate to be made by the Solicitor of Labor; and (3) assisting the Administrator and the Director in the development of policies for the administration and enforcement of the Act.

AGENCIES WHOSE CONTRACTS MAY BE COVERED

§ 4.107 Federal contracts.

(a) Section 2(a) of the Act covers contracts (and any bid specification therefor) "entered into by the United States" and section 2(b) applies to contracts entered into "with the Federal Government." Within the meaning of these provisions, contracts entered into by the United States and contracts with the Federal Government include generally all contracts to which any agency or instrumentality of the U.S. Government becomes a party pursuant to authority derived from the Constitution and laws of the United States. The Act does not authorize any distinction in this respect between such agencies and instrumentalities on the basis of their inclusion in or independence from the executive, legislative, or judicial branches of the Government, the fact that they may be corporate in form, or the fact that payment for the contract services is not made from appropriated funds. Thus, contracts of wholly owned Government corporations, and those of nonappropriated fund instrumentalities under the jurisdiction of the Armed Forces, are included among those subject to the general coverage of

the Act. Contracts with the Federal Government and contracts entered into "by the United States" within the meaning of the Act do not, however, include contracts for services entered into on their own behalf by agencies or instrumentalities of other Governments within the United States such as those of the several States and their political subdivisions, or of Puerto Rico, the Virgin Islands, Guam, or American Samoa.

(b) Where a Federal agency exercises its contracting authority to procure services for the Government or Government personnel, the method of procurement utilized by the contracting agency is not controlling in determining coverage of the contract as one entered into by the United States. Such contracts may be entered into by the United States either through a direct award by a Federal agency or through the exercise by another agency (whether governmental or private) of authority granted to it to procure services for or on behalf of a Federal agency. Thus, sometimes authority to enter into service contracts of the character described in the Act for and on behalf of the Government and on a cost-reimbursable basis may be delegated, for the convenience of the contracting agency, to a prime contractor with the Government under the terms of a contract having a principal purpose other than the furnishing of services through the use of service employees (as, for example, a contract to operate or manage a Federal installation or facility or a Federal program). The contracts entered into by such a prime contractor with secondary contractors for and on behalf of the Federal agency pursuant to such delegated authority, which have such services as their principal purpose, are deemed to be contracts entered into by the United States and contracts with the Federal Government within the meaning of the Act. However, service contracts entered into by Federal contractors or State or local public bodies with purveyors of services are not deemed to be entered into by the United States merely because such services are paid for with funds of the contractor or public body which have been received from the Federal Government as payment for contract work or as a grant under a Federal program. For example, a contract entered into by a municipal housing authority for tree trimming, tree removal, and landscaping for an urban renewal project financed by Federal funds is not a contract entered into by the United States and is not covered by the Service Contract Act.

§ 4.108 District of Columbia contracts.

Section 2(a) of the Act covers contracts (and any bid specification therefor) in excess of $2,500 which are "entered into by the * * * District of Columbia." The contracts of all agencies and instrumentalities which procure contract services for or on behalf of the District or under the authority of the District Government are contracts entered into by the District of Columbia within the meaning of this provision. Such contracts are also considered contracts "entered into with the Federal Government" within the meaning of section 2(b) of the Act. The legislative history indicates no intent to distinguish District of Columbia contracts from the other contracts made subject to the Act, and traditionally, under other statutes, District Government contracts have been made subject to the same labor standards provisions as contracts of other agencies and instrumentalities of the United States.

Covered Contracts Generally

§ 4.110 What contracts are covered.

The Act covers service contracts of the Federal agencies described in §§ 4.107-4.108. Except as otherwise specifically provided (see §§ 4.115 et seq.), all such contracts, the principal purpose of which is to furnish services in the United States through the use of service employees, are subject to its terms. This is true of contracts entered into by such agencies with States or their political subdivisions, as well as such contracts entered into with private employers; however, contracts between a Federal or District of Columbia agency and another such agency are not within the purview of the Act. It makes no difference in the coverage of a contract whether the contract services are procured through negotiation or through advertising for bids. Also, the mere fact that an agreement is not reduced to writing does not mean that the contract is not within the coverage of the Act. The amount of the contract is not determinative of the Act's coverage, although the requirements are different for contracts in excess of $2,500 and for contracts of a lesser amount. The Act is applicable to the contract if the principal purpose of the contract is to furnish services, if such services are to be furnished in the United States, and if service employees will be used in providing such services. These elements of coverage will be discussed separately in the following sections.

§ 4.111 Contracts "to furnish services".

(a) *"Principal purpose" as criterion.* Under its terms, the Act applies to a "contract (and any bid specification therefor) * * * the principal purpose of which is to furnish services * * *" If the principal purpose is to provide something other than services of the character contemplated by the Act and any such services which may be performed are only incidental to the performance of a contract for another purpose, the Act does not apply. However, as will be seen by examining the illustrative examples of covered contracts in §§ 4.130 et seq., no hard and fast rule can be laid down as to the precise meaning of the term "principal purpose." Whether the principal purpose of a particular contract is the furnishing of services through the use of service employees is largely a question to be determined on the basis of all the facts in each particular case. Even where tangible items of substantial value are important elements of the subject matter of the contract, the facts may show that they are of secondary import to the furnishing of services in the particular case.

(b) *Determining whether a contract is for "services", generally.* Except indirectly through the definition of "service employee" the Act does not define, or limit, the types of "services" which may be contracted for under a contract "the principal purpose of which is to furnish services". As stated in the congressional committee reports on the legislation, the types of service contracts covered by its provisions are varied. Among the examples cited are contracts for laundry and dry cleaning, for transportation of the mail, for custodial, janitorial, or guard service, for packing and crating, for food service, and for miscellaneous housekeeping services. Covered contracts for services would also include those for other types of services which may be performed through the use of the various classes of service employees included in the definition in section 8(b) of the Act (see § 4.113). Examples of some such contracts are set forth in §§ 4.130 et seq. In determining questions of contract coverage, due regard must be given to the apparent legislative intent to include generally as contracts for "services" those contracts which have as their principal purpose the procurement of something other than the construction activity described in the Davis-Bacon Act or the materials, supplies, articles, and equipment described in the Walsh-Healey Act. The Committee reports in both House and Senate, and statements made on the floor of the House, took note of the labor standards protections afforded by these two Acts to employees engaged in the performance of construction and supply contracts and observed: "The service contract is now the only remaining category of Federal contracts to which no labor standards protections apply" (H. Rept. 948, p. 1; see also S. Rept. 798, p. 1; daily Congressional Record Sept. 20, 1965, p. 23497). A similar understanding of contracts principally for "services" as embracing contracts other than those for construction or supplies is reflected in the statement of President Johnson upon signing the Act (1 Weekly Compilation of Presidential Documents, p. 428).

§ 4.112 Contracts to furnish services "in the United States."

(a) The Act covers contract services furnished "in the United States". The geographical area included in the "United States" is defined in section 8(d) as "any State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Outer Continental Shelf lands as defined in the Outer Continental Shelf Lands Act, American Samoa, Guam, Wake Islands, Eniwetok Atoll, Kwajalein Atoll, Johnston Island." The definition expressly excludes any other territory under the jurisdiction of the United States (e.g. the Canal Zone) and any United States base or possession within a foreign country. Services to be performed exclusively on a vessel operating in international waters outside the geographic areas named in section 8(d) would not be services furnished "in the United States" within the meaning of the Act.

(b) A service contract to be performed in its entirety outside the geographic limits of the United States as thus defined is not covered and is not subject to the labor standards of the Act. See § 4.6(c)(8). However, if a service contract is to be performed in part within and in part without these geographic limits, the stipulations required by § 4.6 or CFR 4.7, as appropriate, must be included in the invitation for bids or negotiation documents and in the contract, and the labor standards must be observed with respect to that part of the contract services that is performed within these geographic limits. In such a case the requirements of the Act and of the contract clauses will not be applicable to the services furnished outside the United States.

§ 4.113 Contracts to furnish services "through the use of service employees".

(a) *Use of "service employees" in contract performance.* (1) As indicated in § 4.110, the Act covers service contracts in which "service employees" will be used in performing the services which it is the purpose of the contract to procure. A service contract otherwise subject to the Act ordinarily will meet this condition if any of the services which it is the principal purpose of the contract to obtain will be furnished through the use of any service employee or employees. Even where it is contemplated that the services (of the kind performed by service employees) will be performed individually by the contractor himself, the contract cannot be considered outside the reach of the Act unless it is known in advance that the contractor will in no event use any service employee during the term of the contract in furnishing the services called for. If the contracting officer knows when advertising for bids or concluding negotiations that no such employee will be used by the contractor in any event in providing the contract services, the Act will not be deemed applicable to the contract and the contract clauses required by § 4.6 or § 4.7 may be omitted. However, in all other cases such clauses must be included in the contract documents, for application in the event service employees are used in furnishing the services. The fact that the required services will be performed by municipal employees or employees of a State would not remove the contract from the purview of the Act, as this Act does not contain any exemption for contracts performed by such employees. Also, where the services the Government wants under the contract are principally of a type that will require the use of service employees as defined in section 8(b) of the Act, including supervisory personnel in positions "having trade, craft, or laboring experience as the paramount requirement", the contract is not taken out of the purview of the Act by the fact that the manner in which the services of such employees are performed will be subject to the continuing overall supervision of professional personnel to whose services the Act would not be considered to apply.

(2) The coverage of the Act does not extend, however, to contracts which have as their principal purpose the procurement of a type of service in the furnishing of which no service employees will be used. A contract for medical services is an example of such a contract. So are other contracts under which the desired services called for by the Government are to be performed by bona fide executive, administrative, or professional personnel as defined in Part 541 of this title (see paragraph (b) of this section). If the use of service employees will not be involved in providing the type of service specified by the Government, the contract is not subject to the Act even though there is some incidental employment by the contractor or a subcontractor of service employees to do work not specifically called for by the contract.

(b) *"Service employees" defined.* In determining whether or not any of the contract services will be performed by service employees, the definition of "service employee" in section 8(b) of the Act is controlling. It provides:

> The term "service employee" means guards, watchmen, and any person engaged in a recognized trade or craft, or other skilled mechanical craft, or in unskilled, semiskilled, or skilled manual labor occupations; and any other employee including a foreman or supervisor in a position having trade, craft, or laboring experience as the paramount requirement; and shall include all such persons regardless of any contractual relationship that may be alleged to exist between a contractor or subcontractor and such persons.

It will be noted that the definition expressly includes certain supervisory employees. However, it is not deemed to include those employees who are employed in a bona fide executive, administrative, or professional capacity as defined in Part 541 of this title. The breadth of the definition is indicated by the fact that much of its language is identical with that in the Classification Act Amendments of 1954 (5 U.S.C. 1083(7)) defining the so-called "blue collar workers" or "wage board employees" in the Federal service. The legislative history indicates that such employees are the "counterpart" in Federal service of the contractors' employees to whom the Act was intended to extend. (H. Rept. No. 948, 89th Cong., 1st sess. p. 2.) The definition therefore includes as service employees those classes of employees described in some detail in the Handbook of Blue Collar Occupational Families and Series issued by the Civil Service Commission (the latest being October 1961). Some of the specific types of service employees who may be employed on service contracts are noted in subsequent sections which discuss the application of the Act to employees.

§ 4.114 Subcontracts.

(a) *Requirements applicable to subcontractors.* The Act's provisions apply to the performance not only of the contracts entered into with the United States or the District of Columbia which they cover but also to the performance of any subcontract thereunder. The Act and the regulations (§§ 4.6–4.7) require the Government prime contractor to agree that the required labor standards will be observed by his subcontractors as well as by himself, that the prescribed contract clauses relating thereto will be inserted in all subcontracts, and that appropriate sanctions provided under the Act may be invoked against him in the event of any failure to comply. Subcontractors responsible for violation of the contract stipulations are also liable for underpayments of wages which the stipulations require to be paid and are subject to the enforcement provisions of the Act. The payment by subcontractors to their employees, performing work on covered contracts with the Federal Government, of less than the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act (29 U.S.C. 206(a)(1)) is expressly prohibited, except as otherwise provided in the case of certain linen supply subcontractors under section 6(c)(2) of such Act.

(b) *"Contractor" as including "subcontractor."* Except where otherwise noted or where the term "Government prime contractor" is used, the term "contractor" as used in this Part 4 shall be deemed to include a subcontractor. The term "contractor" as used in the contract clauses required by Subpart A in any subcontract under a covered contract shall be deemed to refer to the subcontractor, or, if in a subcontract entered into by such a subcontractor, shall be deemed to refer to the lower level subcontractor.

Specific Exclusions

§ 4.115 Exemptions and exceptions generally.

The Act, in section 7, specifically excludes from its coverage certain contracts and work which might otherwise come within its terms as procurements the principal purpose of which is to furnish services through the use of service employees. In addition, as noted in § 4.104 provision is made in section 4 of the Act for administrative action by the Secretary of Labor providing reasonable limitations and allowing reasonable variations, tolerances, and exemptions to and from provisions of the Act in accordance with standards set forth in the section. These provisions of the Act apply as explained in the following discussion. The limitations stated in this subpart in defining the scope of the statutory exemptions are reasonable limitations that have been found necessary and proper in the public interest in accordance with the provisions of section (4)b of the Act.

§ 4.116 Contracts for construction activity.

(a) *General scope of exemption.* The Act, in paragraph (1) of section 7, exempts from its provisions "any contract of the United States or District of Columbia for construction, alteration and/or repair, including painting and decorating of public buildings or public works." This language corresponds to the language used in the Davis-Bacon Act to describe its coverage (40 U.S.C. 270a).

The legislative history of the McNamara-O'Hara Service Contract Act indicates that the purpose of the provision is to avoid overlapping coverage of the two acts by excluding from the application of the McNamara-O'Hara Act those contracts (and any bid specification therefor) to which the Davis-Bacon Act is applicable and in the performance of which the labor standards of that Act are intended to govern the compensation payable to the employees of contractors and subcontractors on the work. (See H. Rept. 198, pp. 2, 5, and H. Rept. 948, pp. 1, 5, also Hearing, Special Subcommittee on Labor, House Committee on Education and Labor, p. 9 (89th Cong., 1st sess.).) The intent of section 7(1) is simply to exclude from the provisions of the Act those construction contracts which involve the employment of persons whose wage rates and fringe benefits are determinable under the Davis-Bacon Act.

(b) *Contracts not within exemption.* (1) Section 7(1) does not exempt contracts which, for purposes of the Davis-Bacon Act, are not considered to be of the character described by the corresponding language in that Act, and to which the provisions of such Act are therefore not applied. Such contracts are accordingly subject to the McNamara-O'Hara Act where their principal purpose is to furnish services in the United States through the use of service employees. For example, a contract for clearing timber or brush from land or for the demolition or dismantling of buildings or other structures located thereon may be a contract for construction activity subject to the Davis-Bacon Act where it appears that the clearing of the site is to be followed by the construction of a public building or public work at the same location. If, however, no further construction activity at the site is contemplated the Davis-Bacon Act may be considered inapplicable to such clearing, demolition, or dismantling work. In such event, the exemption in section 7(1) of the McNamara-O'Hara Act has no application and the contract will be subject to the Act in accordance with its general coverage provisions.

(2) Also, where the principal purpose of a contract is to furnish services in the United States through the use of service employees whose wage rates and fringe benefits are not determinable under the Davis-Bacon Act, the fact that the contract may, by a literal reading of section 7(1), be considered to come within its exemptive language does not justify an application of the exemption where this would result in no wage determinations for these employees under either Act. This is found to be a reasonable limitation on the exemption, consistent with the rule of narrow construction of exemptions from remedial statutes and with the legislative history of this Act, which is necessary and proper in the public interest, in accordance with the provisions of section 4(b) of the Act.

(3) It should be noted also that contracts in the amount of $2,000 or less and contracts to be performed in geographic areas outside the boundaries of the 50 States and the District of Columbia are not subject to the Davis-Bacon Act. Such a contract is within the general coverage provisions of the McNamara-O'Hara Act, however, if it is to be performed within the "United States" as defined in such Act and if its principal purpose is to furnish services through the use of service employees. If the contract meets these tests, it will not be deemed exempt under section 7(1) of the Act even though it calls for construction activity, since there is no suggestion in the legislative history that the Congress intended this exclusion to apply to contracts not subject to the Davis-Bacon Act or to leave employees performing such contracts outside the protection of either Act. This is found to be a reasonable limitation of the exemption which is necessary and proper in the public interest in accordance with the provisions of section 4(b) of the Act.

(c) *Partially exempt contracts.* Instances may arise in which, for the convenience of the Government, instead of awarding separate contracts for construction work subject to the Davis-Bacon Act and for services of a different type to be performed by service employees, the contracting officer may include separate specifications for each type of work in a single contract calling for the performance of both types of work. For example, a contracting agency may invite bids for the installation of a plumbing system in a public building and for the maintenance of the system for one year, under separate bid specifications. In such a case, the exemption provided by section 7(1) will be deemed applicable only to that portion of the contract which calls for construction activity subject to the Davis-Bacon Act. The contract documents are required to contain the clauses prescribed by § 4.6 for application to the contract obligation to furnish services through the use of service employees, and the provisions of the McNamara-O'Hara Act will apply to that portion of the contract. This is a reasonable limitation of the application of the exemption found to be necessary and proper in the public interest in accordance with the provisions of section 4(b) of the Act.

§ 4.117 Contracts for carriage subject to published tariff rates.

The Act, in paragraph (3) of section 7, exempts from its provisions "any contract for the carriage of freight or personnel by vessel, airplane, bus, truck, express, railway line or oil or gas pipeline where published tariff rates are in effect". In order for this exemption to be applicable, the contract must be for such carriage by a common carrier described by the terms used. It does not, for example, apply to contracts for taxicab or ambulance service, because taxicab and ambulance companies are not among the common carriers specified by the statute. Also, a contract for transportation service does not come within this exemption unless the service contracted for is actually governed by published tariff rates in effect pursuant to State or Federal law for such carriage. Rates governed by section 22 of Part I of the Interstate Commerce Act are not considered to be published tariff rates; accordingly, a contract for transportation of personnel or freight performed in accordance with a reduced rate under such section is not within the exemption. The contracts excluded from the reach of the Act by this exemption are typically those where there is on file with the Interstate Commerce Commission or an appropriate State or local regulatory body a tariff rate applicable to the transportation involved, and the transportation contract between the Government and the carrier is evidenced by a bill of lading citing the published tariff rate. It should be noted further that only such contracts for the carriage of "freight or personnel" are exempt. This exemption thus does not exclude any contracts for the transportation of mail from the application of the Act, because the term "freight" does not include the mail. (For an administrative exemption of certain contracts with common carriers for carriage of mail, see § 4.6(c)(9).)

§ 4.118 Contracts for services of communications companies.

The Act, in paragraph (4) of section 7, exempts from its provisions "any contract for the furnishing of services by radio, telephone, telegraph, or cable companies, subject to the Communications Act of 1934." This exemption is applicable to contracts with such companies for communication services regulated under the Communications Act. It does not exempt from the Act any contracts with such companies to furnish any other kinds of services through the use of service employees.

§ 4.119 Contracts for public utility services.

The Act, in paragraph (5) of section 7, exempts from its provisions "any contract for public utility services, including electric light and power, water, steam, and gas." This exemption is applicable to contracts for such services with companies whose rates therefor are regulated under State, local, or Federal law governing operations of public utility enterprises. Contracts entered into with public utility companies to furnish services through the use of service employees, other than those subject to such rate regulation, are not exempt from the Act. Among the contracts included in the exemption would be those between Federal electric power marketing agencies and investor-owned electric utilities, Rural Electrification Administration cooperatives, municipalities and State agencies engaged in the transmission and sale of electric power and energy. (See H. Rept. No. 948, 89th Cong., 1st sess., p. 4.)

§ 4.120 Contracts for operation of postal contract stations.

The Act, in paragraph (7) of section 7, exempts from its provisions "any contract with the Post Office Department, the principal purpose of which is the operation of postal contract stations." The exemption is limited to postal service contracts having the operation of such stations as their principal purpose. A provision of the legislation which would also have exempted contracts with the Post Office Department having as their principal purpose the transportation, handling, or delivery of the mails was eliminated from the bill during its consideration by the House Committee on Education and Labor (H. Rept. 948, p. 1, 89th Cong., 1st sess.).

§ 4.121 Contracts for individual services.

The Act, in paragraph (6) of section 7, exempts from its provisions "any employment contract providing for direct services to a Federal agency by an individual or individuals." This exemption, which applies only to an "employment contract" for "direct services," makes it clear that the Act's application to Federal contracts for services is intended to be limited to service contracts entered into with independent contractors. If a contract to furnish services (to be performed by a service employee as defined in the Act) provides that they will be furnished directly to the Federal agency by the individual under conditions or circumstances which will make him an employee of the agency in providing the contract service, the exemption applies and the contract will not be subject to the Act's provisions. The exemption does not exclude from the Act any contract for services of the kind performed by service employees which is entered into with an independent contractor whose individual services will be used in performing the contract, but as noted earlier in § 4.113, such a contract would be outside the general coverage of the Act if only the contractor's individual services would be furnished and no service employee would in any event be used in its performance.

§ 4.122 Work subject to requirements of Walsh-Healey Act.

The Act, in paragraph (2) of section 7, exempts from its provisions "any work required to be done in accordance with the provisions of the Walsh-Healey Public Contracts Act (49 Stat. 2036)." It will be noted that this like the similar provision in the Contract Work Hours Standards Act (40 U.S.C. 329(b)), is an exemption for "work" rather than for "contracts" subject to the Walsh-Healey Act. The purpose of the exemption was to eliminate possible overlapping of the differing labor standards of the two Acts, which otherwise might be applied to employees performing work on a contract covered by the McNamara-O'Hara Act if such contract and their work under it should also be deemed to be covered by the Walsh-Healey Act. The Walsh-Healey Act applies to contracts in excess of $10,000 for the manufacture or furnishing of materials, supplies, articles or equipment. There is no overlap of coverage, therefore, in the case of contracts in amounts not in excess of $10,000. Nor is there an overlap if the principal purpose of the contract is the manufacture or furnishing of such materials etc., rather than the furnishing of services of the character referred to in the McNamara-O'Hara Act, for such a contract is not within the general coverage of the latter Act. In such cases the exemption in section 7(2) is not pertinent. It is pertinent, however, in the case of contracts exceeding $10,000 which are covered by the McNamara-O'Hara Act, because they have as their principal purpose the furnishing of services through the use of service employees, and are also covered by the Walsh-Healey Act, because it applies to contracts in the required amount, irrespective of their principal purpose, if the furnishing of materials, supplies, articles, or equipment in a substantial amount is called for by the contract or is a significant or independent purpose of the contract. Under such contracts, the "work required to be done in accordance with the provisions of the Walsh-Healey Public Contracts Act," which is exempted by section 7(2), includes only the work of those employees who are "engaged in or connected with the manufacture, fabrication, assembling, handling, supervision, or shipment of materials, supplies, articles, or equipment required under the contract" (41 CFR 50-201.103). Service employees engaged in such work on a contract covered by both Acts are thus exempt under section 7(2) from the provisions of the McNamara-O'Hara Act and subject only to the provisions of the Walsh-Healey Act, while other employees such as guards, watchmen, and employees performing only general office or clerical work are not covered by the Walsh-Healey Act or within this exemption, and are covered by the provisions of the McNamara-O'Hara Act when performing work on a contract subject to its terms.

§ 4.123 Administrative limitations, variations, tolerances, and exemptions.

(a) *Authority of the Secretary.* The Act, in section 4(b) authorizes the Secretary to "provide such reasonable limitations" and to "make such rules and regulations allowing reasonable variations, tolerances, and exemptions to and from any or all provisions of this Act as he may find necessary and proper in the public interest or to avoid serious impairment of the conduct of Government business." This authority is similar to that vested in the Secretary under section 6 of the Walsh-Healey Public Contracts Act (41 U.S.C. 40) and under section 105 of the Contract Work Hours Standards Act (40 U.S.C. 331).

(b) *Administrative action under section 4(b) of the Act.* The authority conferred on the Secretary by section 4(b) of the Act will be exercised with due regard to the remedial purpose of the statute to protect prevailing labor standards and to avoid the undercutting of such standards which could result from the award of Government work to contractors who will not observe such standards, and whose saving in labor cost therefrom enables them to offer a lower price to the Government than can be offered by the fair employers who maintain the prevailing standards. Administrative action consistent with this statutory purpose may be taken under section 4(b) with or without a request therefor, when found necessary and proper in accordance with the statutory standards. No formal procedures have been prescribed for requesting such action. However, a request for exemption from the Act's provisions will be granted only upon a strong and affirmative showing that it is necessary and proper in the public interest or to avoid serious impairment of Government business. If the request for administrative action under section 4(b) is not made by the headquarters office of the contracting agency to which the contract services are to be provided, the views of such office on the matter should be obtained and submitted with the request or the contracting officer may forward such a request through channels to the agency headquarters for submission with the latter's views to the Administrator of the Wage and Hour and Public Contracts Divisions, Department of Labor.

(c) *Documentation of official action under section 4(b).* All papers and documents made a part of the official record of administrative action pursuant to section 4(b) of the Act are available for public inspection in accordance with the regulations in 29 CFR 2.6. Limitations, variations, tolerances and exemptions of general applicability and legal effect promulgated pursuant to such authority are published in the Federal Register and made a part of the rules incorporated in this Part 4. For convenience in use of the rules they are set forth in the sections of this part covering the subject matter to which they relate, rather than as a separate listing. (See, for example, the exemption provided in § 4.5(b) and the limitations set forth in §§ 4.115 et seq.) Any rules that are promulgated under section 4(b) of the Act relating to subject matter not dealt with elsewhere in this Part 4 will be set forth immediately following this paragraph.

Particular Applications of Contract Coverage Principles

§ 4.130 Types of covered service contracts illustrated.

The types of contracts, the principal purpose of which is to furnish services through the use of service employees, are too numerous and varied to permit an exhaustive listing. The following list is illustrative, however, of the types of services called for by such contracts that have been found to come within the coverage of the Act.

(a) Aerial spraying.
(b) Aerial reconnaissance for fire detection.
(c) Ambulance service.
(d) Cafeteria and food service.
(e) Chemical testing and analysis.
(f) Clothing alteration and repair.
(g) Custodial and janitorial services.
(h) Electronic equipment maintenance and operation.
(i) Flight training.
(j) Forest fire fighting.
(k) Geological field surveys.
(l) Grounds maintenance.
(m) Guard or watchman service.
(n) Landscaping (other than part of construction).

(o) Laundry and dry cleaning.
(p) Linen supply service.
(q) Lodging and meals.
(r) Mail hauling.
(s) Maintenance and repair of motor equipment.
(t) Maintenance and repair of office equipment.
(u) Miscellaneous housekeeping.
(v) Motor Pool operation.
(w) Packing and crating.
(x) Parking services.
(y) Snow removal.
(z) Stenographic reporting.
(aa) Support services at military installations.
(bb) Taxicab services.
(cc) Tire and tube repairs.
(dd) Transporting property or personnel (except as explained in § 4.117).
(ee) Trash and garbage removal.
(ff) Warehousing or storage.
(gg) Drafting and illustrating.
(hh) Mortuary services.

§ 4.131 Furnishing services involving more than use of labor.

(a) If the principal purpose of a contract is to furnish services in the performance of which service employees will be used, the Act will apply to the contract, in the absence of an exemption, even though the use of nonlabor items may be an important element in the furnishing of the services called for by its terms. The Act is concerned with protecting the labor standards of workers engaged in performing such contracts, and is applicable if the statutory coverage test is met, regardless of the proportion of the labor cost to the total cost of furnishing the contract services, the form in which the contract is drafted, or the necessity of providing tangible nonlabor items in performing the contract obligations. A procurement that requires tangible items to be supplied as a part of the service furnished is covered by the Act so long as the facts show that the contract is chiefly for services, and that the furnishing of tangible items is of secondary importance.

(b) Some examples of covered contracts illustrating these principles may be helpful. One such example is a contract for the maintenance and repair of typewriters. Such a contract may require the contractor to furnish typewriter parts, as the need arises, in performing the contract services. Since this does not change the principal purpose of the contract, which is to furnish the maintenance and repair services through the use of service employees, the contract remains subject to the Act.

The same is true of contracts for maintenance or repair of motor vehicles or other equipment. (As noted in § 4.122, if such contracts exceed $10,000 in amount, the Walsh-Healey Public Contracts Act may also apply to them, in which event the employees performing work required to be done in accordance with its provisions would be exempt from the application of the Service Contract Act.)

(c) Another example of the application of the above principle is a contract for the recurrent supply to a Government agency of freshly laundered items on a rental basis. It is plain from the legislative history that such a contract is typical of those intended to be covered by the Act. Although tangible items owned by the contractor are provided on a rental basis for the use of the Government, the service furnished by the contractor in making them available for such use when and where they are needed, through the use of service employees who launder and deliver them, is the principal purpose of the contract. Similarly, a contract in the form of rental of equipment with operators for the plowing and reseeding of a park area is a service contract. The Act applies to it because its principal purpose is the service of plowing and reseeding, which will be performed by service employees, although as a necessary incident the contractor is required to furnish equipment. For like reasons the contracts for aerial spraying and aerial reconnaissance listed in § 4.130 are covered, even though the use of airplanes, an expensive item of equipment, is essential in performing such services. Contracts under which the contractor agrees to provide the Government with vehicles or equipment on a rental basis with drivers or operators are similarly deemed contracts to furnish services, in the performance of which service employees will be used. (Such contracts are not considered contracts for furnishing equipment within the meaning of the Walsh-Healey Public Contracts Act.)

§ 4.132 Services and other items to be furnished under single contract.

If the principal purpose of a contract specification is to furnish services through the use of service employees within the meaning of the Act, the contract to furnish such services is not removed from the Act's coverage merely because, as a matter of convenience in procurement, it is combined in a single contract document with specifications for the procurement of different or unrelated items. For example, a contracting agency may invite bids for supplying a quantity of new typewriters and for the maintenance and repair of the typewriters already in use, under separate bid specifications. The principal purpose of the latter, but not the former, would be the furnishing of services through the use of service employees. A typewriter company might be the successful bidder on both items and the specifications for each might be included in a single contract for the convenience of the parties. In such a case, the contract obligation to furnish the maintenance and repair services would be subject to the provisions of the Act. The "principal purpose" test would be applicable to the specification for such services rather than to the combined contract. The Act would not apply in such case to the contract obligation to furnish new typewriters, although its performance would be subject to the provisions of the Walsh-Healey Public Contracts Act if the amount was in excess of $10,000.

§ 4.133 Government as beneficiary of contract services.

(a) *In general.* The Act does not say to whom the services under a covered contract must be furnished; so far as its language is concerned, it is enough if the contract is "entered into" by and with the Government and if its principal purpose is "to furnish services in the United States through the use of service employees." The legislative history indicates an intention to cover at least contracts for services of direct benefit to the Government, its property, or its civilian or military personnel for whose needs it is necessary or desirable for the Government to make provision for such services. Such contracts as those for furnishing food service and laundry and dry cleaning service for personnel at military installations, for example, were specifically referred to. Where the principal purpose of the Government contract is to provide these or other services to the Government or its personnel through the use of service employees, the contract is within the general coverage of the Act regardless of the source of the funds from which the contractor is paid for the service and irrespective of whether he performs the work in his own establishment, on a Government installation, or elsewhere. The fact that the contract permits him to provide the services directly to individual personnel as a concessionaire, rather than through the contracting agency, does not require a different conclusion.

(b) *Special situations.* It is not considered that the Act was intended to cover every contract, however, which is entered into with the Government by a contractor to furnish services, no matter how indirect or remote a benefit the Government may derive therefrom. If, for example, a contract with the Government grants the contractor the privilege of operating as a concessionaire in a Government park for the purpose of furnishing services to the public generally rather than to the Government or to personnel engaged in its business, the contract is not considered subject to the Act. Since the statute itself provides no clear line of demarcation, questions of contract coverage where doubt arises because of remoteness of benefit to the Government from the services to be furnished should be referred to the Administrator of the Wage and Hour and Public Contracts Divisions for resolution.

§ 4.134 Contracts outside the Act's coverage.

(a) Contracts entered into by agencies other than those of the Federal Government or the District of Columbia as described in §§ 4.107–4.108 of this subpart are not within the purview of the Act. Thus, the Act does not cover service contracts entered into with any agencies of Puerto Rico, the Virgin Islands, American Samoa, or Guam acting in behalf of their respective local governments. Similarly, it does not cover service contracts entered into by agencies of States or local public bodies, not acting as agents or for or on behalf of the United States or the District of Columbia, even though Federal financial assistance may be provided for such contracts under Federal law of the terms and conditions specified in Federal law may govern the award and operation of the contract.

(b) Further, as already noted in §§ 4.111–4.113, the Act does not apply to Government contracts which do not have as their principal purpose the furnishing of services, or which call for no services to be furnished within the United States or through the use of service employees as those terms are defined in the Act. Clearly outside the Act's coverage for these reasons are such contracts as those for the purchase of tangible products which the Government needs (e.g. fuel, vehicles, office equipment, and supplies), for the logistic support of an air base in a foreign country, or for the services of a lawyer to examine the title to land. Similarly, where the Government contracts for a lease of building space for Government occupancy and as an incidental part of the lease agreement the building owner agrees to furnish janitorial and other building services through the use of service employees, the leasing of the space rather than the furnishing of the building services is the principal purpose of the contract, and the Act does not apply. Another type of contract which is outside the coverage of the Act because it is not for the principal purpose of furnishing services may be illustrated by a contract for the rental of parking space under which the Government agency is simply given a lease or license to use the contractor's real property. Such a contract is to be distinguished from contracts for the live storage of vehicles which are delivered into the possession or custody of the contractor, who will provide the required services including the parking or retrieval of the vehicles.

(c) There are a number of types of contracts which, while outside the Act's coverage in the usual case, may be subject to its provisions under the conditions and circumstances of a particular procurement, because these may be such as to require a different view of the principal purpose of the contract. Thus, the ordinary contract for the recapping of tires would have as its principal purpose the manufacture and furnishing of rebuilt tires for the Government rather than the furnishing of services through the use of service employees, and thus would be outside the Act's coverage. Similarly, contracts calling for printing, reproduction, and duplicating ordinarily would appear to have as their principal purpose the furnishing in quantity of printed, reproduced, or duplicated written materials rather than the furnishing of the reproduction services through the use of service employees. However, in a particular case, the terms, conditions, and circumstances of the procurement would be such that the facts would show its purpose to be chiefly the obtaining of services (e.g. repair services, typesetting, photostating, editing, etc.), and where such services would require the use of service employees the contract would be subject to the Act unless excluded therefrom for some other reason.

(d) A further category of contracts outside the coverage of the Act includes those service contracts which would otherwise be covered but to which the Act does not apply because they were entered into pursuant to negotiations concluded or invitations for bids issued before January 30, 1966 (see § 4.102) and have remained in effect without change since that date.

DETERMINING AMOUNT OF CONTRACT

§ 4.140 Significance of contract amount.

As set forth in § 4.109 and in the requirements of §§ 4.6–4.7, the obligations of a contractor with respect to labor standards differ in the case of a covered and nonexempt contract, depending on whether the contract is or is not in excess of $2,500. Rules for resolving questions that may arise as to whether a contract is or is not in excess of this figure are set forth in the following sections.

§ 4.141 General criteria for measuring amount.

(a) In general, the contract amount is measured by the consideration agreed to be paid, whether in money or other valuable consideration, in return for the obligations assumed under the contract. Thus, even though a contractor, such as a wrecker entering into a contract with the Government to raze a building on a site which will remain vacant, may not be entitled to receive any money from the Government for such work under his contract or may even agree to pay the Government in return for the right to dispose of the salvaged materials, the contract will be deemed one in excess of $2,500 if the value of the property obtained by the contractor, less anything he might pay the Government, is in excess of such amount.

(b) All bids from the same person on the same invitation for bids will constitute a single offer, and the total award to such person will determine the amount involved for purposes of the Act. Where the procurement is made without formal advertising, in arriving at the aggregate amount involved, there must be included all property and services which would properly be grouped together in a single transaction and which would be included in a single advertisement for bids if the procurement were being effected by formal advertising. However, where an invitation is for services in an amount in excess of $2,500 and bidders are permitted to bid on a portion of the services not amounting to more than $2,500, the amounts of the contracts awarded separately to individual and unrelated bidders will be measured by the portions of the services covered by their respective contracts.

(c) Where a contract is issued in an amount in excess of $2,500 this amount will govern for purposes of application of the Act even though penalty deductions, deductions for prompt payment, and similar deductions may reduce the amount actually expended by the Government to $2,500 or less.

§ 4.142 Contracts in an indefinite amount.

(a) Every contract subject to this Act (and any bid specification therefor) which is indefinite in amount and is not otherwise exempt from the requirements of section 2(a) of the Act and § 4.6 is required to contain the clauses prescribed in § 4.6 for contracts in excess of $2,500, unless the contracting officer has definite knowledge in advance that the contract will not exceed $2,500 in any event.

(b) Where contracts or agreements between a Government agency and prospective purveyors of services are negotiated, which provide terms and conditions under which services will be furnished through the use of service employees in response to individual purchase orders or calls, if any, which may be issued by the agency during the life of the agreement, these agreements would ordinarily constitute contracts within the intendment of the Act under principles judicially established in United Biscuit Co. v. Wirtz, 17 WH Cases 146 (C.A.D.C.), a case arising under the Walsh-Healey Public Contracts Act. Such a contract, which may be in the nature of a bilateral option contract and not obligate the Government to order any services or the contractor to furnish any, nevertheless governs any procurement of services that may be made through purchase orders or calls issued under its terms. Since the amount of the contract is indefinite, it is subject to the rule stated in paragraph (a) of this section. The amount of the contract is not determined by the amount of any individual call or purchase order.

CHANGES IN CONTRACT COVERAGE

§ 4.143 Effects of changes or extensions of contracts, generally.

Sometimes an existing service contract is modified, amended, or extended in such a manner or at such a time that, if originally entered into in its changed form at such time, the application of provisions of the Act to it would be different at such time from the application of the Act's provisions to the original contract at the time it was entered into. One example is a contract to which the Act did not originally apply because invitations for bids thereon were issued prior to January 20, 1966, which is subsequently extended by agreement of the parties. Another example is a contract which, when originally executed, was exempted from the provisions of section 2(a) of the Act and § 4.6 requiring specification in the contract of predetermined monetary wage rates and fringe benefits, because no wage determination had been made prior to the invitation for bids; and then, at a later time, contract amendments relative to the scope of the work are incorporated by agreement of the parties after prevailing wage and fringe benefit determinations have been made for classes of service employees in the locality which will be engaged in the contract work. The general rule with

respect to such contracts is, that whenever changes are made by the parties in the terms of the contract, the provisions of the Act and the regulations thereunder will apply to the changed contract in the same manner and to the same extent as they would to a wholly new contract in the same terms if such a contract were entered into at the time of the change. Under this rule, the contract in the first example would become subject to the Act and regulations when the changes were effected in it by the parties, although it was not originally covered. Similarly, the specified monetary wages and fringe benefits would have to be incorporated in the amended contract in the second example, although not required in the contract originally entered into. Whenever an existing service contract is changed by modification or amendment to such a degree as to require agreement of both parties, the changed contract will be deemed a contract entered into by the contracting agency at such time for purposes of the Act. On like principle, such a contract will be deemed entered into when the term of an existing contract is extended by mutual consent of the parties or pursuant to an option clause therein so that the contractor furnishes services over an extended period of time, rather than being granted extra time to fulfill his original commitment.

§ 4.144 Contract modifications affecting amount.

Pursuant to the rule set forth in § 4.143, where a contract which was originally issued in an amount not in excess of $2,500 is later modified by mutual consent so that its amount may exceed that figure, all the provisions of section 2(a) of the Act and the regulations thereunder are applicable from the date of modification to the date of contract completion. In the event of such modification the contracting officer will immediately insert the required contract clauses into the contract and notify the Department of Labor of such action. In the event that a contract for services subject to the Act in excess of $2,500 is modified by mutual agreement so that it cannot exceed $2,500, compliance with the provisions of section 2(a) of the Act and the contract clauses required thereunder ceases to be an obligation of the contractor when such modification becomes effective.

§ 4.145 Extended term contracts.

Sometimes services contracts are entered into for a term of years; however, their continuation in effect is subject to the appropriation by Congress of funds for each new fiscal year. In such event, for purposes of this Act, a contract shall be deemed entered into at the beginning of each new fiscal year during which the terms of the original contract are made effective by an appropriation for the purpose. In other cases a service contract, entered into for a specified term by a Government agency, may contain a provision such as an option clause under which the agency may unilaterally extend the contract for a period of the same length or other stipulated period. If a new appropriation is required to finance such extension, the rule just stated will apply. In any event, however, since the exercise of the option results in the rendition of services for a new or different period not included in the term for which the contractor is obligated to furnish services or for which the Government is obligated to pay under the original contract in the absence of such action to extend it, the contract for the additional period, is, within the intendment of the Act, in the same position as a wholly new contract with respect to application of the Act's provisions and the regulations thereunder.

PERIOD OF COVERAGE

§ 4.146 Contract obligations after award, generally.

A contractor's obligation to observe the provisions of the Act arises on the date he is informed that he has received the award of the contract, not necessarily the date of formal execution. However, he is required to comply with the provisions of the Act and regulations thereunder only while his employees are performing on the contract, provided his records make clear the period of such performance.

EMPLOYEES COVERED BY THE ACT

§ 4.150 Employee coverage generally.

The Act, in section 2(b), makes it clear that its provisions apply generally to all employees engaged in performing work on a covered contract entered into by the contractor with the Federal Government, regardless of whether they are his employees or those of any subcontractor under such contract. All employees who, on or after the date of award, are engaged in working on or in connection with the contract, either in performing the specific services called for by its terms or in performing other duties necessary to the performance of the contract, are thus subject to the Act unless a specific exemption (see §§ 4.115 et seq.) is applicable. All such employees must be paid wages at a rate not less than the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act (29 U.S.C. 206(a)(1)), as amended, unless the special exception provided in section 6(e)(2) of such Act for certain linen supply contract services is applicable (see § 4.160). Payment of a higher minimum monetary wage and the furnishing of fringe benefits may be required under the contract, pursuant to the provisions of section 2(a)(1), (2), of the Act.

§ 4.151 Employees covered by provisions of section 2(a).

The provisions of section 2(a) of the Act prescribe labor standards requirements applicable, except as otherwise specifically provided, to every contract in excess of $2,500 which is entered into by the United States or the District of Columbia for the principal purpose of furnishing services in the United States through the use of service employees. These provisions apply to all service employees engaged in the performance of such a contract or any subcontract thereunder. The Act, in section 8(b) defines the term "service employee". The general scope of the definition is considered in § 4.113(b) of this subpart.

§ 4.153 Employees subject to prevailing compensation provisions of section 2(a)(1) and (2).

Under section 2(a)(1) and (2) of the Act minimum monetary wages and fringe benefits to be paid or furnished the various classes of service employees performing such contract work are determined by the Secretary of Labor or his authorized representative in accordance with prevailing rates and fringe benefits for such employees in the locality and are required to be specified in such contracts and subcontracts thereunder. All service employees of the classes who actually perform the specific services called for by the contract (e.g. janitors performing on a contract for office cleaning; stenographers performing on a contract for stenographic reporting) are covered by the provisions specifying such minimum monetary wages and fringe benefits for such classes of service employees.

§ 4.153 Inapplicability of prevailing compensation provisions to some employees.

There may be employees, used by a contractor or subcontractor in performing a service contract in excess of $2,500 which is subject to the Act, whose services, although necessary to the performance of the contract, are not subject to minimum monetary wage or fringe benefit provisions contained in the contract pursuant to section 2(a). This may occur either because such employees do not come within the classes of service employees, directly engaged in performing the specified contract services, which are included in the Secretary's determinations of monetary wages and fringe benefits and for which such compensation is specified in the contract (an example might be a laundry contractor's billing clerk performing billing work with respect to the items laundered); or because the contract itself is exempted from the predetermined wage and fringe benefit requirements of section 2(a) (under the provisions of § 4.5) as a contract calling for services of classes of service employees with respect to whom there is no currently applicable wage or fringe benefit determination for the locality. In all such situations the employees, who are engaged in performing work on the contract but for whom no monetary minimum wage or fringe benefits are specified by its provisions, are nevertheless subject to the minimum wage provision of section 2(b) (see § 4.150) requiring payment of not less than the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act to all employees working on a covered contract, unless specifically exempt. The same is true in situations where minimum monetary wages and fringe benefits have not been specified in the contract for a particular class or classes of service employees because the wage and fringe benefit determinations applicable to the locality have been made only for other classes of service employees who will perform the contract work, and not for these. However, although wages lower than the specified Fair Labor Standards Act minimum may not be paid to such employees in classes omitted from those for which monetary wages or fringe benefits were predetermined and specified in the contract, the employer will be required to pay any higher monetary wages together with fringe benefits which may be specified for them pursuant to agreement of the interested parties as provided in § 4.6(b)(1).

§ 4.154 Employees covered by sections 2(a)(3) and (4).

The safety and health standards of section 2(a)(3) (see § 4.186) and the notice requirements of section 2(a)(4) of the Act (see § 4.183) are applicable, in the absence of a specific exemption, to every service employee engaged by a contractor or subcontractor to furnish services under a contract subject to section 2(a) of the Act.

§ 4.155 Employee coverage does not depend on form of employment contract.

The Act, in section 8(b), makes it plain that the coverage of service employees depends on whether their work for the contractor or subcontractor on a covered contract is that of a service employee as defined in section 8(b) and not on any contractual relationship that may be alleged to exist between the contractor or subcontractor and such persons.

§ 4.156 Employees in bona fide executive, administrative, or professional capacity.

As stated in § 4.113(b), the service employees covered by the Act are not deemed to include employees employed in a bona fide executive, administrative, or professional capacity as defined in 29 CFR Part 541. This has been found to be a reasonable limitation on coverage which is necessary and proper in the public interest (Act, sec. 4(b)). Employees within the definition of service employee who are employed in a professional, administrative, or supervisory capacity are not excluded from coverage, however, even though they are highly paid, if they fail to meet the tests set forth in 29 CFR Part 541. Thus, such employees as laboratory technicians, draftsmen, and air ambulance pilots, though they require a high level of skill to perform their duties and may meet the salary requirements of the regulations in Part 541 of this title, are ordinarily covered by the Act's provisions because they do not typically meet the other requirements of those regulations.

COMPENSATION STANDARDS

§ 4.159 General minimum wage.

The Act, in section 2(b)(1), provides generally that no contractor or subcontractor under any Federal contract subject to the Act shall pay any of his employees engaged in performing work on such a contract less than the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act. Section 2(a)(1) provides that the minimum monetary wage specified in any such contract exceeding $2,500 shall in no case be lower than this Fair Labor Standards Act minimum wage. Section 2(b)(1) is a statutory provision which applies to the contractor or subcontractor without regard to whether it is incorporated in the contract; however, §§ 4.6–4.7 provide for inclusion of its requirements in covered contracts and subcontracts. Because the statutory requirement specifies no fixed monetary wage rate and refers only to the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act, and because its application does not depend on provisions of the contract, any increase in such Fair Labor Standards Act minimum wage during the life of the contract is, on its effective date, also effective to increase the minimum wage payable under section 2(b)(1) to employees engaged in performing work on the contract. The minimum wage under section 6(a)(1) of the Fair Labor Standards Act was increased from $1.25 to $1.40 an hour effective February 1, 1967; such minimum wage effective February 1, 1968, is $1.60 an hour. As explained in § 4.160(c), in certain establishments providing linen supply services under Government contracts entered into on or after February 1, 1967, section 6(e)(2) of the Fair Labor Standards Act has the effect of modifying the requirement of section 2(b) of the Service Contract Act, as discussed above.

§ 4.160 Effect of section 6(e) of the Fair Labor Standards Act.

(a) *General.* Contractors and subcontractors performing work on contracts subject to the Service Contract Act are, in general, required not only to comply, in paying wages for such work, with the general minimum wage standard provided in section 6(a)(1) of the Fair Labor Standards Act as explained in § 4.159, above, but also to pay those of their employees who are not performing work on or in connection with such contracts in accordance with the compensation requirements of section 6(e) of the Fair Labor Standards Act, which applies to every employer providing any contract services under a contract entered into on or after February 1, 1967 (H. Rept. No. 2004, 89th Cong., 2d sess., p. 20) with the United States, or any subcontract thereunder. In the case of employer providing linen supply services to the United States under such contracts, section 6(e) of such Act also has the effect of modifying the general minimum wage requirement discussed in § 4.159 for their employees engaged in work on such contracts in certain establishments providing such linen supply services. (See par. (c) of this section.)

(b) *Section 6(e)(1) of the Fair Labor Standards Act.* Section 6(e)(1) of the Fair Labor Standards Act applies to "every employer providing any contract services (other than linen supply services) under a contract with the United States or any subcontract thereunder." It provides that every such employer "shall pay to each of his employees whose rate of pay is not governed by the Service Contract Act of 1965", or to whom section 6(a)(1) of the Fair Labor Standards Act is not otherwise applicable, wages at rates not less than the rates provided for in section 6(b) of such Act. The only exemptions permitted from this requirement are those provided in section 13(a)(1) of such Act for employees employed in a bona fide executive, administrative, professional, or outside sales capacity as defined and delimited in 29 CFR Part 541, and in section 13(f) of such Act for employees employed in workplaces in territory not described in that subsection. The minimum wage rates under section 6(b) of such Act, to which section 6(e) refers, are: $1 an hour, beginning February 1, 1967; $1.15 an hour, beginning February 1, 1968; $1.30 an hour, beginning February 1, 1969; $1.45 an hour, beginning February 1, 1970; and $1.60 an hour on and after February 1, 1971.

(c) *Section 6(e)(2) of the Fair Labor Standards Act.* (1) Section 6(e)(2) of the Fair Labor Standards Act which is effective as to contracts entered into on or after February 1, 1967, is limited in its application to "every employer in an establishment providing linen supply services to the United States under a contract with the United States or any subcontract thereunder." It provides that every such employer "shall pay to each of his employees in such establishment wages at rates not less than those prescribed in" section 6(b) of such Act, "except that if more than 50 per centum of the gross annual dollar volume of sales made or business done by such establishment is derived from providing such linen supply services under any such contracts or subcontracts, such employer shall pay to each of his employees in such establishment wages at rates not less than those prescribed in" section 6(a)(1) of the Fair Labor Standards Act.

(2) Where this latter exception is applicable, the effect of section 6(e)(2) is to require all employees in an establishment providing linen supply services under Government contract and not just those performing work on such contracts, to be paid not less than the Fair Labor Standards Act section 6(a)(1) rate of wages which, as explained in § 4.159, is the general minimum wage floor for contract work under section 2(b) of the Service Contract Act.

(3) However, where 50 percent or less of an establishment's gross annual dollar volume of sales made or business done is derived from linen supply services under Government contract, the effect of section 6(e)(2) is to modify the general minimum wage requirement of section 2(b)(1) of the Service Contract Act so as to permit the payment to employees engaged in performing such contracts of wages at a rate not less than the rate applicable under section 6(b) of the Fair Labor Standards Act, in lieu of the rate applicable under section 6(a)(1) of such Act. (For the minimum rates provided under section 6(b), see par. (b) of this section.) If higher minimum wage rates or fringe benefits are determined and

specified in the contract under the provisions of section 2(a) of the Service Contract Act for such contract workers, the contractor or subcontractor must provide such compensation to the employees to whom such wage rates or fringe benefits apply, notwithstanding the provisions of section 6(c)(2) of the Fair Labor Standards Act. Section 6(c)(2) of such Act provides an alternative rate only in lieu of the minimum wage floor prescribed in section 2(b)(1) of the Service Contract Act, and does not supersede the provisions of section 2(a). With respect to employees in any establishment providing linen supply services under Government contract and not deriving more than 50 percent of its gross annual dollar volume from such contract services, section 6(c)(2) does, however, require that a minimum wage not less than that prescribed in section 6(b) of the Fair Labor Standards Act be paid to each employee, whether or not subject to the provisions of the Service Contract Act, who is employed in such establishment and for whom no higher monetary wage rate is prescribed under the provisions of section 2(a)(1) of the Service Contract Act.

(4) Like section 6(c)(1), section 6(c)(2) of the Fair Labor Standards Act limits the exemptions from its provisions under such Act to the executive, administrative, professional, outside sales, and geographic exemptions mentioned in paragraph (b) of this section.

(d) *"Linen supply services" under section 6(c).* (1) As noted in paragraphs (b) and (c) of this section, the provisions of section 6(c)(1) of the Fair Labor Standards Act apply to Government contractors and subcontractors providing contract services "other than linen supply services", whereas the provisions of section 6(c)(2) are applicable only to employers in establishments "providing linen supply services to the United States under a contract with the United States or any subcontract thereunder." Section 6(c)(2) thus does not apply in establishments providing only laundry or cleaning, and not linen supply, services under Government contracts or subcontracts, as in the case of contracts for family laundering, or commercial laundering and dry cleaning. Also the legislative history makes it clear that the exception for linen supply services is to be "construed narrowly so as not to place other laundering and cleaning establishments at a competitive disadvantage in bidding for U.S. contracts." (Daily Congressional Record, Sept. 7, 1966, p. 21032.) The stated intent is to include "standard linen supply services, such as for sheets, pillowcases, tablecloths, and so on." Other items recognized as standard linen supply items are dresses, uniforms, bibs, aprons, and other wearing apparel of the type used by barbers, doctors, waitresses, waiters, nurses, food workers, beauticians, retail sales personnel, etc. It is made plain by the legislative history of the provision, however, that it is not intended to include, in the "linen supply services" to which section 6(c)(2) refers, any contract services which involve supplying the Government with cleaned and laundered items of types not normally provided by linen supply services, such as work uniforms worn by mechanics and production workers in heavy industry, machine shops, garages, service stations, and the like, where the garments are likely to be heavily soiled or greasy by the nature of their use. Other examples of contracts which are not for linen supply services within the meaning of the provision are those for diaper service and those providing services for industrial wiping towels, safety equipment salvage, dust control—including treated dust tool covers and cloths, treated dust mops and treated mats or rugs—and other industrial laundering services.

(2) In order for a contract to qualify as a linen supply contract, the linen supply items furnished to the Government must be furnished on a rental basis by the contractor. If the contractor is not furnishing the linen supply items to the Government on a rental basis, he would not be considered as furnishing linen supply services but merely to be furnishing a laundering service to the Government. As such, he would be subject to the provisions of section 6(c)(1) of the Fair Labor Standards Act rather than section 6(c)(2).

§ 4.161 Minimum monetary wages under contracts exceeding $2,500.

The standards established pursuant to the Act for minimum monetary wages to be paid by contractors and subcontractors under service contracts in excess of $2,500 to service employees engaged in performance of the contract or subcontracts are required to be specified in the contract and in all subcontracts (see § 4.6). Section 2(a)(1) requires that every such contract (and any bid specification therefor) which is subject to the Act shall contain a "provision specifying the minimum monetary wages to be paid the various classes of service employees in the performance of the contract or any subcontract thereunder, as determined by the Secretary or his authorized representative, in accordance with prevailing rates for such employees in the locality, which in no case shall be lower than" the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended. If some or all of the determined wages in a contract fall below the level of the Fair Labor Standards Act minimum by reason of a change in that rate by amendment of the law, these rates become obsolete and the employer is obligated under section 2(b)(1) of the Service Contract Act, to pay the new minimum wage rate established by the amendment as of the date it becomes effective. A change in the Fair Labor Standards Act minimum by operation of law would also have the same effect on advertised specifications or negotiations for covered service contracts, i.e., it would make ineffective and would supplant any lower rate or rates included in such specifications or negotiations whether or not determined. However, unless affected by such a change in the Fair Labor Standards Act minimum wage or by contract changes necessitating the insertion of new wage provisions (see §§ 4.143–4.145), the minimum monetary wage rate specified in the contract for each of the classes of service employees for which wage determinations have been made under section 2(a)(1) will continue to apply throughout the period of contract performance. No change in the obligation of the contractor or subcontractor with respect to minimum monetary wages will result from the mere fact that higher or lower wage rates may be determined to be prevailing for such employees in the locality after the award and before completion of the contract. Such wage determinations are effective for contracts not yet awarded, as provided in § 4.5(b).

§ 4.162 Fringe benefits under contracts exceeding $2,500.

(a) Section 2(a)(2) of the Act requires that every covered contract in excess of $2,500 shall contain "a provision specifying the fringe benefits to be furnished the various classes of service employees, engaged in the performance of the contract or any subcontract thereunder, as determined by the Secretary or his authorized representative to be prevailing for such employees in the locality. Such fringe benefits shall include medical or hospital care, pensions on retirement or death, compensation for injuries or illness resulting from occupational activity, or insurance to provide any of the foregoing, unemployment benefits, life insurance, disability and sickness insurance, accident insurance, vacation and holiday pay, costs of apprenticeship or other similar programs and other bona fide fringe benefits not otherwise required by Federal, State, or local law to be provided by the contractor or subcontractor."

(b) Under this provision, the fringe benefits, if any, which the contractor or subcontractor is required to furnish his service employees engaged in the performance of the contract are specified in the contract documents (see § 4.6). How he may satisfy this obligation is dealt with in §§ 4.170–4.171 and in Subpart B of this part. A change in the fringe benefits required by the contract provision will not result from the mere fact that other or additional fringe benefits are determined to be prevailing for such employees in the locality at a time subsequent to the award but before completion of the contract. Such fringe benefit determinations are effective for contracts not yet awarded (see § 4.5(b)), or in the event that changes in an existing contract requiring their insertion for prospective application have occurred (see §§ 4.143–4.145).

§ 4.163 Locality basis of wage and fringe benefit determinations.

Under section 2(a) of the Act, the Secretary or his authorized representative is given the authority to determine what minimum monetary wages and fringe benefits are prevailing for various classes of service employees "in the locality." The term "locality" has reference to geographic space. However, it has an elastic and variable meaning and, if the statutory purposes are to be achieved, must be viewed in the light of the existing wage structures which are pertinent to the employment by potential contractors of particular classes of service employees on the kinds of service contracts which must be considered, which are extremely varied. It is, accordingly, not possible to devise any precise single formula which would define the exact geographic limits of a "locality" that would be relevant or appropriate for the determination of prevailing wage rates and prevailing fringe benefits in all situations under the Act. The locality within which a wage or fringe benefit determination is applicable is, therefore, defined in each such determination upon the basis of all the facts and circumstances pertaining to that determination. Each such determination applies only to contracts for the locality which it includes.

§ 4.164 Making the determinations and informing contractors.

(a) *Information considered.* The minimum monetary wages and the fringe benefits set forth in determinations of the Secretary are based on information as to wage rates and fringe benefits in effect at the time the determination was made. The Department considers all pertinent information regarding prevailing wage rates and fringe benefits in the locality for the classes of service employees for which determinations are made.

Such information may be derived from area surveys made by the Bureau of Labor Statistics or other Department personnel, from Government contracting officers, and from other available sources including employees and their representatives and employers and their associations. The determinations may be based on the wage rates and fringe benefits contained in union agreements where such have been determined to prevail in a locality for a specified occupational group.

(b) *Provision for consideration of currently prevailing wage rates and fringe benefits.* (1) Determinations will be reviewed periodically and where prevailing wage rates or fringe benefits have changed, such changes will be reflected in new determinations. In a locality where it is determined that the wage rate which prevails for a particular class of service employees is the rate specified in a collective bargaining agreement or agreements applicable in that locality, and such agreement or agreements specify increases in such rates to be effective on specific dates, the prior determinations would be modified to reflect such changes when they become effective, and the revised determinations would apply to contracts entered into after the modification.

(2) The regulations, in § 4.4, provide for the filing with the Administrator by the awarding agency, prior to any invitation for bids or the commencement of negotiations for contracts exceeding $2,500, of a notice of intention to make a service contract which is subject to the Act. Upon receipt of the notice the Administrator may make a determination of minimum monetary wages and fringe benefits for the classes of service employees who will perform on the contract or may revise a determination which is currently in effect.

(c) *Informing contractors of applicable determinations.* Contractors and subcontractors on contracts subject to the Act are apprised of the Secretary's determinations applicable at the time of the award by specification in the contract of the determined wage rates and fringe benefits. (See § 4.6(b)(1).) A determination of prevailing wages or fringe benefits made after the date of the contract award for classes of employees that will be used in performing the contract does not apply to the performance of the previously awarded contract. Prospective contractors are advised, in the invitations for bids or negotiation papers issued by the contracting agency, of the minimum monetary wages and fringe benefits required under the most recent applicable determinations of the Secretary for service employees who will perform the contract work. These requirements are, of course, the same for all bidders and none will be placed at a competitive disadvantage.

Compliance With Compensation Standards

§ 4.165 Wage payments and fringe benefits—in general.

(a) (1) Monetary wages specified under the Act shall be paid to the employees to whom they are due, promptly following the end of the pay period in which they are earned. No deduction, rebate, or refund is permitted, except as hereinafter stated. The same rules apply to cash payments authorized to be paid with the statutory monetary wages as equivalents of determined fringe benefits (see Subpart B of this part).

(2) The Act makes no distinction, with respect to its compensation provisions, between temporary, part-time, and full-time employees, and the wage and fringe benefit determinations apply, in the absence of an express limitation, equally to all such service employees engaged in work subject to the Act's provisions.

(b) The Act does not prescribe the length of the pay period. However, for purposes of administration of the Act, and to conform with practices required under other statutes that may be applicable to the employment, wages and hours worked must be calculated on the basis of a fixed and regularly recurring workweek of seven consecutive 24-hour workday periods, and the records must be kept on this basis. It is appropriate to use this workweek for the pay period. A biweekly, semimonthly, or monthly pay period may, however, be used if agreed upon by the employer and his employees. A pay period longer than 1 month is not recognized as appropriate for service employees and wage payments at greater intervals will not be considered as constituting proper payments in compliance with the Act.

(c) The prevailing rate established by a wage determination under the Act is a minimum rate. A contractor is not precluded from paying wage rates in excess of those determined to be prevailing in the particular locality. Nor does the Act affect or require the changing of any provisions of union contracts specifying higher monetary wages or fringe benefits than those contained in an applicable determination. However, if a determination for a class of service employees contains a wage or fringe benefit provision which is higher than that specified in an existing union agreement, the determination's provision will prevail for any work performed on a contract subject to the determination.

§ 4.166 Wage payments—unit of payment.

The standard by which monetary wage payments are measured under the Act is the wage rate per hour. An hourly wage rate is not, however, the only unit for payment of wages that may be used for employees subject to the Act. Employees may be paid on a daily, weekly, or other time basis, or by piece or task rates, so long as the measure of work and compensation used, when translated or reduced by computation to an hourly basis, will provide a rate per hour that will fulfill the statutory requirement. Whatever system of payment is used, however, must ensure that each hour of work in performance of the contract is compensated at not less than the required minimum rate. Failure to pay for certain hours at the required rate cannot be transformed into compliance with the Act by reallocating portions of payments made for other hours which are in excess of the specified minimum.

§ 4.167 Wage payments—medium of payment.

The wage payment requirements under the Act for monetary wages specified under its provisions will be satisfied by the timely payment, finally and unconditionally or "free and clear", of such wages to the employee either in cash or negotiable instrument payable at par. Scrip, tokens, credit cards, "dope checks", coupons, and similar devices which permit the employer to retain and prevent the employee from acquiring control of money due for the work until some time after the pay day for the period in which it was earned, are not proper mediums of payment under the Act. If, as is permissible, they are used as a convenient device for measuring earnings or allowable deductions during a single pay period, the employee cannot be charged with the loss or destruction of any of them and the employer may not, because the employee has not actually redeemed them, credit himself with any which remain outstanding on the pay day, in determining whether he has met the requirements of the Act. The employer may not include the cost of fringe benefits or equivalents furnished as required under section 2(a)(2) of the Act, as a credit toward the monetary

wages he is required to pay under section 2(a)(1) or 2(b) of the Act (see § 4.51). However, the employer may include, as a part of the applicable minimum wage which he is required to pay under the Act, the reasonable cost or fair value, as determined by the Administrator, of furnishing an employee with "board, lodging, or other facilities" as defined in Part 531 of this title, in situations where such facilities are customarily furnished to employees and the employees' acceptance of them is voluntary and uncoerced. The determination of reasonable cost or fair value will be in accordance with the Administrator's regulations under the Fair Labor Standards Act, contained in such Part 531 of this title. While employment on contracts subject to the Act would not ordinarily involve situations in which service employees would receive tips from third persons, the treatment of tips for wage purposes in the situations where this may occur should be understood. If pursuant to an employment agreement tips received by an employee must be accounted for or turned over to the employer, such sums may after receipt by the employer be used like other funds of the employer in payment of the wages required under the Act. In other words, where there is such an agreement, so that the tips received by an employee are accounted for or turned over by the employee to the employer as the latter's property, they become a source of funds which may be released or returned to the employee in payment of the employer's wage obligations. However, in the absence of an agreement that the tips belong to the employer, they are the employee's property and may not be credited toward the employer's minimum wage obligations under the Act.

§ 4.168 Wage payments—deductions from wages paid.

The wage requirements of the Act will not be met where unauthorized deductions, rebates, or refunds reduce the wage payment made to the employee below the minimum amounts required under the provisions of the Act and the regulations thereunder, or where the employee fails to receive such amounts free and clear because he "kicks back" directly or indirectly to the employer or to another person for the employer's benefit the whole or part of the wage delivered to him. Authorized deductions are limited to those required by law, such as taxes payable by employees required to be withheld by the employer and amounts due employees which the employer is required by court order to pay to another; deductions allowable for the reasonable cost or fair value of board, lodging, and facilities furnished as set forth in § 4.167; and deductions of amounts which are authorized to be paid to third persons for the employee's account and benefit pursuant to his voluntary assignment or order or a collective bargaining agreement with bona fide representatives of employees which is applicable to the employer. Deductions for amounts paid to third persons on the employee's account which are not so authorized or are contrary to law or from which the employer or any affiliate derives any profit or benefit directly or indirectly, may not be made if they cut into the wage required to be paid under the Act. The principles applied in determining the permissibility of deductions for payments made to third persons are explained in more detail in §§ 531.38–531.40 of this title.

§ 4.169 Wage payments—work subject to different rates.

If an employee during a workweek works in different capacities in the performance of the contract and two or more rates of compensation under section 2 of the Act are applicable to the classes of work which he performs, he must be paid the highest of such rates for all hours worked in the workweek unless it appears from the employer's records or other affirmative proof which of such hours were included in the periods spent in each class of work. The rule is the same where such an employee is employed for a portion of the workweek in work not subject to the Act, for which compensation at a lower rate would be proper if the employer by his records or other affirmative proof, segregated the worktime thus spent.

§ 4.170 Furnishing fringe benefits or equivalents.

(a) *General.* Fringe benefits specified under the Act shall be furnished, in addition to the specified monetary wages, by the contractor or subcontractor to employees engaged in performance of the contract, as provided in the determination of the Secretary or his authorized representative and prescribed in the contract documents, or, in the event that this is not possible or practicable, the obligation to furnish such benefits "may be discharged by furnishing any equivalent combinations of fringe benefits or by making equivalent or differential payments in cash under rules and regulations established by the Secretary." (Act, section 2(a)(2).) The governing rules and regulations for furnishing such equivalents are set forth in Subpart B of this part. The various fringe benefits listed in the Act are illustrative of those which may be found to be prevailing for service employees in a particular locality. The benefits which an employer will actually be required to furnish employees performing on a specific contract will be specified in the contract documents. When an employer has not made any provisions for fringe benefits, he cannot offset an amount of monetary wages paid in excess of the wages required under the determination, in order to satisfy his fringe benefit obligations under the Act. Also, the furnishing to the employee of items the cost or value of which is creditable toward the monetary wages specified under the Act, such as board, lodging, and other facilities in the situations described in § 4.167, may not be used to offset any fringe benefits specified in the contract.

(b) *Meeting the requirements, in general.* A contractor may dispose of certain of his fringe benefit obligations, such as pension, retirement, or health insurance benefits, which may be required by an applicable determination, by irrevocably paying the required contributions for fringe benefits to a trustee or third person pursuant to an existing bona fide fund, plan, or program. Where such a plan or fund does not exist, a contractor must discharge his obligation relating to fringe benefits by furnishing either an equivalent combination of bona fide fringe benefits or by making equivalent payments in cash to the employee, as authorized by the regulations in Subpart B of this part. When a contractor or subcontractor substitutes fringe benefits not specified in the contract for fringe benefits which are so specified, the substituted fringe benefits, like those for which the contract provisions are prescribed, must be "bona fide fringe benefits." No benefit required by Federal, State, or local law is a "bona fide" fringe benefit for purposes of the Act. No contribution toward fringe benefits made by the employees themselves, or fringe benefits provided from monies withheld from the employees' wages, or benefits statutorily required of the contractor or subcontractor (such as unemployment compensation, workmen's compensation, or social security) may be included in satisfying any fringe benefit requirement under the Act. Also, the furnishing of facilities which are primarily for the benefit or convenience of the employer or the cost of which is properly a business expense of the employer is not the furnishing of a "bona fide fringe benefit." This would be true of such items, for example, as tools and other materials and services incidental to the employer's performance of the contract and the carrying on of his business, and the cost of uniforms and of their laundering where the nature of the work he has contracted to perform requires the employee to wear a uniform.

§ 4.171 Meeting requirements for particular fringe benefits.

(a) *Determinations specifying amount of fringe benefit.* Where a fringe benefit determination specifies the amount of the employer's contribution to provide the benefit, the amount specified is the actual amount that must be provided by the employer for the employee. Thus, if prevailing fringe benefits for insurance or retirement are determined in a stated amount, and the employer provides such benefits through contributions in a lesser amount, he will be required to furnish the employee with the difference between the amount stated in the determination and the actual cost of the benefits which he provides. Unless otherwise specified in the particular wage determination, every employee performing on a covered contract must be furnished the fringe benefits required by that determination for all hours spent working on that contract. Where a fringe benefit determination has been made requiring employer contributions for a specified fringe benefit in a stated amount per hour, a contractor employing his regular employees part of the time on contract work and part of the time on other work may credit against the hourly amount required for the hours spent on the contract work the proportionate part of a weekly, monthly, or other amount contributed by him for such fringe benefits or equivalent benefits for such employees. If, for example, the determination requires health and welfare benefits in the amount of 10 cents an hour and the employer provides hospitalization insurance for such employees at a cost of $3.50 a week, the employer may credit 8.75 cents an hour toward his fringe benefit obligation to an employee who, in a particular workweek, works 35 hours on the contract work and 5 hours on other work. He cannot, however, allocate the entire $3.50 to the 35 hours spent on contract work and take credit for 10 cents per hour in that manner.

(b) *Determinations not specifying monetary amount of fringe benefit.* (1) Where a fringe benefit determination provides for a stated number of paid holidays per year, and the contractor does not give the applicable time off for holidays occurring during the period of contract performance to temporary or casual employees, he would be required to pay such employees an equivalent amount in cash or in the form of other fringe benefits proportionate to their period of employment. The amount of such additional payment could be reduced to an hourly basis through the application of an equitable formula, as provided in § 4.53(e).

(2) Some questions have been raised about the application of provisions appearing in some fringe benefit determinations which call for "1 week paid vacation after 1 year of service with a contractor or successor." To determine when an employee meets the "after 1 year of service" test, an employer must take two factors into consideration: (i) the total length of time an employee has been in the employer's service, including both the time he has been performing on regular commercial work and the time he has been performing on the Government contract itself, and (ii) the total length of time an employee has been employed either by the present contractor or predecessor contractors in the performance of similar work on the same base. If an employee has a year of service under either the first or second consideration, he is eligible for 1 week's vacation with pay. For example, if a contractor has an employee who has worked for him for 2 years on regular commercial work and only for 6 months on a Government service contract, that employee would be eligible for the vacation since his total service with the employer adds up to more than 1 year. Similarly, if a contractor has an employee who worked for 2 years under a janitorial service contract on a particular base for two different predecessor contractors, and only 8 months with the present employer, that employee would also be considered as meeting the "after 1 year of service" test and would thus be eligible for the specified vacation. Work performed before, as well as after, a pertinent wage determination is issued must be counted in determining an employee's length of service.

(3) Where, however, a fringe benefit determination requires 1 week's paid vacation per year after 1 year's service with an employer, no employee, temporary or permanent, with less than 1 year's service with the contractor, whether or not he was working on the contract, would qualify for this benefit.

§ 4.172 Computation of hours worked.

Since employees subject to the Act are entitled to the minimum compensation specified under its provisions for each hour worked in performance of a covered contract, a computation of their hours worked in each workweek when such work under the contract is performed is essential. Determinations of hours worked will be made in accordance with the principles applied under the Fair Labor Standards Act as set forth in Part 785 of this title. In general, the hours worked by an employee include all periods in which he is suffered or permitted to work whether or not he is required to do so, and all time during which he is required to be on duty or to be on the employer's premises or to be at a prescribed workplace. The hours worked which are subject to the compensation provisions of the Act are those in which the employee is engaged in performing work on contracts subject to the Act; however, unless such hours are adequately segregated, as indicated in § 4.173, compensation in accordance with the Act will be required for all his hours of work in any workweek in which he performs any work in connection with the contract, because it will be presumed in the absence of affirmative proof to the contrary that such work continued throughout the workweek.

§ 4.173 Identification of contract work.

Contractors and subcontractors under contracts subject to the Act are required to comply with its compensation requirements throughout the period of performance on the contract and to do so with respect to all employees who in any workweek are engaged in performing work on such contracts. If such a contractor during any workweek is not exclusively engaged in performing such contracts, or if while so engaged he has employees who spend a portion but not all of their worktime in the workweek in performing work on such contracts, it is necessary for him to identify accurately in his records, or by other means, those periods in each such workweek when he and each such employee performed work on such contracts. In cases where contractors are not exclusively engaged in Government contract work, and there are adequate records segregating the periods in which work was performed on contracts subject to the Act from periods in which other work was performed, the compensation specified under the Act need not be paid for hours spent on non-contract work. However, in the absence of records adequately segregating non-covered work from the work performed on or in connection with the contract, all employees working in the establishment or department where such covered work is performed shall be presumed to have worked on or in connection with the contract during the period of its performance, unless affirmative proof establishing the contrary is presented. Similarly, in the absence of such records, an employee performing any work on or in connection with the contract in a workweek shall be presumed to have continued to perform such work throughout the workweek, unless affirmative proof establishing the contrary is presented.

Overtime Pay of Covered Employees

§ 4.180 Overtime pay—in general.

The Act does not provide for compensation of covered employees at premium rates for overtime hours of work. Section 6 recognizes however, that other Federal laws may require such compensation to be paid to employees working on or in connection with contracts subject to the Act (see § 4.181) and prescribes, for purposes of such laws, the manner in which fringe benefits furnished pursuant to the Act shall be treated in computing such overtime compensation, as follows: "In determining any overtime pay to which such service employees are entitled under any Federal law, the regular or basic hourly rate of such an employee shall not include any fringe benefit payments computed hereunder which are excluded from the regular rate under the Fair Labor Standards Act by provisions of section 7(e) thereof." Fringe benefit payments which qualify for such exclusion are described in Part 778, Subpart C of this title. The interpretations there set forth will be applied in determining the overtime pay to which covered service employees are entitled under other Federal statutes. The effect of section 6 of the Act in situations where equivalent fringe benefits or cash payments are provided in lieu of the specified fringe benefits (see § 4.170) is stated in § 4.55 of Subpart B of this part, and illustrated in § 4.182.

§ 4.181 Overtime pay provisions of other Acts.

(a) *Fair Labor Standards Act.* Although provision has not been made for insertion in Government contracts of stipulations requiring compliance with the Fair Labor Standards Act, contractors and subcontractors performing contracts subject to the McNamara-O'Hara Service Contract Act may be required to compensate their employees working on or in connection with such contracts for overtime work pursuant to the overtime pay standards of the Fair Labor Standards Act, This is true with respect to employees engaged in interstate or foreign commerce or in the production of goods for such commerce (including occupations and processes closely related and directly essential to such production) and employees employed in enterprises which are so engaged, subject to the definitions and exceptions provided in such Act. Such employees, except as otherwise specifically provided in such Act, must receive overtime com-

penseation at a rate of not less than 1½ times their regular rate of pay for all hours worked in excess of the applicable standard in a workweek. See Part 778 of this title. However, the Fair Labor Standards Act provides no overtime pay requirements for employees, not within such interstate commerce coverage of the Act, who are subject to its minimum wage provisions only by virtue of the provisions of section 6(e), as explained in § 4.160.

(b) *Contract Work Hours Standards Act.* (1) The Contract Work Hours Standards Act (40 U.S.C. 327–332) applies generally to Government contracts, including service contracts in excess of $2,500, which may require or involve the employment of laborers and mechanics. Guards, watchmen, and many other classes of service employees are laborers or mechanics within the meaning of such Act. However, employees rendering only professional services, seamen, and as a general rule those whose work is only clerical or supervisory or nonmanual in nature, are not deemed laborers or mechanics for purposes of the Act. The wages of every laborer or mechanic for his performance of work on such contracts must include compensation at a rate not less than 1½ times his basic rate of pay for all hours worked in any workweek in excess of 40 or in excess of eight on any calendar days therein, whichever is the greater number of overtime hours. Exemptions are provided for transportation and communications contracts, contracts for the purchase of supplies ordinarily available in the open market, and work required to be done in accordance with the provisions of the Walsh-Healey Act.

(2) Regulations concerning this Act are contained in Part 5, and § 5.14(c) of this subtitle permits overtime pay to be computed in the same manner as under the Fair Labor Standards Act, subject of course to the differences in computations required by reason of the daily overtime provision of the Contract Work Hours Standards Act, which has no counterpart in the Fair Labor Standards Act.

(3) Although the application of the Contract Work Hours Standards Act does not depend on inclusion of its requirements in provisions physically made part of the contract, the regulations of the Secretary require such provisions to be set forth in contract clauses. (See § 5.5(c) of this subtitle.)

(c) *Walsh-Healey Public Contracts Act.* As pointed out in § 4.122, while some Government contracts may be subject both to the McNamara–O'Hara Service Contract Act and to the Walsh-Healey Public Contracts Act, the employees performing work on the contract which is subject to the latter Act are, when so engaged, exempt from the provisions of the former. They are, however, subject to the overtime provisions of the Walsh-Healey Act if, in any workweek, any of the work performed for the employer is subject to such Act and if, in such workweek, the total hours worked by the employee for the employer (whether wholly or only partly on such work) exceed 40 hours in the workweek or 8 hours in any day therein. In any such workweek the Walsh-Healey Act requires payment of overtime compensation at a rate not less than 1½ times the employee's basic rate for such weekly or daily overtime hours, whichever are greater in number. The overtime pay provisions of the Walsh-Healey Act are discussed in greater detail in the Rulings and Interpretations issued under such Act, copies of which are available from any office of the Wage and Hour and Public Contracts Divisions, U.S. Department of Labor.

§ 4.182 Overtime pay of service employees entitled to fringe benefits.

Reference is made in § 4.180 to the rules prescribed by section 6 of the Act and Subpart B of this part which permit exclusion of certain fringe benefits and equivalents provided pursuant to section 2(a)(2) of the Act from the regular or basic rate of pay when computing overtime compensation of a service employee under the provisions of any other Federal law. As provided in § 4.55 of Subpart B, not only those fringe benefits excludable under section 6 as benefits determined and specified under section 2(a)(2), but also equivalent fringe benefits and cash payments authorized under Subpart B to be furnished in lieu of the specified benefits may be excluded from the regular or basic rate of such an employee. The application of this rule may be illustrated by the following examples:

(a) The A company pays a service employee $3.80 an hour in cash under a wage determination which requires a monetary rate of not less than $3 and a fringe benefit contribution of 50 cents which would qualify for exclusion from the regular rate under section 7(e) of the Fair Labor Standards Act. The contractor pays the 50 cents in cash because he made no contributions for fringe benefits specified in the determination and the contract. Overtime compensation in this case would be computed on a regular or basic rate of $3 an hour.

(b) The B Company has for some time been paying $3.25 an hour to a service employee as his basic cash wage plus 20 cents an hour as a contribution to a welfare and pension plan, which contribution qualifies for exclusion from the regular rate under the Fair Labor Standards Act. For performance of work under a contract subject to the Act a monetary rate of $3 and a fringe benefit contribution of 50 cents (also qualifying for such exclusion) are specified because found to be prevailing for such employees in the locality. The contractor may credit his 20-cent welfare and pension contribution toward the discharge of his fringe benefit obligation under the contract and make an additional contribution of 25 cents for the specified or equivalent fringe benefits or pay the employee an additional 25 cents in cash, as authorized in Subpart B of this part. These contributions or equivalent payments may be excluded from the employee's regular rate, which remains $3.25, the rate agreed upon as the basic cash wage.

(c) The C company has been paying $3 an hour as its basic cash wage on which the firm has been computing overtime compensation. For performance of work on a contract subject to the Act the same rate of monetary wages and a fringe benefit contribution of 50 cents an hour (qualifying for exclusion from the regular rate under the Fair Labor Standards Act) are specified in accordance with a determination that these are the monetary wages and fringe benefits prevailing for such employees in the locality. The contractor is required to continue to pay at least $3 an hour in monetary wages and at least this amount must be included in the employee's regular or basic rate for overtime purposes under applicable Federal law. His fringe benefit obligation under the contract would be discharged if 50 cents of the contributions for fringe benefits were for the fringe benefits specified in the contract or equivalent benefits as defined in Subpart B of this part. He may exclude such fringe benefit contributions from the regular or basic rate of pay of the service employee in computing overtime pay due. Exclusion of the remainder of the fringe benefit contributions from the regular rate under the Fair Labor Standards Act would depend on whether they are contributions excludable under section 7(e) of that Act.

Notice to Employees

§ 4.183 Employees must be notified of compensation required.

The Act, in section 2(a)(4), and the regulations thereunder in § 4.6(b)(4), require all contracts subject to the Act which are in excess of $2,500 to contain a clause requiring the contractor or subcontractor to notify each employee commencing work on a contract to which the Act applies of the compensation required to be paid such employee under section 2(a)(1) and the fringe benefits required to be furnished under section 2(a)(2). A notice form provided by the Wage and Public Contracts Divisions is to be used for this purpose. It may be delivered to the employee or posted as stated in § 4.184.

§ 4.184 Posting of notice.

Posting of the notice provided by the Wage and Hour and Public Contracts Divisions shall be in a prominent and accessible place at the worksite, as required by § 4.6(b)(4). The display of the notice in a place where it may be seen by employees performing on the contract will satisfy the requirement that it be in a "prominent and accessible place". Should display be necessary at more than one site, in order to assure that it is seen by such employees, additional copies of the poster may be obtained without cost from the Divisions. The contractor or subcontractor is required to attach to the poster a listing of all minimum monetary wages and fringe benefits, as specified in the contract, to be paid or furnished to the classes of service employees performing on the contract.

Records

§ 4.185 Recordkeeping requirements.

The records which a contractor or subcontractor is required to keep concerning employment of employees in the performance of contracts subject to the Act are specified in § 4.6(b)(6) of Subpart A of this part. They are required to be maintained for 3 years from the completion of the work, and must be made available for inspection and transcription by authorized representatives of the Administrator. Such records must be kept for each service employee performing work under the contract, for each

workweek during the performance of the contract. If the required records are not separately kept for the service employees performing on the contract, it will be presumed, in the absence of affirmative proof to the contrary, that all service employees in the department or establishment where the contract was performed were engaged in covered work during the period of performance. (See § 4.173.)

Safety and Health Provisions

§ 4.186 Contract requirements for safety and health of workers.

The Act, in section 2(a)(3), requires every service contract in excess of $2,500 subject to its provisions to contain a stipulation that "no part of the services covered by this Act will be performed in buildings or surroundings or under working conditions provided by or under the control or supervision of the contractor or any subcontractor which are unsanitary or hazardous or dangerous to the health or safety of a service employee engaged to furnish the services". Regulations under this provision are set forth in Part 1516 of this title.

Enforcement

§ 4.187 Recovery of underpayments.

(a) The Act, in section 3(a) provides that any violation of any of the contract stipulations required by section 2(a)(1) or (2) or of section 2(b) of this Act shall render the party responsible therefor liable for a sum equal to the amount of any deductions, rebates, refunds, or underpayments of compensation due to any employee engaged in the performance of such contract. So much of the accrued payment due on the contract or any other contract between the same contractor and the Federal Government may be withheld as is necessary to pay such employees. Such withheld sums shall be held in a deposit fund. On order of the Secretary, any compensation which the head of the Federal agency or the Secretary has found to be due pursuant to this Act shall be paid directly to the underpaid employees from any accrued payments withheld under this Act.

(b) The Act, in section 5(b), provides that, if the accrued payments withheld under the terms of the contract are insufficient to reimburse all service employees with respect to whom there has been a failure to pay the compensation required pursuant to this Act, the United States may bring action against the contractor, subcontractor, or any sureties in any court of competent jurisdiction to recover the remaining amount of underpayments. Any sums thus recovered by the United States shall be held in the deposit fund and shall be paid, on the order of the Secretary, directly to the underpaid employee or employees. Any sum not paid to an employee because of inability to do so within 3 years shall be covered into the Treasury of the United States as miscellaneous receipts.

§ 4.188 Ineligibility for further contracts when violations occur.

Section 5 of the Act directs the Comptroller General to distribute a list to all agencies of the Government giving the names of persons or firms that the Federal agencies or the Secretary have found violated this Act. Unless the Secretary otherwise recommends, no contract of the United States shall be awarded to the persons or firms appearing on this list or to any firm, corporation, partnership, or association in which such persons or firms have a substantial interest until 3 years have elapsed from the date of publication of the list containing the name of such persons or firms. This prohibition against the award of a contract to an ineligible contractor applies to him in the capacity of either a prime contractor or a subcontractor.

§ 4.189 Administrative proceedings relating to enforcement of labor standards.

The Secretary is authorized, pursuant to the provisions of section 4(a) of the Act, to hold hearings and make such decisions based upon findings of fact as are deemed to be necessary to enforce the provisions of the Act. The Secretary's findings of fact after notice and hearing are declared to be conclusive upon all agencies of the United States and, if supported by a preponderance of the evidence, conclusive in any court of the United States. Rules of practice for administrative proceedings under this authority are set forth in Part 6 of this subtitle.

§ 4.190 Contract cancellation.

As provided in section 3 of the Act, when a violation is found of any contract stipulation, the contract is subject upon written notice to cancellation by the contracting agency. Whereupon, the United States may enter into other contracts or arrangements for the completion of the original contract, charging any additional cost to the original contractor.

§ 4.191 Complaints and compliance assistance.

(a) Any employer, employee, labor or trade organization, or other interested person or organization may report to any office of the Wage and Hour and Public Contracts Divisions (or to any office of the Bureau of Labor Standards, in instances involving the safety and health provisions), a violation, or apparent violation of the act, or of any of the rules or regulations prescribed thereunder. Such offices are also available to assist or provide information to contractors or subcontractors desiring to ensure that their practices are in compliance with the Act. Information furnished is treated confidentially.

(b) A report of breach or violation relating solely to safety and health requirements may be in writing and addressed to the Regional Director of a Bureau of Labor Standards' Regional Office, U.S. Department of Labor or to the Director of the Bureau of Labor Standards, U.S. Department of Labor, Washington, D.C. 20210.

(c) Any other report of breach or violation may be in writing and addressed to the Regional Director of a Wage and Hour and Public Contracts Divisions' Regional Office, U.S. Department of Labor, or to the Administrator of the Wage and Hour and Public Contracts Divisions, U.S. Department of Labor, 14th Street and Constitution Avenue NW., Washington, D.C. 20210.

(d) In the event that a Regional Director of the Wage and Hour and Public Contracts Divisions is notified of a breach or violation which also involves safety and health standards, such Director shall notify the appropriate Regional Director of the Bureau of Labor Standards who shall with respect to the safety and health violation take action commensurate with his responsibilities pertaining to safety and health standards.

(e) The report should contain the following:

(1) The full name and address of the person or organization reporting the breach or violations.

(2) The full name and address of the person against whom the report is made.

(3) A clear and concise statement of the facts constituting the alleged breach or violation of any of the provisions of the McNamara-O'Hara Service Contract Act, or of any of the rules or regulations prescribed thereunder.

Signed at Washington, D.C., this 5th day of July 1967.

CLARENCE T. LUNDQUIST,
Administrator, Wage and Hour and Public Contracts Divisions, U.S. Department of Labor.

FEDERAL REGISTER

Area Code 202 Phone 963-8436

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue (15 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 3—THE PRESIDENT

Executive Order 11361

SUSPENDING A PROVISION OF SECTION 5751(b) OF TITLE 10, UNITED STATES CODE, WHICH RELATES TO OFFICERS OF THE MARINE CORPS IN THE GRADE OF FIRST LIEUTENANT

By virtue of the authority vested in me by Section 5785(b) of Title 10 of the United States Code, I hereby suspend the provision of Section 5751(b) of Title 10 of the United States Code which relates to the service-in-grade requirement for officers of the Marine Corps in the grade of first lieutenant for eligibility for consideration by a selection board for promotion to the next higher grade.

Title 7—AGRICULTURE

Chapter VI—Soil Conservation Service, Department of Agriculture

PART 601—GREAT PLAINS CONSERVATION PROGRAM

Subpart—General Program Provisions

The regulations governing the Great Plains Conservation Program, 22 F.R. 6851, as amended, are hereby further amended as provided herein.

Sections 601.1 *Definitions* is amended by:

Deleting paragraphs (aa) and (bb) in their entirety and by substituting in lieu thereof the following:

§ 601.1 **Definitions.**

• • • • •

(aa) "Cost" means (1) the amount actually paid or engaged to be paid by the producer for equipment use, materials, and services for carrying out an identifiable unit, or (2) if the producer uses his own forces in carrying out an identifiable unit, the constructed value of his own labor, his own equipment use and the materials he produced and used. Constructed values shall be developed in accordance with guidelines established by the Administrator, SCS.

(bb) "Average cost" means the average of the current cost estimates considered necessary to carry out an identifiable unit.

(cc) "Specified maximum cost" means the maximum amount, with respect to an identifiable unit to which cost sharing will apply.

(dd) "Program year" means the period beginning July 1, and ending on December 31, of the succeeding year.

Section 601.8 *Contracts* is amended by changing paragraph (a) and by adding at the end thereof two paragraphs (d) and (e) to read as follows:

§ 601.8 **Contracts.**

"(a) (1) In order for a producer to participate in the program, a contract must be entered into by him for the contract period by which he shall agree to accomplish his plan of operations. Where any person has control of the operating unit for the proposed contract period, he must sign the contract. Evidence satisfactory to the contracting officer of the control of the operating unit by the producer must be presented.

(2) The contract shall be for a period that is needed to carry out and establish the conservation practices in the plan of operations for which Federal cost-share commitments are made under the program. Contracts may be entered into during the period ending not later than December 31, 1971. The period of any contract shall not exceed 10 years (120 months) and the period of the initial contract shall not be less than 36 months.

(3) The contracting officer having determined that the plan of operations is adequate for a contract may execute the contract with the producer subject to certification in the Soil Conservation Service State Office that funds are available. It is the responsibility of the producer who signs a contract to keep the contracting officer currently informed of his mailing address.

(4) If, during the contract period, all or part of the right and interest of any producer signatory to the contract in an operating unit is transferred by sale or otherwise, his successor, as transferee, during the contract period may upon his request be substituted under the contract for that transferred by executing a form prescribed by the Administrator, SCS for such purposes. Also see § 601.20.

• • • • •

(d) The contracting officer may find, in accordance with standards determined by the Administrator, SCS, that an identifiable unit has been carried out in accordance with applicable program provisions but, due to conditions beyond the control of the producer signatory to the contract, has failed to achieve the desired results. In such cases the contracting officer may agree to modify the contract to authorize cost-share payments for again carrying out the identifiable unit: *Provided*, That the remaining period of the contract is of such length of time as to allow the carrying out and establishment of the identifiable unit. The producer may not be required to again carry out an identifiable unit that has failed due to conditions beyond his control.

(e) The contracting officer may find, in accordance with standards determined by the Administrator, SCS, that an identifiable unit has been carried out in accordance with applicable program provisions and has achieved the desired results but, due to conditions beyond the control of the producer signatory to the contract, subsequently deteriorated during the contract period to the point of need of repeat applications. In such cases the contracting officer may agree to modify the contract to authorize cost-share payments for again carrying out the identifiable unit: *Provided*, That the remaining period of the contract is of such length of time as to allow the carrying out and establishment of the identifiable unit. The producer may not be required to again carry out an identifiable unit that has deteriorated due to circumstances beyond his control.

Section 601.11 *Eligible conservation practices* is amended by revising paragraph (a)(25), by deleting paragraph (a)(26) in its entirety, by revising paragraphs (b) and (c) and by adding paragraphs (d), (e), (f), and (g) to read as follows:

§ 601.11 **Eligible conservation practices.**

(a) • • •

(25) Consistent with the principles set forth in this program, any conservation practice not included in subparagraphs (1) through (24) of this paragraph but which is needed to meet particular conservation problems in a designated county shall, with the recommendation of the Administrator, SCS, and the Administrator, ASCS, be submitted by the Administrator, ASCS, to the Secretary for approval. Such approval may be given only upon the recommendation of the State Conservationist and the Chairman of the State ASC Committee and the designated SCS technician and the Chairman of the County ASC Committee, and upon their finding (i) that the conservation problem exists on a substantial number of operating units in the designated county, (ii) that the conservation practices listed in this program will not provide adequate treatment of the problem, (iii) that the proposed conservation practice will adequately meet the problem, (iv) that the proposed conservation practice would not be performed to the extent needed without Federal cost sharing, (v) that the proposed conservation practice will provide the most enduring solution to the problem practicably attainable under existing circumstances, (vi) that the proposed conservation practice is one on which the offering of financial assistance is fully justified as being appropriate and in the public interest, and (vii) that the proposed conservation practice meets the standards and requirements of comparable conservation practices in this program. Costs will not be shared under this conservation practice for elements of performance for which cost sharing is specifically precluded by the wording of a similar conservation practice or elsewhere in this program.

(26) [Deleted]

(b) (1) A list of eligible conservation practices selected from the Great Plains Conservation Program Practice List, § 601.11a (1) through (24) of the regulations of this part, and a cost-share rate for each practice included in the list shall be developed for each Great Plains State. This list with cost-share rates shall be developed by the State Conservationist and the Chairman of the State ASC Committee, after consultation with the State Program Committee; and shall be submitted by the State Conservationist to the Administrator, SCS, for review and recommendation of both the Administrator, SCS, and the Administrator, ASCS, prior to transmittal by the Administrator, SCS, and the Administrator for approval.

(2) The maximum cost-share rate for carrying out a practice or an identifiable unit may not exceed 80 percent.

(3) Any change in the state list developed and approved in accordance with this subsection must be approved by the Secretary. Recommendations for changes shall be signed by the State Conservationist and the Chairman of the State ASC Committee and submitted by the State Conservationist to the Administrator, SCS, for review and recommendation by both the Administrator, SCS, and the Administrator, ASCS, prior to the transmittal by the Administrator, ASCS, to the Secretary for approval.

(c) A list of practices selected from the State list (see paragraph (b) of this section) shall be developed for each designated county. This list shall include the cost-share rate for each practice and identifiable unit included in the list. The cost-share rate in this list may not exceed, but may be lower than, the cost-share rate in the State list (see paragraph (b) of this section). This list shall also include an average cost or a specified maximum cost developed in accordance with paragraph (e) of this section for each practice or identifiable unit included in the list. This list when developed, and when approved by the designated SCS technician and the Chairman of the County ASC Committee after consultation with the County Program Committee, must be approved by the State Conservationist and the Chairman of the State ASC Committee.

(d) Average costs and specified maximum costs shall be determined annually from cost data collected on a continuing basis as prescribed by the Administrator, SCS.

(e) Average costs, specified maximum costs, and cost-share rates that will apply to each designated county for a 12-month period shall be approved by the designated SCS technician, County ASC Chairman, State Conservationist, and the Chairman of the State ASC Committee, not later than March 1, each year.

(f) Changes in average costs, specified maximum costs, and cost-share rates approved in accordance with paragraph (e) of this section may be approved at any time by the designated SCS technician, County ASC Chairman, State Conservationist, and the Chairman of the State ASC Committee.

(g) Approvals required in paragraph (b), (c), (e), and (f) of this section shall be in a format prescribed by the Administrator, SCS.

Section 601.12 *Cost-share payments* is amended by revising paragraph (a) and by deleting paragraphs (c) and (d) in their entirety to read as follows:

§ 601.12 Cost-share payments.

(a) Cost-share payments shall be made at cost-share rates specified in the contract, at the average cost, or the actual cost not to exceed the average cost, or the actual cost not to exceed the specified maximum cost as set forth in the contract. *Provided*, That, if the average cost or the specified maximum cost applicable at the time of initial action to carry out the identifiable unit is less than the average cost or specified maximum cost set forth in the contract, payment shall be made on the basis of such lower average cost or lower specified maximum cost: *Provided further*, That whenever the approved average cost or specified maximum cost, in effect at the time any identifiable unit covered by a contract is scheduled to be carried out, is in excess of the average cost or specified maximum cost set out in the contract, such contract may be modified by the contracting officer prior to initial action to carry out such identifiable unit to reflect such increased average cost or specified maximum cost.

(Sec. 4, 49 Stat. 164, as amended, 16 U.S.C. 590d)

Done at Washington, D.C., this 6th day of July 1967.

[SEAL] JOHN A. BAKER,
Assistant Secretary.

[F.R. Doc. 67-7961; Filed, July 10, 1967; 8:50 a.m.]

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Avocado Order 9, Amdt. 2]

PART 915—AVOCADOS GROWN IN SOUTH FLORIDA

Limitation of Shipments

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in south Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Avocado Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter set forth. A reasonable determination as to the quality and the time of maturity of avocados must await the development of the crop; a determination as to the maturity of the varieties of avocados covered by this amendment was made at the meeting of the Avocado Administrative Committee on June 14, 1967. Supplementary information with respect to such maturity was submitted to the Department on July 3, 1967. After consideration of all available information relative to the growing conditions prevailing during the current season, recommendations and supporting information for such maturity regulations were submitted to the Department; such meeting was held to consider recommendation for such regulation after giving due notice thereof, and interested parties were afforded opportunity to submit their views at this meeting; the provisions hereof are identical with the aforesaid recommendations of the committee and information concerning such provisions has been disseminated among the handlers of avocados; and compliance with the provisions hereof will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

Order. The provisions of subparagraph (a)(2) of § 915.309 (32 F.R. 7213, 8761) are hereby amended by revising in Table I certain dates and minimum weights and diameters applicable to the Pollock and Simmonds varieties of avocados, so that after such revision the portion of such Table I relating to such varieties reads as follows:

Variety	Date	Minimum weight or diameter	Date	Minimum weight or diameter	Date	Minimum weight or diameter	Date
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Pollock	7-10-67	15 oz. 3¹⁵/₁₆ in.	7-31-67				
Simmonds	7-10-67	15 oz. 3¹⁵/₁₆ in.	7-31-67				

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated July 7, 1967, to become effective July 10, 1967.

F. L. SOUTHERLAND,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-7978; Filed, July 7, 1967; 11:40 a.m.]

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER A—ARMED SERVICES PROCUREMENT REGULATIONS

MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

The following amendments to this subchapter are issued by direction of the Assistant Secretary of Defense (Installations and Logistics) pursuant to authority contained in Department of Defense Directive No. 4105.30, dated March 11, 1959 (24 F.R. 2289) as amended, and 10 U.S.C. 2202.

PART 1—GENERAL PROVISIONS

1. New §§ 1.201–30, 1.201–50, and 1.305–5 are added, and §§ 1.308, 1.311, 1.313, and 1.315 are revised, as follows:

§ 1.201–30 Automatic data processing equipment (ADPE).

Automatic data processing equipment (ADPE) means:

(a) Digital and Analog Computer components and systems, irrespective of type of use, size, capacity, or price (FSC 7440);

(b) All peripheral, auxiliary, and accessorial equipment used in support of Digital and/or Analog Computers, either cable connected, or "self standing" and whether selected or acquired with the computers or separately (FSC 7410 or 7440);

(c) Punched Card Machines (PCM) and systems used in conjunction with or independently of Digital or Analog Computers (FSC 7410); and

(d) Digital and Analog Terminal and Conversion equipment that is acquired solely or primarily for use with a system which employs a Computer or Punched Card Machines (FSC 7410 or 7440).

§ 1.201–50 Paying office.

"Paying office" means the office which makes payments under the contract.

§ 1.305–5 Research, exploratory development and advanced development.

Solicitations shall generally indicate either a desired term of performance or a completion date. In cases where development of a tangible item by a given date is urgent, solicitations shall indicate such urgency. Generally, solicitations to conduct research and exploratory development work will specify a level of effort for a term of performance. However, solicitations calling for a specific item in the category of such exploratory or advanced development will specify a completion date. A contractor may propose an alternate term of performance or completion date without disqualification of his proposal.

§ 1.308 Documentation of procurement actions; maintenance and disposition of contract files.

(a) Each office performing purchasing, contract administration, or contract paying functions shall maintain official records of all actions with respect to solicitations and contracts in accordance with the provisions of this section, except that the application of these provisions to small purchases and other simplified procurements covered by subpart F Part 1 of this chapter, is optional. The head of each such office shall be responsible for the establishment, supervision, completeness, and review of this documentation, and for its final disposition, in accordance with Supplement 2 entitled "Contract File Maintenance, Closeout, and Disposition."

(b) The combination of official contract files listed in 32–201 shall contain documentation of all actions taken with respect to the contract, including final disposition, sufficient to constitute a full history of the transaction and permit ready reconstruction of all stages of the transaction, for the purpose of (1) providing a complete background to assist informed decisions at each step in the procurement, (2) supporting actions taken by personnel in the procurement cycle; (3) providing information for reviews and investigations conducted by the Department concerned, the Department of Defense, the General Accounting Office, or others, and (4) furnishing essential facts in the event of litigation or Congressional inquiries.

§ 1.311 "Buying in".

"Buying in" refers to the practice of attempting to obtain a contract award by knowingly offering a price or cost estimate less than anticipated costs with the expectation of either (a) increasing the contract price or estimated cost during the period of performance through change orders or other means, or (b) receiving future "follow-on" contracts at prices high enough to recover any losses on the original "buy-in" contract. Such a practice is not favored by the Department of Defense since its long-term effects may diminish competition and it may result in poor contract performance. Where there is reason to believe that "buying in" has occurred, contracting officers shall ensure that amounts thereby excluded in the development of the original contract price are not recovered in the pricing of change orders or of follow-on procurements subject to cost analysis.

§ 1.313 Procurement of parts.

(a) Any part, subassembly or component (hereinafter called "part") for military equipment, to be used for replenishment of stock, repair, or replacement, must be procured so as to assure the requisite safe, dependable, and effective operation of the equipment. (Items procured as spare parts are governed by the "DOD High Dollar Spare Parts Breakout Program" described in DOD Joint Regulation AR 715–22, NAVMATINST P4200.33, AFR 57–6, MCO P4200.13, DSAM 4105.2.) Where it is feasible to do so without impairing this assurance, parts should be procured on a competitive basis, as in the kind of cases described in paragraph (b) of this section. However, where this assurance can be had only if the parts are procured from the original manufacturer of the equipment or his supplier, the procurement should be restricted accordingly, as in the kind of cases described in paragraph (c) of this section.

(b) Parts that are fully identified and can be obtained from a number of known sources, and parts for which fully adequate manufacturing drawings and any other needed data are available (or can be made available in keeping with the policies in Subpart B, Part 9 of this chapter) are to be procured on a competitive basis. In general, such parts are of a standard design configuration. They include individual items that are susceptible of separate procurement, such as resistors, transformers, generators, spark plugs, electron tubes, or other parts having commercial equivalents.

(c) Parts not within the scope of paragraph (b) of this section generally should be procured (either directly or indirectly) only from sources that have satisfactorily manufactured or furnished such parts in the past, unless fully adequate data (including any necessary data developed at private expense), test results, and quality assurance procedures, are available (or can reasonably be made available in keeping with the policies in Subpart B, Part 9 of this chapter) to assure the requisite reliability and interchangeability of the parts, and procurement on a competitive basis would be consistent with the assurance described in paragraph (a) of this section. In assessing this assurance, the nature and function of the equipment for which the part is needed should be considered. Parts qualifying under this criteria are normally sole source or source controlled parts (see MIL-STD 100) which exclusively provide the performance, installation, and interchangeability characteristics required for specific critical applications. To illustrate, acceptable tolerances for a commercial television part may be far less stringent than those for a comparable military motor part, permitting competitive procurement of the former but not of the latter. The existing performance requirements of specially designed military equipment may demand that parts be closely controlled and have proven capabilities of precise integration with the system in which they operate, to a degree that precludes the use of even apparently identical parts from new sources, since the functioning of the whole may depend on latent characteristics of each part which are not definitely known.

(d) When an award is made to a source that has not previously produced the item, the cognizant Government inspection activity and the appropriate contract administration office should be notified by the procurement contracting office that the contractor will be producing the item for the first time.

§ 1.315 Procurement of jewel bearings.

(a) It has been determined that defense interests require the continued maintenance of an active and versatile mobilization base for the production of jewel bearings. This base has been estab-

lished at the Government-owned William Langer Jewel Bearing Plant, Rolla, N. Dak. In support of this policy, Government purchases of jewel bearings shall be made from that plant in all cases where it can meet purchase requirements. Additionally, all procurements of items containing jewel bearings shall provide, in the solicitations and resulting contracts, a requirement that jewel bearings in the quantities, and of the types and sizes necessary for the end items to be supplied under the contract, be purchased from the William Langer Jewel Bearing Plant and be incorporated in the delivered items, subject to the criteria provided in paragraphs (b), (c), and (d) of this section, except:

(1) When quantity requirements, quality standards, or delivery requirements cannot be satisfied by bearings manufactured at the William Langer Jewel Bearing Plant;

(2) For purchases of commercial end items or of military end items having jeweled components used in commercial end items, when the quantities of such end items or components are such that the contracting officer either knows or reasonably expects that all such commercial end items or commercial components of military end items are already manufactured and available from the stock of any dealer, wholesaler, distributor, or manufacturer; or

(3) For bearings used in items that are to be procured and used outside the United States, its possessions, and Puerto Rico.

(b) In order to assure that all bidders or offerors are competing on the same basis, it is necessary that the solicitation for items containing jewel bearings clearly state:

(1) The successful contractor will be required to purchase (directly or through subcontractors, as appropriate) William Langer Jewel Bearing Plant bearings at prices established in the U.S. Government Jewel Bearing Price List then in effect, and to incorporate such bearings in the items to be delivered; and

(2) Bids or proposals are to be predicated on this requirement.

If it should occur, after award, that the William Langer Jewel Bearing Plant rejects the contractor's (or subcontractor's) purchase order entirely or in part, the contractor (or subcontractor) shall be required to so notify the contracting officer who will effect an equitable adjustment in the contract price to reflect any costs or savings accruing to contractor by reason of any price differential for such bearings, pursuant to the clause of this contract entitled "Changes."

(c) To the extent William Langer Jewel Bearing Plant bearings are fungible with other bearings and it is not practical or would be costly to segregate jewel bearing inventories or work in process for items to be furnished the Government from that to be furnished commercial customers, or for other similar reasons, it may be in the Government's interest to waive the use requirements at the discretion of the contracting officer. No waiver will be granted to prospective contractors prior to award and no assurance will be given prior to award to any prospective contractors that such waiver will be granted after award. Minor inconvenience to contractors alone will not satisfy the need for demonstrating that the Government's interests are served by such waiver. When the use requirement is waived, an equitable adjustment for cost savings resulting therefrom shall be made.

(d) In circumstances where a procurement is not exempt from this procedure but it would be impractical or contrary to the Government's best interest to require actual use of all of the William Langer Jewel Bearing Plant bearings required to be purchased, the contracting officer may provide in the solicitation and resulting contract that a minimum fixed percentage of the total bearings requirements be of William Langer Jewel Bearing Plant origin, or that William Langer Jewel Bearing Plant bearings be purchased for and used in a certain number of the total items to be supplied.

(e) In all procurements subject to these procedures, the following clause is required for use:

REQUIRED SOURCES FOR JEWEL BEARINGS (APRIL 1967)

Jewel bearings required in the performance of this contract shall be procured from the William Langer Jewel Bearing Plant, Rolla, N. Dak., at prices established in the Official U.S. Government Jewel Bearing Price List dated (insert latest effective date). The Contractor agrees that the delivery dates specified for the quantities and types of jewel bearings so ordered will be reasonably related to manufacturing schedules and delivery requirements of this contract. The Contractor agrees to notify the Contracting Officer promptly of the rejection of his (or any subcontractor) purchase order in whole or in part by the William Langer Jewel Bearing Plant and further agrees to an equitable adjustment in the contract price pursuant to the "Changes" clause of this contract to reflect any costs or savings to the Contractor (or subcontractor) resulting from such rejection. The Contractor further agrees to incorporate or to have his subcontractors incorporate the purchased William Langer Jewel Bearing Plant jewel bearings in the items to be delivered under this contract.[1] The requirement for use (but not the requirement for purchase) of such bearings may be waived in the discretion of the Contracting Officer when such waiver is determined by him to be in the Government's interest, and where agreement is reached for an equitable adjustment in the contract price by reason of such waiver.

[1] Where less than total purchase and usage of William Langer Jewel Bearing Plant bearings is to be required, substitute "The Contractor further agrees to purchase and incorporate William Langer Jewel Bearing Plant bearings in items to be delivered under this contract equivalent to at least ____ percent of the total quantity of bearings required to perform this contract." (Percentage to be inserted by Contracting Officer.) In lieu of a percentage, the clause may refer to specific quantities of items listed in the schedule for which William Langer Jewel Bearing Plant bearings must be purchased and used.

§ 1.319 Renegotiation performance reports.

• • • • •

(f) *Advanced-development, engineering-development, and operational-systems-development and production contracts.* Upon request of the Renegotiation Board, the Director of Contractor Performance Evaluation, Office of the Assistant Secretary of Defense (Installations and Logistics) (see § 4.117 of this chapter) shall furnish Contractor Performance Evaluation Reports on advance-development contracts, engineering-development contracts, and operational-systems-development contracts and production contracts which follow or are concurrent with the development contracts that are evaluated.

§ 1.905–3 Sources of information.

• • • • •

(c) Existing information within the Department of Defense—including records (e.g., § 4.117 of this chapter) on file and knowledge of personnel within the purchasing office making the procurement, other purchasing offices, related activities, contract administration offices, audit activities, and offices concerned with contract financing.

• • • • •

§ 1.1002–1 [Amended]

3. In § 1.1002–1, the reference "4.205–2" is changed to read "4.106–2".

§ 1.1003–4 [Amended]

4. In § 1.1003–4, the reference "4.203" is changed to read "4.103".

PART 2—PROCUREMENT BY FORMAL ADVERTISING

5. In § 2.201, new subparagraph (11) is added to paragraph (a); new subparagraphs (15) and (23) are added to paragraph (b); and subparagraph (7) in paragraph (c) is revised, as follows:

§ 2.201 Preparation of invitation for bids.

• • • • •

(a) • • •

(11) DD Form 1423 (Contract Data Requirements List) (see § 16.815 of this chapter); a line item in the Schedule referring to DD Form 1423 and requiring delivery of all data listed thereon; and a provision in the Schedule requesting the bidder to complete Items 25 and 26 of the form.

• • • • •

(b) • • •

(15) If the contract is for laundry and dry cleaning services, the provision required by § 22.702–1 of this chapter.

• • • • •

(23) If the contract involves performance of services on a Government installation, the following provision.

Site visit. Bidders are urged and expected to inspect the site where services are to be performed and to satisfy themselves as to all general and local conditions that may affect the cost of performance of the contract, to the extent such information is reasonably obtainable. In no event will a failure to inspect the site constitute grounds for withdrawal of a bid after opening or for a claim after award of the contract. (APRIL 1967)

(c) • • •

(7) Information as to what utilities the Government will furnish during construction, when the contracting officer determines that any utilities are adequate for the needs of both the Government and the contractor. Such information shall specify any special conditions of use to be imposed on the contractor and shall also specify any utilities to be furnished without charge; utilities shall be furnished without charge when the contracting officer determines that this is advantageous to the Government, as when the administrative costs incident to maintaining records and collecting payments will approximate the cost of the utility services to be furnished. Such information may also include any applicable rates to be imposed under the Availability and Use of Utility Services clause (see § 7.602–30 of this chapter).

• • • • •

6. New paragraph (f) is added to § 2.405; subparagraph (2) of § 2.406–3 (b) is revised; and § 2.407–5 is revised, as follows:

§ 2.405 Minor informalities or irregularities in bids.

• • • • •

(f) Failure to complete Items 25 and 26 on DD Form 1423, Contract Data Requirements List (see § 16.815 of this chapter).

§ 2.406–3 Other mistakes.

• • • • •

(b) • • •

(2) Department of the Navy: To the Assistant Commander for Contracts, Naval Facilities Engineering Command Headquarters; the Deputy Commander Purchasing, Naval Supply Systems Command Headquarters.

• • • • •

§ 2.407–5 Other factors to be considered.

(a) The factors set forth in subparagraphs (1) through (6) of this paragraph, among others, may be considered in evaluating bids.

(1) Foreseeable costs or delays to the Government resulting from differences in inspection, location of supplies, transportation, etc. If, pursuant to Subpart M, Part 1 of this chapter, bids are on an f.o.b. origin basis, transportation costs to the designated destination points shall be considered in determining the lowest cost to the Government.

(2) Changes made or requested in any of the provisions of the solicitation to the extent that any such change does not constitute grounds for rejection of the bid under the provisions of § 2.404.

(3) Advantages or disadvantages to the Government that might result from making multiple awards (see § 2.201(b)(19)).

(4) Qualified products (see Subpart K of this part).

(5) Federal, State, and local taxes (see Part 13 of this chapter).

(6) Origin of supplies, whether domestic or foreign, and if foreign, the application of the Buy American Act or any other prohibition on foreign purchases (see Part 6 of this chapter).

(7) Estimated data prices submitted on DD Form 1423 (Contract Data Requirements List) (see § 2.201(b)(11)) and § 16.815 of this chapter) shall not be considered in evaluating bids.

PART 3—PROCUREMENT BY NEGOTIATION

7. The introductory text of § 3.101 is revised; §§ 3.109 and 3.405–3 are revised; in § 3.405–5, paragraphs (c)(1) and (d)(3) are revised; and in § 3.501(b), subparagraphs (2) and (16) are revised and new subparagraphs (57) and (65) are added, as follows:

§ 3.101 Negotiation as distinguished from formal advertising.

Whenever supplies or services are to be procured by negotiation (see Subparts A and B of Part 16 of this chapter), price quotations, supported by statements and analyses of estimated costs or other evidence of reasonable prices and other vital matters deemed necessary by the contracting officer (see § 3.807), shall be solicited from the maximum number of qualified sources of supplies or services consistent with the nature of and requirements for the supplies or services to be procured, in accordance with the basic policies set forth in Subpart C, Part 1 of this chapter (for research and development, see § 4.106 of this chapter), to the end that the procurement will be made to the best advantage of the Government, price and other factors considered. Unless award without written or oral discussion is permitted under § 3.805–1(a), negotiation shall thereupon be conducted, by contracting officers and their negotiators, with due attention being given to the following and any other appropriate factors:

• • • • •

§ 3.109 Abstract of proposals.

The abstract of proposals required by § 1.308 of this chapter shall be prepared on Abstract of Bids (DD Form 1501) or Abstract of Bids—Construction (DD Form 1501–1) appropriately modified (see § 16.817 of this chapter) to include all the information necessary for evaluation (but see §§ 3.507–2 and 3.805–4(b)). These forms need not be used in the case of procurement from a single source of supply, for research and development, for the chartering of vessels by the Military Sea Transportation Service, or for the procurement of coal and petroleum products by the Defense Fuel Supply Center.

§ 3.405–3 Cost-sharing contract.

A cost-sharing contract is a cost-reimbursement type contract, for use in a research or development procurements, under which the contractor is reimbursed only for an agreed portion of his allowable costs. The contractor agrees to absorb a portion of the costs of performance in the expectation of substantial compensating benefits. For instructions governing the use of cost-sharing contracts, see § 4.108 of this chapter.

§ 3.405–5 Cost-plus-a-fixed-fee contract.

• • • • •

(c) *Limitations.* (1) This type of contract normally should not be used in the development of major weapons and equipment, once preliminary exploration and studies have indicated a high degree of probability that the development is feasible and the Government generally has determined its desired performance objectives and schedule of completion (See § 3.405–4). The cost-plus-a-fixed-fee contract shall not be used for procurements categorized as either Engineering Development or Operational System Development (see § 4.101(a) (6) and (7) of this chapter. For contracts exceeding $1 million, exceptions to this policy must be processed in accordance with procedures authorized in § 1.109–3 of this chapter; and in all other cases, in accordance with the procedures authorized in § 1.109–2 of this chapter.

• • • • •

(d) • • •

(3) The Completion form of contract, because of differences in obligation assumed by the contractor, is to be preferred over the Term form whenever the work itself or specific milestones can be defined with sufficient precision to permit the development of estimates within which prospective contractors can reasonably be expected to complete the work, as is usually the case in advanced development and engineering development. A milestone is a definable point in a program when certain objectives can be said to have been accomplished. In contracting for Advanced Development work (see § 4.101(a)(3) of this chapter), an incentive contracting arrangement is preferred; however, if it is necessary to use a cost-plus-fixed-fee contract, it shall be the Completion form.

• • • • •

§ 3.501 Preparation of request for proposals or request for quotations.

• • • • •

(b) • • •

(2) Name and address of issuing activity, channels for submission of offer, exact location, including room and building numbers where offers including a hand carried offer must be submitted, and identification of the Government office or individual responsible for supplying additional information and answering inquiries;

• • • • • •

(16) Factors other than price (including technical quality where technical proposals are requested), which will be given paramount consideration in the awarding of the contract;

• • • • •

(57) If the contract involves performance of services on a Government installation, the following provision.

Site visit. Offerors are urged and expected to inspect the site where services are to be performed and to satisfy themselves as to all general and local conditions that may affect the cost of performance of the contract, to the extent such information is reasonably obtainable. In no event will a failure to inspect the site constitute grounds for a claim after award of the contract. (APRIL 1967)

• • • • •

(65) DD Form 1423 (Contract Data Requirements List) (see § 16.815 of this chapter); a line item in the Schedule referring to DD Form 1423 and requiring delivery of all data listed thereon; a provision in the Schedule requesting the offeror to complete Items 25 and 26 of the form; and the following provision either in the Schedule or on the form.

CONTRACTOR'S DATA CERTIFICATION (APRIL 1967)

The offeror shall submit with his offer a certification as to whether he has delivered or is obligated to deliver to the Government under another contract or subcontract the same data; if so, he shall identify one such other contract or subcontract for each item of data and state where he has already delivered such data.

• • • • •

8. In § 3.507–1, paragraphs (d) and (e) and footnote 2 to the legend in paragraph (a) are revised; in § 3.608–(b), subparagraph (2) is revised; and paragraph (c) in § 3.608–4 is revised, as follows:

§ 3.507–1 Restrictions on disclosure and use of data in proposals and quotations.

(a) • • •

• • • • •

(d) Proposals, solicited and unsolicited, shall be maintained and disposed of pursuant to § 1.208 of this chapter and related S2–102.1(xi) and S2–501.

(e) See § 4.106–1(e) of this chapter for further provisions with respect to unsolicited proposals.

§ 3.608–2 Order for Supplies or Services/Request for Quotations (DD Forms 1155, 1155r, 1155r–1; Standard Form 36; DD Form 1155c–1 and Standard Form 30).

• • • • •

(b) • • •

(2) *Use as a purchase order of not more than $5,000 outside the United States, its possessions, and Puerto Rico.* DD Form 1155 and 1155r–1, with executed contractor's acceptance when required, are authorized for negotiated purchases of not more than $5,000 when such purchases are for supplies and services procured and used outside the United States, its possessions, and Puerto Rico, provided:

(i) The procurement is unclassified;

(ii) No clauses covering the subject matter of any clause set forth in this subchapter, other than clauses set forth in DD Form 1155r–1, are to be used, except that—

(a) Either the standard foreign Disputes clauses in § 7.103–12(b) of this chapter or that clause as modified in accordance with § 7.103–12(c) of this chapter shall be inserted in the schedule.

(b) When the contract is translated into another language, the following clause shall be inserted in the schedule:

INCONSISTENCY BETWEEN ENGLISH VERSION AND TRANSLATION OF CONTRACT (APRIL 1966)

In the event of inconsistency between any terms of this contract and any translation thereof into another language, the English language meaning shall control.

(c) When Government property having acquisition cost in excess of $25,000 is to be furnished (for use in performance of contract or for repair), the Government Property (Fixed Price) clause in § 13.702 of this chapter shall be inserted in the Schedule in accordance with instructions in § 13.702(b) of this chapter. Where Government property having an acquisition cost not in excess of $25,000 is to be furnished for use in performance of the contract or for repair, the Government-Furnished Property (Short Form) clause in § 13.710 of this chapter shall be inserted in the Schedule in accordance with instructions in § 13.710(b) of this chapter: *Provided*, That, use of the clause shall be optional where the acquisition cost of property furnished for repair is not in excess of $2,500. Where a Government Property clause is inserted in the Schedule the contractor's signature shall be obtained on DD Form 1155r–1.

(d) The Commercial Warranty clause in § 1.324–2(c) of this chapter, modified to insert the words "United States" before the word "Government" therein, may be used in accordance with the provisions of that paragraph.

(iii) The Additional General Provisions on DD Form 1155r–1 are made applicable and the contractor's acceptance is obtained on DD Form 1155r–1 when the purchase exceeds $2,500; and

(iv) In purchases in excess of $2,500, the Communist Areas clause in § 6.403 of this chapter shall be inserted in the Schedule.

The contracting officer may delete the Taxes clause from the DD Form 1155r–1 in purchases under $1,000 if he determines that the administrative burden of securing relief from such taxes would be out of proportion to the relief obtained: *Provided*, That such clause shall be included in all contracts in support of NATO infrastructure programs involving the expenditures of funds under section 503(b) of the Foreign Assistance Act of 1961, as amended (see § 11.403–1 (a) of this chapter).

• • • • •

§ 3.608–4 Obtaining contractor acceptance and modifying the purchase order.

• • • • •

(c) The Additional General Provisions on DD Form 1155r–1 shall be made applicable and the contractor's acceptance shall be obtained on DD Form 1155r–1 for all purchases in excess of $2,500 which are made in accordance with § 3.608–2(b)(2).

• • • • •

[1] If proposal is unsolicited (see § 4.101(c) of this chapter, delete "furnished in connection with Request for Proposals No. ——".

§ 3.707 [Amended]

9. In § 3.707, the reference "4.308" is changed to read "4.110".

10. Section 3.802–2 is revised; in § 3.805–1, the introductory text of paragraph (a) and all of paragraphs (c) and (d) are revised; and new § 3.807–12 is added, as follows:

§ 3.802–2 Selection of prospective sources.

Selection of qualified sources for solicitation of proposals is basic to sound pricing. Proposals should be solicited from a sufficient number of competent potential sources to insure adequate competition. (See §§ 1.302, 1.702, 1.902, 3.101, 3.104, 3.105, 4.106–1, and 12.102 of this chapter.) The bidders mailing lists prescribed by § 3.503 should be used when appropriate.

§ 3.805–1 General.

(a) After receipt of initial proposals, written, or oral discussions shall be conducted with all responsible offerors who submit proposals within a competitive range, price, and other factors (including technical quality where technical proposals are requested) considered, except that this requirement need not necessarily be applied to:

• • • • •

(c) Except where cost-reimbursement type contracts are to be used (see § 3.805–2), a request for proposals may provide that after receipt of initial technical proposals, such proposals will be evaluated to determine those which are acceptable to the Government or which, after discussion of those within a competitive range, can be made acceptable, and upon submission of prices thereafter, award shall be made to that offeror of an acceptable proposal who is the low responsible offeror.

(d) The procedures set forth in paragraphs (a), (b), and (c) of this section may not be applicable in appropriate cases when special services (such as architect-engineer services) or when cost-reimbursement type contracting is anticipated. Moreover award of such contract and R&D contracts may be properly influenced by the proposal which promises the greatest value to the Government in terms of possible performance, technical quality ultimate producibility, growth potential, and other factors rather than the proposals offering the lowest price or probable cost and fixed fee.

• • • • •

§ 3.807–12 Estimated data prices (DD Form 1423).

(a) The Department of Defense requires estimates of the prices of data in order to evaluate the cost to the Government of data items in terms of their management, product, or engineering value.

(b) When data is required to be delivered under a contract, § 3.501(b)(65) and § 16.815 of this chapter require inclusion in the solicitation of DD Form 1423, Contract Data Requirements List; the form and the provision included in the solicitation under § 3.501(b)(65) request the offeror to state what portion of the total price is estimated to be attributable to the production or development of the listed data for the Government (not to the sale of rights in the data). However, offerors' estimated prices may not reflect all such costs, and different offerors may reflect these costs in a different manner, for the following reasons:

(1) Differences in business practices in competitive situations;

(2) Differences in accounting systems among offerors;

(3) Use of factors or rates on some portions of the data;

(4) Application of common effort to two or more data items;

(5) Differences in data preparation methods among offerors.

For these and other reasons, data price estimates should not be used for contract pricing purposes without further analysis.

(c) The contracting officer shall assure to the extent practicable that the negotiated price does not include any amount for data which the contractor has submitted or is obligated to submit to the Government under another contract or subcontract, and that the successful offeror furnishes the certification required by the solicitation (see § 3.501(b)(65)).

(d) The provisions on the form specify that, regardless of whether the contractor has entered estimated data prices on the form and regardless of what price he enters, he is obligated to deliver all the data listed on the form and the price he is to be paid therefor is included in the total price specified in the contract.

§ 3.808–5 [Amended]

11. In § 3.808–5(d)(2), the reference "4.215" is changed to read "4.117".

PART 4—SPECIAL TYPES AND METHODS OF PROCUREMENT

12. A new Subpart A is added and Subparts B and C are revoked, as follows:

Subpart A—Procurement of Research and Development

Sec.
4. 100 Scope of Subpart.
4. 101 Definitions.
4. 102 General policy.
4. 103 Publicizing procurement actions and expanding sources.
4. 104 Method of contracting.
4. 105 Statement of work.
4. 106 Selection of research and development contractors.
4. 106–1 Selection of sources.
4. 106–2 Solicitation.
4. 106–3 Conduct of negotiations.
4. 106–4 Evaluation for award.
4. 106–5 Evaluation of price and costs.
4. 106–6 Profit or fee.
4. 106–7 Documentation.
4. 107 Concept formulation and contract definition.
4. 108 Grants for basic research.
4. 109 Types of contracts most applicable for research and development.
4. 110 Cost-sharing policy.
4. 111 Special use allowances for research facilities acquired by educational institutions.
4. 112 Placing subcontracts for research and development effort.
4. 113 Scientific and technical reports.
4. 114 Data under research and development contracts.
4. 115 Insurance under research and development contracts.
4. 115–1 Contractor immunity from liability for torts.
4. 115–2 Indemnification against unusually hazardous risks.
4. 116 Government property under research and development contracts.
4. 116–1 General.
4. 116–2 Control of Government property in possession of research and development contractors.
4. 116–3 Providing Government production and research property.
4. 116–4 Transfer of title to equipment to nonprofit educational or research institutions.
4. 117 Contractor performance evaluation program.

AUTHORITY: The provisions of this Subpart A issued under sec. 2202, 70A Stat. 130; 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 4.100 Scope of subpart.

Procurement procedures of special application to research and development contracts are set forth in this subpart, and in certain instances other portions of this subchapter having particular significance to research and development contracts are cross-referenced herein. This subpart, however, does not purport to contain or cross-reference all provisions of this subchapter applying to research and development contracts. Other provisions of this subchapter are also applicable to research and development contracts and shall be adhered to where applicable.

§ 4.101 Definitions.

(a) The following terms and categories relating to "research and development" are those set forth by the Department of Defense for management of RDT&E programs. However, the term "research and development" as used in this regulation ordinarily encompasses only the first six categories below. Generally, it does not cover categories subparagraphs (7) and (8) of this paragraph. For example, construction of recreational facilities at an installation used exclusively or generally for research and development would not be procurement of "research and development" under this subchapter. Nevertheless, in an exceptional case, depending upon the particular facts, some kinds of work within categories in subparagraphs (7) and (8) could be "research and development" within this subchapter.

(1) *Research.* Includes all effort directed toward increased knowledge of natural phenomena and environment and efforts directed toward the solution of problems in the physical, behavioral and social sciences that have no clear direct military application. It would, thus, by definition, include all basic research and, in addition, that applied research directed toward the expansion of knowledge in various scientific areas. It does not include efforts directed to prove the feasibility of solutions of problems of immediate military importance or time-oriented investigations and developments.

(2) *Exploratory development.* Includes all effort directed toward the solution of specific military problems, short of major development projects. This type of effort may vary from fairly fundamental applied research to quite sophisticated bread-board hardware, study, programing, and planning efforts. It would thus include studies, investigations and minor development effort. The dominant characteristic of this category of effort is that it be pointed toward specific military problem areas with a view toward development and evaluating the feasibility and practicability of proposed solutions and determining their parameters.

(3) *Advanced development.* Includes all effort directed toward projects which have moved into the development of hardware for experimental or operational test. It is characterized by line item projects and program control is exercised on a project basis. A further descriptive characteristic lies in the design of such items being directed toward hardware for test or experimentation as opposed to items designed and engineered for eventual Service use.

(4) *Concept formulation.* Describes the activities preceding a decision to carry out Engineering Development or Operational Systems Development. These activities include accomplishment of comprehensive system studies and experimental hardware efforts under Exploratory and Advanced Development, and are prerequisite to a decision to carry out Engineering or Operational Systems Development.

(5) *Contract definition.* (Formerly referred to as Project Definition Phase)—is that phase during which preliminary design and engineering are verified or accomplished, and firm contract and management planning are performed.

(6) *Engineering development.* Includes all effort directed toward those development programs being engineered for Service use but which have not yet been approved for procurement or operation. This area is characterized by major line item projects and program control will be exercised by review of individual projects.

(7) Operational system development. Includes all effort directed toward development, engineering and test of systems, support programs, vehicles and weapons that have been approved for production and Service deployment. This area is included for convenience in considering all RDT&E projects. All items in this area are major line item projects which appear as RDT&E Costs of Weapons Systems Elements in other programs. Program control will thus be exercised by review of the individual research and development effort in each Weapon System Element.

(8) *Management and Support.* Includes all effort directed toward support of installations or operations required for general research and development use. Included would be military construction of a general nature unrelated

to specific programs, maintenance support of laboratories, operation and maintenance of test ranges, and maintenance of test aircraft and ships. Costs of laboratory personnel, either in-house or contract-operated, would be assigned to appropriate projects or as a line in the Research, Exploratory Development, or Advanced Development Program areas, as appropriate. Military construction costs directly related to a major development program will be included in the appropriate element.

(b) "Educational or other nonprofit organization" means any corporation, foundation, trust, or institution operated for scientific, educational, or medical purposes, not organized for profit, no part of the net earnings of which inures to the profit of any private shareholder or individual.

(c) "Unsolicited proposal" is a research or development proposal which is made to the Government by a prospective contractor without prior formal or informal solicitation from a purchasing activity. See also §§ 4.106–1(a) and 4.106–2(d)(2).

§ 4.102 General policy.

A fundamental mission of research and development programs is to maintain scientific and technological superiority required to promote and advance the effectiveness of military operations. The accomplishment of this mission requires the broadest possible base of contractor and subcontractor sources including the optimum use of manpower and resources. It is essential that the best technical competence be located and fully utilized. The procurement pattern of research and development must be responsive to the achievement of these goals on a timely basis.

§ 4.103 Publicizing procurement actions and expanding sources.

The Departments shall continually search for and develop information on sources (including small business concerns) competent to perform research and development. Advance publicity, including use of the Commerce Business Daily (see § 1.1003–4 of this chapter) to the fullest extent practicable, shall be given for this purpose. The search should include (a) a review of relevant data or brochures furnished by sources seeking research and development work and (b) a cooperative effort by technical personnel, small business specialists, and contracting officers to obtain information and recommendations with respect to potential sources and to consider the desirability of seeking other sources by publication of proposed procurements, in addition to the synopsis requirement.

§ 4.104 Method of contracting.

In research and development procurements it is generally not possible to formulate precise specifications necessary for formal advertising and, therefore, negotiation is necessary. The inherent difficulties in obtaining research and development by formal advertising are recognized by the exception in § 3.211 of this chapter. However, two-step formal advertising as stated in Subpart E, Part 2 of this chapter, may be useful, for example, in the case of an advanced developmental project. While the use of negotiation is the general rule for research and development contracts, this does not diminish the obligation to obtain competition to the maximum practicable extent. (See Subparts A and B, Part 3 of this chapter.)

§ 4.105 Statement of work.

(a) The preparation and use of a clear and complete statement of work is essential to sound contracting for research and development. In research, exploratory development and advanced development, statements of work must be individually tailored by technical and contracting personnel to attain the desired degree of flexibility for contractor creativity, both in submitting proposals and in contract performance. Careful distinction must be drawn between level-of-effort work statements, which essentially require the furnishing of technical effort and a report on the results thereof, and task completion type work statements which often require development of tangible end items designed to meet specific performance characteristics.

(b) In preparing statements of work, the following elements shall be considered:

(1) A general description of the required objectives and desired results;

(2) Background information helpful to a clear understanding of the requirements and how they evolved;

(3) Technical considerations, such as any known specific phenomena or techniques;

(4) A detailed description of the technical requirements and subordinate tasks;

(5) A description of reporting requirements and any other deliverable items, such as data, experimental hardware, mock-ups, prototypes, etc., and

(6) Other special considerations.

§ 4.106 Selection of research and development contractors.

§ 4.106–1 Selection of sources.

(a) *General.* Through its research and development programs, the Department of Defense must seek the most advanced scientific knowledge attainable and the best possible equipment, weapons, and weapon systems that can be devised and produced. This means two things. First, it means seeking the best scientific and technological sources consistent with the demands of the proposed procurement for the best mix of cost, performances and schedules. Second, it means unremitting efforts to increase the number of qualified sources, and to encourage participation by small business concerns, as well as others, in Defense research and development. See also § 1.903 of this chapter.

(b) *Small business sources.* (1) Contracting officers, technical personnel, and small business specialists shall cooperatively seek and develop information on the technical competence of small business concerns for research and development contracts. Small business specialists shall regularly bring to the attention of contracting officers and technical personnel descriptive data, brochures, and other information as to small business concerns that are apparently competent to perform research or development work in fields in which the purchasing activity is interested.

(2) In order to cooperate with the Small Business Administration in carrying out its responsibility of assisting small business concerns to obtain contracts for research and development, contracting officers, technical personnel and small business specialists shall, upon request, provide to authorized SBA representatives information necessary to understand the Government's needs concerning research and development programs under consideration for specific future procurement actions. Normally, this information shall be provided to SBA representatives assigned to a purchasing activity, as early as practicable, and shall cover the Government's requirements for each proposed research and development procurement exceeding $10,000. To the maximum extent feasible, SBA shall be afforded a minimum of 15 working days to provide pertinent information concerning qualified potential small business sources developed through its investigation of the capabilities of specific firms in the particular field of research and development covered by such procurements. Full evaluation shall be given to any such information in selecting qualified sources. Exception to the policy of providing SBA a minimum 15 working day interval to recommend additional qualified small research and development sources for a proposed procurement will be permitted only in those cases where the head of the purchasing activity or his designated representative advises the SBA representative that such action would result in unjustifiable delay.

(c) *Recommendations by technical personnel.* Recommendations as to which potential sources are technically qualified shall be made by cognizant technical personnel after review of the information obtained as a result of advance publicity (see § 4.103), and, as appropriate, on the basis of discussion with potential sources (either singly or in a group), correspondence or suitable surveys.

(d) *Research and development pools.* See § 1.302–3 of this chapter.

(e) *Unsolicited proposals.* (1) Unsolicited proposals may be the product of original thinking and generally are the property of the organization or individual who presents them. They are offered in the hope that the Government will contract with the offeror for further research on, or development of, the ideas they contain. Accordingly, it is important that such proposals received by purchasing activities be handled in a manner which will encourage prospective contractors to disclose to the Government ideas which they have originated, conceived, or developed.

(2) The submitter of an unsolicited proposal may mark it with a legend, such as that provided in § 3.507–1(a) of this chapter, restricting the disclosure and use of data in the proposal. If a proposal is so marked, the terms of the legend shall be complied with.

(3) If the contracting officer receives an unsolicited proposal marked with a more restricted legend than that provided in § 3.507–1(a) of this chapter, then he shall immediately return the proposal to the submitter with a letter stating that the proposal cannot be considered because it is impracticable for the Government to comply with the legend (and pointing out specifically why this is so), but that the proposal will be considered if it is resubmitted with a satisfactorily revised legend or with the legend provided in § 3.507–1(a) of this chapter.

(4) If the contracting officer receives an unsolicited proposal without any restrictive legend, he shall place a cover sheet on the proposal or otherwise clearly mark it substantially as follows—and the terms of the notice shall be complied with—unless the submitter gives a clear written indication that he does not wish to impose any restrictions on the disclosure or use of the data contained in the proposal.

UNSOLICITED PROPOSAL

USE OF DATA LIMITED

All Government personnel handling this proposal shall exercise EXTREME CARE to insure that the information contained herein is NOT DISCLOSED outside the Government and is NOT DUPLICATED, USED, OR DISCLOSED in whole or part for any purpose other than to evaluate the proposal, without the written permission of the submitter (except that if a contract is awarded on the basis of this proposal, the terms of the contract shall control disclosure and use).

This notice does not limit the Government's right to use information contained in the proposal if it is obtainable from another source without restriction.

This is a Government notice, and shall not by itself be construed to impose any liability upon the Government or Government personnel for any disclosure or use of data contained in this proposal.

(5) The submitter of an unsolicited proposal is not necessarily entitled to preferential treatment in the award of any contract because of his submission of such a proposal. See § 4.106–3(d)(2).

§ 4.106–2 Solicitation.

(a) To reduce the number of technical proposals, the preparation of which can be both costly and wasteful of scientific or engineering manpower, contracting officers should request proposals only from sources which have been technically evaluated and found qualified to perform research or development in the specific field of science or technology involved. Where several sources are found fully qualified technically, proposals generally shall be solicited from each such source. Sources which become known as a result of synopses or other means of publicizing requirements shall be sent requests for proposals if such sources have been technically evaluated and determined reasonably qualified to perform, and possess the necessary security clearance. When a source not initially solicited requests a copy of a solicitation and such source has been technically evaluated within the past 6 months and determined not qualified, he may be so advised and his request denied. In the event such source has not been technically evaluated within the past 6 months a copy of the request for proposal shall be furnished but only after advice has been given to the source making the request as to the reasons for the limited solicitation and, as appropriate, the unlikelihood of any other source being able to qualify for a contract award under the circumstances. The formal solicitation process described above is not the only method of entering into contracts for research and development. The ongoing research and development work pursued in industrial laboratories is producing ideas and products of interest to the Government; this is especially true in the exploratory and advanced development segment of the research and development spectrum. In the R&D areas where there has been unique and significant industrial accomplishment by a specific concern, the establishment of specifications for solicitation of others may defeat the purpose of taking advantage of this industrial initiative. When a contractor has a new idea or product in the fields of exploratory development or advance development there should be no hesitancy to discuss it with him, encourage him to submit a proposal, and to negotiate directly with him. Subject to § 3.211 of this chapter, this can be done without a formal solicitation. Where there is no substantial question as to the choice of the source, as illustrated in paragraph (d) of this section, solicitations may be limited to a single source.

(b) In soliciting proposals for the conduct of research and exploratory development, it may be desirable for the Government to furnish prospective contractors with certain information to elaborate on the proposed statement of work, permit optimum response by offerors, and allow more timely and comparable evaluation of proposals by the Government. This information normally should consist of the Government's estimate of the scientific and technical manpower, or other reasonable indicators, it envisions when it is not possible to describe the magnitude of the proposed work to a sufficiently definitive degree. For example, the estimated effort may be expressed in terms of numbers of man-months or years in particular occupational categories. This technique may be appropriate in cases of contracts for research studies, investigations, or laboratory scale evaluations of feasibility where the Government desires to limit the scope of effort or depth of research. Where the degree of effort type of information is furnished, it should be made clear that such information is advisory only and is not cause for restricting what the contractor believes to be a meritorious technical proposal.

(c) In addition to paragraph (a) of this section, exploratory requests may be used to determine the existence of ideas or prior work in specific fields of research. However, the request for such information shall clearly state that it does not impose any obligation on the Government or signify a firm intention of the Government to enter into a contract.

(d) The following examples are illustrative of circumstances where there may be no substantial question as to choice of source:

(1) As a result of thorough technical evaluation, only one source is found fully qualified to perform the proposed work.

(2) The purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source.

(3) Where the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support.

(e) In all procurements of research or development in which no small business source was solicited for a proposal, a statement shall be included in the solicitation file setting forth the reasons for not soliciting small business.

§ 4.106–3 Conduct of negotiations.

See §§ 3.804 and 3.805 of this chapter. The contracting officer should make certain that each prospective contractor fully understands the details of the various phases of the Government's requirement, especially the statement of work. This may be best accomplished by conferences between a prospective contractor, the contracting officer, and appropriate technical personnel, particularly where there is doubt that a work statement is understood or will be interpreted correctly by prospective contractors.

§ 4.106–4 Evaluation for award.

(a) Generally, research and development contracts should be awarded to those organizations, including educational organizations, which have the highest competence in the specific field of science or technology involved. However, awards should not be made for research or development capabilities that exceed those needed for the successful performance of the work.

(b) Before determining the technical competence of prospective contractors, and recommending to the contracting officer the concern or concerns that they consider most technically competent, cognizant technical personnel shall consider the following:

(1) The contractor's understanding of the scope of the work as shown by the scientific or technical approach proposed;

(2) Availability and competence of experienced engineering, scientific, or other technical personnel;

(3) Availability, from any source, of necessary research, test, and production facilities;

(4) Experience or pertinent novel ideas in the specific branch of science or technology involved; and

(5) The contractor's willingness to devote his resources to the proposed work with appropriate diligence.

(c) In determining to whom the contract shall be awarded, the contracting officer shall consider not only technical competence, but also all other pertinent factors including management capabilities, cost controls including the nature and effectiveness of any cost reduction program (see § 3.101(h) of this chapter), and past performance in adhering to contract requirements, weighing each factor in accordance with the requirements of the particular procurement (see § 1.903 of this chapter). The contracting officer shall notify those sources whose proposals or offers have been determined to be unacceptable of that decision in accordance with § 3.508 of this chapter.

(d) In evaluating proposals for contracts in excess of $1 million for advanced development, engineering development, operational systems development, and followon or concurrent production contracts, the Source Selection Advisory Council or any other person or group acting in a similar capacity shall obtain from the Defense Documentation Center, Attention: DDC–OSB, Cameron Station, Alexandria, Va. 22314 (see § 4.117), a transcript of the performance evaluations of all contractors submitting acceptable proposals, or a statement that there is no record on file. This transcript or statement may be obtained for a procurement below $1 million. This information shall be furnished within 3 working days from receipt of the request by the Defense Documentation Center.

§ 4.106–5 Evaluation of price and costs.

(a). While cost or price should not be the controlling factor in selecting a contractor for a research or development contract, cost or price should not be disregarded in the choice of the contractor. It is important to evaluate a proposed contractor's cost or price estimate, not only to determine whether the estimate is reasonable, but also to determine his understanding of the project and ability to organize and perform the contract. The most useful tools for this purpose are price analysis and cost analysis (see § 3.807–2 of this chapter.

(b) Price analysis generally considers the overall reasonableness of the proposals in relation to the total contemplated expenditures and the extent and nature of the task scheduled to be accomplished. In most research and development contracts, the inability to define specifications and the nature of the end items prevent the effective use of certain techniques of price analysis, such as comparisons with prior quotations and current prices and evaluations in terms of quantitative yardsticks. The conclusions reached by price analysis techniques must be supported by cost analysis procedures, used to examine the details of the offerors' proposals.

(c) The analysis of cost factors begins with an evaluation of the reliability of the offeror's cost estimating procedures and the dependability of his cost controls, as demonstrated by his history of cost management in the performance of other contracts or by his establishment of sound practices for this purpose. The cost analysis proceeds with a critical examination of the composition of each cost element in terms of its expected application to the objectives of the contract, and its conformance to the accepted principles of allocability and reasonableness. (See Subpart C, Part 15, and § 15.201 of this chapter.) A Government cost estimate may help in projecting tools for these purposes and may develop the expected incidence of various cost factors in relation to performance phases, planned segments, or identifiable "milestones." This estimate should provide a summary forecast of the time, effort, materials, equipment, and services necessary to accomplish the research or development objective. The comparison and reconciliation of the Government cost estimate with the offeror's cost estimate for the same phases, segments, or events should bring into focus any areas of excessive or insufficient emphasis and provide a foundation for meaningful discussions with the offeror.

(d) Special care should be exercised to comply with §§ 15.205–1 and 15.205–33 of this chapter in the allowance of advertising costs under § 15.309–1 of this chapter.

§ 4.106–6 Profit or fee.

See §§ 3.405–1(c), 3.405–6(c), 3.805–2, 3.806, 3.807–10(d), and 3.808 of this chapter.

§ 4.106–7 Documentation.

Contract files for research and development procurement shall be fully documented to include the basis and reasons for the selection of the sources solicited and for the award. Such documentation should be adequate to justify the selection of the contractor over others whose proposals, from the standpoint of some single factor (such as lower estimated costs or shorter performance time), might appear more advantageous to the Government. (See § 1.308 of this chapter.)

§ 4.107 Concept formulation and contract definition.

Policies governing concept formulation and contract definition as set forth in AR–705–4, SECNAV Instruction 3060.33 and AFR 80–26 are applicable to all new (or major modifications of existing) engineering developments and operational systems developments estimated to require total cumulative RDT&E financing in excess of 25 million dollars, or estimated to require a total production investment in excess of 100 million dollars, unless specific waivers are granted by written approval of the Director of Defense Research and Engineering. Other projects may be required to be conducted in accordance with these procedures at the discretion of the individual Departments or as directed by DDR&E. Concept formulation and contract definition have a significant impact on both procurement and research and development personnel, particularly in their advanced planning for a major development program. It is essential that engineering and operational system development policies be considered early in concept formulation in order for procurement to be conducted efficiently and in consonance with these policies.

§ 4.108 Grants for basic research.

Grants are authorized under 42 U.S.C. 1891 for basic research at educational institutions and other nonprofit organizations whose primary purpose is the conduct of scientific research. The policies and procedures for grants are prescribed by other Department of Defense directives as implemented in Departmental procedures.

§ 4.109 Types of contracts most applicable for research and development.

See Subpart D, Part 3 of this chapter.

§ 4.110 Cost-sharing policy.

(a) It is the policy of the Department of Defense to utilize cost-sharing in research or development procurements with contractors, other than educational institutions and foreign governments, only when there is a high probability that the contractor will receive substantial present or future commercial benefits. Accordingly, cost-sharing contracts may be used in such procurements only when:

(1) The contracting officer shows conclusive evidence that there is a high probability that the contractor will receive substantial present or future commercial benefits, and

(2) The Head of a Procuring Activity approves the use of such a contract in writing.

It should be recognized that these controls do not apply to jointly sponsored research or development work with educational institutions or to cost-sharing arrangements between the United States and foreign governments.

(b) Willingness to share costs should not be a factor in competitive source selection. Department of Defense objectives of fostering competition and furthering the Small Business Program will be inhibited unless competition is conducted on terms that provide equitable opportunity for all eligible sources. An award based on ability to share costs rather than on competence does not provide such equitable opportunity and may preclude securing the services of the best qualified source.

(c) Purchasing activities should not include in solicitations statements of work which would require more funds for completion than will be available. Similarly, the prospect of preferred consideration for award of a possible future contract should not be offered or implied as an incentive to induce contractors to enter into cost-sharing arrangements.

§ 4.111 Special use allowances for research facilities acquired by educational institutions.

(a) *Definitions.* As used in this section:

(1) "Special use allowance" means a negotiated direct or indirect allowance for buildings, structures, and real property, other than land, computed at an annual rate in excess of the rate which normally would be allowed under Subpart C, Part 15 of this chapter; and

(2) "Research facility" means real property, other than land, and includes structures, alterations, and improvements, acquired for the purpose of conducting scientific research under contracts with agencies of the Department of Defense.

(b) *Policy.* The expanding requirements of the Department of Defense for the performance of scientific research programs by educational institutions may create special situations wherein the acquisition or construction of additional research facilities by such institutions is essential for the effective performance of scientific research programs of major importance to the Department of Defense. Educational institutions are expected to furnish facilities required for the performance of Defense contracts, and the extent of reimbursement by the Government for the research programs of such institutions shall be governed by the principles set forth in Subpart C, Part 15 of this chapter. However, in certain limited situations an educational institution may be unable to provide capital for new laboratories or other expanded facilities necessitated by Defense contracts unless the institution is given Governmental assistance in return for the risks and expenses it assumes in acquiring or constructing such facilities. Special use allowances constitute a means for recognizing these risks and expenses on the part of the educational institution and also provide a basis for permitting essential governmental research programs to go forward. The resort to special use allowances as provided by this section is an extraordinary type of arrangement and constitutes an exception to the provisions for normal use allowances contained in § 15.309–10 of this chapter. Any specific agreement providing for a special use allowance shall be negotiated on a case-by-case basis using the criteria established herein.

(c) *Authorization of special use allowances.* The Secretary concerned, or his sole designee for the purpose, may approve special use allowances for the acquisition or construction costs of research facilities financed by educational institutions only when all of the following conditions are met:

(1) The research facility is essential to the performance of Department of Defense contracts;

(2) The program requirements cannot be met practically and effectively by existing facilities, either Government or non-Government;

(3) The proposed agreement for the special use allowances represents a sound business arrangement;

(4) It is undesirable or impractical for the Government to provide Government-owned facilities for the performance of the research; and

(5) The proposed use of the research facility is in consonance with the underlying objective of the Government in granting the special use allowance.

(d) *Negotiation and administration of contracts providing for special use allowances.* The negotiation and administration of contracts providing for special use allowances are subject to the conditions set forth in subparagraphs (1) through (13) of this paragraph:

(1) The terms of the agreement for special use allowances authorized herein shall be specified or incorporated by reference in the applicable contracts.

(2) Where the special use allowance is based on the total acquisition cost, no normal use allowance or other use or depreciation charge will apply during the special allowance period nor after the educational institution has recovered the total acquisition cost under Government contracts or from other users. Where the special use allowance is based on less than total acquisition cost of the research facility, the agreement will specify whether any normal use allowance or other use or depreciation charge will apply to the balance during the special use allowance period; however, no more than the normal use allowance computed in accordance with Subpart C, Part 15 of this chapter may be applied thereafter to the balance.

(3) During the period of the special use allowance, and for subsequent periods to the extent agreed upon, the research facility shall be available for Government research use on a priority basis over non-Government use. Any significant use during such period other than that which justified the special use allowance shall be subject to prior consent of the cognizant approval authority specified in this section.

(4) Special use allowances are applicable only in years in which the Government has contracts in effect with the educational institution for research to be conducted in the facility. The Government has no liability to the educational institution for the special use allowance in any year in which there is no Government contract. In any year when the level of research effort under Government contracts has been reduced to a point where the special use allowance is excessive in relation to the extent of the Government research funding, the parties may negotiate a special use allowance for that year at a mutually acceptable rate.

(5) Where more than one Government contract is to be performed in the research facility, special use allowances generally should be allocated to using contracts on an equitable basis.

(6) If during the period when a special use allowance is in effect, any substantial use is made of the research facility for parties other than the Government, only an allocable share of the special use allowance shall be charged to the Government.

(7) Special use allowances shall not include any maintenance, utilities, or other operational costs.

(8) Generally, the period for which a special use allowance is authorized shall be at least 10 years. However, a shorter period of time is authorized where the total amount to be allowed is less than acquisition cost for the research facility.

(9) Reimbursements under contracts for special use allowances shall not commence until the research facility is occupied and used for research under the contract. However, equitable adjustments may be made in the special use allowance during the construction period if the research facility is partially used for research under the contract.

(10) Determination of the amount of a special use allowance shall be based on the comparative need for the research facility by the Department of Defense and by the educational institution. In no event shall the institution be paid more than the acquisition costs.

(11) In establishing the annual special use allowance, due consideration shall be given to rental costs for similar space in the area where the research facility is to be located.

(12) No payment shall be made to the educational institution for costs of land or interest charges on capital, used or borrowed, for the acquisition of the research facility.

(13) Information copies of each special use allowance agreement negotiated shall be furnished to each authorizing official specified in paragraph (c) of this section and to the Director of Defense Research and Engineering, Office of the Secretary of Defense.

§ 4.112 Placing subcontracts for research and development effort.

Since the selection of research or development contractors is based upon seeking the best scientific and technological sources, it is important that the contractor selected on this basis does not in turn subcontract technical or scientific work without prior approval of the contracting officer. The clause prescribed in § 7.402–8 of this chapter, for cost-reimbursement type research and development contracts, requires prior written consent of the contracting officer for the placement of any subcontract which has experimental, developmental, or research work as one of its purposes. During the negotiation of the contract, it is imperative that the contracting officer obtain complete information concerning the contractor's plans for subcontracting any portion of the research or development effort. See §§ 1.906, 3.807–10 and 23.201–2 of this chapter.

§ 4.113 Scientific and technical reports.

(a) Scientific and Technical Reports are documents written for the permanent record to document results obtained from and recommendations made on scientific and technical activities relating to a single project, task, or contract or relating to a small group of closely connected efforts within the Department of Defense Research and Development Program. A completed Document Control Data—R&D (DD Form 1473) is to be included in each copy of a scientific or technical report required by the contract. (See § 16.807 of this chapter.)

(b) Wherever a scientific or technical report is required as a product of the Research, Development, Test, and Evaluation Effort, the contracting officer will assure that the requirement for a completed DD Form 1473 is clearly stated and that a complete DD Form 1473 is in-

cluded with each copy of the required scientific and technical reports.

(c) Research and development contracts are required to contain appropriate data clauses as prescribed in Subpart B, Part 9 of this chapter, which usually provide, among other things, for the reproduction and use for any purpose of the Government of any or all of the information to be provided under the contract. Contracting officers shall require contractors to furnish all such information resulting from research or development contracts. Scientific and technical reports should be reproduced as economically as practicable, consistent with the reporting needs of the Government.

(d) It is important that the results of research and development contracts be made readily available to Government activities, and to non-Government organizations and persons who have a need to know in accordance with procedures of the Military Departments. Defense Documentation Center, Cameron Station, Alexandria, Va. 22314, provides a central service for the interchange of scientific and technical information of value to Department of Defense agencies and contractors.

§ 4.114 Data under research and development contracts.

(a) It is imperative that all research and development contracts carefully specify the data to be delivered under the contract since the Basic Data clause requires delivery only of "Subject Data" and defines "Subject Data" as data to be delivered under the contract.

(b) In planning a developmental procurement, when subsequent production contracts are contemplated, consideration should be given to the need and time required for obtaining a procurement package. The term "procurement package" means plans, drawings, specifications, and other descriptive information and data necessary to achieve competition in production contracts.

§ 4.115 Insurance under research and development contracts.

See Part 10 of this chapter.

§ 4.115–1 Contractor immunity from liability for torts.

In the case of cost-reimbursement type contracts where nonprofit educational institutions or other contractors do not carry insurance either because as charitable organizations they claim immunity from liability for torts or, in the case of State institutions, because the State law does not permit them to expend their funds for insurance premiums, the requirements of the Insurance-Liability clause, § 7.203-22 of this chapter, may be modified to recognize a claim of partial immunity as provided in § 7.402-26(a) of this chapter or for a claim of total immunity as provided in § 7.402-26(b) of this chapter.

§ 4.115–2 Indemnification against unusually hazardous risks.

Under the authority provided by 10 U.S.C. 2354, research and development contracts may specifically include language to indemnify contractors against liability on account of claims by third parties (including those of contractors' employees) for death, bodily injury, and loss of or damage to property, and for loss of or damage to the contractors' property, to the extent such liabilities arise out of the direct performance of the contract involved and from a risk defined in the contract as unusually hazardous. (See Subpart G, Part 10 of this chapter.)

§ 4.116 Government property under research and development contracts.

§ 4.116–1 General.

In research and development contracts with commercial organizations, the clauses relating to property furnished by the Government or acquired by the contractor at Government expense are the same as those used in other types of contracts. (See §§ 13.702 and 13.703 of this chapter.) Different clauses are prescribed for use in research and development contracts with educational or other nonprofit institutions where no profit or fee is involved. (See §§ 13.706 and 13.707 of this chapter.)

§ 4.116–2 Control of Government property in possession of research and development contractors.

The basic requirements to be observed by the Departments for establishing and maintaining control over Government Property as set forth in § 30.2 of this chapter are applicable to research and development contracts except, in contracts with educational or other nonprofit organizations (executed on a nonprofit basis), § 30.2 of this chapter is applicable.

§ 4.116–3 Providing Government production and research property.

See Subpart C, Part 13 of this chapter.

§ 4.116–4 Transfer of title to equipment to nonprofit educational or research institutions.

(a) *General.* This section implements 42 U.S.C. 1892 which gives the Department of Defense discretionary authority to vest in nonprofit institutions of higher education or nonprofit organizations whose primary purpose is the conduct of scientific research, without further obligation to the Government or on such other terms and conditions as may be appropriate, title to equipment purchased with funds available for grants or contracts for the conduct of basic or applied research.

(b) *Purpose of the legislation.* The general purpose of the legislation implemented by this section is to facilitate the scientific research performed under contract for the Government by the nonprofit institutions and organizations described in paragraph (a) of this section. It is intended to permit the elimination of the recordkeeping required when the Government retains title to equipment furnished or purchased under a research contract, in those cases where the cost of such recordkeeping to the contractor or to the Government is out of proportion to the value of the equipment. It is further intended to reduce where desirable the time and labor involved in formally circulating through the Government long lists of highly specialized or minor items of equipment or in relocating major equipment when such relocation is impracticable or uneconomical and not required for other research programs of the Government. Finally, it is intended to provide a measure of administrative flexibility when, from the standpoint of increased research effectiveness and in the absence of other Departmental or Governmental requirements, it is desirable to transfer title to equipment to such research contractors.

(c) *Transfer of title.* (1) Contracts with nonprofit institutions of higher education or nonprofit organizations whose primary purpose is the conduct of scientific research, shall provide, or shall be amended to provide, for transfer to contractors of title to each item of equipment having an acquisition cost of less than $200 and purchased with funds available for grants or contracts for the conduct of basic or applied research. With respect to such equipment already in possession of such contractors, the contracting officer shall vest in the contractor title to all such low cost equipment at the time of amendment of the appropriate contract or as soon as practicable thereafter. With respect to such equipment to be acquired by the contractor for the account of the Government, the contracting officer shall vest in the contractor title to such equipment upon receiving from the contractor a written receipt pursuant to Item 305, § 30.3 of this chapter. The requirements of this section are not applicable to transfers of title that are precluded by controls governing the equipment involved.

(2) With respect to equipment having an acquisition cost of $200 or more, contracts with such institutions and organizations may provide, or may be amended to provide, that the contracting officer may transfer title to the contractor. To the maximum extent possible, transfer of title should be effected at the beginning of the contract or upon acquisition of the equipment, but such transfer may be effected at the beginning, during the course of, or at the end of a contract provided:

(i) The equipment was purchased with grant or contract funds allocated for basic or applied scientific research;

(ii) (a) Either the retention of title in the Government would create an administrative burden not warranted by the value of the equipment, or the keeping of inventory and records by the contractor would become prohibitively complicated or expensive, or

(b) It would be impractical or uneconomical to remove the equipment from the contractor's plant;

(iii) The transfer of title will further the scientific research objectives of the Department concerned; and

(iv) The transfer of title is not precluded by controls governing the equipment involved.

(3) The contracting officer may, when provision is made therefor by contract, vest in the contractor title to any item

of equipment having an acquisition cost of from $200 to $3,000, inclusive, following his written determination that the criteria in subparagraph (2) of this paragraph had been met. When the acquisition cost of an item of equipment is in excess of $3,000, the contracting officer may transfer title to the contractor upon the written approval of the head of the procuring activity or his designee. Such approval shall be given on the basis of the criteria in subparagraph (2) of this paragraph and only after considering whether transfer of title is consistent with any known need of the Department concerned. (No formal screening is required.) In addition, for items of equipment having an acquisition cost in excess of $25,000, the approval of designated representatives[1] of the Departments must be secured. Such approval shall be given within sixty (60) days, but only after a reasonable check, commensurate with the value of the item involved, has established that there is no known requirement for the item within the respective Departments.

(4) Where title to equipment is vested pursuant to subparagraph (1) or (2) of this paragraph, the contractor shall be without further obligation to the Government with respect to such equipment, except that the contractor must agree, as a condition to taking title, that no charge will be made to the Government for any depreciation, amortization, or use charge with respect to such equipment under any existing or future Government contract.

(d) *Contract clauses.* Where it is anticipated that in connection with a contract, title to equipment may be vested in the contractor in accordance with this paragraph, the alternate subparagraph (c)(2) of the clause in § 13.706 of this chapter shall be included in fixed-price type contracts, and the addition to subparagraph (c)(1) of the clause in § 13.707 of this chapter shall be included in cost-reimbursement contracts.

§ 4.117 Contractor performance evaluation program.

The Contractor performance evaluation program is a procedure for determining and recording the effectiveness of advanced-development (with measurable contractual commitments), engineering-development, and operational-systems-development and production contractors in meeting the performance, schedule, and cost provisions of their contracts. The program requires project managers within the military departments to submit periodic contractor performance evaluation reports (see DD Form 1446 series) for all such development contracts whose projected cost for a single year will exceed $2 million or whose projected overall cost will exceed $10 million and for all production contracts that follow or are concurrent with the development contracts evaluated (until firm specifications susceptible to price competition are in use), if the projected cost exceeds $5 million for a single year or if the projected overall cost exceeds $20 million. After review or certification by the appropriate Departmental contractor performance evaluation group (see DD Form 1447 series), the report is submitted to the contractor and then transmitted, with the contractor's comments, to the Director of Contractor Performance Evaluation, Office of the Assistant Secretary of Defense (Installations and Logistics), for storage in a central data bank and use by source selection advisory councils or other persons or groups acting in similar capacity, contracting officers in determining fees or profits and the Renegotiation Board. The central data bank is maintained at the Defense Documentation Center of the Defense Supply Agency, Cameron Station, Alexandria, Va. 22314. Detailed procedures for this program are set forth in the Department of Defense Guide to Contractor Performance Evaluation (Development and Production).

Subpart B—Procurement of Research and Development [Revoked]

Subpart C—Contracts for Preparation of Household Goods for Shipment, Government Storage and Related Services [Revoked]

PART 6—FOREIGN PURCHASES

13. In § 6.102–3, paragraph (a)(2) is revised, and in § 6.103–2, the introductory text of paragraph (b) is revised, as follows:

§ 6.102–3 Procurement from other Government agencies.

(a) • • •

(2) If an end product listed as foreign on a Federal Supply Service Schedule is first acquired by a Defense activity, it shall be procured in accordance with § 6.103.

• • • • •

§ 6.103–2 Nonavailability in the United States.

• • • • •

(b) Notwithstanding the foregoing, procurement of foreign end products on the basis of "nonavailability," whether or not listed in § 6.106, shall be made only if the procurement is approved by:

• • • • •

PART 7—CONTRACT CLAUSES

14. New §§ 7.104–62 and 7.104–63 are added; § 7.105–7 is revised; § 7.105–8 is revoked; and in § 7.203–2, the clause heading and clause paragraph (c) are revised, as follows:

§ 7.104–62 Material inspection and receiving report.

Insert the following clause except in negotiated subsistence procurements and contracts for tanker/barge shipments of bulk petroleum products.

MATERIAL INSPECTION AND RECEIVING REPORT (MARCH 1967)

At the time of each delivery under this contract, the Contractor shall prepare and furnish to the Government a Material Inspection and Receiving Report (DD Form 250 Series), in the manner and to the extent required by ASPR Appendix I, "Preparation, Reproduction, and Distribution, Material Inspection and Receiving Report (MIRR)."

§ 7.104–63 Protection of Government buildings, equipment, and vegetation.

Insert the following clause in all contracts which involve the performance of any services on a Government installation.

PROTECTION OF GOVERNMENT BUILDINGS, EQUIPMENT, AND VEGETATION (APRIL 1967)

The Contractor shall avoid damaging existing buildings, equipment, and vegetation (such as trees, shrubs, and grass) on the Government installation. If the Contractor damages any such buildings, equipment, or vegetation, he shall replace or repair the damage at no expense to the Government as directed by the Contracting Officer. If he fails or refuses to do so, the Contractor shall be liable for the cost of replacement or repair, and such cost may be deducted from the contract price.

§ 7.105–7 Supply warranty.

In accordance with § 1.324 of this chapter, an appropriate supply warranty clause may be inserted.

§ 7.105–8 Supply warranty. [Revoked]

§ 7.203–2 Changes.

CHANGES (APRIL 1967)

• • • • •

(c) Notwithstanding the provisions of paragraphs (a) and (b) above, the estimated cost of this contract and, if this contract is incrementally funded, the funds allotted for the performance thereof, shall not be increased or deemed to be increased except by specific written modification of the contract indicating the new contract estimated cost and, if this contract is incrementally funded, the new amount allotted to the contract. Until such modification is made, the Contractor shall not be obligated to continue performance or incur costs beyond the point established in the clause of this contract entitled "Limitation of Cost" or "Limitation of Funds."

• • • • •

15. New § 7.204–44 is added; § 7.205–8 is revoked; new §§ 7.203–13, 7.403–41 are added; and § 7.404–1 is revised, as follows:

§ 7.204–44 Material inspection and receiving report.

Insert the clause in § 7.104–62 except in negotiated subsistence procurements and contracts for tanker/barge shipments of bulk petroleum products.

[1] In the case of the Department of the Army, the designee is Army Research Office, Office Chief of Research and Development, Washington, D.C. 20310.

In the case of the Department of the Navy, the designee is Chief of Naval Research, Office of Naval Research, Washington, D.C. 20390.

In the case of the Department of the Air Force, the designee is Commander, Office of Aerospace Research, Washington, D.C. 20333.

In the case of the Defense Supply Agency, the designee is Executive Director for Supply Operations, Defense Supply Agency, Cameron Station, Alexandria, Va. 22314.

§ 7.205–6 Material inspection and receiving report. [Revoked]

§ 7.303–13 Material inspection and receiving report.

Insert the clause set forth in § 7.104–62.

§ 7.403–41 Material inspection and receiving report.

Insert the clause set forth in § 7.104–62.

§ 7.404–1 Changes.

CHANGES (APRIL 1967)

(a) The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, make changes, within the general scope of this contract, in any one or more of the following:

(i) Drawings, designs, or specifications;

(ii) Method of shipment or packing; and

(iii) Place of inspection, delivery, or acceptance.

(b) If any such change causes an increase or decrease in the estimated cost of, or the time required for the performance of any part of the work under this contract, whether changed or not changed by any such order, or otherwise affects any other provision of this contract, an equitable adjustment shall be made:

(i) In the estimated cost or delivery schedule, or both;

(ii) In the amount of any fixed fee to be paid to the Contractor; and

(iii) In such other provisions of the contract as may be affected, contract shall be modified in writing accordingly.

Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of receipt by the Contractor of the notification of change: *Provided, however,* That the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, except as provided in paragraph (c) below, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(c) Notwithstanding the provisions of paragraphs (a) and (b) above, the estimated cost of this contract and, if this contract is incrementally funded, the funds allotted for the performance thereof, shall not be increased or deemed to be increased except by specific written modification of the contract indicating the new contract estimated cost and, if this contract is incrementally funded, the new amount allotted to the contract. Until such modification is made, the Contractor shall not be obligated to continue performance or incur costs beyond the point established in the clause of this contract entitled "Limitation of Cost" or "Limitation of Funds."

In the foregoing clause, the period of "thirty (30) days" within which any claim for adjustment must be asserted, may be varied in accordance with Departmental procedures. In accordance with 10 U.S.C. 2306(f), prior to the pricing of any change order that is expected to exceed $100,000, except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the contracting officer shall require the contractor to furnish a Certificate of Current Cost or Pricing Data (see § 3.807–4 of this chapter) and shall assure that the contract includes or is modified to include a defective pricing data clause (see § 7.104–29).

16. Sections 7.603–30, 7.705–2, and 7.705–4 are revised; an introductory statement is added at the beginning of § 7.802–4; and in § 7.802–5(a), the clause heading and clause paragraph (a) are revised, as follows:

§ 7.603–30 Availability and use of utility services.

Insert the following clause in contracts for performance at Government installations when it is determined that one or more utility systems and supplies are adequate for the needs and use of both the Government and the contractor and it is advantageous to the Government to furnish such utility services.

AVAILABILITY AND USE OF UTILITY SERVICES (APRIL 1967)

(a) The Government will make available to the Contractor, from existing outlets and supplies, all reasonably required amounts of utilities as specified in the Schedule or specifications. Except as otherwise provided in the Schedule or specifications, each utility shall be charged to or paid for by the Contractor at prevailing rates charged to the Government or, where the utility is produced by the Government, at reasonable rates as determined by the Contracting Officer.

(b) The Contractor shall carefully conserve utilities furnished without charge. The Contractor, at his own expense and in a workmanlike manner satisfactory to the Contracting Officer, shall install and maintain all necessary temporary connections and distribution lines and, if necessary to determine charges, all meters required to measure the amount of each utility used; and he shall remove the same prior to final acceptance of the construction.

§ 7.705–2 Filing of patent applications.

In accordance with the requirements of § 9.106 of this chapter, insert the contract clause set forth therein.

§ 7.705–4 Transfer of title to the facilities.

In accordance with the instructions contained in § 4.116–4 of this chapter, the following clause may be inserted in facilities contracts.

TRANSFER OF TITLE TO THE FACILITIES (SEPTEMBER 1964)

Notwithstanding the provisions of the clause of this contract entitled "Title", the Contracting Officer may at any time during the term of this contract, or upon completion or termination, transfer title to equipment to the Contractor upon such terms and conditions as may be agreed upon: *Provided,* That the Contractor shall not under any Government contract, or subcontract thereunder, charge for any depreciation, amortization, or use of such equipment as is donated under this clause. Upon the transfer of title to equipment under this clause, such equipment shall cease to be Government property.

§ 7.802–4 Payments clauses for letter contracts.

The following clause shall be included in all letter contracts contemplating a cost-type contract. As to letter contracts contemplating a fixed-price type contract, see § 163.84 of this chapter.

* * * * *

§ 7.802–5 Definitization.

(a) * * *

DEFINITIZATION (APRIL 1967)

(a) A ---------- type definitive contract is contemplated. To accomplish this result, the Contractor agrees to enter into negotiation promptly with the Contracting Officer over the terms of a definitive contract, which will include all clauses required by the Armed Services Procurement Regulation on the date of execution of the letter contract, all clauses required by law on the date of execution of the definitive contract and such other clauses, terms, and conditions as may be mutually agreeable. The Contractor agrees to submit a fixed-price proposal [cost and fee proposal], and cost or pricing data supporting that quotation.

* * * * *

17. Section 7.902–7 is revised; new §§ 7.902–25 and 7.1102–4 are added; and new Subparts M, N, and O are added, as follows:

§ 7.902–7 Filing of patent applications.

In accordance with § 9.106 of this chapter, insert the clause set forth therein.

§ 7.902–25 Material inspection and receiving report.

Insert the clause in § 7.104–62 except in negotiated subsistence procurements and contracts for tanker/barge shipments of bulk petroleum products.

§ 7.1102–4 Material inspection and receiving report.

Insert the clause in § 7.104–62 except in negotiated subsistence procurements and contracts for tanker/barge shipments of bulk petroleum products.

Subpart M—Clauses for Bakery and Dairy Products Contracts

AUTHORITY: The provisions of this Subpart M issued under sec. 2202, 70A Stat. 120; 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 7.1300 Scope of subpart.

This subpart sets forth uniform contract clauses for use in indefinite delivery contracts as defined in § 3.409 of this chapter, for perishable bakery and dairy products. These clauses are to be used in addition to other required or applicable clauses.

§ 7.1301 Required clauses.

The following clause shall be included in all indefinite delivery contracts for perishable bakery and dairy products.

§ 7.1301–1 Delivery vehicles and conveyances.

DELIVERY VEHICLES (APRIL 1967).

The supplies delivered under this contract shall be transported in clean, closed vehicles. The vehicles shall be maintained in a sanitary condition to prevent contamination of the supplies and shall be equipped to maintain any temperature requirement prescribed in the specification or elsewhere in this contract. The vehicles shall be subject to inspection by the Government at all reasonable times and at all places, including the plant of the Contractor. Supplies tendered for acceptance in vehicles which are not sanitary, or which are not equipped to maintain any prescribed temperatures, may be rejected without further inspection.

§ 7.1301–2 Responsibility for containers and equipment.

RESPONSIBILITY FOR CONTAINERS AND EQUIPMENT (APRIL 1967)

The Contractor shall maintain all reusable containers and equipment in a sanitary condition and in a good state of repair and working order. At the time of each delivery, the Contractor shall remove from the premises of the Government all empty reusable containers, unless the Contracting Officer grants permission in writing for less frequent removal. The Government shall not be liable for any damage to, or loss or destruction of, containers and equipment furnished by the Contractor.

§ 7.1301–3 Time of delivery.

TIME OF DELIVERY (APRIL 1967)

Individual written delivery orders issued or oral delivery orders placed under this contract shall specify the locations to which deliveries shall be made and the quantities for each location. Deliveries will be completed within the hours prescribed in the Schedule of this contract and on the days specified by the order. Orders which call for delivery within less than twenty-four (24) hours from the time the Contractor receives said orders shall be governed by paragraph (e) of the clause entitled "Requirements."

If an indefinite quantity contract as defined in § 3.409–3 of this chapter is used, rather than a requirements contract, the following shall be included instead of the last sentence of the foregoing clause.

The Contractor shall not be required to deliver within less than _____ hours from the time the Contractor receives a delivery order.

§ 7.1301–4 Plant locations.

Prior to award of a contract, the contractor must identify the plant or plants at which any manufacturing or processing will occur and from which shipment will be made. See § 1.903–2(b) of this chapter. The plants named by the contractor shall be listed in the Schedule, and the following clause shall be included in the contract.

CHANGE IN PLANT LOCATION (APRIL 1967)

The performance of any work under this contract at any place other than that named in this contract is prohibited unless specific written advance approval is obtained from the Contracting Officer.

§ 7.1301–5 Sanitary conditions.

SANITARY CONDITIONS (APRIL 1967)

(a) All plant facilities, machinery, equipment, and apparatus used in the production, processing, handling, storage, or delivery of supplies under this contract, and all supplies (as the term "supplies" is defined in paragraph (a) of the clause entitled "Inspection") delivered under this contract, shall meet the sanitary standards, including bacteriological requirements, prescribed by the specifications cited elsewhere in this contract.

(b) All plant facilities, machinery, equipment, and apparatus used in the production, processing, handling, storage, or delivery of supplies under this contract shall be subject to inspection and test by the Government at all places and at all reasonable times.

(c) The Government shall notify the Contractor in writing of any failure to meet the sanitary standards, including bacteriological requirements, prescribed by this contract. If such failure has not been corrected within three (3) days from the date the Contractor receives said notice, the whole or any part of this contract may be terminated for default or, at the option of the Contracting Officer, the Contractor's right to perform under this contract may be partially or wholly suspended for not less than ten (10) days, and for such longer period of time as the Contracting Officer deems appropriate to permit correction of such failure. A suspension shall not operate to extend the life of this contract and shall not be considered sufficient cause of any delivery time. During the period of any such suspension, the Government may procure from other sources, upon such terms and in such manner as the Contracting Officer may deem appropriate, supplies similar to those specified in the Schedule, and the Contractor shall be liable to the Government for any excess costs for such similar supplies. If the Contractor does not correct the failure to meet the sanitary standards, including bacteriological requirements, within any suspension period specified by the Contracting Officer, the Government may terminate the unexpired portion of this contract for default without allowing additional time for correction, notwithstanding paragraph (a) (ii) of the clause entitled "Default."

If an indefinite quantity contract as defined in § 3.409–3 of this chapter is used, rather than a requirements contract, the following shall be inserted in paragraph (c) of the foregoing clause after the third sentence.

The quantity of supplies designated in the Schedule as "Minimum" shall be reduced, in the event of a suspension, by an amount proportionate to the ratio between the number of days the Contractor's right to perform is suspended and the number of days in the contract period. The quantity of supplies designated as "Maximum" shall not be reduced.

§ 7.1301–6 Disclaimer of export subsidies.

DISCLAIMER OF EXPORT SUBSIDIES (APRIL 1967)

The commodities supplied hereunder, or components thereof, shall not have been purchased at reduced prices for export, nor subsidized for export by the Department of Agriculture either directly or indirectly, and the Contractor agrees that the deliveries hereunder will not be the basis for any export subsidy benefit from the Department of Agriculture.

§ 7.1301–7 Remedies under delivery orders.

REMEDIES UNDER DELIVERY ORDERS (APRIL 1967)

All rights and remedies afforded to the Government under the provisions of this contract may be exercised and enforced by the Government with respect to each written or oral delivery order placed under this contract.

If delivery orders are to be placed by an activity other than the activity which awarded the contract, the following may be added to the foregoing clause to establish authority in the ordering officer under the Changes, Extras, Inspection, Default, and Disputes clauses for the administration of individual delivery orders.

For the purpose of the exercise of the Government's rights and remedies under one or more individual delivery orders, the term "Contracting Officer" as used in the "Changes," "Extras," "Inspection," "Default," and "Disputes" clauses, shall include the person executing or placing said order or orders.

§ 7.1301–8 "Fluid Milk" contracts.

All contracts which require the delivery of any item of "fluid milk for beverage purposes" and in which the period of performance exceeds 3 months shall include the following clause.

PRICE ADJUSTMENT FOR FLUID MILK FOR BEVERAGE PURPOSES (MARCH 1967)

(a) For the purpose of this clause the term, "fluid milk for beverage purposes," means fresh whole milk, skim milk, buttermilk, flavored milk, flavored milk drinks, recombined milk, cream, half and half, and lowfat milk.

(b) For the purposes of this clause, action by the U.S. Secretary of Agriculture for which a price adjustment may be made includes, but is not limited to, amendment, suspension, institution, or termination of the provisions of any applicable Federal Milk Marketing Order, and direct changes in the support prices under the dairy price support program. A price adjustment will not be made where a change in the Contractor's direct costs for fluid milk results merely from the normal operation of a price-formula contained in any applicable Federal Milk Marketing Order except as influenced by changes in the dairy price support program.

(c) In the event that action by the U.S. Secretary of Agriculture subsequent to the date of bid opening, if this is a contract entered into by formal advertising, or the contract date if this is a negotiated contract, causes an increase or decrease in the Contractor's direct costs of fluid milk used or to be used to furnish items of fluid milk for beverage purposes under this contract, the contract price shall be increased or decreased by an amount equal to the changes in the Contractor's direct cost of fluid milk which were caused by such action. No price adjustment shall be made with respect to deliveries during the first 3-month period of the contract.

(d) If action by the U.S. Secretary of Agriculture is taken during the first or any subsequent 3-month period of the contract, the Contractor within five (5) days after completion of the deliveries for each such period shall furnish to the Contracting Officer a written notice stating whether such action increased, decreased, or caused no change in the Contractor's direct cost for fluid milk

used or to be used in the performance of the contract. This notice shall include the Contractor's proposal for a price adjustment and pertinent documentary evidence or other information explaining: (i) The effective date and the amount of any increase or decrease in the Contractor's direct cost of fluid milk used or to be used in the performance of the contract; (ii) the Contractor's direct fluid milk cost used in computing the contract price prior to adjustment; and (iii) how his direct costs for fluid milk were affected by the action of the U.S. Secretary of Agriculture or that such costs were unaffected by such action. The notice shall be supplemented by such additional information as the Contracting Officer may request. Within thirty (30) days from receipt of the Contractor's proposal, the Contracting Officer shall adjust the contract prices for deliveries already made (except those made during the first 3-month period of the contract) and for deliveries to be made under the balance of the contract, or advise the Contractor why the requested adjustment will not be made.

(c) The Contracting Officer may examine the Contractor's books, records and other supporting data relevant to the Contractor's direct costs of the fluid milk used or to be used in the performance of this contract, during all reasonable times until three (3) years after final payment under this contract.

§ 7.1301–9 Solicitations for fluid milk.

The following provision shall be included in all solicitations for fluid milk for beverage purposes which contain the clause set forth in § 7.1301–8.

Evaluation of bids. Notwithstanding the provisions of the clause entitled "Price Adjustment for Fluid Milk for Beverage Purposes," bids or offers shall be evaluated on the basis of quoted prices without the possible adjustments being considered. (MARCH 1967)

§ 7.1302 Additional required clauses for perishable dairy products contracts.

Clauses substantially as follows shall be included in all indefinite delivery contracts for perishable dairy products.

§ 7.1302–1 Containers and equipment.

If the contractor is to furnish cabinets for dispensing milk from bulk containers, a notice so stating shall be included in the Schedule of solicitations and resultant contracts. The notice shall state (a) the number of dispenser cabinets required, or a reasonably accurate estimate thereof, (b) whether metal stands for the cabinets are required, (c) the number of cabinets required with a capacity of two containers each, and (d) the number required with a capacity of three containers each.

CONTAINERS AND EQUIPMENT (APRIL 1967)

(a) Dispenser containers and filling equipment used by the Contractor in the performance of this contract, and any refrigerated bulk milk dispenser cabinets furnished by the Contractor, shall comply with MIL–STD–175, "Minimum Sanitary Standards for the Equipment and Methods for the Handling of Milk and Milk Products in Bulk Milk Dispensing Operations," as amended.

(b) Any bulk milk dispenser cabinets required by the Schedule to be furnished by the Contractor shall be installed, serviced, and maintained to the satisfaction of the Contracting Officer. All responsibility for the supply, installation, maintenance, and removal thereof, including labor and material costs, and for any damage thereto or loss or destruction, shall remain with the Contractor.

(c) When, and for as long as, the Contractor fails to furnish bulk milk dispenser cabinets or milk dispenser containers as required in the Schedule, or does not properly service, maintain, and repair said dispenser cabinets, so that milk cannot be dispensed as needed by the Government, the Contractor shall deliver a sufficient quantity of milk in half-pint containers to satisfy orders for milk dispenser containers at the price per gallon for milk dispenser containers.

(d) Any contamination, spoilage, leakage, or other loss of any contents of a dispenser container due to functional failure of the dispenser cabinets or dispenser containers, except for a general power failure at the Government installation, shall be replaced immediately by the Contractor without cost to the Government.

(e) The tare weight of dispenser containers required to be certified in accordance with paragraph (b) of the clause entitled "Examination and Testing" shall include all parts of the container delivered as a complete unit, including lids, tubes, and seals.

§ 7.1302–2 Examination and testing.

EXAMINATION AND TESTING (APRIL 1967)

(a) In accordance with the specifications cited elsewhere in this contract, the Contractor shall examine and test all supplies to be delivered (as the term "supplies" is defined in paragraph (a) of the clause entitled "Inspection"). Records of all such examinations and tests shall be kept complete and available to the Government until the sixtieth (60th) day following the expiration of this contract, or until the final resolution of any dispute, appeal, claim, or litigation arising out of or in connection with this contract, whichever is later.

(b) The Contractor shall certify the tare weights of all containers on the shipping document and furnish a copy thereof to the Government inspector at destination. If different types of containers with different tares are included in a single delivery, the Contractor shall furnish the tare weight and identifying characteristics of each type. Volume and net weight shortages of any line item, revealed by inspecting a reasonable sample of said line item, shall be deducted from payment for the entire quantity of the line item delivered on the day the shortage is discovered. For the purpose of determining net weight, milk will be considered to weigh 8.6 pounds per gallon.

(c) At its own expense, the Government shall select samples at random from each type of product delivered hereunder. These samples shall be submitted to a laboratory for bacteriological analysis or chemical analysis, or both.

(d) Not less than three (3) days after notice to the Contractor of nonconformance with the bacteriological requirements prescribed by the commodity specifications cited elsewhere herein, the Government shall select and test an additional sample of the type or types of product which failed to conform. Upon the failure of said additional sample, the Government may terminate the whole or any part of this contract for default, suspend the Contractor's right to perform all or a part of this contract in accordance with the "Sanitary Conditions" clause herein, or exercise any other rights and remedies provided by law or under this contract.

(e) The butterfat, milk solids not-fat, and protein content of the entire quantity of each type of product delivered during a monthly period shall be deemed to be the weighted average of the results of the tests of all samples thereof selected during said period. If the butterfat, milk solids not-fat, or protein content of any type of product in any monthly period, as determined by a chemical analysis of at least two (2) samples, is less than required by this contract, the Contractor shall reimburse the Government for the deficiency in an amount determined pursuant to the clause entitled "Deficiency Adjustment." Monthly periods commence on the first (1st) day of the contract period and on the same day of each succeeding calendar month thereafter. The butterfat, milk solids not-fact, and protein content of one type of product will not be averaged with or offset against the content of another type of product, and the content of products delivered in any one monthly period will not be averaged with or offset against the content of products delivered in any other monthly period. No payment will be made for butterfat, milk solids not-fat, and protein content in excess of the amount required by this contract.

(f) For the purposes of this clause, the term "type of product" includes all line items in the Schedule governed by identical specification requirements, except for packaging and flavor. For example, all line items of "Milk Whole, Fresh" constitute a single type of product, notwithstanding that delivery is made in various quantities of ½-pint, quart, ½-gallon, and bulk containers.

(g) The foregoing is an agreed method for the adjustment of prices of rejectable products which are accepted under the "Inspection" clause of this contract, and is without prejudice to the Government's right to terminate for default or to pursue any other remedy under this contract or as provided by law.

§ 7.1302–3 Deficiency adjustment.

The formulae prescribed in the following clause may be modified to accommodate purchasing or ordering activities which do not have access to the Department of Agriculture reports cited therein.

DEFICIENCY ADJUSTMENT (APRIL 1967)

(a) The amount to be paid by the Contractor to the Government as consideration for the acceptance of supplies deficient in butterfat, milk solids not-fat, or protein, pursuant to the clause entitled "Examination and Testing," shall be determined in accordance with the following formulae:

(i) *Butterfat.* Subtract the total pounds of butterfat delivered from the total pounds of butterfat required to be delivered, and multiply the remainder by the butterfat value.

(ii) *Milk solids not-fat.* Subtract the total pounds of milk solids not-fat delivered from the total pounds of milk solids not-fat required to be delivered, and multiply the remainder by the milk solids not-fat value.

(iii) *Protein.* Subtract the total pounds of protein delivered from the total pounds of protein required to be delivered, multiply the remainder by the milk solids not-fat value, and multiply the product of the foregoing by 2.8.

(b) The term "butterfat value" shall mean the average Chicago top "Wholesale Selling Price" of Grade A, 92 score butter during the monthly period for which the deficiency is computed, as reported in the Dairy and Poultry Market News, published by the Department of Agriculture, Consumer and Marketing Service, Chicago, Ill., multiplied by 1.30. The term "milk solids not-fat value" shall mean the average Chicago top price for "Commercial Sales, Extra Grade, Nonfat Dry Milk, Spray (bags)" during the monthly period for which the deficiency is computed, as reported in the aforementioned Dairy and Poultry Market News, multiplied by 1.40.

§ 7.1303 Clauses to be used when applicable.

§ 7.1303–1 Code dating.

If a Schedule or specification provision requires the labels of one or more items to show the date of pasteurization, manufacture, production, or processing, a clause substantially as follows may be included to permit the use of a coding system.

CODE DATING (APRIL 1967)

A code may be used to comply with the requirement set forth in the Schedule or specifications of this contract for showing a date on the labels of items delivered hereunder: *Provided*, That, prior to the use of a code, a written explanation thereof is furnished to the Contracting Officer and approved by him in writing. No changes in the code symbols, code system or explanation thereof, shall be made without the advance written approval of the Contracting Officer.

§ 7.1303–2 Marking.

A clause substantially as follows shall be included, unless a provision is inserted in the Schedule specifically requiring supplies to be marked in accordance with MIL–STD–129, "Marking for Shipment and Storage."

MARKING (APRIL 1967)

Notwithstanding any specification references to MIL–STD–129, commercial markings are acceptable.

Subpart N—Clauses for Laundry and Dry Cleaning Contracts

Sec.
- 7.1400 Scope of subpart.

- 7.1401–10 Ordering.
- 7.1401–11 Special definitions of Government property.
- 7.1401–12 Individual laundry.

AUTHORITY: The provisions of this Subpart N issued under sec. 2202, 70A Stat. 120; 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 7.1400 Scope of subpart.

This subpart sets forth special uniform contract clauses for laundry and dry cleaning contracts (see Subpart G, Part 22 of this chapter). These clauses are to be used in addition to other required or applicable clauses prescribed by Subpart A of this part.

§ 7.1401 Required clauses.

§ 7.1401–1 Activities.

ACTIVITIES (APRIL 1967)

Activities to be covered by this contract are:

---

§ 7.1401–2 Contract period.

CONTRACT PERIOD (APRIL 1967)

Any contract awarded as a result of bids submitted under this Invitation for Bids shall extend from _____ or date of contract award, whichever is later, through _____, both dates inclusive, unless sooner terminated under the terms of the contract.

7.1401–3 Specifications.

SPECIFICATIONS (APRIL 1967)

All work under this contract shall be accomplished in accordance with specifications MIL–L–2868, MIL–STD–666A, and MIL–STD–666A, amendments or revisions thereto, and any other Federal or Military Specifications or Standards cited herein.

§ 7.1401–4 Pickup and delivery points and times.

PICKUP AND DELIVERY POINTS AND TIMES (APRIL 1967)

The locations for pickup and delivery and the times therefor are set forth below.

Location	*Pickup time*	*Delivery time*

The unit prices include (do not include) all pickup and delivery charges.

§ 7.1401–5 Count of articles.

COUNT OF ARTICLES (APRIL 1967)

(a) The Contractor shall be liable for return of the number and kind of articles furnished for service under this contract, in accordance with the count of the Contracting Officer, or the number and kind of articles agreed upon as a result of a joint count by the Contractor and the Contracting Officer at the time of delivery to the Contractor.

(b) Delivery tickets in the number of copies required, and in the form approved by the Contracting Officer shall be completed by the Contractor at the time of his receipt of the articles to be serviced. One copy of each delivery ticket shall accompany the Contractor's invoice.

In contracts that provide for laundry or dry cleaning service to individual personnel (see § 7.1401–12), add the following paragraph (c) to the above clause.

(c) Individual laundry bundle delivery tickets shall be provided by the Contractor as specified in the clause entitled "Individual Laundry" of the General Provisions of this contract.

§ 7.1401–6 Loss or damage.

LOSS OR DAMAGE (APRIL 1967)

(a) The Contractor shall indemnify the Government for any property delivered to the Contractor for servicing under this contract which is lost, or which is damaged and, in the opinion of the Contracting Officer, cannot be repaired satisfactorily. In either of these events, the Contractor shall pay to the Government the value thereof in accordance with Federal Supply Class price lists. If the property is not on these price lists, the Contracting Officer shall determine a fair and just price. Credit shall be allowed for any depreciation in the value of the property at the time of loss or damage, and the parties hereto shall determine the amount of the allowable credit. If the parties fail to agree upon the value property, or fail to agree on the amount of credit due, the dispute shall be determined as provided in the clause hereof entitled "Disputes."

(b) In case of damage to any property which the Contracting Officer and the Contractor agree can be satisfactorily repaired, the Contractor shall repair the property at his expense in a manner satisfactory to the Contracting Officer.

§ 7.1401–7 Storage and handling.

STORAGE AND HANDLING (APRIL 1967)

During the time Government-owned property is in the possession of the Contractor, it shall be adequately stored and protected. When contaminated hospital linen is furnished for service under this contract, it shall be handled separately from other articles.

§ 7.1401–8 Vehicles.

VEHICLES (APRIL 1967)

Vehicles used in the transportation of items called for in this contract shall be clean, closed, conform to commercial standards, and equipped to protect against contamination of the items. Such vehicles shall be subject to examination at all times by the Contracting Officer or his authorized representative.

§ 7.1401–9 Requirements or indefinite quantity.

Insert the Requirements clause in § 7.1102–2(a), or the Indefinite Quantity clause in § 7.1102–3(b), as appropriate.

§ 7.1401–10 Ordering.

In accordance with the requirements of § 7.1101–1, insert the clauses set forth therein.

§ 7.1401–11 Special definitions of Government property.

SPECIAL DEFINITIONS OF GOVERNMENT PROPERTY (APRIL 1967)

(a) The term "Government-furnished property," as used in this contract, means any supplies or facilities furnished to the Contractor by the Government for use in connection with the performance of this contract, but does not include the articles delivered to the Contractor to be laundered or dry cleaned.

(b) The term "Government-owned property," as used in this contract, means all of the articles delivered to the Contractor to be laundered or dry cleaned, expressly including any articles which may actually be owned by individual Government personnel.

§ 7.1401–12 Individual laundry.

The clause set forth below shall be inserted in any contracts which, pursuant to Departmental authority, provide for laundry service to individual personnel.

INDIVIDUAL LAUNDRY (APRIL 1967)

(a) The Contractor shall provide laundry service on both a unit bundle and on a piece-rate bundle basis for individual personnel when required by this contract. The total number of pieces listed in the column "Estimated Quantity" in the Schedule is the estimated amount of individual laundry for this contract, but does not constitute any representation as to the amount of individual laundry to be required. Individual may elect whether they shall patronize the laundry services. Services covered by this provision shall be on a weekly basis and the schedule for pickup and delivery shall be as specified elsewhere in this contract. Charges for individual laundry shall be on a per unit bundle or a piece-rate basis as indicated on the form, to be furnished by the Contractor, accompanying the bundle at time of pickup.

(b) The maximum number of pieces to be allowed per bundle is as specified in the Schedule and as follows: [1]

(i) Bundle consisting of twenty-six (26) pieces including laundry bag. This bundle shall contain approximately _____ pieces of outer garments which are to be starched and pressed. Outer garments shall include but not be limited to cotton shirts, trousers, jackets, dresses, coats.

(ii) Bundle consisting of thirteen (13) pieces including laundry bag. This bundle shall contain approximately _____ pieces of outer garments which are to be starched and pressed. Outer garments shall include but not be limited to cotton shirts, trousers, jackets, dresses, coats.

(c) Individual laundry bundles shall be accompanied by forms listing the items contained therein, prepared by the persons concerned. Forms on individual laundry bundles shall clearly identify unit bundle or piece-mate bundle as applicable where both services are provided by this contract.

Subpart O—Clauses for Contracts for Rental of Motor Vehicles

Sec.
7.1500 Scope of subpart.
7.1501 Required clauses.
7.1501–1 Rental payments.
7.1501–2 Condition of the rented property.
7.1501–3 Responsibility for damage or injury.
7.1501–4 Insurance/Liability.
7.1501–5 Marking of vehicles.
7.1501–6 Other required clauses.
7.1502 Clauses to be used when applicable.
7.1503 Additional clauses.

AUTHORITY: The provisions of this Subpart O issued under sec. 2202, 70A Stat. 130; 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 128–139; 10 U.S.C. 2301–2314.

§ 7.1500 Scope of subpart.

This subpart sets forth uniform contract clauses for the rental of motor vehicles as described in § 23.800 of this chapter.

§ 7.1501 Required clauses.

The following clauses shall be inserted in all contracts for the rental of motor vehicles.

§ 7.1501–1 Rental payments.

RENTAL PAYMENTS (APRIL 1967)

(a) The Government shall pay rent for the property at the rate(s) specified in this contract upon the submission of proper invoices and vouchers. Rental charges shall accrue with the commencement of the term of this contract, or from the date that the property is delivered to the Government, whichever is later, and shall continue until the expiration of the term or the termination of this agreement: *Provided*, That rental shall accrue only for the period that the property is in the possession of the Government. No rent shall accrue with respect to any property furnished by the Contractor which the Contracting Officer determines is not in accordance with the standards prescribed by the clause of this contract entitled "Condition of the Rented Property," or is not otherwise in accordance with the requirements of this contract, until the property is replaced or the defects corrected. Furthermore, no rent shall accrue with respect to any property during any period when the property is unavailable or unusable as a result of a failure by the Contractor to render services in connection with the operation and maintenance of the property as prescribed by this contract.

(b) Rental charges stated in monthly terms shall be prorated on the basis of ⅙ of the monthly rental for each day the vehicle is in the Government's possession. Where the contract contains a mileage provision, rental charges shall be paid as indicated in the Schedule.

§ 7.1501–2 Condition of the rented property.

CONDITION OF THE RENTED PROPERTY (APRIL 1967)

Each item of property furnished under this contract shall be of good quality and in operating condition: *Provided*, however that the Government "shall accept or reject the property promptly after receipt. If the Contracting Officer determines that any item of property furnished is not in compliance with the terms of this contract, he shall inform the Contractor promptly in writing. If the Contractor fails to replace the property or correct the defects in accordance with the determination of the Contracting Officer, the Government may (i) by contract or otherwise correct the defect or arrange for a rental of similar property and shall charge or set off against the Contractor the excess costs occasioned thereby; or (ii) terminate the contract for default as provided in the "Default" clause of this contract.

§ 7.1501–3 Responsibility for damage or injury.

RESPONSIBILITY FOR DAMAGE OR INJURY (APRIL 1967)

The Government shall not be responsible for damage to the property of the Contractor or others, or for injuries to any person, arising from or incident to (i) the defective or unsafe condition of the property (unless due to the fault or negligence of the Government, its agents, or its employees), (ii) the defective or improper maintenance or repair of the property by the Contractor (when maintenance or repair is required by this contract), or (iii) the negligent operation of the property by the Contractor, his agents, employees, or servants; and the Contractor shall save harmless and indemnify the Government from any and all claims arising therefrom.

§ 7.1501–4 Insurance/Liability.

INSURANCE/LIABILITY (APRIL 1967)

(a) The Government shall be responsible for damage to vehicles hired caused by its fault or negligence (or that of its drivers) amounting to no more than $100 but shall not be liable for any loss or damage to any vehicle hired in an amount greater than $100. The Contractor shall be liable and will indemnify and hold harmless the Government and its agencies and employees against all actions or claims by reason of damage or injury (including death) arising or resulting from the fault, negligence, wrongful act, or wrongful omission of the Contractor.

(b) At his expense, the Contractor shall procure and maintain policies of bodily injury liability and property damage liability insurance under this contract in amounts not less than the following:

Type	Minimum amount
Automobile liability	$100,000/$300,000
Property damage	$10,000

§ 7.1501–5 Marking of vehicles.

MARKING OF VEHICLES (APRIL 1967)

(a) The Government shall be permitted to place upon front and rear bumpers non-permanent markings as may be required to identify a vehicle as to the using agency or activity.

(b) Placards may be used for temporary identification of vehicles provided they contain no references to the Contractor which may be construed as advertising or endorsement by the Government of the Contractor.

(c) The Government may place an identification decal on each side of each vehicle. Decals will be of a type which can be removed without damage to the vehicle.

§ 7.1501–6 Other required clauses.

Insert the clauses prescribed by § 7.103, except for the clauses entitled:

Variations in quantity;
Inspection;
Responsibility for supplies;
Payments;
Walsh-Healey Public Contracts Act.

§ 7.1502 Clauses to be used when applicable.

Insert the appropriate clauses prescribed by § 7.104.

§ 7.1503 Additional clauses.

Insert the clauses prescribed by § 7.105 when it is desired to cover the subject matter thereof in the contract.

[1] The number of pieces and the composition of a bundle may be revised by the contracting officer prior to advertising to meet local conditions.

PART 9—PATENTS, DATA, AND COPYRIGHTS

18. Paragraph (b) in § 9.109–2 is revised, as follows:

§ 9.109–3 Maintenance and use of records of performance.

* * * * *

(b) Where a contract is subject to the contractor performance evaluation program (§ 4.117 of this chapter), the procuring activity shall report to the project manager any significant or repeated failure to comply with the patent right clause. The project manager shall note in the contract or performance evaluation reports any such information which he has received relating to the contractor's meeting his obligations under the "required clauses."

§ 9.202–3 [Amended]

19. In § 9.202–3(e), the reference "4.205–1" is changed to read "4.106–1".

PART 10—BONDS, INSURANCE, AND INDEMNIFICATION

20. Paragraph (a) in § 10.112 is revised to read as follows:

§ 10.112 Execution and administration of bonds and consents of surety.

(a) *Execution.* Several prescribed forms for bonds and related documents are listed in § 16.806 of this chapter. Bonds and related documents executed on such forms shall comply with the instructions accompanying each form. The IFB or RFP may provide for execution and submission of more than one copy if desired. When required by Instruction Number 2 of the standard bond forms, the evidence of authority of a principal's representatives shall be a duly executed power of attorney reciting that the individual executing the bond or consent of surety is authorized to do so. A corporation, in lieu of such power of attorney, may submit a "Certificate as to Corporate Principal" in the format prescribed in paragraph (c) of this section.

* * * * *

PART 13—GOVERNMENT PROPERTY

21. New § 13.106 is added, and in § 13.702, the introductory text of paragraph (a) is revised, paragraph (b) is redesignated as paragraph (c) and a new paragraph (b) is added, as follows:

§ 13.106 Furnishing motor vehicles to Government contractors.

(a) For all major Department of Defense projects in which substantial numbers of motor vehicles, as described in § 22.800 of this chapter, will be required for use by contractor personnel, a determination shall be made as early as possible in the program effort as to the feasibility of providing the vehicles as Government furnished equipment. Unless there are substantial reasons to the contrary, the vehicles shall be so provided when the following conditions are met:

(1) The Government contract will bear the entire cost of the vehicle program,

(2) The prospective contractors do not have, or would not be expected to have, an existing and continuing capability for providing the vehicles necessary to perform the contract from their own resources;

(3) The number of vehicles required in the performance of the contract is predictable with a reasonable degree of accuracy and is expected to remain fairly constant over a period of 1 year or more; and

(4) Substantial savings can be expected.

(b) The required vehicles shall not be provided by the Government when they will be used to support the normal and continuing operation of a contractor in the performance of defense contracts generally (or with a mix of use in commercial activities) and the cost thereof would be distributed in overhead among unrelated contracts or partially allocated to commercial use.

(c) All Government furnished vehicles will be identified as contractor-operated vehicles, to distinguish them from vehicles operated by components of the Department of Defense, as prescribed in section VIII of the Joint Procedures for Management of Administrative Use Motor Vehicles (AR 58–1; OPNAV P44–2; AFM 77–1; MCO P11240.46; DSAR 4510.5).

§ 13.702 Government property clause for fixed-price contracts.

(a) Except as provided in paragraph (c) of this section, the following clause shall be used in fixed-price contracts and short form contracts (except contracts for experimental, developmental, or research work with educational or nonprofit institutions, where no profit to the contractor is contemplated) under which a Department is to furnish to the contractor, or the contractor is to acquire, Government property having an acquisition cost of more than $25,000.

* * * * *

(b) When used in overseas contracts, insert the words "United States" before the words "Government" or "Government-furnished" wherever they appear in the clause in paragraph (a) of this section, and substitute the following paragraphs (d) and (k) in the clause in paragraph (a) of this section.

(d) *Property Administration.* The Contractor shall comply with the provisions of the "Manual for Control of Government Property in Possession of Contractors" (Appendix B, Armed Services Procurement Regulation) as in effect on the date of the contract, which Manual is hereby incorporated by reference and made a part of this contract.

(k) *Communications.* All communications issued pursuant to this clause shall be in writing.

(c) * * *

§ 13.706 [Amended]

22. In § 13.706(b), the reference "4.214–4(d)" is changed to read "4.116–4(d)".

§ 13.707 [Amended]

23. In § 13.707(b), the reference "4.214–4(d)" is changed to read "4.116–4(d)".

24. In § 13.710, the existing text is designated as paragraph (a) and a new paragraph (b) is added, as follows:

§ 13.710 Government-furnished property clause for short form contracts.

* * * * *

(b) When used in overseas contracts, insert the words "United States" before the words "Government" or "Government-furnished" wherever they appear in the clause in paragraph (a) of this section.

PART 16—PROCUREMENT FORMS

25. Sections 16.206–1, 16.206–3, and 16.807 are revised and new §§ 16.814 and 16.815 are added, as follows:

§ 16.206–1 General.

(a) DD Forms 633, 633–1, 633–2, 633–3, and 633–4 are designed for submission of cost or pricing data by prospective contractors. Contractor reproduction of these forms is authorized.

(b) DD Forms 783 (Royalty Report), is approved for use as the separate schedule required by footnote 14 of DD Form 633 and footnote 4 of DD Forms 633–3 and 633–4.

§ 16.206–3 DD Forms 633–1, 633–2, 633–3, and 633–4.

The following forms may be used as appropriate:

(a) DD Form 633–1 (Contract Pricing Proposal (Technical Services));

(b) DD Form 633–2 (Contract Pricing Proposal (Technical Publications));

(c) DD Form 633–3 (Contract Pricing Proposal (Motion Pictures)); or

(d) DD Form 633–4 (Contract Pricing Proposal (Research and Development)).

§ 16.807 Document control data—R&D (DD Form 1423).

This form shall be used in connection with scientific and technical reports under research and development contracts pursuant to § 4.113 of this chapter.

§ 16.814 Records of contract actions.

Contract Cross Reference Data (DD Form 1592) shall be used in connection with the maintenance of contract cross reference/locator systems as prescribed in Supplement 2, Part 2, Contract Administration Completion Record (DD Form 1593), Contract Completion Statement (DD Form 1594), and Contract Closeout Check List (DD Form 1597) shall be used to assure completion of all required actions prior to closeout of contract files in accordance with Supplement 2, Part 3.

§ 16.815 Contract data requirements list (DD Form 1423).

(a) DD Form 1423 provides in one place in the contract a list of all data required to be delivered under the contract, and obtains from the contractor (and from all bidders and offerors) an estimate of what portion of the total price is attributable to the production or development of the listed data (not to the sale of rights in the data). Use of DD Form 1423 also helps achieve the following objectives of the department of Defense with respect to the acquisition of data:

(1) To acquire most economically the minimum amount of data needed to procure and support military systems, materiel, and services.

(2) To assure the acquisition of required data on time to serve its intended purpose.

(3) To establish data requirements on the basis of needs in management, engineering, and logistics functions of the DOD; and to fulfill these needs on the basis of cost-effectiveness analyses.

(4) To specify data requirements in solicitations for bids or proposals in sufficient detail to provide a basis for a full, clear, and firm understanding between the Government and the contractor with respect to the total data requirements at the time the contract is placed. This requirement may be satisfied by a contractual provision for the right to defer the selection, ordering, or delivery of technical data specified in the contract.

(5) To provide competent administration of contracts requiring the furnishing of data, and assure that all contract provisions pertaining to data are fully satisfied.

(6) To maintain quality assurance procedures in the acquisition of data to assure the adequacy of the data for its intended purpose.

(7) To provide for the continued currency of acquired data in consonance with requirements.

(8) To prevent the acquisition of duplicate or over-lapping data pertaining to materiel, systems, or services when data which would serve the same end has

been or is being acquired by the Government from the same or other contractor.

(b) DD Form 1423 or its mechanized equivalent shall be used whenever data is required to be delivered under a contract, and shall constitute the sole contractual list of requirements for the amounts and kinds of data required. When DD Form 1423 is used it will be completed and furnished to the contracting officer by the personnel responsible for determining the data requirements of the contract. The reverse side of the form contains instructions for the bidders or offerors to follow in entering on the form the price group and estimated price for each item of data.

PART 18—PROCUREMENT OF CONSTRUCTION AND CONTRACTING FOR ARCHITECT-ENGINEER SERVICES

26. New §§ 18.117, 18.117–1, 18.117–2, and 18.117–3 are added and paragraph (a) of § 18.903–3 is revised, as follows:

§ 18.117 Performance evaluation of construction contractors.

Performance evaluations of construction contractors shall be made and distributed in accordance with the following procedures and shall be used in making contractor responsibility determinations. (See §§ 1.900 and 18.106 of this chapter.

§ 18.117–1 Preparation of performance reports.

(a) For each construction contract of $10,000 or more, a performance evaluation report shall be prepared, by the cognisant construction activity, at the time of final acceptance of the work, utilizing DD Form 1596, "Construction Contractor Performance Evaluation Report."

(b) Performance evaluation reports will also be prepared, at the time of termination, for every construction contract over $2,000 that is terminated for default and for every construction contract of $100,000 or more that is terminated for the convenience of the Government.

(c) The head of each procuring activity that awards construction contracts shall establish procedures within his command to assure that fully qualified personnel prepare and review these reports. Normally, the evaluating official should be the officer or civilian who is responsible for supervising the work. The reviewing official should have knowledge of the contractor's performance and normally will be an officer or civilian at a higher organizational level than the evaluating official.

(d) Prior to forwarding an overall unsatisfactory performance report, the evaluating or reviewing official will advise a responsible official of the contractor's organization that an unsatisfactory report is being prepared and the facts on which it is based. Any written comments made by the contractor shall be included in the report and mistakes of fact alleged shall be resolved and made a part of the report.

§ 18.117–2 Distribution of performance reports.

(a) The original of the performance evaluation report for every contract will be retained by the activity preparing the report for a minimum of 6 years after date of the report. In addition, the reviewing official will forward a copy of the following reports to the offices listed in paragraph (b) of this section:

(1) Reports with an overall unsatisfactory evaluation,

(2) Reports which cite outstanding performance, and

(3) Reports for all contracts in excess of $200,000.

(b) Offices to which reports are to be forwarded are as follows:

(1) Office of the Chief of Engineers, Attention: ENGMC–KC, Building T–7, Washington, D.C. 20315.

(2) Contractor Liaison Office, Naval Facilities Engineering Command, Yards and Docks Annex, Washington, D.C. 20390.

(3) Director of Procurement Policy (USAF), Contract Management Division, The Pentagon, Washington, D.C. 20330.

(c) The heads of the activities indicated above are responsible for establishing procedures and practices which will assure appropriate distribution and utilization of performance evaluation data within their respective Departments.

§ 18.117–3 Utilization of performance reports.

In the selection of fully qualified responsible contractors for future awards or negotiations of construction contracts above $100,000, the contracting officer shall obtain from one of the three central data banks listed in § 18.117–2 the following:

(a) A complete transcript of the performance evaluation of the contractor, or

(b) A statement that there is no record on file.

This transcript or statement may be obtained for smaller awards if it is established that they are relevant.

§ 18.903–3 Patent indemnity clause in construction contracts.

(a) Except where complete performance is to be accomplished outside the United States, its possessions, and Puerto Rico, all contracts in excess of $10,000 calling for "construction" as defined in § 18.101–1 shall contain the clause in § 7.602–16 of this chapter (see Standard Form 23–A).

* * * * *

PART 22—SERVICE CONTRACTS

27. Section 22.207–5 is revised, and new Subparts F, G, and H are added, as follows:

§ 22.207–5 Administrative treatment.

Individual experts or consultants who are to render personal services under contract are charged against personnel ceilings in the same way as experts and consultants employed by excepted appointment. Also, the cognisant civilian personnel office must maintain certain records on individual experts and consultants who render personal services. Therefore, the contracting officer shall effect necessary coordination with the cognisant civilian personnel office before award of a contract for personel services, and may also designate the appropriate civilian personnel officer as his representative for the purpose of administering contract provisions relating to benefits, obtaining necessary data from the contractor for tax withholding purposes, and administering applicable conflict of interest provisions.

Subpart F—Contracts for Preparation of Household Goods for Shipment, Government Storage and Intracity or Intraarea Movement

Sec.

22.601	Policy.
22.601–1	Annual contracts.
22.601–2	Zones of performance.
22.601–3	Invitations for bids.
22.602	Procedure.
22.602–1	Coordination.
22.602–2	Procurement by purchase order.
22.603	Contract provisions.
22.603–1	Scope of contract.
22.603–2	Period of contract.
22.603–3	Indefinite quantities.
22.603–4	Government ordering activities.
22.603–5	Contract zones.
22.603–6	Government's estimated requirements.
22.603–7	Reserved.
22.603–8	Award.
22.603–9	Bidder's facilities and equipment.
22.603–10	Schedules of items.

22.603–22	Marking and weighing instructions.
22.603–23	Weight certificates.
22.603–24	Inventory of damaged material.

AUTHORITY: The provisions of this Subpart F issued under sec. 2202, 70A Stat. 120; 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 22.601 Policy.

§ 22.601–1 Annual contracts.

Contracts for the preparation of household goods for shipment, storage in a Government facility, and intracity or intraarea movement normally shall be formally advertised. Such contracts shall be for a calendar year or part thereof ending on December 31, except for noncontinuous requirements for shorter periods.

§ 22.601–2 Zones of performance.

The estimated requirements for all activities within an area shall be included in one solicitation. The solicitation shall provide for clearly defined zones of performance. Determination as to the number of zones and boundaries thereof shall take into consideration such matters as total volume, size of

overall area included in the solicitation, and capacity of prospective bidders.

§ 22.601–3 Invitations for bids.

Bids for preparation of household goods for shipment, storage, and intracity or intraarea movement, shall be solicited as provided in § 2.201 of this chapter. Invitations for bids shall include such general provisions and conditions as are required by law and by this subchapter. The clause prescribed by § 13.702 (a) of this chapter shall be included in the Schedule.

§ 22.602 Procedure.

§ 22.602–1 Coordination.

One military activity in each geographic area shall contract for the estimated requirements of all the activities in that area. An activity shall be designated by mutual agreement of the installation contracting officers concerned. The Military Traffic Management and Terminal Service (MTMTS) shall designate the contracting activity when local contracting officers are unable to reach an agreement as to the activity to be designated.

§ 22.602–2 Procurement by purchase order.

When requirements exceed the service available under contracts, services may be obtained by using purchase order procedures (see Subpart F, Part 3 of this chapter), using this subpart as guidance. Recooperage and remarking services shall be procured under such procedure.

§ 22.603 Contract provisions.

The following special clauses and Schedules shall be inserted in all invitations for bids for formally advertised contracts for the preparation of household goods for shipment, storage, and intracity or intraarea movement. Where a requirement does not exist for an item in a schedule, it will be so indicated in the Estimated Quantity block. Commands overseas, except Alaska and Hawaii, may modify the format when necessary to conform with local trade customs and practices and country (including political subdivisions thereof) laws and regulations.

§ 22.603–1 Scope of contract.

SCOPE OF CONTRACT (OCTOBER 1965)

The Contractor shall furnish services and materials for the preparation of household goods and unaccompanied baggage for shipment, servicing of appliances, storage, drayage, and related services, including the furnishing of all materials except shipping containers, unless otherwise directed by the Contracting Officer. Unless otherwise indicated in this contract, the Contractor shall furnish all equipment, plant, labor, and performance of all work in accomplishing containerization (packing and crating) of household goods for overseas or domestic shipment or storage; restenciling; recooperage; drayage of household goods and unaccompanied baggage in connection with or without other services; and decontainerization (unpacking and uncrating) of inbound shipments of household goods.

§ 22.603–2 Period of contract.

PERIOD OF CONTRACT (APRIL 1967)

This contract shall begin January 1, 19..., or the date of award if later, and shall end December 31, 19..., both dates inclusive: *Provided*, However, that any work started before, and not completed by, the expiration of this contract period shall be governed by the terms of this contract.

§ 22.603–3 Indefinite quantities.

INDEFINITE QUANTITIES (APRIL 1967)

The quantities specified herein are estimates only. The amounts which the Contractor may be required to furnish and the Government to accept hereunder shall be the amounts which shall from time to time be ordered hereunder by the Government during the ordering period of this contract. The minimum amount of services which the Government shall order during the period of this contract shall be $100, computed upon the unit prices specified herein; however, the Government shall be entitled to order and the Contractor shall be required to furnish services hereunder amounting to not more than the total estimated quantities set forth in his contract.

§ 22.603–4 Government ordering activities.

GOVERNMENT ORDERING ACTIVITIES (OCTOBER 1965)

The following activities are authorized to issue orders under this contract and to administer the performance thereof:

(Insert the name of each ordering activity.)

§ 22.603–5 Contract zones.

CONTRACT ZONES (APRIL 1967)

Services shall be performed within limits of the zone(s) defined as follows: I.e., Zone I (define geographical boundaries); (Add other zones as needed).

§ 22.603–6 Government's estimated requirements.

GOVERNMENT'S ESTIMATED REQUIREMENTS (APRIL 1967)

(a) The quantities shown by zone for each item in this Invitation for Bids are the Government's estimates of requirements which may be ordered during the period of the contract. Bids shall be evaluated on the basis of these quantities. Because seasonal demands will cause large fluctuations in daily requirements, the Government's estimated daily maximum requirements set forth in (c) below shall be used to determine the need for award of standby contracts.

(b) Since various contract items are interrelated to the extent that performance under one item will affect total capability to perform similar items, the Government's estimated daily maximum requirements, and the Bidder's guaranteed daily capability, are stated in terms of all outbound items, all inbound items, all intracity/intraarea items, and the aggregate of all items.

(c) The Government's estimated maximum daily requirements, excluding Saturdays, Sundays, and Federal Holidays are as follows:

Outbound (Schedule I)	------Lbs.
Inbound (Schedule II)	------Lbs.
Intracity/area (Schedule III)	------Lbs.
Total Estimated Maximum Daily Requirements	------Lbs.

§ 22.603–7 [Reserved]

§ 22.603–8 Award.

AWARD (OCTOBER 1965)

Subject to the provisions contained herein, award generally shall be made to a single Bidder for all the items, for one or more zones, in the Invitation for Bids; however, the Government reserves the right to award on the basis of a schedule of items, for one or more zones, whichever is to the advantage of the Government. Bidders must offer unit prices for each item listed, for one or more zones, in order that bids may be properly evaluated. Failure to do so shall be cause for rejection of the entire bid. Also, bidders failing to guarantee daily capabilities in the space provided in this Invitation for Bids shall be considered not responsive and ineligible for award. The Government reserves the right to award secondary contracts as standby contracts at the unit prices offered unless the Bidder specifies otherwise in its bid. Any bid which stipulates minimum charges or graduated prices for any or all items shall be rejected.

§ 22.603–9 Bidder's facilities and equipment.

BIDDER'S FACILITIES AND EQUIPMENT (APRIL 1967)

(a) As the minimum standard for qualification of a Contractor's warehouse, it must have either (i) an acceptable automatic sprinkler system; (ii) an acceptable automatic fire detection and reporting system; or (iii) a fire contents rate (FCR) of not more than $0.60 per one hundred dollars ($100) per year based on eighty percent (80%) coinsurance factors. (Meeting of this minimum standard does not relieve Contractor of liability set forth in para. 22–603.19.)

(b) The following information shall be furnished by the Contractor upon receipt of award:

(1) *Evidence of the following kinds and minimum amounts of insurance covering work herein to be performed by Contractor and his subcontractors.* The Contractor and subcontractors shall maintain minimum coverage throughout the contract period. Each policy shall contain an indorsement that cancellation or material change in the policy shall not be effective until after a 30-day written notice is furnished to the Contracting Officer.

(i) Workmen's Compensation Insurance $------

(ii) Comprehensive General Liability Insurance $------

(iii) Automobile Liability Insurance $------

(2) Evidence as to compliance with cargo insurance required of common carriers by State laws, Interstate Commerce Commission or regulatory body of the nation or the country in which the contract is being performed.

§ 22.603–10 Schedules of items.

SCHEDULE I

OUTBOUND SERVICES

Item 1. *Complete Service—Outbound.* Service under this item shall include premove survey, servicing of appliances, disassembly of furniture if required, preliminary packing, inventorying, tagging, wrapping, padding, packing, and bracing of goods in Government-owned and furnished shipping containers, Type II or Type III (Type III for Government storage only), described in Federal Specifications PPP ------ 800 ------ at owner's residence and properly securing and sealing for shipment, weighing, marking, strapping, and drayage of loaded container between owner's residence and Contractor's facility within zone(s) described herein. Service provided under this item shall include loading (to include blocking, bracing and sealing) of shipments on line-haul carrier's equipment; temporary holding (interim storage) of the shipment at the Contractor's facility for not more than ten (10) days after completion of containerization service; the

receiving, stacking, protecting, and assembling of Government-furnished shipping containers to be used in conjunction with service under this item. When Type II or III containers will not accommodate all articles of any one lot, loose articles shall be packed in the said containers before any overpacked articles are placed therein. Overflow articles which require packing and crating shall be paid for under Item 11.

Zone _____ (Provide for additional zones as needed.)
Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

Item 2. *Complete Service—Outbound.* Service provided under this item shall be the same as under Item 1, except that drayage of the loaded container(s) between Contractor's facility and the military installation shipping office, common carrier terminal, freight station, or team track within zone(s) described herein is required. Packing and crating of overflow articles shall be paid for under Item 12.

Zone _____ (Provide for additional zones as needed.)
Estimated quantity _____ lbs.
Unit price per gross cwt. $ _____ Total amount $ _____
Contractor's guaranteed daily capability _____ lbs.

Item 3. *Outbound (From Nontemporary Storage).* Service provided under this item shall be the same as Item 1 except that: (i) Household goods shall be picked up at a nontemporary storage facility and transported to Contractor's facility; or (ii) household goods shall be delivered to Contractor's facility; and (iii) premove survey, servicing of appliances, preliminary packing, and accessorial services shall not be provided.

(a) *Pickup by Contractor:*

Zone _____ (Provide for additional zones as needed.)
Estimated quantity _____ lbs.
Unit price per gross cwt. $ _____ Total amount $ _____
Contractor's guaranteed daily capability _____ lbs.

(b) *Delivered to Contractor:*

Zone _____ (Provide for additional zones as needed.)
Estimated quantity _____ lbs.
Unit price per gross cwt. $ _____ Total amount $ _____
Contractor's guaranteed daily capability _____ lbs.

Item 4. *Outbound (From Nontemporary Storage).* Service provided under this item shall be the same as that provided under Item 3 except that drayage of loaded containers between Contractor's facility, military installation shipping office, and the common carrier terminal, team track, or freight station within zone(s) described herein is required.

(a) *Pickup by Contractor:*

Zone _____ (Provide for additional zones as needed.)
Estimated quantity _____ lbs.
Unit price per gross cwt. $ _____ Total amount $ _____
Contractor's guaranteed daily capability _____ lbs.

(b) *Delivered to Contractor:*

Zone _____ (Provide for additional zones as needed.)
Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

Item 5. *Complete Service—Outbound—(Contractor's Facility).* Service provided under this item shall be the same as under Item 1 except that final containerization shall be performed at the Contractor's facility upon approval of the Contracting Officer.

Zone _____ (Provide for additional zones as needed.)
Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

Item 6. *Complete Service—Outbound—(Contractor's Facility).* Service provided under this item shall be the same as under Item 2 except that final containerization shall be performed at the Contractor's facility upon approval of the Contracting Officer.

Zone _____ (Provide for additional zones as needed.)
Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

Item 7. *Complete Service—Outbound—(CONEX Containers).* Service provided under this item shall be the same as under Item 1 or Item 5 as appropriate except that the Contractor shall utilize Government-furnished metal shipping containers (CONEX). This service includes pickup and drayage of empty containers to and from Government facility. Zone _____ (Provide for additional zones as appropriate.)

(a) *At Owner's Residence:*

Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

(b) *At Contractor's Facility:*

Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

Item 8. *Complete Service—Outbound (CONEX Containers).* Service provided under this item shall be the same as under Item 2 or Item 6 as appropriate except that Contractor shall utilize Government-furnished metal shipping containers (CONEX). This service includes pickup and drayage of empty containers to and from Government facility.

Zone _____ (Provide for additional zones as needed.)

(a) *At Owner's Residence:*

Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

(b) *At Contractor's Facility:*

Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

Item 9. *Outbound Service (CONEX Containers) at Contractor's Facility.* The service provided under this item shall be the same as under Item 3 except that household goods shall be packed in CONEX Type I or II containers or both. This service includes pickup and drayage of empty containers to and from Government facility.

Zone _____ (Provide for additional zones as needed.)

(a) *Pickup by Contractor:*

Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

(b) *Delivered to Contractor:*

Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

Item 10. *Outbound Service (CONEX Containers) at Contractor's Facility.* The service provided under this item shall be the same as under Item 4 except that household goods shall be packed in CONEX Type I or II containers or both. This service includes pickup and drayage of empty containers to and from Government facility.

Zone _____ (Provide for additional zones as needed.)

(a) *Pickup by Contractor:*

Estimated quantity _____ lbs.

Contractor's guaranteed daily capability _____ lbs.

Item 15. *Containers.* Under this item the Contractor shall supply Type II and III containers (Fed. Spec. PPP _____ 550 _____) when directed by the Contracting Officer. This shall include stenciling the tare weight together with the words "Property of U.S. Government" on one side and one end of the container.

Zone _____ (Provide for additional zones as appropriate.)

Estimated quantity—
Type II _____ Unit price each $_____
Type III _____ Unit price each $_____
Total amount $_____

Item 16. *Packing of Goods of Extraordinary Value.* Service provided under this item shall include furnishing the proper container by the Contractor, inventorying (each item in each container), packing, marking, banding, weighing, and cubing at owner's residence. Drayage of packed container(s) is not required under this item.

Zone _____ (Provide for additional zones as appropriate.)

Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

Item 17. *Complete Service (Unaccompanied Baggage).* Service includes pickup, inventorying, weighing, strapping, marking and packing (when required) of unaccompanied baggage containers not exceeding 15 cubic feet. Unaccompanied baggage normally consists of footlockers, trunks, and similar containers and may include owner-furnished, securely locked canvas duffle bags or B-4 type bags when articles therein are not susceptible to breakage. Baggage may consist also of cribs, baby carriages, collapsible play pens, and similar articles; it shall not include articles of furniture. Containers shall be constructed of a light-weight material which will give adequate protection to insure safe delivery. Service provided under this item shall include, when necessary, drayage from owner's residence to Contractor's facility and common carrier's terminal, military installation shipping office, or interim storage.

Zone _____ (Provide for additional zones as appropriate.)
Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

Item 18. *Unaccompanied Baggage Packed by Owner.* Service under this item shall provide pickup, weighing, strapping, banding, and marking unaccompanied baggage described in Item 17 which has been packed by owner. Service provided under this item shall include, when necessary, drayage from owner's residence to Contractor's facility and common carrier's terminal, military installation shipping office, or interim storage.

Zone _____ (Provide for additional zones as appropriate.)
Estimated quantity _____ lbs.
Unit price per gross cwt. $_____ Total amount $_____
Contractor's guaranteed daily capability _____ lbs.

Item 19. *Storage.* Service provided under this item shall include short term storage (not to exceed 180 days) of containerized articles subsequent to the interim period specified after completion of containerization at owner's residence or Contractor's facility when specifically ordered by the Contracting Officer. Service performed under this item shall not commence earlier than the eleventh (11th) calendar day (for outbound shipment) from date of completion of containerization service. Date of release from storage shall not be considered in computation of storage charges.

Zone _____ (Provide for additional zones as appropriate.)
Estimated quantity _____ gross cwt.

Distribution of estimated quantity		Unit price (Noncumulative) per gross cwt.	Subtotal amounts
1–10 days	Gross cwt.	$_____	$_____
11–20 days	Gross cwt.	$_____	$_____

§ 22.603–11 Performance.

PERFORMANCE (OCTOBER 1965)

(a) The services called for hereunder shall be performed in conformance with MIL–STD 212 _____, "Preparation of Household Goods for Shipments, Storage, and Related Services", unless otherwise stated herein. All packing service provided by the Contractor under this contract will be subject to a minimum performance standard of _____ net lbs. per gross cu. ft. of container used. This performance may be checked periodically by the Contracting Officer. Labor employed to perform pickup and delivery, inventorying, packing, crating, weighing, marking, loading, hauling, drayage, unpacking, blocking, bracing, and other services described herein shall be competent in the performance of such services.

(b) Inventory of shipment shall be accomplished pursuant to provisions of MIL–STD-212 _____.

(c) All services shall be performed in accordance with the priority order established by the Contracting Officer.

(d) "Military Standard-Preparation of Household Goods for Shipment and Storage and Related Services" (MIL–STD–913 _____) and applicable specifications referred to herein are available in the local Procurement or Transportation Offices.

§ 22.603–12 Time requirements.

TIME REQUIREMENTS (APRIL 1967)

(a) The Contractor shall commence containerization of household goods or unaccompanied baggage at owner's residence or Contractor's facility on the date specified by the Contracting Officer. If containerization is authorized at Contractor's facility, the household goods or unaccompanied baggage as required, shall be picked up on the date(s) specified. Unless a longer period is authorized by the Contracting Officer, the maximum packing and crating time allowed at the Contractor's facility shall be eight (8) working days from specified pickup date for household goods and three (3) working days from specified pickup date for unaccompanied baggage.

(b) The Contracting Officer or his designated representative shall give the Contractor notice to commence containerization or to pick up household goods or baggage shipments at least twenty-four (24) hours prior to the date and time specified.

(c) Delivery or removal of household goods or unaccompanied baggage to or from owner's residence, or packing and crating of household goods or unaccompanied baggage at owner's residence, shall be accomplished between the hours of 8 a.m. and 5 p.m. Monday through Friday only, Federal holidays excluded, unless the owner, his authorized agent, or the Contracting Officer authorizes such services to be accomplished earlier or later than the hours specified.

(d) The Contractor shall accept and pick up inbound shipments of household goods, effect delivery thereof to the destination, and shall unload, unpack, and uncrate the same on the date specified by the Contracting Officer during the working hours set forth above. Delivery shall be effected within two (2) working days from date of pickup/receipt unless otherwise indicated.

§ 22.603–13 Permits and licenses.

PERMITS AND LICENSES (OCTOBER 1965)

(a) Bidder certifies that he or his subcontractor has those valid permits, operating or other authorization required by Federal, State, or foreign regulatory bodies to perform services called for herein.

(b) ICC Operating Authority Number _____

(c) If any authorization is revoked or withdrawn during the life of the contract, the Contractor shall immediately notify the Contracting Officer of such fact in writing.

§ 22.603–14 Demurrage.

DEMURRAGE (OCTOBER 1965)

The Contractor shall be liable for all demurrage or other charges accruing as a result of his failure to remove shipments from

freight cars, freight terminals, vessel piers, or warehouses within the free time allowed under applicable rules and tariffs.

§ 22.603–15 Vans.

VANS (OCTOBER 1965)

Vans used in transporting unpacked and uncrated furniture shall be of the closed type and shall be supplied with sufficient clean, sanitary pads, covers, and other equipment to protect household goods adequately during transit and delivery. Vehicles used in transporting packed and crated personal property may be of the open type provided a weatherproof tarpaulin is used to protect the shipment.

§ 22.603–16 Disposition of packing materials and containers.

PACKING MATERIAL (OCTOBER 1965)

(a) The Contractor shall remove all packing and crating materials from the owner's residence including Government containers. Soiled packing materials shall not be reused.

(b) Title to all household goods, crates, or metal shipping boxes (CONEX) furnished by the Government shall remain with the Government. All Contractor-furnished containers shall become Government property upon their use in performing services ordered under this contract.

(c) The Contractor shall store Government property under protective cover.

§ 22.603–17 Drayage.

DRAYAGE (APRIL 1967)

(a) Drayage under the Schedules of Items in this contract shall include all outbound or inbound hauling of loose articles or containerized shipments and return of empty Government containers from owner's residence or storage point (other than Contractor's facility) to Contractor's facility, common carrier's terminal, freight station, warehouse, military installation shipping office, or pier as directed by the Contracting Officer. When pickup is part of the line haul service, Contractor shall perform loading on freight forwarder or carrier equipment at Contractor's facility. Payment shall not be made for drayage performed within the zones awarded.

(b) Repositioning of Government containers between Contractor's facilities shall be at no additional cost to the Government.

(c) Payment for drayage shall be made at a rate per mile per Gross hundredweight of shipment per shipment over the shortest practicable route.

§ 22.603–18 Interim storage.

INTERIM STORAGE (OCTOBER 1965)

Interim storage of packed and crated household goods for the periods specified by contract Schedules herein shall be furnished by the Contractor without additional cost to the Government. Any expense for furnishing interim storage (when required) shall be included in prices bid for items which provide for such storage. Interim storage for outbound shipments is defined as the period of time between completion of the services ordered (evidenced by receipt of the original packing list by the Contracting Officer) and receipt by the Contractor of final disposition instructions. Interim storage for inbound shipments is defined as the period of time between pickup of loaded containers and receipt by the Contractor of final disposition instructions.

§ 22.603–19 Liability.

LIABILITY (OCTOBER 1965)

(a) The words "reasonable time" as used in the following paragraph mean a period of time not to exceed two (2) years after the time the owner discovers loss or damage to his property or the time he should have discovered the loss or damage if he had exercised due diligence. The word "article" as used in the following paragraph means any shipping piece or package and the contents thereof.

(b) During the period of this contract and for a reasonable time, the Contractor agrees to indemnify the owner for loss or damage to the owner's property which arises from any cause while it is in the Contractor's possession as follows:

(i) *Nonnegligent Damage.* The Contractor shall indemnify owners for any loss or damage to their property which results from any cause, other than the Contractor's negligence, at a rate of not to exceed sixty cents (60¢) per pound per article.

(ii) *Negligent Damage.* When loss or damage is caused by the negligence of the Contractor, he shall be liable for the full cost of satisfactory repair or for the replacement value of the article.

The Contractor shall make prompt payment to the owner of the property for any loss or damage for which the Contractor is liable.

§ 22.603–20 Shipments.

SHIPMENTS (OCTOBER 1965)

Shipments shall be accompanied, if delivered to a common carrier, by Government Bill of Lading issued by the transportation officer. Copies 2, 3, and 4 of the Government Bill of Lading shall be given to the carrier, and all remaining copies receipted by the carrier shall be returned to the transportation officer. Under no circumstances shall these copies be retained by the Contractor more than twenty-four (24) hours after shipment has been delivered to the carrier, Saturday, Sunday and Federal holidays excepted. When household goods are shipped via freight forwarder, the original Government Bill of Lading shall be given to the initial agent of the freight forwarder for conveyance to the consignee. This is in addition to those copies normally furnished to a carrier. The following certification shall be placed on all copies of the Government Bill of Lading for signature by the initial agent of the freight forwarder, in the name of the forwarder: "Initial Carrier's agent, by signature below, certifies he received the original bill of lading."

§ 22.603–21 Erroneous shipments.

ERRONEOUS SHIPMENTS (OCTOBER 1965)

(a) It shall be the responsibility of the Contractor at his expense to have articles of personal effects and household goods which he inadvertently packed with goods of other than the rightful owner forwarded to the rightful owner by the quickest means of transportation.

(b) Further, it shall be the responsibility of the Contractor to insure that all shipments have been stenciled correctly. When a shipment is forwarded to an incorrect address due to incorrect stenciling by the Contractor or its personnel, the shipment shall be returned with the least possible delay to its rightful owner by a mode of transportation selected by the transportation officer. The Contractor shall be liable for all costs incurred including charges for preparation, drayage, and transportation.

§ 22.603–22 Marking and weighing instructions.

MARKING AND WEIGHING INSTRUCTIONS (OCTOBER 1965)

(a) All marking shall be stenciled in accordance with MIL–STD–312 _____. Lettering must be at least 1½ inches in height when the size of the container permits, and in no case less than ¾ of an inch, and spaced in such a manner as to be easily read. All containers of professional books, papers or equipment shall be stenciled "Professional Books, Papers, Equipment" and their weights shall be shown separately on packing lists.

(b) Containers shall be marked with consecutive numbers for each lot of articles contained therein (e.g., Box 1 of 4, Box 2 of 4, etc.) and shall be so listed and identified on the packing list.

(c) Washing machines, refrigerators, radios, and other items which must be kept in an upright position shall have the following notice conspicuously printed on two sides of the container: "Notice to any agent, checker, or owner on receiving this piece. Should container be damaged in any way or if contents are loose, make an exception when receipting for the article. Please note all exceptions.".

§ 22.603–23 Weight certificates.

WEIGHT CERTIFICATES (OCTOBER 1965)

(a) A weight certificate, in triplicate, from a certified scale or weighmaster shall be submitted to the transportation officer for all outbound shipments.

(b) To determine the net weight of inbound household goods shipments, when such weight is not shown on the Government Bill of Lading, the tare weight indicated on the container shall be deducted from the gross weight on the container or on the Government Bill of Lading. The net weight shall be annotated on the Government Bill of Lading.

(c) When inbound shipments include shipping containers other than Type II or III (PPP _____ 580 _____), the tare weight shall be determined in the same manner as in (b) above and such weight shall be deducted from the gross weight set forth on the shipping container or on the Government Bill of Lading, to determine the net weight of the household goods.

§ 22.603–24 Inventory of damaged material.

INVENTORY OF DAMAGED MATERIAL (OCTOBER 1965)

It shall be the responsibility of the Contractor when making delivery to prepare a separate inventory listing all articles lost or damaged and describing such loss or damage. This inventory shall be submitted to the transportation officer within seven (7) days after the delivery of the goods.

Subpart G—Contracts for Laundry and Dry Cleaning Services

Sec.
22.700 Scope of subpart.
22.701 General policy.
22.702 Solicitation provisions.
22.702–1 Instructions to bidders.
22.702–3 Schedule format.

AUTHORITY: The provisions of this Subpart G issued under sec. 2202, 70A Stat. 120; 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 22.700 Scope of subpart.

This subpart contains instructions for the preparation and use of contracts for laundry and dry cleaning services within the United States. It may be used as guidance in all other locations.

§ 22.701 General policy.

Except for laundry and dry cleaning services procured under small purchase procedures, the normal method of obtaining contracts for laundry and dry cleaning services shall be by formal

advertising. The term of such contracts normally shall be for one year but shall not extend beyond the then current fiscal year.

§ 22.702 Solicitation provisions.

All solicitations for laundry and dry cleaning services shall include provisions as set forth below.

§ 22.702–1 Instructions to bidders.

INSTRUCTIONS TO BIDDERS (APRIL 1967)

(a) Bids must include unit prices for each item in a lot. Failure to bid on any item in a lot shall be cause for rejection of the bid on that lot. Bids shall be evaluated on the basis of the estimated quantities stated in the solicitation. Subject to the provision contained herein, award generally shall be made to a single bidder for all lots. The Government reserves the right, however, to award by individual lot when the Contracting Officer determines that this is more advantageous to the Government.

(b) Upon application to the Contracting Officer, types of articles to be serviced may be inspected prior to bidding.

§ 22.702–2 Schedule format.

Set forth below is an example of a schedule format suitable for use in solicitations. The estimated quantities are only illustrative.

Item No.	Item	Estimated quantity for contract period	Unit	Unit price	Amount
	LOT I				
	LAUNDERING				
1	Pillowcases (F)	100,000	each		
2	Nurses Uniforms, with bib (S) (F) (OD)*	20,000	each		
3	Slippers	10,000	pair		
	LOT II				
	DRY CLEANING				
4	Curtains	200	each		
5	Trousers (F)	4,000	each		
	LOT III**				
	INDIVIDUAL LAUNDRY				
6	Individual laundry (24 pieces)	1,000	each		
7	Individual laundry (12 pieces)	1,000	each		

*(S)—Starched, (F)—Finished, (OD)—Items delivered on hanger (hanger included in unit price), and ( ) other instructions as required.

**Include in contracts containing the individual laundry clause in § 7.1403–13 of this chapter.

Subpart H—Rental of Motor Vehicles

Sec.
22.800 Scope of subpart.
22.801 Type of contract.
22.802 Limitation on use.
22.802–1 Prestige motor vehicles.
22.802–2 Authority to rent motor vehicles.
22.802–3 Age of vehicles.
22.803 Schedule provisions.

AUTHORITY: The provisions of this Subpart H issued under sec. 2202, 70A Stat. 132; 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–132; 10 U.S.C. 2301–2314.

§ 22.800 Scope of subpart.

Procurement procedures peculiar to contracts for the rental of limousines, sedans, and station wagons from commercial concerns, with the driver provided by the Department of Defense, are set forth in this subpart. Detailed procedures concerning the rental of motor vehicles are contained in "Joint Procedures for Management of Administrative Use Motor Vehicles" (AR 58–1; OPNAV P 44–2; AFM 77–1; MCO P11240.46; DSAR 4510.5). Contract clauses for the rental of motor vehicles are prescribed in Subpart O, Part 7 of this chapter.

§ 22.801 Type of contract.

Contracts for the rental of motor vehicles shall be of either a definite quantity or an indefinite quantity type, providing for payment on a flat rate basis or a combination of flat rate and mileage basis.

§ 22.802 Limitation on use.

Contracts for the rental of vehicles are subject to the following limitations.

§ 22.802–1 Prestige motor vehicles.

Prestige motor vehicles (limousines, heavy sedans, and medium sedans) may be rented only for use in accordance with and subject to the approval required in the Joint Procedures for Management of Administrative Use Motor Vehicles.

§ 22.802–2 Authority to rent motor vehicles.

(a) Contracts for the rental of motor vehicles may be entered into by the contracting officer:

(1) For periods not exceeding 30 days without regard to established allowances, when required to satisfy peak load, unusual, or emergency requirements. This authority shall not be used, however, to provide transportation for normal, routine requirements for which allowances have been established and vehicles provided;

(2) For periods not exceeding 90 days, within any 12 consecutive months, to provide transportation for normal, routine purposes to the extent Department of Defense owned vehicles have not been supplied to fill established allowances; and

(3) After prior approval as required in accordance with the Joint Procedures for Management of Administrative Use Motor Vehicles—

(a) For periods in excess of those specified in subparagraphs (1) and (2) of this paragraph; requests for approval shall include justification, number of vehicles by type, the total estimated contract cost, and the anticipated period of use; and

(b) For the rental of vehicles not in conformance with the body design, weight, equipment, accessories, or other features which would have been authorized if Department of Defense owned vehicles had been provided.

§ 22.802–3 Age of vehicles.

Generally, solicitations shall not be limited to the current year's production models. However, with the prior approval of the Head of the Procuring Activity concerned or his designee, such solicitations may be limited to current models on the basis of overall economy.

§ 22.803 Schedule provisions.

The Schedule of each solicitation or resulting contract shall set forth:

(a) Contract period;

(b) Scope of contract;

(c) Special payment provisions;

(d) A listing of the number and types of vehicles being rented;

(e) Rates applicable to each type of vehicle;

(f) Equipment and accessories to be provided with each vehicle;

(g) A provision as to the furnishing of gasoline, motor oils, antifreeze, etc.;

(h) Unless a prior determination has been made that it will be more economical for the Department of Defense to perform the work, a statement that the contractor shall perform all maintenance on the vehicles;

(i) A statement as to pertinent state and local laws and regulations;

(j) The responsibilities of the parties in the event of the malfunctioning of the vehicles;

(k) The responsibilities of the parties for emergency repairs and services; and

(l) Performance bonds, if required.

PART 30—APPENDICES TO ARMED SERVICES PROCUREMENT REGULATIONS

§ 30.3 [Amended]

29. In § 303.3, under item 305, the reference "4–214.4" is changed to read "4–116.4".

[Rev. 22, ASPR, Apr. 3, 1967] (Sec. 2202, 70A Stat. 120; 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–132; 10 U.S.C. 2301–2314)

KENNETH G. WICKHAM,
Major General, U.S. Army,
The Adjutant General.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS: GENERAL RULES AND REGULATIONS

Order

In the matter of amendment of Part 2, Subpart G of the Commission's rules and regulations to effect certain editorial changes therein.

The Commission having under consideration the desirability of making certain editorial changes in Part 2, Subpart G of its rules and regulations; and

It appearing, That the amendments adopted herein are editorial in nature, and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing, That the amendments adopted herein are issued pursuant to authority contained in sections 4(i), (5)(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.261(a) of the Commission's rules;

It is ordered, This 3d day of July 1967, that effective July 10, 1967, Part 2, Subpart G is amended as set forth in the appendix below.

Released: July 3, 1967.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

APPENDIX

In Subpart G §§ 2.601, 2.602, and 2.603 are revised to read as follows:

§ 2.601 General.

This subpart is corrected to July 1, 1967. The Commission does not distribute copies of these documents. Inquiry may be made to the U.S. Government Printing Office concerning availability for purchase.

§ 2.602 Citation abbreviations used in this subpart.

§ 2.603 Treaties and other international agreements relating to radio.

(a) The applicable treaties and other international agreements in force relating to radio and to which the United States of America is a party (other than reciprocal operating agreements for radio amateurs) are listed below:

Date	Citations	Subject
1925	IV Trenwith 4248, 4250 and 4251. TS 726–A.	US-UK (also for Canada and Newfoundland) Bilateral Arrangements providing for the Prevention of Interference by Ships off the Coasts of these Countries with Radio Broadcasting. Effected by exchange of notes Sept. and Oct., 1925. Entered into force Oct. 1, 1925.
1928 and 1929	102 LNTS 143. TS 767–A.	US-Canada Arrangement governing Radio Communications between Private Experimental Stations. Effected by exchange of notes at Washington Oct. 3 and Dec. 28, 1928, and Jan. 12, 1929. Entered into force Jan. 1, 1929. Continued by the arrangement contained in EAS 62.
1929	IV Trenwith 4787. TS 777–A.	US-Canada (including Newfoundland) Arrangement relating to Assignment of High Frequencies on the North American Continent. Effected by exchange of notes at Ottawa Feb. 28 and 26, 1929. Entered into force Mar. 1, 1929. (Originally, Cuba was also a party to this arrangement, but by virtue of notice to the Canadian Government, it ceased to be a party effective Oct. 5, 1932.)
1934	48 Stat. 1876. EAS 62.	US-Canada Arrangement relative to Radio Communications between Private Experimental Stations and between Amateur Stations. Continues the arrangement contained in TS 767–A. Effected by exchange of notes at Ottawa Apr. 22, and May 2 and 4, 1934. Entered into force May 4, 1934.
1934	49 Stat. 3355. EAS 66.	US-Peru Arrangement regarding Radio Communications between Amateur Stations on Behalf of Third Parties. Effected by exchange of notes at Lima Feb. 16 and May 23, 1934. Entered into force May 23, 1934.
1934	49 Stat. 3067. EAS 73.	US-Chile Arrangement regarding Radio Communications between Amateur Stations on Behalf of Third Parties. Effected by exchange of notes at Santiago Aug. 2 and 17, 1934. Entered into force Aug. 17, 1934.
1937	53 Stat. 1576. TS 938.	Inter-American Radio Communications Convention between the United States and Other Powers. Signed at Havana Dec. 13, 1937. (First Inter-American Radio Conference.) Entered into force for the United States July 21, 1938, for Parts I, III and IV; Apr. 17, 1939, for Part II. Part II of the Convention (Inter-American Radio Office) terminated for all parties Dec. 20, 1946 (TIAS 4079).
1938	54 Stat. 1675. TS 949.	Regional Radio Convention between the United States (in behalf of the Canal Zone) and Other Powers. Signed at Guatemala City Dec. 6, 1935. Entered into force Oct. 5, 1938.
1938	53 Stat. 2092. EAS 142.	US-Canada Agreement regarding Radio Communications between Alaska and British Columbia. Effected by exchange of notes at Washington June, July, Aug., Sept., Oct., Nov., and Dec., 1938. Entered into force Aug. 1, 1938.
1939	53 Stat. 2187. EAS 143.	US-Canada Arrangement governing the Use of Radio for Civil Aeronautical Services. Effected by exchange of notes at Washington Feb. 20, 1939. Entered into force Feb. 20, 1939.
1940	54 Stat. 2463. EAS 190.	US-Mexico Agreement relating to Radio Broadcasting. Effected by exchange of notes at Mexico Aug. 24 and 28, 1940. Entered into force Mar. 29, 1941.
1946	60 Stat. 1696. TIAS 1557.	US-USSR Agreement on Organization of Commercial Radio Teletype Communication Channels. Signed at Moscow May 24, 1946. Entered into force May 24, 1946.
1947	61 Stat. (3) 3131. TIAS 1662.	US-UK Agreement regarding Standardization of Distance Measuring Equipment. Signed at Washington Oct. 18, 1947. Entered into force Oct. 18, 1947.
1947	61 Stat. (4) 3416. TIAS 1670.	US-UN Agreement relative to Headquarters of the United Nations. Signed at Lake Success June 26, 1947. Entered into force Nov. 21, 1947. Supplemented by the agreement contained in TIAS 2681 which was signed Feb. 9, 1952.
1947	61 Stat. (4) 3809. TIAS 1728.	US-Canada Agreement providing for Frequency Modulation Broadcasting in Channels in the Radio Frequency Band 88–108 Mc/s. Effected by exchange of notes at Washington Jan. 8 and Oct. 15, 1947. Entered into force Oct. 15, 1947.
1948	9 UST 621. TIAS 4044.	Intergovernmental Maritime Consultative Organization (IMCO) Convention. Signed at Geneva Mar. 6, 1948. Entered into force Mar. 17, 1958.
1949	3 UST (3) 3305. TIAS 2493.	London Telecommunications Agreement between the United States and Certain British Commonwealth Governments. Signed at London Aug. 12, 1949. Entered into force Feb. 26, 1950. Amended by the agreement contained in TIAS 2705 which was signed Oct. 1, 1952.
1940	3 UST (2) 2054. TIAS 2489.	Inter-American Radio Agreement between the United States and Canada and Other American Republics. Signed at Washington July 9, 1949. (Fourth Inter-American Radio Conference.) Entered into force Apr. 12, 1952, subject to the provisions of Article 13.
1950	3 UST (2) 2672. TIAS 2488.	US-Ecuador Arrangement regarding Radio Communications between Amateur Stations on Behalf of Third Parties. Effected by exchange of notes at Quito Mar. 16 and 17, 1950. Entered into force Mar. 17, 1950.
1950	11 UST 613. TIAS 4490.	North American Regional Broadcasting Agreement (NARBA). Signed at Washington Nov. 15, 1950. Entered into force Apr. 19, 1960. Effective between United States, Canada, Cuba, Dominican Republic, and the United Kingdom of Great Britain and Northern Ireland for the Bahama Islands. Ratification on behalf of Jamaica pending.
1950 and 1951	2 UST (1) 663. TIAS 2223.	US-Liberia Arrangement regarding Radio Communications between Amateur Stations on Behalf of Third Parties. Effected by exchange of notes at Monrovia Nov. 9, 1950, and Jan. 8, 9, and 10, 1951. Entered into force Jan. 11, 1951.
1951	3 UST (3) 3787. TIAS 2508.	US-Canada Convention relating to the Operation by Citizens of Either Country of Certain Radio Equipment or Stations in the Other Country. Signed at Ottawa Feb. 8, 1951. Entered into force May 15, 1952.
